RE: Long Term Care Insurance

Individual Policy Form Series: 3358, LT692, LT694

We are filing revised premium rates for your consideration and approval on the above captioned policy forms on file with your department. This request is being filed nationwide. We had previously filed revised rates on this group of forms in 2013. Actual (2013-2016) and projected (2017+) experience is worse than what was projected in that filing. We are not attempting to recoup any past losses; this rate increase is solely intended to get experience back in line with what was projected in our 2013 rate increase filing for years 2017 and forward.

Based on the experience development since 2013, we have made several updates to the assumptions used in projecting future experience for this block. All assumptions are outlined in section 7 of the Actuarial Memorandum. The Company engaged Milliman, Inc. to perform a review of these assumptions, the resulting projections and the proposed premium rate increase. A letter from Milliman attesting to their review and their opinion that the proposed increase is justified based on the underlying projection has been included in the filing materials.

We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce. The increase will be larger for policies at younger issue ages and for policies with an inflation protection benefit. Non-inflation policies on form LT201 issued at ages 69 and older, and non-inflation policies on all other forms issued at ages 65 and older will not receive an increase. An exhibit detailing the increase by issue age, inflation option and policy form is included at the end of the memo as Appendix A.

The larger requested increase on policies with younger issue ages and inflation protection is due to the greater impact of the assumption changes on these rates. In addition, current premium rates for inflation policies and younger issue age plans are significantly lower than rates for policies available in the marketplace today. The proposed increase will bring the rates on policies issued at younger issue ages, and the differential between inflation and non-inflation inforce policies, closer to the levels and relationships of currently sold policies.

Policyholders will be provided opportunities to mitigate the effects of the increase, including options to reduce benefits and lower premium. We will also provide a contingent non-forfeiture benefit to all policyholders regardless of whether or not their policy covers this benefit upon lapse.

We respectfully request your approval of this filing. If you have any questions or would like to discuss this filing, please feel free to contact us via SERFF, email [TMoltumyr@tri-plus.net](mailto:TMoltumyr@tri-plus.net) or phone (224) 217-9037.

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	09/03/2020
Submitted Date	09/03/2020
Respond By Date	09/17/2020

---

Dear Beverly Toomey,

**Introduction:**

*The Bureau has the following concerns and/or needs additional information to continue its review.*

*Please note, any revisions, modifications, or changes of any type to this filing not specifically requested by us must be brought to our attention upon resubmission and explained in detail.*

**Objection 1**

*- RI-17-VA, RI-17-VA (Form)*

*Comments: Under the heading of "Enclosures", provide a list of the forms that will be included with Form RI-17-VA. If the form may not be sent to every policyholder (such as form RI-17-VA-BAO), that form would need to be shown in brackets; with an explanation for the brackets in the Statement of Variability.*

**Conclusion:**

*We will be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.*

*A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.*

*Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.*

*Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.*

*Thank you for your courtesy and consideration in this matter.*

Sincerely,  
Bobby Toone

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	06/23/2020
Submitted Date	06/23/2020
Respond By Date	07/23/2020

Dear Beverly Toomey,

### **Introduction:**

The Bureau has the following concerns and/or needs additional information to continue its review.

Please note, any revisions, modifications, or changes of any type to this filing not specifically requested by us must be brought to our attention upon resubmission and explained in detail.

### **Objection 1**

- RI-17-VA, RI-17-VA (Form)

Comments: 1. Please submit a Certificate of Readability in accordance with the requirements in 14VAC5-101-70 F.

2. The website for the Bureau of Insurance has changed. Please use the current website:

<https://scc.virginia.gov/boi/SERFFInquiry/LtcFilings.aspx>

3. Virginia Regulation 14VAC5-200-75 A 4(b) requires that the policyholder notification should contain a statement that the policyholder has the right to a revised premium rate or rate schedule in the event of a rate increase. Please make the necessary revisions to include this statement in the policyholder letter.

### **Objection 2**

- RI-17-VA-FAQ, RI-17-VA-FAQ (Form)

Comments: 1. The first paragraph of the FAQ uses "the Company" to refer to the corporate name with no explanation. Please use an identifier such as Ability Insurance Company (the Company) the first time the reference is used in the body of the document.

2. To simplify things in the event your Customer Service phone number needs to be changed, you might consider putting brackets around the contact phone numbers in the FAQ. These would then need to be described in the Statement of Variability.

### **Conclusion:**

We will be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.

Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Thank you for your courtesy and consideration in this matter.

Respond By Date	02/20/2020

Dear Beverly Toomey,

### **Introduction:**

The Bureau has the following concerns and/or needs additional information to continue its review.

Please note, any revisions, modifications, or changes of any type to this filing not specifically requested by us must be brought to our attention upon resubmission and explained in detail.

### **Objection 1**

- RI-17-VA-CBUL, RI-17-VA-CBUL (Form)

Comments: Please provide some additional clarity on the 3rd bullet point of the 3rd paragraph of this form:

- 1) Is this reinstatement option available to a policyholder who elects to simply stop paying their premiums, as opposed to returning this form?
- 2) Are they required to submit all past due premiums at this time?

### **Conclusion:**

We will be glad to continue our review of this submission upon receipt of the requested information or resolution of the issues described above. Upon subsequent review, other concerns may require attention.

A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.

Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Bobby Toone

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	05/21/2019
Submitted Date	05/21/2019
Respond By Date	06/20/2019

Dear Beverly Toomey,

### **Introduction:**

*The Bureau has the following concerns and/or needs additional information to continue its review.*

*Please note, any revisions, modifications, or changes of any type to this filing not specifically requested by us must be brought to our attention upon resubmission and explained in detail.*

### **Objection 1**

*- L&H Actuarial Memorandum (Supporting Document)*

*Comments: 1. It is noted in the Companys response regarding the original rate level and original assumptions projection, these projections are not based on seriatim projections of the originally issued policies. We are concerned that different methodologies are being used in different projections. Please provide further discussion of the methodology used in each projection; i.e., are the current and proposed projections based on a seriatim projection of the current inforce policies? If so, please explain why the original projections cannot be performed with the original cohort of policies.*

### **Conclusion:**

*We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.*

*A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.*

*Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.*

*Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.*

*Thank you for your courtesy and consideration in this matter.*

Sincerely,  
Bobby Toone

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	04/09/2019
Submitted Date	04/09/2019
Respond By Date	05/09/2019

Dear Beverly Toomey,

### **Introduction:**

Thank you for your previous response, however, one or more items included within the submission were found to be in non-conformity with statutory, regulatory or administrative requirements as set forth below.

### **Objection 1**

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. Please provide the current nationwide cumulative increase to date.

2. Please provide the nationwide cumulative increase if all increases filed were approved.

### **Conclusion:**

We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.

Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Bobby Toone

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	04/09/2019
Submitted Date	04/09/2019
Respond By Date	05/09/2019

Dear Beverly Toomey,

### Introduction:

Thank you for your previous response, however, one or more items included within the submission were found to be in non-conformity with statutory, regulatory or administrative requirements as set forth below.

### Objection 1

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. Please provide actuarial justification for the variance in rate increases by issue age.

2. Please provide an update of Appendix A (policy count and premium by issue age) from the memorandum as of 12/31/2018. Also, please provide this same information based on only the Virginia policies as of 12/31/2016 and 12/31/2016.

3. Please provide a split by Inflation vs. Non-Inflation of the projection labeled Experience Starting January 1, 1988 Forward - Premium restated at Original Rate Level Using Original Pricing Assumptions, but actual issued policies.

### Objection 2

- RI-17-VA, RI-17-VA (Form)

Comments: 1. Please move the "John Doe" to Supporting Documentation. Please re-submit the actual letter showing the variability to the Form Schedule.

2. 14VAC5-100-50.5 requires that individual accident and sickness forms be printed using a type size of at least 10 point. Please the policy form number on each form to comply with the regulation.

3. Please revise the Policyholder Notification Letter to comply with 14VAC5-200-75 A 4(b), giving the policyholder the right to a revised premium rate or rate schedule if the premium rate or rate schedule is changed.

### Conclusion:

We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.

Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Thank you for your courtesy and consideration in this matter.

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	01/31/2019
Submitted Date	01/31/2019
Respond By Date	02/28/2019

Dear Beverly Toomey,

### Introduction:

One or more items included within the submission were found to be in non-conformity with statutory, regulatory or administrative requirements as set forth below.

### Objection 1

- RI-17-VA, RI-17-VA (Form)

Comments: In accordance with 14VAC5-100-50 2, "The use of a trade name or the name of an affiliated company on a policy form in such a way that implies that another company is responsible for the obligations undertaken in the policy is prohibited."

Please remove the name TriPlus Services, Inc. from the letter.

### Objection 2

- RI-17-VA, RI-17-VA (Form)

Comments: 14VAC5-100-50 3 requires that a copy of the letter in, "John Doe" fashion, be submitted to indicate how it is intended to be used.

### Conclusion:

We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

A response to this objection (or request for information if more applicable) is expected within 30 days. After 30 days, the filing will be DISAPPROVED unless a 30-day extension is requested.

Once a submission has been closed, a new SERFF submission will be required. To expedite the review, the new submission should reference the SERFF tracking number of the prior submission and verify that all outstanding issues have been addressed.

Should you wish to discuss any of the objections or provide additional information related to any of the objections, this should be done prior to making a new SERFF submission.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Bobby Toone

Objection Letter Status	Info has been requested from company
Objection Letter Date	07/16/2018
Submitted Date	07/16/2018
Respond By Date	08/16/2018

---

Dear Beverly Toomey,

### **Introduction:**

One or more items included within the submission were found to be in non-conformity with statutory, regulatory or administrative requirements as set forth below.

### **Objection 1**

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1) We are unable to match the PV of past claims shown on the projections for policies with and without inflation. For example, the PV of the stream of incurred claims for Non-inflation from 1988-2016 is shown on the exhibit as \$1,935,947,964, but when calculated at 4.5% comes to \$2,121,676,380. We are able to match the PV of earned premium on the same exhibit exactly, so it is not a problem with methodology. Please provide an explanation for this discrepancy.

2) Please provide a breakdown of the active life reserve @ 12/31/2016 for policies with and without inflation.

### **Conclusion:**

We shall be glad to reconsider this submission upon receipt of the revised items necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Bobby Toone

## Objection Letter

Objection Letter Status Info has been requested from company  
Objection Letter Date 12/18/2017  
Submitted Date 12/18/2017  
Respond By Date

Dear Beverly Toomey,

### Introduction:

The submission is *DISAPPROVED* and may not be used in the Commonwealth of Virginia.

Thank you for your recent reply to our request for additional information. Before further consideration may be given, this new information presents the following concerns and /or questions:

### Objection 1

- RI-17-VA, RI-17-VA (Form)

Comments: Thank you for responding to our concerns regarding the policyholder letters. Although some of our concerns have been resolved, please address the following:

1. According to your response, final versions of the letter without the draft watermark were attached. It does not appear, however, final versions of the letter were attached.
2. Thank you for your response regarding the use of the TriPlus header. We agree the full and proper name of the insured appears; however, the font is the smaller than any font in the letter. Pursuant to 14VAC5-100-50 5, a type size of at least 10 point is required. For compliance with the regulation, please enlarge the print accordingly.
3. So that there is no potential confusion on the part of the insured or that any information may be misleading, the letter should clearly state this letter is being sent by TriPlus Services Inc. on behalf of Medico Insurance Company. The name of the Company in the first sentence should be bolded and be in larger type.
4. The reason provided in the letter does not clearly identify the drivers of the rate increase. It does not explain why anticipated claims payments are greater than expected. What assumptions used at the time the policy was originated priced have changed and why. It would appear that the narrative attached to the Long Term Care Rate Request Summary provides a better explanation the letter should be amended accordingly.
5. The Company was unsure as to what to include in the letter for compliance with 14VAC5-200-75 A 4 b and if there was a sample letter to review. Unfortunately, a sample letter is not available. To satisfy the regulation, companies include the following statement in the letter:  
  
"The insured has a right to a revised premium rate or rate schedule upon request."
6. So that the disclosure that all options may not be of equal value should be emphasized in some fashion that brings attention to it such as bolding, highlighting or using larger print.
7. In regards to the Contingent Benefit Upon Lapse paragraph, the letter states to determine the number of days payable, the sum of all premiums paid is divided by the Daily Benefit of Lapse. Because the amount payable could only be 30 times the daily nursing home benefit, this may be confusing. If the sum of the total premiums paid exceed the remaining maximum benefits available prior to the policy lapsing, how is the number of days determined?

**State:** Virginia  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

**Filing Company:** Medico Insurance Company

8. Please advise if any partnership policies have been issued in Virginia.

### Objection 2

- RI-17-VA-CBUL, RI-17-VA-CBUL (Form)

Comments: According to your response, the Contingent Benefit Upon Lapse will not be offered to anyone who is eligible for a Return of Premium Benefit. This is not in compliance with 14VAC5-200-75 D 2 a. It would seem the insured should have a choice to exercise the return of premium benefit or choose to have a paid up policy. Please advise.

### Objection 3

- RI-17-VA-FAQ, RI-17-VA-FAQ (Form)

Comments: Our objection as previously stated regarding the Company's name in the policyholder letter applies to this form as well.

Since this form is specific to Virginia only, we suggest the response refer to the Virginia Life, Accident & Sickness Insurance Guaranty Association. The website is [www.valifega.org](http://www.valifega.org).

### Objection 4

- Certification of Compliance (Supporting Document)

Comments: We look forward to receiving the required Certification of Compliance with your next response.

### Objection 5

- RI-17-VA, RI-17-VA (Form)  
- RI-17-VA-BAO, RI-17-VA-BAO (Form)  
- RI-17-VA-CBUL, RI-17-VA-CBUL (Form)  
- RI-17-VA-FAQ, RI-17-VA-FAQ (Form)

Comments: Please attach a Statement of Variability to Supporting Documentation for all forms in which variability is applicable.

### Objection 6

- VA 2017 Rates - MP-3358, [MP-3358, UR2038, UR2048, UR275, UR589R] (Rate)  
- VA 2017 Rates - MP-LT692, [MP-LT692, UR295, UR295C, UR592] (Rate)  
- VA 2017 Rates - MP-LT694/ML-LT694, [MP-LT694, ML-LT694, UR268, UR273, UR-AB-287] (Rate)

Comments: Thank you for your response indicating implementing the increase in a series is a possibility. Since such an implementation would require changes in the filing, we suggest we wait until such time the review of the filing is near completion before such changes are required.

### Objection 7

- RI-17-VA-BAO, RI-17-VA-BAO (Form)

Comments: Please disclose in this form that all benefit options may not be equal. As a disclosure this should be emphasized such as by bolding, highlighting or using larger text. Although the policyholder letter includes this disclosure, this is the form the insured would complete and should be reminded of this a second time to avoid any potential misunderstanding by the insured.

