NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates - Phase II

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates - Phase III

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates - Phase II

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2016

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates - Phase I

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Address: 6200 Bridge Point Parkway, Suite 400, Austin, TX 78730

Actuarial Memorandum
March 4, 2014

Product	Number
Comprehensive	ILTC-5000, et al.
Nursing Home Only	INH-5000, et al.

These policy forms were issued in Virginia by New York Life Insurance Company (New York Life) beginning in December 2002 and are still being marketed in Virginia with revised new business rates that were recently filed, approved, and implemented.

1. Purpose of Filing

This actuarial memorandum has been prepared for the purpose of demonstrating that the anticipated lifetime loss ratio, with the requested rate increase on the original rates filed for the above-listed forms, meets the minimum requirements of this jurisdiction and demonstrating compliance with its rate stability regulation. It may not be suitable for other purposes. Only two in-force policies were issued in Virginia prior to October 1, 2003, the effective date of rate stability in Virginia. Although policies were issued prior to October 1, 2003 nationwide, experience for all issue dates has been combined in this filing.

2. Description of Benefits

These are federally tax-qualified, individually underwritten policy forms providing benefits for confinement in a nursing home or an assisted living facility up to a daily maximum benefit amount. A daily maximum benefit, benefit period, and elimination period were selected at issue.

Under form series ILTC-5000 benefits were also available for home and community based care expenses up to a percentage of the nursing home daily benefit. Benefits for informal care were available if the insured is following a plan of care developed by a care advisor selected by the company. Under form series INH-5000 no home health care benefits could be selected.

At issue the insured may have had the option to choose between multiple inflation options: a simple inflation option, a compound inflation option, or CPI-U offers. The simple inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a fixed percentage (ranging from 1% to 6%) of the original amounts annually for the life of the policy. The compound inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a percentage of the current amount annually for the life of the policy. The percentage increase may be a fixed percentage (3%, 4%, or 5%) or a percentage relative to the change in the consumer price index. The CPI-U offers provide for the option to purchase annual increases in daily and policy maximums on each policy anniversary date by a percentage relative to the change in the consumer price index. CPI-U offers are based on the original issue age rates.

Ancillary benefits for bed hold, informal caregiver training, respite care, hospice care, waiver of premium, and alternate plan of care are also provided.

At issue, the insured may have had the option of selecting a nonforfeiture benefit rider, shared care rider, couples rider, and a return of premium upon death benefit rider. The shared care rider provides for an additional pool of money which can be accessed by either spouse if both keep identical coverage in effect and benefits are exhausted under the base policy. The couples rider provides for a common elimination period, dual waiver of premium, and a spouse paid up benefit when two spouses keep identical benefits in force until the time of benefit eligibility under the rider, or in the case of the spouse paid up benefit, until one spouse dies (but for at least ten years). The spouse paid up benefit is only in effect if there are no claims under either policy for the first ten contract years.

If no claims are paid and the policy remains in force, the contract becomes paid up at the later of the first policy anniversary after age 95 or the 20th policy anniversary. All premiums paid for the coverage are returned upon the death of the insured if the contract remains in force until the later of the first policy anniversary after age 100 or the 25th policy anniversary and no claims were payable during the period. The return of premium upon death benefit rider provides a return of premium less claims paid in the event of the insured's death.

3. Renewability

The above-listed policy forms are guaranteed renewable for life.

4. Applicability

This filing is applicable to original rates on in-force policies only. The above-listed policy forms are currently being sold in Virginia with revised new business premium rates. The revised new business rates implemented in 2012 are not impacted by this filing. The premium change will apply to the base forms and all riders associated with the base forms for policyholders with an attained age under 75. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive a rate increase on any portion of premium (including CPI-U offers). The premium rate increase shall also apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date.

5. Actuarial Assumptions

a. Morbidity. Expected claim costs were developed from the *Milliman Long Term Care Cost Guidelines (LTCCGs)*, adjusted for New York Life's current experience relative to the *LTCCGs*. All values were adjusted to reflect the effects of elimination periods, policy maximums, salvage, and benefit eligibility standards.

b. Voluntary Termination Rates Vary by duration as developed from historical experience and are shown in the following table:

Voluntary Lapse Rates by Duration and Issue Age					
Policy Duration	**Issue Age**				
	< 35	**35-39**	**40-44**	**45-49**	**50 +**
1	24.75%	12.75%	12.50%	7.75%	6.75%
2	17.50	10.25	9.50	6.25	5.25
3	12.00	8.00	7.00	5.00	4.25
4	8.00	6.25	5.00	4.00	3.25
5	5.50	4.75	3.50	3.00	2.50
6	4.25	3.50	2.50	2.50	1.75
7	3.25	2.75	2.00	1.75	1.25
8	2.75	2.00	1.50	1.50	1.00
9	2.00	1.75	1.25	1.25	1.00
10	1.50	1.50	1.00	1.00	0.75
11	1.00	1.25	0.75	0.75	0.75
12	0.75	1.00	0.75	0.75	0.75
13+	0.65%	0.65%	0.65%	0.65%	0.65%

The lapse rates in the table above are multiplied by 1.25 or 0.90 for single and married policyholders, respectively.

In the year of rate increase notification to policyholders, a reduction in premiums and benefits is assumed due to reduced benefit option election. The impact of reduced benefit option election varies depending on the increase amount and averages 1.5%.

c. Mortality. 1994 Group Annuitant Mortality (94GAM) with selection factors. Improvement is assumed through the valuation date.

d. Expenses. Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate. Normal New York Life renewal commission rates will be applied on any increase in premium.

The above assumptions are based on the experience of New York Life, industry experience, and judgment. The assumptions used in pricing other forms currently available for sale use similar assumptions to those in this filing and were also based on the experience of New York Life, industry experience, and judgment. The experience period is inception through December 31, 2011. These assumptions are based on the

nationwide experience of the particular policy forms in this filing and similar nationwide forms and are deemed reasonable for the particular policy forms in this filing. The assumptions described above reflect an estimate of the most likely outcome and do not include a margin for moderately adverse conditions.

In establishing the assumptions described in this section, the policy design, underwriting, and claims adjudication practices for the above-referenced policies were taken into consideration.

Exhibit I provides justification for the voluntary lapse, mortality, and morbidity assumptions used in this filing.

6. Marketing Method

The above-listed policy forms were marketed by New York Life career agents and independent brokers.

7. Underwriting Description

These policies were individually underwritten with selective use of underwriting tools, which may have included face-to-face assessments and reviews of medical records. Four underwriting classes were utilized depending on the applicant's medical history.

8. Premiums

Premiums are unisex and payable for life, except if the policy becomes paid up as described in Section 2 above. The premiums may vary according to one or more of the following policy and policyholder attributes: issue age, underwriting classification, benefit level, inflation option, premium mode, marital status, elimination period, benefit period, and optional coverages chosen.

A multi-life discount is also applied where policies were marketed on other than a one to one basis.

9. Issue Age Range

The issue ages are from 18 to 85.

10. Area Factors

Area factors were not used in pricing for the above-listed policy forms.

11. Premium Modalization

The following modal factors are applied to the annual premium (AP):

Premium Mode	Modal Factors
Annual	1.00 * AP
Semi-Annual	0.51 * AP
Quarterly	0.26 * AP
Monthly	0.09 * AP

12. Reserves

Active life reserves have not been used in this rate increase analysis, except in the loss ratio calculations in Exhibits VIII, IX, and X. Claim reserves as of December 31, 2011 have been discounted to the date of incurral for each respective claim and included in the historical incurred claims. Incurred but not reported reserve balances as of December 31, 2011 have been allocated to a calendar year of incurral and included in historic incurred claims.

13. Trend Assumptions

An explicit medical cost trend is not included in the projections.

14. Past and Future Experience

Nationwide experience across the above-listed forms and the corresponding nationwide forms is shown in Exhibit II and includes earned premiums, paid claims, incurred claims, and loss ratios. Incurred claims are shown by incurral year, whereas paid claims are shown by the year in which the payments were made. The incurred loss ratio is equal to the incurred claims divided by earned premium.

Virginia-specific experience for these policy forms is shown in Exhibit III. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

As the experience period is through December 31, 2011, experience for policies issued under the recently filed, approved, and implemented new business rates is not included in Exhibits II and III.

Actuarial Memorandum
March 4, 2014

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_k \sum_t {}_jPmt_t^k * v^{t-k} + \sum_k ({}_jCR_{ValDate}^k + {}_jIBNR_{ValDate}^k) * v^{ValDate-k}}{EP_j}$$

LR_j = Incurred loss ratio for year *j*

${}_jPmt_t^k$ = claim payments at time *t* on claims incurred at time *k* in year *j*

${}_jCR_{ValDate}^k$ = open claim reserve held on December 31, 2011 for claims incurred at time *k* in year *j*

${}_jIBNR_{ValDate}^k$ = incurred but not reported reserve as of December 31, 2011 attributable to claims assumed incurred at time *k* in year *j*

EP_j = earned premium in year *j*

ValDate = December 31, 2011

j = year of claim incurral

k = date of claim incurral

t = actual date of claim payment

v = 1 / 1.0625 = 0.941176

Exhibits II and III also show future anticipated experience for the remaining lifetime of the business, based on in-force experience as of December 31, 2011, using the assumptions in this filing.

Exhibits II and III provide historical and projected values for premium, claims and policy count. Accumulated past, discounted future, and lifetime values both without and with the proposed rate increase are shown. Historical and future values are accumulated and discounted at 6.25%, an interest rate consistent with that assumed at pricing in the determination of premiums, as required by Virginia regulation.

Exhibits IV and V provide a comparison of actual to expected nationwide and Virginia-specific historical and projected values for earned premiums, incurred claims, and loss ratios on a calendar year basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The actual and projected experience in Exhibits IV and V reflect actual historical experience through 2011 and projected experience using the current assumptions described in section 5 of this memorandum. The expected pricing experience in Exhibits IV and V reflect the actual mix of business sold and pricing assumptions from inception.

Exhibits VI and VII provide nationwide and Virginia-specific experience, respectively, with past experience restated to the proposed premium rate basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

The interest rate used for discounting and accumulating actual/projected and expected pricing values in Exhibits IV through VII is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit VIII shows nationwide past experience including earned premiums, incurred claims, increase in active life reserves, and incurred loss ratios by calendar year. Exhibit IX provides similar information on a Virginia-specific basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The incurred loss ratio is defined as the sum of incurred claims and increase in active life reserves divided by earned premium. The values in these exhibits are shown without interest accumulation.

15. History of Previous Rate Revisions

There have been no previous rate revisions on the originally approved rates for these policy forms. On March 22, 2012 under SERFF tracking number NWLT-127404692 New York Life obtained approval of revised new business rates on these policy forms. The revised new business rates implemented in 2012 are not impacted by this rate increase request.

