VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2017-00070

For revision of rate adjustment clause: Rider B,  
Biomass Conversions of the Altavista, Hopewell,  
and Southampton Power Stations for the Rate Year  
Commencing April 1, 2018

ORDER FOR NOTICE AND HEARING

On June 1, 2017, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company"), pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), filed with the State Corporation Commission ("Commission") an annual update of the Company's rate adjustment clause, Rider B ("Application"). Through its Application, the Company seeks to recover costs associated with the major unit modifications of the Altavista, Hopewell, and Southampton Power Stations from coal burning generation facilities into renewable biomass generation facilities (collectively, "Biomass Conversion Projects" or "Conversions").<sup>1</sup>

In 2012, the Commission approved Dominion's proposed Conversions as major unit modifications pursuant to Code § 56-585.1 A 6 and also approved a rate adjustment clause, designated Rider B, for Dominion to recover costs associated with the Conversions.<sup>2</sup> The Biomass Conversion Projects became operational as biomass units during 2013.<sup>3</sup>

<sup>2</sup> *Applications of Virginia Electric and Power Company, For approval and certification of the proposed biomass conversions of the Altavista, Hopewell, and Southampton Power Stations under §§ 56-580 D and 56-46.1 of the Code of Virginia and for approval of a rate adjustment clause, designated as Rider B, under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUE-2011-00073, 2012 S.C.C. Ann. Rept. 279, Final Order (Mar. 16, 2012).

<sup>3</sup> Application at 5.

In this proceeding, Dominion has asked the Commission to approve Rider B for the rate year beginning April 1, 2018, and ending March 31, 2019 ("2018 Rate Year").<sup>4</sup> The two components of the proposed total revenue requirement for the 2018 Rate Year are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor.<sup>5</sup> The Company is requesting a Projected Cost Recovery Factor revenue requirement of \$9,308,000, \$8,397,000, and \$9,750,000 respectively, for the Altavista, Hopewell and Southampton Power Stations.<sup>6</sup> The Company is requesting an Actual Cost True-Up Factor revenue requirement of \$5,411,000, \$4,326,000, and \$4,989,000 respectively, for the Altavista, Hopewell, and Southampton Power Stations.<sup>7</sup> Thus, the Company is requesting a total revenue requirement of \$42,182,000 for the Rate Year beginning April 1, 2018.<sup>8</sup>

Dominion used a rate of return on common equity ("ROE") of 12.5% for purposes of calculating the Projected Cost Recovery Factor in this case.<sup>9</sup> This ROE comprises a general ROE of 10.5%, plus a 200 basis point enhanced return applicable to certain qualifying renewable powered generation facilities as described in § 56-585.1 A 6 of the Code and approved by the Commission for the first five years of the Biomass Conversion Projects' service lives.<sup>10</sup> For

purposes of calculating the Actual Cost True-Up Factor, the Company used an ROE of 12% for the months of January 2016 through March 2016, which comprises the general ROE of 10% approved by the Commission in its Final Order in Case No. PUE-2013-00020,<sup>11</sup> plus the 200 basis point enhanced return. The Company used an ROE of 11.6% for the months of April 2016 through December 2016, which comprises the general ROE of 9.6% approved by the Commission in its Final Order in Case No. PUE-2015-00058,<sup>12</sup> plus the 200 basis point enhanced return.<sup>13</sup>

If the proposed Rider B for the 2018 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider B on April 1, 2018, would increase the bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.23.<sup>14</sup>

The Company indicates it has calculated the proposed Rider B rates in accordance with the same methodology as used for rates approved by the Commission in the most recent Rider B proceeding, Case No. PUE-2016-00059.<sup>15</sup>

Dominion also requests a waiver of Rules 20 VAC 5-201-60 ("Rule 60") and 20 VAC 5-201-90 ("Rule 90") of the Rules Governing Utility Rate Applications and Annual