### Objection 8

- Objection Response 10-5-2017 (Supporting Document)

Comments: Please provide a Statement of Variability for the Benefit Adjustment Rider.

We have a concern regarding the CNF Election Confirmation letter. If the sum of the total premiums paid exceed the remaining maximum benefits available prior to the policy lapsing, how is the paid up value determined.

### Objection 9

---

**State:** Virginia **Filing Company:** Medico Insurance Company  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. While the Bureau will take the Company's objections into account in its analysis, please provide the sensitivity projections as requested in our previous objection.

2. The memorandum states that these policies were issued beginning in 1987 when the statutory valuation interest rate exceeded 4.5%. Please provide the average statutory valuation interest rate for the inforce policies represented in the projections.

3. Please provide separate projections for policies with and without inflation.

**Conclusion:**

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Janet Houser

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	11/06/2017
Submitted Date	11/06/2017
Respond By Date	

---

Dear Beverly Toomey,

**Introduction:**

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

Through an oversight the language regarding the Contingent Benefit Upon Lapse in item 5 b and item 7 a under objection one should be revised to indicate the paid up value will be the greater of 100% of the sum of all premiums paid or 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the maximum benefits which would be payable if the policy remained in a premium paying status.

**Conclusion:**

We shall be glad to reconsider this submission upon receipt of the information noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Janet Houser

**Project Name/Number:** /

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	11/01/2017
Submitted Date	11/01/2017
Respond By Date	12/01/2017

Dear Beverly Toomey,

### Introduction:

One or more Items included within the submission were found to be in non-conformity with statutory, regulatory or administrative requirements as set forth below.

### Objection 1

- L&H Actuarial Memorandum (Supporting Document)
- Long Term Care Insurance Rate Request Summary (Supporting Document)
- RI-17-VA, RI-17-VA (Form)

Comments: 1. The Company amended the Rate/Rule Schedule to reflect the following policy form numbers: MP-LT692, UR294, UR295C and UR592. The Company indicated Policy Form 3358 was included in the experience; however, a rate increase for this form is not being requested at this time. The memorandum also refers to Policy Form LT694 and Rider Forms UR268, UR273, and UR-AB-87; however, these forms are not included in the Rate/Rule Schedule. Please clarify.

2. Thank you for the revised Long Term Care Rate Request Summary. The form numbers, however, should correspond with the form numbers listed in the Rate/Rule Summary and should be revised accordingly. In addition, the explanation for the reason for the rate increase should be expanded to clearly identify the drivers of the rate increase. For example:

Our rates are based on assumptions regarding persistency (how long the policy stays in force), mortality (at what rate deaths occur), and voluntary lapses (when an insured voluntarily terminates his policy). Actual results are much higher than anticipated when these policies were originally priced which means that individuals are living longer and, keeping their policies in force longer which results in more claims incurred. As a result, premiums must be adjusted to ensure current and future claims are adequately funded.

3. The Company indicated in its response to objection 3, item 4 the overall percentage increase should be 45.32%. We note this has been updated to 53.07%. The purpose in the Actuarial Memorandum continues to state 45.32%. Please amend the Actuarial Memorandum accordingly.

4. Thank you for providing the Benefit Adjustment Rider which will be used to update the policy. Is there not a similar form if the Contingent Benefit Upon Lapse is exercised? We appreciate the copy of the confirmation letter; however, it is unclear how the policy itself is updated in this event. Is the Benefit Adjustment Rider used for this purpose? Please advise.

5. Please address for following concerns regarding the policyholder letter:

- Please replace the draft version of the policyholder letter with a final version in the Form Schedule for review.
- We note the letter is currently written on TriPlus Services, Inc. letterhead. In accordance with 14VAC5-200-100-50 2, the full and proper corporate name of the insurer shall prominently appear on the letter. The use of a name of an affiliated company in such a way implies that another company is responsible for the obligations undertaken in the policy is prohibited. Please revise the letter accordingly and include the city and state in which the home office of the company is located. Please indicate in the letter the policy is being serviced and administered by TriPlus Services, Inc.
- Please expand the reasons in the letter for the rate increase as noted in our previous objection 2.
- For compliance with 14VAC5-200-75 D 1, please include language in the letter the insured as a right to request a revised premium

**State:** Virginia  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

rate or rate schedule as noted in 14VAC5-200-75 A 4 b.

e) For compliance with 14VAC5-200-75 D 2 b, please include a disclosure in the letter stating that all options available to the policyholder may not be of equal value. Since this is a disclosure, the statement should be emphasized in some manner that brings attention it such as bolding, highlighting or using larger print. This would also apply to 14VAC5-200-75 D 2 c which is a required disclosure that in the case of partnership policies, some benefit reduction may result in the loss of partnership statue that may reduce policyholder protections. Please confirm if there are any partnership policies issued and active at this time.

f) The Contingent Benefit Upon Lapse form includes a statement that this is a pool of money that you can use to fund future long-term care expenses. That statement is potentially misleading and should be removed. For compliance with 14VAC5-200-185 E 3 the Contingent Benefit Upon Lapse paragraph should be restated to say the paid up value is based on the premium paid to date but will be no less than 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the maximum benefits which would be payable if the policy remained in a premium paying status.

6. The Benefit Adjustment Option Return Form on pages 3 and 4 are designed to be removed from the letter and returned to the Company. 14VAC5-100-40 1 provides that each form submitted must have a form number and that form number must distinguish the form from all other form numbers. For regulatory conformity, any page (or section) that will not remain with the policyholder letter should not bear the same form number as that of the policyholder letter. In other words, a form should always remain complete; by removing pages, the form becomes incomplete. As a result, please make the Benefit Adjustment Option Return Form a separate form and attach it to Supporting Documentation for review assuming it is not attached to the policy at a later date. Please revise the wording in the policyholder letter to indicate the form is enclosed rather than attached. In addition, this form should reflect the full and proper corporate name and address of the insurer rather than TriPlus Services, Inc.

If this form becomes is attached and becomes a part of the policy, please attach it as a separate form to the Form Schedule rather than Supporting Documentation. A unique

form number (different than the policyholder letter) would need to be included in the lower left hand corner for compliance with 14VAC5-100-50 1.

The above would also apply to the Contingent Benefit Upon Lapse form.

7. a) Our previous objection also applies to the Request to Exercise the Contingent Benefit Upon Lapse benefit which should also be a separate form. Again, the Contingent Benefit Upon Lapse paragraph should be restated to say the paid up value is based on the premium paid to date but will be no less than 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the maximum benefits which would be payable if the policy remained in a premium paying status.

b) Will the Contingent Benefit Upon Lapse benefit be offered to everyone or only those who meet the trigger points as set forth in 14VAC5-185 D 3 as revised effective September 2015?

8.a) The closing paragraph of the letter refers to the enclosed Frequently Asked Questions (FAQ) document. Since this is an enclosure, this should be a separate form with a separate form number in the lower left hand corner and attached to the Form Schedule for review. The form should also reflect the full and proper corporate name and address of the insurer rather than TriPlus Services, Inc.

b) Please expand the response in the FAQ regarding Will my premium continue to increase to indicate any increase will be subject to review and approval by the Virginia State Corporation Commission before implementation.

c) Please explain under what conditions no specific options would be included in the letter as stated in the response to the question What are the options to reduce my coverage in the FAQ.

d) Please expand the response to the question I am currently receiving Long Term Care benefits. Do I have to remit the new premium? to indicate what happens if the person does qualify under the waiver of premium benefits and then returns to a premium payment status. The insured should be reminded that benefits may be made at any time and not just at the time of a rate increase.

9. Please attach a Statement of Variability to Supporting Documentation for all forms and letters.

10. Please provide a Certification of Compliance in accordance with 14VAC5100-40 3 since the filing will contain letter and/or other

**State:** Virginia  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

form attachments.

Because the letters are to be filed a readability certification is not required; however such certification is required for any form that will be attached to the policy pursuant to 14VAC5-100-50.

11. In lieu of a single increase, the Bureau may approve a series of scheduled rate increases that are actuarially equivalent to the single amount requested by the insurer over the lifetime of the policy. The entire series would be approved at one time as part of the current increase filing. If the rate increase is approved in a series of scheduled rate increases and the sum of all scheduled rate increases would ultimately trigger the offering of the contingent benefit upon lapse, the insurer will be required to include contingent benefit upon lapse at the time of each scheduled increase. If the company is agreeable to this, what implementation schedule would be offered?

If a series is offered, the notification required in 14VAC5-200-75 D would be required at the time of each increase. As a result the policyholder letter would need to be amended to include the appropriate variability or attach additional letters to the Form Schedule to be used at each implementation period.

In addition, the Actuarial Memorandum would need to be amended accordingly regarding the implementation of the rate increase as a series.

## Objection 2

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. We note from the information provided in the Claim Cost Study worksheet that considerable judgment was used in smoothing the data in order to arrive at the 1.31 A/E factor. For comparison purposes, two other reasonable measures of the A/E could be used that would result in a much lower factor. First, the unsmoothed data produces a factor of 1.18; second, the historical A/E for durations 10+ results in a factor of 1.02. As a sensitivity, please provide the results from section 9 of the memorandum using these two factors.

2. Since many different projections were provided with the 2013 filing, please detail which projection is being used to arrive at the data in the chart in section 9 of the memorandum.

3. If possible, please provide a projection consistent with the data and assumptions from the 2013 filing but using the Virginia rate level at that point in time. This would be the 2013 corollary to tabs 3&4 of the spreadsheet Virginia Exhibits 2017.

## Conclusion:

We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Sincerely,  
Bobby Toone

**State:** Virginia

## Objection Letter

Objection Letter Status	Info has been requested from company
Objection Letter Date	08/24/2017
Submitted Date	08/30/2017
Respond By Date	09/07/2017

Dear Beverly Toomey,

### Introduction:

The submission is DISAPPROVED and may not be used in the Commonwealth of Virginia.

A preliminary rate review of the submitted filing indicates the following concerns and questions. We'll continue our review of the submitted filing upon receipt of the following information.

### Objection 1

- VA 2017 Rates, [LT692, LT694] (Rate)

Comments: 1) According to the Actuarial Memorandum, this filing is applicable to Policy Forms 3358, LT692, and LT694 with numerous riders. Please amend the Affected Form Numbers in the Rate/Rule Schedule in SERFF to include each policy and rider form number exactly as approved and attach the appropriate rate schedules.

2) In the previous SERFF filing number MDTP-129116516 the Number of Policyholders Affected for this Program were 51. This current filing lists 155 policyholders. Please explain.

3) The current filing indicates the Overall Percentage of Last Revision as 69.302%; however, the previous filing MDTP-129116516 was approved for 70.632%. Please make the appropriate corrections including correcting item 8 in the Actuarial Memorandum.

4) The Overall % Indicated Change in the Rate/Rule Schedule should reflect the the percentage increase that would be required to meet the minimum loss ratio requirement as set forth in 14VAC5-200-150 B. Please amend accordingly.

### Objection 2

- Long Term Care Insurance Rate Request Summary (Supporting Document)

Comments: Thank you for providing the Rate Request Summary. This form, however, has been updated and we have attached a revised form to be completed.

Please include all the policy and rider form numbers exactly as approved and attach a brief narrative that summarizes the key information used to develop the rates including the main drivers. Our expectation is that the form would provide in consumer-friendly language a clear explanation that justifies the rate increase. This should be fairly easy to understand without going too deep into the details, and at least explain to the consumer the assumptions and changes that are driving the need for an increase.

### Objection 3

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1) Please confirm that all policies are pre-stability policies issued prior to October 1, 2003 and subject to 14VAC5-200-150. If any policies were issued on or after that date, such policies would be subject to 14VAC5-200-153 and the filing, including all exhibits should be revised accordingly.

As set forth in 14VAC5-200-150 B, all present and accumulated values used to determine rate increases, including the lifetime loss ratio used in the original pricing, shall use the maximum interest rate for contract reserves as specified in Section 38.2-1371 of the Code of Virginia.

**State:** Virginia **Filing Company:** Medico Insurance Company  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

2) Based on the revised 14VAC5-200-150 B, benefits will be deemed reasonable for pre-stability policies only provided the expected loss ratio is greater of 60% or the lifetime loss ratio used in the original pricing applied to the current rate schedule plus 80% applied to any premium rate increase for individual policies.

3) Please provide the following for each block of business:

- a) Re-state the nationwide experience using Virginia approved rates.
- b) Sufficient detail or documentation so that any projections can be recreated. Please provide a copy of all projections in Excel with working formulas.
- c) A separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would be if the proposed premium had been charged (collected) since the form's introduction.
- d) An actual-to-expected analysis on each assumption, with expected on both original and current assumption basis.
- e) A step-by-step quantification of the impact of the change in each assumption from the original assumptions to the current assumptions.
- f) Use the average maximum statutory valuation interest rate for each block of business to accumulate and discount cash flows.

4) In section 2, Scope of Filing in the Actuarial Memorandum, the Company stated "We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce." Under the Rate Action Information in SERFF a 45.32% Percent Rate Change Request has been requested. Please resolve the discrepancy and amend the filing accordingly.

5) We are aware a separate filing has been submitted for Ability Insurance Company which was formerly Medico Life Insurance Company and the experience and projections have been combined accordingly. Although this is the case, the heading in the rate attachments should only refer to the name of the company for which this filing is applicable; in this case Medico Insurance Company. Please amend the attachments accordingly.

6) Please advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.

7) Please provide a loss ratio projection reflecting the actual historical experience during the historical experience period and then, utilizing the actual inforce as of the projection date, projecting forward the expected earned premiums and incurred claims using the original pricing assumptions for interest, mortality, morbidity and persistency into the future and assuming the future premiums are paid based on the original premium scale as if no increases had ever been implemented.

8) Please provide a loss ratio projection (both past and future) which reflects all of the original pricing assumptions for interest, mortality, morbidity, persistency and premium scale, but uses the actual distribution of policies as issued rather than the originally assumed mix of business.

9) Please provide the original targeted pricing loss ratio when the policies were originally approved.

10) Please provide a detailed explanation of the data sources and actuarial review performed in setting each assumption, including discussion of any adjustments made to reflect the company's unique business.

11) Please provide the reserve basis and justification for the reserve levels provided.

12) If this increase is approved and experience develops as anticipated, will the company forgo increases in the future? If not, what

**State:** Virginia  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

would trigger a rate increase in the future? In other words, what targeted loss ratio does the company plans to manage this block in the future?

13) For each projection provided, please provide the anticipated future loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated earned premium.

14) In addition to experience exhibits, please include projection exhibits based on Virginia data as well.

15) In Section 4 of the Actuarial Memorandum you state, "We notify policyholders 60 days in advance before implementing a rate increase... 14VAC5-200-75 D says, "An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificate holders, if applicable, at least 75 days prior to the implementation of the premium rate schedule increase by the insurer." Please amend the Actuarial Memorandum to be in compliance with this.

