Re:John Hancock Life Insurance Company (U.S.A.)
Company NAIC # 65838; FEIN #: 01-0233346
Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memo's (See Policy Form List Below)
Pre-rate Stabilization Submission

Dear Commissioner:

John Hancock has recently completed our 2013 claims study. This comprehensive study is conducted every three years and examines the usage trend for our insured population. This study shows significant unfavorable trends since the 2010 study that prompted our last rate increase filing. In general, we are seeing longer-lasting and more expensive claims, increased claim incidence at the older attained ages and decreased mortality.

As a result of the factors listed above, we are requesting a premium rate increase on the policy series listed below and are enclosing the actuarial memos and rates for your review and acceptance.

Policy SeriesApproval DateYears SoldAverage Increase
LTC-VA-9110/3/1991, 7/17/2009, 12/1/20111991 – 199435.7%
NH-VA-9110/3/1991, 12/1/20111991 – 199335.7%
LTC-94 VA12/20/1993, 7/17/2009, 12/1/20111994 – 199735.7%
NH-94 VA10/28/1993, 12/1/20111994 – 199935.7%
LTC-96 VA9/5/1996, 7/17/2009, 12/1/20111996 – 199840.5%
LTC-96 VA 9/961/30/1997, 7/17/2009, 12/1/20111997 – 200440.5%
LTC-96CL VA 9/5/1996, 7/17/2009, 12/1/20111996 – 199740.5%
LTC-96CL VA 9/96 1/30/1997, 7/17/2009, 12/1/2011199740.5%
NH-99 VA 4/9910/7/1999, 7/17/2009, 12/1/20112000 – 200340.5%
LTC2000 VA 4/0010/15/2001, 7/17/2009, 12/1/2011200240.5%
LTC-02 VA8/8/2002, 12/1/20112002 – 200421.6%
BSC-02 VA8/8/2002, 12/1/20112002 – 200421.6%

The proposed premium rates will be effective on the next policy anniversary date, following a 60-day policyholder notification period, which will be made as soon as practicable following state acceptance. As we will describe later in this letter, we will also offer affected insureds various benefit reduction options to help mitigate the impact of the rate increase..

The increases requested reflect the timing of the acceptance of our 2010 rate increase filing as well as any unapproved amounts from our 2010 filing on an actuarially equivalent basis.

Policyholder Options
We are fully aware that a premium increase may be difficult for our policyholders. Therefore we will provide all policyholders with an array of options which will help them mitigate the impact of any increase. Most important, for those policyholders who originally purchased lifetime 5% compound or 5% simple inflation, we will provide them with the ability to completely avoid the increase by reducing their future inflation coverage to a lower percentage which will vary by policy series. These policyholders will be able to keep all accrued inflation increase amounts to date and the lower inflation index will apply on a prospective basis only. The endorsements and other applicable forms needed to implement the benefit reduction options will be filed under a separate forms submission.

In addition, policyholders will be able to reduce their benefit period, adjust their daily/monthly benefit amount, drop optional benefit riders or extend their elimination period.

We are also submitting for your information with the forms submission, new Personal Worksheets ICC14-PWK 2/14 & ICC-PWKDM 2/14 which includes the appropriate disclosure regarding this increase. No change will be made to this form other than state specific information that is requested by your Department or another state insurance Department.

Where the NAIC contingent nonforfeiture benefit or the nonforfeiture benefit (if purchased) is triggered, customers will be offered paid-up coverage in accordance with the applicable provision. We are allowing contingent nonforfeiture if the rate increase trigger is met for all affected policyholders, even if it was not otherwise required in your State. (Please note, that we will be voluntarily administering the enhanced contingent nonforfeiture benefit as described in the NAIC Model Bulletin "Announcement of Alternative Filing Requirements for Long-Term Care Premium Rate Increases" (as adopted by the Senior Issues Task Force on 8/9/2013.)

Mr. Grissom requested that John Hancock confirm that we voluntarily comply with all provisions of the NAIC Model Bulletin. Please be advised that John Hancock agrees to meet all requirements in the NAIC Bulletin “Announcement of Alternative Filing Requirements for Long-Term Care Premium Rate Increases“. This includes the following elements:

•We will meet all actuarial assumption standards set for in the Bulletin.
•Should the Department so request, we will also pay for an actuarial review by an outside actuarial consultant selected by the Department.
•We will apply an 85% Loss Ratio on premium increase (this goes beyond the Bulletin which calls for an 80% loss ratio on the premium increase)
•We will work with the Department on an approval implementation timeline.
•If full rate increase is approve, we will not apply another increase on insureds for 36-months
•We will also agree to implement on an annual phased-in approach on an actuarially equivalent basis.
•We will make available the liberalized contingent nonforfeiture (CNF) option
•Maximum threshold now 100%
•For insureds who have held policy for 20 + years, CNF will be made available with no rate increase % threshold
•As we did in 2010, we have included our proposed policyholder communication package under a separate forms filing. It meets all proposed disclosure elements.
•We will continue to manage the administration and communication initiatives associated with the increase in accordance with our 2010 implementation protocols.

In addition, Mr. Grissom also requested a summary of the rate increase. This document captioned "2013 Summary" is included in Supplemental Information.

This submission is being filed in all states, the District of Columbia and Puerto Rico.

The following items are included in this submission:
*the submission letter.
*all actuarial material.
*all required certifications.

Please do not hesitate to contact us regarding this submission. We will be happy to meet with the Department either in person or via conference call at a time of your convenience.

Thank you for your time and consideration in this matter.

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	02/17/2016
Submitted Date	02/17/2016
Respond By Date	

Dear Michelle Fluet,

Introduction:

John Hancock Life Insurance Company (U.S.A.)
SERFF Tracking No: MULF-129480189
Form Nos.: JHLTC-1531 1/14, et al.

We have continued our review of the forms and we have the concerns addressed below.

Objection 1

- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)
- Options Worksheet, JHLTC-1532 GPO 1/14 (Form)
- Frequently Asked Questions, JHLTC-1533 GPO 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 GPO 1/14 (Form)

Comments: Form number JHLTC-1531_GPO 1/14 is inconsistent with the form number identified in the Form Schedule. Please note that the number appearing in the Form Schedule must mirror that appearing in the form including dashes, slashes and spacing. Please advise which form number is correct. If the form number appearing in the lower left-hand corner on the first page of the form is correct, please revise the Form Schedule to display the correct form number. If the Form Schedule is correct, please provide us with a revised form. This concern also applies to forms JHLTC-1532_GPO 1/14, JHLTC-1533_GPO 1/14, and JHLTC-1534_GPO 1/14.

Objection 2

- Policyholder Letter, JHLTC-1531 1/14 (Form)
- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)

Comments: The form appropriately identifies the full and proper corporate name; however, after doing so, the form then refers to the company only as John Hancock. The form requires a mechanism to indicate that John Hancock Life Insurance Company (U.S.A.) will be referred to as John Hancock thereafter. Our objection would be resolved if the Re note was revised to state John Hancock Life Insurance Company (U.S.A.) (John Hancock). As an observation applicable to form JHLTC-1531 1/14, please note that a comma should not appear between Company and (U.S.A.) when stating the full and proper corporate name.

Objection 3

- Statements of Variability for Policyholder Communication Packages (Supporting Document)
- Options Worksheet, JHLTC-1532 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 1/14 (Form)

Comments: The benefit period, inflation option and elimination period fields are presented as a range of values. The Statement of Variability should express the minimum and maximum values.

Objection 4

- Statements of Variability for Policyholder Communication Packages (Supporting Document)
- Options Worksheet, JHLTC-1532 GPO 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 GPO 1/14 (Form)

Comments: The benefit period field is presented as variable. The Statement of Variability should express the minimum and maximum values.

Objection 5

- Endorsement, LTC-CHGEN 9/15 (Form)

Comments: The third bullet appearing in the Termination provision states that the endorsement will terminate when the policy is continued upon the provisions of any nonforfeiture benefit. For purposes of clarity, should the bullet be expanded to state or a contingent benefit upon lapse?

Conclusion:

We shall be glad to reconsider this submission upon receipt of the revised forms to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Elsie Andy
Senior Insurance Market Examiner

Sincerely,
Elsie Andy

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	01/21/2016
Submitted Date	01/21/2016
Respond By Date	

Dear Michelle Fluet,

Introduction:

Thank you for the revised policyholder notification package. There are several items that still need to be addressed:

1) According to your response to our objection 3, the Option Worksheet was expanded to state some benefit reduction options may result in a loss of partnership status. We do not have an issue with the company including the reference to Medicaid Asset Protection; however, for compliance with 14VAC5-200-75 D 2 c, please include the required statement that some options may result in a loss of partnership status. This disclosure must appear in both Option Worksheets. Please bold the statement referencing partnership policies on the Coverage Change Request Form JHLTC-1534 1/14.

2) It appears when the Option Worksheets were reattached on 12/21/15, the last page is missing in error. Please expand in the Option Worksheet to state the lifetime maximum benefit will be reduced to an amount equal to the premiums paid on the policy to date or 30 times the daily nursing home benefit at the time of lapse, whichever is greater; but in no event will the sum of benefits exceed the maximum benefits which would be payable if the policy had remained in premium paying status.

3) In response to our objection 4 regarding the one time offer, the company stated due to the administrative complexity, if the insured pays the first scheduled increase, the company will not offer an inflation reduction option to offset the remaining scheduled increases. Please clarify why offering this as part of a series of rate increase would be any different that offering this for separate increases. At the same time this may not be an issue at this time as the company has indicated if a single increase is approved, there will be no further rate increases for 36 months as noted in the policyholder letter. So this letter may be used for future rate increases implemented in as a series of increases, the letter should contain the appropriate variability.

4) The Options Worksheet JHLTC-1532_GPO 1/14 states benefits can be reduced upon your request on any future policy anniversary. Please provide copy of the language in the policy that provides for this. If there is no such language that addresses this issue, both Option Worksheet forms should advise the insured that a request for a change in benefits can be made at any time and not just as the time of a rate increase.

5) Please confirm page 1 of the Options Worksheet JHLTC-1532 1/14 will print as a single page. At this time, it is carrying over to a second page; otherwise, please add the form number to the lower left hand corner of the first page for compliance with 14VAC5-100-50 1.

6) The Coverage Change Request Form JHLTC-1534 1/14 must be expanded to include selection of other benefit change options (reducing the benefit period, daily/monthly benefit or both).

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned at 804-371-9390.

Thank you for your courtesy and consideration in this matter.

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	12/15/2015
Submitted Date	12/15/2015
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your reply to our request for additional information regarding the policyholder communication package. As noted previously, the letters are only required to filed once for all future Long Term Care filings provided there is sufficient variability to do so; and, as a result, these letters will also be used with SERFF tracking # MULF-129480734. Before further consideration may be given, this new information presents the following concerns and /or questions:

Objection 1

- Policyholder Letter, JHLTC-1531 1/14 (Form)
- Frequently Asked Questions, JHLTC-1533 1/14 (Form)
- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)
- Frequently Asked Questions, JHLTC-1533 GPO 1/14 (Form)

Comments: The policyholder letter and last sentence to Question 1 in the FAQ indicates that premiums are being increased solely on future claim expectancy; and there is a concern this may be potentially confusing to the insured. For clarification purposes, we suggest the wording be revised similar to the following:

"As compared to our previous analysis, the new data shows that policyholders are living longer than expected, their claims are lasting longer than expected, and more people than expected are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series to reflect that future claims are expected to be significantly higher on these policies than originally expected or priced."

Objection 2

- Policyholder Letter, JHLTC-1531 1/14 (Form)
- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)

Comments:

In reviewing the letters, the following items still need to be addressed:

1) The Certification of Compliance does not include the required language as set forth in 14VAC5-100-40 3. Please revise.

2) Please replace Virginia Department of Insurance with Virginia Bureau of Insurance in the section entitled "About the Premium Increase."

3) Under the section entitled "Next Steps" the language that all options may not be of equal value should be emphasized. As a "disclosure" it should be written in a manner that draws attention to it such as bolding, highlighting or using larger print to clearly indicate its importance.

4) Please include in the letter the insured has a right to a revised premium rate or rate schedule upon request for compliance with 14VAC5-200 75 A 4 b.

5) Please remind the insured that benefits can be changed upon the insured's request and not just at the time of a rate increase.

Objection 3

- Options Worksheet, JHLTC-1532 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 GPO 1/14 (Form)

Comments: The first sentence on the Options worksheet states the individual is being offered a one-time opportunity to reduce his future annual inflation rate. Doesn't the insured upon request have the opportunity at any time to change the benefits in his policy including the inflation rider?

There is also variable language that states the inflation rate reduction option is a limited time offer and is available only this year - it will not be available in subsequent years as additional premium increase segments are implemented. According to the statement of variability this will only appear in the increase is being implemented in a phased-in approach. Can the company not provide an equivalent reduced inflation rate for the phased-in increases?

The form also references the effect changes can have on the policy's partnership status. This is also noted on the Coverage Change Request Form. Pursuant to 14VAC5-200-75 D 2 c, in the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss of partnership status may reduce policyholder protections is required. Although the information provided on the forms is specific and emphasized, the language should more closely mirror language in the regulation.

Objection 4

- Statements of Variability for Policyholder Communication Packages (Supporting Document)
- Options Worksheet, JHLTC-1532 1/14 (Form)
- Options Worksheet, JHLTC-1532 GPO 1/14 (Form)

Comments: So that the language in the worksheet is consistent with 14VAC5-200-185 and to avoid any confusion regarding the two nonforfeiture benefits, please refer to the Contingent Nonforfeiture Benefit as the Contingent Benefit Upon Lapse (CBUL) in both the worksheet and Statement of Variability (SOV). This would also apply to the Coverage Change Request Form and anywhere else such reference may appear.

It is stated under the CBUL section and SOV, the new policy limit represents the sum of all premiums paid. It should also be stated the benefit shall not be less than 30 times the daily nursing home benefit at the time of lapse pursuant to 14VAC5-200-185 E 3.

The SOV states eligibility for the CBUL is based on the standard NAIC trigger. Since our regulations have been amended, please indicate this is based on the triggers as set forth in 14VAC5-200-185 D 3.

Objection 5

Comments: According to your response, changes to the policy will be through the use of an updated Policy Schedule Page and a Coverage Confirmation letter. Please attach a copy of the Coverage Confirmation letter to supporting documentation.

If a new Policy Schedule Page is generated, the form should be filed and approved by the Bureau of Insurance and contain the following:

- Date of document or indication of effective date of change in policy benefits;
- Some indication in writing in the document that a change is being made to the policy, and this new document is to be made a part of the contract.

We understand the original Policy Schedule Page most likely included variability when it was initially approved as part of the policy. However, if the above information was not included as part of that variability, the change would not be documented indicating the terms of the contract have been legally revised, and the coverage would be inconsistent with that stated in the original application

attached to the policy.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	10/29/2015
Submitted Date	10/29/2015
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

1.Regarding objection #1 addressed in your October 19, 2015 response, we were unable to locate an exhibit entitled "VA Adv LR Exhibit @ oPr.pdf". The information that we used in our analysis was derived from the exhibit "Inforce Business Projected at Original Pricing (Pre-RS).pdf". This exhibit projected the incurred claims and earned premiums using the actual inforce policies at the projection date and the original premium scale and pricing assumptions going forward from that date. According to the information in that exhibit, the projected present value of future loss on the Advantage block of policies is $701.4M minus $175.4M, or $526M. From Exhibit 1b (Advantage), the projected present value of future loss on this block using current premiums and assumptions is $796.7M minus $331.3M, or $465.5M. This data shows that, while the future claims under current assumptions are projected to be $95M higher than under the original assumptions, the rate increases already implemented on this block are expected to provide an additional $156M of future premium. We therefore conclude that no further increase can been justified on the Advantage policy forms.

2.Regarding objection #2 addressed in your October 19, 2015 response, please explain the apparent anomaly where the claim count in the chart by duration is 47,273 versus 23,580 in both the issue age and attained age charts.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	08/31/2015
Submitted Date	08/31/2015
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

1.According to the information submitted, the projected present value of future loss on the Advantage block of policies is less under the current premium scale than what is projected under the original pricing assumptions. We therefore conclude that no increase can been justified on this subset of the policy forms.

2.The Company previously communicated that it uses a confidence interval approach to setting morbidity assumptions rather than a credibility approach. Please describe the confidence intervals on the morbidity assumptions at the late durations and advanced ages which are a significant driver of projected claim costs for LTCI plans.

3. This is to acknowledge your response that the company is waiting the outcome of the discussions between the BOI and ACLI regarding how long term care policies should be updated.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	08/20/2015
Submitted Date	08/20/2015
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. The filing is currently under review and this objection letter addresses only issues regarding the policyholder communication package.

Objection 1

- Response to 4/2/15 objection (Supporting Document)

Comments: The Virginia State Corporation Commission recently adopted revisions to the Rules Governing Long-Term Care Insurance set forth in Chapter 200 of Title 14 of the Virginia Administrative Code. Except as specifically provided in the regulation, the changes are effective September 1, 2015. The Order adopting the revisions to the long term care insurance regulation and all related documents are located on the commissions website at http://www.scc.virginia.gov/DocketSearch#/caseDetails/132748.

As part of the revisions, the commission revised the requirements for policyholder notifications regarding rate increases as stated in 14 VAC5-200-75 D. A summary of the new requirements are:

The notice is required to be filed with the commission at the time the premium rate increase is filed;

The insurer is required to provide the notice at least 75 days prior to the implementation of the premium rate schedule increase;

The notice is required to include at least the following information:

1. All applicable information identified in 14VAC5-200-75 including A 1 which requires a statement indicating the policy may be subject to future rate increases; A 2 which requires a statement that should there be future rate increases, options similar to those being offered now will be available; A 3 which requires a statement indicating the premium rate or rate schedules that will be effect; A 4 a which requires a statement as to when the premium rate or or rate schedule adjustments will be effective; and A 4 b which requires a statement that the insured has a right to a revised premium rate or rate schedule upon request.
2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount, including:
a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183;
b. A disclosure stating that all options available to the policyholder may not be of equal value;
c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections; and
d. Contact information that will allow the policyholder to contact the insurer for additional options available;
3. A clear identification of the driving factors of the premium rate increase; and
4. A statement substantially similar to the following:

The rate increase request was reviewed by Virginias State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at www.scc.virginia.gov/BOI.

As a result, the company will need to submit for review a policyholder notification letter(s) in compliance with the requirements of 14VAC5-200-75, as revised. Because the letter(s) must be "filed", the company may submit the letters under a new SERFF filing or attach the amended letters to the Form Schedule of this SERFF filing in compliance with the requirements of Chapter 100 of Title 14 of the Virginia Administrative Code including a Certification of Compliance.

Since the letters should be submitted only once to be reviewed and filed with the state, we are not sending a similar objection for the filing under SERFF tracking number MULF-129480734.

Objection 2

- Response to 4/2/15 objection (Supporting Document)

Comments: Please provide the following information regarding the two policyholder letters: JHLTC-1531_GPO 1/14 and JHLTC-1531 1/14:

1. We note one letter provides for "Options to Minimize the Premium Increase" and the other provides "Options to Avoid or Minimize the Premium Increase." Please explain what determines which letter is sent to a policyholder.

2. Policyholder letter JHLTC-1531_GPO 1/14 is 6 pages and consists of one form number. Policyholder letter JH-15311/14 consists of 6 pages but contains the following form numbers: JHLTC-1531 1/14, JHLTC-1532 1/14, and JHLTC-1533 1/14. According to the letters, the enclosures include the Options Worksheet, Frequently Asked Questions, and Coverage Change Request Form.

Only the forms that make up the policyholder letter (which must contain all the information noted in our previous objection) needs to be attached to the Form Schedule in SERFF. Each enclosure should have a separate form number from the policyholder letter and attached to Supporting Documentation. If the enclosures are actually a section of the letter to be mailed as a single document, each form should be attached to the Form Schedule. Please confirm such enclosures will always be sent as a complete package and that changes may not be made to these documents without the company filing the forms with the state for review.

3. On page 2 of Form JHLTC-1531 1/14 there is a statement this document represents a scenario when the insured is eligible for a landing spot. It will be altered as needed to represent other situations. Please provide more detail as to how the form will the altered and under what type of other situations.

4. In our previous objection letter, there was a concern regarding unfair discrimination in the first paragraph of the policyholder letter. The company declined to make any changes indicating it has not received any significant number of complaints stemming from this language. Although the company may not have received complaints regarding this specific issue, the Bureau of Insurance has had policyholders raise it in phone discussions as part of an overall complaint. Wording that the increase is needed on "certain policy series" and "yours is one of those policies affected" create concern the rate increases are applying to a small group of insureds. And thereby policyholders feel they are being subjected to unfair discrimination. We again request the statement be clarified or revised to avoid such potential confusion or concern by our policyholders.

Objection 3

- Response to 4/2/15 objection (Supporting Document)

Comments: The Statement of Variability for both letters states the company name may vary based on the company of the policyholder. Such variability is not permitted under 14VAC5-100-50 2. We can only review these letters for the company for which this filing has been submitted. In other words, John Hancock Life & Health Insurance Company would need to submit policyholder letters under its own NAIC number.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned at 804-371-9390.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

State: Virginia **Filing Company:** John Hancock Life Insurance Company (USA)

Objection Letter

Objection Letter Status	Disapproved
Objection Letter Date	04/02/2015
Submitted Date	04/03/2015
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

1. Please provide a copy of the independent third party peer review of the new morbidity assumptions.

2. Given the time elapsed since the original filing, please update all previously provided projections with actual historical experience through a more recent date.

3. Please provide a projection of anticipated future experience using the actual inforce policies on the projection date, but using the original premium scale and the original pricing assumptions for lapse, mortality and morbidity to project both future premiums and claims.

4. We understand the proposed inflation landing spots are actuarially equivalent to the requested rate increase in aggregate. We remain concerned with policyholder equity. Please provide several examples (including outliers) of the variability in the relative present value of each option available in lieu of increase from the individual policyholder perspective. We are interested in seeing the effect on an individual basis how actuarially equivalent the landing spots may be.

5. Please provide further detail about what the benefit will be for a policyholder the elects the "landing spot". Will it be the amount in effect at the time of the reduction or will it be recalculated?

6. After a further review of the policyholder communication package, we have the following concerns:

- The last sentence in the first paragraph of the policyholder letter may cause a concern regarding unfair discrimination. The insured may question why this particular series is getting an increase and another series is not. Please clarify or revise the statement to avoid such potential confusion or concern.

- The letter should contain a disclosure that the policy is guaranteed renewable for compliance with the NAIC Model Bulletin. We also ask the sentence stating the rate increase has been filed with the Virginia Insurance Department be rephrased for accuracy as follows or use words of similar import:

"The Virgina State Corporation Commission reviewed the filing with applicable Virginia laws and regulations governing Long Term Care Insurance; and because it was found to be compliant with these laws and regulations, the filing was approved."

- Please provide a Statement of Variability for the policyholder letter.

7. Please provide us with a sample letter when the insured is not eligible for a landing spot with a statement of variability for both letters.

8. The company may choose to implement this rate increase at one time or over a three year period as noted in the General

Information tab in SERFF. If the company chooses to implement the increase at one time, please amend the letter to clearly state the company will not apply another increase for 36 months. If the rate increase will be implemented over a three year period, please amend the policyholder letter accordingly to state the overall rate increase and provide the rate increase for each phase and the implementation schedule. Please attach rate schedules for each phased in period in the Rate/Rule Schedule, correct the Company Rate Information for accuracy, and amend the Actuarial Memorandum accordingly.

9. The Bureau of Insurance has recently directed long term care policies must be updated via an endorsement for any changes the policyholder has requested. Because this would be a part of the entire contract, such a form would require review and approval; the company can no longer simply send a revised policy schedule page. If the company already has such forms previously approved, please attach a copy of the form and provide the SERFF tracking number and date of approval. If a new form is needed, please attach the form to this filing for review and approval. Please keep in mind, there are several options provided in the policyholder letter to reduce the effect of the rate increase. Please be sure all options are covered in the new form or forms. If the company chooses to include variability in the form, please provide a statement of variability. A Certification of Compliance would be required in accordance with 14VAC5-100-40 3 as well as a readability certification in accordance with 14VAC5-110-60. We are aware the endorsements for the various inflation riders have been filed under SERFF tracking # MULF-129533194.

For clarification purposes, the company may include a revised Schedule of Benefits page in addition to the endorsement if the company so chooses.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Disapproved
Objection Letter Date	12/11/2014
Submitted Date	12/11/2014
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

1.The answer to our previous question related to credibility did not provide the information requested. Please provide the standard that the Company has chosen to represent full credibility and reference to any actuarial literature supporting that measure. Using this standard, please provide calculations of the credibility of past claim experience results for each policy series (Advantage, Gold, CCI).

2.The document "2013 vs 2010 Adv Morbidity Assumptions.pdf" shows that the 2013 morbidity assumptions are significantly higher than those used in the 2010 rate filing. While the actuarial memorandum includes information showing that the new assumptions have a reasonable fit with the early duration claim experience, there is limited support given for the increases assumed in later duration future experience. Since the increase in projected loss ratio depends largely on the change in the assumption of future morbidity, please provide further support for why the company's expectation of future morbidity has deteriorated significantly since the previous rate increase filing only a couple of years ago. This support should include, but not be limited to, claim counts by duration that were used in the morbidity study.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter Status	Disapproved
Objection Letter Date	09/23/2014
Submitted Date	09/23/2014
Respond By Date	

Dear Michelle Fluet,

Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

1.Please provide all loss ratio exhibits in Excel format with working formulas, including the following additional details:
a.the actual interest discount factors used for each year in the calculations
b.separate the premiums between premiums based on the initial premium rates and premiums due to past and future assumed rate increases.
2.Please expand the analysis of the filing status of rate increase requests by jurisdiction to include both past and current increases, a calculation of the cumulative increase by jurisdiction, and weighted average rate increase approved nationwide.
3.The sample annual claim costs for the Advantage series are shown at issue ages 57, 67, and 77 for the original assumptions, but at ages 55, 65 and 75 for the revised assumptions. Please provide samples for both sets of assumptions at the same ages so that a valid comparison can be done. Also, please provide the corresponding sample claim costs for the assumptions at the time of each previous rate increase filing for each policy series.
4.The documentation of the 2013 Morbidity Experience Study show that the previous salvage factors produced an A/E of 101.9% and the new factors produce an A/E of 98.8%. Please explain why adjustments were made that appear to be larger than necessary based on the experience.
5.The documentation notes that the lapse study removed all policies which had undergone prior rate increases. Obviously, all of the policies under these policy forms have had previous increases, so please provide details about the characteristics (average duration, type of coverage, average premium by age, etc.) of the policies used in the experience base for future lapse assumptions versus the policies covered by this filing.
6.The documentation asserts in several places that certain experience has either high or low credibility, but does not contain any objective measure of credibility. Please provide a quantitative discussion related to the Company's standard of credibility and confidence intervals, as well as the credibility of the past claim experience results by policy series.
7.You indicate that the new inflation options were determined to be actuarially equivalent to the requested rate increases in aggregate. Please provide actuarial support for this equivalence, and also include measure of the variation for individual policies or outliers.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	09/03/2014
Submitted Date	09/04/2014
Respond By Date	

Dear Michelle Fluet,

Introduction:

Thank you for your recent reply to our request for additional information. Before we can continue our review, in addition to the nationwide experience using Virginia approved rates, please provide nationwide experience and projections using the nationwide premium.

We have carefully reviewed your request that certain exhibits submitted to the Bureau of Insurance as part of the company's filing be given confidential treatment. As an initial matter, the Commission is not subject to the Virginia Freedom of Information Act. The Commission's policy is to make its records publicly available to the extent such records are not granted confidential status pursuant to a particular statute, legal privilege, protective order, or on the basis of well-established public policy grounds. Although there is no specific law that governs access to life and health insurance filings, they have historically been open to public inspection. Unless the company can provide a legal analysis within the next five (5) business days that supports its request under Virginia law, the Bureau intends to make publicly available all of the information contained in the company's filing.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Objection Letter

Objection Letter Status	Disapproved
Objection Letter Date	07/09/2014
Submitted Date	07/09/2014
Respond By Date	

Dear Michelle Fluet,

Introduction:

An initial preliminary review of the submitted filing has raised the following questions and concerns. A more thorough actuarial review will be completed after receiving the company's responses to the following.

Objection 1

- L&H Actuarial Memorandum (Supporting Document)

Comments: According to the submission, this proposed rate increase applies to pre-stabilization business only and is subject to the standards set forth in 14VAC5-200-150. It is unclear as to why the company has included language in the memorandum that would apply to post stabilization business such as item 2 under Section 16 or that the memorandum for Forms LTC-02 VA and BSC-02 VA would indicate the forms were originally priced with a margin for moderately adverse experience. The memorandum should satisfy the requirements as set for under 14VAC5-200-150 and any language not applicable to pre stability policies should be removed to avoid any misunderstanding or confusion.

The Actuarial Certification should include language as provided for in 14VAC5-130-70 B 14.

Objection 2

- L&H Actuarial Memorandum (Supporting Document)

Comments: Please provide the following information:

Please state the lifetime loss ratio anticipated in the original filing and, if applicable, an explanation why the current projected loss ratio is less than the originally anticipated.

In providing the experience, the exhibits should show the earned premiums, "paid" claims, incurred claims and loss ratio for each calendar year from the date of the forms inception through the most recent date that information is available. Separate exhibits, and projections thereof, should be provided based on the Virginia only and national data.

Please provide detailed justification for all assumptions used in the projections.

Please provide an explanation of the reserve basis and justification for the reserve levels.

Please provide the anticipated loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated incurred claims less the policy reserves, and the denominator is equal t the anticipated earned premium.

Please state the interest rate originally assumed in the determination of the premiums stated. If greater than the discount rate used in the projections, then please revise the projections by using the original rate.

Please re-state the nationwide experience using Virginia approved rates.

Please provide a separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would

be if the proposed premium had been charged (collected) since the forms introduction.

Please explain what, if any, margins are included in the proposed rates to ensure that future rate increases will not be needed presuming the experience develops as projected.

Please provide sufficient detail or documentation provided so that any projections can be recreated.

The filing states that the rate increase requests are based on its recently completed 2013 claims study. Please provide a copy of the comprehensive claim study so that we can independently assess the credibility and reasonableness of the morbidity assumptions.

Please provide an actual to expected analysis versus both the original pricing assumptions and the current projection assumptions.

Were there any concerns raised in any of prior filings that have not yet been addressed? If not, please revise the submission accordingly.

The company has indicated it would be willing to implement the rate increase on an annual phased-in approach on an actuarially equivalent basis. What schedule of increases would the company consider appropriate over a three year period?

Advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.

Is the intent of the company to not request any further rate increases if the proposed rate increase is approved and the experience develops as projected? If not, please explain.

Objection 3

Comments: Please provide a copy of the letter notifying Virginia policyholders there will be a rate increase and what their options are. We understand that forms and endorsements to implement any such changes have submitted under a separate filing. And according to the filing, options will be in compliance with the NAIC Model Bulletin. Such letters should include the following:

1)Overall percentage increase, amount, and effective date. If implementing over a 3 year period, the scheduled premiums and effective dates must be included.
2)The explanation for the increase must be clear and include the driving factors.
3)Options to reduce premium should be clearly and specifically stated.
4)Clear disclosure addressing guaranteed renewable nature of the policy and that the insured should understand that premium rates may increase again in the future
5)Compliance with the requirement to administer contingent benefit upon lapse in accordance with the NAIC Model Bulletin.

Objection 4

Comments: Please complete the attached Rate Summary. This form is now required for Long Term Care rate filings. Our expectation is that the form would be written in consumer friendly language and provide a clear explanation of the justification for the rate increase. This should be fairly high level and not drill down deep into the details but at least explain to the consumer the assumptions and changes that are driving the need for an increase.

Conclusion:

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of

any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,
Janet Houser

Response Letter

Response Letter Status	Submitted to State
Response Letter Date	02/22/2016
Submitted Date	02/22/2016

Dear Janet Houser,

Introduction:

Thank you for your letter.

Response 1

Comments:

We have revised the form numbers on the Form Schedule to match the form numbers on the forms itself. We apologize for this oversight.

Related Objection 1

Applies To:

- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)
- Options Worksheet, JHLTC-1532 GPO 1/14 (Form)
- Frequently Asked Questions, JHLTC-1533 GPO 1/14 (Form)
- Coverage Change Request Form, JHLTC-1534 GPO 1/14 (Form)

Comments: Form number JHLTC-1531_GPO 1/14 is inconsistent with the form number identified in the Form Schedule. Please note that the number appearing in the Form Schedule must mirror that appearing in the form including dashes, slashes and spacing. Please advise which form number is correct. If the form number appearing in the lower left-hand corner on the first page of the form is correct, please revise the Form Schedule to display the correct form number. If the Form Schedule is correct, please provide us with a revised form. This concern also applies to forms JHLTC-1532_GPO 1/14, JHLTC-1533_GPO 1/14, and JHLTC-1534_GPO 1/14.

No Rate/Rule Schedule items changed.

Response 2

Comments:

We have taken your suggestion and added in the Re line to show John Hancock Life Insurance Company (U.S.A.) (John Hancock). In addition the comma was removed as requested.

Related Objection 2

Applies To:

- Policyholder Letter, JHLTC-1531 1/14 (Form)
- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)

Comments: The form appropriately identifies the full and proper corporate name; however, after doing so, the form then refers to the company only as John Hancock. The form requires a mechanism to indicate that John Hancock Life Insurance Company (U.S.A.) will be referred to as John Hancock thereafter. Our objection would be resolved if the Re note was revised to state John Hancock Life Insurance Company (U.S.A.) (John Hancock). As an observation applicable to form JHLTC-1531 1/14, please note that a comma should not appear between Company and (U.S.A.) when stating the full and proper corporate name.

No Rate/Rule Schedule items changed.

Response 5

Comments:

Thank you for your suggestion - we have added or contingent benefit upon lapse to the third bullet in the Termination section.

Related Objection 5

Applies To:

- Endorsement, LTC-CHGEN 9/15 (Form)

Comments: The third bullet appearing in the Termination provision states that the endorsement will terminate when the policy is continued upon the provisions of any nonforfeiture benefit. For purposes of clarity, should the bullet be expanded to state or a contingent benefit upon lapse?

Changed Items:

Response Letter

Response Letter Status	Submitted to State
Response Letter Date	12/18/2015
Submitted Date	12/18/2015

Dear Janet Houser,

Introduction:

Thank you for your letter.

Response 1

Comments:

We have revised the policyholder letter and FAQ to include your suggested language.

Related Objection 1

Applies To:

- *Policyholder Letter, JHLTC-1531 1/14 (Form)*
- *Frequently Asked Questions, JHLTC-1533 1/14 (Form)*
- *Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)*
- *Frequently Asked Questions, JHLTC-1533 GPO 1/14 (Form)*

Comments: The policyholder letter and last sentence to Question 1 in the FAQ indicates that premiums are being increased solely on future claim expectancy; and there is a concern this may be potentially confusing to the insured. For clarification purposes, we suggest the wording be revised similar to the following:

"As compared to our previous analysis, the new data shows that policyholders are living longer than expected, their claims are lasting longer than expected, and more people than expected are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series to reflect that future claims are expected to be significantly higher on these policies than originally expected or priced."

No Rate/Rule Schedule items changed.

Response 2

Comments:

We have revised the Certificate of Compliance as requested.

Any reference to the Virginia Department of Insurance has been replaced with the Virginia Bureau of Insurance we apologize for this oversight.

Under the section entitled "Next Steps" the sentence that all options may not be of equal value has been made more prominent.

We have included in the letter the insured has a right to a revised premium rate or rate schedule upon request pursuant to 14VAC5-200 75 A 4 b..

We have included a reminder to the insured that benefits can be changed upon the insured's request and not just at the time of a rate increase.

Related Objection 2

Applies To:

- Policyholder Letter, JHLTC-1531 1/14 (Form)
- Policyholder Letter, JHLTC-1531 GPO 1/14 (Form)

Comments:

In reviewing the letters, the following items still need to be addressed:

1) The Certification of Compliance does not include the required language as set forth in 14VAC5-100-40 3. Please revise.

2) Please replace Virginia Department of Insurance with Virginia Bureau of Insurance in the section entitled "About the Premium Increase."

3) Under the section entitled "Next Steps" the language that all options may not be of equal value should be emphasized. As a "disclosure" it should be written in a manner that draws attention to it such as bolding, highlighting or using larger print to clearly indicate its importance.

4) Please include in the letter the insured has a right to a revised premium rate or rate schedule upon request for compliance with 14VAC5-200 75 A 4 b.

5) Please remind the insured that benefits can be changed upon the insured's request and not just at the time of a rate increase.

Attachment(s):	VIRGINA COMPLIANCE CERTIFICATEv2.pdf
Previous Version	
Satisfied - Item:	*Certification of Compliance*
Comments:	
Attachment(s):	*Compliance VA_Cert.pdf*

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 3

Comments:

Outside of the window to elect the lower inflation offered to offset the rate increase, insureds can only switch between GPO, 5% Simple and 5% Compound inflation (the inflation options originally offered under the plan).

When the rate increase is phased in over multiple annual increases, we do offer the future inflation reduction option to offset all of the scheduled increases. However, if the insured pays the first scheduled increase, we do not offer an inflation reduction option to offset the remaining scheduled increases, due to the administrative complexity this would cause.

We have revised the Option Worksheet to expand the disclosure (as per 14VAC5-200-75 D 2 c), for a partnership policy, that states that some benefit reduction options may result in a loss of partnership status. We are including the reference to Medicaid Asset Protection as this will be the specific protection loss the policyholder will experience. We believe this still meets the requirement of the regulation and gives the policyholder a broader understanding.

Related Objection 3

Applies To:

- *Options Worksheet, JHLTC-1532 1/14 (Form)*
- *Coverage Change Request Form, JHLTC-1534 1/14 (Form)*
- *Coverage Change Request Form, JHLTC-1534 GPO 1/14 (Form)*

Comments: The first sentence on the Options worksheet states the individual is being offered a one-time opportunity to reduce his future annual inflation rate. Doesn't the insured upon request have the opportunity at any time to change the benefits in his policy including the inflation rider?