Informational Filings ("Rate Case Rules") with respect to Schedule 45.<sup>16</sup> Rule 60 of the Rate Case Rules requires that an application filed pursuant to § 56-585.1 A 6 of the Code include Schedule 45, "Return on Equity Peer Group Benchmark," with the utility's direct testimony. Rule 90 of the Rate Case Rules states that Schedule 45 must include "all documentation supporting the return on equity benchmark proposed pursuant to § 56-585.1 A 2 a and b of the Code . . . ." In support of its request for waiver of Schedule 45, Dominion states that it has requested in this Application that the general ROE of 10.5%, which the Company proposes in a separate proceeding for the determination of an ROE applicable to certain rate adjustment clauses in Case No. PUR-2017-00038,<sup>17</sup> plus a 200 basis point enhanced return, be used to calculate the revenue requirement.<sup>18</sup> The Company filed testimony and other evidence in support of its requested general ROE, including Filing Schedule 45 materials and analysis, in Case No. PUR-2017-00038 and states that the ROE determined in that proceeding will apply to Rider B for the 2018 Rate Year. Accordingly, the Company asserts that waiver of this schedule in this proceeding is warranted by judicial economy and efficiency of case administration.<sup>19</sup>

Finally, in conjunction with the filing of its Application on June 1, 2017, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Ruling ("Motion for Protective Ruling") and a proposed protective ruling that establishes procedures governing the use of confidential information in this proceeding.

CASE NO. PUR-2017-00070

- **Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion") has applied for approval to revise its rate adjustment clause, Rider B.**
- **Dominion requests a total revenue requirement of \$42.182 million for its 2018 Rider B.**
- **A Hearing Examiner appointed by the Commission will hear the case on January 23, 2018, at 10 a.m.**

On June 1, 2017, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company"), pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), filed with the State Corporation Commission ("Commission") an annual update of the Company's rate adjustment clause, Rider B ("Application"). Through its Application, the Company seeks to recover costs associated with the major unit modifications of the Altavista, Hopewell, and Southampton Power Stations from coal burning generation facilities into renewable biomass generation facilities (collectively, "Biomass Conversion Projects" or "Conversions").

In 2012, the Commission approved Dominion's proposed Conversions as major unit modifications pursuant to Code § 56-585.1 A 6 and also approved a rate adjustment clause, designated Rider B, for Dominion to recover costs associated with the Conversions. The Biomass Conversion Projects became operational as biomass units during 2013.

In this proceeding, Dominion has asked the Commission to approve Rider B for the rate year beginning April 1, 2018, and ending March 31, 2019 ("2018 Rate Year"). The two components of the proposed total revenue requirement for the 2018 Rate Year

are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor. The Company is requesting a Projected Cost Recovery Factor revenue requirement of \$9,308,000, \$8,397,000, and \$9,750,000 respectively, for the Altavista, Hopewell and Southampton Power Stations. The Company is requesting an Actual Cost True Up Factor revenue requirement of \$5,411,000, \$4,326,000, and \$4,989,000 respectively, for the Altavista, Hopewell, and Southampton Power Stations. Thus, the Company is requesting a total revenue requirement of \$42,182,000 for the Rate Year beginning April 1, 2018.

Dominion used a rate of return on common equity ("ROE") of 12.5% for purposes of calculating the Projected Cost Recovery Factor in this case. This ROE comprises a general ROE of 10.5%, plus a 200 basis point enhanced return applicable to certain qualifying renewable powered generation facilities as described in § 56 585.1 A 6 of the Code and approved by the Commission for the first five years of the Biomass Conversion Projects' service lives. For purposes of calculating the Actual Cost True-Up Factor, the Company used an ROE of 12% for the months of January 2016 through March 2016, which comprises the general ROE of 10% approved by the Commission in its Final Order in Case No. PUE-2013-00020, plus the 200 basis point enhanced return. The Company used an ROE of 11.6% for the months of April 2016 through December 2016, which comprises the general ROE of 9.6% approved by the Commission in its Final Order in Case No. PUE-2015-00058, plus the 200 basis point enhanced return.

If the proposed Rider B for the 2018 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider B on April 1, 2018, would increase the bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.23.

The Company indicates it has calculated the proposed Rider B rates in accordance with the same methodology as used for rates approved by the Commission in the most recent Rider B proceeding, Case No. PUE-2016-00059.

Interested persons are encouraged to review the Application and supporting documents for the details of these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents and thus may adopt rates that differ from those appearing in the Company's Application and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled a public hearing on January 23, 2018, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony from members of the public and evidence related to the Application from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.

The public version of the Company's Application, as well as the Commission's Order for Notice and Hearing, are available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Copies also may be obtained by submitting a written request to counsel for the Company, Lisa S. Booth, Esquire, Dominion Energy Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219. If acceptable to the requesting party, the Company may provide the documents by electronic means.

Copies of the public version of the Application and other documents filed in this case also are available for interested persons to review in the Commission's Document Control Center located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website: <http://www.scc.virginia.gov/case>.