#### Objection 4

Comments: The Virginia State Corporation Commission adopted revisions to the Rules Governing Long-Term Care Insurance set forth in Chapter 200 of Title 14 of the Virginia Administrative Code. Except as specifically provided in the regulation, the changes are effective September 1, 2015. The Order adopting the revisions to the long term care insurance regulation and all related documents are located on the commissions website at <http://www.scc.virginia.gov/DocketSearch#/caseDetails/132748>.

As part of the revisions, the commission revised the requirements for policyholder notifications regarding rate increases as stated in 14 VAC5-200-75 D. A summary of the new requirements are:

The notice is required to be filed with the commission at the time the premium rate increase is filed;

The insurer is required to provide the notice at least 75 days prior to the implementation of the premium rate schedule increase;

The notice is required to include at least the following information:

1. All applicable information identified in 14VAC5-200-75 including A 1 which requires a statement indicating the policy may be subject to future rate increases; A 2 which requires a statement that should there be future rate increases, options similar to those being offered now will be available and that benefits may be changed at any time and not just the time of a rate increase.  
 PROPOSED WORDING: In the event of future rate increases, similar options may be available; however, you can contact us at any time to discuss decreasing your coverage and premiums, per the provisions of your policy.  
 ; A 3 which requires a statement indicating the premium rate or rate schedules that will be effect; A 4 a which requires a statement as to when the premium rate or rate schedule adjustments will be effective; and A 4 b which requires a statement that the insured has a right to a revised premium rate or rate schedule upon request.
2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount, including:
  - a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183;
  - b. A disclosure stating that all options available to the policyholder may not be of equal value. As a disclosure this information should be emphasized by bolding, highlighting, using larger text or some other method that will bring attention to it;
  - c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections. As stated above, the information should be emphasized to bring attention to it; and
  - d. Contact information that will allow the policyholder to contact the insurer for additional options available;
3. A clear identification of the driving factors of the premium rate increase; and
4. A statement substantially similar to the following:

The rate increase request was reviewed by Virginias State Corporation Commission and was found to be compliant with applicable

**State:** Virginia  
**TOI/Sub-TOI:** LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified  
**Product Name:** 3358 et al  
**Project Name/Number:** /

Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at [www.scc.virginia.gov/BOI](http://www.scc.virginia.gov/BOI).

Because the letter must be "filed", please attach the letter to the Form Schedule in SERFF in compliance with the requirements of Chapter 100 of Title 14 of the Virginia Administrative Code including a Certification of Compliance. The letter will require a form number in the lower left hand corner. Please ensure the full and proper corporate name of the insurer prominently appears in the letter. Please include a Statement of Variability, if applicable.

### **Objection 5**

**Comments:** Please explain how a policy is updated to reflect any benefit changes the insured may choose to reduce the effects of the rate increase. If the policy is revised or changed in any way, the policyowner must first agree to the changes and the policy must be amended or endorsed by an approved form such as a rider, endorsement, application or schedule of benefits that has been reviewed and approved by the Virginia Bureau of Insurance. The document must be dated or have an indication of the effective date of change in the policy benefits, state that a change is being made to the policy and this new document will be made a part of the contract. If the company has such forms available for this purpose, please provide a copy of the form, the SERFF tracking number and date of approval. If the company does not have any available documents to effectuate such changes, a form will need to be submitted for review and approval. It can be attached to this filing if desired. Please keep in mind, there are several options provided in the policyholder letter to reduce the effect of the rate increase. Please be sure all options are covered in the new form or forms including the contingent benefit upon lapse and/or optional nonforfeiture benefit. If the company chooses to include variability in the form, please provide a statement of variability. A Certification of Compliance would be required in accordance with 14VAC5-100-40 3 as well as a readability certification in accordance with 14VAC5-110-60.

### **Conclusion:**

We shall be glad to reconsider this submission upon receipt of the revised information necessary to address the objections noted above. Should you need clarification of any of the information contained in this letter, please contact the undersigned.

Thank you for your courtesy and consideration in this matter.

Should you have any questions, please don't hesitate to call me at 804-371-9748.

Sincerely,  
Bobby Toone

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	09/03/2020
Submitted Date	09/04/2020

Dear Bobby Toone,

### Introduction:

### Response 1

#### Comments:

Please see our response on the Supporting Documentation Tab. A revised Sample Rate Increase Letter is attached on the Form Schedule Tab.

### Related Objection 1

Applies To:

- RI-17-VA, RI-17-VA (Form)

Comments: Under the heading of "Enclosures", provide a list of the forms that will be included with Form RI-17-VA. If the form may not be sent to every policyholder (such as form RI-17-VA-BAO), that form would need to be shown in brackets; with an explanation for the brackets in the Statement of Variability.

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	07/23/2020
Submitted Date	07/23/2020

Dear Bobby Toone,

### Introduction:

### Response 1

#### Comments:

Please see the attached response letter.

### Related Objection 1

Applies To:

- RI-17-VA, RI-17-VA (Form)

Comments: 1. Please submit a Certificate of Readability in accordance with the requirements in 14VAC5-101-70 F.

2. The website for the Bureau of Insurance has changed. Please use the current website:

<https://scc.virginia.gov/boi/SERFFInquiry/LtcFilings.aspx>

3. Virginia Regulation 14VAC5-200-75 A 4(b) requires that the policyholder notification should contain a statement that the policyholder has the right to a revised premium rate or rate schedule in the event of a rate increase. Please make the necessary revisions to include this statement in the policyholder letter.

## Response 2

### Comments:

Please see the attached response letter.

## Related Objection 2

Applies To:

- RI-17-VA-FAQ, RI-17-VA-FAQ (Form)

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

Comments: 1. The first paragraph of the FAQ uses "the Company" to refer to the corporate name with no explanation. Please use an identifier such as Ability Insurance Company (the Company) the first time the reference is used in the body of the document.

2. To simplify things in the event your Customer Service phone number needs to be changed, you might consider putting brackets around the contact phone numbers in the FAQ. These would then need to be described in the Statement of Variability.

Dear Bobby Toone,

### Introduction:

### Response 1

#### Comments:

Please see our response on the Supporting Documentation Tab.

### Related Objection 1

Applies To:

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. It is noted in the Companys response regarding the original rate level and original assumptions projection, these projections are not based on seriatim projections of the originally issued policies. We are concerned that different methodologies are being used in different projections. Please provide further discussion of the methodology used in each projection; i.e., are the current and proposed projections based on a seriatim projection of the current inforce policies? If so, please explain why the original projections cannot be performed with the original cohort of policies.

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	02/05/2019
Submitted Date	02/05/2019

Dear Bobby Toone,

### Introduction:

### Response 1

#### Comments:

Please see our response on the Supporting Documentation Tab. A revised sample letter is attached on the Form Schedule Tab.

### Related Objection 1

Applies To:

- RI-17-VA, RI-17-VA (Form)

Comments: In accordance with 14VAC5-100-50 2, "The use of a trade name or the name of an affiliated company on a policy form in such a way that implies that another company is responsible for the obligations undertaken in the policy is prohibited."

Please remove the name TriPlus Services, Inc. from the letter.

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	07/18/2018
Submitted Date	07/18/2018

Dear Bobby Toone,

### Introduction:

### Response 1

#### Comments:

Please see our response on the Supporting Documentation Tab.

### Related Objection 1

Applies To:

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1) We are unable to match the PV of past claims shown on the projections for policies with and without inflation. For example, the PV of the stream of incurred claims for Non-inflation from 1988-2016 is shown on the exhibit as \$1,935,947,964, but when calculated at 4.5% comes to \$2,121,676,380. We are able to match the PV of earned premium on the same exhibit exactly, so it is not a problem with methodology. Please provide an explanation for this discrepancy.

2) Please provide a breakdown of the active life reserve @ 12/31/2016 for policies with and without inflation.

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	03/01/2018
Submitted Date	03/01/2018

Dear Bobby Toone,

### **Introduction:**

### **Response 1**

#### **Comments:**

Please see our response and Statements of Variability on the Supporting Documentation Tab. Revised Sample Letters are attached on the Form Schedule Tab.

### **Related Objection 1**

Applies To:

- RI-17-VA, RI-17-VA (Form)

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

Comments: Thank you for responding to our concerns regarding the policyholder letters. Although some of our concerns have been resolved, please address the following:

1. According to your response, final versions of the letter without the draft watermark were attached. It does not appear, however, final versions of the letter were attached.
2. Thank you for your response regarding the use of the TriPlus header. We agree the full and proper name of the insured appears; however, the font is the smaller than any font in the letter. Pursuant to 14VAC5-100-50 5, a type size of at least 10 point is required. For compliance with the regulation, please enlarge the print accordingly.
3. So that there is no potential confusion on the part of the insured or that any information may be misleading, the letter should clearly state this letter is being sent by TriPlus Services Inc. on behalf of Medico Insurance Company. The name of the Company in the first sentence should be bolded and be in larger type.
4. The reason provided in the letter does not clearly identify the drivers of the rate increase. It does not explain why anticipated claims payments are greater than expected. What assumptions used at the time the policy was originated priced have changed and why. It would appear that the narrative attached to the Long Term Care Rate Request Summary provides a better explanation the letter should be amended accordingly.
5. The Company was unsure as to what to include in the letter for compliance with 14VAC5-200-75 A 4 b and if there was a sample letter to review. Unfortunately, a sample letter in not available. To satisfy the regulation, companies include the following statement in the letter:  
  
"The insured has a right to a revised premium rate or rate schedule upon request."  
  
6. So that the disclosure that all options may not be of equal value should be emphasized in some fashion that brings attention to it such as bolding, highlighting or using larger print.
7. In regards to the Contingent Benefit Upon Lapse paragraph, the letter states to determine the number of days payable, the sum of all premiums paid is divided by the Daily Benefit of Lapse. Because the amount payable could only be 30 times the daily nursing home benefit, this may be confusing. If the sum of the total premiums paid exceed the remaining maximum benefits available prior to the policy lapsing, how is the number of days determined?
8. Please advise if any partnership policies have been issued in Virginia.

No Rate/Rule Schedule items changed.

## Response 2

### Comments:

Please see our response under Objection 1.

## Related Objection 2

Applies To:

- RI-17-VA-CBUL, RI-17-VA-CBUL (Form)

Comments: According to your response, the Contingent Benefit Upon Lapse will not be offered to anyone who is eligible for a Return of Premium Benefit. This is not in compliance with 14VAC5-200-75 D 2 a. It would seem the insured should have a choice to exercise the return of premium benefit or choose to have a paid up policy. Please advise.

Applies To:

- VA 2017 Rates - MP-LT692, [MP-LT692, UR295, UR295C, UR592] (Rate)
- VA 2017 Rates - MP-LT694/ML-LT694, [MP-LT694, ML-LT694, UR268, UR273, UR-AB-287] (Rate)
- VA 2017 Rates - MP-3358, [MP-3358, UR2038, UR2048, UR275, UR589R] (Rate)

Comments: Thank you for your response indicating implementing the increase in a series is a possibility. Since such an implementation would require changes in the filing, we suggest we wait until such time the review of the filing is near completion before such changes are required.

### Changed Items:

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

### Response 7

#### Comments:

Please see our response under Objection 1.

### Related Objection 7

Applies To:

- RI-17-VA-BAO, RI-17-VA-BAO (Form)

Comments: Please disclose in this form that all benefit options may not be equal. As a disclosure this should be emphasized such as by bolding, highlighting or using larger text. Although the policyholder letter includes this disclosure, this is the form the insured would complete and should be reminded of this a second time to avoid any potential misunderstanding by the insured.

### Changed Items:

## Response Letter

Response Letter Status	Submitted to State
Response Letter Date	12/01/2017
Submitted Date	12/01/2017

*Dear Bobby Toone,*

### **Introduction:**

### **Response 1**

#### **Comments:**

*Please see the attached response. Note that all response items are attached to both Objection items.*

### **Related Objection 1**

*Applies To:*

- *RI-17-VA, RI-17-VA (Form)*
- *L&H Actuarial Memorandum (Supporting Document)*
- *Long Term Care Insurance Rate Request Summary (Supporting Document)*

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

Comments: 1. The Company amended the Rate/Rule Schedule to reflect the following policy form numbers: MP-LT692, UR294, UR295C and UR592. The Company indicated Policy Form 3358 was included in the experience; however, a rate increase for this form is not being requested at this time. The memorandum also refers to Policy Form LT694 and Rider Forms UR268, UR273, and UR-AB-87; however, these forms are not included in the Rate/Rule Schedule. Please clarify.

2. Thank you for the revised Long Term Care Rate Request Summary. The form numbers, however, should correspond with the form numbers listed in the Rate/Rule Summary and should be revised accordingly. In addition, the explanation for the reason for the rate increase should be expanded to clearly identify the drivers of the rate increase. For example:

Our rates are based on assumptions regarding persistency (how long the policy stays in force), mortality (at what rate deaths occur), and voluntary lapses (when an insured voluntarily terminates his policy). Actual results are much higher than anticipated when these policies were originally priced which means that individuals are living longer and, keeping their policies in force longer which results in more claims incurred. As a result, premiums must be adjusted to ensure current and future claims are adequately funded.

3. The Company indicated in its response to objection 3, item 4 the overall percentage increase should be 45.32%. We note this has been updated to 53.07%. The purpose in the Actuarial Memorandum continues to state 45.32%. Please amend the Actuarial Memorandum accordingly.

4. Thank you for providing the Benefit Adjustment Rider which will be used to update the policy. Is there not a similar form if the Contingent Benefit Upon Lapse is exercised? We appreciate the copy of the confirmation letter; however, it is unclear how the policy itself is updated in this event. Is the Benefit Adjustment Rider used for this purpose? Please advise.

5. Please address for following concerns regarding the policyholder letter:

a) Please replace the draft version of the policyholder letter with a final version in the Form Schedule for review.

b) We note the letter is currently written on TriPlus Services, Inc. letterhead. In accordance with 14VAC5-200-100-50 2, the full and proper corporate name of the insurer shall prominently appear on the letter. The use of a name of an affiliated company in such a way implies that another company is responsible for the obligations undertaken in the policy is prohibited. Please revise the letter accordingly and include the city and state in which the home office of the company is located. Please indicate in the letter the policy is being serviced and administered by TriPlus Services, Inc.

c) Please expand the reasons in the letter for the rate increase as noted in our previous objection 2.

d) For compliance with 14VAC5-200-75 D 1, please include language in the letter the insured as a right to request a revised premium rate or rate schedule as noted in 14VAC5-200-75 A 4 b.

e) For compliance with 14VAC5-200-75 D 2 b, please include a disclosure in the letter stating that all options available to the policyholder may not be of equal value. Since this is a disclosure, the statement should be emphasized in some manner that brings attention it such as bolding, highlighting or using larger print. This would also apply to 14VAC5-200-75 D 2 c which is a required disclosure that in the case of partnership policies, some benefit reduction may result in the loss of partnership statue that may reduce policyholder protections. Please confirm if there are any partnership policies issued and active at this time.

f) The Contingent Benefit Upon Lapse form includes a statement that this is a pool of money that you can use to fund future long-term care expenses. That statement is potentially misleading and should be removed. For compliance with 14VAC5-200-185 E 3 the Contingent Benefit Upon Lapse paragraph should be restated to say the paid up value is based on the premium paid to date but will be no less than 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the maximum benefits which would be payable if the policy remained in a premium paying status.