There is also variable language that states the inflation rate reduction option is a limited time offer and is available only this year - it will not be available in subsequent years as additional premium increase segments are implemented. According to the statement of variability this will only appear in the increase is being implemented in a phased-in approach. Can the company not provide an equivalent reduced inflation rate for the phased-in increases?

The form also references the effect changes can have on the policy's partnership status. This is also noted on the Coverage Change Request Form. Pursuant to 14VAC5-200-75 D 2 c, in the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss of partnership status may reduce policyholder protections is required. Although the information provided on the forms is specific and emphasized, the language should more closely mirror language in the regulation.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 4

Comments:

For consistency with 14VAC5-200-185, the Options Worksheet, Coverage Change Request form and the Statement of Variability has been revised to refer to the contingent non-forfeiture benefit as the Contingent Benefit Upon Lapse.

In addition, we have added to the Options Worksheet that the benefit shall not be less than 30 times the daily nursing home benefit at the time of lapse as required by 14VAC5-200-185 E 3.

The SOV has been updated to reference 14VAC5-200-185 D3 as requested.

Related Objection 4

Applies To:

- Options Worksheet, JHLTC-1532 1/14 (Form)
- Options Worksheet, JHLTC-1532 GPO 1/14 (Form)
- Statements of Variability for Policyholder Communication Packages (Supporting Document)

Comments: So that the language in the worksheet is consistent with 14VAC5-200-185 and to avoid any confusion regarding the two nonforfeiture benefits, please refer to the Contingent Nonforfeiture Benefit as the Contingent Benefit Upon Lapse (CBUL) in both the worksheet and Statement of Variability (SOV). This would also apply to the Coverage Change Request Form and anywhere else such reference may appear.

It is stated under the CBUL section and SOV, the new policy limit represents the sum of all premiums paid. It should also be stated the benefit shall not be less than 30 times the daily nursing home benefit at the time of lapse pursuant to 14VAC5-200-185 E 3.

The SOV states eligibility for the CBUL is based on the standard NAIC trigger. Since our regulations have been amended, please indicate this is based on the triggers as set forth in 14VAC5-200-185 D 3.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 5

Comments:

Your Note to Filer (on the Time submission MULF-129573245) and particularly item #2 accurately depicts our challenges with being able to complete all the changes you are requesting to be made.

We have attached a copy of the Coverage Confirmation letter to the Supporting Documentation tab as requested.

You are correct that the original schedule pages did not include the line that related to the new effective date of the schedule page. As such, we are providing you a copy of each policys schedule page with the sentence bracketed and as such we have included a Statement of Variability to address this sentence.

As per the Note to Filer referenced above, we understand that the Bureau will take all this into consideration to determine what will be needed to satisfy compliance and will advise us of your decision once the forms section has had a chance to review. We would like to thank the Bureau in advance for their deliberation and consideration on this issue

Related Objection 5

State:	Virginia	**Filing Company:**	John Hancock Life Insurance Company (USA)
TOI/Sub-TOI:	LTC03I Individual Long Term Care/LTC03I.001 Qualified		
Product Name:	2013 Inforce Rate Increases - JH		
Project Name/Number:	2013 Inforce Rate Increases - JH Pre RS/		

Comments: According to your response, changes to the policy will be through the use of an updated Policy Schedule Page and a Coverage Confirmation letter. Please attach a copy of the Coverage Confirmation letter to supporting documentation.

If a new Policy Schedule Page is generated, the form should be filed and approved by the Bureau of Insurance and contain the following:

- Date of document or indication of effective date of change in policy benefits;
- Some indication in writing in the document that a change is being made to the policy, and this new document is to be made a part of the contract.

We understand the original Policy Schedule Page most likely included variability when it was initially approved as part of the policy. However, if the above information was not included as part of that variability, the change would not be documented indicating the terms of the contract have been legally revised, and the coverage would be inconsistent with that stated in the original application attached to the policy.

Response Letter

Response Letter Status	Submitted to State
Response Letter Date	10/15/2015
Submitted Date	10/15/2015

Dear Janet Houser,

Introduction:

Thank you for your letter.

Response 1

Comments:

Please find our response to your August 20, 2015 objection on the Supporting Documentation tab labeled as "Response to 8/20/15 objection", "Statements of Variability for Policyholder Communication Packages", and "Readability Certification".

In addition, we have added the policyholder communications and new endorsement to the Form Schedule tab.

Related Objection 1

Applies To:

- *Response to 4/2/15 objection (Supporting Document)*

Comments: The Virginia State Corporation Commission recently adopted revisions to the Rules Governing Long-Term Care Insurance set forth in Chapter 200 of Title 14 of the Virginia Administrative Code. Except as specifically provided in the regulation, the changes are effective September 1, 2015. The Order adopting the revisions to the long term care insurance regulation and all related documents are located on the commissions website at http://www.scc.virginia.gov/DocketSearch#/caseDetails/132748.

As part of the revisions, the commission revised the requirements for policyholder notifications regarding rate increases as stated in 14 VAC5-200-75 D. A summary of the new requirements are:

The notice is required to be filed with the commission at the time the premium rate increase is filed;

The insurer is required to provide the notice at least 75 days prior to the implementation of the premium rate schedule increase;

The notice is required to include at least the following information:

1. All applicable information identified in 14VAC5-200-75 including A 1 which requires a statement indicating the policy may be subject to future rate increases; A 2 which requires a statement that should there be future rate increases, options similar to those being offered now will be available; A 3 which requires a statement indicating the premium rate or rate schedules that will be effect; A 4 a which requires a statement as to when the premium rate or or rate schedule adjustments will be effective; and A 4 b which requires a statement that the insured has a right to a revised premium rate or rate schedule upon request.
2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount, including:
a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183;
b. A disclosure stating that all options available to the policyholder may not be of equal value;
c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections; and
d. Contact information that will allow the policyholder to contact the insurer for additional options available;
3. A clear identification of the driving factors of the premium rate increase; and
4. A statement substantially similar to the following:

The rate increase request was reviewed by Virginias State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at www.scc.virginia.gov/BOI.

As a result, the company will need to submit for review a policyholder notification letter(s) in compliance with the requirements of 14VAC5-200-75, as revised. Because the letter(s) must be "filed", the company may submit the letters under a new SERFF filing or attach the amended letters to the Form Schedule of this SERFF filing in compliance with the requirements of Chapter 100 of Title 14 of the Virginia Administrative Code including a Certification of Compliance.

Since the letters should be submitted only once to be reviewed and filed with the state, we are not sending a similar objection for the filing under SERFF tracking number MULF-129480734.

Response 2

Comments:

Please find our response to your August 20, 2015 objection on the Supporting Documentation tab labeled as "Response to 8/20/15 objection", "Statements of Variability for Policyholder Communication Packages", and "Readability Certification".

In addition, we have added the policyholder communications and new endorsement to the Form Schedule tab.

Related Objection 2

Applies To:

- Response to 4/2/15 objection (Supporting Document)

Comments: Please provide the following information regarding the two policyholder letters: JHLTC-1531_GPO 1/14 and JHLTC-1531 1/14:

1. We note one letter provides for "Options to Minimize the Premium Increase" and the other provides "Options to Avoid or Minimize the Premium Increase." Please explain what determines which letter is sent to a policyholder.

2. Policyholder letter JHLTC-1531_GPO 1/14 is 6 pages and consists of one form number. Policyholder letter JH-15311/14 consists of 6 pages but contains the following form numbers: JHLTC-1531 1/14, JHLTC-1532 1/14, and JHLTC-1533 1/14. According to the letters, the enclosures include the Options Worksheet, Frequently Asked Questions, and Coverage Change Request Form.

Only the forms that make up the policyholder letter (which must contain all the information noted in our previous objection) needs to be attached to the Form Schedule in SERFF. Each enclosure should have a separate form number from the policyholder letter and attached to Supporting Documentation. If the enclosures are actually a section of the letter to be mailed as a single document, each form should be attached to the Form Schedule. Please confirm such enclosures will always be sent as a complete package and that changes may not be made to these documents without the company filing the forms with the state for review.

3. On page 2 of Form JHLTC-1531 1/14 there is a statement this document represents a scenario when the insured is eligible for a landing spot. It will be altered as needed to represent other situations. Please provide more detail as to how the form will the altered and under what type of other situations.

4. In our previous objection letter, there was a concern regarding unfair discrimination in the first paragraph of the policyholder letter. The company declined to make any changes indicating it has not received any significant number of complaints stemming from this language. Although the company may not have received complaints regarding this specific issue, the Bureau of Insurance has had policyholders raise it in phone discussions as part of an overall complaint. Wording that the increase is needed on "certain policy series" and "yours is one of those policies affected" create concern the rate increases are applying to a small group of insureds. And thereby policyholders feel they are being subjected to unfair discrimination. We again request the statement be clarified or revised to avoid such potential confusion or concern by our policyholders.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 3

Comments:

Please find our response to your August 20, 2015 objection on the Supporting Documentation tab labeled as "Response to 8/20/15 objection", "Statements of Variability for Policyholder Communication Packages", and "Readability Certification".

In addition, we have added the policyholder communications and new endorsement to the Form Schedule tab.

Related Objection 3

Applies To:

- Response to 4/2/15 objection (Supporting Document)

Comments: The Statement of Variability for both letters states the company name may vary based on the company of the policyholder. Such variability is not permitted under 14VAC5-100-50 2. We can only review these letters for the company for which this filing has been submitted. In other words, John Hancock Life & Health Insurance Company would need to submit policyholder letters under its own NAIC number.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Conclusion:

Should you have any additional questions or concerns, please do not hesitate to contact us.

Sincerely,

Michelle Fluet

Response Letter

Response Letter Status	Submitted to State
Response Letter Date	08/25/2014
Submitted Date	08/25/2014

Dear Janet Houser,

Introduction:

Thank you for your letter.

Response 1

Comments:

Please find our response to your July 9, 2014 objection on the Supporting Documentation tab labeled as "Response to 7/9/14 objection" and "PROPRIETARY & CONFIDENTIAL".

Related Objection 1

Applies To:

- L&H Actuarial Memorandum (Supporting Document)

Comments: According to the submission, this proposed rate increase applies to pre-stabilization business only and is subject to the standards set forth in 14VAC5-200-150. It is unclear as to why the company has included language in the memorandum that would apply to post stabilization business such as item 2 under Section 16 or that the memorandum for Forms LTC-02 VA and BSC-02 VA would indicate the forms were originally priced with a margin for moderately adverse experience. The memorandum should satisfy the requirements as set for under 14VAC5-200-150 and any language not applicable to pre stability policies should be removed to avoid any misunderstanding or confusion.

The Actuarial Certification should include language as provided for in 14VAC5-130-70 B 14.

Response 2

Comments:

Please find our response to your July 9, 2014 objection on the Supporting Documentation tab labeled as "Response to 7/9/14 objection" and "PROPRIETARY & CONFIDENTIAL".

Related Objection 2

Applies To:

- *L&H Actuarial Memorandum (Supporting Document)*

State: Virginia **Filing Company:** John Hancock Life Insurance Company (USA)
TOI/Sub-TOI: LTC03I Individual Long Term Care/LTC03I.001 Qualified
Product Name: 2013 Inforce Rate Increases - JH
Project Name/Number: 2013 Inforce Rate Increases - JH Pre RS/

Comments: Please provide the following information:

Please state the lifetime loss ratio anticipated in the original filing and, if applicable, an explanation why the current projected loss ratio is less than the originally anticipated.

In providing the experience, the exhibits should show the earned premiums, "paid" claims, incurred claims and loss ratio for each calendar year from the date of the forms inception through the most recent date that information is available. Separate exhibits, and projections thereof, should be provided based on the Virginia only and national data.

Please provide detailed justification for all assumptions used in the projections.

Please provide an explanation of the reserve basis and justification for the reserve levels.

Please provide the anticipated loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated incurred claims less the policy reserves, and the denominator is equal t the anticipated earned premium.

Please state the interest rate originally assumed in the determination of the premiums stated. If greater than the discount rate used in the projections, then please revise the projections by using the original rate.

Please re-state the nationwide experience using Virginia approved rates.

Please provide a separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would be if the proposed premium had been charged (collected) since the forms introduction.

Please explain what, if any, margins are included in the proposed rates to ensure that future rate increases will not be needed presuming the experience develops as projected.

Please provide sufficient detail or documentation provided so that any projections can be recreated.

The filing states that the rate increase requests are based on its recently completed 2013 claims study. Please provide a copy of the comprehensive claim study so that we can independently assess the credibility and reasonableness of the morbidity assumptions.

Please provide an actual to expected analysis versus both the original pricing assumptions and the current projection assumptions.

Were there any concerns raised in any of prior filings that have not yet been addressed? If not, please revise the submission accordingly.

The company has indicated it would be willing to implement the rate increase on an annual phased-in approach on an actuarially equivalent basis. What schedule of increases would the company consider appropriate over a three year period?

Advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.

Is the intent of the company to not request any further rate increases if the proposed rate increase is approved and the experience develops as projected? If not, please explain.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 3

Comments:

Please find our response to your July 9, 2014 objection on the Supporting Documentation tab labeled as "Response to 7/9/14 objection" and "PROPRIETARY & CONFIDENTIAL".

Related Objection 3

Comments: Please provide a copy of the letter notifying Virginia policyholders there will be a rate increase and what their options are. We understand that forms and endorsements to implement any such changes have submitted under a separate filing. And according to the filing, options will be in compliance with the NAIC Model Bulletin. Such letters should include the following:

1)Overall percentage increase, amount, and effective date. If implementing over a 3 year period, the scheduled premiums and effective dates must be included.
2)The explanation for the increase must be clear and include the driving factors.
3)Options to reduce premium should be clearly and specifically stated.
4)Clear disclosure addressing guaranteed renewable nature of the policy and that the insured should understand that premium rates may increase again in the future
5)Compliance with the requirement to administer contingent benefit upon lapse in accordance with the NAIC Model Bulletin.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Response 4

Comments:

Please find our response to your July 9, 2014 objection on the Supporting Documentation tab labeled as "Response to 7/9/14 objection" and "PROPRIETARY & CONFIDENTIAL".

Related Objection 4

Comments: Please complete the attached Rate Summary. This form is now required for Long Term Care rate filings. Our expectation is that the form would be written in consumer friendly language and provide a clear explanation of the justification for the rate increase. This should be fairly high level and not drill down deep into the details but at least explain to the consumer the assumptions and changes that are driving the need for an increase.

Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

Conclusion:

Should you have any additional questions or concerns, please do not hesitate to contact us.

Sincerely,

Michelle Fluet

readability

Comments:

It appears the Readability Certification is missing part of the certification language as set forth in 14VAC5-110-60. Please add the following:

I also certify to the best of my knowledge and belief that the policy form(s) is in compliance with Section 38.2-3404 of the Code of Virginia and with the Rules and Regulations for Simplified and Readable Accident and Sickness Insurance Policies pursuant thereto.

Thanks!

01/11/16 phone conversation

Comments:

This is to confirm our conversation today. Please move the Schedule of Benefit forms to Supporting Documentation as the same form number cannot be approved twice. What will be required is a Statement of Variability providing explanations for all bracketed information contained on each form.

We recognize this is a difficult task for the company as statements of variability were not required at the time such policies were issued and the information is contained on various "old" platforms involving a great deal of research. Without such detail, however, it is unclear how to determine the benefit changes or ranges being offered at the time of the proposed rate increase are consistent with the variability available at the time the policies were issued.

The company cannot discontinue using the revised Schedule of Benefits with a generic endorsement form that indicates what changes were made in the schedule because the old platforms cannot accommodate any new policy forms.

Janet

Policyholder Letters

Comments:

Determining if the 14-VAC5-200-75 regulation applies to the policyholder letters will depend upon the date of the rate implementation. Most rate increases are effective on the policy's renewal date. As a result, if the policy renews prior to November 1, 2015, a 60 day notice would be applicable because such notice would be sent prior to 9/1/15. If the policy renews on or after November 1, 2015, a 75 day notice would be required. In addition, all requirements as set forth in 14 VAC5-200-75 D must be met including the required statement regarding public access and the Virginia Bureau of Insurance website.

CPI vs GPO inflation/ post stability rates

Comments:

Confirmed with Joe Leopold that the term CPI Inflation in the 2008 filings was renamed GPO (guaranteed purchase options) in the 2010 filings

2008 - MULF-125668250
2010 - MULF-126835743

Rates for post stability LTC-96 VA 9/96 are slightly different at the younger ages because post stability blocks rates must not be higher than new business rates and were capped at that time. Otherwise, the rates are the same for both.

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

This document is intended to help explain the rate filing and it is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

Health Insurance Rate Request Summary

Accurate forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

Unfortunately, the most recent detailed review of our pricing assumptions confirms that the expected claims over the life of your policy series are significantly higher today than they were expected to be when the premiums were originally determined. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

Our decision to increase premiums is solely related to the future claims anticipated on these policies and not to the recent recession, interest rate environment, or any other investment-related reason

As an alternative to paying higher premiums, we are offering several benefit reduction alternatives and, in most cases, at least one option that will enable the policyholder to keep their premiums at or close to the same level as what is being paid before the rate increase.

Long Term Care Insurance Rate Request Summary
Part 2 –To Be Completed By Bureau of Insurance

Company Name and NAIC Number: John Hancock Life Insurance Company (USA) 65838

SERFF Tracking Number: MULF-129480189

Disposition: Approve

Approval Date: 4/21/2016

Revised Rates

Average Annual Premium Per Member: $3270

Average Requested Percentage Rate Change Per Member: 42.2%

Minimum Requested Percentage Rate Change Per Member: 20.2%

Maximum Requested Percentage Rate Change Per Member: 55.4%

Number of Policy Holders Affected: 16,493

Summary of the Bureau of Insurance's review of the rate request:

John Hancock Life Insurance Company (USA) requested an overall 41.8% rate increase which varies by policy plan, issue age, benefit period and inflation rider. Future claims are expected to be significantly higher than originally expected or priced due to claims lasting longer than expected and more policyholders than expected are filing claims at older ages than anticipated. This has resulted in significantly higher losses than assumed in the original pricing.

As background, the Company originally grouped the forms subject to this filing into three distinct groups. Advantage forms issued from 1991-1999 with an average increase of 37.9% ranging between 29.9% to 40.20%, Gold forms issued from 1996 to 2002 with an average increase of 50.3% ranging between 20.2% to 55.4%, and CCI forms issued from 2002 to 2004 with an average increase of flat increase 26.4% ranging between 20.7% to 27.9%. (The specific forms are listed in the filing, which can be on the Bureau's website at the following link: http://www.scc.virginia.gov/boi/SERFFInquiry/LtcFilings.aspx.) Only forms issued prior to 10/1/2003 are included in this filing. The Advantage LTC block as received two prior increases: 13% in 2009 and 24.2% in 2011 and the Advantage NH block received a 35% increase in 2011. The Gold block has had two prior rate increases of 13% in 2009 and 46.2% in 2011. The CCI block has received one prior rate increase of 83.3% in 2011. Majority of the premiums for these blocks have already been earned.

After discussions with the Bureau, the Company withdrew its request for a rate increase on the Advantage forms, resulting with an overall increase of 42.2% on the remaining two blocks. The Bureau reviewed the rate increase in accordance with the requirements of 14VA5-200-150 which requires that the filing demonstrate that both the future and lifetime loss ratios will be at least 60% after the application of the rate increase. Based on requirements of Virginia law and regulations and using actuarially accepted and justified assumptions, the Bureau confirmed the, the future loss will be 90.5% and the lifetime loss ratio 81.2% for the Gold block and the future loss ratio wi1l be

This document is intended to help explain the rate filing and it is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

84.3% and the lifetime loss ratio 73.5% for the CCI block. Since the filing met the requirements of 14VAC-200-150 after implementation of the rate increase, approval was recommended.

The company is offering all policyholders the option to reduce the premium increase by reducing their coverage. These reductions could be in the form of lower daily benefits, a shorter benefit period, a longer elimination period, termination, changes in riders or any combination of these reductions.

This document is intended to explain the decision made by the Bureau of Insurance and it is only a summary of the Bureau's review. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

Subject: **John Hancock Life Insurance Company (USA)**
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have reviewed the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Recommendation

After review of the Company's submission, we suggest the Virginia SCC Bureau of Insurance (the "Bureau") disapprove the filing and ask the Company to respond to the following:

1. Please provide all loss ratio exhibits in Excel format with working formulas, including the following additional details:
    a. the actual interest discount factors used for each year in the calculations
    b. separate the premiums between premiums based on the initial premium rates and premiums due to past and future assumed rate increases.
2. Please expand the analysis of the filing status of rate increase requests by jurisdiction to include both past and current increases, a calculation of the cumulative increase by jurisdiction, and weighted average rate increase approved nationwide.
3. The sample annual claim costs for the Advantage series are shown at issue ages 57, 67, and 77 for the original assumptions, but at ages 55, 65 and 75 for the revised assumptions. Please provide samples for both sets of assumptions at the same ages so that a valid comparison can be done. Also, please provide the corresponding sample claim costs for the assumptions at the time of each previous rate increase filing for each policy series.
4. The documentation of the 2013 Morbidity Experience Study show that the previous salvage factors produced an A/E of 101.9% and the new factors

produce an A/E of 98.8%. Please explain why adjustments were made that appear to be larger than necessary based on the experience.

5. The documentation notes that the lapse study removed all policies which had undergone prior rate increases. Obviously, all of the policies under these policy forms have had previous increases, so please provide details about the characteristics (average duration, type of coverage, average premium by age, etc.) of the policies used in the experience base for future lapse assumptions versus the policies covered by this filing.
6. The documentation asserts in several places that certain experience has either high or low credibility, but does not contain any objective measure of credibility. Please provide a quantitative discussion related to the Company's standard of credibility and confidence intervals, as well as the credibility of the past claim experience results by policy series.
7. You indicate that the new inflation options were determined to be actuarially equivalent to the requested rate increases in aggregate. Please provide actuarial support for this equivalence, and also include measure of the variation for individual policies or outliers.

We can continue our review after receipt of the responses to these questions.

Background

The Company has grouped the forms subject to this filing into three distinct groupings (Advantage, Gold and CCI). The Advantage forms were issued from 1991-1999, Gold from 1996-2002 and CCI from 2002-2004 though only those policies issued prior to 10/1/2003 are included in this filing. Since all policies are issued prior to 10/1/2003 they are subject to 14VAC5-200-150 and 14VAC5-130. Previous rate increases on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
Advantage (LTC)	13.0% (7/2009) 24.2% (12/2011)	2,223	35.8%	90.6%
Advantage (NH)	35.0% (12/2011)	44	35.8%	83.3%
Gold	13.0% (7/2009) 46.2% (12/2011)	11,162	40.8%	132.6%
CCI	83.3% (12/2011)	5,759	21.6%	122.9%

Assumptions

Morbidity – the morbidity assumptions are derived from Company experience; we have asked for additional information from the Company to analyze the evolution of these assumptions over the years.

Voluntary Lapse – the lapse assumptions are the same for all policy series; at durations 6+, the assumptions are unchanged from the previous assumptions, and since all policies in this filing are issued prior to 10/1/2003, no change was made for these policies; original ultimate lapse rate assumption was 5.0% for Advantage, 3.0% for Gold, and 1.0%-1.3% for CCI; the revised assumptions for durations 11+ are 0.85%-0.95% varying by inflation option.

Mortality – 1994 Group Annuitant Mortality Table with 19 years of improvement and adjustment factors which vary by plan, underwriting class, marital status, duration and gender, based on past experience.

Analysis

After reviewing the documentation of the development of assumptions, we have asked clarifying questions about the morbidity and lapse assumptions.

The Company has provided projections for both nationwide and Virginia only policies. We have reviewed both sets of projections for compliance. The Company has not provided their standard for full credibility, so we have asked for clarification. We were unable to reproduce the present values in the loss ratio exhibits, so we have asked the Company to provide additional details and Excel exhibits to determine how their calculations were performed.

The Company is offering inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but we have concerns about the equity on a policyholder level.

Reliance and Qualifications

We are providing this letter to you to communicate our findings regarding the filing under consideration. Distribution of this letter to parties other than the Bureau by us or any other party does not constitute advice by us to those parties. The reliance of parties other than the Bureau on any aspect of our work is not authorized by us and is done at their own risk.

In arriving at our opinion, we used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, our findings and conclusions may need to be revised. While we have relied on the data provided without independent investigation or verification, we have reviewed the data for consistency and reasonableness. Where we found the data inconsistent or unreasonable, we have requested clarification.

We have utilized generally accepted actuarial methodologies in arriving at our opinion. I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion.

If you have any questions regarding this filing, please call me at 803-994-9895.

Sincerely,

Shawn D. Parks, FSA, MAAA

Subject: **John Hancock Life Insurance Company (USA)**
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have continued our review of the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Recommendation

After review of the Company's submission, we suggest the Virginia SCC Bureau of Insurance (the "Bureau") disapprove the filing and ask the Company to respond to the following:

1. The answer to our previous question related to credibility did not provide the information requested. Please provide the standard that the Company has chosen to represent full credibility and reference to any actuarial literature supporting that measure. Using this standard, please provide calculations of the credibility of past claim experience results for each policy series (Advantage, Gold, CCI).
2. The document "2013 vs 2010 Adv Morbidity Assumptions.pdf" shows that the 2013 morbidity assumptions are significantly higher than those used in the 2010 rate filing. While the actuarial memorandum includes information showing that the new assumptions have a reasonable fit with the early duration claim experience, there is limited support given for the increases assumed in later duration future experience. Since the increase in projected loss ratio depends largely on the change in the assumption of future morbidity, please provide further support for why the company's expectation of future morbidity has deteriorated significantly since the previous rate increase filing only a couple of years ago. This support should include, but not be limited to, claim counts by duration that were used in the morbidity study.

We can continue our review after receipt of the responses to these questions.

Background

The Company has grouped the forms subject to this filing into three distinct groupings (Advantage, Gold and CCI). The Advantage forms were issued from 1991-1999, Gold from 1996-2002 and CCI from 2002-2004 though only those policies issued prior to 10/1/2003 are included in this filing. Since all policies are issued prior to 10/1/2003 they are subject to 14VAC5-200-150 and 14VAC5-130. Previous rate increases on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
Advantage (LTC)	13.0% (7/2009) 24.2% (12/2011)	2,223	35.8%	90.6%
Advantage (NH)	35.0% (12/2011)	44	35.8%	83.3%
Gold	13.0% (7/2009) 46.2% (12/2011)	11,162	40.8%	132.6%
CCI	83.3% (12/2011)	5,759	21.6%	122.9%

Assumptions

Morbidity – the morbidity assumptions are derived from Company experience; we have asked for additional information from the Company to analyze the evolution of these assumptions over the years.

Voluntary Lapse – the lapse assumptions are the same for all policy series; at durations 6+, the assumptions are unchanged from the previous assumptions, and since all policies in this filing are issued prior to 10/1/2003, no change was made for these policies; original ultimate lapse rate assumption was 5.0% for Advantage, 3.0% for Gold, and 1.0%-1.3% for CCI; the revised assumptions for durations 11+ are 0.85%-0.95% varying by inflation option.

Mortality – 1994 Group Annuitant Mortality Table with 19 years of improvement and adjustment factors which vary by plan, underwriting class, marital status, duration and gender, based on past experience.

Analysis

After reviewing the documentation of the development of assumptions, we continue to have questions about the justification for the future late duration morbidity assumptions.

The Company has provided projections for both nationwide (adjusted to Virginia rate levels) and Virginia only policies. We have reviewed both sets of projections, but

analyzed the nationwide for loss ratio compliance due to increased credibility. The Company provided a vague answer in response to an inquiry about their standard for full credibility, so we are asking more pointed questions.

The Company has provided Excel exhibits supporting the nationwide loss ratio calculations. We have used that data to produce the loss ratios below, which all exceed the minimum loss ratio of 60% and the original pricing loss ratios:

Series	Original Pricing LR*	Lifetime Loss Ratio*		Future Loss Ratio w/ALR*	
		Before Incr	With Increase	Before Incr	With Increase
Advantage	56.6%	73.6%	71.9%	104.5%	83.8%
Gold	54.8%	85.6%	79.5%	114.9%	88.1%
CCII	64.8%	80.7%	74.9%	95.1%	81.1%

* using the original pricing interest rate for discounting

The Company is proposing inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but we have concerns about the equity on a policyholder level since the aggregate calculation means that some policyholders would be better and some worse than the average. Most policyholders will not be knowledgeable enough to determine whether acceptance of the reduced inflation landing spot would be of equivalent value to an increase in premium. The two options that the Bureau should consider are:

1. At a minimum, the Company should be required to provide a prominent disclosure that all options available to the policyholder may not be of equal value. This would still allow for the possibility of inequity, but the policyholder would be warned.
2. The Bureau could disapprove the inflation landing spots altogether as some other states have done.

Reliance and Qualifications

We are providing this letter to you to communicate our findings regarding the filing under consideration. Distribution of this letter to parties other than the Bureau by us or any other party does not constitute advice by us to those parties. The reliance of parties other than the Bureau on any aspect of our work is not authorized by us and is done at their own risk.

In arriving at our opinion, we used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, our findings and conclusions may need to be revised. While we have relied on the data provided without independent investigation or verification, we have reviewed the data for consistency and reasonableness. Where we found the data inconsistent or unreasonable, we have requested clarification.

We have utilized generally accepted actuarial methodologies in arriving at our opinion. I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion.

If you have any questions regarding this filing, please call me at 803-994-9895.

Sincerely,

Shawn D. Parks, FSA, MAAA

Subject: **John Hancock Life Insurance Company (USA)**
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have continued our review of the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Request for Data

After review of the Company's submission, we suggest the Virginia SCC Bureau of Insurance (the "Bureau") disapprove the filing and ask the Company to respond to the following:

1. Please provide a copy of the independent third party peer review of the new morbidity assumptions.
2. Given the time elapsed since the original filing, please update all previously provided projections with actual historical experience through a more recent date.
3. Please provide a projection of anticipated future experience using the actual inforce policies on the projection date, but using the original premium scale and the original pricing assumptions for lapse, mortality and morbidity to project both future premiums and claims.

We can continue our review after receipt of the responses to these questions.

Sincerely,

Shawn D. Parks, FSA, MAAA

P. O. Box 1157
Richmond, VA 23218

Subject: **Actuarial Report for Long-Term Care Rate Increase Filing**
John Hancock Life Insurance Company (USA)
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have reviewed the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Recommendation

After review of the Company's submission, we suggest the Virginia SCC Bureau of Insurance (the "Bureau") disapprove the filing and ask the Company to respond to the following:

1. According to the information submitted, the projected present value of future loss on the Advantage block of policies is less under the current premium scale than what is projected under the original pricing assumptions. We therefore conclude that no increase can been justified on this subset of the policy forms.
2. The Company previously communicated that it uses a confidence interval approach to setting morbidity assumptions rather than a credibility approach. Please describe the confidence intervals on the morbidity assumptions at the late durations and advanced ages which are a significant driver of projected claim costs for LTCI plans.

We can continue our review after receipt of the responses to these questions.

Historical Background

The Company has grouped the forms subject to this filing into three distinct groupings (Advantage, Gold and CCI). The Advantage forms were issued from 1991-1999, Gold from 1996-2002 and CCI from 2002-2004 though only those policies issued prior to

10/1/2003 are included in this filing. Since all policies are issued prior to 10/1/2003 they are subject to 14VAC5-200-150 and 14VAC5-130. Relevant statistics on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
Advantage (LTC)	13.0% (7/2009) 24.2% (12/2011)	2,098	37.9%	93.5%
Advantage (NH)	35.0% (12/2011)	38	37.9%	86.2%
Gold	13.0% (7/2009) 46.2% (12/2011)	10,822	50.3%	148.3%
CCI	83.3% (12/2011)	5,675	26.4%	131.7%

In the course of our review, several requests were sent to the Company for additional information. The Company's responses clarified issues raised in our review. The Bureau was involved in all correspondence between us and the Company.

Analysis

Our approach was to a) review the filing materials, b) check the filing contents for compliance with all relevant regulations, c) verify the calculations in the supplied exhibits, d) review the assumptions and projections for reasonableness, and e) analyze the request in light of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013 (the "Bulletin").

Assumptions

Morbidity – the morbidity assumptions are derived from Company experience; we asked for additional information from the Company to analyze the evolution of these assumptions over the years and also asked for a copy of the third-party peer review of the assumptions.

The morbidity A/E ratios are all at 100%, but our concern is that the projected experience at the highest attained ages is based on less than credible data. The submitted documentation of the peer review of assumptions did not contain sufficient concrete details to increase our comfort level.

Voluntary Lapse – the lapse assumptions are the same for all policy series; at durations 6+, the assumptions are unchanged from the previous assumptions, and since all policies in this filing are issued prior to 10/1/2003, no change was made for these policies; original ultimate lapse rate assumption was 5.0% for Advantage, 3.0% for Gold, and 1.0%-1.3% for CCI; the revised assumptions for durations 11+ are 0.85%-0.95% varying by inflation option. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 96%.

Mortality – 1994 Group Annuitant Mortality Table with 19 years of improvement and adjustment factors which vary by plan, underwriting class, marital status, duration and gender, based on past experience. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 99%.

Justification for Rate Increase

The Company has provided projections for both nationwide (adjusted to Virginia rate levels) and Virginia only policies. We have reviewed both sets of projections, but analyzed the nationwide for loss ratio compliance due to increased credibility. The Company provided a vague answer in response to an inquiry about their standard for full credibility, so we are asking more pointed questions.

The Company has provided Excel exhibits supporting the nationwide loss ratio calculations. We have used that data to produce the loss ratios below, which all exceed the minimum loss ratio of 60% and the original pricing loss ratios:

Series	Original Pricing LR*	Lifetime Loss Ratio*		Future Loss Ratio w/ALR*	
		Before Incr	With Increase	Before Incr	With Increase
Advantage	56.6%	75.5%	74.1%	114.2%	92.6%
Gold	54.8%	87.2%	81.2%	122.0%	90.5%
CCII	64.8%	79.1%	73.5%	101.0%	84.3%

* using the original pricing interest rate for discounting

We have analyzed the projections for any indication that the Company is attempting to recoup past losses on the forms. The method for this analysis involves comparing the projected present value of the future loss assuming original pricing assumptions to the future loss using projected assumptions. The results are summarized below:

	Projected Future Loss (in millions)			
	Original	Before Incr	With Incr	Allowable
Advantage	$526.0	$465.5	$383.0	none
Gold	$1,338.3	$2,056.0	$1,343.0	full
CCII	$586.7	$1,009.4	$696.3	full

For the Advantage block, the projected future loss, even with no rate increase, is less than what was originally expected based on pricing assumptions, therefore **we would recommend that no increase be approved for this block.** For the Gold and CCII blocks, the projected loss with the rate increase exceeds the loss based on pricing, so no restriction is necessary based on this measure.

The Company is proposing inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but we

have concerns about the equity on a policyholder level since the aggregate calculation means that some policyholders would be better and some worse than the average. Most policyholders will not be knowledgeable enough to determine whether acceptance of the reduced inflation landing spot would be of equivalent value to an increase in premium. The two options that the Bureau should consider are:

1. At a minimum, the Company should be required to provide a prominent disclosure that all options available to the policyholder may not be of equal value. This would still allow for the possibility of inequity, but the policyholder would be warned.
2. The Bureau could disapprove the inflation landing spots altogether as some other states have done.

Analysis of Model Bulletin Issues

As requested, we have also analyzed this filing in light of the requirements of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013. This analysis focuses on the actuarial aspects of the Bulletin as follows:

- Actuarial Assumptions for Establishing Rate Increase Requests
- Approval of Rate Increases
- Application of New Loss Ratio Standards

Actuarial Assumptions for Establishing Rate Increase Requests
As discussed above, we don't yet have sufficient information to determine whether the assumptions used in support of this rate increase are appropriate.

Approval of Rate Increases
Two scenarios are laid out in the Bulletin: 1) a single rate increase with a three year moratorium on future rate increases, or 2) an actuarially equivalent series of increases. The Company has indicated that they will comply with the first scenario.

Application of New Loss Ratio Standards
We have analyzed the results under the new dual loss-ratio approach and the increases are not restricted by this approach.

Reliance and Qualifications

We are providing this letter to you to communicate our findings regarding the filing under consideration. Distribution of this letter to parties other than the Bureau by us or any other party does not constitute advice by us to those parties. The reliance of parties other than the Bureau on any aspect of our work is not authorized by us and is done at their own risk.

In arriving at our opinion, we used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, our findings and conclusions may need to be revised. While we have relied on the data provided without independent investigation or

verification, we have reviewed the data for consistency and reasonableness. Where we found the data inconsistent or unreasonable, we have requested clarification.

We have utilized generally accepted actuarial methodologies in arriving at our opinion. I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion.

If you have any questions regarding this filing, please call me at 803-994-9895.

Sincerely,

Shawn D. Parks, FSA, MAAA

Richmond, VA 23218

Subject: **Actuarial Report for Long-Term Care Rate Increase Filing**
John Hancock Life Insurance Company (USA)
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have reviewed the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Recommendation

After review of the Company's submission, we suggest the Virginia SCC Bureau of Insurance (the "Bureau") disapprove the filing and ask the Company to respond to the following:

1. Regarding objection #1 addressed in your October 19, 2015 response, we were unable to locate an exhibit entitled "VA Adv LR Exhibit @ oPr.pdf". The information that we used in our analysis was derived from the exhibit "Inforce Business Projected at Original Pricing (Pre-RS).pdf". This exhibit projected the incurred claims and earned premiums using the actual inforce policies at the projection date and the original premium scale and pricing assumptions going forward from that date. According to the information in that exhibit, the projected present value of future loss on the Advantage block of policies is $701.4M minus $175.4M, or $526M. From Exhibit 1b (Advantage), the projected present value of future loss on this block using current premiums and assumptions is $796.7M minus $331.3M, or $465.5M. This data shows that, while the future claims under current assumptions are projected to be $95M higher than under the original assumptions, the rate increases already implemented on this block are expected to provide an additional $156M of future premium. We therefore conclude that no further increase can been justified on the Advantage policy forms.