16. Analysis Performed to Consider a Rate Increase

The initial originally approved premium schedule was based on pricing assumptions believed to be appropriate, given industry experience available when the initial originally approved rate schedule was developed. The original pricing assumptions for claim costs, voluntary termination rates, and mortality were as follows:

a. Original Pricing Claim Costs. For nursing home and assisted living facilities, morbidity was based on data from the 1985 national nursing home survey, with adjustments to reflect anticipated insured morbidity in light of emerging company experience. Home and community based care claim costs were estimated at varying percentages of the nursing home assumed claim costs, ranging from 135% at attained age 50 grading down to 60% at attained ages 75 and over. Selection factors were applied to the ultimate claim costs.

   The lifetime benefit period option incorporated an additional load of approximately 22% and the 20-day elimination option had an additional load of 20% to account for additional anti-selection expected from purchasers of these plans.

b. Original Pricing Expected Voluntary Termination Rates. Vary by duration as shown in the following table.

Duration	Voluntary Lapse Rate
1	6.0%
2	4.0%
3	3.0%
4+	2.0%

c. Original Pricing Expected Mortality. Blended 1983 Individual Annuity Mortality Table with selection factors.

At the time the original rate schedule was priced, the management of New York Life determined that a rate schedule increase would be considered if the projected lifetime loss ratio exceeded a threshold equal to the pricing target lifetime loss ratio multiplied by 1.05. This equates to a threshold of 64.8% (= 61.7% reproduced pricing lifetime loss ratio * 1.05).

As part of the in-force management of the business, New York Life monitors the performance of the business by completing periodic analysis of morbidity and persistency. An analysis of the projected lifetime loss ratio based on current assumptions compared to that assumed at the time of original pricing revealed that experience has deteriorated significantly.

The assumptions used in this filing (described in Section 5) are based on actual in-force experience of New York Life, industry experience, and judgment. Actual persistency has been higher than that assumed in original pricing.

17. Requested Rate Increase and Demonstration of Satisfaction of Rating Requirements

New York Life is requesting the approval of an average premium rate increase of 22.3% on the original rates filed with the above-listed policy forms. The increase is needed due to higher than expected policy persistency, including both lower than expected mortality and lower than expected voluntary lapses. The company is requesting a 40% rate increase for policyholders with an issue age under 50, a 25.1% rate increase for policyholders with an issue age 50 and over, and a 0% rate increase for policyholders with an attained age of 75 or above. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive an increase on any portion of premium (including CPI-U offers). The premium rate increase will apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date. The requested increase will be reduced, as needed, so that the premium rate schedule will not exceed the premium rate schedule for a policy at the same issue age providing similar benefits that is currently marketed in Virginia by New York Life.

The rate increase will be phased in over three years. For policyholders with an issue age under 50 the first rate increase will be15%, the second rate increase will be 15% and

the third rate increase will be 10%, all on a simple basis. For policyholders with an issue age 50 and over, the first rate increase will be10%, the second rate increase will be 10% and the third rate increase will be 5.1%, all on a simple basis.

Although our analysis indicates that a rate increase is necessary at all ages, we have decided to forgo the increase for any of our insureds who have attained age 75 and above at the time of the increase. The company will be absorbing the cost of exempting those policyholders who have reached attained age 75 and the increases on those below age 75 have not been increased to subsidize policyholders with attained ages 75 and higher. We believe that this approach makes for good public policy and is consistent with our corporate values.

We recognize that this approach, which is in the best interests of our policyholders, deviates from Actuarial Standards of Practice #12, section 3.2.1.

Projected experience assuming the requested rate increase is implemented is shown in Exhibits II and III.

Exhibit X provides the Nationwide and Virginia-specific anticipated loss ratios where the numerator is equal to anticipated incurred claims less policy reserves and the denominator is equal to anticipated earned premium. The interest rate used for discounting values in Exhibit X is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit XI provides a demonstration that the requested rate increase meets the 58%/85% test required by rate stability regulation. This exhibit shows that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times 58%,
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times 58%, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

The historical and future projected incurred claims were increased by 5% from the best-estimate projections in Exhibit II to reflect assumptions that include moderately adverse conditions (equates to a 5% deterioration in the lifetime loss ratio as described earlier in this memorandum). Present and accumulated values in Exhibit XI are determined at the maximum valuation interest rate for contract reserves over the issue period, which varies by issue year from 4.0% to 4.5%. An interest rate of 4.0% was used to discount claim payments and reserves in calculation of the historical incurred claims. The values shown in Exhibit XI do not tie to those in Exhibit II because of differences in the interest rates used and because the incurred claims in Exhibit XI are increased by 5% to reflect moderately adverse experience.

Exhibit XII provides the status of the current nationwide rate increase on the above-referenced policy forms by jurisdiction.

Corresponding rate tables, for policyholders with attained ages under age 75, reflecting the rate increase and new business caps are enclosed with this memorandum in Exhibit XIII. The originally filed rate tables that will continue to apply for policyholders with attained age 75 and over are enclosed with this memorandum in Exhibit XIV.

Please note that the actual rates implemented may vary from those in Exhibits XIII and XIV slightly due to implementation rounding algorithms.

18. Virginia Average Annual Premium
(Annualized Premium Based on 2011 In-force)

Before Increase $1,739
After Increase* $2,127
**After increase average annual premium assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age and includes estimated new business rate caps*

19. Proposed Effective Date

The rate increase will apply to policies on their policy anniversary date on or after at least a 60-day policyholder notification period following approval.

20. Number of Insureds and Annualized Premium

The number of insureds and annualized premium in force as of December 31, 2011 in this jurisdiction and nationwide are:

	Attained Age* <75		Attained Age* 75+		Total	
Jurisdiction	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**
Virginia	3,239	$5,343,066	142	$537,809	3,381	$5,880,875
Subject to Loss Ratio Regulation	1	$1,358	1	$1,561	2	$2,919
Subject to Rate Stability Regulation	3,238	$5,341,708	141	$536,248	3,379	$5,877,956
Nationwide	72,008	$119,859,810	4,600	$15,406,169	76,608	$135,265,978

**Assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age*

Actuarial Memorandum
March 4, 2014

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for preparing health rate filings and to render the actuarial opinion contained herein.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP #8, with the exception that this filing deviates from ASOP #12, section 3.2.1 as noted above.

I have relied on projection information provided by Amy Pahl, FSA, MAAA of Milliman Inc., who used data and assumptions from New York Life in developing those projections.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of Virginia and the rules of the Bureau. In my opinion, the rates are not unfairly discriminatory and the gross premiums are not excessive and bear reasonable relationship to the benefits, based on the lifetime loss ratio exceeding the minimum loss ratio requirement.

I also hereby certify that:

1) to the best of my knowledge and judgment, this rate submission is in compliance with the provisions in 14 VAC5-200-153B2 and
2) if the rate increase is granted and the assumptions, which reflect moderately adverse conditions, are realized, then no further premium rate schedule increases are anticipated.
3) renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits.

Sheryl Babcock FSA, MAAA
Actuary, New York Life Insurance Company

Date: March 4, 2014

Brief Narrative-

The increase is needed due to higher than expected policy persistency, including both lower than expected mortality and lower than expected voluntary lapses. . This leads to longer life expectancies and an increased need for long-term care benefits.

If you have questions, call us at <1-800-890-7798>.

Dear valued policyholder:

Thank you for selecting New York Life Insurance Company (New York Life) to be the provider of your long-term care insurance coverage. New York Life is in the process of making changes to its premium rates, which will apply to your policy. Over the next three years, your long-term care insurance premium is scheduled to increase by <TOTAL Percentage Increase> to a total annual premium of <TOTAL annual premium>. The specifics of how this increase will be implemented are outlined in this letter. Please note the premium amounts are as of the date of this letter and may vary if you make changes to your coverage, or have inflation adjustments, if applicable. In advance of this increase, I want to share with you more about this change and our overall commitment to serving your long-term care insurance needs.

We began offering this valuable coverage in 1988 and since entering this market, we had never raised rates on existing policies. We are anticipating higher claims than originally expected due to longer life expectancies and an increased need for long-term care benefits. To meet the higher than expected costs of these claims, we applied for a rate change in Virginia, the issuing state for your policy. The Virginia Bureau of Insurance reviewed the filing for compliance with applicable Virginia laws and regulations governing Long-Term Care Insurance, and because it was found to be compliant with these laws, it was approved. Please note that no insured is being singled out for this rate increase based on their advancing age or current health condition.

Your New York Life long-term care insurance continues to provide important financial protection for you and your loved ones from the potential risks associated with long-term care costs. On your next policy anniversary, <anniversary date>, your long-term care insurance premium is scheduled to increase by <FIRST phase percentage increase> to $<premium per mode> <mode>. Next year, on <second anniversary date>, it will increase by <SECOND phase percentage increase>, to $<premium per mode> <mode>, and on <third anniversary date>, it will increase by <THIRD phase percentage increase>, bringing your total premium to $<premium per mode> <mode>. The following is a summary of your current benefit levels and the premium due on your next anniversary for those benefits. In light of the premium increase, we are offering you two options.

1. **Maintain your current benefit levels at the increased premium rate:**
   - Annual Premium on your next anniversary $<annual premium>
   - Current Policy Lifetime Maximum $<policy max>

- Current Nursing Home Daily Maximum Benefit $<CNHDMB>
- Current Benefit Period <# of years or unlimited>

2. **Reduce coverage to keep your premium close to its current level. For example, you can do this by:**
   - Reducing your daily maximum benefit,
   - Reducing the benefit period, or
   - Cancelling any riders you may have purchased.

If you have an automatic payment method in place, through a checking account or payroll deduction, for example, you may need to make changes to ensure the correct premium amount is funded. Information on how to adjust payment amounts and other information you may find helpful is included with this letter. If you have additional questions before your new premium is implemented, call [your Agent, <agent name> at <agent phone>, or] our Policy Owner Services team at <1-800-890-7798> Monday to Friday, 8am – 5pm CST.

Variable Paragraph: EXISTING CNF
[Your policy has a Contingent Nonforfeiture benefit. While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. If your premiums are substantially increased in the future and you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specific criteria to trigger the Contingent Nonforfeiture benefit are described in your policy.]

Variable Paragraph: Existing Optional NF
[While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. Your policy has an Optional Nonforfeiture benefit rider. If you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specifics of your Optional Nonforfeiture benefit rider are described in your policy.]

Variable Paragraph: Adding CNF
[Also note that we are adding a Contingent Nonforfeiture benefit to your policy at no additional cost. While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. With this benefit, if your premiums are substantially increased in the future and you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specific criteria to trigger the Contingent Nonforfeiture benefit are described in the rider included within this packet. Please add the enclosed Contingent Nonforfeiture benefit rider to your files.]

Variable Paragraph: Adding Dividend
[Lastly, we are adding a Participating Policy Dividend Endorsement to your policy at no additional cost. As a mutual company, we are able to pass the benefit of positive results on to our policyholders. Adding this Dividend Endorsement feature to your New York Life policy means that, if we pay a dividend on our long-term care insurance policies in the future (dividends are not guaranteed), you would be eligible to receive a dividend in the form of a premium discount. Please add the enclosed Dividend Endorsement document to your files.]

Your decision to entrust New York Life with your long-term care insurance coverage is not one we take lightly. We appreciate the opportunity to serve your long-term care insurance needs and remain committed to helping you achieve long-term financial security for many years to come.

