PETITION OF

VIRGINIA ELECTRIC AND POWER COMPANY

For approval and certification of the proposed US-3 Solar Projects pursuant to §§ 56-580 D and 56-46.1 of the Code of Virginia, and for approval of a rate adjustment clause, designated Rider US-3, under § 56-585.1 A 6 of the Code of Virginia

ORDER FOR NOTICE AND HEARING

On July 24, 2018, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for approval and certificates of public convenience and necessity ("CPCNs") to construct and operate two utility scale solar photovoltaic generating facilities: (i) the Colonial Trail West Solar Facility ("CTW Solar"), an approximately 142 megawatt ("MW") (nominal alternating current ("AC")) facility located in Surry County; and (ii) the Spring Grove 1 Solar Facility ("SG1 Solar"), an approximately 98 MW AC facility located in Surry County (collectively, "US-3 Solar Projects" or "Projects"). The Company requests approval of and a CPCN for each of the US-3 Solar Projects pursuant to §§ 56-46.1 and 56-580 D of the Code of Virginia ("Code") and the Filing Requirements in Support of Applications for Authority to Construct and Operate an Electric Generating Facility ("Generation Rules"). Through its Petition, the Company also requests approval of a rate adjustment clause ("RAC"), designated Rider US-3, pursuant to Code § 56-585.1 A 6 ("Subsection A 6") and the Rules Governing Utility Rate Applications and

Dominion maintains that the US-3 Solar Projects are needed, economic, and will provide ongoing capacity, energy, and environmental benefits for its customers and the Commonwealth of Virginia. The Company states that the newly enacted Grid Transformation and Security Act, among other things, promotes the construction of new utility-owned and -operated solar or wind generation facilities and amends Subsection A 6 to provide that 5,000 MW of solar is in the public interest. According to Dominion, beginning construction before December 31, 2019, will allow the Company to maximize the federal investment tax credits available for solar facilities, which will result in an approximately $56 million reduction to overall customer costs.

Dominion indicates that it is proposing the US-3 Solar Projects in connection with its experimental, voluntary companion tariff, designated Schedule RF, which the Commission recently approved in Case No. PUR-2017-00137. The Company states that Scout Development LLC, a subsidiary of Facebook, Inc. ("Facebook"), has committed to purchasing the environmental attributes, including renewable energy credits ("RECs"), associated with the

proposed Projects at a fixed price under Schedule RF.\textsuperscript{8} Dominion maintains that it intends to sell the RECs produced by the US-3 Solar Projects to Facebook, and to credit the associated revenue to all jurisdictional customers through Rider US-3.\textsuperscript{9}

Dominion represents that in conjunction with its efforts to expand its portfolio of renewable and carbon free resources, the Company issued a request for proposals ("2017 RFP") designed to identify potential acquisition projects to review and potential power purchase agreements to purchase, and provide a third-party market alternatives test.\textsuperscript{10} The Company asserts that its 2017 RFP meets the Subsection A 6 requirement to consider and weigh alternative options, including third party market alternatives, in selecting proposed generating facilities.\textsuperscript{11}

As proposed, the Projects would include ground-mounted, single-axis tracking solar panel arrays with an expected operating life of 35 years.\textsuperscript{12} If approved, Dominion expects CTW Solar to be in service by December 2019, and SG1 Solar to be in service by October 2020.\textsuperscript{13} The Company states that the Projects will provide direct and indirect economic benefits to the Commonwealth of Virginia of approximately $115.9 million, which will support 721 jobs on a cumulative basis from 2018 to 2021.\textsuperscript{14} Dominion represents that post-construction combined economic benefits are projected to be approximately $5.8 million annually, and approximately

The Company proposes an initial rate year for Rider US-3 of March 1, 2019, to February 29, 2020 ("Rate Year"), and represents that the three key components of the revenue requirement for the US-3 Solar Projects are the Projected Cost Recovery Factor, the AFUDC\textsuperscript{15} Cost Recovery Factor, and the Actual Cost True-Up Factor.\textsuperscript{16} Dominion states that the Projected Cost Recovery Factor consists of the projected financing costs on invested capital for the Rate Year, plus income taxes on the equity component of the return and projected operating costs of the plant(s) during the post-commercial operations date ("COD") portion of the Rate Year, as applicable.\textsuperscript{17}

The Company indicates that the AFUDC Cost Recovery Factor consists of the recovery of AFUDC projected to be accrued on the Company's books for the US-3 Solar Projects.\textsuperscript{18} Dominion states that it did not include a true-up amount in this proceeding. However, if initiated in 2020 as expected, Dominion represents that the Actual Cost True-Up Factor will either credit to, or recover from, jurisdictional customers the difference between actual revenues recovered

\textsuperscript{15} AFUDC stands for allowance for funds used during construction. Petition at 10.

