APPLICATION OF

VIRGINIA ELECTRIC AND POWER COMPANY

CASE NO. PUR-2018-00087

For revision of rate adjustment clause: Rider W,
Warren County Power Station

ORDER FOR NOTICE AND HEARING

On June 1, 2018, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company"), pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), filed with the State Corporation Commission ("Commission") an annual update of the Company's rate adjustment clause, Rider W ("Application"). Through its Application, the Company seeks to recover costs associated with the Warren County Power Station ("Warren County Project" or "Project"), a 1,342 megawatt nominal natural gas-fired combined-cycle electric generating facility and associated transmission interconnection facilities located in Warren County, Virginia.¹

In 2012, the Commission approved Dominion's construction and operation of the Warren County Project and also approved a rate adjustment clause, designated Rider W, for Dominion to recover costs associated with the Project.² The Warren County Project became fully operational in 2014.³

¹ Application at 1; Direct Testimony of C. Alan Givens at 1.

² *Application of Virginia Electric and Power Company, For approval and certification of the proposed Warren County Power Station electric generation and related transmission facilities under §§ 56-580 D, 56-265.2, and 56-46.1 of the Code of Virginia and for approval of a rate adjustment clause, designated as Rider W, under § 56-585.1 A 6 of the Code of Virginia*, Case No. PUE-2011-00042, 2012 S.C.C. Ann. Rept. 263, Final Order (Feb. 2, 2012).

³ Application at 4.

In this proceeding, Dominion has asked the Commission to approve Rider W for the rate year beginning April 1, 2019, and ending March 31, 2020 ("2019 Rate Year").⁴ The two components of the proposed total revenue requirement for the 2019 Rate Year are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor.⁵ The Company is requesting a Projected Cost Recovery Factor revenue requirement of \$103,327,000 and an Actual Cost True-Up Factor revenue requirement of \$3,786,000.⁶ Thus, the Company is requesting a total revenue requirement of \$107,113,000 for service rendered during the 2019 Rate Year.⁷

For purposes of calculating the Projected Cost Recovery Factor in this case, Dominion utilized a rate of return on common equity ("ROE") of 10.2%, which comprises a general ROE of 9.2% approved by the Commission in its Final Order in Case No. PUR-2017-00038,⁸ plus a 100 basis point enhanced return applicable to a combined-cycle generating station as described in Code § 56-585.1 A 6.⁹ For purposes of calculating the Actual Cost True-Up Factor, the Company utilized an ROE of 10.6% for the months of January 2017 through March 2017, which comprises the general ROE of 9.6% approved by the Commission in its Final Order in Case No. PUE-2015-00061,¹⁰ plus the 100 basis point enhanced return; an ROE of 10.4% for the period of

⁷ Application at 7; Direct Testimony of C. Alan Givens at 10. Alternatively, Dominion requests a rate effective date for usage on the first day of the month that is at least 15 days following the date of any Commission order approving Rider W, if such date is later than April 1, 2019. Application at 8.

⁸ *Application of Virginia Electric and Power Company, For the determination of the fair rate of return on common equity to be applied to its rate adjustment clauses*, Case No. PUR-2017-00038, Doc. Con. Cen. No. 171130298, Final Order (Nov. 29, 2017) ("2017 ROE Order").

⁹ Application at 5-6; Direct Testimony of C. Alan Givens at 3.

¹⁰ *Application of Virginia Electric and Power Company, For revision of rate adjustment clause: Rider W, Warren County Power Station*, Case No. PUE-2015-00061, 2016 S.C.C. Ann. Rept. 255, Final Order (Feb. 29, 2016).

April 1, 2017, through November 28, 2017, which comprises the general ROE of 9.4% approved by the Commission in its Order in Case No. PUE-2016-00063,¹¹ plus the 100 basis point enhanced return; and an ROE of 10.2% for the period of November 29, 2017, through December 31, 2017, which comprises the general ROE of 9.2% approved by the Commission in its 2017 ROE Order, plus the 100 basis point enhanced return.¹²

If the proposed Rider W for the 2019 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider W on April 1, 2019, would increase the bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.03.¹³

The Company proposes a change in the methodology for the calculation of a certain allocation factor beginning in 2018 to recognize the output of certain non-utility generators to be used to allocate cost responsibility to the Virginia jurisdiction.¹⁴ In addition, with the exception of the removal of certain Federal and retail choice customers from the Virginia jurisdiction, the Company indicates it has calculated the proposed Rider W rates in accordance with the same methodology as used for rates approved by the Commission in the most recent Rider W proceeding, Case No. PUR-2017-00074.¹⁵

¹¹ *Application of Virginia Electric and Power Company d/b/a Dominion Virginia Power, For revision of rate adjustment clause: Rider W, Warren County Power Station, Case No. PUE-2016-00063, Doc. Con. Cen. No. 170220480, Order (Feb. 16, 2017).*

Dominion also requests a waiver of Rules 20 VAC 5-201-60 ("Rule 60") and 20 VAC 5-201-90 ("Rule 90") of the Rules Governing Utility Rate Applications and Annual Informational Filings ("Rate Case Rules") with respect to Schedule 45. Rule 60 of the Rate Case Rules requires that an application filed pursuant to Code § 56-585.1 A 6 include Schedule 45, "Return on Equity Peer Group Benchmark," with the utility's direct testimony. Rule 90 of the Rate Case Rules states that Schedule 45 must include "documentation supporting the return on equity benchmark proposed pursuant to § 56-585.1 A 2 a and b of the Code" In support of its request for waiver of Schedule 45, Dominion states that the Commission approved a 9.2% ROE in its 2017 ROE Order to be applied to Dominion's Subsection A 5 and A 6 rate adjustment clauses, including Rider W.¹⁶ Dominion indicates that, in this proceeding, it is requesting that an ROE of 9.2%, plus the 100 basis point enhanced return, be used to calculate the Projected Cost Recovery Factor revenue requirement for Rider W. Accordingly, the Company asserts that waiver of this schedule in this proceeding is warranted by judicial economy and efficiency of case administration.¹⁷