On behalf of New York Life,

Shawna Meyer
Corporate Vice President

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2014

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2015

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2016

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2014

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
New Increased Rates effective 1/1/2015

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES

ILTC-5000 and INH-5000 and Riders

Virginia

New Increased Rates effective 1/1/2016

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Actuarial Memorandum
January 23, 2014

Product	Number
Comprehensive	ILTC-5000, et al.
Nursing Home Only	INH-5000, et al.

These policy forms were issued in Virginia by New York Life Insurance Company (New York Life) beginning in December 2002 and are still being marketed in Virginia with revised new business rates that were recently filed, approved, and implemented.

1. Purpose of Filing

This actuarial memorandum has been prepared for the purpose of demonstrating that the anticipated lifetime loss ratio, with the requested rate increase on the original rates filed for the above-listed forms, meets the minimum requirements of this jurisdiction and demonstrating compliance with its rate stability regulation. It may not be suitable for other purposes. Only two in-force policies were issued in Virginia prior to October 1, 2003, the effective date of rate stability in Virginia. Although policies were issued prior to October 1, 2003 nationwide, experience for all issue dates has been combined in this filing.

2. Description of Benefits

These are federally tax-qualified, individually underwritten policy forms providing benefits for confinement in a nursing home or an assisted living facility up to a daily maximum benefit amount. A daily maximum benefit, benefit period, and elimination period were selected at issue.

Under form series ILTC-5000 benefits were also available for home and community based care expenses up to a percentage of the nursing home daily benefit. Benefits for informal care were available if the insured is following a plan of care developed by a care advisor selected by the company. Under form series INH-5000 no home health care benefits could be selected.

At issue the insured may have had the option to choose between multiple inflation options: a simple inflation option, a compound inflation option, or CPI-U offers. The simple inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a fixed percentage (ranging from 1% to 6%) of the original amounts annually for the life of the policy. The compound inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a percentage of the current amount annually for the life of the policy. The percentage increase may be a fixed percentage (3%, 4%, or 5%) or a percentage relative to the change in the consumer price index. The CPI-U offers provide for the option to purchase annual increases in daily and policy maximums on each policy anniversary date by a percentage relative to the change in the consumer price index. CPI-U offers are based on the original issue age rates.

Ancillary benefits for bed hold, informal caregiver training, respite care, hospice care, waiver of premium, and alternate plan of care are also provided.

At issue, the insured may have had the option of selecting a nonforfeiture benefit rider, shared care rider, couples rider, and a return of premium upon death benefit rider. The shared care rider provides for an additional pool of money which can be accessed by either spouse if both keep identical coverage in effect and benefits are exhausted under the base policy. The couples rider provides for a common elimination period, dual waiver of premium, and a spouse paid up benefit when two spouses keep identical benefits in force until the time of benefit eligibility under the rider, or in the case of the spouse paid up benefit, until one spouse dies (but for at least ten years). The spouse paid up benefit is only in effect if there are no claims under either policy for the first ten contract years.

If no claims are paid and the policy remains in force, the contract becomes paid up at the later of the first policy anniversary after age 95 or the 20th policy anniversary. All premiums paid for the coverage are returned upon the death of the insured if the contract remains in force until the later of the first policy anniversary after age 100 or the 25th policy anniversary and no claims were payable during the period. The return of premium upon death benefit rider provides a return of premium less claims paid in the event of the insured's death.

3. Renewability

The above-listed policy forms are guaranteed renewable for life.

4. Applicability

This filing is applicable to original rates on in-force policies only. The above-listed policy forms are currently being sold in Virginia with revised new business premium rates. The revised new business rates implemented in 2012 are not impacted by this filing. The premium change will apply to the base forms and all riders associated with the base forms for policyholders with an attained age under 75. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive a rate increase on any portion of premium (including CPI-U offers). The premium rate increase shall also apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date.

5. Actuarial Assumptions

a. Morbidity. Expected claim costs were developed from the *Milliman Long Term Care Cost Guidelines (LTCCGs)*, adjusted for New York Life's current experience relative to the *LTCCGs*. All values were adjusted to reflect the effects of elimination periods, policy maximums, salvage, and benefit eligibility standards.

b. Voluntary Termination Rates Vary by duration as developed from historical experience and are shown in the following table:

Voluntary Lapse Rates by Duration and Issue Age					
Policy Duration	**Issue Age**				
	< 35	**35-39**	**40-44**	**45-49**	**50 +**
1	24.75%	12.75%	12.50%	7.75%	6.75%
2	17.50	10.25	9.50	6.25	5.25
3	12.00	8.00	7.00	5.00	4.25
4	8.00	6.25	5.00	4.00	3.25
5	5.50	4.75	3.50	3.00	2.50
6	4.25	3.50	2.50	2.50	1.75
7	3.25	2.75	2.00	1.75	1.25
8	2.75	2.00	1.50	1.50	1.00
9	2.00	1.75	1.25	1.25	1.00
10	1.50	1.50	1.00	1.00	0.75
11	1.00	1.25	0.75	0.75	0.75
12	0.75	1.00	0.75	0.75	0.75
13+	0.65%	0.65%	0.65%	0.65%	0.65%

The lapse rates in the table above are multiplied by 1.25 or 0.90 for single and married policyholders, respectively.

In the year of rate increase notification to policyholders, a reduction in premiums and benefits is assumed due to reduced benefit option election. The impact of reduced benefit option election varies depending on the increase amount and averages 1.5%.

c. Mortality. 1994 Group Annuitant Mortality (94GAM) with selection factors. Improvement is assumed through the valuation date.

d. Expenses. Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate. Normal New York Life renewal commission rates will be applied on any increase in premium.

The above assumptions are based on the experience of New York Life, industry experience, and judgment. The assumptions used in pricing other forms currently available for sale use similar assumptions to those in this filing and were also based on the experience of New York Life, industry experience, and judgment. The experience period is inception through December 31, 2011. These assumptions are based on the

nationwide experience of the particular policy forms in this filing and similar nationwide forms and are deemed reasonable for the particular policy forms in this filing. The assumptions described above reflect an estimate of the most likely outcome and do not include a margin for moderately adverse conditions.

In establishing the assumptions described in this section, the policy design, underwriting, and claims adjudication practices for the above-referenced policies were taken into consideration.

Exhibit I provides justification for the voluntary lapse, mortality, and morbidity assumptions used in this filing.

6. Marketing Method

The above-listed policy forms were marketed by New York Life career agents and independent brokers.

7. Underwriting Description

These policies were individually underwritten with selective use of underwriting tools, which may have included face-to-face assessments and reviews of medical records. Four underwriting classes were utilized depending on the applicant's medical history.

8. Premiums

Premiums are unisex and payable for life, except if the policy becomes paid up as described in Section 2 above. The premiums may vary according to one or more of the following policy and policyholder attributes: issue age, underwriting classification, benefit level, inflation option, premium mode, marital status, elimination period, benefit period, and optional coverages chosen.

A multi-life discount is also applied where policies were marketed on other than a one to one basis.

9. Issue Age Range

The issue ages are from 18 to 85.

10. Area Factors

Area factors were not used in pricing for the above-listed policy forms.

11. Premium Modalization

The following modal factors are applied to the annual premium (AP):

Premium Mode	Modal Factors
Annual	1.00 * AP
Semi-Annual	0.51 * AP
Quarterly	0.26 * AP
Monthly	0.09 * AP

12. Reserves

Active life reserves have not been used in this rate increase analysis, except in the loss ratio calculations in Exhibits VIII, IX, and X. Claim reserves as of December 31, 2011 have been discounted to the date of incurral for each respective claim and included in the historical incurred claims. Incurred but not reported reserve balances as of December 31, 2011 have been allocated to a calendar year of incurral and included in historic incurred claims.

13. Trend Assumptions

An explicit medical cost trend is not included in the projections.

14. Past and Future Experience

Nationwide experience across the above-listed forms and the corresponding nationwide forms is shown in Exhibit II and includes earned premiums, paid claims, incurred claims, and loss ratios. Incurred claims are shown by incurral year, whereas paid claims are shown by the year in which the payments were made. The incurred loss ratio is equal to the incurred claims divided by earned premium.

Virginia-specific experience for these policy forms is shown in Exhibit III. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

As the experience period is through December 31, 2011, experience for policies issued under the recently filed, approved, and implemented new business rates is not included in Exhibits II and III.

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_k \sum_t {}_jPmt_t^k * v^{t-k} + \sum_k ({}_jCR_{ValDate}^k + {}_jIBNR_{ValDate}^k) * v^{ValDate-k}}{EP_j}$$

LR_j = Incurred loss ratio for year *j*

${}_jPmt_t^k$ = claim payments at time *t* on claims incurred at time *k* in year *j*

${}_jCR_{ValDate}^k$ = open claim reserve held on December 31, 2011 for claims incurred at time *k* in year *j*

${}_jIBNR_{ValDate}^k$ = incurred but not reported reserve as of December 31, 2011 attributable to claims assumed incurred at time *k* in year *j*

EP_j = earned premium in year *j*

ValDate = December 31, 2011

j = year of claim incurral

k = date of claim incurral

t = actual date of claim payment

v = 1 / 1.0625 = 0.941176

Exhibits II and III also show future anticipated experience for the remaining lifetime of the business, based on in-force experience as of December 31, 2011, using the assumptions in this filing.

Exhibits II and III provide historical and projected values for premium, claims and policy count. Accumulated past, discounted future, and lifetime values both without and with the proposed rate increase are shown. Historical and future values are accumulated and discounted at 6.25%, an interest rate consistent with that assumed at pricing in the determination of premiums, as required by Virginia regulation.

Exhibits IV and V provide a comparison of actual to expected nationwide and Virginia-specific historical and projected values for earned premiums, incurred claims, and loss ratios on a calendar year basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The actual and projected experience in Exhibits IV and V reflect actual historical experience through 2011 and projected experience using the current assumptions described in section 5 of this memorandum. The expected pricing experience in Exhibits IV and V reflect the actual mix of business sold and pricing assumptions from inception.

Exhibits VI and VII provide nationwide and Virginia-specific experience, respectively, with past experience restated to the proposed premium rate basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

The interest rate used for discounting and accumulating actual/projected and expected pricing values in Exhibits IV through VII is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit VIII shows nationwide past experience including earned premiums, incurred claims, increase in active life reserves, and incurred loss ratios by calendar year. Exhibit IX provides similar information on a Virginia-specific basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The incurred loss ratio is defined as the sum of incurred claims and increase in active life reserves divided by earned premium. The values in these exhibits are shown without interest accumulation.

15. History of Previous Rate Revisions

There have been no previous rate revisions on the originally approved rates for these policy forms. On March 22, 2012 under SERFF tracking number NWLT-127404692 New York Life obtained approval of revised new business rates on these policy forms. The revised new business rates implemented in 2012 are not impacted by this rate increase request.