2. Regarding objection #2 addressed in your October 19, 2015 response, please explain the apparent anomaly where the claim count in the chart by duration is 47,273 versus 23,580 in both the issue age and attained age charts.

We can continue our review after receipt of the responses to these questions.

Historical Background

The Company has grouped the forms subject to this filing into three distinct groupings (Advantage, Gold and CCI). The Advantage forms were issued from 1991-1999, Gold from 1996-2002 and CCI from 2002-2004 though only those policies issued prior to 10/1/2003 are included in this filing. Since all policies are issued prior to 10/1/2003 they are subject to 14VAC5-200-150 and 14VAC5-130. Relevant statistics on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
Advantage (LTC)	13.0% (7/2009) 24.2% (12/2011)	2,098	37.9%	93.5%
Advantage (NH)	35.0% (12/2011)	38	37.9%	86.2%
Gold	13.0% (7/2009) 46.2% (12/2011)	10,822	50.3%	148.3%
CCI	83.3% (12/2011)	5,675	26.4%	131.7%

In the course of our review, several requests were sent to the Company for additional information. The Company's responses clarified issues raised in our review. The Bureau was involved in all correspondence between us and the Company.

Analysis

Our approach was to a) review the filing materials, b) check the filing contents for compliance with all relevant regulations, c) verify the calculations in the supplied exhibits, d) review the assumptions and projections for reasonableness, and e) analyze the request in light of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013 (the "Bulletin").

<u>Assumptions</u>

Morbidity – the morbidity assumptions are derived from Company experience; we asked for additional information from the Company to analyze the evolution of these assumptions over the years and also asked for a copy of the third-party peer review of the assumptions.

The morbidity A/E ratios are all at 100%, but our concern is that the projected experience at the highest attained ages is based on less than credible data. The submitted

documentation of the peer review of assumptions did not contain sufficient concrete details to increase our comfort level, so we asked for further clarification of the confidence intervals on the assumptions. We note that the two standard deviation confidence interval is narrowest at attained age 80-84 at +/- 2%, while at 95-99 is +/- 21%. This demonstrates that the credibility or confidence around the highest attained ages is not as strong. In spite of this, we believe that the Company has made a reasonable use of the data which is available to them at this time.

Voluntary Lapse – the lapse assumptions are the same for all policy series; at durations 6+, the assumptions are unchanged from the previous assumptions, and since all policies in this filing are issued prior to 10/1/2003, no change was made for these policies; original ultimate lapse rate assumption was 5.0% for Advantage, 3.0% for Gold, and 1.0%-1.3% for CCI; the revised assumptions for durations 11+ are 0.85%-0.95% varying by inflation option. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 96%.

Mortality – 1994 Group Annuitant Mortality Table with 19 years of improvement and adjustment factors which vary by plan, underwriting class, marital status, duration and gender, based on past experience. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 99%.

Justification for Rate Increase

The Company has provided projections for both nationwide (adjusted to Virginia rate levels) and Virginia only policies. We have reviewed both sets of projections, but analyzed the nationwide for loss ratio compliance due to increased credibility. The Company provided a vague answer in response to an inquiry about their standard for full credibility, so we are asking more pointed questions.

The Company has provided Excel exhibits supporting the nationwide loss ratio calculations. We have used that data to produce the loss ratios below, which all exceed the minimum loss ratio of 60% and the original pricing loss ratios:

Series	**Original Pricing LR***	**Lifetime Loss Ratio***		**Future Loss Ratio w/ALR***	
		Before Incr	**With Increase**	**Before Incr**	**With Increase**
Advantage	56.6%	75.5%	74.1%	114.2%	92.6%
Gold	54.8%	87.2%	81.2%	122.0%	90.5%
CCII	64.8%	79.1%	73.5%	101.0%	84.3%

* using the original pricing interest rate for discounting

We have analyzed the projections for any indication that the Company is attempting to recoup past losses on the forms. The method for this analysis involves comparing the projected present value of the future loss assuming original pricing assumptions to the future loss using projected assumptions. The results are summarized below:

	Projected Future Loss (in millions)			
	Original	**Before Incr**	**With Incr**	**Allowable**
Advantage	$526.0	$465.5	$383.0	none
Gold	$1,338.3	$2,056.0	$1,343.0	full
CCII	$586.7	$1,009.4	$696.3	full

For the Advantage block, the projected future loss, even with no rate increase, is less than what was originally expected based on pricing assumptions, therefore **we would recommend that no increase be approved for this block.** For the Gold and CCII blocks, the projected loss with the rate increase exceeds the loss based on pricing, so no restriction is necessary based on this measure.

The Company is proposing inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but we have concerns about the equity on a policyholder level since the aggregate calculation means that some policyholders would be better and some worse than the average. Most policyholders will not be knowledgeable enough to determine whether acceptance of the reduced inflation landing spot would be of equivalent value to an increase in premium. The two options that the Bureau should consider are:

1. At a minimum, the Company should be required to provide a prominent disclosure that all options available to the policyholder may not be of equal value. This would still allow for the possibility of inequity, but the policyholder would be warned.
2. The Bureau could disapprove the inflation landing spots altogether as some other states have done.

<u>Analysis of Model Bulletin Issues</u>

As requested, we have also analyzed this filing in light of the requirements of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013. This analysis focuses on the actuarial aspects of the Bulletin as follows:

- Actuarial Assumptions for Establishing Rate Increase Requests
- Approval of Rate Increases
- Application of New Loss Ratio Standards

Actuarial Assumptions for Establishing Rate Increase Requests
We believe that the methods described by the Company to develop the assumptions used in support of this rate increase were appropriate.

Approval of Rate Increases
Two scenarios are laid out in the Bulletin: 1) a single rate increase with a three year moratorium on future rate increases, or 2) an actuarially equivalent series of increases. The Company has indicated that they will comply with the first scenario.

Application of New Loss Ratio Standards
We have analyzed the results under the new dual loss-ratio approach and the increases are not restricted by this approach.

Reliance and Qualifications

We are providing this letter to you to communicate our findings regarding the filing under consideration. Distribution of this letter to parties other than the Bureau by us or any other party does not constitute advice by us to those parties. The reliance of parties other than the Bureau on any aspect of our work is not authorized by us and is done at their own risk.

In arriving at our opinion, we used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, our findings and conclusions may need to be revised. While we have relied on the data provided without independent investigation or verification, we have reviewed the data for consistency and reasonableness. Where we found the data inconsistent or unreasonable, we have requested clarification.

We have utilized generally accepted actuarial methodologies in arriving at our opinion. I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion.

If you have any questions regarding this filing, please call me at 803-994-9895.

Sincerely,

Shawn D. Parks, FSA, MAAA

Subject: **Actuarial Report for Long-Term Care Rate Increase Filing**
John Hancock Life Insurance Company (USA)
SERFF Tracking # MULF-129480189

Dear Janet:

At your request, we have reviewed the filing for the above captioned submission from John Hancock Life Insurance Company (USA) (the "Company"). This is a rate increase filing pursuant to the requirements of 14VAC5-200-150 for the Company's pre-stability blocks of Individual Long Term Care Insurance.

Recommendation

Our review of this filing was performed according to the provisions of 14VAC5-200 et seq. Applicable Actuarial Standards of Practice were considered, including Actuarial Standard of Practice No. 18, "Long-Term Care Insurance" and Actuarial Standard of Practice No. 8, "Regulatory Filings for Rates and Financial Projections for Health Plans". After review of the Company's submission, we believe that the Company has demonstrated that the request is in compliance with all applicable regulations and standards. However, there are several factors that the Virginia SCC Bureau of Insurance (the "Bureau") may want to consider in determining whether to approve the rate increase as proposed. These factors are detailed in the Analysis section, but summarized here.

Two separate factors give some pause when considering whether to approve the requested increases. First, the requested increase would cause the Virginia rate level to be well above the cumulative average increases that have been approved on a nationwide basis. In addition, an analysis of whether the Company is recouping past losses points out some possible issues with the Advantage block. The revised increase to alleviate these concerns is shown in the table in the Summary section.

Historical Background

The Company has grouped the forms subject to this filing into three distinct groupings (Advantage, Gold and CCI). The Advantage forms were issued from 1991-1999, Gold from 1996-2002 and CCI from 2002-2004 though only those policies issued prior to 10/1/2003 are included in this filing. Since all policies are issued prior to 10/1/2003 they are subject to 14VAC5-200-150 and 14VAC5-130. Relevant statistics on these policies are shown in the chart below:

Series	Previous Increases	# of Policyholders	Requested Increase	Cumulative Increase
Advantage (LTC)	13.0% (7/2009) 24.2% (12/2011)	2,098	37.9%	93.5%
Advantage (NH)	35.0% (12/2011)	38	37.9%	86.2%
Gold	13.0% (7/2009) 46.2% (12/2011)	10,822	50.3%	148.3%
CCI	83.3% (12/2011)	5,675	26.4%	131.7%

In the course of our review, several requests were sent to the Company for additional information. The Company's responses clarified issues raised in our review. The Bureau was involved in all correspondence between us and the Company.

Analysis

Our approach was to a) review the filing materials, b) check the filing contents for compliance with all relevant regulations, c) verify the calculations in the supplied exhibits, d) review the assumptions and projections for reasonableness, and e) analyze the request in light of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013 (the "Bulletin").

<u>Assumptions</u>
Morbidity – the morbidity assumptions are derived from Company experience; we asked for additional information from the Company to analyze the evolution of these assumptions over the years and also asked for a copy of the third-party peer review of the assumptions.

The morbidity A/E ratios are all at 100%, but our concern is that the projected experience at the highest attained ages is based on less than credible data. The submitted documentation of the peer review of assumptions did not contain sufficient concrete details to increase our comfort level, so we asked for further clarification of the confidence intervals on the assumptions. We note that the two standard deviation confidence interval is narrowest at attained age 80-84 at +/- 2%, while at 95-99 is +/- 21%. This demonstrates that the credibility or confidence around the highest attained ages is not as strong. In spite of this, we believe that the Company has made a reasonable use of the data which is available to them at this time.

Voluntary Lapse – the lapse assumptions are the same for all policy series; at durations 6+, the assumptions are unchanged from the previous assumptions, and since all policies in this filing are issued prior to 10/1/2003, no change was made for these policies; original ultimate lapse rate assumption was 5.0% for Advantage, 3.0% for Gold, and 1.0%-1.3% for CCI; the revised assumptions for durations 11+ are 0.85%-0.95% varying by inflation option. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 96%.

Mortality – 1994 Group Annuitant Mortality Table with 19 years of improvement and adjustment factors which vary by plan, underwriting class, marital status, duration and gender, based on past experience. The A/E result for the three year period ending 3/31/2012 for durations 11+ was 99%.

Justification for Rate Increase

The Company has provided projections for both nationwide (adjusted to Virginia rate levels) and Virginia only policies. We have reviewed both sets of projections, but analyzed the nationwide for loss ratio compliance due to increased credibility. The Company provided a vague answer in response to an inquiry about their standard for full credibility, so we are asking more pointed questions.

The Company has provided Excel exhibits supporting the nationwide loss ratio calculations. We have used that data to produce the loss ratios below, which all exceed the minimum loss ratio of 60% and the original pricing loss ratios:

Series	**Original Pricing LR***	**Lifetime Loss Ratio***		**Future Loss Ratio w/ALR***	
		Before Incr	**With Increase**	**Before Incr**	**With Increase**
Advantage	56.6%	75.5%	74.1%	114.2%	92.6%
Gold	54.8%	87.2%	81.2%	122.0%	90.5%
CCII	64.8%	79.1%	73.5%	101.0%	84.3%

* using the original pricing interest rate for discounting

We have analyzed the projections for any indication that the Company is attempting to recoup past losses on the forms. In order to do this, we utilized two methods for this analysis. The first involves comparing the projected present value of the future loss assuming original pricing assumptions to the future loss using projected assumptions. The results are summarized below:

	Projected Future Loss (in millions)			
	Original	**Before Incr**	**With Incr**	**Allowable**
Advantage	$526.0	$465.5	$383.0	none
Gold	$1,338.3	$2,056.0	$1,343.0	full
CCII	$586.7	$1,009.4	$696.3	full

For the Advantage block, the projected future loss, even with no rate increase, is less than what was originally expected based on pricing assumptions, therefore **we would recommend that no increase be approved for this block.** For the Gold and CCII blocks, the projected loss with the rate increase exceeds the loss based on pricing, so no restriction is necessary based on this measure. The Company has expressed their disagreement with this method of analyzing whether past losses are being recouped by stating that ignoring the change in past termination rates is not appropriate and overstates the expected losses under original assumptions.

The second method commonly used by the Bureau for this analysis is to restate the premiums as if the requested premiums had been in effect from inception. While this analysis is rarely used as the sole reason to deny a rate increase, it is another factor to consider in conjunction with the entire analysis.

	Requested Increase	**Using Valuation Rate**	**Using Pricing Rate**	**Minimum Allowable**
Advantage	37.9%	18.7%	none	none
Gold	50.3%	38.1%	10.3%	10.3%
CCII	26.4%	full	none	none

Comparison of Increases Versus Other States

The Company provided the status of rate increases by state for each plan. The rate increase to match the average is shown in the chart below:

	Previous in VA	**Nationwide Avg w/o VA**	**Allowable**
Advantage	40.3%	57.2%	12.0%
Gold	65.2%	79.8%	8.8%
CCII	83.3%	74.8%	none

Inflation Landing Spots

The Company is proposing inflation landing spot options in lieu of a rate increase for policyholders who currently have inflation coverage on their policies. They state that the inflation reductions are actuarially equivalent to the rate increase in the aggregate, but we have concerns about the equity on a policyholder level since the aggregate calculation means that some policyholders would be better and some worse than the average. Most policyholders will not be knowledgeable enough to determine whether acceptance of the reduced inflation landing spot would be of equivalent value to an increase in premium. The two options that the Bureau should consider are:

1. At a minimum, the Company should be required to provide a prominent disclosure that all options available to the policyholder may not be of equal value. This would still allow for the possibility of inequity, but the policyholder would be warned.
2. The Bureau could disapprove the inflation landing spots altogether as some other states have done.

Analysis of Model Bulletin Issues

As requested, we have also analyzed this filing in light of the requirements of the Model Bulletin adopted by the NAIC Exec/Plenary on December 18, 2013. This analysis focuses on the actuarial aspects of the Bulletin as follows:

- Actuarial Assumptions for Establishing Rate Increase Requests
- Approval of Rate Increases
- Application of New Loss Ratio Standards

Actuarial Assumptions for Establishing Rate Increase Requests

We believe that the methods described by the Company to develop the assumptions used in support of this rate increase were appropriate.

Approval of Rate Increases

Two scenarios are laid out in the Bulletin: 1) a single rate increase with a three year moratorium on future rate increases, or 2) an actuarially equivalent series of increases. The Company has indicated that they will comply with the first scenario.

Application of New Loss Ratio Standards

We have analyzed the results under the new dual loss-ratio approach and the increases are not restricted by this approach.

Summary

Series	**Requested Increase**	**Allowable Based on:**				
		Loss Ratio	**Future Loss**	**Restated Inception**	**Nationwide Average**	**Minimum**
Advantage	37.9%	37.9%	0.0%	0.0%	12.0%	0.0%
Gold	50.3%	50.3%	50.3%	10.3%	8.8%	8.8%
CCI	26.4%	26.4%	26.4%	0.0%	0.0%	0.0%

Reliance and Qualifications

We are providing this letter to you to communicate our findings regarding the filing under consideration. Distribution of this letter to parties other than the Bureau by us or any other party does not constitute advice by us to those parties. The reliance of parties other than the Bureau on any aspect of our work is not authorized by us and is done at their own risk.

In arriving at our opinion, we used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, our findings and conclusions may need to be revised. While we have relied on the data provided without independent investigation or verification, we have reviewed the data for consistency and reasonableness. Where we found the data inconsistent or unreasonable, we have requested clarification.

We have utilized generally accepted actuarial methodologies in arriving at our opinion. I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion.

If you have any questions regarding this filing, please call me at 803-994-9895.

Sincerely,

Shawn D. Parks, FSA, MAAA

Subject: RE: John Hancock, Time, Union Security filings

Janet,
While the exact numbers differ between these four filings, the issues raised in my previous reports are the same, so I am addressing this response to all four filings as a group:
MULF-129480189 - John Hancock
MULF-129480734 - John Hancock
MULF-129573245 - Time
MULF-129573228 - Union Security

I have reviewed the Nov 18 2015 responses from Joseph Leopold for each filing and respond to his major points below.

1. Timing of rate increases - The timing of implementation has a significant impact on the present value of any rate change and Virginia's approach of phasing in the increases at no more than 25% per year causes the ultimate rate increase needed to be larger on a cumulative percentage basis. In other words, looking only at the cumulative percentage increase ignores the financial impact of delays in implementation. As you have heard before, a small early increase can be equivalent to a larger later increase just due to both the time value of money and fewer policyholders paying the increase as some will lapse or die in the interim. Our calculation of the average increase nationwide considered only the ultimate percentage increase and did not take timing factors into account.
2. Average rate increase for each state is impacted by mix of business within that state - Since the rate increases vary by policy, the mix of business can impact the reported average increase for each state. This distorts the comparison of the average increase in Virginia to the national average.
3. Plans for future increases in other states - Several states have annual rate increase caps and will not approve a series of increases. The Company has demonstrated a commitment to continued filings in those states until the ultimate rate level is achieved, but this is not reflected in our calculation of the average rate increase nationwide.
4. Restatement of nationwide premiums to Virginia rate levels - Mr. Leopold describes the process of backing out all prior increases on the nationwide block and then reintroducing the Virginia-approved rate increases and timing as a means to ensure that Virginia is not subsidizing other states. This process has been required by Virginia and several other states for many years and is appropriate. However, this process in and of itself does not ensure equity among states, but would only ensure equity if the requested increases for each state all result in the same projected lifetime loss ratio. Given the level of detail in the analysis that Mr. Leopold has described, it is quite possible that the company is targeting a common loss ratio for each state, but this information has not been made available to us.

Summary - All of the above factors make a direct comparison of the average increases in Virginia versus the other states difficult at best.

Recommendation - Our previous reservations to approval were based on analysis that is not specifically prescribed by Virginia code but have been used for several years by the Bureau to aid in its analysis. The Company has raised valid points detailed above regarding the shortfalls of said analysis due mainly to the summary nature of the data that is available to us. The Company has satisfied the requirements of 14VAC5-200-150 or 14VAC5-200-153 as appropriate for these filings, and we therefore would recommend that the Bureau approve their requests.

Let me know if you would like to discuss further.
Thanks,
Shawn

Re: Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. [xxx]. **Decision required by [date].** John Hancock Life Insurance Company (U.S.A.) (John Hancock)

Dear [First Name] [Last Name],

John Hancock is committed to ensuring long-term care (LTC) insurance benefits will be there for our policyholders when they need them most. To uphold this responsibility, we continuously monitor the experience of our inforce LTC insurance policies. Our most recent analysis shows that policyholders are living longer than expected, LTC claims are lasting longer than expected, and that more policyholders than expected are claiming at older ages than previously anticipated. Unfortunately, based on this data, we have determined a need to increase premiums on this policy series to reflect that future claims are expected to be significantly higher on these policies than originally expected or priced.

Options to Mitigate the Premium Increase
We sincerely regret having to take this action and understand that a premium increase may not be affordable for some. **Therefore, <u>we are offering you an option to keep your premium at its current level</u> by reducing your future annual inflation rate and keeping all other benefits the same.** Please see the enclosed "Options Worksheet" for more information on this as well as additional options that will enable you to minimize the premium increase.

About the Premium Increase
Based on your current benefit selections, unless you elect the option <u>described in the above paragraph</u> or one of the alternative options described in your Options Worksheet, your premiums will increase from [current premium] to [new premium], [policy mode]. This new premium will be effective for premiums due on or after [next policy anniversary]. Please note this letter is not a bill.

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at www.scc.virginia.gov/BOI. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Our decision to increase premiums on certain policies is based upon the future claims anticipated on these policies. Please note that the decision to seek a premium increase on these LTC insurance policies has been made by John Hancock, not your insurance agent, nor the Virginia Bureau of Insurance. As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future, at which time similar benefit reduction options may be available to you. However, please be advised that John Hancock will not apply any additional premium rate increase to your policy for at least 36 months from your policy anniversary date of [next policy anniversary date].

Importance of LTC Insurance Coverage

As you decide which of the coverage options described in this letter works best for you, you may wish to consider the value offered by LTC insurance. The need for care can be one of the most significant challenges a person can face – both personally and financially. LTC insurance provides valuable protection that may not be available with your health insurance or from government programs.

John Hancock has seen the difference this insurance has made in the lives of our customers and their family members. We remain committed to delivering on our promise to provide the coverage, support and service, when and where you need care.

Next Steps

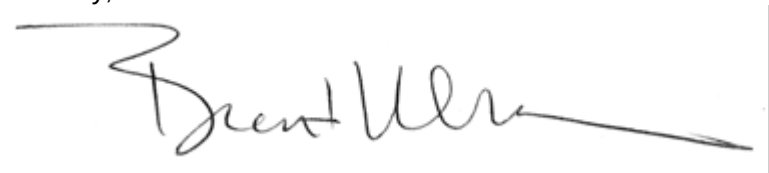
The enclosed Options Worksheet details your current coverage and provides options you can elect in order to help mitigate the premium increase. **Please be advised that all of the options available to you may not be of equal value, so please review this information carefully**.

- If you decide to reduce your coverage as outlined in the Options Worksheet, simply complete the "Coverage Change Request Form" and return it to John Hancock by **[Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on **[Month XX, YYYY]**.

For Further Assistance

Again, we sincerely regret having to take this action, but we hope you find that the options provided are helpful. If you have any questions, please visit www.jhinfocenter.com or contact one of our customer service representatives at [888-654-6582], Monday through Friday from 8:00 a.m. – 6:00 p.m. Eastern Time. The TTY number for the hearing impaired is 800-555-5421. Our dedicated team is available to help you make a decision that best meets your personal needs.

Sincerely,



[Brent Wilkinson
Vice President, U.S. Insurance Operations]

YOUR PERSONALIZED OPTION

To keep your premium at its current level, we are offering you a one-time opportunity to reduce your future annual inflation rate. The table below shows your current premium and the new premium you will be charged if you keep your current annual inflation rate. The table also shows what your reduced inflation rate will be if you choose the personalized option, which will only be applied to future inflation increases that occur after the rate increase effective date. All other existing benefits and previous inflation increases that have already been applied to your policy through the effective date of the inflation rate reduction will be maintained.

[**Important: Reducing your future annual inflation rate will result in the loss of Partnership status and your policy will no longer qualify for Medicaid Asset Protection. If you wish to retain Partnership status, do not elect this option.** Other options to help minimize the increase and retain your Partnership status may be available to you. For more information, please call John Hancock at [888-654-6582].]

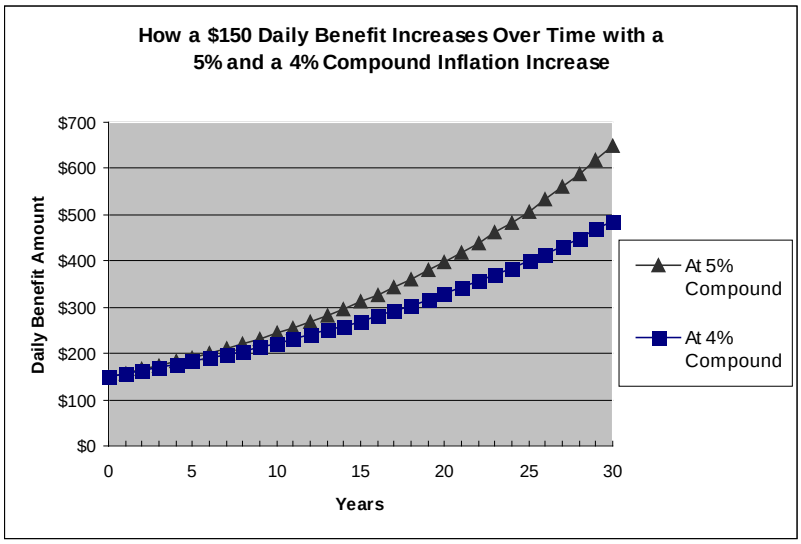
	Keep your current annual inflation rate	Personalized Option: Reduce your future annual inflation rate
[Daily/Monthly] Benefit[1]	[$XXX]	[$XXX]
Benefit Period[2]	[X-year]	[X-year]
Inflation Option[[3]]	[5%]	**[X.X%]**
Elimination Period	[XX]	[XX]
Optional Riders	[List here]	[List here]
Current [policy mode] Premium	[$XX.XX]	
New [policy mode] Premium*	**[$XX.XX]**	**[$XX.XX]**

**As of [Month XX, YYYY]*

Please note: Variations of this personalized option are not available, though other options to help minimize the increase may be. [However, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status.] [It is also important to note that your coverage includes a "Limited Pay" premium provision. Please consider the number of remaining payments before making the decision to reduce your benefits.] Please note that, as the insured, you have the right to a revised premium rate or rate schedule upon request. For more information, please call John Hancock at **[888-654-6582].**

[Information to Consider

The graph below is an example of how a $150 daily benefit amount increases over the next 30 years at [5%] and [4%] [annually compounding rates][simple annual increases].]To help you with your inflation coverage decision, we thought it might be useful to also provide you with the latest trends in the cost of care. The chart to the right shows the national average annual increase over the past [five] years for the cost of care in various care settings. Please visit **www.jhinfocenter.com** for current cost of care information specific to your area. As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are willing and able to pay from your own savings.



Trends in the Cost of Care

Long-Term Care Setting	[5]-Year Average Annual Increase
Nursing Home: Private Room	[3.6%]
Nursing Home: Semi-Private Room	[3.6%]
Assisted Living Facility	[2.0%]
Home Health Care Aide	[1.3%]
Adult Day Care	[1.6%]

[The 5-year average annual increases are based on a subset of common providers from our 2008 and 2011 Cost of Care surveys and our 2011 and 2013 Cost of Care surveys]

]1 [Daily/Monthly] Benefit is the most the coverage will reimburse for the costs of covered long-term care services received on [any day/in any month]. Your [Daily/Monthly] Benefit shown above reflects any inflation increase through [next policy anniversary].

2 Benefit Period is used to calculate your Policy Limit by multiplying your [Daily/Monthly] Benefit by the number of [days/months] in [X-years]. The Policy Limit represents the total pool of money available to reimburse the costs of covered long-term care services you receive while insured.

[3A reduction to your future annual inflation rate will apply to your [Daily/Monthly] Benefit. The inflation rate on your Policy Limit will remain at 3%.]

YOUR ALTERNATIVE OPTIONS TO REDUCE COVERAGE AND LOWER PREMIUMS

To help mitigate the premium increase, you may be eligible to reduce other benefits. These benefits can be reduced upon your request at any time. For example, you may be eligible to:

- Reduce your current [daily/monthly benefit]*
- [Reduce your benefit period*]
- [Increase your elimination period]
- [Drop an optional rider]

* This reduction will also result in a corresponding decrease in your Total Policy Limit. [Note: our records indicate there is claim activity on your policy; please consider your current policy limit before making the decision to reduce your benefits.] [You may also want to review the restoration of benefits provision in your policy before making your decision.]

Please note - in certain instances the ability to reduce your benefits may not be available due to state-regulated minimum benefit requirements or the available plan options. [In addition, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status.] [Your policy includes a "Limited Pay" premium provision. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.] For more information, please call John Hancock at **[888-654-6582].**

[Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[Exercise the Contingent Benefit Upon Lapse, resulting in a paid-up policy with reduced benefits

If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[The following terms apply if you choose to exercise the [Nonforfeiture Benefit][Contingent Benefit Upon Lapse]:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.]

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Benefit Upon Lapse amount may be slightly higher as it will be equal to the premiums paid on the policy to date or 30 times the daily nursing home benefit at the time of lapse, whichever is greater; but in no event will the sum of benefits exceed the maximum benefits which would be payable if the policy had remained in premium paying status.]

IMPORTANT DATES

- If you choose an option listed on the enclosed Coverage Change Request Form, you must complete, sign and return the form by **[Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on **[Month XX, YYYY]**.

[Important Notice About SharedCare

You have a "Shared Care Remaining Benefit," in the amount of [$XXX.XX], as part of your coverage. This amount is not reflected under your current coverage shown on this Options Worksheet. If you choose to reduce your benefits or make no changes to your coverage, this amount will still be available to you. [If you choose to exercise the [Nonforfeiture Benefit][Contingent Benefit Upon Lapse], this amount will no longer be available to you.] Before making your decision, please consider the impact on this SharedCare Remaining Benefit amount.]

1. **Why do you need to raise premium rates — can you explain further?**
   When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including: particular medical conditions, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

   Our most recent comprehensive claims study, which we conduct every three years, examines the usage trends for our insured population. It indicated that, like many carriers in this business, we have seen increased claims. As compared to our previous analysis, the new data shows that policyholders are living longer than expected, their claims are lasting longer than expected, and more people than expected are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series to reflect that future claims are significantly higher on these policies than originally expected or priced.

2. **What is the policy provision that allows you to raise my premiums?**
   The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased, and may only implement the rate increase once we are permitted to do so.

3. **Have I been singled out for this rate increase because of my age or health?**
   No, the increase applies to everyone who purchased the same long-term care insurance product you did. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Also, your state has not been singled out, as all states are included in our rate increase process.

4. **If I no longer live in the state where I purchased my policy, does the increase still apply?**
   Yes. All LTC insurance policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

5. **Is the premium rate increase due to the economic environment?**
   No. We are increasing premium rates solely due to our claims experience, which indicates higher-than-expected claims on your policy series in the future.

6. **Is there an alternative to paying higher premiums?**
   Yes. We are offering several benefit reduction alternatives and, in most cases, at least one option that will enable you to keep your premiums at or close to the same level as what you are paying today. The enclosed 'Options Worksheet' outlines your options. To further review these options, please contact one of our customer service representatives.

7. **Do I need to complete and return the enclosed Coverage Change Request Form?**
   The enclosed Coverage Change Request Form need only be completed and returned to John Hancock should you decide you want to adjust your benefits or cancel your policy. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

8. **Will there be additional premium increases in the future?**
   Premium rates are not guaranteed and may be increased in accordance with the terms of your policy. We will continue to monitor our claims experience to determine whether future increases will be necessary.

9. **If I pay premiums through an automatic draft plan and my premium is changing, is there any action I need to take?**
   No. If you have an automatic draft plan established through John Hancock, we will adjust the drafted amount.

10. **If I pay premiums through online banking and my premium is changing, is there any action I need to take?**
    Yes. Please update your online banking payment information with the new premium amount prior to the rate increase effective date.

Re: Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. [xxx]. **Decision required by [date].** John Hancock Life Insurance Company (U.S.A.) (John Hancock)

Dear [First Name] [Last Name],

John Hancock is committed to ensuring long-term care (LTC) insurance benefits will be there for our policyholders when they need them most. To uphold this responsibility, we continuously monitor the experience of our inforce LTC insurance policies. Our most recent analysis shows that policyholders are living longer than expected, LTC claims are lasting longer than expected, and that more policyholders than expected are claiming at older ages than previously anticipated. Unfortunately, based on this data, we have determined a need to increase premiums on this policy series to reflect that future claims are expected to be significantly higher on these policies than originally expected or priced.

Options to Minimize the Premium Increase
We sincerely regret having to take this action and understand that a premium increase may not be affordable for some. Therefore, we are offering you personalized options that will enable you to minimize the premium increase by reducing your coverage. Please refer to the enclosed "Options Worksheet" for more information.

About the Premium Increase
Based on your current benefit selections, unless you elect a personalized option as described in your Options Worksheet, your premiums will increase from [current premium] to [new premium], [policy mode]. This new premium will be effective for premiums due on or after [next policy anniversary]. Please note this letter is not a bill.

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at www.scc.virginia.gov/BOI. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Our decision to increase premiums on certain policies is based upon the future claims anticipated on these policies. Please note that the decision to seek a premium increase on these LTC insurance policies has been made by John Hancock, not your insurance agent, nor the Virginia Bureau of Insurance. As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future, at which time similar benefit reduction options may be available to you. However, please be advised that John Hancock will not apply any additional premium rate increase to your policy for at least 36 months from your policy anniversary date of [next policy anniversary date].

Importance of LTC Insurance Coverage
As you decide which of the coverage options described in this letter works best for you, you may wish to consider the value offered by LTC insurance. The need for care can be one of the most significant challenges a person can face – both personally and financially. LTC insurance provides valuable protection that may not be available with your health insurance or from government programs.

John Hancock has seen the difference this insurance has made in the lives of our customers and their family members. We remain committed to delivering on our promise to provide the coverage, support and service, when and where you need care.

Next Steps

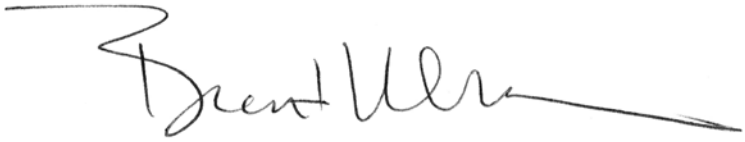
The enclosed Options Worksheet details your current coverage and provides options you can elect in order to help minimize the premium increase. **Please be advised that all of the options available to you may not be of equal value, so please review this information carefully.**

- If you decide to reduce your coverage as outlined in the "Options Worksheet," simply complete the "Coverage Change Request Form" and return it to John Hancock by **[Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on **[Month XX, YYYY]**.

For Further Assistance

Again, we sincerely regret having to take this action, but we hope you find that the options provided are helpful. If you have any questions, please visit www.jhinfocenter.com or contact one of our customer service representatives at [888-654-6582], Monday through Friday from 8:00 a.m. – 6:00 p.m. Eastern Time. The TTY number for the hearing impaired is 800-555-5421. Our dedicated team is available to help you make a decision that best meets your personal needs.

Sincerely,



[Brent Wilkinson
Vice President, U.S. Insurance Operations]

YOUR PERSONALIZED OPTION(S) TO REDUCE COVERAGE AND MINIMIZE THE INCREASE

To minimize the premium increase, we are offering you an opportunity to reduce your coverage, as illustrated in the personalized option(s) below. The table also shows your current level of coverage and the new premium you will be charged if you keep this coverage. Please be advised these benefits can be reduced upon your request at any time.

As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are willing and able to pay from your own savings. Please visit **www.jhinfocenter.com** for current cost of care information specific to your area.

	Keep your current coverage[1]	Personalized Option(s)		
		[Reduce your BP[2]]	[Reduce your [DB/MB][2]]	[Reduce your BP & [DB/MB][2]]
[Daily Benefit (DB)]/[Monthly Benefit (MB)][3]	$[XXX]	$[XXX]	$[XXX]	$[XXX]
Benefit Period (BP)[[4]	[X]-year	[Y]-year	[X]-year	[Z]-year
Elimination Period	[List Here]			
Inflation Option	[List Here]			
Optional Riders	[List Here]			
Current [policy mode] Premium	$[XXX]			
New [policy mode] Premium[5]	**$[XXX]**	**$[XXX]**	**$[XXX]**	**$[XXX]**

[Important: Your policy includes a "Limited Pay" premium provision. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.]

Please note: Other options to minimize the increase may be available [including [dropping an optional rider] [or] [increasing your elimination period]]. [**In some instances, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status.]** Please note that, as the insured, you have the right to a revised premium rate or rate schedule upon request. For more information, please call John Hancock at **[888-654-6582].**

[1]Assumes no recent changes in your current coverage.
[2]This reduction will also result in a corresponding decrease in your Total Policy Limit. In some instances, [daily/monthly] reduction elections may be rounded to the nearest dollar – and will be illustrated in your election confirmation statement. [Note: our records indicate there is claim activity on your policy; please consider your current policy limit before making the decision to reduce your benefits.][You may also want to review the restoration of benefits provision in your policy before making your decision.]
[3] [Note: The most recent Consumer Price Index (CPI) data has yet to be released by the U.S. Department of Labor. As a result, your [DB/MB] amount illustrated above is effective as of the date of this mailing – and does not reflect any CPI changes effective as of your upcoming policy anniversary.] [DB/MB] is the most the coverage will reimburse for the costs of covered long-term care services received on any [day/month].
[[4]BP is used to calculate your Policy Limit by multiplying your [DB/MB] by the number of [days/months] in {X{, Y or Z}} years. The Policy Limit represents the total pool of money available to reimburse the costs of covered long-term care services you receive while insured.]
[5]As of [Month XX, YYYY]. [Note: Due to the pending release of CPI data by the U.S. Department of Labor, we are unable to quote [DB/MB] reductions until [Month] 20th.] This reduction will also result in a corresponding decrease in your Total Policy Limit.

ALTERNATIVE OPTIONS

[Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[Exercise the Contingent Benefit Upon Lapse, resulting in a paid-up policy with reduced benefits

If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[The following terms apply if you choose to exercise the [Nonforfeiture Benefit][Contingent Benefit Upon Lapse]:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.]

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Benefit Upon Lapse amount may be slightly higher as it will be equal to the premiums paid on the policy to date or 30 times the daily nursing home benefit at the time of lapse, whichever is greater; but in no event will the sum of benefits exceed the maximum benefits which would be payable if the policy had remained in premium paying status.]

IMPORTANT DATES

- If you choose an option listed on the enclosed Coverage Change Request Form, you must complete, sign and return the form by **[Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on **[Month XX, YYYY]**.

[Important Notice About SharedCare

You have a "Shared Care Remaining Benefit," in the amount of [$XXX.XX], as part of your coverage. This amount is not reflected under your current coverage shown on this Options Worksheet. If you choose to reduce your benefits or make no changes to your coverage, this amount will still be available to you. [If you choose to exercise the [Nonforfeiture Benefit][Contingent Benefit Upon Lapse], this amount will no longer be available to you.] Before making your decision, please consider the impact on this SharedCare Remaining Benefit amount.]

1. **Why do you need to raise premium rates — can you explain further?**
   When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including: particular medical conditions, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

   Our most recent comprehensive claims study, which we conduct every three years, examines the usage trends for our insured population. It indicated that, like many carriers in this business, we have seen increased claims. As compared to our previous analysis, the new data shows that policyholders are living longer than expected, their claims are lasting longer than expected, and more people than expected are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series to reflect that future claims are expected to be significantly higher than originally expected or priced.