\textsuperscript{16} Petition at 11.

\textsuperscript{17} Id. Dominion states that, because CTW Solar is scheduled to begin commercial operation \textit{during the Rate Year}, the revenue requirement includes separate pre- and post-COD amounts. The annualized Projected Cost Recovery Factor revenue requirement totals $8,706,000 and $7,933,000 for the pre- and post-COD periods, respectively, for Virginia jurisdictional customers. Id.

\textsuperscript{18} Petition at 11. Dominion states that its annualized AFUDC Cost Recovery Factor revenue requirement for the nine-month period beginning March 1, 2019, through the month ending November 30, 2019, and the three-month post-COD period beginning December 1, 2019, through the month ending February 29, 2020, are approximately $2,354,000 and $345,000, respectively. through Rider US-3 for calendar year 2019 compared to actual costs.\(^{19}\) The Company indicates that the total revenue requirement requested for the Rate Year for Rider US-3 is $10,365,000.\(^{20}\)

If the proposed Rider US-3 is approved, the impact on customer bills would depend on the customer's rate schedule and usage. The Company asserts that implementation of the proposed Rider US-3 on March 1, 2019, will increase the monthly bill of a residential customer using 1,000 kilowatt hours per month by approximately $0.21.\(^{21}\)

In its Petition, Dominion requests partial waivers of certain Rate Case Rules and Generation Rules. First, the Company requests partial waiver of the requirements of Rules 60 and 90 of the Rate Case Rules, with respect to Filing Schedule 45 (Return on Equity Peer Group Benchmark).\(^{22}\) In support of its request, the Company states that "[p]ursuant to the provisions of Va. Code §§ 56-585.1 and 56-585.1:1, and consistent with recent Commission orders granting similar limited waivers, a return on equity determination is not to be made in this proceeding" and that good cause exists to waive this filing requirement.\(^{23}\)

Second, the Company requests waiver of filing additional copies of its publicly available Shareholder Report and 2017 10-K as required by 20 VAC 5-302-20(4) of the Generation Rules.\(^{24}\) Dominion represents that it requests this waiver for purposes of judicial economy and

states that it has filed one copy of each of these documents with the Clerk of the Commission and provided website links to the publicly available documents.

Third, Dominion requests partial waiver of the requirements that pertain to fuel supply studies and arrangements ("fuel requirements"). Specifically, the Company requests waiver of Rate Case Rules 60 and 90, with respect to Filing Schedule 46 (b) as to fuel requirements. In addition, the Company requests waiver of the following Generation Rules as to fuel requirements: (ii) 20 VAC 5-302-20(9); and (ii) 20 VAC 5-302-35(2) and (6). In support of these requests for waivers, Dominion asserts that because the fuel source for the proposed US-3 Solar Facilities is the sun, these fuel requirements are not applicable.

Finally, the Company requests a limited waiver of the requirement in 20 VAC 5-302-20(7)(b) of the Generation Rules to providing topographic maps of the proposed sites for the US-3 Solar Projects. The Company states that topographic maps are not available for the Projects, however, aerial views and site location maps are provided for each of the Projects.

As provided by Code § 62.1-44.15:21 D 2, the Commission and the State Water Control Board ("Board") must consult on wetland impacts prior to the siting of electric utility facilities that require a CPCN. As provided by Section 3 of the Department of Environmental Quality – State Corporation Commission Memorandum of Agreement Regarding Consultation on Wetland Conditions

Impacts, the Staff of the Commission ("Staff") has advised the Department of Environmental Quality ("DEQ"), acting on behalf of the Board, that Dominion filed its Petition in Case No. PUR-2018-00101 and that the Board's consultation is required.  