16. Analysis Performed to Consider a Rate Increase

The initial originally approved premium schedule was based on pricing assumptions believed to be appropriate, given industry experience available when the initial originally approved rate schedule was developed. The original pricing assumptions for claim costs, voluntary termination rates, and mortality were as follows:

a. Original Pricing Claim Costs. For nursing home and assisted living facilities, morbidity was based on data from the 1985 national nursing home survey, with adjustments to reflect anticipated insured morbidity in light of emerging company experience. Home and community based care claim costs were estimated at varying percentages of the nursing home assumed claim costs, ranging from 135% at attained age 50 grading down to 60% at attained ages 75 and over. Selection factors were applied to the ultimate claim costs.

   The lifetime benefit period option incorporated an additional load of approximately 22% and the 20-day elimination option had an additional load of 20% to account for additional anti-selection expected from purchasers of these plans.

b. Original Pricing Expected Voluntary Termination Rates. Vary by duration as shown in the following table.

Duration	Voluntary Lapse Rate
1	6.0%
2	4.0%
3	3.0%
4+	2.0%

c. Original Pricing Expected Mortality. Blended 1983 Individual Annuity Mortality Table with selection factors.

At the time the original rate schedule was priced, the management of New York Life determined that a rate schedule increase would be considered if the projected lifetime loss ratio exceeded a threshold equal to the pricing target lifetime loss ratio multiplied by 1.05. This equates to a threshold of 64.8% (= 61.7% reproduced pricing lifetime loss ratio * 1.05).

As part of the in-force management of the business, New York Life monitors the performance of the business by completing periodic analysis of morbidity and persistency. An analysis of the projected lifetime loss ratio based on current assumptions compared to that assumed at the time of original pricing revealed that experience has deteriorated significantly.

The assumptions used in this filing (described in Section 5) are based on actual in-force experience of New York Life, industry experience, and judgment. Actual persistency has been higher than that assumed in original pricing.

17. Requested Rate Increase and Demonstration of Satisfaction of Rating Requirements

New York Life is requesting the approval of an average premium rate increase of 22.3% on the original rates filed with the above-listed policy forms. The increase is needed due to higher than expected policy persistency, including both lower than expected mortality and lower than expected voluntary lapses. The company is requesting a 40% rate increase for policyholders with an issue age under 50, a 25.1% rate increase for policyholders with an issue age 50 and over, and a 0% rate increase for policyholders with an attained age of 75 or above. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive an increase on any portion of premium (including CPI-U offers). The premium rate increase will apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date. The requested increase will be reduced, as needed, so that the premium rate schedule will not exceed the premium rate schedule for a policy at the same issue age providing similar benefits that is currently marketed in Virginia by New York Life.

The rate increase will be phased in over three years. For policyholders with an issue age under 50 the first rate increase will be15%, the second rate increase will be 15% and

the third rate increase will be 10%, all on a simple basis. For policyholders with an issue age 50 and over, the first rate increase will be10%, the second rate increase will be 10% and the third rate increase will be 5.1%, all on a simple basis.

Although our analysis indicates that a rate increase is necessary at all ages, we have decided to forgo the increase for any of our insureds who have attained age 75 and above at the time of the increase. The company will be absorbing the cost of exempting those policyholders who have reached attained age 75 and the increases on those below age 75 have not been increased to subsidize policyholders with attained ages 75 and higher. We believe that this approach makes for good public policy and is consistent with our corporate values.

We recognize that this approach, which is in the best interests of our policyholders, deviates from Actuarial Standards of Practice #12, section 3.2.1.

Projected experience assuming the requested rate increase is implemented is shown in Exhibits II and III.

Exhibit X provides the Nationwide and Virginia-specific anticipated loss ratios where the numerator is equal to anticipated incurred claims less policy reserves and the denominator is equal to anticipated earned premium. The interest rate used for discounting values in Exhibit X is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit XI provides a demonstration that the requested rate increase meets the 58%/85% test required by rate stability regulation. This exhibit shows that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times 58%,
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times 58%, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

The historical and future projected incurred claims were increased by 5% from the best-estimate projections in Exhibit II to reflect assumptions that include moderately adverse conditions (equates to a 5% deterioration in the lifetime loss ratio as described earlier in this memorandum). Present and accumulated values in Exhibit XI are determined at the maximum valuation interest rate for contract reserves over the issue period, which varies by issue year from 4.0% to 4.5%. An interest rate of 4.0% was used to discount claim payments and reserves in calculation of the historical incurred claims. The values shown in Exhibit XI do not tie to those in Exhibit II because of differences in the interest rates used and because the incurred claims in Exhibit XI are increased by 5% to reflect moderately adverse experience.

Actuarial Memorandum
January 23, 2014

Exhibit XII provides the status of the current nationwide rate increase on the above-referenced policy forms by jurisdiction.

Corresponding rate tables, for policyholders with attained ages under age 75, reflecting the rate increase and new business caps are enclosed with this memorandum in Exhibit XIII. The originally filed rate tables that will continue to apply for policyholders with attained age 75 and over are enclosed with this memorandum in Exhibit XIV.

Please note that the actual rates implemented may vary from those in Exhibits XIII and XIV slightly due to implementation rounding algorithms.

18. Virginia Average Annual Premium
(Annualized Premium Based on 2011 In-force)

Before Increase $1,739
After Increase* $2,127
**After increase average annual premium assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age and includes estimated new business rate caps*

19. Proposed Effective Date

The rate increase will apply to policies on their policy anniversary date on or after at least a 60-day policyholder notification period following approval.

20. Number of Insureds and Annualized Premium

The number of insureds and annualized premium in force as of December 31, 2011 in this jurisdiction and nationwide are:

	Attained Age* <75		Attained Age* 75+		Total	
Jurisdiction	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**
Virginia	3,239	$5,343,066	142	$537,809	3,381	$5,880,875
Subject to Loss Ratio Regulation	1	$1,358	1	$1,561	2	$2,919
Subject to Rate Stability Regulation	3,238	$5,341,708	141	$536,248	3,379	$5,877,956
Nationwide	72,008	$119,859,810	4,600	$15,406,169	76,608	$135,265,978

**Assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age*

Actuarial Memorandum
January 23, 2014

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for preparing health rate filings and to render the actuarial opinion contained herein.

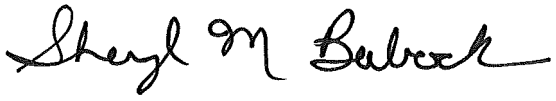
This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP #8, with the exception that this filing deviates from ASOP #12, section 3.2.1 as noted above.

I have relied on projection information provided by Amy Pahl, FSA, MAAA of Milliman Inc., who used data and assumptions from New York Life in developing those projections.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of Virginia and the rules of the Bureau. In my opinion, the rates are not unfairly discriminatory and the gross premiums are not excessive and bear reasonable relationship to the benefits, based on the lifetime loss ratio exceeding the minimum loss ratio requirement.

I also hereby certify that:

1) to the best of my knowledge and judgment, this rate submission is in compliance with the provisions in 14 VAC5-200-153B2 and
2) if the rate increase is granted and the assumptions are realized, then no further premium rate schedule increases are anticipated.
3) renewal premium rate schedules are not greater than new business premium rate schedules except for differences attributable to benefits.



Sheryl Babcock FSA, MAAA

Policy: <policy number>

If you have questions, call us at <1-800-890-7798>.

Dear valued policyholder:

Thank you for selecting New York Life Insurance Company (New York Life) to be the provider of your long-term care insurance coverage. New York Life is in the process of making changes to its premium rates, which will apply to your policy. Over the next <years> years, your long-term care insurance premium is scheduled to increase to <TOTAL annual premium> per year. The specifics of how this increase will be implemented are outlined in this letter. Please note the premium amounts are as of the date of this letter and may vary if you make changes to your coverage, or have inflation adjustments, if applicable. In advance of this increase, I want to share with you more about this change and our overall commitment to serving your long-term care insurance needs.

We began offering this valuable coverage in 1988 and since entering this market, we had never raised rates on existing policies. We are anticipating higher claims than originally expected due to longer life expectancies and an increased need for long-term care benefits. To meet the higher than expected costs of these claims, we applied for a rate change in <State>, the issuing state for your policy. The Virginia Bureau of Insurance reviewed the filing for compliance with applicable Virginia laws and regulations governing Long-Term Care Insurance, and because it was found to be compliant with these laws, it was approved. Please note that no insured is being singled out for this rate increase based on their advancing age or current health condition.

Your New York Life long-term care insurance continues to provide important financial protection for you and your loved ones from the potential risks associated with long-term care costs. On your next policy anniversary, <anniversary date>, your long-term care insurance premium is scheduled to increase to $<premium per mode> <mode>. Next year, on <second anniversary date>, it will increase to $<premium per mode> <mode> [.][,] [and on <third anniversary date>, to $<premium per mode> <mode>.] The following is a summary of your current benefit levels and the premium due on your next anniversary for those benefits. In light of the premium increase, we are offering you two options.

1. **Maintain your current benefit levels at the increased premium rate:**
   - Annual Premium on your next anniversary — $<annual premium> annually
   - Current Policy Lifetime Maximum — $<policy max>
   - Current Nursing Home Daily Maximum Benefit — $<CNHDMB>
   - Current Benefit Period — <# of years or unlimited>

2. **Reduce coverage to keep your premium close to its current level. For example, you can do this by:**
    - Reducing your daily maximum benefit,
    - Reducing the benefit period, or
    - Cancelling any riders you may have purchased.

If you have an automatic payment method in place, through a checking account or payroll deduction, for example, you may need to make changes to ensure the correct premium amount is funded. Information on how to adjust payment amounts and other information you may find helpful is included with this letter. If you have additional questions before your new premium is implemented, call [your Agent, <agent name> at <agent phone>, or] our Policy Owner Services team at <1-800-890-7798> Monday to Friday, 8am – 5pm CST.

Variable Paragraph: EXISTING CNF
[Your policy has a Contingent Nonforfeiture benefit. While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. If your premiums are substantially increased in the future and you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specific criteria to trigger the Contingent Nonforfeiture benefit are described in your policy.]

Variable Paragraph: Existing Optional NF
[While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. Your policy has an Optional Nonforfeiture benefit rider. If you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specifics of your Optional Nonforfeiture benefit rider are described in your policy.]

Variable Paragraph: Adding CNF
[Also note that we are adding a Contingent Nonforfeiture benefit to your policy at no additional cost. While we do not anticipate it, your insurance rates could be increased again if rates are determined to be inadequate to support future claims obligations. With this benefit, if your premiums are substantially increased in the future and you choose to lapse your policy, you are eligible for reimbursement of qualified long-term care costs up to the premium you have paid for this policy. The specific criteria to trigger the Contingent Nonforfeiture benefit are described in the rider included within this packet. Please add the enclosed Contingent Nonforfeiture benefit rider to your files.]

Variable Paragraph: Adding Dividend
[Lastly, we are adding a Participating Policy Dividend Endorsement to your policy at no additional cost. As a mutual company, we are able to pass the benefit of positive results on to our policyholders. Adding this Dividend Endorsement feature to your New York Life policy means that, if we pay a dividend on our long-term care insurance policies in the future (dividends are not guaranteed), you would be eligible to receive a dividend in the form of a premium discount. Please add the enclosed Dividend Endorsement document to your files.]