2. **What is the policy provision that allows you to raise my premiums?**
   The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased, and may only implement the rate increase once we are permitted to do so.

3. **Have I been singled out for this rate increase because of my age or health?**
   No, the increase applies to everyone who purchased the same long-term care insurance product you did. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Also, your state has not been singled out, as all states are included in our rate increase process.

4. **If I no longer live in the state where I purchased my policy, does the increase still apply?**
   Yes. All LTC insurance policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

5. **Is the premium rate increase due to the economic environment?**
   No. We are increasing premium rates solely due to our claims experience, which indicates higher-than-expected claims on your policy series in the future.

6. **Is there an alternative to paying higher premiums?**
   Yes. We are offering several benefit reduction alternatives and, in most cases, at least one option that will enable you to keep your premiums at or close to the same level as what you are paying today. The enclosed 'Options Worksheet' outlines your options. To further review these options, please contact one of our customer service representatives.

7. **Do I need to complete and return the enclosed Coverage Change Request Form?**
   The enclosed Coverage Change Request Form need only be completed and returned to John Hancock should you decide you want to adjust your benefits or cancel your policy. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

8. **Will there be additional premium increases in the future?**
   Premium rates are not guaranteed and may be increased in accordance with the terms of your policy. We will continue to monitor our claims experience to determine whether future increases will be necessary.

9. **If I pay premiums through an automatic draft plan and my premium is changing, is there any action I need to take?**
   No. If you have an automatic draft plan established through John Hancock, we will adjust the drafted amount.

10. **If I pay premiums through online banking and my premium is changing, is there any action I need to take?**
    Yes. Please update your online banking payment information with the new premium amount prior to the rate increase effective date.

John Hancock Life Insurance Company (U.S.A.)

POLICY CHANGE ENDORSEMENT

This Endorsement is part of, and attached to Your Policy and is subject to all the provisions of Your Policy unless otherwise provided below. This Endorsement is effective as of the Endorsement Date. The Endorsement Date is the date shown on the updated Schedule Page accompanying this endorsement.

You have elected to make a change to Your Policy. The requested change is reflected in an updated Policy Schedule which accompanies this Endorsement. The new updated Policy Schedule replaces the existing Policy Schedule. Please attach this Endorsement and the updated Policy Schedule to Your Policy.

The change(s) You requested will not alter any other existing terms, conditions or limitation of Your Policy.

TERMINATION

This Endorsement will terminate when

- the Policy terminates; or
- a later Policy Change Endorsement and Policy Schedule are added to Your Policy in response to a request made by You to change or remove a Policy feature; or
- the Policy is continued under the provisions of any nonforfeiture benefit or Contingent Benefit Upon Lapse.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care Series
June 29, 2015

Product Name	Form Number	Issue Date Range
Custom Care	LTC-02 VA	Aug 2002 - Jul 2004
Essential Care	BSC-02 VA	Oct 2002 - Mar 2004

These policy form rates were originally priced with a margin for moderately adverse experience in accordance with the NAIC model rate stability regulations which were being implemented on a State by State basis during the time of our initial rate filing.

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned Policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description

A brief policy description for each of the policy forms:

LTC-02 VA
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily/monthly amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

BSC-02 VA
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met.

For care received in an assisted living facility, benefits are paid up to 80% of the maximum daily/monthly amount. For all other care, benefits are paid up to 100% of the maximum daily/monthly amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving Nursing Home or Assisted Living Facility benefits and will continue to be waived until the insured stops receiving such benefits.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year, as well as a 5.56% margin for moderately adverse experience, consistent with the margin originally anticipated in our original pricing loss ratio.

Below are currently expected sample annual claim costs for an LTC-02 policy, $300 monthly benefit, with no inflation protection (including the 5.56% margin):

For policies issued prior to 2004:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	0.85	3.26
60	3.36	8.17
65	10.68	24.63
70	26.06	56.14
75	76.30	162.06
80	182.79	310.05
85	387.52	552.81
90	467.86	604.75
95	547.13	654.84

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	2.98	11.36
70	20.13	45.41
75	82.83	173.34
80	194.58	327.09
85	430.60	609.98
90	518.38	662.00
95	586.15	681.32

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	24.19	80.97
80	195.85	333.39
85	506.95	688.14
90	579.45	711.44
95	649.30	718.77

For policies issued after 2004 (lower morbidity due to underwriting changes):

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	0.65	2.50
60	2.60	6.34
65	8.44	19.47
70	23.57	50.79
75	71.06	150.99
80	170.71	289.86
85	364.52	522.10
90	446.57	583.81
95	530.05	652.53

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	2.28	8.70
70	15.62	35.27
75	65.76	137.86
80	177.49	299.42
85	405.90	578.52
90	496.44	641.68
95	572.33	687.78

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	18.54	62.07
80	153.78	263.04
85	418.91	575.45
90	561.67	703.67
95	644.75	752.15

Voluntary Lapses

The voluntary lapse rates are also based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have also been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

For policies issued prior to 2004:

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age

In addition, for policies issued in 2004 and later, additional selection factors apply, due to a change in underwriting practices:

For policies issued after 2004:

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by Issue age, Benefit Period and Inflation Option, as in the initial rate filing.

All premium factors related to the insured elected benefit design options, underwriting class or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-02 VA	2,340	2,290	2,895
BSC-02 VA	1,920	2,090	2,642

14. Number of Policyholders

The table below summarizes, as of 12/31/2013, the number of policies inforce and their 2013 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2013 Annualized Premium
LTC-02 VA	5,501	12,570,139
BSC-02 VA	174	363,238

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2013 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2013 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The Company is requesting an average rate increase of 26.4%, which varies by issue age, benefit period, and inflation option, and ranges from 20.7% to 27.9%. Rate increases were derived as follows:

1. The Company first determined the projected lifetime loss ratio for this form based on nationwide actual experience and projected future experience assuming all prior rate increase requests were approved in full and within three months of the original filing date. We then determined the amount of rate increase (20.7%) that would be needed in order to revert to the lifetime loss ratio certified to in our 2010 inforce rate increase filing for this form.
2. We ensured that the proposed rate increases did not result in premium rates that exceed the most recent traditional LTC rates that have been filed with the Interstate Compact for new business under the ICC12-LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-02 as an example). After the application of this restriction the average rate increase for the forms listed in this memo is 20.7%, ranging from 20.7% to 20.7%.
3. Rate increases were adjusted to account for the timing of approvals on prior filings in your State. Adjustments are proportional to the amounts requested in prior filings and were determined such that achieved lifetime loss ratios match those targeted in Step #1 above. After the application of this adjustment, the average rate increase for the forms listed in this memo is 26.4%, ranging from 20.7% to 27.9%.
4. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.

Note that in **Appendix A** we reflect the proposed premium rates both with and without any additional cost as we believe any cost due to delayed implementation should not be subject to the new business rate restrictions.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

Morbidity

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience from our own data and data furnished to us by consultants, with adjustments for the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-02 policy, $300 monthly benefit, with no inflation (which included a 5.56% margin for moderately adverse experience):

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.02	1.70
60	6.40	10.70
65	15.95	25.33
70	30.43	46.25
75	58.92	87.92
80	112.75	167.65
85	196.94	295.56
90	278.39	464.72
95	261.47	563.30
100	349.87	703.97

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	3.29	5.01
70	24.69	36.71
75	60.67	89.58

6+	1.0%	1.0%	1.0%	1.0%	1.0%	1.0%	1.0%

Mortality

The base mortality table was the 1994 Group Annuity Mortality Table, weighted 40% males and 60% females, with the following selection factors applied:

Policy Duration	Selection Factor
1	20.0%
2	30.0%
3	40.0%
4	50.0%
5	60.0%
6	70.0%
7	80.0%
8	85.0%
9	90.0%
10	95.0%
11+	100.0%

In addition, 18 years of future improvements were reflected.

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience and future premium and claim projections and illustrates that the anticipated lifetime loss ratio with the requested rate increases and the previously-stated margin for moderately adverse experience is 92.7%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 84.9%. The lifetime loss ratio as of 12/31/2013 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted

future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

In addition, **Exhibit 1** contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple Inflation coverage the option to completely avoid the rate increase.

Under these new options, the policyholders get to keep their current accumulated Daily or Monthly benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 4.2%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 2.5%, the future annual inflation rate will be reduced to 1.7%

Both the 4.2% and 1.7% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of Previous Rate Revisions

A 83.3% rate increase on these policy forms was accepted by your state on December 01, 2011.

20. Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior rate increases from our nationwide premium data. We then re-introduce prior rate increases with the amount and timing based on your state's prior approvals (as detailed in Section 19). The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified and that John Hancock would be refiling for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

21. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

22. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgement, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs under moderately adverse experience.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

* Benefit Differences between LTC-02 and ICC12-LTC-12:

LTC-02 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit

LTC-02 does not have the ability to convert from GPO to 5% Compound inflation option at age 65

LTC-02 has a 90 service-day EP where one day of HHC counts as 7, ICC12-LTC-12 is a true service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-02

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Custom Care I Series)

Rates shown are for a 90-day EP, single, Standard policyholder, and are per $100 monthly benefit

Inflation Option: 5% Simple Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-02 and ICC12-LTC-12:

LTC-02 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit

LTC-02 has a 90 service-day EP where one day of HHC counts as 7, ICC12-LTC-12 is a true service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-02

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 Simple Inflation rates are approximated by applying the ratio of [LTC-03 Simple Inflation / LTC-03 Compound Inflation] to the ICC12-LTC-12 Compound Inflation rates

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Custom Care I Series)

Rates shown are for a 90-day EP, single, Standard policyholder, and are per $100 monthly benefit

Inflation Option: 5% Compound Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-02 and ICC12-LTC-12:

LTC-02 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit

LTC-02 has a 90 service-day EP where one day of HHC counts as 7, ICC12-LTC-12 is a true service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-02

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix B1

John Hancock Life Insurance Company (U.S.A.)

LTC-02 VA - Pre Rate Stability

Premiums to be used only with those

that have not previously elected an inflation decrease option

Standard rates per $100 of Monthly Benefit

90 Day Elimination Period

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase - Gold Policy Series
March 30, 2016

Product Name	Form Number	Issue Date Range
Advantage Gold Select	LTC-96 VA	Sep 1996 - Mar 1998
Advantage Gold Select	LTC-96 VA 9/96	Jan 1997 - Sep 2003
Advantage Classic	LTC-96CL VA	Nov 1996 - May 1997
Advantage Classic	LTC-96CL VA 9/96	Feb 1997 - Nov 1997
Advantage Gold Facility Only	NH-99 VA 4/99	Jan 2000 - Feb 2003
Fidelity Advantage Gold Select	LTC2000 VA 4/00	May 2002 - Dec 2002

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned Policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description

A brief policy description for each of the policy forms:

LTC-96 VA, LTC-96 VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, as elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

LTC-96CL VA, LTC-96CL VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

For care received in a nursing home, provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, provides reimbursement of 80% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount; this maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, and is elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving nursing home benefits

and will continue to be waived until the insured stops receiving such benefits.

LTC2000 VA 4/00
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount is 150% of the nursing home maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

NH-99 VA 4/99
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year.

Below are currently expected sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.16	4.19
60	4.40	10.17
65	13.13	28.90
70	28.14	59.61
75	75.83	161.39
80	177.08	299.97
85	361.81	513.14
90	439.44	547.33
95	486.67	540.98

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	3.77	13.54
70	22.95	50.31
75	86.37	178.84
80	189.52	315.63
85	392.22	550.72
90	474.39	586.86
95	505.72	547.15

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	25.25	81.59
80	195.70	324.80
85	469.94	627.28
90	506.74	613.87
95	531.66	552.54

Voluntary Lapses

The voluntary lapse rates are also based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have also been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	22.9%	13.1%	13.1%	19.7%	26.6%	15.2%	15.2%	22.8%	27.8%	15.9%	15.9%	23.8%
2	24.9%	15.1%	17.7%	22.9%	28.8%	17.5%	20.5%	26.6%	30.2%	18.3%	21.4%	27.8%
3	26.9%	17.0%	22.3%	26.2%	31.1%	19.7%	25.8%	30.4%	32.5%	20.6%	27.0%	31.7%
4	28.2%	19.0%	26.9%	29.5%	32.6%	22.0%	31.1%	34.2%	34.1%	23.0%	32.5%	35.7%
5	29.5%	21.6%	31.5%	32.8%	34.2%	25.1%	36.4%	38.0%	35.7%	26.2%	38.1%	39.7%

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by Issue age, Benefit Period, Inflation Option, Home Health Care maximum benefit percentage, and Underwriting Class, as in the initial rate filing.

All premium factors related to the insured elected benefit design options or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-96 VA	1,930	2,140	3,217
LTC-96 VA 9/96	2,270	2,310	3,472
LTC-96CL VA	1,440	1,850	2,781
LTC-96CL VA 9/96	1,660	2,770	4,164
NH-99 VA 4/99	2,040	2,210	3,322
LTC2000 VA 4/00	2,310	2,200	3,307

14. Number of Policyholders

The table below summarizes, as of 12/31/2013, the number of policies inforce and their 2013 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2013 Annualized Premium
LTC-96 VA	349	745,689
LTC-96 VA 9/96	10,408	24,086,577
LTC-96CL VA	8	14,777
LTC-96CL VA 9/96	2	5,537
NH-99 VA 4/99	38	84,017
LTC2000 VA 4/00	13	28,619

Note that this filing reflects rate increases only for those policies issued prior to October 1, 2003 (the date your State adopted Rate Stability regulations). We intend to file separately for the four policies under the LTC-96 VA 9/96 form which were issued after Rate Stability regulations were adopted.

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2013 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2013 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The Company is requesting an average rate increase of 50.3%, which varies by issue age, benefit period, and inflation option, and ranges from 20.2% to 55.4%. Rate increases were derived as follows:

1. The Company first determined the projected lifetime loss ratio for this form based on nationwide actual experience and projected future experience assuming all prior rate increase requests were approved in full and within three months of the original filing date. We then determined the amount of rate increase (43.9%) that would be needed in order to revert to the lifetime loss ratio certified to in our 2010 inforce rate increase filing for this form.
2. We ensured that the proposed rate increases did not result in premium rates that exceed the most recent traditional LTC rates that have been filed with the Interstate Compact for new business under the ICC12-

LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-96 9/96 as an example). After the application of this restriction the average rate increase for the forms listed in this memo is 43.5%, ranging from 20.2% to 43.9%.

3. Rate increases were adjusted to account for the timing of approvals on prior filings in your State. Adjustments are proportional to the amounts requested in prior filings and were determined such that achieved lifetime loss ratios match those targeted in Step #1 above. After the application of this adjustment, the average rate increase for the forms listed in this memo is 50.3%, ranging from 20.2% to 55.4%.
4. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.

This filing does not pertain to the four policies under the LTC-96 VA 9/96 form which were issued after October 1, 2003 (after Rate Stability regulations were adopted in your State). We intend to file for those four policies separately.

Note that in **Appendix A** we reflect the proposed premium rates both with and without any additional cost as we believe any cost due to delayed implementation should not be subject to the new business rate restrictions.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

<u>Morbidity</u>

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience furnished to us by consultants, with adjustments due to the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	3.01	5.20
60	12.68	20.80
65	22.37	34.98
70	40.88	61.31
75	76.90	113.36
80	149.16	219.71
85	258.89	385.19
90	366.44	606.53
95	344.93	738.28
100	400.20	792.37

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	6.00	9.34
70	35.69	53.35
75	77.21	113.66
80	149.16	219.71
85	258.86	385.15
90	366.30	606.29
95	344.57	737.50
100	400.77	793.51

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	38.57	56.14
80	153.31	223.16
85	259.91	383.26
90	359.74	595.44
95	337.58	722.54
100	396.27	784.59

Voluntary Terminations

The lapse rates varied by issue age for the first 3 durations as indicated in the table below, then graded to an ultimate rate of 3% by duration 10.

Issue Age	Dur 1	Dur 2	Dur 3
40	12.24%	10.80%	9.12%
45	10.72%	9.48%	8.18%
50	9.56%	8.48%	7.47%
55	9.15%	7.95%	7.08%
60	9.62%	7.95%	7.06%
65	10.18%	8.27%	7.27%
70	10.74%	8.91%	7.73%
75	12.20%	9.55%	8.21%
80	13.28%	9.97%	8.54%

Mortality

The 1983 Group Annuity Mortality Table was used, weighted 40% males and 60% females, with the following selection factors applied:

Duration	Selection Factor
1	50%
2	80%
3+	100%

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience and future premium and claim projections and illustrates that the anticipated lifetime loss ratio with the requested rate increase is 95.7%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 69.4%. The lifetime loss ratio as of 12/31/2013 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

In addition, **Exhibit 1** contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple Inflation coverage the option to completely avoid the rate increase.

Under these new options, the policyholders get to keep their current accumulated Daily benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 3.2%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 3.4%, the future annual inflation rate will be reduced to 1.8%

The 3.2% and 1.8% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of Previous Rate Revisions

A 13.0% rate increase on these policy forms was accepted by your state on July 17, 2009.

A 46.2% rate increase on these policy forms was accepted by your state on December 01, 2011.

20. Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is accomplished by first backing-out all prior rate increases from our nationwide premium data. We then re-introduce prior rate increases with the amount and timing based on your state's prior approvals (as detailed in Section 19). The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified and that John Hancock would be refiling for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

21. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

22. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgement, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs assuming that the underlying assumptions are realized.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

Value as of 12/31/13*:										
	Past				2,517,256,755	3,400,554,956	6,188,705,446	54.9%	6,188,705,446	54.9%
	Future					5,640,347,658	2,379,619,832	237.0%	3,255,165,208	173.3%
	Lifetime					9,040,902,614	8,568,325,277	105.5%	9,443,870,654	95.7%

*discounted at maximum statutory valuation rates

Test: Total Incurred Claims exceeds the Total Initial Premiums x Original Pricing Loss Ratio (instead of 58%) + Increased Premiums x 85%

			Accum Value of Past Initial Prm x 69.4% =	4,128,048,383
Accum Value of Minimum(Past Incurred Claims,			Present Value of Future Initial Prm x 69.4% =	986,626,422
Adjusted Originally Expected Incurred Claims) =	2,517,256,755		Accum Value of Prior Increases x 85% =	203,714,628
Present Value of Future Incurred Claims =	5,640,347,658		Present Value of Future Increases x 85% =	1,558,314,711
TOTAL =	8,157,604,414	> =	TOTAL =	6,876,704,144

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: GPO Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 does not have the ability to convert from GPO to 5% Compound inflation option at age 65

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: 5% Simple Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 Simple Inflation rates are approximated by applying the ratio of [LTC-03 Simple Inflation / LTC-03 Compound Inflation] to the ICC12-LTC-12 Compound Inflation rates

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: 5% Compound Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix B1

John Hancock Life Insurance Company (U.S.A.)

LTC-96 VA

Premiums to be used only with those
that have not previously elected an inflation decrease option

Standard rates per $10 of Nursing Home Daily Benefit - 100 Day Elimination Period
Home Health Daily Benefit at 100% of Nursing Home Daily Benefit

Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memo's (See Policy Form List Below)
Pre-rate Stabilization Submission

Dear Commissioner:

John Hancock has recently completed our 2013 claims study. This comprehensive study is conducted every three years and examines the usage trend for our insured population. This study shows significant unfavorable trends since the 2010 study that prompted our last rate increase filing. In general, we are seeing longer-lasting and more expensive claims, increased claim incidence at the older attained ages and decreased mortality.

As a result of the factors listed above, we are requesting a premium rate increase on the policy series listed below and are enclosing the actuarial memos and rates for your review and acceptance.

Policy Series	Approval Date	Years Sold	Average Increase
LTC-VA-91	10/3/1991, 7/17/2009, 12/1/2011	1991 – 1994	35.7%

LTC-02 VA	8/8/2002, 12/1/2011	2002 – 2004	21.6%
BSC-02 VA	8/8/2002, 12/1/2011	2002 – 2004	21.6%

The proposed premium rates will be effective on the next policy anniversary date, following a 60-day policyholder notification period, which will be made as soon as practicable following state acceptance. As we will describe later in this letter, we will also offer affected insureds various benefit reduction options to help mitigate the impact of the rate increase.

The increases requested reflect the timing of the acceptance of our 2010 rate increase filing as well as any unapproved amounts from our 2010 filing on an actuarially equivalent basis.

Policyholder Options

We are fully aware that a premium increase may be difficult for our policyholders. Therefore we will provide all policyholders with an array of options which will help them mitigate the impact of any increase. Most important, for those policyholders who originally purchased lifetime 5% compound or 5% simple inflation, we will provide them with the ability to ***completely avoid the increase*** by reducing their future inflation coverage to a lower percentage which will vary by policy series. These policyholders will be able to keep all accrued inflation increase amounts to date and the lower inflation index will apply on a prospective basis only. The endorsements and other applicable forms needed to implement the benefit reduction options will be filed under a separate forms submission.

In addition, policyholders will be able to reduce their benefit period, adjust their daily/monthly benefit amount, drop optional benefit riders or extend their elimination period.

We are also submitting for your information with the forms submission, new Personal Worksheets ICC14-PWK 2/14 & ICC-PWKDM 2/14 which includes the appropriate disclosure regarding this increase. No change will be made to this form other than state specific information that is requested by your Department or another state insurance Department.

Where the NAIC contingent nonforfeiture benefit or the nonforfeiture benefit (if purchased) is triggered, customers will be offered paid-up coverage in accordance with the applicable provision. We are allowing contingent nonforfeiture if the rate increase trigger is met for all affected policyholders, even if it was not otherwise required in your State. *(Please note, that we will be voluntarily administering the enhanced contingent nonforfeiture benefit as described in the NAIC Model Bulletin "Announcement of Alternative Filing Requirements for Long-Term Care Premium Rate Increases" (as adopted by the Senior Issues Task Force on 8/9/2013.)*

Mr. Grissom requested that John Hancock confirm that we voluntarily comply with all provisions of the NAIC Model Bulletin. Please be advised that John Hancock agrees to meet all requirements in the NAIC Bulletin “Announcement of Alternative Filing Requirements for Long-Term Care Premium Rate Increases“. This includes the following elements:

- We will meet all actuarial assumption standards set for in the Bulletin.
- Should the Department so request, we will also pay for an actuarial review by an outside actuarial consultant selected by the Department.
- We will apply an 85% Loss Ratio on premium increase (this goes beyond the Bulletin which calls for an 80% loss ratio on the premium increase)
- We will work with the Department on an approval implementation timeline.
  - If full rate increase is approve, we will not apply another increase on insureds for 36-months
  - We will also agree to implement on an annual phased-in approach on an actuarially equivalent basis.
- We will make available the liberalized contingent nonforfeiture (CNF) option
  - Maximum threshold now 100%
  - For insureds who have held policy for 20 + years, CNF will be made available with no rate increase % threshold
- As we did in 2010, we have included our proposed policyholder communication package under a separate forms filing. It meets all proposed disclosure elements.
- We will continue to manage the administration and communication initiatives associated with the increase in accordance with our 2010 implementation protocols.

In addition, Mr. Grissom also requested a summary of the rate increase. This document captioned "2013 Summary" is included in Supplemental Information.

This submission is being filed in all states, the District of Columbia and Puerto Rico.

The following items are included in this submission:

- the submission letter.
- all actuarial material.
- all required certifications.

Please do not hesitate to contact us regarding this submission. We will be happy to meet with the Department either in person or via conference call at a time of your convenience.

Thank you for your time and consideration in this matter.

Sincerely,

Michelle Fluet

LONG-TERM CARE INSURANCE

This letter is intended to provide additional information needed in order to properly review John Hancock's 2013 inforce rate increase filing. Which information to include has been based on details provided as part of John Hancock's 2010 inforce rate increase filing as well as discussions had during an April 3, 2014 phone call between Bob Grissom, David Shay, David Plumb, Marie, Roche, and Joseph Leopold.

Adherence to Virginia State Regulations 14VAC5-200-150

Based on discussions had during the 2010 inforce rate increase filing process, we have provided **Exhibit 1b** (included in the pre-rate stability filing packages) which demonstrates that we satisfy Virginia minimum loss ratio requirements. Net level reserves are based on U.S. Statutory assumptions without margins (i.e. original pricing assumptions) and without reflecting any prior rate increases.

Explanation of Target Loss Ratios

Target loss ratios were originally set equal to the lifetime loss ratios from our 2010 inforce rate increase filings. However, it was decided that the 2010 exhibits reflected past and future rate increases earlier than could reasonably be expected, thereby driving the lifetime loss ratios down. To account for this, the 2010 filings were recalculated assuming the 2010 inforce rate increases would begin implementation on July 1, 2011 and would be effective for each individual policyholder on their next policyholder anniversary date following that date. These higher loss ratios now serve as the 2013 targets.

The table below shows the target loss ratios by product using both the original 2010 methodology and the current 2013 methodology.

Target Loss Ratios	Adv	Gold	CCI (Pre-RS)	CCI (Post-RS)	CCIIE	CCII10
2010 Methodology	87.8%	94.5%	90.4%	88.9%	81.2%	70.3%
2013 Methodology	88.3%	95.7%	92.7%	90.9%	81.2%	70.3%

Actual-to-Expected Cashflows

In our phone call on April 3, 2014, the Department had expressed an interest in reviewing comparisons of the 2010-2012 projected cashflows from the 2010 inforce rate increase filings to the actual 2010-2012 cashflows as reported in the current loss ratio exhibits. While this information can easily be compiled, the comparison is problematic for the following two reasons:

- Our current loss ratio exhibits include a modeling refinement regarding how plan upgrades are reflected. Previously, upgraded plans were grouped with their original policy series. For example, if an Advantage policy upgraded to a Gold policy, the policy would be included in the Advantage loss ratio exhibit and used to calculate Advantage rate increases even though the upgraded policy would ultimately receive a Gold rate increase. In 2013, we are grouping all policies with their current plans as this is more in-line with how rate increases will be administered. This change accounts for the odd pattern observed in the loss ratio exhibits where earned premiums begin earlier than in previous filings.

  This refinement has the most significant impact on the Advantage policy series. The lifetime loss ratio on the Advantage policy series drops by approximately 4.5% after this change is made which corresponds to an estimated 40% drop in justifiable rate increase.

Please note that while this change has a significant impact on the Advantage block in the current filing, reflecting this methodology change in the previous filing would not have impacted our proposed rate increases as the 2010 justifiable Advantage rate increase of 243% was capped at 50.3% due to Virginia state regulations.

- Premium comparisons are further complicated by the differences in rate increase implementation start dates. Premiums from the 2010 exhibits (adjusted for the new timing methodology mentioned earlier) reflect an implementation start date of July 1, 2011. However, premiums in the current loss ratio exhibits reflect an implementation start date of June 1, 2012 which is determined based on the date approval was granted in Virginia. Therefore, when reviewing only calendar years 2010-2012, the current exhibits reflect almost none of the 2010 rate increase.

To demonstrate these discrepancies, the comparisons for the Advantage and Gold series have been provided below. Premiums reflect both the 2008 and 2010 rate increases, but do not reflect the current proposed rate increases. Premiums from the 2010 filings have been adjusted to reflect the new rate increase timing methodology, as mentioned above.

	Advantage Incurred Claims				Advantage Earned Premiums	
		2013 Exhibit Actuals				
CY	2010 Exhibit Projections	prior to assumption revisions	after assumption revisions		2010 Exhibit Projections	2013 Exhibit Actuals
2010	114,485,171	99,616,816	106,543,941		75,570,058	63,423,464
2011	114,144,710	92,087,052	100,623,577		74,028,988	62,492,568
2012	115,527,307	92,481,007	100,893,038		75,968,077	62,333,022

	Gold Incurred Claims				Gold Earned Premiums	
		2013 Exhibit Actuals				
CY	2010 Exhibit Projections	prior to assumption revisions	after assumption revisions		2010 Exhibit Projections	2013 Exhibit Actuals
2010	247,173,262	284,110,337	286,272,009		288,216,215	281,169,811
2011	262,238,722	297,649,815	299,099,531		303,566,766	283,711,064
2012	278,450,347	328,795,402	329,737,147		344,366,521	297,052,000

Recouping of Prior Losses

In order to demonstrate that the current proposed rate increases are not seeking to recoup any prior losses, we have included **Exhibit 1c** in each filing package. This exhibit reflects the methodology recently accepted by the Senior Issues Task Force and Health Actuarial Task Force in which past losses are defined as actual claims less expected past claims and expected past claims are defined as the following:

Expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase regardless of whether or not the rate increase is approved. Expected claims are calculated for each calendar year based on the inforce during the calendar year. Expected claims shall include margins for moderately adverse experience; the margins included in the claims that were used to determine the lifetime loss ratio consistent with the original filing or as modified in any rate increase filing.

We have included summaries of these exhibits on the next pages as well as some analysis of the results. As described in the definitions above, 'Adjusted Expected Incurred Claims' are initially calculated by applying the original pricing loss ratios to the actual earned premiums in any given calendar year. Later, in years in which we filed for inforce rate increases, expected incurred claims are based on the new assumptions that were filed at that time. All present values are as of the valuation date (December 31, 2012) and are discounted at the maximum statutory valuation rates.

Advantage Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**1,639,889,984**	**1,590,982,204**	adjusted expected incurred claims are greater than
Future		1,123,863,483	actual past best estimate incurred claims implying
Lifetime		2,714,845,687	this product series has no prior claim losses to recoup

Gold Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**2,127,796,274**	**2,938,988,548**	although expected incurred claims are less than actual
Future		5,779,604,670	past best estimate incurred claims, there is still a large
Lifetime		8,718,593,219	margin between the requested rate increase and the rate increase which would be necessary to begin recouping past losses (as demonstrated by the fact that the 58/85 test is passed when using adj, expected incurred claims)

58/85 Testing (using adjusted expected incurred claims)

Accum Value of Minimum (Past IC, Adjusted Originally Expected IC)	2,127,796,274
Present Value of Future Incurred Claims	5,779,604,670
Total Claims	**7,907,400,944**
Total Premiums	**6,633,909,367**

Custom Care I (Pre-RS) Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**381,432,128**	**416,092,097**	although expected incurred claims are less than actual
Future		3,589,586,896	past best estimate incurred claims, there is still a large
Lifetime		4,005,678,993	margin between the requested rate increase and the rate increase which would be necessary to begin recouping past losses (as demonstrated by the fact that the 58/85 test is passed when using adj, expected incurred claims)

58/85 Testing (using adjusted expected incurred claims)

Accum Value of Minimum (Past IC, Adjusted Originally Expected IC)	381,432,128
Present Value of Future Incurred Claims	3,589,586,896
Total Claims	**3,971,019,025**
Total Premiums	**3,669,135,590**

Custom Care I (Post-RS) Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**125,836,793**	**111,419,633**	adjusted expected incurred claims are greater than
Future		1,580,884,635	actual past best estimate incurred claims implying
Lifetime		1,692,304,268	this product series has no prior claim losses to recoup

Custom Care II Enhanced Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**18,749,866**	**8,227,663**	adjusted expected incurred claims are greater than
Future		1,881,341,622	actual past best estimate incurred claims implying
Lifetime		1,889,569,284	this product series has no prior claim losses to recoup

Custom Care II (2010) Enhanced Past Losses Testing :

	Adj. Expected Incurred Claims	Best Estimate Incurred Claims	Comments
Past	**2,105,831**	**578,436**	adjusted expected incurred claims are greater than
Future		399,504,346	actual past best estimate incurred claims implying
Lifetime		400,082,782	this product series has no prior claim losses to recoup

2010 Elections Report

The report below indicates all policyholder rerate elections for those policies that were rerated as April 9, 2014 and are at least 80 days past their policyholder anniversary date. The report shows that over 50% of those eligible for the inflation-reduction "landing spot" elected that option.

Category	Policy Count	Policy Count percent
Rate Increase Applied	12947	47.17%
Accepted Landing Spot Only	11736	42.76%
Accepted Landing Spot and Reduced Benefits	305	1.11%
Reduced Benefit - Accepted GPO Personalized Option	137	0.50%
Reduced Benefit - Non Personalized Option or Landing Spot	991	3.61%
NFO Exercised	455	1.66%
Cancel	150	0.55%
Lapse	243	0.89%
Notified No Action Yet - Off-Anniversary	8	0.03%
Notified No Action Yet - Other	332	1.21%
Other	144	0.52%
Total Policy Count with Anniv Date < 01/20/2014	27448	100.00%
Total Policy Count Offered Landing Spot	23306	84.91%
Percentage of Landing Spot Elections to Those Offered		51.66%

Please do not hesitate to contact me if you have any questions on the above or if you require any additional information.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Summary of the John Hancock's 2013 Rate Increase Request on Certain Individual Long-Term Care Insurance Policy Series

In 2013, John Hancock completed our latest comprehensive claims study, which we conduct every three years, and which examines the usage trends for an insured population. Like many carriers in this business, we have seen increased claims, and therefore there is more experience data available to predict future benefit usage by policyholders. As compared to our previous analysis, the new data shows that policyholders are living longer, their claims are lasting longer, and more people are claiming at the older ages. As a result, beginning late in 2013 John Hancock began the nationwide filing of an increase on certain of our individual John Hancock policy series which reflects the future claims expected on those policies by an average of about 25% on roughly half our business nationwide. John Hancock previously requested and implemented rate increases on certain individual long-term care policy series in 2008 and 2010.

Increases will vary by issue age, inflation, benefit period, policy series, and state. No policyholder who is subject to a 2013 increase will pay more in premiums than we currently charge for currently marketed products, subject to differences in benefits. The filing will vary by state based on the amount and timing of prior increases that we were permitted to implement in that state. In this way, policyholders are not subsidizing policyholders in other states.

In Virginia, on our pre-rate stability block of business, we are requesting an average rate increase of 42.2% which ranges from 20.2% to 55.4% This includes our Gold and a portion of the Custom Care I policy forms. On our post-rate stability block, we are requesting an average rate increase of 18.5% which ranges from 13.3% to 19.6%. This includes the remaining portion of the Custom Care I policy forms and the Custom Care II Enhanced products (2008 and 2010).

As with the 2010 rate action, there will be a number of benefit adjustment options to help keep premiums at or close to their current level. For example, policyholders who purchased automatic 5% compound or 5% simple inflation coverage will be offered reduced inflation coverage (subject to state acceptance) which allows them to retain the benefits they have accrued and avoid the increase completely. Customers can also reduce their benefit period, adjust their daily/monthly benefit amount, extend their elimination period, or drop riders from their coverage.

After the rate increase is accepted by the Virginia Insurance Department, affected policyholders will be provided with an extensive and personalized notification communication at least 60 days prior to the effective date, which will describe the increase and options available to mitigate the impact of the rate increase. In addition, customer support will be available through a dedicated customer service team in order to help our policyholders navigate through their choices and respond to any questions.

LTC-96 VA	Advantage Gold Select
LTC-96 VA 9/96	Advantage Gold Select
LTC-96CL VA	Advantage Classic
LTC-96CL VA 9/96	Advantage Classic
NH-99 VA 4/99	Advantage Gold Facility Only
LTC2000 VA 4/00	Fidelity Advantage Gold Select
LTC-02 VA	Custom Care
BSC-02 VA	Essential Care

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

This document is intended to help explain the rate filing and it is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

Health Insurance Rate Request Summary

Accurate forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

Unfortunately, the most recent detailed review of our pricing assumptions confirms that the expected claims over the life of your policy series are significantly higher today than they were expected to be when the premiums were originally determined. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

Our decision to increase premiums is solely related to the future claims anticipated on these policies and not to the recent recession, interest rate environment, or any other investment-related reason

As an alternative to paying higher premiums, we are offering several benefit reduction alternatives and, in most cases, at least one option that will enable the policyholder to keep their premiums at or close to the same level as what is being paid before the rate increase.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase - Advantage Policy Series
July 23, 2014

Product Name	Form Number	Issue Date Range
ProtectCare Advantage LTC	LTC-VA-91	Oct 1991 - May 1994
ProtectCare Advantage NH	NH-VA-91	Oct 1991 - Dec 1993
ProtectCare Advantage Plus LTC	LTC-94 VA	Jan 1994 - Dec 1997
ProtectCare Advantage Plus NH	NH-94 VA	Mar 1994 - Mar 1999

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description(s)

A brief policy description for each of the policy forms:

LTC-VA-91, LTC-94 VA
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the nursing home or home health maximum daily amounts. There are separate pools for nursing home/assistance living facilities and home health care. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of five activities of daily living (ADLs) of dressing, eating, toileting, transferring, and maintaining continence.

Premiums are waived after the insured has received 90 days of benefits and will continue to be waived until the insured stops receiving such benefits or the policy limit is reached.

NH-VA-91, NH-94 VA
Individually underwritten long-term care policies that provide facility-only long-term care coverage for care received in a nursing home or assisted care living facility.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amounts. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of five activities of daily living (ADLs) of dressing, eating, toileting, transferring, and maintaining continence.

Premiums are waived after the insured has received 90 days of benefits and will continue to be waived until the insured stops receiving such benefits or the policy limit is reached.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year.

Below are currently expected sample annual claim costs for an LTC-91 policy, 100-day EP, $10 daily benefit, with Indexed Inflation option:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.29	5.56
60	4.90	12.96
65	14.43	35.88
70	27.86	63.02
75	69.24	152.13
80	163.08	288.71
85	340.60	505.52
90	431.22	553.65
95	487.51	572.06

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	4.03	17.45
70	22.71	54.87
75	81.11	177.73
80	176.02	310.85
85	363.70	538.34
90	461.77	590.68
95	510.19	590.74

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	20.39	77.91
80	162.23	302.19
85	404.99	590.87
90	472.91	595.00
95	526.70	601.31

Voluntary Lapses

The voluntary lapse rates are based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

Policy Duration	Standard Risk Class (Married)				Standard Risk Class (Single, Female)				Standard Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	33.3%	19.0%	19.0%	28.5%	38.5%	22.0%	22.0%	33.0%	40.3%	23.0%	23.0%	34.5%
2	36.1%	21.9%	25.7%	33.3%	41.8%	25.3%	29.7%	38.5%	43.7%	26.5%	31.1%	40.3%

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by issue age, benefit period, inflation option, home health care maximum benefit percentage, and underwriting class, as in the initial rate filing.