Finally, in conjunction with the filing of its Application on June 1, 2018, the Company filed the Motion of Virginia Electric and Power Company for Entry of a Protective Ruling ("Motion for Protective Ruling") and a proposed protective ruling that establishes procedures governing the use of confidential information in this proceeding.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Application; a public hearing should be scheduled for the purpose of receiving testimony and evidence on the Application; interested persons should have an opportunity to file comments on the Application

¹⁶ Application at 10.

or participate as a respondent in this proceeding; and the Commission's Staff ("Staff") should be directed to investigate the Application and file testimony and exhibits containing its findings and recommendations thereon.

We also find that a Hearing Examiner should be assigned to conduct all further proceedings in this matter on behalf of the Commission, including ruling on the Company's Motion for Protective Ruling and filing a final report containing the Hearing Examiner's findings and recommendations.

Finally, we grant Dominion's request to waive the filing of Schedule 45 for purposes of making the Application complete and commencing this proceeding.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2018-00087.

(2) As provided by § 12.1-31 of the Code and Rule 5 VAC 5-20-120, *Procedure before Hearing Examiners*, of the Commission's Rules of Practice and Procedure ("Rules of Practice"),¹⁸ a Hearing Examiner is appointed to conduct all further proceedings in this matter on behalf of the Commission.

(3) A public hearing on the Application shall be convened on November 8, 2018, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive the testimony of public witnesses and the evidence of the Company, any respondents, and the Staff. On June 1, 2018, Virginia Electric and Power Company d/b/a Dominion Energy Virginia ("Dominion" or "Company"), pursuant to § 56-585.1 A 6 of the Code of Virginia ("Code"), filed with the State Corporation Commission ("Commission") an annual update of the Company's rate adjustment clause, Rider W ("Application"). Through its Application, the Company seeks to recover costs associated with the Warren County Power Station ("Warren County Project" or "Project"), a 1,342 megawatt nominal natural gas-fired combined-cycle electric generating facility and associated transmission interconnection facilities located in Warren County, Virginia.

In 2012, the Commission approved Dominion's construction and operation of the Warren County Project and also approved a rate adjustment clause, designated Rider W, for Dominion to recover costs associated with the Project. The Warren County Project became fully operational in 2014.

In this proceeding, Dominion has asked the Commission to approve Rider W for the rate year beginning April 1, 2019, and ending March 31, 2020 ("2019 Rate Year"). The two components of the proposed total revenue requirement for the 2019 Rate Year are the Projected Cost Recovery Factor and the Actual Cost True-Up Factor. The Company is requesting a Projected Cost Recovery Factor revenue requirement of \$103,327,000 and an

Actual Cost True-Up Factor revenue requirement of \$3,786,000. Thus, the Company is requesting a total revenue requirement of \$107,113,000 for service rendered during the 2019 Rate Year.

For purposes of calculating the Projected Cost Recovery Factor in this case, Dominion utilized a rate of return on common equity ("ROE") of 10.2% which comprises a general ROE of 9.2% approved by the Commission in its Final Order in Case No. PUR-2017-00038, plus a 100 basis point enhanced return applicable to a combined-cycle generating station as described in § 56-585.1 A 6 of the Code. For purposes of calculating the Actual Cost True-Up Factor, the Company utilized an ROE of 10.6% for the months of January 2017 through March 2017, which comprises the general ROE of 9.6% approved by the Commission in its Final Order in Case No. PUE-2015-00061, plus the 100 basis point enhanced return; an ROE of 10.4% for the period of April 1, 2017, through November 28, 2017, which comprises the general ROE of 9.4% approved by the Commission in its Order in Case No. PUE-2016-00063, plus the 100 basis point enhanced return; and an ROE of 10.2% for the period of November 29, 2017, through December 31, 2017, which comprises the general ROE of 9.2% approved by the Commission in its 2017 ROE Order, plus the 100 basis point enhanced return.

If the proposed Rider W for the 2019 Rate Year is approved, the impact on customer bills would depend on the customer's rate schedule and usage. According to Dominion, implementation of its proposed Rider W on April 1, 2019, would increase the bill of a residential customer using 1,000 kilowatt hours per month by approximately \$0.03.

The Company proposes a change in the methodology for the calculation of a certain allocation factor beginning in 2018 to recognize the output of certain non-utility generators to be used to allocate cost responsibility to the Virginia jurisdiction. In addition, with the exception of the removal of certain Federal and retail choice customers from the Virginia jurisdiction, the Company indicates it has calculated the proposed Rider W rates in accordance with the same methodology as used for rates approved by the Commission in the most recent Rider W proceeding, Case No. PUR-2017-00074.

Interested persons are encouraged to review the Application and supporting documents for the details of these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Application and supporting documents and thus may adopt rates that differ from those appearing in the Company's Application and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled a public hearing on November 8, 2018, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony from members of the public and evidence related to the Application from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.

The public version of the Company's Application, as well as the Commission's Order for Notice and Hearing, are available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Copies also may be obtained by submitting a written request to counsel for the Company, Lisa S. Booth, Esquire, Dominion Energy Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219. If acceptable to the requesting party, the Company may provide the documents by electronic means.