Your decision to entrust New York Life with your long-term care insurance coverage is not one we take lightly. We appreciate the opportunity to serve your long-term care insurance needs and remain committed to helping you achieve long-term financial security for many years to come.

On behalf of New York Life,

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
New Increased Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Actuarial Memorandum
August 28, 2013

Product	Number
Comprehensive	ILTC-5000, et al.
Nursing Home Only	INH-5000, et al.

These policy forms were issued in Virginia by New York Life Insurance Company (New York Life) beginning in December 2002 and are still being marketed in Virginia with revised new business rates that were recently filed, approved, and implemented.

1. Purpose of Filing

This actuarial memorandum has been prepared for the purpose of demonstrating that the anticipated lifetime loss ratio, with the requested rate increase on the original rates filed for the above-listed forms, meets the minimum requirements of this jurisdiction and demonstrating compliance with its rate stability regulation. It may not be suitable for other purposes. Only two in-force policies were issued in Virginia prior to October 1, 2003, the effective date of rate stability in Virginia. Although policies were issued prior to October 1, 2003 nationwide, experience for all issue dates has been combined in this filing.

2. Description of Benefits

These are federally tax-qualified, individually underwritten policy forms providing benefits for confinement in a nursing home or an assisted living facility up to a daily maximum benefit amount. A daily maximum benefit, benefit period, and elimination period were selected at issue.

Under form series ILTC-5000 benefits were also available for home and community based care expenses up to a percentage of the nursing home daily benefit. Benefits for informal care were available if the insured is following a plan of care developed by a care advisor selected by the company. Under form series INH-5000 no home health care benefits could be selected.

At issue the insured may have had the option to choose between multiple inflation options: a simple inflation option, a compound inflation option, or CPI-U offers. The simple inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a fixed percentage (ranging from 1% to 6%) of the original amounts annually for the life of the policy. The compound inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a percentage of the current amount annually for the life of the policy. The percentage increase may be a fixed percentage (3%, 4%, or 5%) or a percentage relative to the change in the consumer price index. The CPI-U offers provide for the option to purchase annual increases in daily and policy maximums on each policy anniversary date by a percentage relative to the change in the consumer price index. CPI-U offers are based on the original issue age rates.

Ancillary benefits for bed hold, informal caregiver training, respite care, hospice care, waiver of premium, and alternate plan of care are also provided.

At issue, the insured may have had the option of selecting a nonforfeiture benefit rider, shared care rider, couples rider, and a return of premium upon death benefit rider. The shared care rider provides for an additional pool of money which can be accessed by either spouse if both keep identical coverage in effect and benefits are exhausted under the base policy. The couples rider provides for a common elimination period, dual waiver of premium, and a spouse paid up benefit when two spouses keep identical benefits in force until the time of benefit eligibility under the rider, or in the case of the spouse paid up benefit, until one spouse dies (but for at least ten years). The spouse paid up benefit is only in effect if there are no claims under either policy for the first ten contract years.

If no claims are paid and the policy remains in force, the contract becomes paid up at the later of the first policy anniversary after age 95 or the 20th policy anniversary. All premiums paid for the coverage are returned upon the death of the insured if the contract remains in force until the later of the first policy anniversary after age 100 or the 25th policy anniversary and no claims were payable during the period. The return of premium upon death benefit rider provides a return of premium less claims paid in the event of the insured's death.

3. Renewability

The above-listed policy forms are guaranteed renewable for life.

4. Applicability

This filing is applicable to original rates on in-force policies only. The above-listed policy forms are currently being sold in Virginia with revised new business premium rates. The revised new business rates implemented in 2012 are not impacted by this filing. The premium change will apply to the base forms and all riders associated with the base forms for policyholders with an attained age under 75. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive a rate increase on any portion of premium (including CPI-U offers). The premium rate increase shall also apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date.

5. Actuarial Assumptions

a. Morbidity. Expected claim costs were developed from the *Milliman Long Term Care Cost Guidelines (LTCCGs)*, adjusted for New York Life's current experience relative to the *LTCCGs*. All values were adjusted to reflect the effects of elimination periods, policy maximums, salvage, and benefit eligibility standards.

b. Voluntary Termination Rates Vary by duration as developed from historical experience and are shown in the following table:

Voluntary Lapse Rates by Duration and Issue Age					
Policy Duration	**Issue Age**				
	< 35	**35-39**	**40-44**	**45-49**	**50 +**
1	24.75%	12.75%	12.50%	7.75%	6.75%
2	17.50	10.25	9.50	6.25	5.25
3	12.00	8.00	7.00	5.00	4.25
4	8.00	6.25	5.00	4.00	3.25
5	5.50	4.75	3.50	3.00	2.50
6	4.25	3.50	2.50	2.50	1.75
7	3.25	2.75	2.00	1.75	1.25
8	2.75	2.00	1.50	1.50	1.00
9	2.00	1.75	1.25	1.25	1.00
10	1.50	1.50	1.00	1.00	0.75
11	1.00	1.25	0.75	0.75	0.75
12	0.75	1.00	0.75	0.75	0.75
13+	0.65%	0.65%	0.65%	0.65%	0.65%

The lapse rates in the table above are multiplied by 1.25 or 0.90 for single and married policyholders, respectively.

In the year of rate increase notification to policyholders, a reduction in premiums and benefits is assumed due to reduced benefit option election. The impact of reduced benefit option election varies depending on the increase amount and averages 1.5%.

c. Mortality. 1994 Group Annuitant Mortality (94GAM) with selection factors. Improvement is assumed through the valuation date.

d. Expenses. Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate. Normal New York Life renewal commission rates will be applied on any increase in premium.

The above assumptions are based on the experience of New York Life, industry experience, and judgment. The assumptions used in pricing other forms currently available for sale use similar assumptions to those in this filing and were also based on the experience of New York Life, industry experience, and judgment. The experience period is inception through December 31, 2011. These assumptions are based on the

nationwide experience of the particular policy forms in this filing and similar nationwide forms and are deemed reasonable for the particular policy forms in this filing. The assumptions described above reflect an estimate of the most likely outcome and do not include a margin for moderately adverse conditions.

In establishing the assumptions described in this section, the policy design, underwriting, and claims adjudication practices for the above-referenced policies were taken into consideration.

Exhibit I provides justification for the voluntary lapse, mortality, and morbidity assumptions used in this filing.

6. Marketing Method

The above-listed policy forms were marketed by New York Life career agents and independent brokers.

7. Underwriting Description

These policies were individually underwritten with selective use of underwriting tools, which may have included face-to-face assessments and reviews of medical records. Four underwriting classes were utilized depending on the applicant's medical history.

8. Premiums

Premiums are unisex and payable for life, except if the policy becomes paid up as described in Section 2 above. The premiums may vary according to one or more of the following policy and policyholder attributes: issue age, underwriting classification, benefit level, inflation option, premium mode, marital status, elimination period, benefit period, and optional coverages chosen.

A multi-life discount is also applied where policies were marketed on other than a one to one basis.

9. Issue Age Range

The issue ages are from 18 to 85.

10. Area Factors

Area factors were not used in pricing for the above-listed policy forms.

11. Premium Modalization

The following modal factors are applied to the annual premium (AP):

Premium Mode	Modal Factors
Annual	1.00 * AP
Semi-Annual	0.51 * AP
Quarterly	0.26 * AP
Monthly	0.09 * AP

12. Reserves

Active life reserves have not been used in this rate increase analysis, except in the loss ratio calculations in Exhibits VIII, IX, and X. Claim reserves as of December 31, 2011 have been discounted to the date of incurral for each respective claim and included in the historical incurred claims. Incurred but not reported reserve balances as of December 31, 2011 have been allocated to a calendar year of incurral and included in historic incurred claims.

13. Trend Assumptions

An explicit medical cost trend is not included in the projections.

14. Past and Future Experience

Nationwide experience across the above-listed forms and the corresponding nationwide forms is shown in Exhibit II and includes earned premiums, paid claims, incurred claims, and loss ratios. Incurred claims are shown by incurral year, whereas paid claims are shown by the year in which the payments were made. The incurred loss ratio is equal to the incurred claims divided by earned premium.

Virginia-specific experience for these policy forms is shown in Exhibit III. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

As the experience period is through December 31, 2011, experience for policies issued under the recently filed, approved, and implemented new business rates is not included in Exhibits II and III.

Actuarial Memorandum
August 28, 2013

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_k \sum_t {}_jPmt_t^k * v^{t-k} + \sum_k ({}_jCR_{ValDate}^k + {}_jIBNR_{ValDate}^k) * v^{ValDate-k}}{EP_j}$$

LR_j = Incurred loss ratio for year *j*

${}_jPmt_t^k$ = claim payments at time *t* on claims incurred at time *k* in year *j*

${}_jCR_{ValDate}^k$ = open claim reserve held on December 31, 2011 for claims incurred at time *k* in year *j*

${}_jIBNR_{ValDate}^k$ = incurred but not reported reserve as of December 31, 2011 attributable to claims assumed incurred at time *k* in year *j*

EP_j = earned premium in year *j*

ValDate = December 31, 2011

j = year of claim incurral

k = date of claim incurral

t = actual date of claim payment

v = 1 / 1.0625 = 0.941176

Exhibits II and III also show future anticipated experience for the remaining lifetime of the business, based on in-force experience as of December 31, 2011, using the assumptions in this filing.

Exhibits II and III provide historical and projected values for premium, claims and policy count. Accumulated past, discounted future, and lifetime values both without and with the proposed rate increase are shown. Historical and future values are accumulated and discounted at 6.25%, an interest rate consistent with that assumed at pricing in the determination of premiums, as required by Virginia regulation.

Exhibits IV and V provide a comparison of actual to expected nationwide and Virginia-specific historical and projected values for earned premiums, incurred claims, and loss ratios on a calendar year basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The actual and projected experience in Exhibits IV and V reflect actual historical experience through 2011 and projected experience using the current assumptions described in section 5 of this memorandum. The expected pricing experience in Exhibits IV and V reflect the actual mix of business sold and pricing assumptions from inception.

Exhibits VI and VII provide nationwide and Virginia-specific experience, respectively, with past experience restated to the proposed premium rate basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

The interest rate used for discounting and accumulating actual/projected and expected pricing values in Exhibits IV through VII is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit VIII shows nationwide past experience including earned premiums, incurred claims, increase in active life reserves, and incurred loss ratios by calendar year. Exhibit IX provides similar information on a Virginia-specific basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The incurred loss ratio is defined as the sum of incurred claims and increase in active life reserves divided by earned premium. The values in these exhibits are shown without interest accumulation.

15. History of Previous Rate Revisions

There have been no previous rate revisions on the originally approved rates for these policy forms. On March 22, 2012 under SERFF tracking number NWLT-127404692 New York Life obtained approval of revised new business rates on these policy forms. The revised new business rates implemented in 2012 are not impacted by this rate increase request.

16. Analysis Performed to Consider a Rate Increase

The initial originally approved premium schedule was based on pricing assumptions believed to be appropriate, given industry experience available when the initial originally approved rate schedule was developed. The original pricing assumptions for claim costs, voluntary termination rates, and mortality were as follows:

a. Original Pricing Claim Costs. For nursing home and assisted living facilities, morbidity was based on data from the 1985 national nursing home survey, with adjustments to reflect anticipated insured morbidity in light of emerging company experience. Home and community based care claim costs were estimated at varying percentages of the nursing home assumed claim costs, ranging from 135% at attained age 50 grading down to 60% at attained ages 75 and over. Selection factors were applied to the ultimate claim costs.

