For approval and certification of  
electric transmission facilities: transmission  
line rebuild of Dooms-Valley Line 500 kV #549

HEARING EXAMINER'S RULING

April 4, 2018

On September 22, 2017, Virginia Electric and Power Company ("Dominion" or "Company") filed an application ("Application") with the State Corporation Commission ("Commission") for approval of the proposed transmission line rebuild of the 500 kilovolt ("kV") Dooms-Valley Line #549 in Augusta County ("Project") pursuant to § 56-46.1 of the Code of Virginia ("Code") and the Utility Facilities Act, § 56-265.1 *et seq.* The Company seeks Commission approval of the Project together with the issuance of a certificate of public convenience and necessity ("CPCN").

On November 17, 2017, the Commission issued an Order for Notice and Hearing ("Procedural Order") associated with the Application. Among other things, the Procedural Order: (1) docketed this proceeding; (2) required Dominion to publish notice of the Application; (3) established a schedule for the filing of notices of participation and the submission of prefiled testimony; (4) scheduled a local hearing in Augusta County for February 22, 2018, for the receipt of testimony from public witnesses; (5) scheduled the resumption of the hearing in the Commission's courtroom for April 12, 2018; (6) established April 5, 2018, as the deadline for the submission of public written comments; and (7) appointed a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission and to file a final report.

The Old Dominion Electric Cooperative ("ODEC") filed a notice of participation in this case. No other respondent filed a notice of participation before the expiration of the January 16, 2018, deadline established in the Procedural Order.

In accordance with the Procedural Order, a local public hearing was convened in Augusta County on February 22, 2018, for the receipt of testimony from public witnesses. Furthermore, by Ruling dated March 29, 2018 ("March 29<sup>th</sup> Ruling"), I scheduled an additional evidentiary hearing on April 17, 2018, due to a scheduling conflict of a rebuttal witness. The March 29<sup>th</sup> Ruling also retained the April 12, 2018, hearing on the Commission's docket for the receipt of testimony from public witnesses.

To date, the Commission has received several written public comments requesting an extension of the comment period. Several commenters have also requested that the hearing on the Application be postponed and moved to Augusta County.

Given the public interest and the delayed submission of comments by the Department of Historic Resources regarding the Project, I find it appropriate to extend the deadline for the submission of public written comments to April 16, 2018. For the convenience of Augusta County residents, I also find it appropriate for the Commission to provide a webcast of the audio portion of the Richmond hearing on April 17, 2018 (at which time the substantive testimony and exhibits of the Company and Staff will be made part of the record). I do not, however, find it appropriate to schedule an additional local hearing associated with the Application. Finally, I recognize that public witnesses will be afforded additional opportunities to testify at the Richmond hearings on April 12 and April 17, 2018, should they elect to do so.

Accordingly, **IT IS DIRECTED THAT:**

- (1) The deadline for the submission of public written comments is hereby extended from April 5, 2018, to April 16, 2018; and
- (2) A webcast of the audio portion of the Richmond hearing on April 17, 2018, shall be provided and can be accessed *via* the Commission's website at [www.scc.virginia.gov/case/webcast.aspx](http://www.scc.virginia.gov/case/webcast.aspx).

APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2017-00114

For approval and certification of  
electric transmission facilities: transmission  
line rebuild of Dooms-Valley Line 500 kV #549

ORDER FOR NOTICE AND HEARING

On September 22, 2017, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") an application for approval and for a certificate of public convenience and necessity for the proposed transmission line rebuild of the 500 kilovolt ("kV") Dooms-Valley Line #549 ("Application"). Dominion filed the Application pursuant to § 56-46.1 of the Code of Virginia ("Code") and the Utility Facilities Act, § 56-265.1 *et seq.* The Company filed direct testimony and other materials in support of its Application.