All premium factors related to the insured elected benefit design options or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium	Plus
Annual	1.0000	$0.00
Semiannual	0.5120	$0.60
Quarterly	0.2610	$0.90
Premiumatic	0.0865	$0.80

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-VA-91	1,810	1,580	2,144
NH-VA-91	1,260	1,390	1,887
LTC-94 VA	2,020	1,890	2,565
NH-94 VA	1,480	1,440	1,954

14. Number of Policy Holders

The table below summarizes, as of 12/31/2012, the number of policies inforce and their 2012 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2012 Annualized Premium
LTC-VA-91	629	996,862
NH-VA-91	7	9,760
LTC-94 VA	1,594	3,005,417
NH-94 VA	37	53,245

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2012 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2012 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The Company is requesting a flat rate increase of 35.8%. Rate increases adhere to the following restrictions:

1. We ensured that the proposed rate increases did not result in premium rates that exceed the rates that have been recently filed with the Interstate Compact for new business under the ICC12-LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-91 as an example). After the application of this restriction the average rate increase for the forms listed in this memo is 35.7%.
2. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.
3. The lifetime loss ratio after the proposed rate increases is greater than or equal to the lifetime loss ratio targeted in our most recent filing for the forms listed in this memo.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

Morbidity

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1977 and 1985), the National Health Interview Survey (1979 and 1984), the National Long-Term Care Survey (1982), Medicare data; and other experience furnished to us by consultants, with adjustments due to the impact of underwriting, inflation options, elected options, anti-selection considerations, and the saving incurred because the maximum daily benefit will not always be paid.

Below are original sample annual claim costs for an LTC-91 policy, 100-day EP, $10 daily benefit, with Indexed Inflation option:

Issue Age 57		
Age	**2 yr**	**Lifetime**
57	5.38	9.93
62	18.00	33.37
67	29.49	57.85
72	49.43	102.15
77	100.99	206.39
82	182.06	356.84
87	301.50	544.69
92	423.62	675.99
97	496.68	711.02

Issue Age 67		
Age	**2 yr**	**Lifetime**
67	15.60	30.63
72	52.00	107.53

6	6.5%	6.5%	6.5%	6.5%	6.5%	6.5%
7	5.8%	5.8%	5.8%	5.8%	5.8%	5.8%
8	5.4%	5.4%	5.4%	5.4%	5.4%	5.4%
9	5.2%	5.2%	5.2%	5.2%	5.2%	5.2%
10+	5.0%	5.0%	5.0%	5.0%	5.0%	5.0%

Mortality

The 1983 Group Annuity Mortality Table was used, weighted 40% males and 60% females.

As part of the inforce management of the business, the Company monitors the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has

increased, claim terminations have decreased, claim utilization has increased, and mortality rates have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience as well as future premium and claim projections. It illustrates that the anticipated lifetime loss ratio with the requested rate increase is 88.3%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 67.3%. The

lifetime loss ratio as of 12/31/12 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

Exhibit 1 also contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple inflation coverage the option to completely avoid the rate increase. This option is not available to policyholders that have limited coverage, where benefit increases cease after 20 years or at attained age 85.

Under these new options, the policyholders get to keep their current accumulated Daily benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 3.8%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 4.5% (i.e. those with policy forms LTC-94 VA), the future annual inflation rate will be reduced to 3.5%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 3.6% (i.e. those with policy forms NH-94 VA), the future annual inflation rate will be reduced to 2.6%

The 3.8%, 3.5%, and 2.6% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of previous rate revisions

A 13.0% rate increase on policy forms LTC-VA-91 and LTC-94 VA was accepted by your state on July 17, 2009.

A 24.2% rate increase on policy forms LTC-VA-91 and LTC-94 VA was accepted by your state on December 01, 2011.

A 35.0% rate increase on policy forms NH-VA-91 and NH-94 VA was accepted by your state on December 01, 2011.

20. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs assuming approvals are granted within three months of the date this memo is filed and that the underlying assumptions are realized.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated July 9, 2014 regarding the above filing. Your comments are included below in bold with our responses following.

According to the submission, this proposed rate increase applies to pre-stabilization business only and is subject to the standards set forth in 14VAC5-200-150. It is unclear as to why the company has included language in the memorandum that would apply to post stabilization business such as item 2 under Section 16 or that the memorandum for Forms LTC-02 VA and BSC-02 VA would indicate the forms were originally priced with a margin for moderately adverse experience. The memorandum should satisfy the requirements as set for under 14VAC5-200-150 and any language not applicable to pre stability policies should be removed to avoid any misunderstanding or confusion.

We have elected to voluntarily apply rate stability regulations to all business, despite being more stringent than what is required in Virginia. We do this while continuing to comply with the standards set forth in 14VAC5-200-150.

Regarding the LTC-02 VA and BSC-02 VA policy forms, these forms are identical policies to those considered in our post-RS filing, priced with the same premium rates and pricing expectations and therefore also include the same pricing margins.

The Actuarial Certification should include language as provided for in 14VAC5-130-70 B 14.

We have revised our actuarial memoranda in accordance with the standards outlined in 14VAC5-130-70(B)(14).

Please state the lifetime loss ratio anticipated in the original filing and, if applicable, an explanation why the current projected loss ratio is less than the originally anticipated.

The lifetime loss ratio anticipated in the original filing, adjusted for the current mix of business, is included in Exhibit 1 and is, in all cases, less than the current projected lifetime loss ratio.

In providing the experience, the exhibits should show the earned premiums, "paid" claims, incurred claims and loss ratio for each calendar year from the date of the forms' inception through the most recent date that information is available. Separate exhibits, and projections thereof, should be provided based on the Virginia only and national data.

Please see the exhibits included in the '*VA (Pre-RS) LR Exhibits with paid claims.pdf*' file.

Please provide detailed justification for all assumptions used in the projections.

We have included summaries of most recent experience studies. Please see the following attached files:

- '*JH 2013 Morbidity Study Summary.pdf*'
- '*JH 2013 Termination Study Summary.pdf*'

Please provide an explanation of the reserve basis and justification for the reserve levels.

Based on discussions had during the 2010 inforce rate increase filing process, we have provided Exhibit 1b in our initial filing which uses Net Level Reserves based on U.S. Statutory assumptions without margins (i.e. original pricing assumptions) and without reflecting any prior rate increases. This exhibit is intended to show compliance with the standards outlined in 14VAC5-200-150.

Please provide the anticipated loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated incurred claims less the policy reserves, and the denominator is equal t the anticipated earned premium.

This information is provided in Exhibit 1b in the actuarial memoranda. All values in this exhibit are discounted at the original pricing interest rates.

Please state the interest rate originally assumed in the determination of the premiums stated. If greater than the discount rate used in the projections, then please revise the projections by using the original rate.

Interest rates used in our original pricing assumptions are stated below:

Advantage 91:	8.5%
Advantage 94:	7.0%
Gold:	7.1%
CCI:	6.5%

For all products, these rates are greater than the maximum statutory valuation rates used in our current projections. Exhibits reflecting the original pricing interest rates are included in Exhibit 1b of the actuarial memoranda.

Please re-state the nationwide experience using Virginia approved rates.

All exhibits, on both a nationwide and Virginia-only basis, reflect only those rates approved in Virginia. This is done for all filings in all states in order to ensure that no state is subsidizing the rate actions from other states.

Please provide a separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would be if the proposed premium had been charged (collected) since the forms' introduction.

Please see the attached file '*VA (Pre-RS) LR Exhibits (since inception).*pdf'.

Note that we have also included in our original actuarial memoranda Exhibit 1c, which seeks to demonstrate that we are not seeking to recoup any past losses. This is based on methodology recently accepted by the Senior Issues Task Force and Health Actuarial Task Force in which past losses are defined as actual claims less expected past claims and expected past claims are defined as the following:

Expected claims shall be calculated based on the original filing assumptions assumed until new assumptions are filed as part of a rate increase. New assumptions shall be used for all periods beyond each requested effective date of a rate increase regardless of whether or not the rate increase is approved. Expected claims are calculated for each calendar year based on the inforce during the calendar year.

Please explain what, if any, margins are included in the proposed rates to ensure that future rate increases will not be needed presuming the experience develops as projected.

No margins are included in the proposed rates for the Advantage or Gold product series.

Margins for moderately adverse experience of 5.56% are included in the proposed rates for the Custom Care I product series. These are included, despite the fact that all Custom Care I policies included in this filing were issued prior to Rate Stability regulations being adopted in Virginia, as these are the margins the product was originally priced with.

Please provide sufficient detail or documentation provided so that any projections can be recreated.

We have a reconciliation spreadsheet which is able to replicate calculations from our GGY AXIS model. Unfortunately, due to the complexity of replicating GGY AXIS, this file is over 100MBs in size and cannot be submitted through SERFF. We have tried simplifying the spreadsheet model, but it involves removing a good deal of formulas which, in turn, leads to a loss of information which would likely prevent you from being able to recreate any of our projections.

If there are other means by which we can provide you this model, please let us know.

The filing states that the rate increase requests are based on its recently completed 2013 claims study. Please provide a copy of the comprehensive claim study so that we can independently assess the credibility and reasonableness of the morbidity assumptions.

We have included summaries of most recent experience studies. Please see the following attached files:

- '*JH 2013 Morbidity Study Summary.pdf*'
- '*JH 2013 Termination Study Summary.pdf*'

Please provide an actual to expected analysis versus both the original pricing assumptions and the current projection assumptions.

We have included a comparison of actual-to-original pricing assumption loss ratios in the attached file '*VA (Pre-RS) LR Exhibits.pdf*'. For actual-to-expected analysis using our prior best estimate assumptions, please see the attached experience studies as well as the tables in Section 17 of the filed actuarial memoranda.

Were there any concerns raised in any of prior filings that have not yet been addressed? If not, please revise the submission accordingly.

All concerns raised in prior filings have been addressed.

The company has indicated it would be willing to implement the rate increase on an annual phased-in approach on an actuarially equivalent basis. What schedule of increases would the company consider appropriate over a three year period?

We would be happy to consider converting every policyholder's originally-proposed rate increase into three equal annual segments. The table below shows the average rate increases that would be required in each year of implementation based on this approach (maximums and minimums have also been included). Note that in order to achieve the same loss ratio as a one-time increase we will require higher ultimate rate increases. This is in-line with the Model Bulletin recently approved by the Health Actuarial Task Force and Senior Issues Task Forces A & B which states:

In lieu of a single increase, the [Department] may approve a series of scheduled rate increases that are <u>actuarially equivalent</u> to the single amount requested by the insurer over the lifetime of the policy.

Product	Original Request	Phased-in Implementation	
		Rate Increase: Yrs 1-3	Ultimate
Adv	Average: 35.7%; Range: 30.0% - 35.8%	Average: 12.6%; Range: 10.8% - 12.6%	Average: 42.8%; Range: 35.9% - 42.9%
Gold	Average: 40.5%; Range: 33.9% - 40.8%	Average: 13.6%; Range: 11.6% - 13.7%	Average: 46.7%; Range: 39.0% - 47.0%
CCI	Average: 21.6%; Range: 21.6% - 21.6%	Average: 7.4%; Range: 7.4% - 7.4%	Average: 24.1%; Range: 24.1% - 24.1%

In the attached file '*VA (Pre-RS) LR Exhibits.pdf*', we have included premium projections using the staggered implementation methodology. These exhibits demonstrate that the additional cost of delayed implementation results in loss ratios equivalent to those originally filed.

Advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.

Please see the attached report '*JH Retail 2013 Inforce Rate Increase Filing Summary.pdf*'.

Is the intent of the company to not request any further rate increases if the proposed rate increase is approved and the experience develops as projected? If not, please explain.

We believe our current study accurately captures our historical experience and therefore we do not anticipate any further rate increase requests should experience emerge as currently expected.

Please provide a copy of the letter notifying Virginia policyholders there will be a rate increase and what their options are. We understand that forms and endorsements to implement any such changes have submitted under a separate filing. And according to the filing, options will be in compliance with the NAIC Model Bulletin. Such letters should include the following:

1) Overall percentage increase, amount, and effective date. If implementing over a 3 year period, the scheduled premiums and effective dates must be included.
2) The explanation for the increase must be clear and include the driving factors.
3) Options to reduce premium should be clearly and specifically stated.
4) Clear disclosure addressing guaranteed renewable nature of the policy and that the insured should understand that premium rates may increase again in the future
5) Compliance with the requirement to administer contingent benefit upon lapse in accordance with the NAIC Model Bulletin.

Please see the attached file '*2013 Sample PH Communication Pkg.pdf*'. This has been also filed under SERFF ID: MULF-129533194.

Please complete the attached Rate Summary. This form is now required for Long Term Care rate filings. Our expectation is that the form would be written in consumer friendly language and provide a clear explanation of the justification for the rate increase. This should be fairly high level and not drill down deep into the details but at least explain to the consumer the assumptions and changes that are driving the need for an increase.

Please see the attached form '*VA (Pre-RS) Rate Summary.pdf*'.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Actuarial Memorandum for Inforce Rate Increase - Gold Policy Series
July 23, 2014

Product Name	Form Number	Issue Date Range
Advantage Gold Select	LTC-96 VA	Sep 1996 - Mar 1998
Advantage Gold Select	LTC-96 VA 9/96	Jan 1997 - Jan 2004
Advantage Classic	LTC-96CL VA	Nov 1996 - May 1997
Advantage Classic	LTC-96CL VA 9/96	Feb 1997 - Nov 1997
Advantage Gold Facility Only	NH-99 VA 4/99	Jan 2000 - Feb 2003
Fidelity Advantage Gold Select	LTC2000 VA 4/00	May 2002 - Dec 2002

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned Policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description

A brief policy description for each of the policy forms:

LTC-96 VA, LTC-96 VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, as elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

LTC-96CL VA, LTC-96CL VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

For care received in a nursing home, provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, provides reimbursement of 80% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount; this maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, and is elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving nursing home benefits

and will continue to be waived until the insured stops receiving such benefits.

LTC2000 VA 4/00
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount is 150% of the nursing home maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

NH-99 VA 4/99
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year.

Below are currently expected sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.16	4.19
60	4.40	10.17
65	13.13	28.90
70	28.14	59.61
75	75.83	161.39
80	177.08	299.97
85	361.81	513.14
90	439.44	547.33
95	486.67	540.98

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	3.77	13.54
70	22.95	50.31
75	86.37	178.84
80	189.52	315.63
85	392.22	550.72
90	474.39	586.86
95	505.72	547.15

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	25.25	81.59
80	195.70	324.80
85	469.94	627.28
90	506.74	613.87
95	531.66	552.54

Voluntary Lapses

The voluntary lapse rates are also based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have also been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	22.9%	13.1%	13.1%	19.7%	26.6%	15.2%	15.2%	22.8%	27.8%	15.9%	15.9%	23.8%
2	24.9%	15.1%	17.7%	22.9%	28.8%	17.5%	20.5%	26.6%	30.2%	18.3%	21.4%	27.8%
3	26.9%	17.0%	22.3%	26.2%	31.1%	19.7%	25.8%	30.4%	32.5%	20.6%	27.0%	31.7%
4	28.2%	19.0%	26.9%	29.5%	32.6%	22.0%	31.1%	34.2%	34.1%	23.0%	32.5%	35.7%

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by Issue age, Benefit Period, Inflation Option, Home Health Care maximum benefit percentage, and Underwriting Class, as in the initial rate filing.

All premium factors related to the insured elected benefit design options or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-96 VA	1,870	1,980	2,783
LTC-96 VA 9/96	2,230	2,220	3,120
LTC-96CL VA	1,310	1,690	2,375
LTC-96CL VA 9/96	1,640	2,560	3,598
NH-99 VA 4/99	1,970	2,270	3,190
LTC2000 VA 4/00	2,230	2,200	3,092

14. Number of Policy Holders

The table below summarizes, as of 12/31/2012, the number of policies inforce and their 2012 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2012 Annualized Premium
LTC-96 VA	358	708,058
LTC-96 VA 9/96	10,742	23,888,363
LTC-96CL VA	8	13,549
LTC-96CL VA 9/96	2	5,122
NH-99 VA 4/99	39	88,692
LTC2000 VA 4/00	13	28,619

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2012 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2012 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The Company is requesting a flat rate increase of 40.8%. Rate increases adhere to the following restrictions:

1. We ensured that the proposed rate increases did not result in premium rates that exceed the rates that have been recently filed with the Interstate Compact for new business under the ICC12-LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-96 9/96 as an example). After the application of this restriction the average rate increase for the forms listed in this memo is 40.5%.
2. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.

3. The lifetime loss ratio after the proposed rate increases is greater than or equal to the lifetime loss ratio targeted in our most recent filing for the forms listed in this memo.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

Morbidity

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience furnished to us by consultants, with adjustments due to the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	3.01	5.20
60	12.68	20.80
65	22.37	34.98
70	40.88	61.31
75	76.90	113.36
80	149.16	219.71
85	258.89	385.19
90	366.44	606.53
95	344.93	738.28
100	400.20	792.37

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	6.00	9.34
70	35.69	53.35
75	77.21	113.66
80	149.16	219.71
85	258.86	385.15
90	366.30	606.29
95	344.57	737.50
100	400.77	793.51

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	38.57	56.14
80	153.31	223.16
85	259.91	383.26
90	359.74	595.44
95	337.58	722.54
100	396.27	784.59

Voluntary Terminations

The lapse rates varied by issue age for the first 3 durations as indicated in the table below, then graded to an ultimate rate of 3% by duration 10.

Issue Age	Dur 1	Dur 2	Dur 3
40	12.24%	10.80%	9.12%
45	10.72%	9.48%	8.18%
50	9.56%	8.48%	7.47%
55	9.15%	7.95%	7.08%
60	9.62%	7.95%	7.06%
65	10.18%	8.27%	7.27%
70	10.74%	8.91%	7.73%
75	12.20%	9.55%	8.21%
80	13.28%	9.97%	8.54%

Mortality

The 1983 Group Annuity Mortality Table was used, weighted 40% males and 60% females, with the following selection factors applied:

Duration	Selection Factor
1	50%
2	80%
3+	100%

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience and future premium and claim projections and illustrates that the anticipated lifetime loss ratio with the requested rate increase is 95.7%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 69.4%. The lifetime loss ratio as of 12/31/12 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

In addition, **Exhibit 1** contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple Inflation coverage the option to completely avoid the rate increase.

Under these new options, the policyholders get to keep their current accumulated Daily benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 3.7%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 3.4% (i.e. policies issued before 10/1/2003), the future annual inflation rate will be reduced to 2.2%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 2.8% (i.e. policies issued on or after 10/1/2003), the future annual inflation rate will be reduced to 2.0%

The 3.7%, 2.2% and 2.0% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of previous rate revisions

A 13.0% rate increase on these policy forms (issued prior to October 1, 2003) was accepted by your state on July 17, 2009.

A 46.2% rate increase on these policy forms was accepted by your state on December 01, 2011.

20. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs assuming approvals are granted within three months of the date this memo is filed and that the underlying assumptions are realized.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

John Hancock Life Insurance Company

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase – Custom Care Series
July 23, 2014

Product Name	Form Number	Issue Date Range
Custom Care	LTC-02 VA	Aug 2002 - Jul 2004
Essential Care	BSC-02 VA	Oct 2002 - Mar 2004

These policy form rates were originally priced with a margin for moderately adverse experience in accordance with the NAIC model rate stability regulations which were being implemented on a State by State basis during the time of our initial rate filing.

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned Policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description

A brief policy description for each of the policy forms:

LTC-02 VA
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily/monthly amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

BSC-02 VA
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility, home health care, hospice care, respite care, or attendance at an Adult Day Care Center providing Adult Day Care.

Provides reimbursement of covered long-term care expenses incurred after an elected elimination period is met.

For care received in an assisted living facility, benefits are paid up to 80% of the maximum daily/monthly amount. For all other care, benefits are paid up to 100% of the maximum daily/monthly amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving Nursing Home or Assisted Living Facility benefits and will continue to be waived until the insured stops receiving such benefits.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year, as well as a 5.56% margin for moderately adverse experience, consistent with the margin originally anticipated in our original pricing loss ratio.

Below are currently expected sample annual claim costs for an LTC-02 policy, $300 monthly benefit, with no inflation protection (including the 5.56% margin):

For policies issued prior to 2004:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	0.85	3.26
60	3.36	8.17
65	10.68	24.63
70	26.06	56.14
75	76.30	162.06
80	182.79	310.05
85	387.52	552.81
90	467.86	604.75
95	547.13	654.84

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	2.98	11.36
70	20.13	45.41
75	82.83	173.34
80	194.58	327.09
85	430.60	609.98
90	518.38	662.00
95	586.15	681.32

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	24.19	80.97
80	195.85	333.39
85	506.95	688.14
90	579.45	711.44
95	649.30	718.77

For policies issued after 2004 (lower morbidity due to underwriting changes):

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	0.65	2.50
60	2.60	6.34
65	8.44	19.47
70	23.57	50.79
75	71.06	150.99
80	170.71	289.86
85	364.52	522.10
90	446.57	583.81
95	530.05	652.53

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	2.28	8.70
70	15.62	35.27
75	65.76	137.86
80	177.49	299.42
85	405.90	578.52
90	496.44	641.68
95	572.33	687.78

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	18.54	62.07
80	153.78	263.04
85	418.91	575.45
90	561.67	703.67
95	644.75	752.15

Voluntary Lapses

The voluntary lapse rates are also based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have also been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

For policies issued prior to 2004:

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	22.3%	12.7%	12.7%	19.1%	25.8%	14.7%	14.7%	22.1%	27.0%	15.4%	15.4%	23.1%
2	24.2%	14.6%	17.2%	22.3%	28.0%	17.0%	19.9%	25.8%	29.3%	17.7%	20.8%	27.0%
3	26.1%	16.5%	21.6%	25.5%	30.2%	19.2%	25.1%	29.5%	31.6%	20.0%	26.2%	30.8%
4	27.4%	18.5%	26.1%	28.6%	31.7%	21.4%	30.2%	33.2%	33.1%	22.3%	31.6%	34.7%
5	28.6%	21.0%	30.6%	31.8%	33.2%	24.3%	35.4%	36.9%	34.7%	25.4%	37.0%	38.5%

In addition, for policies issued in 2004 and later, additional selection factors apply, due to a change in underwriting practices:

For policies issued after 2004:

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	21.2%	12.1%	12.1%	18.1%	24.5%	14.0%	14.0%	21.0%	25.6%	14.6%	14.6%	22.0%
2	23.0%	13.9%	16.3%	21.2%	26.6%	16.1%	18.9%	24.5%	27.8%	16.8%	19.8%	25.6%

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by Issue age, Benefit Period and Inflation Option, as in the initial rate filing.

All premium factors related to the insured elected benefit design options, underwriting class or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-02 VA	2,240	2,080	2,530
BSC-02 VA	1,860	1,900	2,311

14. Number of Policy Holders

The table below summarizes, as of 12/31/2012, the number of policies inforce and their 2012 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2012 Annualized Premium
LTC-02 VA	5,584	11,590,531
BSC-02 VA	175	331,647

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2012 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2012 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The company is requesting a flat rate increase of 21.6%. Rate increases adhere to the following restrictions:

1. We ensured that the proposed rate increases did not result in premium rates that exceed the rates that have been recently filed with the Interstate Compact for new business under the ICC12-LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-02 as an example). After the application of this restriction the average rate increase for the forms listed in this memo is 21.6%.
2. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.
3. The lifetime loss ratio after the proposed rate increases is greater than or equal to the lifetime loss ratio targeted in our most recent filing for the forms listed in this memo.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

Morbidity

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience from our own data and data furnished to us by consultants, with adjustments for the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-02 policy, $300 monthly benefit, with no inflation (which included a 5.56% margin for moderately adverse experience):

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.02	1.70
60	6.40	10.70
65	15.95	25.33
70	30.43	46.25
75	58.92	87.92
80	112.75	167.65
85	196.94	295.56
90	278.39	464.72
95	261.47	563.30
100	349.87	703.97

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	3.29	5.01
70	24.69	36.71
75	60.67	89.58
80	116.64	172.63
85	203.10	304.07
90	275.13	458.61
95	258.64	556.63
100	343.28	690.26

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	23.50	32.54
80	112.93	161.19
85	212.42	311.58
90	284.23	470.93
95	265.91	570.24
100	334.13	670.58

Voluntary Terminations

Duration	Inflation Option: None/GPO						
	Issue Age						
	40	55	60	65	70	75	79
1	9.7%	6.6%	6.4%	6.5%	6.9%	7.1%	7.2%
2	6.6%	4.6%	4.5%	4.5%	4.8%	4.9%	5.0%
3	4.7%	3.3%	3.3%	3.3%	3.5%	3.5%	3.6%
4	3.3%	2.4%	2.4%	2.4%	2.5%	2.6%	2.6%
5	2.3%	1.8%	1.8%	1.8%	1.9%	1.9%	1.9%
6+	1.2%	1.2%	1.2%	1.2%	1.2%	1.2%	1.2%

Duration	Inflation Option: 5% Simple

1	9.8%	6.6%	6.5%	6.6%	7.0%	7.2%	7.2%
2	6.7%	4.6%	4.5%	4.6%	4.8%	5.0%	5.0%
3	4.7%	3.4%	3.3%	3.3%	3.5%	3.6%	3.6%
4	3.3%	2.4%	2.4%	2.4%	2.5%	2.6%	2.6%
5	2.3%	1.9%	1.8%	1.8%	1.9%	1.9%	1.9%
6+	1.3%	1.3%	1.3%	1.3%	1.3%	1.3%	1.3%

Duration	Inflation Option: 5% Compound						
	Issue Age						
	40	55	60	65	70	75	79
1	8.6%	5.8%	5.7%	5.8%	6.1%	6.3%	6.4%
2	5.9%	4.0%	4.0%	4.0%	4.2%	4.3%	4.4%
3	4.1%	2.9%	2.9%	2.9%	3.0%	3.1%	3.1%
4	2.9%	2.1%	2.1%	2.1%	2.2%	2.2%	2.2%
5	2.0%	1.6%	1.5%	1.6%	1.6%	1.6%	1.6%
6+	1.0%	1.0%	1.0%	1.0%	1.0%	1.0%	1.0%

Mortality

The base mortality table was the 1994 Group Annuity Mortality Table, weighted 40% males and 60% females, with the following selection factors applied:

Policy Duration	Selection Factor
1	20.0%
2	30.0%
3	40.0%
4	50.0%
5	60.0%
6	70.0%
7	80.0%
8	85.0%
9	90.0%
10	95.0%
11+	100.0%

In addition, 18 years of future improvements were reflected.

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience and future premium and claim projections and illustrates that the anticipated lifetime loss ratio with the requested rate increases and the previously-stated margin for moderately adverse experience is 92.7%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 84.9%. The lifetime loss ratio as of 12/31/12 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

In addition, **Exhibit 1** contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, Exhibit 1 demonstrates that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple Inflation coverage the option to completely avoid the rate increase.

Under these new options, the policyholders get to keep their current accumulated Daily or Monthly benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 4.3%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 2.5%, the future annual inflation rate will be reduced to 1.8%

Both the 4.3% and 1.8% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of previous rate revisions

A 83.3% rate increase on these policy forms was accepted by your state on December 01, 2011.

20. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs under moderately adverse experience assuming approvals are granted within three months of the date this memo is filed.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

*discounted at maximum statutory valuation rates

Test: Total Incurred Claims exceeds the Total Initial Premiums x Original Pricing Loss Ratio (instead of 58%) + Increased Premiums x 85%

			Accum Value of Past Initial Prem x 69.4% =	3,812,128,614
			Present Value of Future Initial Prem x 69.4% =	1,109,713,604
Accum Value of Past Incurred Claims =	2,938,988,548		Accum Value of Prior Increases x 85% =	102,642,942
Present Value of Future Incurred Claims =	5,779,604,670		Present Value of Future Increases x 85% =	1,609,424,207
TOTAL =	8,718,593,219	> =	TOTAL =	6,633,909,367

Re: Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. [xxx]. **Decision required by [date].**
[Company name]

Dear [First Name] [Last Name],

John Hancock is committed to ensuring long-term care (LTC) insurance benefits will be there for our policyholders when they need them most. To uphold this responsibility, we continuously monitor the experience of our inforce LTC insurance policies. Our most recent analysis shows that policyholders are living longer, LTC claims are lasting longer, and that more policyholders are claiming at older ages than previously anticipated. Unfortunately, based on this data, we have determined a need to increase premiums on certain policy series to reflect the future claims expected on these policies, and yours is one of those policies affected.

Options to Avoid or Minimize the Premium Increase
We sincerely regret having to take this action and understand that a premium increase may not be affordable for some. **Therefore, <u>we are offering you an option to avoid the premium increase completely</u> by reducing your future annual inflation rate and keeping all other benefits the same.** Please see the enclosed "Options Worksheet" for more information on this as well as additional options that will enable you to minimize the premium increase.

About the Premium Increase
Based on your current benefit selections, unless you elect the option <u>described in the above paragraph</u> or one of the alternative options described in your Options Worksheet, your premiums will increase from [current premium] to [new premium], [policy mode]. This change represents a [increase percent] increase in your premium. This new premium will be effective for premiums due on or after [next policy anniversary]. Please note this letter is not a bill.

It is important to know that this premium rate increase has been filed with the [policy issue state] Insurance Department. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Our decision to increase premiums on certain policies is based upon the future claims anticipated on these policies. Please note that the decision to seek a premium increase on these LTC insurance policies has been made by John Hancock, not your insurance agent, nor the [policy issue state] Department of Insurance. As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future.

Importance of LTC Insurance Coverage

As you decide which of the coverage options described in this letter works best for you, you may wish to consider the value offered by LTC insurance. The need for care can be one of the most significant challenges a person can face – both personally and financially. LTC insurance provides valuable protection that may not be available with your health insurance or from government programs.

John Hancock has seen the difference this insurance has made in the lives of our customers and their family members. We remain committed to delivering on our promise to provide the coverage, support and service, when and where you need care.

Next Steps

The enclosed "Options Worksheet" details your current coverage and provides options you can elect in order to help minimize or avoid the premium increase completely. Please review it carefully as it is designed to help you make an informed decision.

- If you decide to reduce your coverage as outlined in the "Options Worksheet," simply complete the "Coverage Change Request Form" and return it to John Hancock by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on [**Month XX, YYYY]**.

For Further Assistance

Again, we sincerely regret having to take this action, but we hope you find that the options provided are helpful. If you have any questions, please visit www.jhinfocenter.com or contact one of our customer service representatives at [877-606-7754]. Our dedicated team is available to help you make a decision that best meets your personal needs.

Sincerely,

[Christopher Sutherland
Vice President, U.S. Insurance Operations]

Options Worksheet for [First Name] [Last Name]
Policy # [XXXXX]
[Company Name]

YOUR PERSONALIZED OPTION TO REDUCE COVERAGE [AND AVOID THE INCREASE]

[To avoid the premium increase we are offering you a one-time opportunity to reduce your future annual inflation rate. The table below shows your current premium and the new premium you will be charged if you keep your current annual inflation rate. The table also shows what your reduced inflation rate will be if you choose the personalized option, which will only be applied to future inflation increases that occur after the rate increase effective date. All other existing benefits and previous inflation increases that have already been applied to your policy through the effective date of the inflation rate reduction will be maintained.]

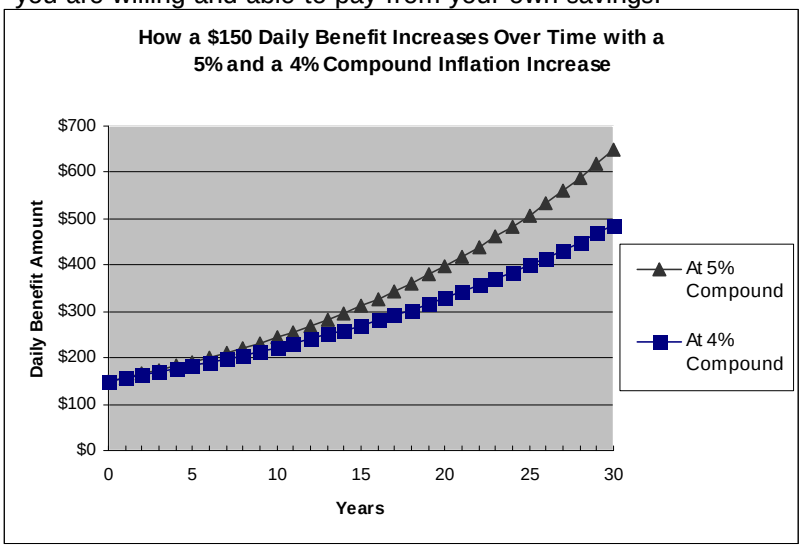
	Keep your current annual inflation rate	Personalized Option: Reduce your future annual inflation rate
Daily/Monthly Benefit[1]	[$XXX]	[$XXX]
Benefit Period[2]	[X-year]	X-year
Inflation Option[[3]]	[5%]	**[X.X%]**
Elimination Period	[XX]	[XX]
Optional Riders	[List here]	[List here]
Current [policy mode] Premium	[$XX.XX]	
New [policy mode] Premium*	**[$XX.XX]**	**[$XX.XX]**

**As of [Month XX, YYYY]*

Please note: Variations of this personalized option are not available, though other options to help minimize the increase may be. [It is also important to note that your coverage includes a "Limited Pay" premium payment provision. Please consider the number of remaining payments before making the decision to reduce your benefits.] For more information, please call John Hancock at [**877-606-7754].**

[Information to Consider

The graph below is an example of how a $150 daily benefit amount increases over the next 30 years at [5%] and [4%] [annually compounding rates][simple annual increases].]To help you with your inflation coverage decision, we thought it might be useful to also provide you with the latest trends in the cost of care. The chart to the right shows the national average annual increase over the past [five] years for the cost of care in various care settings. Please visit **www.jhinfocenter.com** for current cost of care information specific to your area. As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are willing and able to pay from your own savings.



Trends in the Cost of Care

Long-Term Care Setting	[5]-Year Average Annual Increase
Nursing Home: Private Room	[3.6%]
Nursing Home: Semi-Private Room	[3.6%]
Assisted Living Facility	[2.0%]
Home Health Care Aide	[1.3%]
Adult Day Care	[1.6%]

[The 5-year average annual increases are based on a subset of common providers from our 2008 and 2011 Cost of Care surveys and our 2011 and 2013 Cost of Care surveys]

][1] [Daily/Monthly] Benefit is the most the coverage will reimburse for the costs of covered long-term care services received on [any day/in any month]. Your [Daily/Monthly] Benefit shown above reflects any inflation increase through [next policy anniversary].

[2] Benefit Period is used to calculate your Policy Limit by multiplying your [Daily/Monthly] Benefit by the number of [days/months] in [X-years] [or Y-years]. The Policy Limit represents the total pool of money available to reimburse the costs of covered long-term care services you receive while insured.

[3] A reduction to your future annual inflation rate will apply to your [Daily/Monthly] Benefit. The inflation rate on your Policy Limit will remain at 3%.]

YOUR ALTERNATIVE OPTIONS [TO REDUCE COVERAGE AND LOWER PREMIUMS

To help mitigate the premium increase, you may be eligible to reduce other benefits. For example, you may be eligible to:

- Reduce your current [daily/monthly benefit]*
- [Reduce your benefit period*]
- [Increase your elimination period]
- [Drop an optional rider]

* This reduction will also result in a corresponding decrease in your Total Policy Limit.

Please note - in certain instances the ability to reduce your benefits may not be available due to state-regulated minimum benefit requirements or the available plan options. [In addition, certain changes are subject to Partnership regulatory benefit minimum requirements.] [Your policy includes a "Limited Pay" payment option. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.] For more information, please call John Hancock at [**877-606-7754].]**

[Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[Exercise the Contingent Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[The following terms apply if you choose to exercise the [Nonforfeiture][Contingent Nonforfeiture] Benefit:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.]

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Nonforfeiture benefit amount may be slightly higher as it will be calculated based on current benefits and premiums paid to date as of the effective date of your paid-up status.]

IMPORTANT DATES

- If you choose an option listed on the enclosed Coverage Change Request Form, you must complete, sign and return the form by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on [**Month XX, YYYY]**.

1. **Why do you need to raise premium rates — can you explain further?**
   Forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

   We have recently completed another comprehensive claims study, which we conduct every three years and which examines the usage trends for our insured population. Like many carriers in this business, we have seen increased claims, and therefore there is more experience data available to predict future benefit usage by policyholders. As compared to our previous analysis, the new data shows that policyholders are living longer, their claims are lasting longer, and more people are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series.

2. **What is the policy provision that allows you to raise my premiums?**
   The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased.

3. **Have I been singled out for this rate increase because of my age or health?**
   No. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Also, your state has not been singled out, as all states are included in our rate increase process.

4. **If I no longer live in the state where I purchased my policy, does the increase still apply?**
   Yes. All LTC insurance policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

5. **Is the premium rate increase due to the prevailing economic environment?**
   No. We are increasing premium rates solely due to our claims experience, which indicates higher-than-expected claims on your policy series in the future, and not due to poor investment experience.

6. **Is there an alternative to paying higher premiums?**
   Yes. We are offering several benefit reduction alternatives and, in most cases, at least one option that will enable you to keep your premiums at or close to the same level as what you are paying today. The enclosed 'Options Worksheet' outlines your options. To further review these options, please contact one of our customer service representatives.

7. **What is the purpose of the enclosed Coverage Change Request Form?**
   The enclosed Coverage Change Request Form need only be completed and returned to John Hancock should you decide you want to adjust your benefits or cancel your policy. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

8. **Will there be additional premium increases in the future?**
   Premium rates are not guaranteed. We will continue to monitor our claims experience to determine whether future increases will be necessary. We will not need additional increases if our experience does not deteriorate further.

COVERAGE CHANGE REQUEST FORM
Individual LTC Insurance Policy for [First Name] [Last Name]
Policy # [XXXXX]
[Company Name]

[To avoid the premium increase, we are offering you a one-time opportunity to elect your personalized option.]