   The lifetime benefit period option incorporated an additional load of approximately 22% and the 20-day elimination option had an additional load of 20% to account for additional anti-selection expected from purchasers of these plans.

b. Original Pricing Expected Voluntary Termination Rates. Vary by duration as shown in the following table.

Duration	Voluntary Lapse Rate
1	6.0%
2	4.0%
3	3.0%
4+	2.0%

c. Original Pricing Expected Mortality. Blended 1983 Individual Annuity Mortality Table with selection factors.

At the time the original rate schedule was priced, the management of New York Life determined that a rate schedule increase would be considered if the projected lifetime loss ratio exceeded a threshold equal to the pricing target lifetime loss ratio multiplied by 1.05. This equates to a threshold of 64.8% (= 61.7% reproduced pricing lifetime loss ratio * 1.05).

As part of the in-force management of the business, New York Life monitors the performance of the business by completing periodic analysis of morbidity and persistency. An analysis of the projected lifetime loss ratio based on current assumptions compared to that assumed at the time of original pricing revealed that experience has deteriorated significantly.

The assumptions used in this filing (described in Section 5) are based on actual in-force experience of New York Life, industry experience, and judgment. Actual persistency has been higher than that assumed in original pricing.

17. Requested Rate Increase and Demonstration of Satisfaction of Rating Requirements

New York Life is requesting the approval of an average premium rate increase of 22.3% on the original rates filed with the above-listed policy forms. The increase is needed due to higher than expected policy persistency, including both lower than expected mortality and lower than expected voluntary lapses. The company is requesting a 40% rate increase for policyholders with an issue age under 50, a 25.1% rate increase for policyholders with an issue age 50 and over, and a 0% rate increase for policyholders with an attained age of 75 or above. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive an increase on any portion of premium (including CPI-U offers). The premium rate increase will apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date. The requested increase will be reduced, as needed, so that the premium rate schedule will not exceed the premium rate schedule for a policy at the same issue age providing similar benefits that is currently marketed in Virginia by New York Life.

Although our analysis indicates that a rate increase is necessary at all ages, we have decided to forgo the increase for any of our insureds who have attained age 75 and

above at the time of the increase. The company will be absorbing the cost of exempting those policyholders who have reached attained age 75 and the increases on those below age 75 have not been increased to subsidize policyholders with attained ages 75 and higher. We believe that this approach makes for good public policy and is consistent with our corporate values.

We recognize that this approach, which is in the best interests of our policyholders, deviates from Actuarial Standards of Practice #12, section 3.2.1.

Projected experience assuming the requested rate increase is implemented is shown in Exhibits II and III.

Exhibit X provides the Nationwide and Virginia-specific anticipated loss ratios where the numerator is equal to anticipated incurred claims less policy reserves and the denominator is equal to anticipated earned premium. The interest rate used for discounting values in Exhibit X is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit XI provides a demonstration that the requested rate increase meets the 58%/85% test required by rate stability regulation. This exhibit shows that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times 58%,
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times 58%, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

The historical and future projected incurred claims were increased by 5% from the best-estimate projections in Exhibit II to reflect assumptions that include moderately adverse conditions (equates to a 5% deterioration in the lifetime loss ratio as described earlier in this memorandum). Present and accumulated values in Exhibit XI are determined at the maximum valuation interest rate for contract reserves over the issue period, which varies by issue year from 4.0% to 4.5%. An interest rate of 4.0% was used to discount claim payments and reserves in calculation of the historical incurred claims. The values shown in Exhibit XI do not tie to those in Exhibit II because of differences in the interest rates used and because the incurred claims in Exhibit XI are increased by 5% to reflect moderately adverse experience.

Exhibit XII provides the status of the current nationwide rate increase on the above-referenced policy forms by jurisdiction.

Corresponding rate tables, for policyholders with attained ages under age 75, reflecting the rate increase and new business caps are enclosed with this memorandum in Exhibit XIII. The originally filed rate tables that will continue to apply for policyholders with attained age 75 and over are enclosed with this memorandum in Exhibit XIV.

Please note that the actual rates implemented may vary from those in Exhibits XIII and XIV slightly due to implementation rounding algorithms.

18. Virginia Average Annual Premium
(Annualized Premium Based on 2011 In-force)

Before Increase $1,739
After Increase* $2,127
**After increase average annual premium assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age and includes estimated new business rate caps*

19. Proposed Effective Date

The rate increase will apply to policies on their policy anniversary date on or after at least a 60-day policyholder notification period following approval.

20. Number of Insureds and Annualized Premium

The number of insureds and annualized premium in force as of December 31, 2011 in this jurisdiction and nationwide are:

	Attained Age* <75		Attained Age* 75+		Total	
Jurisdiction	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**
Virginia	3,239	$5,343,066	142	$537,809	3,381	$5,880,875
Subject to Loss Ratio Regulation	1	$1,358	1	$1,561	2	$2,919
Subject to Rate Stability Regulation	3,238	$5,341,708	141	$536,248	3,379	$5,877,956
Nationwide	72,008	$119,859,810	4,600	$15,406,169	76,608	$135,265,978

**Assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age*

21. Actuarial Certification

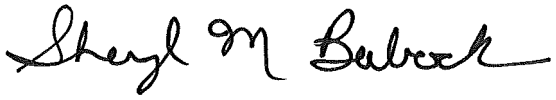
I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for preparing health rate filings and to render the actuarial opinion contained herein.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP #8, with the exception that this filing deviates from ASOP #12, section 3.2.1 as noted above.

I have relied on projection information provided by Amy Pahl, FSA, MAAA of Milliman Inc., who used data and assumptions from New York Life in developing those projections.

I hereby certify that:

1) to the best of my knowledge and judgment, this rate submission is in compliance with the provisions in 14 VAC5-200-153B2 and
2) if the rate increase is granted and the assumptions are realized, then no further premium rate schedule increases are anticipated.



Sheryl Babcock FSA, MAAA
Actuary, New York Life Insurance Company

Date: August 28, 2013

[policy number]

Dear valued policyholder:

Thank you for selecting New York Life Insurance Company (New York Life) to be the provider of your long-term care insurance coverage. On your next policy anniversary, [anniversary date], your long-term care insurance premium is scheduled to increase to [$amount] [mode]. In advance of this increase, I want to share with you more about this change and our overall commitment to serving your long-term care insurance needs.

We began offering this valuable coverage in 1988 and since entering this market, we had never raised rates on existing policies. However, New York Life, like the rest of the industry, is experiencing a rise in costs associated with higher than expected claims. To meet these rising costs, we applied for and were granted a rate change by the department of insurance in [State], the issuing state for your policy. While we do not anticipate any further rate increase on these policies, in accordance with the terms of your policy, we reserve the right to increase premiums in the future.

Long-term care insurance continues to provide important financial protection for you and your loved ones from the potential risks associated with long-term care costs. The benefit levels you chose for your policy are summarized below. In light of the premium increase, we are offering you two options.

1. **Maintain your current benefit levels at the increased premium rate:**

- Annual Premium on your next anniversary $[amount] [time period]
- Current Policy Lifetime Maximum $[amount]
- Current Nursing Home Daily Maximum Benefit $[amount]
- Current Benefit Period [# of years or unlimited]

2. **Reduce coverage to keep your premium close to its current level. For example, you can do this by:**

- Reducing your daily maximum benefit,
- Reducing the benefit period, or
- Cancelling any riders you may have purchased.

To discuss the options available to you before your new premium is implemented, call your agent, [agent name] at [agent phone number], or our Policy Owner Services team at 1-800-224-4582 [Option 1, Option 1] Monday to Friday, 8am – 5pm CST. If you have an automatic payment method in place, through a checking account or payroll deduction, for example, you may need to make changes to ensure the correct premium amount is funded. Information on how to adjust payment amounts and other information you may find helpful is included with this letter.

Your decision to entrust New York Life with your long-term care insurance coverage is not one we take lightly. We appreciate the opportunity to serve your long-term care insurance needs and remain committed to helping you achieve long-term financial security for many years to come.

On behalf of New York Life,

Troy E. Glover
Senior Vice President

NEW YORK LIFE INSURANCE COMPANY

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
New Increased Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

Actuarial Memorandum
March 11, 2013

Product	Number
Comprehensive	ILTC-5000, et al.
Nursing Home Only	INH-5000, et al.

These policy forms were issued in Virginia by New York Life Insurance Company (New York Life) beginning in December 2002 and are still being marketed in Virginia with revised new business rates that were recently filed, approved, and implemented.

1. Purpose of Filing

This actuarial memorandum has been prepared for the purpose of demonstrating that the anticipated lifetime loss ratio, with the requested rate increase on the original rates filed for the above-listed forms, meets the minimum requirements of this jurisdiction and demonstrating compliance with its rate stability regulation. It may not be suitable for other purposes. Only two in-force policies were issued in Virginia prior to October 1, 2003, the effective date of rate stability in Virginia. Although policies were issued prior to October 1, 2003 nationwide, experience for all issue dates has been combined in this filing.

2. Description of Benefits

These are federally tax-qualified, individually underwritten policy forms providing benefits for confinement in a nursing home or an assisted living facility up to a daily maximum benefit amount. A daily maximum benefit, benefit period, and elimination period were selected at issue.

Under form series ILTC-5000 benefits were also available for home and community based care expenses up to a percentage of the nursing home daily benefit. Benefits for informal care were available if the insured is following a plan of care developed by a care advisor selected by the company. Under form series INH-5000 no home health care benefits could be selected.

At issue the insured may have had the option to choose between multiple inflation options: a simple inflation option, a compound inflation option, or CPI-U offers. The simple inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a fixed percentage (ranging from 1% to 6%) of the original amounts annually for the life of the policy. The compound inflation option provides for daily maximums and policy lifetime maximums that increase on each policy anniversary date by a percentage of the current amount annually for the life of the policy. The percentage increase may be a fixed percentage (3%, 4%, or 5%) or a percentage relative to the change in the consumer price index. The CPI-U offers provide for the option to purchase annual increases in daily and policy maximums on each policy anniversary date by a percentage relative to the change in the consumer price index. CPI-U offers are based on the original issue age rates.

Ancillary benefits for bed hold, informal caregiver training, respite care, hospice care, waiver of premium, and alternate plan of care are also provided.

At issue, the insured may have had the option of selecting a nonforfeiture benefit rider, shared care rider, couples rider, and a return of premium upon death benefit rider. The shared care rider provides for an additional pool of money which can be accessed by either spouse if both keep identical coverage in effect and benefits are exhausted under the base policy. The couples rider provides for a common elimination period, dual waiver of premium, and a spouse paid up benefit when two spouses keep identical benefits in force until the time of benefit eligibility under the rider, or in the case of the spouse paid up benefit, until one spouse dies (but for at least ten years). The spouse paid up benefit is only in effect if there are no claims under either policy for the first ten contract years.