According to the Application, the Company proposes to rebuild, entirely within existing right-of-way, approximately 17.7 miles of existing 500 kV Dooms-Valley Line #549 in Augusta County located between its existing Dooms Substation and Valley Substation (collectively, the "Rebuild Project").<sup>1</sup> Specifically, Dominion proposes to: (1) remove the 500 kV existing single circuit weathering steel lattice towers supporting Line #549 between Dooms Substation and Valley Substation and replace them with new double circuit galvanized steel lattice towers supporting the 500 kV line with capability for a 230 kV underbuild to support future load

growth;<sup>2</sup> and (2) remove and replace existing 2-2049.5 bundled AAAC conductors of Line #549 with three triple-bundled 1351.5 ACSR phase conductors.<sup>3</sup> The existing structures range between 77 feet and 150 feet in height.<sup>4</sup> The proposed structures would range between 100 feet and 174 feet in height.<sup>5</sup>

The Company considered and rejected constructing the Rebuild Project with a single circuit galvanized 500 kV structure (*i.e.*, 500 kV only).<sup>6</sup> Dominion states that constructing new transmission facilities in the proposed manner avoids the need to acquire new right-of-way, with additional costs and impacts, in the future if the need for a 230 kV line is shown.<sup>7</sup>

The proposed in-service date for the Rebuild Project is June 1, 2020.<sup>8</sup> The total cost for the proposed Rebuild Project is approximately \$62 million.<sup>9</sup> The total cost for a 500 kV only rebuild would be approximately \$55.9 million.<sup>10</sup>

---

<sup>2</sup> *Id.* The Company represents that no conductor or insulator assemblies would be installed on the new structures except 500 kV Line #549. Dominion states it will file a separate application for the installation of a new 230 kV Doods-Valley line at a future time as load develops. *Id.* at 2, fn. 2.

<sup>3</sup> *Id.* at 2; Appendix at 19.

<sup>4</sup> Appendix at 19.

<sup>5</sup> *Id.* at 19, fn. 10. Dominion states that structure heights are subject to change based on final engineering design.

<sup>6</sup> Application at 3. The structure heights for a 500 kV only rebuild would be approximately 14-15 feet taller on average than the existing structures (approximately 16-18 feet shorter on average than the structures proposed with the Rebuild Project). Appendix at 17.

<sup>7</sup> Application at 3-4.

<sup>8</sup> *Id.* at 2. Dominion requests Commission authorization by September 2018.

<sup>9</sup> *Id.* at 3.

<sup>10</sup> Appendix at 17.

Dominion states in its Application that the Rebuild Project is necessary for the Company to maintain the structural integrity and reliability of its transmission system.<sup>11</sup> The Company also states that the proposed Rebuild Project is necessary to maintain reliable electric service to its customers in the area and to perform needed maintenance on its existing facilities.<sup>12</sup>

As provided by § 62.1-44.15:21 D 2 of the Code, the Commission and the State Water Control Board ("Board") must consult on wetland impacts prior to the siting of electric utility facilities that require a certificate of public convenience and necessity. Acting on behalf of the Board, the Department of Environmental Quality ("DEQ") must prepare a Wetland Impacts Consultation on this Application, as is required by the Code and the Department of Environmental Quality - State Corporation Commission Memorandum of Agreement Regarding Consultation on Wetland Impacts ("Wetland Impacts Memorandum").<sup>13</sup> The Commission Staff ("Staff") has requested the Office of Wetlands & Stream Protection of the DEQ to provide a Wetland Impacts Consultation for the proposed Rebuild Project.<sup>14</sup>

In addition to the consultation on wetlands, the Staff has requested the DEQ to coordinate an environmental review of the proposed Rebuild Project by the appropriate agencies and to provide a report on the review.<sup>15</sup>

<sup>14</sup> Letter from Alisson P. Klaiber, Esquire, State Corporation Commission, dated September 28, 2017, to David L. Davis, Department of Environmental Quality, filed in Case No. PUR-2017-00114. DEQ filed the Wetland Impacts Consultation on October 12, 2017.

<sup>15</sup> Letter from Alisson P. Klaiber, Esquire, State Corporation Commission, dated September 28, 2017, to Bettina Sullivan, Department of Environmental Quality, filed in Case No. PUR-2017-00114.