If you choose to make no changes to your current coverage, no action is required and your new increased premium will be effective on [**Month XX, YYYY]**.

If you choose to change your coverage, you must select an option listed below, sign and return this Coverage Change Request Form by [**Month XX, YYYY]**.

Step 1: Select an option (please choose only one option)

For more details, please see your Options Worksheet. As a reminder, you may have alternative options available to mitigate the premium increase. For more information, please call John Hancock at [**877-606-7754].**

COVERAGE CHANGE OPTIONS	
☐	[Reduce your future annual inflation rate from [5%] to [X.X%].
☐	[Exercise the [Nonforfeiture/Contingent Nonforfeiture] Benefit available on your policy.]
☐	[Cancel your coverage. This change will be effective immediately.]]

Step 2: Review Agreement and Acknowledgement

I understand that my benefits and/or premium for those benefits will change based upon the option(s) I select.

I understand that premium rates are not guaranteed and may be increased again in the future if I am among the group of policyholders whose premiums are determined to be inadequate.

If I select an option(s) to change my coverage, I understand that, within 30 days of the date this change becomes effective, I may cancel the change in my coverage and return to my original coverage at the increased premium level.

I understand the policy change(s) I selected above. By signing below, I agree that any change(s) other than cancelling my policy, will be effective on my next policy anniversary provided this form is received by John Hancock by that date.

Step 3: Sign and Date

Signature ([First Name] [Last Name]) **Date**

Step 4: Return this completed form using the enclosed postage-paid envelope by [Month XX, YYYY].

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

This document is intended to help explain the rate filing and it is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

Health Insurance Rate Request Summary

Accurate forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

Unfortunately, the most recent detailed review of our pricing assumptions confirms that the expected claims over the life of your policy series are significantly higher today than they were expected to be when the premiums were originally determined. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

Our decision to increase premiums is solely related to the future claims anticipated on these policies and not to the recent recession, interest rate environment, or any other investment-related reason

As an alternative to paying higher premiums, we are offering several benefit reduction alternatives and, in most cases, at least one option that will enable the policyholder to keep their premiums at or close to the same level as what is being paid before the rate increase.

John Hancock Individual Long Term Care 2013 Morbidity Experience Study

This Study found significant trends leading to cost increases across all morbidity components. Overall morbidity costs are driven by three factors: claim incidence, claim termination rates (continuance) and percentage of benefit used (salvage). Each of these factors, in turn, is driven by underlying dynamics. The following tables highlight separately the major dynamics affecting incidence, continuance, and salvage.

Statistical Methodology

Each contributing factor to overall morbidity costs was analyzed separately (incidence, continuance, and salvage). In addition, each underlying factor that could have driven the incidence, continuance and salvage was considered in the separate analyses. We fit a multiple factor excel model to the data fitting across what we had found to be the most significant contributing factors. For example we fit incidence across: attained age, issue age, duration from issue, marital status, gender, issue year, benefit period and UW Risk Class. The fit was tested for confidence levels using standardized approaches and found to have high confidence level overall, however, some cells could have lower credibility given limited number of claims in some cases.

Data

The data used to analyze morbidity incidence included all claims and exposure of product series newly issued from 1991 through 09/30/2012. This dataset includes 47,937 open and closed John Hancock retail claims. In addition, continuance and salvage were analyzed on all claims incurred before 09/30/2011.

Incidence

The following table for the JH Retail business compares our actual number of claims to our expected number of claims on both our previous and new expected claim basis for durations 10+. While the A/E is 99.7% under previous assumptions across all durations, analysis of incidence assumptions focused on the later durations. Durations from issue 10+ show a previous A/E of 104% and a revised A/E of 100%. While our exposures are enough to give our results high credibility overall, credibility is low at the older issue ages.

Durations 10+

Issue Age	Actual	Previous Expected	New Expected	A/E Previous	A/E New
<50	23	16	23	142.2%	100.2%
50-54	213	178	221	119.9%	96.5%
55-59	780	671	780	116.2%	100.0%
60-64	3,209	2,728	3,209	117.6%	100.0%
65-69	6,967	6,645	6,967	104.9%	100.0%
70-74	7,612	7,515	7,611	101.3%	100.0%
75-79	4,121	4,189	4,114	98.4%	100.2%
80+	655	743	649	88.2%	100.9%
All	23,581	22,686	23,575	103.9%	100.0%

CONFIDENTIAL

Continuance

The following tables for John Hancock Retail business compare actual claim terminations to expected claim terminations for both the previous and new expectation. The data for claim terminations is through 9/30/2011, but, measured as of 9/30/2012 to capture late reporting of claim terminations. Claim terminations include both death and recovery from a disabled status.

When claim terminations are less than expected the A/E is less than 100%, and it implies overall longer claims. We look at claim terminations during the Elimination Period (first 5 months on claim), as well as after the EP (Months 6+). Below are tables split the following ways: attained age at claim incurral, product, benefit period and gender.

Overall claim terminations A/E is close to 100% since inception but, the patterns that were emerging were unfavorable.

Claim terminations by incurral age show a deteriorating trend as the incurral age increased. While our exposures are enough to give our results high credibility overall, credibility is low at incurral ages 90 and above.

During EP

Incurral Age	Actual	Previous Expected	New Expected	A/E Previous	A/E New
<70	1,400	878	1,446	159%	97%
70-74	1,512	1,196	1,507	126%	100%
75-79	2,207	2,167	2,161	102%	102%
80-84	2,211	2,528	2,172	87%	102%
85-89	1,033	1,375	1,030	75%	100%
90+	197	229	199	86%	99%
Total	8,560	8,374	8,515	102%	101%

After EP

Incurral Age	Actual	Previous Expected	New Expected	A/E Previous	A/E New
<70	1,461	1,555	1,479	94%	99%
70-74	2,335	2,325	2,327	100%	100%
75-79	4,102	4,111	4,087	100%	100%
80-84	4,531	4,514	4,531	100%	100%
85-89	2,345	2,410	2,380	97%	99%
90+	365	449	450	81%	81%
Total	15,139	15,364	15,254	99%	99%

Similarly the trend by product shows much lower claim terminations after the EP than expected on the Custom care and later block, which is our primary block of business.

Salvage

The following tables for John Hancock Retail business compare the amount we paid on claims to the maximum amount we could have paid on both our previous and new expected basis. The data used for these tables includes payments from inception through 09/30/2011, using a 09/30/2012 database to capture late payments. The overall A/E under previous assumptions was 101.9% and is now 98.8% under new assumptions. The overall experience as well as the poor experience by inflation type led an increase in the Present Value of Future Benefits.

While our exposures are enough to give our results high credibility overall, credibility is low at incurral ages 90 and above.

It can be seen that results by inflation type show unfavorable results for compound inflation types.

Inflation Type	Actual Paid	Maximum Payable	Ratio	Exp Paid Previous	A/E Previous	Exp Pd New	A/E New
None	1,314,628,746	1,783,795,648	74%	1,305,378,917	100.7%	1,330,407,514	98.8%

2013 Long Term Care Mortality Study

The results of the Long Term Care mortality experience study are in the table below. The expectations in the table below reflect best estimate assumption as of December 2012. The actual mortality is significantly lower than what was expected, especially in later durations.

Dur	Expos Count	Actual Count	Expected Count	Mort A/E Count	Mort A/E Amount
1-5	768,807	1,939	2,070	93.7%	95.8%
6-10	901,554	9,221	9,938	92.8%	93.1%
11-15	522,999	14,374	15,403	93.3%	93.1%
16	175,168	6,721	7,535	89.2%	88.1%
Total	**2,368,527**	**32,256**	**34,946**	**92.3%**	**92.4%**

Assumption changes were necessary to bring the expectations in line with actual experience. The expected mortality counts and amounts in the table below reflect the new assumptions. The actual to expected (A/E) ratio for the Long Term Care mortality is now 100%, rather than the 92.4% in the table above. The improved mortality has led to an increase in expected claim costs, as policyholders are more likely to live longer and go on claim.

Dur	Expos Count	Actual Count	Expected Count	Mort A/E Count	Mort A/E Amount
1-5	768,807	1,939	2,000	97%	99%
6-10	901,554	9,221	9,171	101%	101%
11-15	522,999	14,374	14,434	100%	99%
16+	175,168	6,721	6,683	101%	100%
Total	**2,368,527**	**32,256**	**32,288**	**100%**	**100%**

Our exposures are enough to give our results high credibility overall.

CONFIDENTIAL

2013 Long Term Care Lapse Study

The results of the Long Term Care lapse experience study are in the table below. The expectations in the table below reflect best estimate assumption as of December 2012. The actual lapses are higher than what was expected, especially in earlier durations (1-5). Note that this study excludes policies that were re-rated because a shock in the lapse rate is to be expected following a rate increase and we did not want to reflect that in our lapse assumption.

Non Re-Rate							
Inflation	Dur	Expos Count	Actual Count	Expected Count	Actual Lapse Amount	Lapse A/E Count	Lapse A/E Amount
No	1	16,329	899	637	5.04%	141%	129%
	2	19,292	755	473	3.75%	160%	153%
	3-5	64,512	1,560	844	2.45%	185%	187%
	6-10	109,725	1,529	1,097	1.34%	139%	135%
	11+	147,533	1,709	1,402	1.01%	122%	107%
No Inflation Total		**357,391**	**6,451**	**4,451**	**1.76%**	**145%**	**138%**
Yes	1	126,798	4,784	4,184	3.69%	114%	112%
	2	125,654	3,761	2,450	2.98%	153%	153%
	3-5	305,721	6,337	3,424	2.09%	185%	186%
	6-10	506,860	4,937	4,329	0.98%	114%	115%
	11+	131,927	1,019	1,121	0.71%	91%	84%
Inflation Total		**1,196,959**	**20,837**	**15,509**	**1.76%**	**134%**	**134%**
Total		**1,554,350**	**27,288**	**19,960**	**1.76%**	**137%**	**135%**

Assumption changes were necessary to bring the expectations in line with actual experience. The expected lapse counts and amounts in the table below reflect the new assumptions. The increased lapse assumption results in a reduction of future claim costs. The higher than expected lapses in the early durations were likely caused by the poor economy. As we do not believe this trend will continue into the later policy durations, lapse rates for durations 6+ were left unchanged.

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated September 4, 2014 regarding the above filing. Your comments are included below in bold with our responses following.

Thank you for your recent reply to our request for additional information. Before we can continue our review, in addition to the nationwide experience using Virginia approved rates, please provide nationwide experience and projections using the nationwide premium.

Please see the attached exhibit: *VA Pre-RS LR Exhibits - Nationwide Premium.pdf*.

Note that although the lifetime loss ratio at Virginia rate levels is lower than the lifetime loss ratio using actual earned premiums, Virginia is not subsidizing the approval activity in any other state. Our rate increases for a particular policy form do vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. States that capped our prior rate increase filings did so with the understanding that the full amount of the proposed rate increases were justified and that John Hancock would be refiling for the remainder at a later date. For some states, the remainders were filed and approved and in other states we were unable to file for the remainders before we had to begin preparing the current 2013 rate increase filings. In instances where the remainder remains unapproved, it has been included in the current filings.

We have carefully reviewed your request that certain exhibits submitted to the Bureau of Insurance as part of the company's filing be given confidential treatment. As an initial matter, the Commission is not subject to the Virginia Freedom of Information Act. The Commission's policy is to make its records publicly available to the extent such records are not granted confidential status pursuant to a particular statute, legal privilege, protective order, or on the basis of well-established public policy grounds. Although there is no specific law that governs access to life and health insurance filings, they have historically been open to public inspection. Unless the company can provide a legal analysis within the next five (5) business days that supports its request under Virginia law, the Bureau intends to make publicly available all of the information contained in the company's filing.

We have decided that the confidentiality previously requested is not necessary for these exhibits.

We have attached a new exhibit detailing the requested/approved rate increases in other states. The exhibit '*JH Retail 2013 Inforce Rate Increase Filing Summary.pdf*' should replace the exhibit sent on August 25, 2014.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated September 23, 2014 regarding the above filing. Your comments are included below in bold with our responses following.

1. Please provide all loss ratio exhibits in Excel format with working formulas, including the following additional details:
a. the actual interest discount factors used for each year in the calculations
b. separate the premiums between premiums based on the initial premium rates and premiums due to past and future assumed rate increases.

Please find the required loss ratio exhibits in the attached file *'VA Pre-RS LR Exhibits.xls'*.

2. Please expand the analysis of the filing status of rate increase requests by jurisdiction to include both past and current increases, a calculation of the cumulative increase by jurisdiction, and weighted average rate increase approved nationwide.

Please see the attached file '*JH Retail 2013 Inforce Rate Increase Filing Summary.pdf'* which includes the requested information by jurisdiction and product.

3. The sample annual claim costs for the Advantage series are shown at issue ages 57, 67, and 77 for the original assumptions, but at ages 55, 65 and 75 for the revised assumptions. Please provide samples for both sets of assumptions at the same ages so that a valid comparison can be done. Also, please provide the corresponding sample claim costs for the assumptions at the time of each previous rate increase filing for each policy series.

In the tables below we have provided the revised assumptions at issue ages 57, 67 and 77:

Age	Issue Age 57	
	4 year	Lifetime
57	1.51	6.47
62	6.50	17.14
67	16.50	40.87
72	38.85	87.37
77	96.82	210.72
82	234.20	407.23
87	400.01	578.68
92	480.23	593.66
97	476.87	533.11

Age	Issue Age 67	
	4 year	Lifetime
67	5.48	23.76
72	36.14	87.38
77	117.17	256.03
82	255.56	444.70
87	426.31	615.76
92	512.38	627.68
97	493.08	527.99

Age	Issue Age 77	
	4 year	Lifetime
77	31.97	123.46
82	232.53	431.58
87	478.49	687.59
92	520.68	631.25
97	508.17	536.20

However, we recommend comparing the current claims costs to those produced under our prior best estimate assumptions (as opposed to our original assumptions) in order to get a better idea of the magnitude of the assumption change. This can best be seen in the attached exhibit *"2013 vs 2010 Adv Morbidity Assumptions.pdf"*.

4. The documentation of the 2013 Morbidity Experience Study show that the previous salvage factors produced an A/E of 101.9% and the new factors produce an A/E of 98.8%. Please explain why adjustments were made that appear to be larger than necessary based on the experience.

The "A/E New" of 98.8% in the 2013 Summary of the 2013 LTC Morbidity Study includes 2010 and 2011 experience. Since this recent experience is immature, we have removed that experience from our analysis, leading to a revised "A/E new" of 100%.

5. The documentation notes that the lapse study removed all policies which had undergone prior rate increases. Obviously, all of the policies under these policy forms have had previous increases, so please provide details about the characteristics (average duration, type of coverage, average premium by age, etc.) of the policies used in the experience base for future lapse assumptions versus the policies covered by this filing.

We have observed that lapse experience is one and half to four times higher than normal lapse activity within the first two years after policyholders are notified of a rate increase. In order to remove from the lapse study the impact of shock lapses due to past rate increases, we have excluded the policies that have received a notification of rate increase during the study year or prior to the study year. Prospectively, these policies are expected to return to our exposure after shock has expired.

The majority of the policies removed from the study correspond to policies in durations 6 or more, but this does not have a detrimental effect on the lapse rates for policies in those durations since the lapse rates have remained unchanged. However, the study shows that lapses were greater than expected for early durations, hence only lapse rates for durations 1 to 5 were increased, having an immaterial impact on the re-rated products like Advantage, Gold and CCI where the average duration of the policies are greater than 9 as shown in the tables below:

Nationwide policies covered in this filing			
Product	**Average Duration**	**Count**	**Average Premium**
ADV	18	30,370	1,920
GOLD	13	139,391	2,220
CC	9	145,834	2,230
CCII10	2	15,482	2,400
CCIIE	3	59,753	2,360

Virginia policies covered in this filing			
Product	**Average Duration**	**Count**	**Average Premium**
ADV	18	2,267	1,790
GOLD	13	11,162	2,220
CC	10	5,759	2,080
CCII10	2	785	2,340
CCIIE	4	3,117	2,380

Additionally, we would like to mention that in comparison with the impact of morbidity and mortality assumptions, the change in the lapse assumptions has a minimal relative contribution in the rate increases proposed in the current filing.

6. The documentation asserts in several places that certain experience has either high or low credibility, but does not contain any objective measure of credibility. Please provide a quantitative discussion related to the Company's standard of credibility and confidence intervals, as well as the credibility of the past claim experience results by policy series.

This is not simple to quantify because of the large number of heterogeneous dimensions associated with LTC business. For example, CCI has had 4,825 claims nationwide, which may seem sufficient to give this form full credibility. However, much of this experience is at younger attained ages and during the select period, which are not homogeneous dimensions. Using a hypothetical example, if all of the CCI experience was below attained age 85, and if the present value of future benefits from issue shows age 85 to make up 50% of this PV, then the credibility for age "<85" might be 100% (only if "<85" is homogeneous, which it's not), and the age "85+" has 0% credibility. Total credibility might then be defined as a weighted average of cell by cell credibility, or perhaps 50% in this example.

Only one dimension was considered here. Once other dimensions are introduced, it becomes nearly impossible to define what is meant by credibility as a whole. So we have not assigned a credibility factor for Virginia only experience. Rather, our actuarial assumptions are based on nationwide experience.

7. You indicate that the new inflation options were determined to be actuarially equivalent to the requested rate increases in aggregate. Please provide actuarial support for this equivalence, and also include measure of the variation for individual policies or outliers.

The reduced inflation options were calculated in aggregate for each plan across all policyholders with Simple and Compound inflation (all ages and benefits within the given plan). For each plan, the following analysis was done:

A. Determine the impact of the requested rate increases on the present value of future gross premiums.
B. Solve for the reduced inflation percentage (to the nearest tenth of a percent) that reduces the present value of future benefits by the amount actuarially equivalent to the amount calculated in A.

By solving for actuarially equivalent impacts on premiums and benefits, we are ensuring that the company does not profit nor lose from the policyholders' choice to accept the landing spots in lieu of the rate increases.

The tables below show for CCI the expected impacts on future premiums from the proposed rate increases as well as the expected impacts on future benefits at various reduced inflation options. The landing spot of 4.3% was selected as it minimizes the difference between the premium and benefit impact columns:

for those policies that did not previously elect an inflation-reduction option :						
Present Value of Future Benefits				**Present Value of Future Premiums**		
Current Inflation Option	PVFB				PVFP	**Impact**
5.00%	1,545,847,918			w/ Proposed Rate Increase	1,125,432,807	
				w/o Proposed Rate Increase	957,252,866	**168,179,941**
Inflation-Reduction Option	PVFB	**Impact**				
4.40%	1,399,633,460	**146,214,459**				
4.20%	1,354,271,825	**191,576,093**				

Additionally, as it can be observed in the Appendix D provided in our initial filing, there is no variability in the rate increase for policyholders with Simple and Compound inflation option.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Annual claim costs for an LTC-91 policy, 100-day EP, $10 daily benefit, with no inflation protection, for four-year and lifetime benefit periods

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated December 11, 2014 regarding the above filing. Your comments are included below in bold with our responses following.

1. The answer to our previous question related to credibility did not provide the information requested. Please provide the standard that the Company has chosen to represent full credibility and reference to any actuarial literature supporting that measure. Using this standard, please provide calculations of the credibility of past claim experience results for each policy series (Advantage, Gold, CCI).

Credibility formulae are more typically applied for lines of business such as Auto or Group Medical Insurance, which usually have a very short time frame with immediate feedback. Other products such as Life or Long-Term Care Insurance have not traditionally used credibility approaches. Our guidelines recognize this stating, "…there may be situations where this [crediblity] method may not be appropriate for a particular study being conducted. It is up to the Actuary to determine if the suggested approach is suitable." We determined that a credibility approach was not suitable, and instead revised assumptions using confidence intervals across a wide number of attributes to determine if the revised assumptions were reasonable.

In general, our company standard is to assume full credibility when we have 1,082 claims on homogeneous data. The table below shows the claim counts for each form and a credibility percentage as measured against the 1,082 standard. However, please note that we do not consider our data to be homogenous.

Nationwide Claim Counts			
	Advantage	**Gold**	**CCI**
Total Historical Claim Counts	**11,899**	**21,107**	**4,825**
Percent of Standard	**100%**	**100%**	**100%**

2. The document "2013 vs 2010 Adv Morbidity Assumptions.pdf" shows that the 2013 morbidity assumptions are significantly higher than those used in the 2010 rate filing. While the actuarial memorandum includes information showing that the new assumptions have a reasonable fit with the early duration claim experience, there is limited support given for the increases assumed in later duration future experience. Since the increase in projected loss ratio depends largely on the change in the assumption of future morbidity, please provide further support for why the company's expectation of future morbidity has deteriorated significantly since the previous rate increase filing only a couple of years ago. This support should include, but not be limited to, claim counts by duration that were used in the morbidity study.

Our requested increases are due to new data at older attained ages and later policy durations as opposed to any significant unfavorable trends since 2010. For a listing of older attained ages and later policy durations, please see the tables below, which show Actual and Expected Incurred Claims before and after our most recent changes to our Morbidity Assumptions for policies with durations greater than 10 years for ages 51+.

New Incidence Assumptions			
Attained Ages	**Actual Incurred Claims**	**Expected Claims**	**Actual to Expected**
51–55	4	6	98%
56–60	39	33	168%

Dear Ms. Houser,

This letter is in regard to our responses sent on March 6, 2015 to your objections dated December 11, 2014 regarding the above filings. We are submitting revised response letters for each objection.

We noted a typographical error on page 2 in each response letters in the 'New Incidence Assumptions' table. While the Actual and Expected Claims are correct, the Actual to Expected ratios were calculated incorrectly. We apologize for any confusion this may have caused.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing

This letter is intended to provide additional information and analysis regarding the re-filing of our 2013 inforce rate filing. This filing now reflects past experience as of December 31, 2013. In addition, we have adjusted the assumed implementation date for the proposed rate increases to January 1, 2016.

In addition to the required filing exhibits and certifications, we have also provided side-by-side comparisons of the 2012 and 2013 experience data. Regarding these exhibits, please note the following:

- Loss ratios are shown before the 2013 proposed rate increases
- In order to facilitate comparison between our year-end 2012 experience and our year-end 2013 experience, we have provided lifetime loss ratios as of 12/31/2013. Loss ratios are calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium. All present values are calculated at the maximum statutory valuation interest rates in effect when the policies were issued.
- Historical incurred claims in the 2013 section differ slightly from those shown in the 2012 section mainly due to claims maturing as well as insureds changing their claim status.
- For ease of viewing, we are showing only 43 calendar years of historical experience and projections, however the lifetime loss ratios are calculated based on the full projections for all years
- Future claim and future premium projections will be lower when using year-end 2013 data as compared to year-end 2012 data due to benefit reduction options elected during the 2013 calendar year (e.g. inflation-reduction landing spots).

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480734

Dear Ms. Houser,

This letter is in response to your objection dated April 2, 2015 regarding the above filing. Your comments are included below in bold with our responses following.

Please note that we have revised our filing to reflect more current experience, as requested below in #2. In addition to reflecting an additional year's worth of experience, we have revised the assumed date of implementation for the proposed rate increases. This delayed implementation combined with the updated experience has led to overall larger rate increases and lower inflation-reduction landing spots.

1. **Please provide a copy of the independent third party peer review of the new morbidity assumptions.**

   Please see the attached file, *Towers Watson Peer Review LTC.pdf*.

2. **Given the time elapsed since the original filing, please update all previously provided projections with actual historical experience through a more recent date.**

   The filing has been updated with data through 12/31/2013. In addition to reflecting an additional year's worth of experience, we have revised the assumed date of implementation for the proposed rate increases. This delayed implementation combined with the updated experience has led to overall larger rate increases and lower inflation-reduction landing spots.

3. **Please provide a projection of anticipated future experience using the actual inforce policies on the projection date, but using the original premium scale and the original pricing assumptions for lapse, mortality and morbidity to project both future premiums and claims.**

   Please see the attached file, *Inforce Business Projected at Original Pricing (Pre-RS).pdf.*

4. **We understand the proposed inflation landing spots are actuarially equivalent to the requested rate increase in aggregate. We remain concerned with policyholder equity. Please provide several examples (including outliers) of the variability in the relative present value of each option available in lieu of increase from the individual policyholder perspective. We are interested in seeing the effect on an individual basis how actuarially equivalent the landing spots may be.**

   Generally, the landing spot is a good option for older policyholders because they have less expected benefit growth before claim than the younger policyholders.

The reduced inflation options were calculated in aggregate for each plan across all policyholders with Simple and Compound inflation (all ages and benefits within the given plan). For each plan the following analysis was done:

A. Determine the impact of the requested rate increases on the present value of future gross premiums (PVFP).
B. Solve for the reduced inflation percentage (to the nearest tenth of a percent) that reduces the present value of future benefits (PVFB) by the amount calculated in A.

By solving for equivalent impacts on premiums and benefits, we do not anticipate that the company will profit nor lose money from the policyholders' choice to accept the landing spots in lieu of the rate increases. Note that our assumption of the portion of policyholders who will choose the inflation-reduction option is based on the policyholder's issue age, benefit period and requested rate increase.

In the section below, the tables provided the reduction in the present value of future benefits paid by the company as well as the reduction of present value of future premiums received by the company assuming a policyholder has chosen a landing spot. For each product and landing spot offering, we have provided two outlier policies and a policy with very little gain or loss.

Advantage:

- 3.4% inflation option for policyholders who previously declined the landing spot and currently have a 5% inflation option.

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
70	Simple	4 years	235	545
44	Compound	6 years	17,535	1,733
40	Simple	6 years	3,452	3,273

- 3.2% inflation option for policyholders who previously elected the landing spot and currently have a 4.5% inflation benefit (i.e. LTC-94 VA policies).

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
77	Simple	6 years	152	1,116
56	Compound	Lifetime	13,223	4,569
65	Compound	10 years	1,427	1,430

- 2.2% inflation option for policyholders who previously elected the landing spot and currently have a 3.6% inflation benefit (i.e. NH-94 VA policies).

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
79	Simple	4 years	162	615
44	Compound	10 years	9,564	2,281
53	Simple	10 years	1,325	1,194

Gold:

- 3.1% inflation option for policyholders that currently have a 5% inflation option.

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
83	Simple	3 years	96	708
37	Compound	10 years	30,067	12,991
75	Compound	10 years	4,334	4,044

- 1.7% inflation option for policyholders who previously elected the landing spot and currently have a 3.4% inflation benefit (or in the case of a small group of policies, a 2.8% inflation benefit)

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
82	Simple	3 years	303	1,991
38	Compound	3 years	17,323	7,355
37	Simple	3 years	2,146	2,162

CCI Pre Rate Stability:

- 4.2% inflation option for policyholders that currently have a 5% inflation option.

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
77	Simple	10 years	269	1,191
36	Compound	Lifetime	14,019	7,051
34	Simple	6 years	1,283	1,115

- 1.7% inflation option for policyholders who previously elected the landing spot and currently have a 2.5% inflation benefit

Reduction in Dollar Amount by Choosing Landing Spot				
Issue Age	Inflation Type	Benefit Period	PV Future Benefits	PV Future Premiums
80	Simple	4 years	70	979
31	Compound	6 years	9,084	3,804
36	Simple	5 years	905	909

5. **Please provide further detail about what the benefit will be for a policyholder the elects the "landing spot". Will it be the amount in effect at the time of the reduction or will it be recalculated?**

   If the policyholder elects the landing spot, all accrued benefits are kept and the new inflation benefit will take effect at the time of election. For example, if a policyholder had a 5% simple inflation policy starting with a $100 daily benefit, their daily benefit would increase by $5 each year, reaching $150 daily benefit after 10 years. If the policyholder then elected a landing spot of 3.4%, their daily benefit would grow by $3.40 each year, reaching $153.40 daily benefit starting in year 11.

6. **After a further review of the policyholder communication package, we have the following concerns:**

   First of all, we apologize for not filing with a policyholder communication package with Virginia specific language that was approved during the 2010 rate increase filing. We have updated our communications package to reflect many of your concerns.

- The last sentence in the first paragraph of the policyholder letter may cause a concern regarding unfair discrimination. The insured may question why this particular series is getting an increase and another series is not. Please clarify or revise the statement to avoid such potential confusion or concern.

We do not believe that this language needs clarification or revision as we have not received any significant number of complaints stemming from this language. We used very similar language during our 2010 rate increase (including in letters to Virginia policyholders) and we have had no issues. We believe that we make it clear throughout the letter that the company is not unfairly discriminating against any policyholders.

- The letter should contain a disclosure that the policy is guaranteed renewable for compliance with the NAIC Model Bulletin. We also ask the sentence stating the rate increase has been filed with the Virginia Insurance Department be rephrased for accuracy as follows or use words of similar import:

"The Virgina State Corporation Commission reviewed the filing with applicable Virginia laws and regulations governing Long Term Care Insurance; and because it was found to be compliant with these laws and regulations, the filing was approved."

Regarding the guaranteed renewable disclosure, we believe that we have sufficiently disclosed this in the communication package. In the final paragraph of page 1, we state *"As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future."* Additionally, question number 2 of the FAQ section provides information detailing why rates can increase. We believe that this is sufficient.

> *The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased.*

For the second part of the question, we have amended our letter to include the requested language:

Please see the attached documents: *2013 VA PH Communication Pkg.pdf* and *2013 GPO VA PH Communication Pkg.pdf*.

- Please provide a Statement of Variability for the policyholder letter.

Please see the attached documents, *VA Statement of Variability LS Package.pdf* and *VA Statement of Variability Non-LS Package.pdf.*

7. **Please provide us with a sample letter when the insured is not eligible for a landing spot with a statement of variability for both letters.**

   As mentioned above, please see the attached documents: *2013 GPO VA PH Communication Pkg.pdf* and *VA Statement of Variability Non-LS Package.pdf.*

8. **The company may choose to implement this rate increase at one time or over a three year period as noted in the General Information tab in SERFF. If the company chooses to implement the increase at one time, please amend the letter to clearly state the company will not apply another increase for 36 months. If the rate increase will be implemented over a three year period, please amend the policyholder letter accordingly to state the overall rate increase and provide the rate increase for each phase and the implementation schedule. Please attach rate schedules for each phased in period in the Rate/Rule Schedule, correct the Company Rate Information for accuracy, and amend the Actuarial Memorandum accordingly.**

We choose to implement the rate increase at one time and have amended the policyholder communication to reflect the three year rate guarantee. It is in the final sentence of the fourth paragraph of the letter.

9. **The Bureau of Insurance has recently directed long term care policies must be updated via an endorsement for any changes the policyholder has requested. Because this would be a part of the entire contract, such a form would require review and approval; the company can no longer simply send a revised policy schedule page. If the company already has such forms previously approved, please attach a copy of the form and provide the SERFF tracking number and date of approval. If a new form is needed, please attach the form to this filing for review and approval. Please keep in mind, there are several options provided in the policyholder letter to reduce the effect of the rate increase. Please be sure all options are covered in the new form or forms. If the company chooses to include variability in the form, please provide a statement of variability. A Certification of Compliance would be required in accordance with 14VAC5-100-40 3 as well as a readability certification in accordance with 14VAC5-110-60. We are aware the endorsements for the various inflation riders have been filed under SERFF tracking # MULF-129533194.**

   For clarification purposes, the company may include a revised Schedule of Benefits page in addition to the endorsement if the company so chooses.

   We are awaiting the outcome of the discussions between the DOI and ACLI regarding this topic.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Dear Cindy:

PEER REVIEW OF THE US LONG TERM CARE ASSUMPTIONS

In accordance with our agreement dated July 17, 2012, Towers Watson has been engaged by Manufacturers Life Insurance Company ("Manulife") to perform a peer review of the methods and assumptions used to determine the 2013 Canadian valuation of the US Long Term Care liabilities.

Our full report on the review of the 2013 valuation of the liabilities was provided to you on January 30, 2014. At your request, we are issuing this letter which only covers the review of the mortality and morbidity assumptions used for the John Hancock Retail Long Term Care business ("Retail LTC"). We understand that this letter will be made available to US State Insurance Departments to support Manulife's rate increases for the Retail LTC business.

This letter and the opinions and conclusions herein are subject to the reliances and limitations as stated at the end of this letter and the terms and conditions in our July 17, 2012 agreement.

Scope & Context of Our Reviews

The review of the 2013 valuation included a review of the methods and assumptions for the insurance business units of Manulife, including the US Retail LTC business. Our review covered the methods and assumptions used in the December 31, 2013 valuation of liabilities in the context of a materiality level of $250 million. The methods and assumptions were reviewed for consistency with the Canadian actuarial standards of practice which were in effect at December 31, 2013.

We did not perform a review of the models and systems used to produce the valuation results, nor did we review the accuracy of the calculations.

Summary of Observations and Recommendations

The following outlines our observations and findings for the morbidity and mortality assumptions used in the December 31, 2013 valuation for the Retail LTC business.

Morbidity assumptions

Manulife conducted a comprehensive review of the morbidity assumptions in 2013, increasing policy liabilities for the Retail LTC business by approximately $1.9 billion. This review included analyses of new claim incidence rates, length of stay and salvage savings and it revealed that overall claim experience was developing unfavorably when compared to expectations. The key drivers of the increase in liabilities were higher incidence rates at the oldest attained ages, lower salvage savings and longer lengths of stay.

Manulife's incidence rate assumptions vary by a number of policyholder characteristics and benefit structures. Varying incidence assumptions by these attributes is generally consistent with the LTC industry. The process to update the expected rates included reviewing how many actual claims were incurred compared to expectation. The process to compare experience to expectation cycles through all key attributes ensuring each adjustment selected falls within Manulife's internal standard error. Revised adjustment factors for key policy and benefit attributes were developed for incidence rates based on this experience. This is an appropriate method to review experience. While we agree with the change in incidence rate assumption overall, we recommend continuous monitoring of the emerging experience compared to expectation at granular levels so that assumptions can be validated or modified as proactively as possible. We think this will be especially important as credible experience emerges at the oldest attained ages.

Termination rates were analyzed and updated to reflect recent experience. New factors were developed for termination rates that adjust for recent emerging experience. The updated factors reflect differences among policy and benefit characteristics. Manulife's assumed continuance rates vary by a number of attributes that are generally consistent with the LTC industry. Given the emerging experience, we generally agree with the change in termination rate assumption.

Salvage factors were developed to recognize emerging experience trends. For the Retail block, experience has developed closer to expectation and only minor adjustments were required. The assumption changes are consistent with Manulife views of the salvage experience.

We recommend that Manulife consider setting and monitoring all morbidity assumptions by site of care. Although assumptions may have been stable by site of care over the recent experience period, the projections may include factors (e.g. changes in mix of business) that are not considered in the recent experience. The mix of in force business by age, site of care, coverage, daily benefit, etc. will change over time and may impact the stability of the assumptions.

Mortality assumption

The review of mortality assumptions revealed that experience was developing unfavorably compared to expectation. Revised assumptions for the mortality rates resulted in a $0.7 billion increase to reserves. The change is largely driven by emerging experience in the selection period. Actual experience is indicating a lower mortality rate and thus changes the grading to the ultimate mortality table. The latest mortality experience study supports the changes made to the mortality assumptions.

Mortality and morbidity improvements

Morbidity and mortality improvements were set to offset each other on a valuation basis when they were first implemented. This equivalence may have drifted overtime due to basis changes and the aging of the block. We understand that Manulife will be reviewing the mortality and morbidity improvement assumptions in the near future and we support this initiative.

Reliances and Limitations

In performing our review, Towers Watson relied on data and information supplied by the management of Manulife, including information provided orally. We have not carried out any independent verification of this data and information but reviewed it for reasonableness and consistency with our knowledge of the industry. The accuracy of any conclusions reached must therefore be limited to the accuracy of this data and information.

This letter and the opinions and conclusions it contains are for the internal use of the directors and management of Manulife. With the exception of the specific release referred to below, no distribution, in whole or in part, or reference hereto is to be made to any other party without the prior written consent of Towers Watson.

Towers Watson agrees to release this letter to US State Insurance Departments (the "Recipients") under the following terms and conditions:

- Towers Watson represents and is responsible to Manulife with respect to all matters relating to this letter.
- The Recipient is responsible for its own due diligence with respect to all matters relating to this letter.
- Our letter was prepared for Manulife's internal use and assumes a high level of knowledge relative to the operations of Manulife, the data used in this letter, and the external factors affecting Manulife's business and we would not expect a third party to have such knowledge.
- The Recipient recognizes this letter was not prepared for third-party distribution and agrees that, by accepting this letter (including any information related to our letter that may be subsequently provided to you by or on behalf of Towers Watson), the Recipient will neither reference nor distribute this letter to any other party, will not use this letter for any purpose other than that for which it is being provided to you, will only share the information with the employees of the Recipient with a need to know the information, and will place no reliance on this letter or information contained therein, or related thereto, that would result in the creation of any duty or liability by Towers Watson to the Recipient.
- In the event that the Recipient is required by order of a court of competent jurisdiction, administrative agency or governmental body, or by any law, rule, regulation, subpoena, or any other administrative or legal process to disclose this letter, the Recipient may disclose this letter without liability hereunder, provided that the Recipient gives Towers Watson prompt notice of any such requirement and, at our discretion, either (1) cooperates with us, at our expense, to prohibit such disclosure, or (2) uses all reasonable efforts to obtain confidential treatment of this letter under a protective order or other appropriate mechanism.
- We request that the Recipient treat the report as trade secret confidential information not subject to any Freedom of Information Act or similar laws.
- Towers Watson's consulting staff is available, subject to Manulife's prior consent and at Manulife's expense, to answer any questions regarding this letter.
- The Recipient understands that it is deemed to have accepted these terms and conditions by retaining a copy of this letter.

For the avoidance of doubt, no further distribution of this letter (or any information related to the letter) to other third-parties is authorized at this time.

We are available to expand on any matters covered by this letter.

Sincerely,

Hélène Pouliot, FCIA, FSA, CERA
Director

Re: Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. [xxx]. **Decision required by [date].**
[Company name]

Dear [First Name] [Last Name],

John Hancock is committed to ensuring long-term care (LTC) insurance benefits will be there for our policyholders when they need them most. To uphold this responsibility, we continuously monitor the experience of our inforce LTC insurance policies. Our most recent analysis shows that policyholders are living longer than expected, LTC claims are lasting longer than expected, and that more policyholders than expected are claiming at older ages. Unfortunately, based on this data, we have determined a need to increase premiums on certain policy series to reflect the future claims expected on these policies, and yours is one of those policies affected.