If no claims are paid and the policy remains in force, the contract becomes paid up at the later of the first policy anniversary after age 95 or the 20th policy anniversary. All premiums paid for the coverage are returned upon the death of the insured if the contract remains in force until the later of the first policy anniversary after age 100 or the 25th policy anniversary and no claims were payable during the period. The return of premium upon death benefit rider provides a return of premium less claims paid in the event of the insured's death.

3. Renewability

The above-listed policy forms are guaranteed renewable for life.

4. Applicability

This filing is applicable to original rates on in-force policies only. The above-listed policy forms are currently being sold in Virginia with revised new business premium rates. The revised new business rates implemented in 2012 are not impacted by this filing. The premium change will apply to the base forms and all riders associated with the base forms for policyholders with an attained age under 75. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive a rate increase on any portion of premium (including CPI-U offers). The premium rate increase shall also apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date.

5. Actuarial Assumptions

a. Morbidity. Expected claim costs were developed from the *Milliman Long Term Care Cost Guidelines (LTCCGs)*, adjusted for New York Life's current experience relative to the *LTCCGs*. All values were adjusted to reflect the effects of elimination periods, policy maximums, salvage, and benefit eligibility standards.

b. Voluntary Termination Rates Vary by duration as developed from historical experience and are shown in the following table:

Voluntary Lapse Rates by Duration and Issue Age					
Policy Duration	**Issue Age**				
	< 35	**35-39**	**40-44**	**45-49**	**50 +**
1	24.75%	12.75%	12.50%	7.75%	6.75%
2	17.50	10.25	9.50	6.25	5.25
3	12.00	8.00	7.00	5.00	4.25
4	8.00	6.25	5.00	4.00	3.25
5	5.50	4.75	3.50	3.00	2.50
6	4.25	3.50	2.50	2.50	1.75
7	3.25	2.75	2.00	1.75	1.25
8	2.75	2.00	1.50	1.50	1.00
9	2.00	1.75	1.25	1.25	1.00
10	1.50	1.50	1.00	1.00	0.75
11	1.00	1.25	0.75	0.75	0.75
12	0.75	1.00	0.75	0.75	0.75
13+	0.65%	0.65%	0.65%	0.65%	0.65%

The lapse rates in the table above are multiplied by 1.25 or 0.90 for single and married policyholders, respectively.

In the year of rate increase notification to policyholders, a reduction in premiums and benefits is assumed due to reduced benefit option election. The impact of reduced benefit option election varies depending on the increase amount and averages 1.5%.

c. Mortality. 1994 Group Annuitant Mortality (94GAM) with selection factors. Improvement is assumed through the valuation date.

d. Expenses. Expenses have not been explicitly projected. It is assumed that the originally filed expense assumptions remain appropriate. Normal New York Life renewal commission rates will be applied on any increase in premium.

The above assumptions are based on the experience of New York Life, industry experience, and judgment. The assumptions used in pricing other forms currently available for sale use similar assumptions to those in this filing and were also based on the experience of New York Life, industry experience, and judgment. The experience period is inception through December 31, 2011. These assumptions are based on the

nationwide experience of the particular policy forms in this filing and similar nationwide forms and are deemed reasonable for the particular policy forms in this filing. The assumptions described above reflect an estimate of the most likely outcome and do not include a margin for moderately adverse conditions.

In establishing the assumptions described in this section, the policy design, underwriting, and claims adjudication practices for the above-referenced policies were taken into consideration.

Exhibit I provides justification for the voluntary lapse, mortality, and morbidity assumptions used in this filing.

6. Marketing Method

The above-listed policy forms were marketed by New York Life career agents and independent brokers.

7. Underwriting Description

These policies were individually underwritten with selective use of underwriting tools, which may have included face-to-face assessments and reviews of medical records. Four underwriting classes were utilized depending on the applicant's medical history.

8. Premiums

Premiums are unisex and payable for life, except if the policy becomes paid up as described in Section 2 above. The premiums may vary according to one or more of the following policy and policyholder attributes: issue age, underwriting classification, benefit level, inflation option, premium mode, marital status, elimination period, benefit period, and optional coverages chosen.

A multi-life discount is also applied where policies were marketed on other than a one to one basis.

9. Issue Age Range

The issue ages are from 18 to 85.

10. Area Factors

Area factors were not used in pricing for the above-listed policy forms.

11. Premium Modalization

The following modal factors are applied to the annual premium (AP):

Premium Mode	Modal Factors
Annual	1.00 * AP
Semi-Annual	0.51 * AP
Quarterly	0.26 * AP
Monthly	0.09 * AP

12. Reserves

Active life reserves have not been used in this rate increase analysis, except in the loss ratio calculations in Exhibits VIII, IX, and X. Claim reserves as of December 31, 2011 have been discounted to the date of incurral for each respective claim and included in the historical incurred claims. Incurred but not reported reserve balances as of December 31, 2011 have been allocated to a calendar year of incurral and included in historic incurred claims.

13. Trend Assumptions

An explicit medical cost trend is not included in the projections.

14. Past and Future Experience

Nationwide experience across the above-listed forms and the corresponding nationwide forms is shown in Exhibit II and includes earned premiums, paid claims, incurred claims, and loss ratios. Incurred claims are shown by incurral year, whereas paid claims are shown by the year in which the payments were made. The incurred loss ratio is equal to the incurred claims divided by earned premium.

Virginia-specific experience for these policy forms is shown in Exhibit III. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

As the experience period is through December 31, 2011, experience for policies issued under the recently filed, approved, and implemented new business rates is not included in Exhibits II and III.

Historical experience is shown by claim incurral year with the loss ratio for each loss year calculated by the following formula:

$$LR_j = \frac{\sum_k \sum_t {}_j Pmt_t^k * v^{t-k} + \sum_k ({}_j CR_{ValDate}^k + {}_j IBNR_{ValDate}^k) * v^{ValDate-k}}{EP_j}$$

LR_j = Incurred loss ratio for year *j*

${}_jPmt_t^k$ = claim payments at time *t* on claims incurred at time *k* in year *j*

${}_jCR_{ValDate}^k$ = open claim reserve held on December 31, 2011 for claims incurred at time *k* in year *j*

${}_jIBNR_{ValDate}^k$ = incurred but not reported reserve as of December 31, 2011 attributable to claims assumed incurred at time *k* in year *j*

EP_j = earned premium in year *j*

ValDate = December 31, 2011

j = year of claim incurral

k = date of claim incurral

t = actual date of claim payment

v = 1 / 1.0625 = 0.941176

Exhibits II and III also show future anticipated experience for the remaining lifetime of the business, based on in-force experience as of December 31, 2011, using the assumptions in this filing.

Exhibits II and III provide historical and projected values for premium, claims and policy count. Accumulated past, discounted future, and lifetime values both without and with the proposed rate increase are shown. Historical and future values are accumulated and discounted at 6.25%, an interest rate consistent with that assumed at pricing in the determination of premiums, as required by Virginia regulation.

Exhibits IV and V provide a comparison of actual to expected nationwide and Virginia-specific historical and projected values for earned premiums, incurred claims, and loss ratios on a calendar year basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The actual and projected experience in Exhibits IV and V reflect actual historical experience through 2011 and projected experience using the current assumptions described in section 5 of this memorandum. The expected pricing experience in Exhibits IV and V reflect the actual mix of business sold and pricing assumptions from inception.

Exhibits VI and VII provide nationwide and Virginia-specific experience, respectively, with past experience restated to the proposed premium rate basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist.

The interest rate used for discounting and accumulating actual/projected and expected pricing values in Exhibits IV through VII is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit VIII shows nationwide past experience including earned premiums, incurred claims, increase in active life reserves, and incurred loss ratios by calendar year. Exhibit IX provides similar information on a Virginia-specific basis. Virginia-specific experience for the above-referenced forms is not considered credible, but is being provided as required by the rate revisions checklist. The incurred loss ratio is defined as the sum of incurred claims and increase in active life reserves divided by earned premium. The values in these exhibits are shown without interest accumulation.

15. History of Previous Rate Revisions

There have been no previous rate revisions on the originally approved rates for these policy forms. On March 22, 2012 under SERFF tracking number NWLT-127404692 New York Life obtained approval of revised new business rates on these policy forms. The revised new business rates implemented in 2012 are not impacted by this rate increase request.

16. Analysis Performed to Consider a Rate Increase

The initial originally approved premium schedule was based on pricing assumptions believed to be appropriate, given industry experience available when the initial originally approved rate schedule was developed. The original pricing assumptions for claim costs, voluntary termination rates, and mortality were as follows:

a. Original Pricing Claim Costs. For nursing home and assisted living facilities, morbidity was based on data from the 1985 national nursing home survey, with adjustments to reflect anticipated insured morbidity in light of emerging company experience. Home and community based care claim costs were estimated at varying percentages of the nursing home assumed claim costs, ranging from 135% at attained age 50 grading down to 60% at attained ages 75 and over. Selection factors were applied to the ultimate claim costs.

   The lifetime benefit period option incorporated an additional load of approximately 22% and the 20-day elimination option had an additional load of 20% to account for additional anti-selection expected from purchasers of these plans.

b. Original Pricing Expected Voluntary Termination Rates. Vary by duration as shown in the following table.

Duration	Voluntary Lapse Rate
1	6.0%
2	4.0%
3	3.0%
4+	2.0%

c. Original Pricing Expected Mortality. Blended 1983 Individual Annuity Mortality Table with selection factors.

At the time the original rate schedule was priced, the management of New York Life determined that a rate schedule increase would be considered if the projected lifetime loss ratio exceeded a threshold equal to the pricing target lifetime loss ratio multiplied by 1.05. This equates to a threshold of 64.8% (= 61.7% reproduced pricing lifetime loss ratio * 1.05).

As part of the in-force management of the business, New York Life monitors the performance of the business by completing periodic analysis of morbidity and persistency. An analysis of the projected lifetime loss ratio based on current assumptions compared to that assumed at the time of original pricing revealed that experience has deteriorated significantly.

The assumptions used in this filing (described in Section 5) are based on actual in-force experience of New York Life, industry experience, and judgment. Actual persistency has been higher than that assumed in original pricing.

17. Requested Rate Increase and Demonstration of Satisfaction of Rating Requirements

New York Life is requesting the approval of an average premium rate increase of 22.3% on the original rates filed with the above-listed policy forms. The increase is needed due to higher than expected policy persistency, including both lower than expected mortality and lower than expected voluntary lapses. The company is requesting a 40% rate increase for policyholders with an issue age under 50, a 25.1% rate increase for policyholders with an issue age 50 and over, and a 0% rate increase for policyholders with an attained age of 75 or above. Policyholders who reach attained age 75 before their first policy anniversary on or after the rate increase implementation date will not receive an increase on any portion of premium (including CPI-U offers). The premium rate increase will apply to CPI-U offers for policyholders with an attained age under 75 at their first policy anniversary on or after the rate increase implementation date. The requested increase will be reduced, as needed, so that the premium rate schedule will not exceed the premium rate schedule for a policy at the same issue age providing similar benefits that is currently marketed in Virginia by New York Life.