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

6. The Benefit Adjustment Option Return Form on pages 3 and 4 are designed to be removed from the letter and returned to the Company. 14VAC5-100-40 1 provides that each form submitted must have a form number and that form number must distinguish the form from all other form numbers. For regulatory conformity, any page (or section) that will not remain with the policyholder letter should not bear the same form number as that of the policyholder letter. In other words, a form should always remain complete; by removing pages, the form becomes incomplete. As a result, please make the Benefit Adjustment Option Return Form a separate form and attach it to Supporting Documentation for review assuming it is not attached to the policy at a later date. Please revise the wording in the policyholder letter to indicate the form is enclosed rather than attached. In addition, this form should reflect the full and proper corporate name and address of the insurer rather than TriPlus Services, Inc. If this form becomes is attached and becomes a part of the policy, please attach it as a separate form to the Form Schedule rather than Supporting Documentation. A unique form number (different than the policyholder letter) would need to be included in the lower left hand corner for compliance with 14VAC5-100-50 1. The above would also apply to the Contingent Benefit Upon Lapse form.

7. a) Our previous objection also applies to the Request to Exercise the Contingent Benefit Upon Lapse benefit which should also be a separate form. Again, the Contingent Benefit Upon Lapse paragraph should be restated to say the paid up value is based on the premium paid to date but will be no less than 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the maximum benefits which would be payable if the policy remained in a premium paying status. b) Will the Contingent Benefit Upon Lapse benefit be offered to everyone or only those who meet the trigger points as set forth in 14VAC5-185 D 3 as revised effective September 2015?

8.a) The closing paragraph of the letter refers to the enclosed Frequently Asked Questions (FAQ) document. Since this is an enclosure, this should be a separate form with a separate form number in the lower left hand corner and attached to the Form Schedule for review. The form should also reflect the full and proper corporate name and address of the insurer rather than TriPlus Services, Inc. b) Please expand the response in the FAQ regarding Will my premium continue to increase to indicate any increase will be subject to review and approval by the Virginia State Corporation Commission before implementation. c) Please explain under what conditions no specific options would be included in the letter as stated in the response to the question What are the options to reduce my coverage in the FAQ. d) Please expand the response to the question I am currently receiving Long Term Care benefits. Do I have to remit the new premium? to indicate what happens if the person does qualify under the waiver of premium benefits and then returns to a premium payment status. The insured should be reminded that benefits may be made at any time and not just at the time of a rate increase.

9. Please attach a Statement of Variability to Supporting Documentation for all forms and letters.

10. Please provide a Certification of Compliance in accordance with 14VAC5100-40 3 since the filing will contain letter and/or other form attachments. Because the letters are to be filed a readability certification is not required; however such certification is required for any form that will be attached to the policy pursuant to 14VAC5-100-50.

11. In lieu of a single increase, the Bureau may approve a series of scheduled rate increases that are actuarially equivalent to the single amount requested by the insurer over the lifetime of the policy. The entire series would be approved at one time as part of the current increase filing. If the rate increase is approved in a series of scheduled rate

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

increases and the sum of all scheduled rate increases would ultimately trigger the offering of the contingent benefit upon lapse, the insurer will be required to include contingent benefit upon lapse at the time of each scheduled increase. If the company is agreeable to this, what implementation schedule would be offered?

If a series is offered, the notification required in 14VAC5-200-75 D would be required at the time of each increase. As a result the policyholder letter would need to be amended to include the appropriate variability or attach additional letters to the Form Schedule to be used at each implementation period.

In addition, the Actuarial Memorandum would need to be amended accordingly regarding the implementation of the rate increase as a series.

## Response 2

### Comments:

Please see the attached response. Note that all response items are attached to both Objection items.

## Related Objection 2

Applies To:

- L&H Actuarial Memorandum (Supporting Document)

Comments: 1. We note from the information provided in the Claim Cost Study worksheet that considerable judgment was used in smoothing the data in order to arrive at the 1.31 A/E factor. For comparison purposes, two other reasonable measures of the A/E could be used that would result in a much lower factor. First, the unsmoothed data produces a factor of 1.18; second, the historical A/E for durations 10+ results in a factor of 1.02. As a sensitivity, please provide the results from section 9 of the memorandum using these two factors.

2. Since many different projections were provided with the 2013 filing, please detail which projection is being used to arrive at the data in the chart in section 9 of the memorandum.

3. If possible, please provide a projection consistent with the data and assumptions from the 2013 filing but using the Virginia rate level at that point in time. This would be the 2013 corollary to tabs 3&4 of the spreadsheet Virginia Exhibits 2017.

Response Letter Status	Submitted to State
Response Letter Date	10/05/2017
Submitted Date	10/05/2017

Dear Bobby Toone,

### Introduction:

Please see the attached response to the objection letter. The full written response is attached to Objection 1 below. We have also created a post-submission update related to this response.

### Response 1

#### Comments:

Please see the attached response to the objection letter.

### Related Objection 1

Applies To:

- VA 2017 Rates, [LT692, LT694] (Rate)

Comments: 1) According to the Actuarial Memorandum, this filing is applicable to Policy Forms 3358, LT692, and LT694 with numerous riders. Please amend the Affected Form Numbers in the Rate/Rule Schedule in SERFF to include each policy and rider form number exactly as approved and attach the appropriate rate schedules.

2) In the previous SERFF filing number MDTP-129116516 the Number of Policyholders Affected for this Program were 51. This current filing lists 155 policyholders. Please explain.

3) The current filing indicates the Overall Percentage of Last Revision as 69.302%; however, the previous filing MDTP-129116516 was approved for 70.632%. Please make the appropriate corrections including correcting item 8 in the Actuarial Memorandum.

4) The Overall % Indicated Change in the Rate/Rule Schedule should reflect the the percentage increase that would be required to meet the minimum loss ratio requirement as set forth in 14VAC5-200-150 B. Please amend accordingly.

- Long Term Care Insurance Rate Request Summary (Supporting Document)

Comments: Thank you for providing the Rate Request Summary. This form, however, has been updated and we have attached a revised form to be completed.

Please include all the policy and and rider form numbers exactly as approved and attach a brief narrative that summarizes the key information used to develop the rates including the main drivers. Our expectation is that the form would provide in consumer-friendly language a clear explanation that justifies the rate increase. This should be fairly easy to understand without going too deep into the details, and at least explain to the consumer the assumptions and changes that are driving the need for an increase.

### Response 3

#### Comments:

Please see the attached response to the objection letter. The full written response is attached to Objection 1 above.

### Related Objection 3

Applies To:

- L&H Actuarial Memorandum (Supporting Document)

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

Comments: 1) Please confirm that all policies are pre-stability policies issued prior to October 1, 2003 and subject to 14VAC5-200-150. If any policies were issued on or after that date, such policies would be subject to 14VAC5-200-153 and the filing, including all exhibits should be revised accordingly. As set forth in 14VAC5-200-150 B, all present and accumulated values used to determine rate increases, including the lifetime loss ratio used in the original pricing, shall use the maximum interest rate for contract reserves as specified in Section 38.2-1371 of the Code of Virginia.

2) Based on the revised 14VAC5-200-150 B, benefits will be deemed reasonable for pre-stability policies only provided the expected loss ratio is greater of 60% or the lifetime loss ratio used in the original pricing applied to the current rate schedule plus 80% applied to any premium rate increase for individual policies.

3) Please provide the following for each block of business:

- Re-state the nationwide experience using Virginia approved rates.
- Sufficient detail or documentation so that any projections can be recreated. Please provide a copy of all projections in Excel with working formulas.
- A separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would be if the proposed premium had been charged (collected) since the form's introduction.
- An actual-to-expected analysis on each assumption, with expected on both original and current assumption basis.
- A step-by-step quantification of the impact of the change in each assumption from the original assumptions to the current assumptions.
- Use the average maximum statutory valuation interest rate for each block of business to accumulate and discount cash flows.

4) In section 2, Scope of Filing in the Actuarial Memorandum, the Company stated "We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce." Under the Rate Action Information in SERFF a 45.32% Percent Rate Change Request has been requested. Please resolve the discrepancy and amend the filing accordingly.

5) We are aware a separate filing has been submitted for Ability Insurance Company which was formerly Medico Life Insurance Company and the experience and projections have been combined accordingly. Although this is the case, the heading in the rate attachments should only refer to the name of the company for which this filing is applicable; in this case Medico Insurance Company. Please amend the attachments accordingly.

6) Please advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.

7) Please provide a loss ratio projection reflecting the actual historical experience during the historical experience period and then, utilizing the actual inforce as of the projection date, projecting forward the expected earned premiums and incurred claims using the original pricing assumptions for interest, mortality, morbidity and persistency into the future and assuming the future premiums are paid based on the original premium scale as if no increases had ever been implemented.

8) Please provide a loss ratio projection (both past and future) which reflects all of the original pricing assumptions for interest, mortality, morbidity, persistency and premium scale, but uses the actual distribution of policies as issued rather than the originally assumed mix of business.

9) Please provide the original targeted pricing loss ratio when the policies were originally approved.

<b>State:</b>	Virginia	<b>Filing Company:</b>	Medico Insurance Company
<b>TOI/Sub-TOI:</b>	LTC05I Individual Long Term Care - Nursing Home and Home Health Care/LTC05I.001 Qualified		
<b>Product Name:</b>	3358 et al		
<b>Project Name/Number:</b>	/		

10) Please provide a detailed explanation of the data sources and actuarial review performed in setting each assumption, including discussion of any adjustments made to reflect the company's unique business.

11) Please provide the reserve basis and justification for the reserve levels provided.

12) If this increase is approved and experience develops as anticipated, will the company forgo increases in the future? If not, what would trigger a rate increase in the future? In other words, what targeted loss ratio does the company plans to manage this block in the future?

13) For each projection provided, please provide the anticipated future loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated earned premium.

14) In addition to experience exhibits, please include projection exhibits based on Virginia data as well.

15) In Section 4 of the Actuarial Memorandum you state, "We notify policyholders 60 days in advance before implementing a rate increase... 14VAC5-200-75 D says, "An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificate holders, if applicable, at least 75 days prior to the implementation of the premium rate schedule increase by the insurer." Please amend the Actuarial Memorandum to be in compliance with this.

*Comments: The Virginia State Corporation Commission adopted revisions to the Rules Governing Long-Term Care Insurance set forth in Chapter 200 of Title 14 of the Virginia Administrative Code. Except as specifically provided in the regulation, the changes are effective September 1, 2015. The Order adopting the revisions to the long term care insurance regulation and all related documents are located on the commissions website at <http://www.scc.virginia.gov/DocketSearch#/caseDetails/132748>.*

*As part of the revisions, the commission revised the requirements for policyholder notifications regarding rate increases as stated in 14 VAC5-200-75 D. A summary of the new requirements are:*

*The notice is required to be filed with the commission at the time the premium rate increase is filed;*

*The insurer is required to provide the notice at least 75 days prior to the implementation of the premium rate schedule increase;*

*The notice is required to include at least the following information:*

- 1. All applicable information identified in 14VAC5-200-75 including A 1 which requires a statement indicating the policy may be subject to future rate increases; A 2 which requires a statement that should there be future rate increases, options similar to those being offered now will be available and that benefits may be changed at any time and not just the time of a rate increase. PROPOSED WORDING: In the event of future rate increases, similar options may be available; however, you can contact us at any time to discuss decreasing your coverage and premiums, per the provisions of your policy.*
- ; A 3 which requires a statement indicating the premium rate or rate schedules that will be effect; A 4 a which requires a statement as to when the premium rate or rate schedule adjustments will be effective; and A 4 b which requires a statement that the insured has a right to a revised premium rate or rate schedule upon request.*
- 2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount, including:*
  - a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183;*
  - b. A disclosure stating that all options available to the policyholder may not be of equal value. As a disclosure this information should be emphasized by bolding, highlighting, using larger text or some other method that will bring attention to it;*
  - c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections. As stated above, the information should be emphasized to bring attention to it; and*
  - d. Contact information that will allow the policyholder to contact the insurer for additional options available;*
- 3. A clear identification of the driving factors of the premium rate increase; and*
- 4. A statement substantially similar to the following:*

*The rate increase request was reviewed by Virginias State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at [www.scc.virginia.gov/BOI](http://www.scc.virginia.gov/BOI).*

*Because the letter must be "filed", please attach the letter to the Form Schedule in SERFF in compliance with the requirements of Chapter 100 of Title 14 of the Virginia Administrative Code including a Certification of Compliance. The letter will require a form number in the lower left hand corner. Please ensure the full and proper corporate*

No Rate/Rule Schedule items changed.

**Response 5**

**Comments:**

Please see the attached response to the objection letter. The full written response is attached to Objection 1 above.

**Related Objection 5**

Comments: Please explain how a policy is updated to reflect any benefit changes the insured may choose to reduce the effects of the rate increase. If the policy is revised or changed in any way, the policyowner must first agree to the changes and the policy must be amended or endorsed by an approved form such as a rider, endorsement, application or schedule of benefits that has been reviewed and approved by the Virginia Bureau of Insurance. The document must be dated or have an indication of the effective date of change in the policy benefits, state that a change is being made to the policy and this new document will be made a part of the contract. If the company has such forms available for this purpose, please provide a copy of the form, the SERFF tracking number and date of approval. If the company does not have any available documents to effectuate such changes, a form will need to be submitted for review and approval. It can be attached to this filing if desired. Please keep in mind, there are several options provided in the policyholder letter to reduce the effect of the rate increase. Please be sure all options are covered in the new form or forms including the contingent benefit upon lapse and/or optional nonforfeiture benefit. If the company chooses to include variability in the form, please provide a statement of variability. A Certification of Compliance would be required in accordance with 14VAC5-100-40 3 as well as a readability certification in accordance with 14VAC5-110-60.

**Changed Items:**

No Supporting Documents changed.