NOW THE COMMISSION, upon consideration of the Application and applicable statutes, finds that this matter should be docketed and the Company should give notice of its Application to interested persons and the public. The Commission also finds that, as required by § 62.1-44.15:21 D 2 and related provisions of the Code and the Wetland Impacts Memorandum, Staff has requested the DEQ to commence, and the DEQ has completed, its wetland impacts review. Moreover, Staff has requested the DEQ to commence its coordinated environmental review and provide an Environmental Impact Memorandum. We also find that a procedural schedule should be established to allow any interested person an opportunity to file comments on the Application or to participate in this proceeding as a respondent, and the Staff should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon. We further find that public hearings should be scheduled for the purpose of receiving testimony and evidence on the Application. Finally, we find that this matter should be assigned to a Hearing Examiner to conduct all further proceedings in this matter on behalf of the Commission.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2017-00114.

(2) As provided by § 12.1-31 of the Code and 5 VAC 5-20-120, *Procedure before hearing examiners*, of the Commission's Rules of Practice and Procedure ("Rules of Practice"),<sup>16</sup> a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission and to file a final report.

(3) A local public hearing shall be convened on February 22, 2018, at 4:30 p.m. and 7 p.m. at the Augusta County Government Center, 18 Government Center Lane, Verona,

Virginia 24482, to receive testimony on the Company's Application from public witnesses participating as provided by 5 VAC 5-20-80 C, *Public witnesses*, of the Rules of Practice.

(4) A public evidentiary hearing on the Application shall be convened on April 12, 2018, at 10 a.m., in the Commission's courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony of public witnesses and the evidence of the Company, any respondents, and the Staff. Any person desiring to offer testimony as a public witness at this evidentiary hearing should appear in the Commission's courtroom fifteen (15) minutes prior to the starting time of the hearing and identify himself or herself to the Commission's Bailiff.

(5) A copy of the Application may be obtained by submitting a written request to counsel for the Company, Anne Hampton Andrews, Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219. If acceptable to the requesting party, the Company may provide the documents by electronic means. Copies of the public version of all documents also shall be available for interested persons to review in the Commission's Document Control Center, located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website: <http://www.scc.virginia.gov/case>.

(6) On or before December 18, 2017, Dominion shall cause to be sent by first class mail a copy of the notice and sketch map prescribed in Ordering Paragraph (7) to all owners, as of the date of this Order, of property within the proposed route for the proposed Rebuild Project, as indicated on the map or sketch of the routes filed with the Commission, which requirement shall be satisfied by mailing to such persons at such addresses as are indicated in the land books

maintained by the commissioner of revenue, director of finance, treasurer, or other officer of the county or municipality designated as provided by § 58.1-3100 *et seq.* of the Code.

(7) On or before December 18, 2017, Dominion shall publish in two (2) successive weeks the following notice and the sketch map of the proposed route appearing in the Application Appendix at page 257 as display advertising (not classified) in a newspaper or newspapers of general circulation in every county or municipality through which the proposed Rebuild Project is proposed to be built:

NOTICE TO THE PUBLIC OF  
AN APPLICATION BY VIRGINIA ELECTRIC AND POWER  
COMPANY FOR APPROVAL AND CERTIFICATION OF  
ELECTRIC TRANSMISSION FACILITIES: TRANSMISSION  
LINE REBUILD OF DOOMS-VALLEY 500 KV LINE #549  
CASE NO. PUR-2017-00114

On September 22, 2017, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") an application for approval and for a certificate of public convenience and necessity for the proposed transmission line rebuild of the 500 kilovolt ("kV") Dooms-Valley Line #549 ("Application"). Dominion filed the Application pursuant to § 56-46.1 of the Code of Virginia and the Utility Facilities Act, § 56-265.1 *et seq.* The Company filed direct testimony and other materials in support of its Application.

According to the Application, the Company proposes to rebuild, entirely within existing right-of-way, approximately 17.7 miles of existing 500 kV Dooms-Valley Line #549 in Augusta County located between its existing Dooms Substation and Valley Substation (collectively, the "Rebuild Project"). Specifically, Dominion proposes to: (1) remove the 500 kV existing single circuit weathering steel lattice towers supporting Line #549 between its Dooms Substation and Valley Substation and replace them with new double circuit galvanized steel lattice towers supporting the 500 kV line with capability for a 230 kV underbuild to support future load growth; and (2) remove and replace existing 2-2049.5 bundled AAAC conductors of Line #549 with three triple-bundled 1351.5 ACSR phase conductors. The existing structures range between 77 feet and 150 feet in height. The

proposed structures would range between 100 feet and 174 feet in height.

