The types of plans are indicated next to the corresponding company. All of the information provided is subject to change. Please note the date of revision at the top of each page.

Refer to the column entitled "Plans" to determine which of the Medigap standardized plans are currently marketed by a particular company. Other information to be considered is also noted in this column. The following may be helpful in assessing information that may be found in the "Plans" column:

- **High deductible Medigap Plan F.** This policy generally has a higher deductible and will cost you more "out-of-pocket" money before reimbursement may be made for certain services. The cost for this policy is generally lower than regular Medigap policies because of the high deductible feature.