In addition to the consultation on wetlands, Code §§ 10.1-1186.2:1 B and 56-46.1 G direct the Commission and the DEQ to coordinate the environmental review of proposed generating plants and associated facilities. Additionally, Code § 56-46.1 A provides for the Commission to receive and to consider reports on the proposed facilities from state environmental agencies. Accordingly, Staff has requested the DEQ to coordinate an environmental review of the proposed Project by the appropriate agencies and to provide a report on the review.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that this matter should be docketed; Dominion should provide public notice of its Petition; public hearings should be scheduled for the purpose of receiving testimony and evidence on the Petition; interested persons should have an opportunity to file comments on the Petition or participate as a respondent in this proceeding; and the Staff should be directed to investigate the Petition and file testimony and exhibits containing its findings and recommendations thereon. Further, we find that a Hearing Examiner should be appointed to rule on all discovery matters that arise during the course of this proceeding, including the Company's Motion for Protective Order.

---

With respect to the Company's waiver requests, we find as follows. First, we grant Dominion's request to waive the filing of Schedule 45 for purposes of making the Petition complete and commencing this proceeding. Second, we grant the Company's request to waive filing additional copies of its Shareholder Report and 2017 10-K as required by 20 VAC 5-302-20(4) of the Generation Rules. Further, we grant limited waiver of Rules 60 and 90 of the Rate Case Rules with respect to Filing Schedule 46 (b) as to fuel requirements and the Company's request for waiver of the following Generation Rules: (i) 20 VAC 5-302-20(9) as to fuel requirements; (ii) 20 VAC 5-302-35(2) and (6) as to fuel requirements; and (iii) 20 VAC 5-302-20(7)(b) as to providing topographic maps of the proposed sites for the US-3 Solar Projects, for purposes of commencing this proceeding.

However, we stress that by granting these aforementioned waiver requests at this stage of the proceeding, we are not ruling on the relevance, if any, that information required by these rules may have in this or any future Rider US-3 proceeding.32

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUR-2018-00101.

(2) As provided by Code § 12.1-31 and 5 VAC 5-20-120, Procedure before Hearing Examiners, of the Commission's Rules of Practice and Procedure ("Rules of Practice"),33 a Hearing Examiner is appointed to rule on any discovery matters that may arise during the course of this proceeding, including the Company's Motion for Protective Order.

(3) A public hearing on the Petition shall be convened on December 18, 2018, at 10 a.m., in the Commission's second floor courtroom, Tyler Building, 1300 East Main Street,

NOTICE TO THE PUBLIC OF
THE PETITION OF VIRGINIA ELECTRIC AND POWER
COMPANY FOR APPROVAL AND CERTIFICATION OF
TWO UTILITY SCALE SOLAR PROJECTS IN VIRGINIA AND
FOR APPROVAL OF A RATE ADJUSTMENT CLAUSE
CASE NO. PUR-2018-00101

On July 24, 2018, Virginia Electric and Power Company ("Dominion" or "Company") filed with the State Corporation Commission ("Commission") a petition ("Petition") for approval and certificates of public convenience and necessity ("CPCNs") to construct and operate two utility scale solar photovoltaic generating facilities: (i) the Colonial Trail West Solar Facility ("CTW Solar"), an approximately 142 megawatt ("MW") (nominal alternating current) facility located in Surry County; and (ii) the Spring Grove 1 Solar Facility ("SG1 Solar"), an approximately 98 MW AC facility located in Surry County (collectively, "US-3 Solar Projects" or "Projects"). The Company requests approval of and a CPCN for each of the US-3 Solar Projects pursuant to §§ 56-46.1 and 56-580 D of the Code of Virginia ("Code") and the Filing Requirements in Support of Applications for Authority to Construct and Operate an Electric Generating Facility. Through its Petition, the Company also requests approval of a rate adjustment clause, designated Rider US-3, pursuant to Code § 56-585.1 A 6 ("Subsection A 6") and the Rules Governing Utility Rate Applications and Annual Informational Filings. Dominion filed a Motion for Entry of a Protective Order and Additional Protective Treatment, as well as a proposed Protective Order with its Petition.

Dominion maintains that the US-3 Solar Projects are needed, economic, and will provide ongoing capacity, energy, and environmental benefits for its customers and the Commonwealth of Virginia. The Company states that the newly enacted Grid Transformation and Security Act, among other things, promotes
the construction of new utility-owned and -operated solar or wind generation facilities and amends Subsection A 6 to provide that 5,000 MW of solar is in the public interest. According to Dominion, beginning construction before December 31, 2019, will allow the Company to maximize the federal investment tax credits available for solar facilities, which will result in an approximately $56 million reduction to overall customer costs.