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

**Conclusion:**

Sincerely,  
Dave Krydynski

LTC Annual Rate Report

**Comments:**

We normally file the Long Term Care Annual Rate Report each year by June 30th. However, because this current rate filing is still outstanding we did not know if we should file the Annual Rate Report or if this current filing takes the place of the Annual Rate Report for this year. Please let us know whether or not it is still necessary for us to also file the LTC Annual Rate Report. Thank you.

Actuarial Summary and Opinion Report

**Comments:**

Rec'd Final Report - 6/10/2019

- Recommend Approval

June 10, 2019

Life and Health Division  
Bureau of Insurance  
State Corporation Commission  
P. O. Box 1157  
Richmond, VA 23218

Subject: **SERFF Tracking #TRIP-131145218**

At the request of the Virginia SCC Bureau of Insurance (the “Bureau”), I have reviewed the filing for the above captioned submission from **Medico Insurance Company** (the “Company”). This is a filing of revised premium rates for an individual long-term care policy form pursuant to the requirements of 14VAC5-200 et seq.

### **Recommendation**

My review of this filing was performed according to the provisions of 14VAC5-200 et seq. and applicable Actuarial Standards of Practice, including Actuarial Standard of Practice No. 18, “Long-Term Care Insurance” and Actuarial Standard of Practice No. 8, “Regulatory Filings for Rates and Financial Projections for Health Plans”. After review of the Company’s submission, I believe that the Company has demonstrated that the filing is in compliance with all applicable regulations and standards. Based solely on this, I could recommend that the Bureau approve the proposed rates.

### Other Considerations

The Bureau may wish to consider that the “Texas approach” would require the Company to reduce their rate increase to approximately 24% vs. the requested average increase of 53.1%.

### **Background**

This will be the 6<sup>th</sup> rate increase on these policy forms which were all issued prior to 10/1/2003 and are not currently marketed. As of 12/31/16, there were 37 policyholders with annual premium of \$127K in Virginia. The Company is requesting an increase of 0% to 90%, averaging 53.1% and varying by form, issue age and inflation type. For non-inflation policies with issue age less than 65, the range of increases is 10% (ages 60-64) to 40% (ages 18-39). Policies with inflation will see increases at issue ages less than 80, ranging from 40% (age 79) to 90% (ages 18-39).

The Company states that the rate increases are necessary due to the following:

- Poorer actual morbidity in 2013-2016 than previously projected.

- Based on A/E experience, future morbidity is anticipated to have worsened by 31%, grading down to 21% in projection years 6+.
- Lower voluntary lapse rates from 2013-2016 than previously anticipated.
- Future assumptions use a 1% morbidity improvement factor and a 0.5% mortality improvement factor, both for 20 years.

### Virginia Inforce and Specific Rate Increases

The values below include both Ability and Medico and are as of 12/31/2018, so the counts are slightly below the numbers in the original filings due to lapses.

Virginia Inforce Policies and Premium as of 12/31/2018

Proposed Increase Percentages

All Policy Forms\*\*

Issue Age	Inforce Policies		Inforce Premium		Proposed Increase	
	Non-inflation	Inflation	Non-inflation	Inflation	Non-inflation	Inflation
18-39	0	0	0	0	40%	90%
40-49	0	12	0	19,962	30%	80%
50-59	7	49	12,733	126,387	20%	70%

79	0	0	0	0	0%	40%
80+	0	0	0	0	0%	0%
Grand Total	49	96	123,827	301,268		

### Analysis

My approach was to a) review the filing materials, b) check the filing contents for compliance with all relevant regulations, c) verify the calculations in the supplied exhibits, and d) review the assumptions and projections for reasonableness.

In the course of my review, requests were sent to the Company for additional information. The Company's responses clarified issues raised in the review. The Bureau was involved in all correspondence with the Company.

### Assumptions

#### *Morbidity*

The morbidity assumptions are based on the Milliman 2009 LTCGs with 20 years of improvement at 1.0% per year. Additionally, an adjustment factor was used to reflect the Company's experience. Since the Company's adjustment factors utilized only the most recent few years of experience, we asked the Company to provide sensitivity projections using factors over a longer period of time.

#### *Persistency*

The Company's assumption is comprised of:

- Voluntary Lapse – varies by issue age and duration; the ultimate lapse rate at durations 8+ is 0.85%;
- Mortality – based on the 1994 GAM with 20 years of mortality improvement at 0.5% per year.

#### *Interest*

The average valuation rate of 4.5% is used for discounting.

### Actual to Expected Results

#### *Morbidity*

The Company has provided the A/E ratios by duration for each policy form as compared to the 2009 Milliman LTCGs. The raw A/E is 118% when weighted by inforce premium. The Company has used judgment to smooth the A/E ratios for each plan based on the more recent experience and calculated the smoothed A/E which averages 131%. It has used the smoothed factors in the base projections. As a sensitivity, I asked the Company to provide projections using 118% and the results are shown below.

#### *Terminations*

When using the assumed mortality to estimate deaths, the residual voluntary termination rate over the past four years was 0.6% vs. the 0.85% current assumption.

### Loss Ratio Demonstrations

The Company has filed demonstrations consistent with 14VAC5-200-150 for these pre-rate stability policies. The projections include experience of both the Company and the identical forms from its sister company, Ability Insurance Company. The lifetime loss ratio of the actual policies sold projected with original assumptions at 4.5% interest is 68.1%.

<b>Morbidity Factor</b>	<b>Scenario</b>	<b>Lifetime LR</b>	<b>Future LR</b>	<b>Future LR w/ ALR</b>
1.31*	Before Increase	85.1%	166.3%	85.5%
1.31*	With Increase	80.9%	125.4%	67.6%
1.18	Before Increase	83.1%	153.5%	72.7%
1.18	With Increase	79.0%	115.8%	54.8%

\* 1.31 is an average but the factors vary by policy form

The value in red above is below the 60% minimum after deducting the active life reserve. Note that this only occurs on the morbidity sensitivity projections and not the baseline projections.

Since the Company is requesting rate increases which vary by inflation type, I asked them to split out the projections. The results are shown below.

<b>Scenario</b>	<b>Original LR</b>	<b>Lifetime LR</b>	<b>Future LR</b>	<b>Future LR w/ ALR</b>
No Inflation	67.7%	84.0%	119.7%	65.6%
With Inflation	69.1%	98.7%	149.8%	73.9%

#### 60/80 Test

Since the original loss ratio at the valuation rates applicable to these policies was 68.1%, that value is used in the test results below.

<b>68.1/80 Required Claims</b>	<b>Projected Claims</b>	<b>Projected Claims @ 1.18</b>	<b>Pass/Fail</b>
2,866M	3,406M	3,326M	PASS

#### State Rate Equity

The cumulative prior rate increases vary from 220% for non-lifetime benefit periods to 314% for lifetime. This is fairly close to the nationwide averages of 211% and 287%.

#### “Texas Approach”

The Company states that they set their request based on an approach “similar to the Texas approach”. However, when applying the actual Texas approach, the allowable increase is about half of what is being requested.

	<u>prior filing</u>	<u>current</u>	<u>diff</u>
PV future claims	963.2	1039.1	75.9
PV future premium	534.5	501.4	-33.1
Add'l funding	95.8	= 75.9 - 60% (-33.1)	
allowed rate incr	24%	= 95.8 / (80% (501.4))	

requested increase	53.1%
adjustment factor	0.450

### **Reliance and Qualifications**

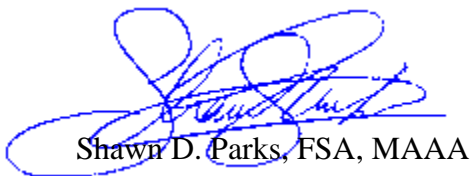

I am providing this letter to the Bureau as the sole intended user. The scope of the review relates only to compliance with applicable laws and regulations relating to the actuarial aspects of the filing under consideration, and the intended purpose is to communicate my findings regarding this filing. Distribution of this letter to parties other than the Bureau by me or any other party does not constitute advice by me to those parties. The reliance of parties other than the Bureau on any aspect of this work is not authorized by me and is done at their own risk.

In arriving at my opinion, I used and relied on information provided by the Company and the Bureau without independent investigation or verification. If this information is inaccurate, incomplete, or out of date, my findings and conclusions may need to be revised. While I have relied on the data provided without independent investigation or verification, I have reviewed the data for consistency and reasonableness. In the event that I found the data inconsistent or unreasonable, I have requested clarification.

I am a member of the American Academy of Actuaries and meet that body's Qualification Standards to render this opinion. I am responsible for this work and have utilized generally accepted actuarial methodologies in arriving at my opinion.

If you have any questions regarding this filing, please contact me to discuss.

Sincerely,

Shawn D. Parks, FSA, MAAA

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

*This document is intended to help explain the rate filing and it is only a summary of the company’s request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.*

Premium rates on your policy are being raised as a result of different than expected persistency (how long policies stay in force) and morbidity (both the incidence of illness in the population and the duration of the illness). The policy persistency, claim incidence and duration of illness in the population have been higher than initially anticipated. The higher persistency and morbidity combined with the cost of care continuing to increase means that premium rates must be adjusted to ensure current and future claims are adequately funded.

<<MM/DD/YYYY>>

<<John Doe>>  
<<123 Main Street>>  
<<City, VA, Zip Code>>

Policy No: <<00001>>  
Insured: <<John Doe>>

Dear <<John Doe>>:

We value your business and want to thank you for choosing **Medico Insurance Company** to provide your long term care coverage. We are committed to ensuring that your long term care insurance benefits are there when you need them.

The purpose of this letter is to notify you that we have determined that it is necessary to increase premiums for your coverage. This is not a premium notice. If you are on a direct, paper bill mode you will receive a notice of premium due approximately 30 days before the premium is due. Your future premium rate(s) will be as follows:

\* The Annual renewal premium rate of \$<<####.##>> will become effective on <<MM/DD/YYYY>>. This represents a percentage increase of <<##.##>>%. Please note that this premium rate does not reflect any future rate increases that may occur.

### Reasons for the Premium Increase

It is necessary to increase premiums due to greater-than-anticipated claims payments expected over the lifetime of all certificates like yours. Premium rates must be adjusted to ensure current and future claims are adequately funded, so that long term care benefits will be available to you when you need them. Please be assured that you have not been singled out, and this premium increase is not a reflection of any previous claims history you may have had.

### Options Available To You:

We do understand that this premium increase may make it more difficult to continue your current level of coverage. Please know that we do not take this action lightly. We recognize that raising premiums may have a significant impact on you. As such, below are options that you may consider at this time:

- 1. Continue current level of coverage:** Keep your exact coverage without any changes and the new premium will take effect on <<MM/DD/YYYY>>. If we do not hear from you, then we will assume that you have accepted the higher premium amount.
- 2. <<Adjust your coverage>>:** The policyholder has the right to a revised premium rate or rate schedule. You may consider adjusting the level of coverage in order to make premiums more affordable. We have provided you with the enclosed Benefit Adjustment Option Return Form. This form shows the available policy adjustment offer(s) as an alternative to the current plan, while still maintaining essential coverage. **Please note that all options may not be of equal value.**

If you would like to investigate additional benefit adjustment options, not mentioned in the enclosed, please call our Customer Support Department, toll free at <<###-###-####>>.

FAX: (844) 855-7817  
EMAIL: customersupport@tri-plus.net

Please discuss policy changes with your family or advisors as well as our Customer Support Department to make sure any changes to your policy will best suit your needs.>>

**3. Elect the Contingent Benefit Upon Lapse:** If you decide that you would like to end this coverage, we will provide a Contingent Benefit Upon Lapse. The new maximum benefit amount for this Benefit will be equal to the greater of the following:

1. The sum of the premiums paid into the policy from the issue date through the current paid to date.
2. 30 times the daily nursing home benefit at the time of lapse.

To determine the number of days payable under the policy, the sum of all premiums paid is divided by the Daily Benefit at the time of lapse. Benefit Eligibility is determined by the policy terms and all benefits paid by us will not exceed the maximum benefits which would have been payable if the policy had remained in premium paying status.

This Contingent Benefit Upon Lapse acts as a form of reduced paid up coverage. It will be available should you choose to lapse the coverage at any point between now and 120 days following the date the new premium rates take effect. If you would like to elect this benefit please complete and return the enclosed Request to Exercise Contingent Benefit Upon Lapse form. This form includes more details about the Benefit. If you do not complete this form, and you lapse your policy within 120 days after the effective date of the rate increase, this benefit will be automatically applied.

Please note that the policy may be subject to future rate increases. In the event of future rate increases, similar options may be available. You can contact us at any time to discuss decreasing your coverage and premiums.

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at <https://scc.virginia.gov/boi/SERFFInquiry/LtcFilings.asp>.

We have enclosed additional information about this increase in the Frequently Asked Questions document. For any other questions, please call our customer service center at <<###-###-####>>, electing option <<#>>, then <<#>>, at the prompt, and a customer support rep will be happy to assist you.

Sincerely,

Policyholder Services Department  
TriPlus Services, Inc.

### **BENEFIT ADJUSTMENT OPTION RETURN FORM**

Date: <<MM/DD/YYYY>>

Policyholder: <<NAME>>

Policy Number: <<XXXXXX>>

If you would like to implement one of the benefit adjustment options listed in this letter please circle the option you would like to exercise and then sign, date, and return this page using the enclosed envelope. Please return your option to us within 60 days from the date of this letter.

If you would like to investigate additional benefit adjustment offers, not mentioned below, please call our dedicated Customer Support Department, toll free at 877-795-8493.

#### **If you do not wish to implement any of these benefit adjustment options you do not need to return this form to us.**

<<

\* Reduce your policy maximum from <<5 Years>> to <<4 Years>> for a new Annual premium of \$<<####.##>>

\* Reduce your policy maximum from <<5 Years>> to <<3 Years>> for a new Annual premium of \$<<####.##>>

\* Increase your Elimination Period from <<0 Days>> to 90 Days for a new Annual premium of \$<<####.##>>

\* Reduce your policy maximum from <<5 Years>> to <<4 Years>> and increase your Elimination Period from <<0 Days>> to 90 Days for a new Annual premium of \$<<####.##>>

\* Reduce your base Daily Benefit Amount from \$<<####.##>> to \$<<####.##>> for a new Annual premium of \$<<####.##>>. Since you have an active Compound Inflation rider, your new inflated Daily Benefit Amount would be \$<<####.##>> as of <<MM/DD/YYYY>> and is subject to further increases per rider terms.

>>

<<Please be aware that your policy does include additional coverage that is independent of the base policy. The adjustments and quotes noted here only reflect changes to the base policy and not the additional coverage. If you would like premium rate quotes that include adjusting the additional coverage as well, please contact us.>> **Please note that all options may not be of equal value.**

Please be aware when considering these options, that if you choose to reduce the maximum available under your policy, then any prior claims made on your policy will affect the benefits available after the reduction.