The Company considered and rejected constructing the Rebuild Project with a single circuit galvanized 500 kV structure (*i.e.*, 500 kV only). Dominion states that constructing new transmission facilities in the proposed manner avoids the need to acquire new right-of-way, with additional costs and impacts, in the future if the need for a 230 kV line is shown.

The proposed in-service date for the Rebuild Project is June 1, 2020. The total cost for the proposed Rebuild Project is approximately \$62 million. The total cost for a 500 kV only rebuild would be approximately \$55.9 million.

### **Transmission Line Route for the Proposed Project**

The proposed route for the Rebuild Project is an approximately 17.7 mile corridor currently occupied by an existing 500 kV transmission line. The majority of the existing transmission corridor is 150 feet wide, with 3.6 miles of right-of-way width of 275 feet where the line is collocated with the Company's Dooms-Lexington 500/230 kV transmission line. The Rebuild Project originates at Dooms Substation, which is located at the southern end of Augusta County near Route 340. The line then heads north/west for approximately 17.7 miles, where it crosses Interstate 81 and U.S. Route 11 until it terminates at Valley Substation.

Dominion states in its Application that the proposed Rebuild Project is necessary for the Company to maintain the structural integrity and reliability of its transmission system. The Company also states that the proposed Rebuild Project is necessary to maintain reliable electric service to its customers in the area and to perform needed maintenance on its existing facilities.

The Commission entered an Order for Notice and Hearing in this proceeding that, among other things, scheduled public hearings in Augusta County and Richmond, Virginia. A local public hearing will be convened on February 22, 2018, at 4:30 p.m. and 7 p.m. at the Augusta County Government Center, 18 Government Center Lane, Verona, Virginia 24482, for the sole purpose of receiving the testimony of public witnesses. The public hearing will resume on April 12, 2018, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to

receive testimony from members of the public and evidence related to the Application from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.

Copies of the Application and documents filed in this case are available for interested persons to review in the Commission's Document Control Center, located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website: <http://www.scc.virginia.gov/case>.

(14) The Staff shall investigate the Application. On or before March 13, 2018, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of testimony and exhibits, and each Staff witness's testimony shall include a summary not to exceed one page. The Staff shall serve a copy thereof on counsel to the Company and all respondents.

(15) On or before March 27, 2018, the Company shall file with the Clerk of the Commission: (a) any rebuttal testimony and exhibits that it expects to offer, and each rebuttal witness's testimony shall include a summary not to exceed one page; and (b) a summary not to exceed one page of each direct witness's testimony if not previously included therewith. The Company shall serve a copy on the Staff and all respondents. If not filed electronically, an original and fifteen (15) copies of such rebuttal testimony and exhibits shall be submitted to the Clerk of the Commission at the address set forth in Ordering Paragraph (9).

(16) The Commission's Rule of Practice 5 VAC 5-20-260, *Interrogatories or requests for production of documents and things*, shall be modified for this proceeding as follows: responses and objections to written interrogatories and requests for production of documents shall be served within seven (7) business days after receipt of the same. In addition to the service requirements of 5 VAC 5-20-260 of the Rules of Practice, on the day that copies are filed with the Clerk of the Commission, a copy of the interrogatory or request for production shall be served electronically, or by facsimile, on the party to whom the interrogatory or request for production is directed or the assigned Staff attorney, if the interrogatory or request for production is directed to Staff.<sup>18</sup> Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice, 5 VAC 5-20-240 *et seq.*

(17) This matter is continued.

AN ATTESTED COPY hereof shall be sent by the Clerk of the Commission to: David J. DePippo, Esquire, Dominion Resources Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219; Vishwa B. Link, Esquire, Lisa R. Crabtree, Esquire, and Anne Hampton Andrews Esquire, McGuireWoods LLP, Gateway Plaza, 800 East Canal Street, Richmond, Virginia 23219; and C. Meade Browder, Jr., Senior Assistant Attorney General, Division of Consumer Counsel, Office of the Attorney General, 202 N. 9th Street, 8th Floor, Richmond, Virginia 23219-3424. A copy also shall be delivered to the Commission's Office of General Counsel and Divisions of Public Utility Regulation and Utility Accounting and Finance.