Options to Minimize the Premium Increase
We sincerely regret having to take this action and understand that a premium increase may not be affordable for some. Therefore, we are offering you personalized options that will enable you to minimize the premium increase by reducing your coverage. Please refer to the enclosed "Options Worksheet" for more information.

About the Premium Increase
Based on your current benefit selections, unless you elect a personalized option as described in your Options Worksheet, your premiums will increase from [current premium] to [new premium], [policy mode]. This new premium will be effective for premiums due on or after [next policy anniversary]. Please note this letter is not a bill.

The Virginia State Corporation Commission reviewed the filing with applicable Virginia laws and regulations governing Long Term Care Insurance; and because it was found to be compliant with these laws and regulations, the filing was approved. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Our decision to increase premiums on certain policies is based upon the future claims anticipated on these policies. Please note that the decision to seek a premium increase on these LTC insurance policies has been made by John Hancock, not your insurance agent, nor the Virginia Department of Insurance. As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future. However, please be advised that John Hancock will not apply any additional premium rate increase to your policy for at least 36 months from your policy anniversary date of [next policy anniversary date].

Importance of LTC Insurance Coverage
As you decide which of the coverage options described in this letter works best for you, you may wish to consider the value offered by LTC insurance. The need for care can be one of the most significant challenges a person can face – both personally and financially. LTC insurance provides valuable protection that may not be available with your health insurance or from government programs.

John Hancock has seen the difference this insurance has made in the lives of our customers and their family members. We remain committed to delivering on our promise to provide the coverage, support and service, when and where you need care.

Next Steps

The enclosed Options Worksheet details your current coverage and provides options you can elect in order to help minimize the premium increase. Please review it carefully as it is designed to help you make an informed decision.

- If you decide to reduce your coverage as outlined in the "Options Worksheet," simply complete the "Coverage Change Request Form" and return it to John Hancock by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on [**Month XX, YYYY]**.

For Further Assistance

Again, we sincerely regret having to take this action, but we hope you find that the options provided are helpful. If you have any questions, please visit www.jhinfocenter.com or contact one of our customer service representatives at [877-606-7754]. Our dedicated team is available to help you make a decision that best meets your personal needs.

Sincerely,

[Brent Wilkinson
Vice President, U.S. Insurance Operations]

YOUR PERSONALIZED OPTION(S) TO REDUCE COVERAGE AND MINIMIZE THE INCREASE

To minimize the premium increase, we are offering you an opportunity to reduce your coverage, as illustrated in the personalized option(s) below. The table also shows your current level of coverage and the new premium you will be charged if you keep this coverage.

As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are willing and able to pay from your own savings. Please visit **www.jhinfocenter.com** for current cost of care information specific to your area.

	Keep your current coverage[1]	Personalized Option(s)		
		[Reduce your BP[2]]	[Reduce your [DB/MB][2]]	[Reduce your BP & [DB/MB][2]]
[Daily Benefit (DB)]/[Monthly Benefit (MB)][3]	$[XXX]	$[XXX]	$[XXX]	$[XXX]
Benefit Period (BP)[[4]	[X]-year	[Y]-year	[X]-year	[Z]-year
Elimination Period	[List Here]			
Inflation Option	[List Here]			
Optional Riders	[List Here]			
Current [policy mode] Premium	$[XXX]			
New [policy mode] Premium[5]	**$[XXX]**	**$[XXX]**	**$[XXX]**	**$[XXX]**

[Important: Your policy includes a "Limited Pay" premium provision. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.]

Please note: Other options to minimize the increase may be available [including [dropping an optional rider] [or] [increasing your elimination period]]. For more information, please call John Hancock at [888-654-6582.]

[1]Assumes no recent changes in your current coverage.
[2]This reduction will also result in a corresponding decrease in your Total Policy Limit.
[3][DB/MB] is the most the coverage will reimburse for the costs of covered long-term care services received on any [day/month].
[[4]BP is used to calculate your Policy Limit by multiplying your [DB/MB] by the number of [days/months] in {X{, Y or Z}} years. The Policy Limit represents the total pool of money available to reimburse the costs of covered long-term care services you receive while insured.]
[5]As of [Month XX, YYYY]. This reduction will also result in a corresponding decrease in your Total Policy Limit.

ALTERNATIVE OPTIONS

[Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[Exercise the Contingent Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[The following terms apply if you choose to exercise the [Nonforfeiture][Contingent Nonforfeiture] Benefit:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.]

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Nonforfeiture benefit amount may be slightly higher as it will be calculated based on current benefits and premiums paid to date as of the effective date of your paid-up status.]

IMPORTANT DATES

- If you choose an option listed on the enclosed Coverage Change Request Form, you must complete, sign and return the form by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on [**Month XX, YYYY]**.

1. **Why do you need to raise premium rates — can you explain further?**
   When pricing a long-term care insurance product, insurance companies use the best available information at that time to predict how many policyholders might ultimately use the benefit in the future. This involves making certain assumptions about a variety of factors including: particular medical conditions, the expected lifespan of policyholders, the length of time policyholders keep their policies, and the cost of receiving long-term care services. If the actual experience differs in an unfavorable way from the expected experience based on these assumptions, a premium rate increase may become necessary.

   Our most recent comprehensive claims study, which we conduct every three years, examines the usage trends for our insured population. It indicated that, like many carriers in this business, we have seen increased claims. As compared to our previous analysis, the new data shows that policyholders are living longer than expected, their claims are lasting longer than expected, and more people than expected are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series to reflect future claims expected on these policies.

2. **What is the policy provision that allows you to raise my premiums?**
   The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased, and may only implement the rate increase once we are permitted to do so.

3. **Have I been singled out for this rate increase because of my age or health?**
   No, the increase applies to everyone who purchased the same long-term care insurance product you did. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Also, your state has not been singled out, as all states are included in our rate increase process.

4. **If I no longer live in the state where I purchased my policy, does the increase still apply?**
   Yes. All LTC insurance policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

5. **Is the premium rate increase due to the economic environment?**
   No. We are increasing premium rates solely due to our claims experience, which indicates higher-than-expected claims on your policy series in the future.

6. **Is there an alternative to paying higher premiums?**
   Yes. We are offering several benefit reduction alternatives and, in most cases, at least one option that will enable you to keep your premiums at or close to the same level as what you are paying today. The enclosed 'Options Worksheet' outlines your options. To further review these options, please contact one of our customer service representatives.

7. **Do I need to complete and return the enclosed Coverage Change Request Form?**
   The enclosed Coverage Change Request Form need only be completed and returned to John Hancock should you decide you want to adjust your benefits or cancel your policy. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

8. **Will there be additional premium increases in the future?**
   Premium rates are not guaranteed and may be increased in accordance with the terms of your policy. We will continue to monitor our claims experience to determine whether future increases will be necessary.

9. **If I pay premiums through an automatic draft plan and my premium is changing, is there any action I need to take?**
   No. If you have an automatic draft plan established through John Hancock, we will adjust the drafted amount.

10. **If I pay premiums through online banking and my premium is changing, is there any action I need to take?**
    Yes. Please update your online banking payment information with the new premium amount prior to the rate increase effective date.

COVERAGE CHANGE REQUEST FORM
Individual LTC Insurance Policy for [First Name] [Last Name]
Policy # [XXXXX]
[Company Name]

To minimize the premium increase, we are offering you an opportunity to elect a personalized option.

If you choose to make no changes to your current coverage, no action is required and your new increased premium will be effective on [**Month XX, YYYY]**.

If you choose to change your coverage, you must select an option listed below, sign and return this Coverage Change Request Form by [**Month XX, YYYY]**.

Step 1: Select an option (please choose only one option)

For more details, please see your Options Worksheet. As a reminder, you may have alternative options available to mitigate the premium increase. For more information, please call John Hancock at [**877-606-7754].**

COVERAGE CHANGE OPTIONS		New Premium Effective [next anniversary date]
☐	[Reduce your Benefit Period from [X-year] to [X-year].]	**$[XXX][policy mode]**
☐	[Reduce your [Daily/Monthly] Benefit from $[XXX] to $[XXX].]	**$[XXX][policy mode]**
☐	[Reduce your Benefit Period from [X-year] to [X-year] **and** [Daily/Monthly] Benefit from $[XXX] to $[XXX].]	**$[XXX][policy mode]**
☐	[Exercise the [Nonforfeiture/Contingent Nonforfeiture] Benefit available on your policy.]	N/A
☐	[Cancel your policy. This change will be effective immediately.]	N/A

Step 2: Review Agreement and Acknowledgement

I understand that my benefits and/or premium for those benefits will change based upon the option(s) I select.

I understand that premium rates are not guaranteed and may be increased again in the future if I am among the group of policyholders whose premiums are determined to be inadequate.

If I select an option(s) to change my coverage, I understand that, within 30 days of the date this change becomes effective, I may cancel the change in my coverage and return to my original coverage at the increased premium level.

I understand the policy change(s) I selected above. By signing below, I agree that any change(s) other than cancelling my policy, will be effective on my next policy anniversary provided this form is received by John Hancock by that date.

Step 3: Sign and Date

Signature ([First Name] [Last Name]) **Date**

Step 4: Return this completed form using the enclosed postage-paid envelope by [Month XX, YYYY].

Re: Notice of Premium Rate Increase – Long-Term Care Insurance Policy No. [xxx]. **Decision required by [date].**
[Company name]

Dear [First Name] [Last Name],

John Hancock is committed to ensuring long-term care (LTC) insurance benefits will be there for our policyholders when they need them most. To uphold this responsibility, we continuously monitor the experience of our inforce LTC insurance policies. Our most recent analysis shows that policyholders are living longer, LTC claims are lasting longer, and that more policyholders are claiming at older ages than previously anticipated. Unfortunately, based on this data, we have determined a need to increase premiums on certain policy series to reflect the future claims expected on these policies, and yours is one of those policies affected.

Options to Avoid or Minimize the Premium Increase
We sincerely regret having to take this action and understand that a premium increase may not be affordable for some. **Therefore, <u>we are offering you an option to avoid the premium increase completely</u> by reducing your future annual inflation rate and keeping all other benefits the same.** Please see the enclosed "Options Worksheet" for more information on this as well as additional options that will enable you to minimize the premium increase.

About the Premium Increase
Based on your current benefit selections, unless you elect the option <u>described in the above paragraph</u> or one of the alternative options described in your Options Worksheet, your premiums will increase from [current premium] to [new premium], [policy mode]. This new premium will be effective for premiums due on or after [next policy anniversary]. Please note this letter is not a bill.

The Virginia State Corporation Commission reviewed the filing with applicable Virginia laws and regulations governing Long Term Care Insurance; and because it was found to be compliant with these laws and regulations, the filing was approved. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Our decision to increase premiums on certain policies is based upon the future claims anticipated on these policies. Please note that the decision to seek a premium increase on these LTC insurance policies has been made by John Hancock, not your insurance agent, nor the Virginia Department of Insurance. As a reminder, per the terms of your policy, premium rates are not guaranteed and could be increased again in the future. However, please be advised that John Hancock will not apply any additional premium rate increase to your policy for at least 36 months from your policy anniversary date of [next policy anniversary date].

Importance of LTC Insurance Coverage

As you decide which of the coverage options described in this letter works best for you, you may wish to consider the value offered by LTC insurance. The need for care can be one of the most significant challenges a person can face – both personally and financially. LTC insurance provides valuable protection that may not be available with your health insurance or from government programs.

John Hancock has seen the difference this insurance has made in the lives of our customers and their family members. We remain committed to delivering on our promise to provide the coverage, support and service, when and where you need care.

Next Steps

The enclosed Options Worksheet details your current coverage and provides options you can elect in order to help minimize or avoid the premium increase completely. Please review it carefully as it is designed to help you make an informed decision.

- If you decide to reduce your coverage as outlined in the Options Worksheet, simply complete the "Coverage Change Request Form" and return it to John Hancock by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required, and your new increased premium will become effective on [**Month XX, YYYY]**.

For Further Assistance

Again, we sincerely regret having to take this action, but we hope you find that the options provided are helpful. If you have any questions, please visit www.jhinfocenter.com or contact one of our customer service representatives at [888-654-6582], Monday through Friday from 8:00 a.m. – 6:00 p.m. Eastern Time. YOUR PERSONALIZED OPTION TO REDUCE COVERAGE AND AVOID THE INCREASE

To avoid the premium increase we are offering you a one-time opportunity to reduce your future annual inflation rate. The table below shows your current premium and the new premium you will be charged if you keep your current annual inflation rate. The table also shows what your reduced inflation rate will be if you choose the personalized option, which will only be applied to future inflation increases that occur after the rate increase effective date. All other existing benefits and previous inflation increases that have already been applied to your policy through the effective date of the inflation rate reduction will be maintained.

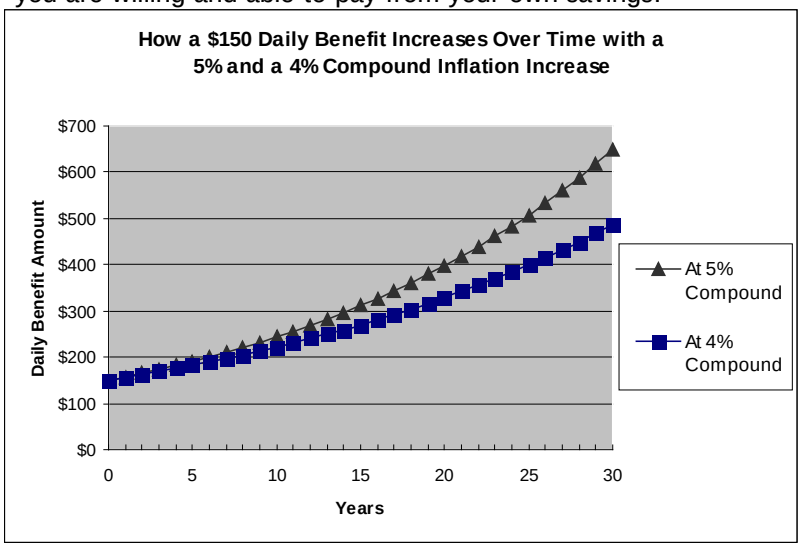
	Keep your current annual inflation rate	Personalized Option: Reduce your future annual inflation rate
[Daily/Monthly] Benefit[1]	[$XXX]	[$XXX]
Benefit Period[2]	[X-year]	[X-year]
Inflation Option[[3]]	[5%]	**[X.X%]**
Elimination Period	[XX]	[XX]
Optional Riders	[List here]	[List here]
Current [policy mode] Premium	[$XX.XX]	
New [policy mode] Premium*	**[$XX.XX]**	**[$XX.XX]**

**As of [Month XX, YYYY]*

Please note: Variations of this personalized option are not available, though other options to help minimize the increase may be. [It is also important to note that your coverage includes a "Limited Pay" premium provision. Please consider the number of remaining payments before making the decision to reduce your benefits.] For more information, please call John Hancock at [**888-654-6582].**

[Information to Consider

The graph below is an example of how a $150 daily benefit amount increases over the next 30 years at [5%] and [4%] [annually compounding rates][simple annual increases].]To help you with your inflation coverage decision, we thought it might be useful to also provide you with the latest trends in the cost of care. The chart to the right shows the national average annual increase over the past [five] years for the cost of care in various care settings. Please visit **www.jhinfocenter.com** for current cost of care information specific to your area. As you evaluate what is best for you, we encourage you to consider the current and projected cost of care in your area, as well as how much of that amount you are willing and able to pay from your own savings.



Trends in the Cost of Care

Long-Term Care Setting	[5]-Year Average Annual Increase
Nursing Home: Private Room	[3.6%]
Nursing Home: Semi-Private Room	[3.6%]
Assisted Living Facility	[2.0%]
Home Health Care Aide	[1.3%]
Adult Day Care	[1.6%]

[The 5-year average annual increases are based on a subset of common providers from our 2008 and 2011 Cost of Care surveys and our 2011 and 2013 Cost of Care surveys]

][1] [Daily/Monthly] Benefit is the most the coverage will reimburse for the costs of covered long-term care services received on [any day/in any month]. Your [Daily/Monthly] Benefit shown above reflects any inflation increase through [next policy anniversary].

[2] Benefit Period is used to calculate your Policy Limit by multiplying your [Daily/Monthly] Benefit by the number of [days/months] in [X-years] [or Y-years]. The Policy Limit represents the total pool of money available to reimburse the costs of covered long-term care services you receive while insured.

[3] A reduction to your future annual inflation rate will apply to your [Daily/Monthly] Benefit. The inflation rate on your Policy Limit will remain at 3%.]

YOUR ALTERNATIVE OPTIONS TO REDUCE COVERAGE AND LOWER PREMIUMS

To help mitigate the premium increase, you may be eligible to reduce other benefits. For example, you may be eligible to:

- Reduce your current [daily/monthly benefit]*
- [Reduce your benefit period*]
- [Increase your elimination period]
- [Drop an optional rider]

* This reduction will also result in a corresponding decrease in your Total Policy Limit.

Please note - in certain instances the ability to reduce your benefits may not be available due to state-regulated minimum benefit requirements or the available plan options. [In addition, certain changes are subject to Partnership regulatory benefit minimum requirements.] [Your policy includes a "Limited Pay" premium provision. Please consider the number of remaining payments on your policy before making the decision to reduce your benefits.] For more information, please call John Hancock at [**888-654-6582].]**

[Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[Exercise the Contingent Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

[The following terms apply if you choose to exercise the [Nonforfeiture][Contingent Nonforfeiture] Benefit:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.]

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Nonforfeiture benefit amount may be slightly higher as it will be calculated based on current benefits and premiums paid to date as of the effective date of your paid-up status.]

IMPORTANT DATES

- If you choose an option listed on the enclosed Coverage Change Request Form, you must complete, sign and return the form by [**Month XX, YYYY]**.
- If you choose to make no changes to your coverage, no action is required. Your level of coverage will not change and your new increased premium will become effective on [**Month XX, YYYY]**.

1. **Why do you need to raise premium rates — can you explain further?**
   Forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

   We have recently completed another comprehensive claims study, which we conduct every three years and which examines the usage trends for our insured population. Like many carriers in this business, we have seen increased claims, and therefore there is more experience data available to predict future benefit usage by policyholders. As compared to our previous analysis, the new data shows that policyholders are living longer, their claims are lasting longer, and more people are claiming at the older ages. Based on that data, we have determined that there is a need to increase premiums on certain policy series.

2. **What is the policy provision that allows you to raise my premiums?**
   The provision that allows for an increase in premiums can be found on the front page of your policy. Your policy indicates that, while your insurance company cannot change coverage or refuse to renew coverage for reasons other than nonpayment of premiums, the company is allowed to change or increase premiums so long as the increase applies to an entire class of policies. We are required to file premium increases on policy series, along with actuarial justification, with the department of insurance in the state where the policy was purchased.

3. **Have I been singled out for this rate increase because of my age or health?**
   No. No individual has been singled out for an increase, nor is the increase due to a policyholder's advancing age or changing health. Also, your state has not been singled out, as all states are included in our rate increase process.

4. **If I no longer live in the state where I purchased my policy, does the increase still apply?**
   Yes. All LTC insurance policies are regulated by the original state in which they were written at the time of the purchase of the policy. That means that the state where you were residing when you purchased your policy continues to be the applicable state, even if you are now residing elsewhere.

5. **Is the premium rate increase due to the prevailing economic environment?**
   No. We are increasing premium rates solely due to our claims experience, which indicates higher-than-expected claims on your policy series in the future, and not due to poor investment experience.

6. **Is there an alternative to paying higher premiums?**
   Yes. We are offering several benefit reduction alternatives and, in most cases, at least one option that will enable you to keep your premiums at or close to the same level as what you are paying today. The enclosed 'Options Worksheet' outlines your options. To further review these options, please contact one of our customer service representatives.

7. **What is the purpose of the enclosed Coverage Change Request Form?**
   The enclosed Coverage Change Request Form need only be completed and returned to John Hancock should you decide you want to adjust your benefits or cancel your policy. Otherwise, no action is necessary on your part, as the premium rate increase will take place automatically on the policy anniversary date specified in your letter.

8. **Will there be additional premium increases in the future?**
   Premium rates are not guaranteed. We will continue to monitor our claims experience to determine whether future increases will be necessary. We will not need additional increases if our experience does not deteriorate further.

9. **If I pay premiums through online banking and my premium is changing, is there any action I need to take?**
   Yes. Please update your online banking payment information with the new premium amount prior to the rate increase effective date.

Your Personalized Option(s) To Reduce Coverage and Minimize the Increase

- [First Name] [Last Name] will vary based on the policyholder and display First Name and Last Name.
- [Policy #] will vary to reflect each policyholder's unique policy number.
- The following table will vary based on the policyholder's current benefits, the benefit reduction options available to the policyholder, and the associated premiums and policy mode.
    - Note: [Benefit Period] values can range from a minimum of 1-year to a maximum of Lifetime.

	Keep your current coverage[1]	**Personalized Option(s)**		
		[Reduce your BP[2]]	**[Reduce your [DB/MB][2]]**	**[Reduce your BP & [DB/MB][2]]**
[Daily Benefit (DB)]/[Monthly Benefit (MB)][3]	$[XXX]	$[XXX]	$[XXX]	$[XXX]
Benefit Period (BP)[[4]]	[X]-year	[Y]-year	[X]-year	[Z]-year
Elimination Period	[List Here]			
Inflation Option	[List Here]			
Optional Riders	[List Here]			
Current [policy mode] Premium	$[XXX]			
New [policy mode] Premium[5]	**$[XXX]**	**$[XXX]**	**$[XXX]**	**$[XXX]**

- The following will be used only when the policy includes a limit payment option:
  [It is also important to note that your coverage includes a "Limited Pay" premium payment provision. Please consider the number of remaining payments before making the decision to reduce your benefits.]
- [Drop an optional rider] will only show if the policyholder has one or more optional riders on their policy.
- [Increase your elimination period] will only show if the policyholder does not currently have the maximum elimination period available for the product.
- [**In some instances, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status**.] This will be inserted for policyholders whose policies are partnership-certified
- [888-654-6582] Phone number will vary based on the firm of the agent of record.
- Footnote 2: …[daily/monthly] will vary based on whether the policyholder has a daily or monthly benefit. [Note: our records indicate there is claim activity on your policy….] will only show if the policyholder has prior claim

activity. [You may also want to review the restoration of benefits….] will only show if the policyholder has prior claim activity and the restoration of benefits provision is included in their policy

- Footnote [3]: [Note: The most recent Consumer Price Index (CPI) data has….] will only show if the policyholder has CPI compound as a current inflation type. [DB/MB] will vary based on whether the policyholder has a daily or monthly benefit. [day/month] will also vary based on whether the policyholder has a daily or monthly benefit.

- Footnote [4]: [DB/MB] will vary based on whether the policyholder has a daily or monthly benefit. [day/month] will also vary based on whether the policyholder has a daily or monthly benefit.{X{, Y or Z}} years will vary based on the reduction option(s) available to the policyholder.

- Footnote [5]: As of [Month XX, YYYY] will vary based on policyholder's next anniversary date. [Note, Due to the pending release of CPI data by the U.S. Department of Labor, we are unable to quote [DB/MB] reductions until [Month] 20th.] This sentence will only show if the policyholder has CPI compound as a current inflation type. [DB/MB] will vary based on whether the policyholder has a daily or monthly benefit.[Month] will reflect 2 months prior to the policyholder's anniversary month.

Page 4: Options Worksheet

Alternative Options

- [First Name] [Last Name] will vary based on the policyholder and display First Name and Last Name.

- [Policy #] will vary to reflect each policyholder's unique policy number.

- The following will appear only if the policyholder purchased the optional Nonforfeiture Benefit rider:

  [Exercise the Nonforfeiture Benefit, resulting in a paid-up policy with reduced benefits

  Your policy includes a Nonforfeiture Benefit, which enables you to discontinue paying premiums and provides you with a paid-up policy with reduced benefits. By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

- The following will appear only if the policyholder is eligible for the Contingent Benefit Upon Lapse (based on the standard Virginia regulations triggers) and did not purchase the optional Nonforfeiture Benefit rider. The bracketed text will be the effective date of the rate increase and the sum of all premiums paid on the policy:

  [Exercise the Contingent Benefit Upon Lapse, resulting in a paid-up policy with reduced benefits

  If you choose to cancel your policy within 120 days of [next policy anniversary date], we will modify your policy limit (lifetime maximum benefit amount) and convert your policy to paid-up status where no further premiums are due. Your new policy limit will be [$XXXX], which represents the sum of all premiums paid.* By exercising this option, you will be significantly reducing your policy benefits, so you should give this careful consideration before you select it.]

- The following appears if the insured is eligible for either the Nonforfeiture Benefit or the Contingent Benefit Upon Lapse:

  "[The following terms apply if you choose to exercise the [Nonforfeiture Benefit][Contingent Benefit Upon Lapse]:

- No benefits will be paid in excess of your new policy limit.
- Benefits will be paid subject to the daily/monthly benefit levels (and other coverage limits) in effect at the time you convert your policy to paid-up status.
- All optional benefit riders will automatically terminate.
- No future inflation adjustments will be made.
- All other applicable policy provisions, conditions, and limitations will remain in effect.

The following footnote is displayed only if the Contingent Benefit Upon Lapse is triggered and the policyholder did not purchase the Nonforfeiture benefit. The “file extract date” is the date that the mailing extract was created. “30 times the daily benefit” will change to “the monthly benefit” dependent on the policyholder’s benefits:

[*Calculated based on benefit amounts and on premiums paid to date as of [file extract date]. The actual Contingent Benefit Upon Lapse amount may be slightly higher as it will be equal to the premiums paid on the policy to date or 30 times the daily nursing home benefit at the time of lapse, whichever is greater; but in no event will the sum of benefits exceed the maximum benefits which would be payable if the policy had remained in premium paying status.]

Important Dates

- . . .return form by [Month XX, YYYY] Date will vary based on the election deadline date.
- . . . . and your new increased premium will become effective on [Month XX, YYYY] Date will vary based on rate increase effective date

[Important Notice About Shared Care] paragraph will only appear if the policyholder has a Shared Care Remaining Benefit as part of their policy. [$XXX.XX] will display the benefit amount remaining. [If you choose to exercise the….will display if the policyholder is eligible for either the Nonforfeiture Benefit or Contingent Benefit Upon Lapse. [Nonforfeiture Benefit][Contingent Benefit Upon Lapse], this amount….] will vary based on which benefit the policyholder is eligible for.

- [First Name] [Last Name] will vary based on the policyholder and display First Name and Last Name.
- [Policy #] will vary to reflect each policyholder's unique policy number.
- . . . and your new premium will be effective on [Month XX, YYYY] date will vary based on rate increase effective date.
- . . . and return this Coverage Change Request Form by [Month XX, YYYY] date will vary based on election deadline date.
- [**In some instances, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status**] This will be inserted for policyholders whose policies are partnership-certified.
- [888-654-6582] Phone number will vary based on the firm of the agent of record.

Coverage Change Options

- New Premium Effective [next anniversary date]. Date will vary based on policyholder's next policy anniversary date

The following row will appear only if the policyholder is eligible to reduce their benefit period. Values will vary based on current benefit period, reduced benefit period, resulting premium and policy mode. Benefit Period values can range from a minimum of 1-year to a maximum of Lifetime:

☐	[Reduce your Benefit Period from [X-year] to [X-year].]	**$[XXX][policy mode]**

The following row will appear only if the policyholder is eligible to reduce their daily or monthly benefit. Values will vary based on current daily/monthly benefit, reduced daily/monthly benefit, resulting premium and policy mode, and whether the policyholder has a daily or monthly benefit:

☐	[Reduce your [Daily/Monthly] Benefit from $[XXX] to $[XXX].]	**$[XXX][policy mode]**

The following row will appear only if the policyholder is eligible to reduce their benefit period AND their daily or monthly benefit. Values will vary based on current and reduced benefit period, current and reduced daily/monthly benefit, resulting premium and policy mode and whether the policyholder has a daily or monthly benefit. Benefit Period values can range from a minimum of 1-year to a maximum of Lifetime:

☐	[Reduce your Benefit Period from [X-year] to [X-year] **and** [Daily/Monthly] Benefit from $[XXX] to $[XXX].]	**$[XXX][policy mode]**

The following row will appear only if the policyholder is eligible to exercise either the Nonforfeiture Benefit or Contingent Benefit Upon Lapse. Please note, [Nonforfeiture] will appear if the policyholder purchased the Nonforfeiture Benefit. [Contingent Benefit Upon Lapse] will appear only if the policyholder is eligible for the Contingent Benefit Upon Lapse (based on the standard Virginia regulations triggers) and did not purchase the optional Nonforfeiture Benefit rider:

☐	[Exercise the [Nonforfeiture Benefit/Contingent Benefit Upon Lapse] available on your policy.]	N/A

The following row will appear only if the policyholder is not eligible for the Nonforfeiture Benefit or Contingent Benefit Upon Lapse:

☐	[Cancel your policy. This change will be effective immediately.]	N/A

Step 3: Sign and Date

Signature ([First Name] [Last Name]) Date

Name will vary based on the policyholder.

Step 4: Return this completed form . . . by [Month XX, YYYY] Date will vary based on the election deadline date.

Re: **John Hancock Life Insurance Company (U.S.A.)**
Company NAIC # 65838; FEIN #: 01-0233346
Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memo's (See Policy Form List Below)
Pre-rate Stabilization Submission (MULF-129480189)
Your objection dated August 20, 2015

Dear Ms. Houser:

Thank you for your letter.

Please note that we have provided 2 sets of the policyholder communication packages. For policyholders who are eligible for landing spots, the communication package is comprised of JHLTC-1531, JHLTC-1532, JHLTC-1533 and JHLTC-1534 1/14. For policyholders who are not eligible for landing spots, the communication package is comprised of JHLTC-1531 GPO, JHLTC-1532 GPO, JHLTC-1533 GPO, and JHLTC-1534 GPO 1/14.

Objection 1

Regarding the policyholder notifications and the commission's revised requirements for policyholder notifications regarding rate increases pursuant to 14 VAC5-200-75 D:

- As required, we are filing the notice along with this rate filing as per our previous discussion.
- We are providing the notice ***90 days*** prior to the implementation of the premium rate schedule increase.
- Our notice includes at least the following information:

    1. All applicable information identified in 14VAC5-200-75 including A 1 A 2, and A 4 a and b - (Policyholder letter),
    2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount (Options Worksheet), including:

        a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183 (Options Worksheet);

b. A disclosure stating that all options available to the policyholder may not be of equal value (Policyholder letter page 2);

c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections (Options Worksheet, second paragraph page 1); and

d. Contact information that will allow the policyholder to contact the insurer for additional options available (located throughout the entire communication package);

3. A clear identification of the driving factors of the premium rate increase (Policyholder letter); and

4. A statement substantially similar to the following:

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at www.scc.virginia.gov/BOI (Policyholder letter).

Objection 2

1. We note one letter provides for "Options to Minimize the Premium Increase" and the other provides "Options to Avoid or Minimize the Premium Increase." Please explain what determines which letter is sent to a policyholder.

As noted above for policyholders who are eligible for landing spots, the communication package is comprised of JHLTC-1531, JHLTC-1532, JHLTC-1533 and JHLTC-1534 1/14.

For policyholders who are not eligible for landing spots, the communication package is comprised of JHLTC-1531 GPO, JHLTC-1532 GPO, JHLTC-1533 GPO, and JHLTC-1534 GPO 1/14.

2. Policyholder letter JHLTC-1531_GPO 1/14 is 6 pages and consists of one form number. Policyholder letter JH-15311/14 consists of 6 pages but contains the following form numbers: JHLTC-1531 1/14, JHLTC-1532 1/14, and JHLTC-1533 1/14. According to the letters, the enclosures include the Options Worksheet, Frequently Asked Questions, and Coverage Change Request Form.

Only the forms that make up the policyholder letter (which must contain all the information noted in our previous objection) needs to be attached to the Form Schedule in SERFF. Each enclosure should have a separate form number from the policyholder letter and attached to Supporting Documentation. If the enclosures are actually a section of the letter to be mailed as a single document, each form should be attached to the Form Schedule. Please confirm such enclosures will always be sent as a complete package and that changes may not be made to these documents without the company filing the forms with the state for review.

Since our Policyholder Communication Package is made up of several different letters, each has been attached separately to the Form Schedule tab. We confirm that when the notification package is sent, all of the forms will be included for the applicable package and that changes cannot make to the documents without filing them for review.

3. On page 2 of Form JHLTC-1531 1/14 there is a statement this document represents a scenario when the insured is eligible for a landing spot. It will be altered as needed to represent other situations. Please provide more detail as to how the form will the altered and under what type of other situations.

This statement has been removed from the revised form JHLTC-1531 1/14 as we have provided the "GPO" package as a separate form number. This sentence was referencing the changes that would have been made to the letter to account for policyholders who are not eligible for landing spots.

4. In our previous objection letter, there was a concern regarding unfair discrimination in the first paragraph of the policyholder letter. The company declined to make any changes indicating it has not received any significant number of complaints stemming from this language. Although the company may not have received complaints regarding this specific issue, the Bureau of Insurance has had policyholders raise it in phone discussions as part of an overall complaint. Wording that the increase is needed on "certain policy series" and "yours is one of those policies affected" create concern the rate increases are applying to a small group of insureds. And thereby policyholders feel they are being subjected to unfair discrimination. We again request the statement be clarified or revised to avoid such potential confusion or concern by our policyholders.

We have revised the first paragraph to indicate the need to increase premium on this policy series. We hope that this revision adequately addresses the Bureau's concern.

Objection 3

The Statement of Variability for both letters states the company name may vary based on the company of the policyholder. Such variability is not permitted under 14VAC5-100-50 2. We can only review these letters for the company for which this filing has been submitted. In other words, John Hancock Life & Health Insurance Company would need to submit policyholder letters under its own NAIC number.

We have removed John Hancock Life & Health Insurance Company from these letters and revised Statements of Variability have been included on the Supporting Documentation tab.

As found in the Union Security landing spot form filing (MULF-129658254), the Company will continue to change the policy through the use of an updated Policy Schedule Page and a Coverage Confirmation letter. As now required by the State Corporation Commission, we are including on the form schedule tab an endorsement form for your review and approval. This form will be issued in addition to the two other forms (an updated Policy Schedule Page and a Coverage Confirmation letter). A Certificate of Compliance was already included with the filing and the readability certification includes this new endorsement form.

Please do not hesitate to contact me regarding this objection response.

Thank you for your time and consideration in this matter.

Sincerely,

Michelle Fluet

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated August 31, 2015 regarding the above filing. Your comments are included below in bold with our responses following.

1. According to the information submitted, the projected present value of future loss on the Advantage block of policies is less under the current premium scale than what is projected under the original pricing assumptions. We therefore conclude that no increase can been justified on this subset of the policy forms.

The previously submitted exhibit '*VA Adv LR Exhibit @ oPr.pdf*' uses our original pricing assumptions and our current inforce population. By using our current inforce population, this exhibit does not recognize any termination experience since issue. This is why you are observing smaller projected loss amounts under our current assumptions as termination experience is being reflected.

We are not aware of any Virginia regulation requiring us to not recognize our termination experience.

2. The Company previously communicated that it uses a confidence interval approach to setting morbidity assumptions rather than a credibility approach. Please describe the confidence intervals on the morbidity assumptions at the late durations and advanced ages which are a significant driver of projected claim costs for LTCI plans.

The confidence intervals on the morbidity assumptions by attained age and by duration from issue are as follows (note that attained ages 75+ are key and that key durations depend on the issue age):

(*actual claims +/- 2 std devs of actual claims = confidence interval*)

Claims at durations 10+

Attained age attribute

Age band	Actual claims		Actual, 2 std dev	2σ/μ	Expected, prior	Expected, revised	A/E prior	A/E revised
50-54	4	+/-	4	97%	3	4	136%	94%

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to your objection dated October 29, 2015 regarding the above filing. Your comments are included below in bold with our responses following.

1. **Regarding objection #1 addressed in your October 19, 2015 response, we were unable to locate an exhibit entitled "VA Adv LR Exhibit @ oPr.pdf". The information that we used in our analysis was derived from the exhibit "Inforce Business Projected at Original Pricing (Pre-RS).pdf". This exhibit projected the incurred claims and earned premiums using the actual inforce policies at the projection date and the original premium scale and pricing assumptions going forward from that date. According to the information in that exhibit, the projected present value of future loss on the Advantage block of policies is $701.4M minus $175.4M, or $526M. From Exhibit 1b (Advantage), the projected present value of future loss on this block using current premiums and assumptions is $796.7M minus $331.3M, or $465.5M. This data shows that, while the future claims under current assumptions are projected to be $95M higher than under the original assumptions, the rate increases already implemented on this block are expected to provide an additional $156M of future premium. We therefore conclude that no further increase can been justified on the Advantage policy forms.**

   We apologize for the confusion. The 'Inforce Business Projected at Original Pricing (Pre-RS).pdf' is the file we are referring to as well.

   We continue to argue that by using our actual inforce policies, your comparison does not allow for the recognition of any termination experience since issue (which has been significantly worse than expected). Therefore we would ask that you reconsider your position on the Advantage block.

2. **Regarding objection #2 addressed in your October 19, 2015 response, please explain the apparent anomaly where the claim count in the chart by duration is 47,273 versus 23,580 in both the issue age and attained age charts.**

   The chart by duration includes all policy durations (1-21). The charts by issue age and attained age reflect only durations 10+ as we believe are the key durations that should be reviewed more closely.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

LONG-TERM CARE INSURANCE

November 18, 2015

Janet Houser
Virginia State Corporation Commission
Bureau of Insurance

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to my phone call with Bob Grissom on November 16, 2015 regarding the above filing. During that phone call two concerns were raised regarding the proposed rate increases and how they relate to requested rate increases in other states. Those concerns are summarized below in bold with our responses following.