By signing and returning this page, Medico Insurance Company will change the policy's available benefits, effective <<MM/DD/YYYY>>, to the choice you selected above. You will receive an updated benefit rider once this change to the policy has been made. Please note that the above premium rates are for the current rate increase period and do not reflect any future rate increases that may occur, whether mentioned in this letter or not.

**REQUEST TO EXERCISE CONTINGENT BENEFIT UPON LAPSE**

Date: <<MM/DD/YYYY>>

Policyholder: <<NAME>>

Policy Number: <<XXXXXX>>

NOTE: This benefit can be elected by either lapsing your coverage by means of not paying your premium, or by completing and returning this form to us. Either way your election for this coverage must be made within 120 days following the effective date of this rate increase. ***If you do not want to exercise the Contingent Benefit Upon Lapse, then you do not need to complete this form.***

By completing and returning this form, I am electing to stop paying premiums for my long term care coverage and I am exercising the Contingent Benefit Upon Lapse option available with this rate increase.

By exercising this option, I understand that:

- My new maximum benefit amount under this policy will be equal to the greater of the sum of the premiums paid into the policy from the issue date through the current paid to date or 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the remaining amount of benefits available under the policy if it remained in a premium paying status; and,
- If you currently have an open claim, or if a new claim is filed, any benefits paid for dates of service after the effective date of this new policy status will be applied to and will not exceed the policy's new maximum benefit amount.
- Once I exercise this option, I will only be able to reinstate my original maximum benefit amount if I submit a premium payment within 65 days from my premium due date; and,
- I must meet the eligibility requirements required under the Policy in order to receive benefit payments.

**By signing below I agree to elect the Contingent Benefit Upon Lapse and I agree to all of the above.**

## **FREQUENTLY ASKED QUESTIONS FOR INSURED**

**Q. Why is my premium increasing?**

A: It is necessary to increase premiums due to greater than anticipated claims payments expected over the lifetime of all policies like this one. Many of the pricing assumptions that were common in the industry when your product was originally marketed have not developed as expected. The factors that contribute to the higher anticipated claims payments include morbidity, persistency and mortality. The claims experience trends have emerged higher than originally priced and more policyholders have kept their coverage in force, resulting in more claims in the later policy durations. This premium increase will help ensure that Medico Insurance Company (the Company) is able to live up to its obligations to you as a policyholder.

**Q. When will my premium increase?**

A: Premium for your in force coverage will increase on the date specified in your letter. If your premium is paid through automatic bank draft, your new premium will be deducted automatically from your account on the stated date. If you pay your premium by direct bill (by check) you will receive a premium notice for the increased amount approximately 30 days before that premium due date.

**Q. I thought my premium could never go up. Am I being singled out for this rate increase because of my age or health?**

A: No. Your premium rates for long term care insurance will never change based on changes in your age or health. As stated in your policy, we can only change premium rates on a class basis, not an individual basis. This means that the rates have been changed on all policies like yours on a statewide class basis. Even though you may not have used your policy, we need to ensure that we can deliver on the promises of the policy should you need to make a claim in the future.

**Q. Will my premium continue to increase?**

A: The Company will continue to monitor emerging claims experience to ensure that it is able to deliver on the promises of your policy, primarily to pay any future claims you might incur. Please note that any future increases will be subject to review and approval by the Virginia State Corporation Commission before implementation.

**Q. Have other insurance companies raised their long term care rates?**

A: Yes. The deviations from expected claim and persistency assumptions that the Company has experienced have also been experienced by other long term care insurance carriers. Numerous other carriers have also implemented rate increases for long term care policies.

**Q. <<What are the options to reduce my coverage?**

A: Please refer to the Benefit Adjustment Option Return Form for a description of some of the options available to you. If there are no specific options listed in your letter (this would only occur if your policy has the smallest allowable benefit period and an elimination period of 90 days or higher), or you would like to investigate additional options, please contact our customer service center at 877-795-8493.

TriPlus Services, Inc. ♦ Third-Party Administrator for  
**Medico Insurance Company**  
Policyholder Services Department  
PO Box 3735  
Omaha, NE 68103-0735

PHONE: (877) 795-8493  
FAX: (844) 855-7817  
EMAIL: customersupport@tri-plus.net

**Q. I want to maintain an active premium paying policy, how do I change my coverage?**

A: To change your coverage we require your request in writing. You may submit the Benefit Adjustment Option Return Form included with your notification letter, or you may contact our customer service center at 877-795-8493, pressing option 2 then 3 at the prompt, to obtain a proposed benefit adjustment form for those options not identified in your letter. >>

**Q. How long do I have to make any coverage changes before the effective date of the increase?**

A: You can change your coverage at any time, however in order for us to process any changes before the rate increase effective date you should submit your election to us 15 business days in advance of the effective date of the increase.

**Q. I am currently receiving Long Term Care benefits. Do I have to remit the new premium?**

A: The premium increase will not impact your current claim benefits. Your policy will continue to provide you with the benefits in accordance with the terms of the coverage you purchased. If your policy contains a provision that waives premium and you are currently receiving that benefit, the new premium will also be waived until such time as you are no longer eligible for waiver of premium, as stated in your policy. You will have to pay the increased premium only after you return to a premium paying status. If your policy does not have a waiver of premium provision or if you do not qualify under this provision, then the premium increase will impact you, even if you are on claim. Please note that you are allowed to modify benefit levels at any time to adjust your premium rate, not only at the time of a premium increase. Please refer to the "Options Available To You" section of the rate increase notification letter.

**Q. What safety measures are in place should an insurer file for bankruptcy and not be able to meet their current claim obligations?**

A: The premium increases are designed to prevent this from happening. Also, all states have what are known as Guaranty Associations. In the event that a company cannot meet its claim obligations, these Guaranty Associations will pay claims up to a certain cap, which varies by state.

For more information, please see the Virginia Life, Accident & Sickness Insurance Guaranty Association at <http://www.valifega.org>.

**Q. Whom should I contact if I have additional questions about this rate increase?**

A: If you have additional questions, please contact our customer service center at <<877-795-8493, pressing option 2 and then 3 at the prompt. The office hours are Monday through Friday 7:30 a.m. to 4:45 p.m. Central time.>>

## RATE DESCRIPTION

Annual Premium Rates Per Individual

As a factor of policy and other rider premium

The original premium rate per unit at time of issue for this benefit was calculated using the above factor and rounded to the nearest dollar. All subsequent approved rate changes were applied to that original rounded premium rate per unit. Thus, the actual premium rate for this rider may vary slightly from the premium rate that would be calculated using the above factors.

## Virginia Certification of Compliance

### Medico Insurance Company

<u>Form Name and Description</u>	<u>Form Number</u>	<u>New, Replace or Other</u>
Rate Increase Notification Letter	RI-17-VA	New
Benefit Adjustment Offer	RI-17-VA-BAO	New
Contingent Benefit Upon Lapse	RI-17-VA-CBUL	New
Frequently Asked Questions	RI-17-VA-FAQ	New

The company has reviewed the enclosed policy form(s) and certifies that, to the best of its knowledge and belief, each form submitted is consistent and complies with the requirements of Title 38.2 of the Code of Virginia and the regulations promulgated pursuant thereto.

---

Todd Moltumyr

Vice President, TriPlus Services

Title

### Rate Review Requirements Checklist

For all Rate Filings for Forms Issued in the Individual and Small Group Markets, Hospital Confinement Indemnity, Disability Income Protection, Accident Only, Specified Disease and Other, whether paid on an expense incurred or indemnity basis, and Medicare Supplement

**NOTE:** This document is intended to assist carriers in preparing rate filings for individual and selected group accident and sickness insurance coverage for approval by the Bureau of Insurance. It provides guidance based on current Virginia laws and regulations. It should be noted, however, that this checklist should not be used exclusive of other important resources, including, but not limited to, any and all other applicable state insurance laws and associated rules and regulations. It is the responsibility of the carriers to verify that their products comply with all relevant statutory and regulatory requirements. Note that some regulatory references in the comments column are approximate. Please review the applicable Administrative Code for the full text of the regulation.

REVIEW REQUIREMENTS	REFERENCE	COMMENTS	LOCATION IN THE FILING TO INCLUDE EXHIBIT NAME OR NUMBER	FILER'S NOTES
<b>General Filing Requirements</b>				
Information about the filing	14 VAC 5-100-70	When submitting an Individual Accident and Sickness form, a company must file the applicable rates, rules and classification of risks with the Commission.	Rate Memorandum on the Supporting Documentation Tab - Rates on the Rate/Rule Schedule Tab.	
Company Name and NAIC No.	Administrative Letter 1983-7	The transmittal letter must include the name and NAIC number of the company for which the filing is made.	Provided on SERFF and the Rate Request Summary	
<b>Additional SERFF Filing Requirements</b>	<b>Administrative Letter 2012-03</b>	<b>Additional SERFF filing requirements must be met as specified below for health insurance rate filings. Failure to provide the applicable information will result in a "REJECTED" filing.</b>		
General Information Filing Description		All submissions must provide a brief summary of the filing, including a statement describing whether the rate or rate manual is new or a revision of an existing rate or rate manual.	SERFF General Information Tab - Filing Description	
		Identification of SERFF or state tracking number for the previously approved rate or rate manual.	MDTP-129116516	
<b>HELP TIP:</b>		If a form or rate filing is submitted as new in Virginia, but was previously disapproved or withdrawn in Virginia, please provide details such as the tracking information, form number, and the date that the form or rate filing was disapproved or withdrawn, if available.		
Rate Changes		(i) Include a statement regarding an increase, decrease, revision of former rates. (ii) Specify the percentage amount(s) of the change(s). (iii) Specify the number of affected policyholders. (iv) Specify the reason for the proposed change(s).	(i) Act Memo Section 4 (ii) Act Memo Appendix A (iii) Act Memo Table 1 (iv) Act Memo Section 4	

REVIEW REQUIREMENTS	REFERENCE	COMMENTS	LOCATION IN THE FILING TO INCLUDE EXHIBIT NAME OR NUMBER	FILER'S NOTES
	14 VAC 5-130-50 B	Include an actuarial memorandum describing the basis on which rates were determined including a description of the calculation of the anticipated loss ratio.	Supporting Documentation Tab - Rate Increase 2017 Memo - Virginia - Sections 4, 7 and 10.	
Individual and Small Group Markets – Uniform Age Rating Curve	14 VAC 5-130- 50 E 1	Premium rates with respect to a particular plan or coverage may only vary by: (a) Whether the plan or coverage covers an individual or family; (b) The rating area; (c) Age, consistent with the Uniform Age Rating Curve table in 14 VAC 5-130-50 E; (d) Tobacco use, except the rate must not vary more than 1.5 to 1. If included in a small group form, employees must be given the option to avoid the tobacco surcharge by participating in certain wellness programs.		Not Applicable
	14 VAC 5-130-50 E 2	A premium rate must not vary by any other factor not described in 14 VAC 5-130-50 E 1.		Not Applicable
	14 VAC 5-130-50 E 3	For family coverage, permitted rating variations must be applied based on the portion of premium attributable to each family member covered under the plan. With respect to family members under age 21, the premiums for no more than the three oldest covered children must be taken into account in determining the total family premium.		Not Applicable
	14 VAC 5-130-50 E 4	The premium charged must not be adjusted more frequently than annually except that the premium rate may be changed to reflect changes to: (i) Family composition of the member or; (ii) Coverage requested by the member.		Not Applicable
	14 VAC 5-130-50 E 5	Premium rates for student health insurance coverage may be based on school-specific community rating and are exempt from subdivision 1 through 4 above.		Not Applicable
Accident and Sickness Insurance Rate Filing Requirements – Filing a Rate for a New Policy Form	14 VAC 5-130-60 A	New rate submission must include: (i) Form number of applicable policy or certificate, application, and endorsements; (ii) Rate Sheet(s); (iii) Unified Rate Review Template ( <i>only for rates applicable in the individual and small group health insurance markets except for student health insurance coverage</i> ).		Not Applicable

Medico™ Insurance Company (formerly Mutual Protective Ins Co)  
Ability Insurance Company (formerly Medico™ Life Insurance Company)  
Omaha, Nebraska  
Actuarial Memorandum - Individual A&H Rate Filing  
Virginia Long Term Care Policy Forms and Riders  
Virginia

1. Purpose of Filing

The purpose of this filing is to demonstrate that the anticipated lifetime loss ratio of these forms meets the minimum state requirements in light of the included rate increase request. It is not intended for any other purpose.

2. Scope of Filing

This filing applies to the Virginia Long Term Care Policy Forms and Riders as shown in the 'Benefits' section. The forms were marketed by independent agents but are not available for sale anymore. This rate revision applies only to inforce business. We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce. The increase will be larger for policies at younger issue ages and for policies with an inflation protection benefit. Based on the Virginia specific distribution of inforce forms, issue ages and inflation options, the average increase in Virginia would be 42.48% for the 118 Ability policies, 53.07% for the 37 Medico policies, and 45.32% for all policies across both companies if we requested the same increase as is being requested nationwide. However, we have agreed to limit our request at this time to an average increase of 24%. The exact rate increase percentages by pricing cell are shown in Appendix A.

An exhibit detailing the increase by issue age, inflation option and policy form is included at the end of this memo as Appendix A. The increase will vary by policy form where necessary based on the differing banded age rating in the original pricing structures. While form 3358 has been included in the memo and experience projections within this filing and in previous filings on this block, we are not requesting an increase on this form at this time. Form 3358 is the oldest form in the block and has the most favorable remaining projection of the lifetime loss ratio in the block. A table showing the distribution of inforce business by form (excluding policies in paid up status) as of 12/31/2016 is included as Table I at the end of this memo.

3. Benefits

These policies and corresponding riders cover Long Term Care expenses and have been grouped for rating purposes.

**Policy Form 3358 and Rider Forms UR2038, UR2048, UR275, and UR589R:** Developed in the latter part of 1987, Form 3358 provides benefits for Nursing Home Care and Adult Day Care. The policy also has a provision for Waiver of Premium. The policy pays \$20 a day for maximum of 180 days of Adult Day Care. Four riders were optionally available. UR2048 provides inflation protection (Nursing Home Care Only). UR275 deletes the occurrence maximum and increases the lifetime maximum to 5, 10, or unlimited years. UR2038 and UR589R provide Home Health Care benefits.

**Policy Form LT692 and Rider Forms UR592, UR295, and UR295C:** Developed in 1992, Form LT692 provides benefits for Nursing Home Care and Adult Day Care. The policy also has provisions for Waiver of Premium and Survivorship (if both husband and wife have LT692 policies). Additional benefits include bed reservation, alternate plan of care, deferred purchase of inflation coverage, and extended period of reinstatement due to a lapse related to cognitive impairment suffered at time of lapse. The policy pays a daily benefit for Nursing Home Care and Adult Day Care up to 33% of the policy daily benefit. The UR592 provides benefits for Home Health Care. UR295 increases the Nursing Home daily benefit by 5% of the original daily benefit. UR295C increases the Nursing Home daily benefit by 5% of the previous year's daily benefit.