Although our analysis indicates that a rate increase is necessary at all ages, we have decided to forgo the increase for any of our insureds who have attained age 75 and

above at the time of the increase. The company will be absorbing the cost of exempting those policyholders who have reached attained age 75 and the increases on those below age 75 have not been increased to subsidize policyholders with attained ages 75 and higher. We believe that this approach makes for good public policy and is consistent with our corporate values.

We recognize that this approach, which is in the best interests of our policyholders, deviates from Actuarial Standards of Practice #12, section 3.2.1.

Projected experience assuming the requested rate increase is implemented is shown in Exhibits II and III.

Exhibit X provides the Nationwide and Virginia-specific anticipated loss ratios where the numerator is equal to anticipated incurred claims less policy reserves and the denominator is equal to anticipated earned premium. The interest rate used for discounting values in Exhibit X is an interest rate consistent with that assumed at pricing in the determination of premiums.

Exhibit XI provides a demonstration that the requested rate increase meets the 58%/85% test required by rate stability regulation. This exhibit shows that the sum of the accumulated value of incurred claims without the inclusion of active life reserves, and the present value of future projected incurred claims, without the inclusion of active life reserves, will not be less than the sum of the following:

1. Accumulated value of the initial earned premium times 58%,
2. 85% of the accumulated value of prior premium rate schedule increases,
3. Present value of future projected initial earned premium times 58%, and
4. 85% of the present value of future projected premium in excess of the projected initial earned premium.

The historical and future projected incurred claims were increased by 5% from the best-estimate projections in Exhibit II to reflect assumptions that include moderately adverse conditions (equates to a 5% deterioration in the lifetime loss ratio as described earlier in this memorandum). Present and accumulated values in Exhibit XI are determined at the maximum valuation interest rate for contract reserves over the issue period, which varies by issue year from 4.0% to 4.5%. An interest rate of 4.0% was used to discount claim payments and reserves in calculation of the historical incurred claims. The values shown in Exhibit XI do not tie to those in Exhibit II because of differences in the interest rates used and because the incurred claims in Exhibit XI are increased by 5% to reflect moderately adverse experience.

Exhibit XII provides the status of the current nationwide rate increase on the above-referenced policy forms by jurisdiction.

Corresponding rate tables, for policyholders with attained ages under age 75, reflecting the rate increase and new business caps are enclosed with this memorandum in Exhibit XIII. The originally filed rate tables that will continue to apply for policyholders with attained age 75 and over are enclosed with this memorandum in Exhibit XIV.

Please note that the actual rates implemented may vary from those in Exhibits XIII and XIV slightly due to implementation rounding algorithms.

18. Virginia Average Annual Premium
(Annualized Premium Based on 2011 In-force)

Before Increase $1,739
After Increase* $2,127
**After increase average annual premium assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age and includes estimated new business rate caps*

19. Proposed Effective Date

The rate increase will apply to policies on their policy anniversary date on or after at least a 60-day policyholder notification period following approval.

20. Number of Insureds and Annualized Premium

The number of insureds and annualized premium in force as of December 31, 2011 in this jurisdiction and nationwide are:

	Attained Age* <75		Attained Age* 75+		Total	
Jurisdiction	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**	**Insured Count**	**Annualized Premium**
Virginia	3,239	$5,343,066	142	$537,809	3,381	$5,880,875
Subject to Loss Ratio Regulation	1	$1,358	1	$1,561	2	$2,919
Subject to Rate Stability Regulation	3,238	$5,341,708	141	$536,248	3,379	$5,877,956
Nationwide	72,008	$119,859,810	4,600	$15,406,169	76,608	$135,265,978

**Assumes rate increase implementation on policy anniversary date on or after 1/1/14 for determining attained age*

21. Actuarial Certification

I am a Fellow of the Society of Actuaries and a Member of the American Academy of Actuaries, and I meet the Academy's qualification standards for preparing health rate filings and to render the actuarial opinion contained herein.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including ASOP #8, with the exception that this filing deviates from ASOP #12, section 3.2.1 as noted above.

I have relied on projection information provided by Amy Pahl, FSA, MAAA of Milliman Inc., who used data and assumptions from New York Life in developing those projections.

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of Virginia and the rules of the Bureau. In my opinion, the rates are not unfairly discriminatory and the gross premiums are not excessive and bear reasonable relationship to the benefits, based on the lifetime loss ratio exceeding the minimum loss ratio requirement. This filing will enhance premium adequacy, but may not be sufficient to prevent future rate action. Therefore, rates cannot be certified as required by regulation.

Sheryl Babcock FSA, MAAA
Actuary, New York Life Insurance Company

Date: March 11, 2013

Exhibit I
New York Life Insurance Company
Assumption Justification
Generation 5.0 Policy Forms

Voluntary Lapse

Table 1 below provides a summary of the actual lapse experience compared to the expected current lapse rate assumption (as shown in Section 5b of the Actuarial Memorandum), for calendar years 2008 and later:

Table 1: Actual to Expected Lapse Experience

Policy Duration	Actual Count	Actual to Expected
1	2,564	99.18%
2	2,027	109.67%
3	1,329	96.30%
4	889	94.17%
5	636	99.28%
6	511	109.51%
7	359	101.23%
8	271	98.95%
9	209	93.96%
10	150	100.24%
11	121	97.88%
12	80	91.95%
13	45	95.02%
14+	137	90.91%
Total	9,328	101.60%

Mortality

New York Life performed a mortality study including all historical long term care policies issued through March 31, 2011 with experience developed through September 30, 2011. Deaths for both active and disabled insureds were included in the study. The expected mortality table underlying the study was the sex distinct 1994 Group Annuitant Mortality (1994 GAM) table with selection factors.

Exhibit I
New York Life Insurance Company
Assumption Justification
Generation 5.0 Policy Forms

The expected current mortality assumption is a good fit to the actual mortality experience since the actual to expected ratio of the mortality rates is close to 100%, as reflected in the Table 2 below:

Table 2: Actual to Expected Mortality Experience

Actual to Expected Mortality Rates by Policy Duration Count Based		
Policy Duration	All Issue Ages	
	Actual Deaths	Mortality Rate A to E
1	226	80%
2	332	99%
3	424	108%
4	516	115%
5	514	103%
6	554	99%
7	649	108%
8	614	96%
9	666	102%
10	609	94%
11	620	98%
12	564	95%
13	533	102%
14	483	102%
15+	1,473	98%
Total	8,777	100%

Morbidity Assumption

The morbidity assumption was developed based on claim costs derived from the 2009 Milliman Long Term Care Guidelines. Due to a lack in volume of experience and credibility in key cells (particularly in high durations and high ages), New York Life hired an external actuarial consulting firm, Milliman, to provide claim costs based on their voluminous database of industry wide data. The claim costs were tailored to New York Life's various product series features, underwriting, and claim adjudication practices. The claim cost assumptions vary by product series, benefit period, elimination period, inflation, home health care percentage, gender and marital status.

In 2012, New York Life performed an Actual to Expected (A/E) analyses to test the appropriateness of the Milliman claim cost assumptions and further refined the assumptions by developing a number of adjustment factors including preferred risk class adjustments, issue age adjustments by policy series and duration, as well as adjustments for the Shared Care Rider and Couples Rider.

New York Life developed best estimate assumptions from the claim cost assumptions with the developed adjustment factors applied to fit its actual experience for key cells based on the A/E analysis.

Exhibit I
New York Life Insurance Company
Assumption Justification
Generation 5.0 Policy Forms

Table 3 below shows the actual to expected experience in aggregate by calendar year using the 2012 best estimate morbidity assumptions:

Table 3: Actual to Expected Claim Experience

Exp Year	Actual Claim Counts	Actual	Expected	A/E
1991	7	208	436	48%
1992	12	767	879	87%
1993	21	1,052	1,387	76%
1994	29	2,129	1,968	108%
1995	38	1,805	2,708	67%

Anticipated Loss Ratios
Experience as of December 31, 2011
Generation 5.0 Policy Forms

Nationwide Experience
With No Increase

1	Present Value of Future Claims:	1,349,528,430
2	Active Life Reserves at 12/31/2011:	319,508,782
3	Present Value of Future Premium:	1,497,966,356
	Anticipated Loss Ratio = (1 - 2) / 3:	**68.8%**

Virginia-Specific Experience
With No Increase

1	Present Value of Future Claims:	59,050,470
2	Active Life Reserves at 12/31/2011:	14,330,011
3	Present Value of Future Premium:	66,034,043
	Anticipated Loss Ratio = (1 - 2) / 3:	**67.7%**

Exhibit XI
New York Life Insurance Company
Nationwide 58/85 Test With Increase
Generation 5.0 Policy Forms

1	Accumulated value of initial earned premium	615,394,858	x	58%	=	356,929,018
2a	Accumulated value of earned premium	615,394,858				
2b	Accumulated value of prior premium rate schedule increases (2a - 1)	0	x	85%	=	0
3	Present value of future projected initial earned premium	1,822,930,969	x	58%	=	1,057,299,962
4a	Present value of future projected premium	2,171,847,730				
4b	Present value of future projected premium in excess of the projected initial earned premiums (4a - 3)	348,916,760	x	85%	=	296,579,246
5	**Lifetime Earned Premium Times Prescribed Factor: Sum of 1, 2b, 3, and 4b**					**1,710,808,226**
6a	Accumulated value of incurred claims without the inclusion of active life reserves					52,720,751
6b	Present value of future projected incurred claims without the inclusion of active life reserves					2,256,887,540
7	**Lifetime Incurred Claims with Rate Increase: Sum 6a and 6b**					**2,309,608,292**
8	Test: 7 is not less than 5					TRUE

All values are accumulated or discounted at the maximum valuation interest rate for contract reserves.
The incurred claims (items 6a and 6b) were increased by 5% to reflect moderately adverse experience.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
New Increased Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.

NEW YORK LIFE INSURANCE COMPANY

GROSS ANNUAL PREMIUM RATES FOR POLICY SERIES
ILTC-5000 and INH-5000 and Riders
Virginia
Originally Approved Rates

Rates for Shared Care Rider, Couples Additonal Benefits Rider, and Nonforfeiture Rider; and Marital/Sibling and Multi-Life Discounts

Shared Care Rider

The Premium for the Shared Care Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Inflation Protection Rider (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders), and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Couples Additional Benefits Rider

The Premium for the Couples Additional Benefits Rider is an additional 25% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Nonforfeiture Rider

The Premium for the Nonforfeiture Rider is an additional 15% of the Total Premium for the Base Policy including Home Health Care, and all attached Shared Care, Couples Additional Benefits, and Inflation Protection Riders (including the CPI-U, CPI-U + 1%, and CPI-U + 2% Offer Riders) and all coverage increases due to the Acceptance of an Offer from any of the CPI-U Offer Riders.

Marital/Sibling Discount

If the applicant and one or more Siblings are covered and cohabitating, or if the applicant is Married, then a 15% Marital/Sibling Discount will be applied to the Total Premium.

Multi-Life Discount Program

Multi-Life cases that are issued at Standard Underwriting Class rates are eligible for a 10% Multi-Life Discount on their Total Premium.