Dominion indicates that it is proposing the US-3 Solar Projects in connection with its experimental, voluntary companion tariff, designated Schedule RF, which the Commission recently approved in Case No. PUR-2017-00137. The Company states that Scout Development LLC, a subsidiary of Facebook, Inc. ("Facebook") has committed to purchasing the environmental attributes, including renewable energy credits ("RECs"), associated with the proposed Projects at a fixed price under Schedule RF. Dominion maintains that it intends to sell the RECs produced by the US-3 Solar Projects to Facebook, and to credit the associated revenue to all jurisdictional customers through Rider US-3.

Dominion represents that in conjunction with its efforts to expand its portfolio of renewable and carbon free resources, the Company issued a request for proposals ("2017 RFP") designed to identify potential acquisition projects to review and potential power purchase agreements to purchase, and provide a third-party market alternatives test. The Company asserts that its 2017 RFP meets the Subsection A 6 requirement to consider and weigh alternative options, including third party market alternatives, in selecting proposed generating facilities.

As proposed, the Projects would include ground-mounted, single-axis tracking solar panel arrays with an expected operating life of 35 years. If approved, Dominion expects CTW Solar to be in service by December 2019, and SG1 Solar to be in service by October 2020. The Company states that the Projects will provide direct and indirect economic benefits to the Commonwealth of Virginia of approximately $115.9 million, which will support 721 jobs on a cumulative basis from 2018 to 2021.

The Company proposes an initial rate year for Rider US-3 of March 1, 2019, to February 29, 2020 ("Rate Year"), and represents that the three key components of the revenue requirement for the US-3 Solar Projects are the Projected Cost Recovery Factor, the allowance for funds used during construction ("AFUDC") Cost Recovery Factor, and the Actual Cost True-Up Factor. Dominion states that the Projected Cost Recovery Factor
consists of the projected financing costs on invested capital for the Rate Year, plus income taxes on the equity component of the return and projected operating costs of the plant(s) during the post-commercial operations date portion of the Rate Year, as applicable. The Company indicates that the AFUDC Cost Recovery Factor consists of the recovery of AFUDC projected to be accrued on the Company's books for the US-3 Solar Projects. Dominion states that it did not include a true-up amount in this proceeding. However, if initiated in 2020 as expected, Dominion represents that the Actual Cost True-Up Factor will either credit to, or recover from, jurisdictional customers the difference between actual revenues recovered through Rider US-3 for calendar year 2019 compared to actual costs. The Company indicates that the total revenue requirement requested for the Rate Year for Rider US-3 is $10,365,000.

If the proposed Rider US-3 is approved, the impact on customer bills would depend on the customer's rate schedule and usage. The Company asserts that implementation of the proposed Rider US-3 on March 1, 2019, will increase the monthly bill of a residential customer using 1,000 kilowatt hours per month by approximately $0.21.

Interested persons are encouraged to review the Petition and supporting documents for the details of these and other proposals.

TAKE NOTICE that the Commission may apportion revenues among customer classes and/or design rates in a manner differing from that shown in the Petition and supporting documents and thus may adopt rates that differ from those appearing in the Company's Petition and supporting documents.

The Commission entered an Order for Notice and Hearing that, among other things, scheduled a public hearing on December 18, 2018, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony from members of the public and evidence related to the CPCN portion of Dominion's Petition from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing on the CPCN portion of Dominion's Petition should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.
The Commission also scheduled a public hearing on March 6, 2019, at 10 a.m., in the Commission's second floor courtroom located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, to receive testimony from members of the public and evidence related to the RAC portion of Dominion's Petition from the Company, any respondents, and the Commission's Staff. Any person desiring to testify as a public witness at this hearing on the RAC portion of Dominion's Petition should appear fifteen (15) minutes prior to the starting time of the hearing and contact the Commission's Bailiff.

The public version of the Company's Petition, as well as the Commission's Order for Notice and Hearing, are available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Copies also may be obtained by submitting a written request to counsel for the Company, Lisa S. Booth, Esquire, Dominion Energy Services, Inc., 120 Tredegar Street, Richmond, Virginia 23219. If acceptable to the requesting party, the Company may provide the documents by electronic means.

Copies of the public version of the Petition and other documents filed in this case also are available for interested persons to review in the Commission's Document Control Center, located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia 23219, between the hours of 8:15 a.m. and 5 p.m., Monday through Friday, excluding holidays. Interested persons also may download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.