**Policy Form LT694 and Rider Forms UR268, UR273 and UR-AB-287:** Developed in 1996, Form LT694 provides benefits for Nursing Home Care, Alternative Care, Assisted Living Care, and Adult Day Care. The policy also has provisions for Waiver of Premium. Additional benefits include care giver training, bed reservation, extended period of reinstatement due to a lapse related to cognitive impairment suffered at time of lapse, and restoration of benefits. The policy pays a daily benefit for Nursing Home Care, Alternative Care, Assisted Living up to 50% of the policy daily benefit (80% if care coordinator used), and Adult Day Care up to 50% of the policy daily benefit and lifetime maximum. UR268 increases the policy daily benefit by 5% of the previous year's daily benefit. UR273 is a return of premium rider. UR-AB-287 removes the non-duplication of Medicare benefits.

4. Rate Increase Request, Reasons for and Expected Effect on Premiums

We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce. The increase will be larger for policies at younger issue ages and for policies with an inflation protection benefit. An exhibit detailing the increase by issue age, inflation option and policy form is included at the end of this memo as Appendix A. The increase will only vary by policy form where necessary based on the differing banded age rating in the original pricing structure.

We will notify Virginia-issued policyholders at least 75 days in advance before implementing a rate increase so it is expected that this rate revision will be implemented approximately 85 days following the approval of this increase.

This rate increase is necessary because projected future morbidity and terminations have changed from what was anticipated when the most recent nationwide rate adjustment was requested in 2013. There are several reasons for this change in projected future experience:

- The actual 2013-2016 morbidity experience is considerably poorer than projected experience from the 2013 rate increase filing that was submitted in your state.
- Actual versus expected experience was analyzed for each block of business and morbidity adjustment factors were developed. Based on the experience over the past three years, an aggregate factor of approximately 1.31 is applied to the underlying claim cost assumptions for the first projected experience year. This factor is graded down 2% over the next 5 years and then remains level for the remainder of the projection.
- Separate morbidity improvement of 1.0% per year for 20 years starting in 2017 was also assumed in the projection to account for the expectation that individuals will become healthier due to advances in health care.
- The actual 2013-2016 termination experience shows a lower implied voluntary lapse rate than projected experience from the 2013 rate increase filing that was submitted in your state.
- Additionally, mortality improvement of 0.5% per year for 20 years starting in 2017 was also assumed in the projection, again to account for the expectation for advances in health care leading to a decline in the underlying mortality rate.

The larger requested increase on policies with younger issue ages and inflation protection is due to the greater impact of the assumption changes on these rates. Current rates for inflation policies and common comparable benefit periods on our most prevalent inforce forms, range from only 3% to 36% of average unisex-adjusted rates on currently sold forms in the industry at issue ages under 50, and from 42% to 87% for ages 50-70. The proposed increase will bring the rates on policies issued at younger issue ages and the differential between inflation and non-inflation inforce policies closer to the levels and relationships of currently sold policies.

Please note that we are not attempting to recoup past losses for the poor 2013-2016 experience. This rate increase is solely intended to get experience back in line with what was projected in our 2013 rate increase filing for years 2017 and forward. An exhibit comparing the projection from our 2013 filing with our current projection of future business is attached.

We intend to reduce the potential burden of this rate increase by offering policyholders the option to downgrade their coverage to keep the premium rate more affordable. Most policyholders will receive pre-programmed downgrade offers in the rate increase notification letter that would allow them to reduce their premium rate by choosing to increase their elimination period or decrease their benefit period. Policyholders will also be informed that they may call in to our customer service line to discuss other downgrade options as well if they would like to lower their premium rate.

We will again be providing a contingent non-forfeiture benefit to all policyholders regardless of whether or not their policy covers this benefit. This non-forfeiture benefit would be in the form of a shortened benefit maximum amount/period equal to the amount of premium the policyholder paid in over the lifetime of the

Medico™ Insurance Company (formerly Mutual Protective Ins Co)  
Ability Insurance Company (formerly Medico™ Life Insurance Company)  
Omaha, Nebraska  
Actuarial Memorandum - Individual A&H Rate Filing  
Virginia Long Term Care Policy Forms and Riders  
Virginia

policy should the policyholder lapse coverage within 120 days following the effective date of the rate increase. This benefit will not be reduced by prior claims, although the maximum non-forfeiture benefit will be limited to the remaining maximum benefit amount under the policy.

We recognize this is a large increase to request at one time. We believe it is in the policyholder's best interest to know up front how much of an increase is necessary as it allows them to make an informed decision regarding keeping their current level of coverage inforce, downgrading their policy to lower their premium or choosing the non-forfeiture option. Any delay in this filing via staged partial implementation schedules or because of reductions in the proposed rates, would likely magnify the cumulative total rate increase percentage needed over time for this group of policies.

5. Rate Justification Standard - Minimum Loss Ratio

This filing demonstrates that both the projected future loss ratio and the anticipated lifetime loss ratio are higher than the minimum loss ratio required for long term care policy forms.

6. Rate Increase History

Shown below are the approval dates and the percentage of past rate increases in your state:

Date	3358	692	694
5/7/02	20% / n/a	20% / n/a	20% / 0%
9/2/04	20% / n/a	20% / n/a	20% / 20%
7/10/06	10% / n/a	20% / n/a	20% / 0%
4/21/11**	31.8%	31.8%	31.8%
9/30/14***	40.5%-81.6%	40.5%-81.6%	40.5%-81.6%

\* Rate increases for policies originally issued by Medico Insurance Company are shown on the left side and rate increases for policies originally issued by Ability Insurance Company are shown on the right. The "n/a" is shown for forms in which there are no inforce policies for that form and company in your state.

\*\* The 2010 rate increase ranged from 10.0%-40.0% depending on the issue age. The overall average rate increase was 31.8%.

\*\*\* The 2014 rate increase was three annual increases of 12% on non-lifetime benefit period plans and three annual increases of 22% on lifetime benefit period plans. The increase averaged 70.362% on Medico policies in Virginia and 70.584% on Ability policies in Virginia.

7. Projection Assumptions

The following assumptions were used in order to generate the present value of future premium and claims and their loss ratio.

a. Assumptions that are unchanged from the 2013 rate filing:

Interest - An effective annual rate of interest of 4.50% has been assumed for accumulating past experience and discounting projected future experience.

Claim Cost Guidelines – Morbidity costs were projected based on claim costs from the 2009 Milliman Long Term Care guidelines. Adjustments for actual experience have been updated and are addressed below.

Experience Data Credibility - The requested rate revision is based on nationwide experience since that gives us the maximum credibility.

b. Assumptions that have been revised since the 2013 rate filing:

Terminations – The 1994 GAM mortality table along with an annual voluntary termination rate of 0.85% have been assumed for projecting the inforce into the future.

Medico™ Insurance Company (formerly Mutual Protective Ins Co)  
Ability Insurance Company (formerly Medico™ Life Insurance Company)  
Omaha, Nebraska  
Actuarial Memorandum - Individual A&H Rate Filing  
Virginia Long Term Care Policy Forms and Riders  
Virginia

Mortality Improvement – Mortality improvement of 0.5% per year starting in 2017 for 20 years was assumed in the projection to account for the expectation that individuals will become healthier and mortality will improve due to advances in health care.

A/E Adjustments – Actual versus expected experience was analyzed for each block of business and morbidity adjustment factors were developed. Based on the experience over the past three years, an aggregate factor of approximately 1.31 is applied to the underlying claim cost assumptions for the first projected experience year. This factor is graded down 2% over the next 5 years and then remains level for the remainder of the projection.

Morbidity Improvement – Morbidity improvement of 1.0% per year starting in 2017 for 20 years was assumed in the projection to account for the expectation that individuals will become healthier due to advances in health care.

Premium Rate Increase - The actual effective dates of the rate increase nationwide will vary depending on state approval dates. For projection purposes, the average nationwide requested premium rate revision of 30.2% has been assumed with a starting effective date of September 1, 2017 and phased in over the next 5 year. For all years thereafter, no annual rate increases have been assumed.

The Company engaged Milliman, Inc. to perform a review of these assumptions, the resulting projections and the proposed premium rate increase. A letter from Milliman attesting to their review and their opinion that the proposed increase is justified based on the underlying projection has been included in the filing materials.

#### 8. Past Experience

The attached exhibit shows the past experience for the business. The experience is through December 31, 2016 and is based on nationwide experience. The return of premium riders were excluded from the experience. The accumulated value of past earned premium is \$3,391,573,016 and the accumulated value of past incurred claims is \$2,366,599,684. This results in a loss ratio of 69.8%.

#### 9. Projected Future Experience

The future experience has been generated for 50 years using the business in force as of December 31, 2016. Adjustments have been made to the experience by applying the termination rates and rate increase assumptions as shown in the Projection Assumptions section. The present value of future earned premium is \$610,685,427 and the present value of future incurred claims is \$1,039,102,812. This results in a loss ratio of 170.2%.

This filing is intended to return the future experience of this block to the level projected in 2013. As shown in the attached exhibit, this rate increase, if approved as assumed would result in the following as compared to the 2013 filing:

Projection Years 2017+	2013 Filing	Current Projection Without Increase	Current Projection With Increase
PV Future EP (in millions)	\$534.5	\$501.4	\$610.7
PV Future Claims (in millions)	\$963.2	\$1,039.1	\$1,039.1
PV Future (EP – Claims) (in millions)	-\$428.7	-\$537.7	-\$428.4

Virginia

10. Anticipated Lifetime Loss Ratio

The anticipated lifetime loss ratio is defined as the sum of the present value of past and projected incurred claims divided by the sum the present value of past and future earned premium. These values are summarized below:

Experience Period	Earned Premium	Incurred Claims	Loss Ratio
Past Years	3,391,573,016	2,366,599,684	69.8%
Projected Future	610,685,427	1,039,102,812	170.2%
Anticipated Lifetime	4,002,258,443	3,405,702,496	85.1%

The projected future loss ratio and the anticipated lifetime loss ratio are both greater than the required minimum loss ratio of 60%. This demonstrates that the premium and claims experience meets the minimum loss ratio requirements.

11. Actuarial Certification

I am a consulting actuary with TriPlus Services, Inc. and retained by Ability Insurance Company to render an opinion with regard to long-term care insurance rates. I am a member of the American Academy of Actuaries. I meet the Academy's qualification standards to render this actuarial opinion and am familiar with the requirements for filing long-term care insurance premiums and rate increases.

This memorandum has been prepared in conformity with all applicable Actuarial Standards of Practice, including Actuarial Standards of Practice No. 8, "Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits" and 18, "Long-Term Care Insurance."

I hereby certify that, to the best of my knowledge and judgment, this rate submission is in compliance with the applicable laws and regulations of this jurisdiction and the rules of the department of insurance.

In my opinion, the rates have been calculated in a manner that complies with accepted actuarial practices, are uniformly applied to all policies within each issue age rate class, are not excessive or unfairly discriminatory, and bear reasonable relationship to the benefits based on the loss ratio standards of this jurisdiction.

In forming my opinion, I have used actuarial assumptions and actuarial methods and such tests of the actuarial calculations as I considered necessary. Based on these assumptions, or statutory requirements where necessary, the premium rate filing is in compliance with the loss ratio standards of this jurisdiction.

Please note that the variation in each state's average annual premium is impacted by many factors. Examples of such factors - both demographic and policy benefit choices - include average issue age, average daily benefit amount, prevalence of inflation protection, distribution of benefit periods and elimination periods, optional benefits chosen, percentage of policies with marital discounts and underwriting factors, etc.

Attach a brief narrative to summarize the key information used to develop the rates including the main drivers for new or revised rates.

*This document is intended to help explain the rate filing and it is only a summary of the company’s request. It is not intended to describe or include all factors or information considered in the review process. For more detailed information, please refer to the complete filing.*

Premium rates on your policy are being raised as a result of different than expected persistency (how long policies stay in force) and morbidity (both the incidence of illness in the population and the duration of the illness). The policy persistency, claim incidence and duration of illness in the population have been higher than initially anticipated. The higher persistency and morbidity combined with the cost of care continuing to increase means that premium rates must be adjusted to ensure current and future claims are adequately funded.

## VA EXPERIENCE

**Re: Ability Insurance Company (Ability)**

**Company NAIC # 71471**

**Medico Insurance Company**

**Company NAIC # 31119**

**Policy Forms: 3358, 582, NH585, AC597, LT690, LT691, LT692, LT693, LT694, LT695, LT696, LT697, LT698, LT201, LT202, and LT203**

Ability has entered into a service agreement with Milliman, Inc. (Milliman) effective September 26, 2016 that includes reviewing long-term care rate filing assumptions and projections.

Ability prepared and submitted a rate filing in 2017 that included some/all of the above-referenced policy forms. Milliman has conducted a review of the voluntary lapse, mortality, and morbidity assumptions used by Ability in supporting the projections in this rate filing and believes them to be reasonable and appropriate for this purpose. Milliman has not reviewed the filing documents nor performed any technical checking of the filing or projections for accuracy.

In determining the assumptions to be reasonable, the following information was reviewed and relied upon:

- Policy termination experience study provided by Ability with actual experience through September 30, 2016;
- Morbidity experience study provided by Ability with actual experience through June 30, 2016;
- The Society of Actuaries (SOA) June 2011 study on mortality improvement, *Global Mortality Improvement Experience and Projection Techniques*;
- The July 2016 SOA study on morbidity improvement, *Long Term Care Morbidity Improvement Study: Estimates for the Non-Insured U.S. Elderly Population Based on the National Long Term Care Survey 1984-2004*; and
- General industry experience and actuarial judgment.

In addition to the items discussed above, the assumptions used in the prior rate increase filing for the above-referenced policy forms were reviewed. The changes in assumptions from the prior filing to the current filing were determined to be appropriate and consistent with recent company experience and broader applicable industry experience.

Based upon my review of the supporting projections and understanding of the requested increase, I believe that the proposed premium rate increase is justified under the relevant sections (based on the issue dates of these policies) of the current NAIC Long-Term Care Insurance Model Regulation. The accumulated value of the past actual experience along with the discounted value of future projected experience meet the tests contained in the Model. Projections supporting the increase and a description of the requested increase were provided by Ability and relied upon in forming my opinion. I did not independently verify the projections but did review them for reasonableness.

In performing my review, I relied on data and other information provided by Ability. I have not audited or verified this data and other information. If the underlying data or information is inaccurate or incomplete, the results of my review may likewise be inaccurate or incomplete.

I performed a limited review of the data used directly in my review for reasonableness and consistency and have not found material defects in the data. If there are material defects in the data, it is possible that they would be uncovered by a detailed, systematic review and comparison of the data to search for data values that are questionable or for relationships that are materially inconsistent. Such a review was beyond the scope of my assignment.