1. **Should the currently-proposed rate increases be approved in full, cumulative rate increases in Virginia would appear to be considerably higher than cumulative rate increases proposed in other states. This does not seem appropriate or fair to Virginia policyholders.**

   When comparing against cumulative rate increases in other states, please note the following:

   - Our initial filings assumed the 2013 rate action would be effective on July 1, 2014. Beginning in June 2015 we began updating open filings to reflect a revised implementation date of January 1, 2016. This revision led to overall larger rate increases (as noted in our August 18, 2015 submission). Therefore, states that approved our filings based on the originally-assumed effective date will see lower rate increases. We have included a comment in the 'Notes' section of the attached '2013 Rate Increase Filing Summary.pdf' exhibit to help identify which states received updated filings.
   - We had previously reported that the rate increases approved in 2010 on the Gold policy series in Virginia averaged to 46.2% (cumulative value of 148.3%). However, this value is not consistent with the other states listed in our summary file as it is based on a Virginia-specific mix of business. As Virginia approved generic rate increases for this policy series, we should have reported a 2010 approval rate based on a nationwide mix of business (i.e. consistent with all other states that approved generic rate increases). The '2013 Rate Increase Filing Summary.pdf' exhibit has been updated to reflect this and now shows a more appropriate Virginia cumulative rate increase (140.5%).
   - The Virginia rate increases for the Custom Care I series (LTC-02, BSC-02) are difficult to compare against other states as Virginia has requested that separate rate increases be calculated for pre- and post-Rate Stability business. As the pre-Rate Stability business required larger rate increases (based on pre-Rate Stability experience) and as Virginia has approximately twice as much pre-Rate Stability business as post-Rate Stability business, the rate increases shown in the summary file are skewed higher as compared to other states.
   - There are a handful of states that refuse to pre-approve rate increases and instead prefer to approve smaller installments one at a time. This heavily skews the comparison as these states will ultimately have rate increases significantly higher than those in Virginia, but are reflected in the summary file with the single, one-time proposal that was most recently filed.

For example, Maryland Custom Care I (CCI) is shown with a cumulative rate increase of approximately 138%. This reflects the amount we would require if Maryland were to approve the current filing all at once. However, as Maryland regulations allow approval of no more than 15%, we expect to continue to file annually for any unapproved amounts, adjusting each filing to ensure ultimate rate increases are actuarially equivalent to the single amount initially requested. This will ultimately result in cumulative Maryland rate increases of approximately 175%.

We have included a comment in the 'Notes' section to help identify those states where we expect ultimate cumulative rate increases to be considerably higher than what is shown in the summary file.

- Those states that refuse to pre-approve rate increases and instead prefer to approve smaller installments one at a time will <u>not have the future inflation-reduction landing spot option made available</u>.

2. Explain how rate increases have been determined such that no state is subsidizing another state. Said differently, how can we be sure proposed amounts in Virginia are not inflated to offset lack of approval in other states.

We understand Virginia's desire not to subsidize other states' experience. We want to assure you that this is not occurring. Our rate increases for a particular policy form do vary by state, but only to reflect the timing and amount of prior rate increases *approved by that state*. For example, if Virginia had approved the 2010 rate increase filing one year later than it actually did, the average proposed rate increases in Virginia would increase yet no other states would be impacted.

While our projected benefits and premiums are based on nationwide data, in order to ensure that states are not subsidizing shortfalls in rate increase approvals by other states we first back out all prior rate increases from our premium data. Then we re-introduce prior rate increases with the amount and timing based on the state in which we are filing. Loss ratio exhibits filed in Virginia would therefore reflect the full approval granted on December 1, 2011. The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

In the filing summary we provided with our prior correspondence, you likely noticed that some states did not approve the full amounts requested in either our 2010 or 2013 rate increase filings. In each case, this was done with the understanding that the full amount of the proposed rate increases was justified and that John Hancock would be refiling for the remainder at a later date. For example, the 2010 rate increase filing in North Dakota on the Custom Care I (CCI) policy series was approved with a 15% cap on all policies. The remainder from that filing is now included in the current filing which has led to a proposed average rate increase in North Dakota of 90%. This is in contrast to Virginia where the average proposed rate increase is 24%.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

POLICY SCHEDULE - Continued

FEDERAL INCOME TAX TREATMENT OF THIS POLICY

Long-term care insurance was granted favorable federal income tax treatment in the Health Insurance Portability and Accountability Act of 1996. Policies meeting certain criteria outlined in this Act are eligible for this treatment. To the best of Our knowledge, We have designed this Policy to meet the requirements of this new law. This Policy is intended to be a qualified long-term care contract under Section 7702B(b) of the Internal Revenue Code. If, in the future, it is determined that this Policy does not meet these requirements, We will make every reasonable effort to amend the Policy if We are required to do so in order to gain such favorable federal income tax treatment. We will offer you an opportunity to receive these amendments.

PART 1 - GENERAL DEFINITIONS

This part explains the special meaning given to certain words or phrases as they are used in this Policy. Other terms are defined in the part in which they are most frequently used.

1.1	**Date of Service**	Date of Service means a day that **You** are a resident in a **Nursing Home** or an **Assisted Care Living Facility**, or receive **Home Health Care**, that is eligible for benefits under this Policy (including **Dates of Service** during the **Elimination Period**).
1.2	**Elimination Period**	Elimination Period (waiting period) means the number of **Dates of Service** in each **Period of Care** that would otherwise be covered by this Policy, for which **We** will not pay benefits. The **Elimination Period** is shown in the Policy Schedule. The **Elimination Period** starts on the first **Date of Service** in each **Period of Care**. Benefits are not payable during the **Elimination Period**.
1.3	**Immediate Family**	Immediate Family means **You** or **Your** spouse, or the following relatives of **You** or **Your** spouse: parents, grandparents, siblings, children, step-children, grandchildren, and their respective spouses.
1.4	**Medicaid**	Medicaid means the reimbursement system under Title XIX of the Federal Social Security Act, as amended.
1.5	**Medicare**	Medicare means the reimbursement system under Title XVIII of the Federal Social Security Act, as amended.
1.6	**Mental or Nervous Disorder**	Mental or Nervous Disorder means a sickness which is described as a mental or nervous condition in the standard nomenclature of the American Psychiatric Association. This includes neurosis, psychoneurosis, psychopathy, psychosis, and mental or emotional disease or disorder.

INSURED:	Jane Hancock	**DATE OF ISSUE:**	January 1,1996

Re: **John Hancock Life Insurance Company (U.S.A.)**
Company NAIC # 65838; FEIN #: 01-0233346
Individual Long-Term Care Insurance Rate Revision Submission
Revised Actuarial Memo's (See Policy Form List Below)
Pre-rate Stabilization Submission

Dear Ms. Houser:

We would like to note a change that has been made to our landing spot (5%) communication package since you last reviewed it. We have received feedback from consumer groups on how we speak to the landing spot. The previously submitted 5% package stated that the landing spot is a way for the policyholder to "avoid the premium increase". We have changed that phrasing to state that the landing spot is a way for the policyholder to "keep the premium at its current level".

Throughout the letter you will notice that all references of the landing spot as a method to "avoid" the increase, has been changed to a way to "mitigate" the increase and "keep your premium at its current level".

We hope that the Department will find this revision acceptable.

The Company responds to your concerns cited in your January 21, 2016 objection letter as follows:

1. Pursuant to 14VAC5-200-75 D 2 c, we have included a statement in the Option worksheet (both pages) that for Partnership policies some options may result in a loss of partnership status. In addition we have bolded the partnership statement on the Coverage Change Request Form.

2. The full Options Worksheets has been provided – we apologize for the previous error. The Contingent Benefit Upon Lapse section has been updated to include the phrase "but in no event will the sum of benefits exceed the maximum benefits which would be payable if the policy had remained in premium paying status."

3. Our systems are currently designed around offering one landing spot per rate action: one for the 2010 filing and one for the 2013 filing. While we understand that in your scenario each policyholder is still only able to elect one landing spot as part of the 2013 filing (whether it be to offset all rounds of the phase-in or only some rounds), your proposed structure would require us to handle each round of the phase-in independently and we're simply not set up to do that. Building this kind of functionality could take up to a year to implement. In addition, the addition of any new variables introduces risk into our successful implementation process, leading to a great deal of concern that the quality of our customers' experience could be impacted.

4. The Options Worksheet has been updated to state that a request for a change can be made at any time. For the 5% or landing spot package, this was added only to the second page as the landing spot offer on the first page can only be completed on the policy anniversary. As the inflation reduction offer (landing spot) can only be done on the policy anniversary we are concerned that adding this language to the first page may be misinterpreted and cause confusion as to when the landing spot can be elected and when it can be implemented. For the GPO package, this change was added to both pages as requested. We hope the Department finds this solution acceptable.

5. Depending on the options (and variables) available to a policyholder, there is a small chance that the first page of the options worksheet could extend to 2 pages. In the majority of cases though, the first page will only print as one page. Should page print on two pages, the form number will print on the first page on the lower left hand side of the page as required by 14VAC5-100-50 1. We have provided the revised Option worksheet to show how it would look if page extends to two pages.

6. The Coverage Change Request Form JHLTC-1534 1/14 was expanded to include selection of other benefit change options (reducing the benefit period, daily/monthly benefit or both) as requested.

Thank you for continued review of this submission.

Sincerely,

Michelle Fluet

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to our phone call on March 16, 2016 regarding the above filing. During that phone call you asked John Hancock to help reconcile some of the values listed in the '*2013 Rate Increase Filing Summary*' file to the actual 2010 filings as listed on SERFF. Based on our findings, we are submitting a revised version of that file with the following changes made:

- The 2010 rate increase approved in Virginia on the LTC-91, NH-91, LTC-94, and NH-94 forms has been updated from 24.2% to 24.4%. This now more accurately reflects the different rate increases received on the Comprehensive (24.2%) and Nursing Home-only (35.0%) forms.

- The 2010 rate increase approved in Virginia on the LTC-96 forms has been revised from 41.6% to 46.2%. The 41.6% reflects the generic rate increases requested nationwide, weighted by a nationwide mix of business. The 46.2% similarly reflects the generic rate increases requested nationwide, but reflects a Virginia-only mix of business. While we believe the 41.6% allows for a better comparison to other states, we have updated the exhibit to reflect the 46.2% rate increase as this ties to the average reported in our actual 2010 filing.

Note that we have also updated the 2013 requested rate increases for New York as we have filed for rate increases on additional forms in that state since we last provided this summary to you.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to our phone call on March 23, 2016 regarding the above filing. As discussed during that call, we have removed the Advantage forms (LTC-VA-91, NH-VA-91, LTC-94 VA, and NH-94 VA) from the above filing. All corresponding rate sheets have been removed and the SERFF filing has been updated to reflect the revision.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to our phone call on March 29, 2016 regarding the above filing. During that phone call you requested that we submit exhibits that detail the rate increases for each individual pricing cell. Please see the attached file '*VA (Pre-RS) Appendix D.pdf*' which includes rate increases and policy counts split by policy form, inflation type, issue age, and benefit period.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

Bureau of Insurance

Re: John Hancock Life Insurance Company (U.S.A.)
2013 Inforce Rate Increase Filing
SERFF ID: MULF-129480189

Dear Ms. Houser,

This letter is in response to our phone call on March 30, 2016 regarding the above filing. Due to the uncertainty surrounding the appropriate rates for the LTC-96 VA 9/96 policies issued on or after October 1, 2003 we have removed those policies from the above filing. Adjustments reflecting this change can be found in the revised '*VA Gold (Pre-RS) Filing Package.pdf*' file.

- The header on page 1 now reflects issue dates only through September 2003
- Policy counts and premiums in Section 14 no longer include the policies issued after October 1, 2003
- Section 16 acknowledges that this filing corresponds to only those policies issued prior to October 1, 2003
- Section 18 now only reflects the future inflation-reduction landing spot options applicable to those policies issued prior to October 1, 2003
- Section 19 now only reflects the prior rate increase history for those policies issued prior to October 1, 2003
- Rate sheets in Appendices B1, B2, C1 and C2 for those policies issued on or after October 1, 2003 have been removed

Due to the very low volume of impacted policies (four policies with a combined annualized premium of $12,771), the proposed rate increases have not been impacted; Exhibits 1, 1b, 1c, Appendix A, and rate sheets in Appendices B1, B2, C1, and C2 for policies issued prior to October 1, 2003 remain the same as originally filed.

We have updated our SERFF filing to reflect the removal of these four policies, have removed the applicable rate sheets from the Rate/Rule Schedule tab, and have submitted a revised Health Insurance Rate Request Summary form.

Please do not hesitate to contact me if you have any questions on the above.

Sincerely,

Joseph R. Leopold, FSA, MAAA

COVERAGE CHANGE REQUEST FORM
Individual LTC Insurance Policy for [First Name] [Last Name]
Policy # [XXXXX]
John Hancock Life Insurance Company (U.S.A.)

We are offering you a one-time opportunity to elect your personalized option.

If you choose to make no changes to your current coverage, no action is required and your new increased premium will be effective on **[Month XX, YYYY]**.

If you choose to change your coverage, you must select an option listed below, sign and return this Coverage Change Request Form by **[Month XX, YYYY]**.

Step 1: Select an option (please choose only one option)

For more details, please see your Options Worksheet. [**In some instances, certain changes are subject to Partnership regulatory benefit minimum requirements and may result in a loss of Partnership status.**] As a reminder, you may have alternative options available to mitigate the premium increase. For more information, please call John Hancock at **[888-654-6582]**.

COVERAGE CHANGE OPTIONS	
☐	Reduce your future annual inflation rate from [5%] to [X.X%].[*]
☐	Reduce your [daily/monthly benefit] from $[XXX] to $_____
☐	[Reduce your Benefit Period from [X-year] to _____]
☐	[Increase your Elimination Period from [X days] to _____]
☐	[Remove the following optional rider(s) from your policy:_____]
☐	[Exercise the [Nonforfeiture Benefit/Contingent Benefit Upon Lapse] available on your policy.]
☐	[Cancel your coverage. This change will be effective immediately.]]

[*Important: Reducing your future annual inflation rate will result in the loss of Partnership status and your policy will no longer qualify for Medicaid Asset Protection. If you wish to retain Partnership status, do not elect this option. Other options to help minimize the increase and retain your Partnership status may be available to you. For more information, please call John Hancock at [888-654-6582].]

Step 2: Review Agreement and Acknowledgement

I understand that my benefits and/or premium for those benefits will change based upon the option(s) I select.

I understand that premium rates are not guaranteed and may be increased again in the future if I am among the group of policyholders whose premiums are determined to be inadequate.

If I select an option(s) to change my coverage, I understand that, within 30 days of the date this change becomes effective, I may cancel the change in my coverage and return to my original coverage at the increased premium level.

I understand the policy change(s) I selected above. By signing below, I agree that any change(s) other than cancelling my policy, will be effective on my next policy anniversary provided this form is received by John Hancock by that date.

Step 3: Sign and Date

New Rates

Average Annual Premium Per Member: 2,300

Revised Rates

Average Annual Premium Per Member: 3,270

Average Requested Percentage Rate Change Per Member: 42.2%

Minimum Requested Percentage Rate Change Per Member: 20.2%

Maximum Requested Percentage Rate Change Per Member: 55.4%

Plans Affected
(The Form Number and "Product Name")

Form#	"Product Name"(if applicable)
LTC-96 VA	Advantage Gold Select
LTC-96 VA 9/96	Advantage Gold Select
LTC-96CL VA	Advantage Classic
LTC-96CL VA 9/96	Advantage Classic
NH-99 VA 4/99	Advantage Gold Facility Only
LTC2000 VA 4/00	Fidelity Advantage Gold Select
LTC-02 VA	Custom Care
BSC-02 VA	Essential Care

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

This document is intended to help explain the rate filing and it is only a summary of the company's request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.

Health Insurance Rate Request Summary

Accurate forecasting and projecting of future claims experience on LTC insurance policies is complex in its detail and application. Many factors are considered at the time that pricing is established, such as the frequency and severity of particular medical conditions, the expected lifespan of policyholders, the length of time policies are expected to remain inforce, and the cost of care, to name a few. As claims are paid, these factors can change over time.

Unfortunately, the most recent detailed review of our pricing assumptions confirms that the expected claims over the life of your policy series are significantly higher today than they were expected to be when the premiums were originally determined. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

Our decision to increase premiums is solely related to the future claims anticipated on these policies and not to the recent recession, interest rate environment, or any other investment-related reason

As an alternative to paying higher premiums, we are offering several benefit reduction alternatives and, in most cases, at least one option that will enable the policyholder to keep their premiums at or close to the same level as what is being paid before the rate increase.

Summary of the John Hancock's 2013 Rate Increase Request on Certain Individual Long-Term Care Insurance Policy Series

In 2013, John Hancock completed our latest comprehensive claims study, which we conduct every three years, and which examines the usage trends for an insured population. Like many carriers in this business, we have seen increased claims, and therefore there is more experience data available to predict future benefit usage by policyholders. As compared to our previous analysis, the new data shows that policyholders are living longer, their claims are lasting longer, and more people are claiming at the older ages. As a result, beginning late in 2013 John Hancock began the nationwide filing of an increase on certain of our individual John Hancock policy series which reflects the future claims expected on those policies by an average of about 25% on roughly half our business nationwide. John Hancock previously requested and implemented rate increases on certain individual long-term care policy series in 2008 and 2010.

Increases will vary by issue age, inflation, benefit period, policy series, and state. No policyholder who is subject to a 2013 increase will pay more in premiums than we currently charge for currently marketed products, subject to differences in benefits. The filing will vary by state based on the amount and timing of prior increases that we were permitted to implement in that state. In this way, policyholders are not subsidizing policyholders in other states.

In Virginia, on our pre-rate stability block of business, we are requesting an average rate increase of 42.2% which ranges from 20.2% to 55.4% This includes our Gold and a portion of the Custom Care I policy forms. On our post-rate stability block, we are requesting an average rate increase of 18.5% which ranges from 13.3% to 19.6%. This includes the remaining portion of the Custom Care I policy forms and the Custom Care II Enhanced products (2008 and 2010).

As with the 2010 rate action, there will be a number of benefit adjustment options to help keep premiums at or close to their current level. For example, policyholders who purchased automatic 5% compound or 5% simple inflation coverage will be offered reduced inflation coverage (subject to state acceptance) which allows them to retain the benefits they have accrued and avoid the increase completely. Customers can also reduce their benefit period, adjust their daily/monthly benefit amount, extend their elimination period, or drop riders from their coverage.

After the rate increase is accepted by the Virginia Insurance Department, affected policyholders will be provided with an extensive and personalized notification communication at least 60 days prior to the effective date, which will describe the increase and options available to mitigate the impact of the rate increase. In addition, customer support will be available through a dedicated customer service team in order to help our policyholders navigate through their choices and respond to any questions.

John Hancock Life Insurance Company (U.S.A.)
Actuarial Memorandum for Inforce Rate Increase - Gold Policy Series
July 15, 2015

Product Name	Form Number	Issue Date Range
Advantage Gold Select	LTC-96 VA	Sep 1996 - Mar 1998
Advantage Gold Select	LTC-96 VA 9/96	Jan 1997 - Jan 2004
Advantage Classic	LTC-96CL VA	Nov 1996 - May 1997
Advantage Classic	LTC-96CL VA 9/96	Feb 1997 - Nov 1997
Advantage Gold Facility Only	NH-99 VA 4/99	Jan 2000 - Feb 2003
Fidelity Advantage Gold Select	LTC2000 VA 4/00	May 2002 - Dec 2002

1. Scope & Purpose

This memorandum consists of materials which support the development of new premium rates for the above captioned Policy series forms. The purpose of this memorandum is to demonstrate that the requirements of this State in regards to an in force rate increase request have been met. This rate filing is not intended to be used for any other purpose.

2. Benefit Description

A brief policy description for each of the policy forms:

LTC-96 VA, LTC-96 VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, as elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

LTC-96CL VA, LTC-96CL VA 9/96
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

For care received in a nursing home, provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, provides reimbursement of 80% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount; this maximum daily amount could be 50%, 80%, or 100% of the nursing home maximum daily amount, and is elected at issue. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving nursing home benefits and will continue to be waived until the insured stops receiving such benefits.

LTC2000 VA 4/00
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility or covered services received in a community setting.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. For care received in a community setting or in an assisted living facility, the maximum daily amount is 150% of the nursing home maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

NH-99 VA 4/99
Individually underwritten long-term care policies that provide comprehensive long-term care coverage for care received in a nursing home or assisted care living facility.

Provides reimbursement of 100% of covered long-term care expenses incurred after an elected elimination period is met, up to the maximum daily amount. The benefit eligibility is determined based on the insured's cognitive impairment or their requiring physical assistance to perform two out of six activities of daily living (ADLs) of bathing, dressing, eating, toiletting, transferring and maintaining continence.

Premiums are waived after the insured has met the elimination period and is receiving benefits and will continue to be waived until the insured stops receiving such benefits.

3. Renewability

All policy forms are guaranteed renewable.

4. Applicability

This filing is applicable to in force policies only, as these policy forms are no longer being sold in the market. The premium changes will apply to the base forms as well as all applicable riders.

5. Actuarial Assumptions

Morbidity

The morbidity assumptions are derived from our own experience, following a comprehensive claim study just recently completed. The study has been peer reviewed both internally as well as by an Independent third party.

Our claims projections include 12 years of future morbidity improvements at 1.1% per year.

Below are currently expected sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	1.16	4.19
60	4.40	10.17
65	13.13	28.90
70	28.14	59.61
75	75.83	161.39
80	177.08	299.97
85	361.81	513.14
90	439.44	547.33
95	486.67	540.98

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	3.77	13.54
70	22.95	50.31
75	86.37	178.84
80	189.52	315.63
85	392.22	550.72
90	474.39	586.86
95	505.72	547.15

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	25.25	81.59
80	195.70	324.80
85	469.94	627.28
90	506.74	613.87
95	531.66	552.54

Voluntary Lapses

The voluntary lapse rates are also based on our own experience:

Duration	Inflation Option	
	None/GPO	**All Other**
1	4.90%	3.70%
2	3.50%	2.95%
3	2.90%	2.50%
4	2.35%	1.85%
5	2.05%	1.75%
6	1.00%	0.90%
7	1.00%	0.85%
8	1.00%	0.85%
9	1.00%	0.85%
10	1.00%	0.85%
11+	0.95%	0.85%

Mortality

The mortality rates have also been derived based on our own experience within our individual long-term care block of business.

The base mortality table is the unloaded 1994 Group Annuity Mortality Table, sex-distinct, with 19 years of historical improvements based on scale AA. We then apply the following series of adjustment factors (factors for ages not listed above are interpolated):

Policy Duration	Preferred Risk Class (Married)				Pref. Risk Class (Single, Female)				Pref. Risk Class (Single, Male)			
	Issue Age				Issue Age				Issue Age			
	< = 55	65	75	>=82	< = 55	65	75	>=82	< = 55	65	75	>=82
1	22.9%	13.1%	13.1%	19.7%	26.6%	15.2%	15.2%	22.8%	27.8%	15.9%	15.9%	23.8%
2	24.9%	15.1%	17.7%	22.9%	28.8%	17.5%	20.5%	26.6%	30.2%	18.3%	21.4%	27.8%
3	26.9%	17.0%	22.3%	26.2%	31.1%	19.7%	25.8%	30.4%	32.5%	20.6%	27.0%	31.7%
4	28.2%	19.0%	26.9%	29.5%	32.6%	22.0%	31.1%	34.2%	34.1%	23.0%	32.5%	35.7%

We are also projecting 12 years of future mortality improvement based on scale AA, consistent with the 12 years of future morbidity improvement in our future claim projections.

Expenses

Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate.

6. Trend Assumptions

As this is not medical insurance, we have not included any explicit medical cost trends in the projections.

7. Marketing Method

This product was typically marketed through our traditional agency system and brokers involving a personal contact with each applicant.

8. Underwriting

These policy forms were underwritten using a medical and risk questionnaire. We also utilized Attending Physician Statement and personal interviews depending on the age of the applicant and medical conditions.

9. Premium Classes

The base policy premium rates vary by Issue age, Benefit Period, Inflation Option, Home Health Care maximum benefit percentage, and Underwriting Class, as in the initial rate filing.

All premium factors related to the insured elected benefit design options or any eligible discount remain unchanged from the initial rate filing.

10. Premium Modalization Rules

Frequency	Multiple of Annual Premium
Semiannual	.52
Quarterly	.27
Monthly	.09

11. Issue Age Range

The issue age range is 18-84 for all policy forms.

12. Area Factors

Area factors are not applicable to any of the policy forms or riders.

13. Average Annual Premium

The table below summarizes the average annual premium per policy before and after the requested increase.

	Nationwide	Virginia	
Form	before the rate increase	before the rate increase	after the rate increase
LTC-96 VA	1,930	2,140	3,217
LTC-96 VA 9/96	2,270	2,310	3,472
LTC-96CL VA	1,440	1,850	2,781
LTC-96CL VA 9/96	1,660	2,770	4,164
NH-99 VA 4/99	2,040	2,210	3,322
LTC2000 VA 4/00	2,310	2,200	3,307

14. Number of Policyholders

The table below summarizes, as of 12/31/2013, the number of policies inforce and their 2013 annualized premium that will be affected by this rate increase in your state.

Form	Number of Policies	2013 Annualized Premium
LTC-96 VA	349	745,689
LTC-96 VA 9/96	10,412	24,099,348
LTC-96CL VA	8	14,777
LTC-96CL VA 9/96	2	5,537
NH-99 VA 4/99	38	84,017
LTC2000 VA 4/00	13	28,619

15. Reserves

Active Life Reserves have not been used in this rate increase demonstration. Minimum Statutory Claim reserves as of 12/31/2013 have been discounted to the date of incurral of each respective claim and included in the historical incurred claims. Incurred But Not Reported claim reserves as of 12/31/2013 have also been allocated to the calendar year of incurral and included in historic incurred claims.

16. Requested Rate Increase

The Company is requesting an average rate increase of 50.3%, which varies by issue age, benefit period, and inflation option, and ranges from 20.2% to 55.4%. Rate increases were derived as follows:

1. The Company first determined the projected lifetime loss ratio for this form based on nationwide actual experience and projected future experience assuming all prior rate increase requests were approved in full and within three months of the original filing date. We then determined the amount of rate increase (43.9%) that would be needed in order to revert to the lifetime loss ratio certified to in our 2010 inforce rate increase filing for this form.
2. We ensured that the proposed rate increases did not result in premium rates that exceed the most recent traditional LTC rates that have been filed with the Interstate Compact for new business under the ICC12-LTC-12 policy form, adjusted for benefit differences and changes in underwriting guidelines and risk classification (this is demonstrated in **Appendix A** using LTC-96 9/96 as an example). After the

application of this restriction the average rate increase for the forms listed in this memo is 43.5%, ranging from 20.2% to 43.9%.

3. Rate increases were adjusted to account for the timing of approvals on prior filings in your State. Adjustments are proportional to the amounts requested in prior filings and were determined such that achieved lifetime loss ratios match those targeted in Step #1 above. After the application of this adjustment, the average rate increase for the forms listed in this memo is 50.3%, ranging from 20.2% to 55.4%.
4. We ensured that the resulting overall increase in rates satisfied the rate stability rule ensuring no less than an 85% loss ratio on the rate increase portion, while applying the original loss ratio on the original rate schedule (as the original loss ratio was higher than 58%). This is demonstrated at the bottom of **Exhibit 1** where it can be seen that the sum of past and future projected incurred claims is not less than the sum of the original premium times the original loss ratio and the rate increase premium times the 85% loss ratio requirement.

Note that in **Appendix A** we reflect the proposed premium rates both with and without any additional cost as we believe any cost due to delayed implementation should not be subject to the new business rate restrictions.

Appendix B1 contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did not* elect an inflation reduction option as part of the 2010 rate increase filings. **Appendix B2** contains the new proposed rate tables for all policy forms included with this filing for those policyholders that *did* elect an inflation reduction option as part of the 2010 rate increase filings. Please note that the actual rates implemented may vary slightly from those in Appendices B1 and B2 due to implementation rounding algorithms.

17. Analysis Performed

The initial premium schedule was based on the originally filed pricing assumptions which were believed to be appropriate, given company and industry experience available, when the initial rate schedule was developed.

The original pricing assumptions for morbidity, voluntary termination rates, and mortality were as follows:

<u>Morbidity</u>

Claim assumptions were derived using data published by the National Center for Health Statistics National Nursing Home Survey (1985 and 1995), the National Health Interview Survey (1984), the National Long-Term Care Survey (1982, 1984, 1989, and 1994), Medicare data, and other experience furnished to us by consultants, with adjustments due to the impact of underwriting, inflation options, elected options, anti-selection considerations, and the savings incurred because the maximum daily benefit will not always be paid.

Below are the original sample annual claim costs for an LTC-96 9/96 policy, 100% HHC, $10 daily benefit, with no inflation protection:

Issue Age 55		
Age	**4 yr**	**Lifetime**
55	3.01	5.20
60	12.68	20.80
65	22.37	34.98
70	40.88	61.31
75	76.90	113.36
80	149.16	219.71
85	258.89	385.19
90	366.44	606.53
95	344.93	738.28
100	400.20	792.37

Issue Age 65		
Age	**4 yr**	**Lifetime**
65	6.00	9.34
70	35.69	53.35
75	77.21	113.66
80	149.16	219.71
85	258.86	385.15
90	366.30	606.29
95	344.57	737.50
100	400.77	793.51

Issue Age 75		
Age	**4 yr**	**Lifetime**
75	38.57	56.14
80	153.31	223.16
85	259.91	383.26
90	359.74	595.44
95	337.58	722.54
100	396.27	784.59

Voluntary Terminations

The lapse rates varied by issue age for the first 3 durations as indicated in the table below, then graded to an ultimate rate of 3% by duration 10.

Issue Age	Dur 1	Dur 2	Dur 3
40	12.24%	10.80%	9.12%
45	10.72%	9.48%	8.18%
50	9.56%	8.48%	7.47%
55	9.15%	7.95%	7.08%
60	9.62%	7.95%	7.06%
65	10.18%	8.27%	7.27%
70	10.74%	8.91%	7.73%
75	12.20%	9.55%	8.21%
80	13.28%	9.97%	8.54%

Mortality

The 1983 Group Annuity Mortality Table was used, weighted 40% males and 60% females, with the following selection factors applied:

Duration	Selection Factor
1	50%
2	80%
3+	100%

As part of the inforce management of the business, the Company monitored the performance of the business by completing periodic analysis for morbidity, voluntary lapse rates, and mortality. The findings from these analyses were used in projecting the inforce business to determine the effect of experience on the projected lifetime loss ratio. The most current studies show significant unfavorable trends since the study that prompted our 2010 rate increase filings. In general, we are seeing more, longer-lasting claims - claim incidence has increased, claim terminations have decreased, claim utilization has increased, and mortality have decreased.

The following tables show in aggregate how our new assumptions (Expected) compare to actual experience:

Morbidity

Experience period: Inception through 9/30/2012 for incidence, inception through 9/30/2011 for claim terminations and salvage

The following charts show key experience compared to revised assumptions.

Incidence

Duration	A/E
1-3	101%
4-6	100%
7-9	100%
10+	100%
Total	**100%**

Claim Terminations

Benefit Period	A/E
<10 years	100%
10+ years	100%
Total	**100%**

Salvage

Inflation	A/E
None / GPO	100%
Simple	100%
Compound	100%
Total	**100%**

Voluntary Lapses

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1	100%
2	102%
3-5	100%
6-10	118%
11+	96%
Total	**104%**

In the recent study we noted that early duration lapses were greater than expected. As such, lapse rates for durations 1-5 were increased.

Note that the lapse study removed all policies which had undergone prior rate increases.

Mortality

Experience period: 4/1/2009-3/31/2012

Duration	A/E by Amount
1-5	99%
6-10	101%
11+	99%
Total	**100%**

Exhibit 1 contains nationwide past premium and claims experience and future premium and claim projections and illustrates that the anticipated lifetime loss ratio with the requested rate increase is 95.7%, well in excess of the minimum loss ratio of 60% as well as greater than the original pricing loss ratio of 69.4%. The lifetime loss ratio as of 12/31/2013 is calculated as the sum of accumulated past and discounted future claims divided by the sum of accumulated past and discounted future earned premium where accumulation and discounting occur at the maximum statutory valuation discount rate.

In addition, **Exhibit 1** contains the original expected loss ratio projections, adjusted for the actual mix of business issued, with the lifetime loss ratio also calculated as stated above.

Furthermore, **Exhibit 1** demonstrates that that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times the original assumed lifetime loss ratio (which was higher than 58%),
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times the original assumed lifetime loss ratio, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

18. New inflation options that will allow policyholders to avoid the rate increase

Although this is a closed block of business, we are filing new future inflation options that will allow policyholders that have Compound and Simple Inflation coverage the option to completely avoid the rate increase.

Under these new options, the policyholders get to keep their current accumulated Daily benefit and their current remaining Lifetime Maximum Benefit, but the future indexation rate will be reduced as follows:

- For policyholders that are currently receiving a 5% inflation benefit, the annual inflation rate will be reduced from 5% to a future annual rate of 3.2%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 3.4% (i.e. policies issued before 10/1/2003), the future annual inflation rate will be reduced to 1.8%
- For policyholders that have previously reduced their inflation rate in order to avoid a rate increase and are currently receiving an inflation benefit of 2.8% (i.e. policies issued on or after 10/1/2003), the future annual inflation rate will be reduced to 1.8%

The 3.2% and 1.8% indexation rates were determined to be actuarially equivalent to the requested rate increases in aggregate and therefore these options are only available if the full rate increase requested is accepted.

The premium rate schedules for these options are included in this filing as **Appendices C1** and **C2.**

19. History of Previous Rate Revisions

A 13.0% rate increase on these policy forms (issued prior to October 1, 2003) was accepted by your state on July 17, 2009.

A 46.2% rate increase on these policy forms was accepted by your state on December 01, 2011.

20. Ensuring No Cross-Subsidization Between States

We have ensured no state's rate increase approvals will subsidize other states' experience. Rate increases will vary by state, but only to reflect the timing and amount of prior rate increases approved by that state. This is

accomplished by first backing-out all prior rate increases from our nationwide premium data. We then re-introduce prior rate increases with the amount and timing based on your state's prior approvals (as detailed in Section 19). The current proposed rate increases are then determined based on the amounts needed in order to achieve our target loss ratios where our targets reflect the lifetime loss ratios certified to in our prior filing.

Although some states may have capped our previous inforce rate increase filings, in each case this was done with the understanding that the full amount of the proposed rate increases were justified and that John Hancock would be refiling for the remainder at a later date. In instances where the remainder remains unapproved, it has been included in the current filings.

21. Proposed Effective Date

These rates will be effective on the next policy anniversary date, following at least a 60 day policyholder notification period.

22. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering this opinion and am familiar with the requirements for filing long-term care insurance premiums and filing for increases in long-term care insurance premiums. This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP No. 8.

I hereby certify that, to the best of my knowledge and judgement, this rate submission is in compliance with the applicable laws and regulations of the Commonwealth of Virginia and that the premiums are reasonable in relation to the benefits provided.

The preceding Actuarial Memorandum contains:

a) the assumptions on which this certification is based;
b) the adjustments to prior assumptions with an explanation of the reasons previous assumptions were not realized;
c) a lifetime projection of the prior premium rate schedules and incurred claims plus future expected premiums and claims which demonstrates that the revised premium rate schedule meets the loss ratios standards and necessary details of this state; and
d) disclosure of the manner, if any, in which reserves have been recognized.

In my opinion, no further rate increases will be necessary as the revised premium rate schedules are sufficient to cover anticipated costs assuming that the underlying assumptions are realized.

I have reviewed and taken into consideration the policy design and coverage provided, and our current underwriting and claims adjudication processes.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this state.

The basis for contract reserves has been previously filed and there is no anticipation of any changes.

Value as of 12/31/13*:										
	Past				2,517,256,755	3,400,554,956	6,188,705,446	54.9%	6,188,705,446	54.9%
	Future					5,640,347,658	2,379,619,832	237.0%	3,255,165,208	173.3%
	Lifetime					9,040,902,614	8,568,325,277	105.5%	9,443,870,654	95.7%

*discounted at maximum statutory valuation rates

Test: Total Incurred Claims exceeds the Total Initial Premiums x Original Pricing Loss Ratio (instead of 58%) + Increased Premiums x 85%

			Accum Value of Past Initial Prm x 69.4% =	4,128,048,383
Accum Value of Minimum(Past Incurred Claims,			Present Value of Future Initial Prm x 69.4% =	986,626,422
Adjusted Originally Expected Incurred Claims) =	2,517,256,755		Accum Value of Prior Increases x 85% =	203,714,628
Present Value of Future Incurred Claims =	5,640,347,658		Present Value of Future Increases x 85% =	1,558,314,711
TOTAL =	8,157,604,414	> =	TOTAL =	6,876,704,144

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: GPO Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 does not have the ability to convert from GPO to 5% Compound inflation option at age 65

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: 5% Simple Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 Simple Inflation rates are approximated by applying the ratio of [LTC-03 Simple Inflation / LTC-03 Compound Inflation] to the ICC12-LTC-12 Compound Inflation rates

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business

Appendix A - Comparison to New Business Rates (Gold Series)

Rates shown are for a 90/100-day EP, single, Standard policyholder, and are per $10 daily benefit

Inflation Option: 5% Compound Inflation

New Business Rates adjusted for Benefit Differences* :

* Benefit Differences between LTC-96 9/96 and ICC12-LTC-12:

LTC-96 9/96 does not have the Double Coverage for Accident Benefit or Return of Premium Prior to 65 Benefit, the stay-at-home or respite benefits or coverage for a skilled family member

LTC-96 9/96 rates are for a 100 service-day EP, ICC12-LTC-12 rates are for a 90 service-day EP

ICC12-LTC-12 underwriting guidelines and classification are stricter than for LTC-96 9/96

ICC12-LTC-12 10yr and Lifetime rates are approximated by applying the ratio of [LTC-03 Lifetime (or 10yr) / LTC-03 6yr] to the ICC12-LTC-12 6yr rates (LTC-03 was the last product in which we offered 10yr or Lifetime benefit period options)

ICC12-LTC-12 unisex rates are determined by assuming a 60% female / 40% male mix of business
