Summary of the Bureau of Insurance's review of the rate request:

Lincoln Benefit Life Insurance Company (the Company) submitted a 35% rate increase for policy forms LB-7000-P-VA(Q), LB-7000-P-VA (NQ) and associated riders. This is an individual, closed block of business issued from 2003 through 2006. It applies to the pre-stability policies issued prior to October 1, 2003 and is subject to the requirements of 14VAC5-200-150. (Rate increases applicable to the post stability block (forms issued or after October 1, 2003) were filed under SERFF tracking #LFCR-130038440.) This is the first rate increase requested for these forms. As of the date of submission, there was one policy in Virginia and 1087 policies nationwide.

The primary reason for the rate increase is because fewer policyholders have terminated their policies than expected, which will result in higher claims than anticipated in the original pricing factors. To ensure adequate funding to pay future claims because more insureds are expected to be on claim and for a longer period, premiums are being increased.

The projected lifetime loss ratio without an increase is 81.2%, which exceed the original lifetime loss ratio with margin for adverse deviation of 72.2%, indicating the margins for moderately adverse experience have been exhausted.

The Bureau's review, using actuarially accepted and justified assumptions, indicated the proposed rate increase meets the requirements set forth in Virginia law and regulation. Since the filing met the requirements of 14VAC5-200-150 after implementation of the rate increase, approval was recommended.

The Company is offering all policyholders options to reduce the premium increase by reducing their coverage. These reductions could be in the form of lower daily benefits, a shorter benefit period, a longer elimination period, the termination of riders or any combination of these reductions. Specific options are included in the letter sent to all policyholders notifying them of the rate increase or can be discussed with the company by calling its customer service department at 888-503-8110.