I, Amy Pahl, am a Principal and Consulting Actuary for Milliman, Inc. I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render an actuarial opinion as described herein.

Should you have any questions regarding the above, please feel free to contact me directly at (952) 820-2419 or by email at amy.pahl@milliman.com.

Respectfully,

A handwritten signature in blue ink that reads "Amy Pahl".

MAILING NAME  
MAILING ADDRESS  
MAILING CITY, STATE, ZIP

Insured: XXXXXXXX  
Policy No: XXXXXXXX

As previously notified, the premium rate on the above mentioned long term care policy was recently increased. As part of that rate increase, we offered a contingent benefit upon lapse non-forfeiture benefit, which means that if you were to cancel the policy or were to lapse due to the nonpayment of premium between the time you were notified of the rate increase and 120 days after the effective date of that increase, we would place your policy into contingent non-forfeiture status.

You are receiving this letter because you either cancelled your policy or we did not receive your premium payment and effective XX/XX/XXXX the policy is now in contingent non-forfeiture status. The policy benefit period has been reduced to equal the total premium paid into the policy divided by the maximum daily benefit of the policy. This new benefit period may not exceed the remaining maximum benefits that were available prior to entering into contingent non-forfeiture status. If you currently have an open claim, or if a new claim is filed, any benefits paid for dates of service after XX/XX/XXXX will be applied to and will not exceed the policy's new maximum benefit amount. The policy's maximum benefit amount is now \$XXXXXX.

Please note, if the policy contained an inflation rider the maximum daily benefit will not continue to increase. Likewise, if the policy contained a return of premium rider, all benefits associated with that rider cease as of the effective date mentioned above.

You may be eligible to request reinstatement. Please review your policy to determine if you are eligible for reinstatement.

If we can be of further assistance please contact us and a customer support representative will be happy to assist you.

Sincerely,

Policyholder Services Department

**Subject: Long Term Care Insurance Rate Filing – Objection Dated August 30, 2017**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

**1) According to the Actuarial Memorandum, this filing is applicable to Policy Forms 3358, LT692, and LT694 with numerous riders. Please amend the Affected Form Numbers in the Rate/Rule Schedule in SERFF to include each policy and rider form number exactly as approved and attach the appropriate rate schedules.**

We have corrected the Rate/Rule tab to include each affected form on its own line and have included each of the riders as requested. Please note that while form MP-3358 has been included in the memo and experience projections within this filing and in previous filings on this block, we are not requesting an increase on this form at this time and thus it is not included in the affected forms of the Rate/Rule schedule tab.

**2) In the previous SERFF filing number MDTP-129116516 the Number of Policyholders Affected for this Program were 51 [for Medico and 176 for Ability]. This current filing lists 155 policyholders. Please explain.**

The 155 policyholder count included the affected policyholders as of 12/31/2016 for Medico and Ability combined. In the 2013 filings, the affected policyholders for Medico and Ability were separately shown in the respective filings. We have corrected the company rate information section of the Rate/Rule schedule on both filings via a Post-Submission Update to show the Company-specific information on each of the current respective filings.

**3) The current filing indicates the Overall Percentage of Last Revision as 69.302%; however, the previous filing MDTP-129116516 was approved for 70.632% [for Medico; MDTP-129116517 was approved for 70.584% for Ability]. Please make the appropriate corrections including correcting item 8 in the Actuarial Memorandum.**

We have corrected both the Overall Percentage Indicated Change via a Post-Submission Update on the respective filings and have added clarification to item 6 (Rate Increase History) of the Actuarial Memorandum.

**4) The Overall % Indicated Change in the Rate/Rule Schedule should reflect the percentage increase that would be required to meet the minimum loss ratio requirement as set forth in 14VAC5-200-150 B. Please amend accordingly.**

We have updated the Overall % Indicated Change in the Rate Rule Schedule via a Post-Submission Update for both of the respective filings.

**Objection 2**

**Thank you for providing the Rate Request Summary. This form, however, has been updated and we have attached a revised form to be completed.**

Please include all the policy and rider form numbers exactly as approved and attach a brief narrative that summarizes the key information used to develop the rates including the main drivers. Our expectation is that the form would provide in consumer-friendly language a clear explanation that justifies the rate increase. This should be fairly easy to understand without going too deep into the details, and at least explain to the consumer the assumptions and changes that are driving the need for an increase.

We have attached the updated Rate Request Summary Form.

**Objection 3**

**1) Please confirm that all policies are pre-stability policies issued prior to October 1, 2003 and subject to 14VAC5-200-150. If any policies were issued on or after that date, such policies would be subject to 14VAC5-200-153 and the filing, including all exhibits should be revised accordingly. As set forth in 14VAC5-200-150 B, all present and accumulated values used to determine rate increases, including the lifetime loss ratio used in the original pricing, shall use the maximum interest rate for contract reserves as specified in Section 38.2-1371 of the Code of Virginia.**

All policies in this block in Virginia were issued prior to October 1, 2003.

---

**2) Based on the revised 14VAC5-200-150 B, benefits will be deemed reasonable for pre-stability policies only provided the expected loss ratio is greater of 60% or the lifetime loss ratio used in the original pricing applied to the current rate schedule plus 80% applied to any premium rate increase for individual policies.**

The projected lifetime loss ratio of this block even after the proposed increase is implemented is over 80%. Therefore it is clear that the proposed increase passes the 60/80 test. For completeness, we have attached the file 'Calculation of 60-80 Test.pdf' which shows the maximum allowable rate increase under 14VAC5-200-150 B based on the projected Nationwide experience. The 213% increase is greater than the requested increase.

**3) Please provide the following for each block of business:**

**a) Re-state the nationwide experience using Virginia approved rates.**

The 3<sup>rd</sup> and 4<sup>th</sup> tabs of the attached spreadsheet 'Virginia Exhibits 2017.xlsx' show the nationwide experience and projection restated at the Virginia rate level. Note that because Virginia does not have all of the forms as were available in this block nationwide and because some of those forms have more extensive rate increase histories, the Virginia rate level is not necessarily comparable to the average nationwide rate level on a block basis.

**b) Sufficient detail or documentation so that any projections can be recreated. Please provide a copy of all projections in Excel with working formulas.**

The attached spreadsheet 'Virginia Exhibits 2017.xlsx' includes Excel versions of all experience and projection exhibits with formulas included where applicable. Note that the majority of the projection work is done within MG-ALFA and so the basic projected premiums and claims are not calculated within Excel. The first two tabs show the base nationwide exhibits as were included in the initial filing materials while the additional tabs are included as responses to items 3a, 3c, 7, 8 and 14 above and below as requested.

**c) A separate calculation of the Lifetime Loss Ratio so that the historical premium component is restated to what it would be if the proposed premium had been charged (collected) since the form's introduction.**

The 5<sup>th</sup> and 6<sup>th</sup> tabs of the attached spreadsheet 'Virginia Exhibits 2017.xlsx' show the nationwide experience and projection restated at the proposed nationwide rate level since inception. Please note that we do not believe that restating earned premium assuming the requested levels had been in force since inception is an appropriate method to determine whether or not a rate increase is justified. Instead, we believe it is appropriate to compare the current projection with the projection that was previously filed and approved. The prior rate filing projected future experience from years 2013+. The actual experience that developed from 2013-2016 was considerably poorer than what had been projected in that filing. This poor experience was incorporated into our new projection model and we are now projecting worse experience for years 2017+ than what had been projected in our 2013 filing. As mentioned in the Actuarial Memorandum, this rate increase is solely intended to get experience back in line with what was projected in the approved 2013 rate increase filing for years 2017 and forward. We are not attempting to recoup any of the losses that occurred from 2013-2017.

**d) An actual-to-expected analysis on each assumption, with expected on both original and current assumption basis.**

We have attached results from our most recent morbidity study, titled 'Claim Cost Study and AE Factors YE 2016.xlsx.' The first tab in the exhibit shows the actual past experience compared to the baseline expected claim costs for each of the form groupings, including an 'All Other' group which includes the smaller policy forms. These three pages show the expected claims costs based on the baseline tables from the Milliman guidelines used in the projection, along with the actual paid claims, open claim reserves and IBNR reserves by duration for each form group, ultimately calculating the right-most column of A/E ratios by duration.

These raw A/E ratios are restated in the left section of the second tab to summarize by form. The middle section of that page shows how the raw A/E's on the left were smoothed – these represent the real A/E adjustments by form and duration that are applied to the baseline claims costs in the projection of future experience. The right-most section of this final page shows the inforce premium as of 12/31/2016 by form group and duration – this distribution is used here to calculate the weighted average A/E as of the starting point of the projection of 1.31.

Additionally, we have attached the results of our most recent lapse and mortality study titled 'Lapse Study - 2013-2016.xlsx' covering experience years 2013-2016. The study uses the projection assumptions (1994 GAM table along with a 0.85% voluntary lapse rate). The study shows the actual lapse rate in each year and excludes policies that enter nonforfeiture status during the experience period in question.

**e) A step-by-step quantification of the impact of the change in each assumption from the original assumptions to the current assumptions.**

The following table shows the key assumptions as of the time of original pricing and the current filing, along with a column showing the portion of the cumulative increase included the amount proposed in the current filing.

---

Key Assumption	As of Original Pricing	Current Assumptions for Projected Premiums and Claims	Portion of Cumulative Increase Attribution
Mortality	Varies by policy form (1980 CSO, 1979-81 White US, 1994 GAM)	1994 GAM Mortality with 0.5% annual improvement for 20 years, beginning in 2017	50%-65% when combined with lapse
Voluntary Lapse	Varies by policy form, 2-10% ultimate lapse rate	0.85%	50%-65% when combined with mortality
Morbidity	Original pricing claim cost tables	a) Durational A/E adjustments to 2009 Milliman claims cost study updated for actual experience. Extended duration factors assumed to be level within 1-2 durations of the last duration with actual experience  b) Assumes 1.0% annual improvement for 20-years beginning in 2017	35%-50%
Interest Earnings	Varies by policy form, 5-7%	4.5%	0%

**f) Use the average maximum statutory valuation interest rate for each block of business to accumulate and discount cash flows.**

Cash flows are discounted at 4.5% in each of the experience and projection exhibits.

**4) In section 2, Scope of Filing in the Actuarial Memorandum, the Company stated "We are requesting an increase to the current premium rates that varies by issue age and inflation protection option, averaging 30.2% nationwide based on the current inforce." Under the Rate Action Information in SERFF a 45.32% Percent Rate Change Request has been requested. Please resolve the discrepancy and amend the filing accordingly.**

As the memo states, the nationwide average increase is 30.2% based on the inforce distribution as of 12/31/2016. Because the increase varies by form, issue age and inflation protection benefit, the average increase in any individual state is different from the nationwide average as each state has a different distribution of forms and demographics on inforce policies. In Virginia, we are requesting the same increase as nationwide, but the distribution in Virginia is such that the average increase in Virginia comes out to be 45.32% as stated in the SERFF Rate Action Information field. We believe 45.32% is the appropriate average to display on SERFF and have added a sentence to section 2 of the Actuarial Memorandum for clarification.

**5) We are aware a separate filing has been submitted for Ability Insurance Company which was formerly Medico Life Insurance Company and the experience and projections have been combined accordingly. Although this is the case, the heading in the rate attachments should only refer to the name of the company for which this filing is applicable; in this case Medico Insurance Company. Please amend the attachments accordingly.**

We have revised the rate sheet attachments to only reference the individual Company for which the respective filing is submitted. The rate sheets are identical for the two filings aside from the Company name headings.

**6) Please advise in what states the company has requested rate increases on this block, how the rate changes requested in Virginia compare with those requested in other states, and the current status of the reviews in other states.**

We have attached the file '2017 Rate Increase Status for State Filings.pdf' showing the request and status by state of the current filing. We are requesting the same full increase varying by issue age and inflation in all states where the filing is being submitted. In addition we are also requesting a catch-up amount in each state where the full amount of the previous request was not implemented.

**7) Please provide a loss ratio projection reflecting the actual historical experience during the historical experience period and then, utilizing the actual inforce as of the projection date, projecting forward the expected earned premiums and incurred claims using the original pricing assumptions for interest, mortality, morbidity and persistency into the future and assuming the future premiums are paid based on the original premium scale as if no increases had ever been implemented.**

A loss ratio projection using actual historical experience along with future projected experience at the original rate level and original pricing assumptions but scaled up for actual inforce as of 12/31/2016 is shown in the 7th tab of the Excel file 'Virginia Exhibits 2017.xlsx.'

**8) Please provide a loss ratio projection (both past and future) which reflects all of the original pricing assumptions for interest, mortality, morbidity, persistency and premium scale, but uses the actual distribution of policies as issued rather than the originally assumed mix of business.**

The 8th tab of the Excel file 'Virginia Exhibits 2017.xlsx' shows estimated lifetime projected experience at the original rate level and original pricing assumptions but with the actual distribution of sales. We used the original lapse, mortality and claim cost tables for representative cells from each form group in the filing to project each of the individual issue year cohorts of experience on a durational basis using those original assumptions. The issue year projections were then added together to result in the calendar year loss ratio projection as shown on that first tab of the attached exhibit.

**9) Please provide the original targeted pricing loss ratio when the policies were originally approved.**

This is an acquired block and much of the original pricing and filing materials are not available. It is not known what the original pricing loss ratio or projected experience was for each of the forms included in this filing. Because this block was priced primarily prior to rate stabilization, it is reasonable to expect that the original pricing lifetime loss ratios would have been close to the 60% statutorily required minimum.

**10) Please provide a detailed explanation of the data sources and actuarial review performed in setting each assumption, including discussion of any adjustments made to reflect the company's unique business.**

The data in the studies presented within the filing is analyzed to develop the mortality, morbidity and lapse assumptions. These studies are performed directly on the inforce policies on this block and so the actual block experience is directly represented in the data and studies leading to the underlying assumptions that we are applying to project the remaining future expected experience on that same block.

For the lapse and mortality study, for each experience year, the starting inforce by age and sex excluding any policies that entered non-forfeiture status during the year is considered. The expected mortality and an expected voluntary lapse rate is then applied to that starting inforce exposure, with the resulting expected year end inforce compared against the actual year end inforce. The voluntary lapse rate assumption is adjusted so as to best fit match the actual year end inforce using actuarial judgement of the specific circumstances and factors affecting the experience to arrive at the best fit. At the bottom right of each page of the study we show the final expected lapse rate assumed of 0.85% along with the exact lapse rate from that particular exposure year. In each case, that actual lapse rate is slightly lower than the 0.85% assumed rate, indicating that actual lapse remain slightly less than the underlying assumption, but considering that there continued to be rate increases implemented in various states during the exposure period we feel the 0.85% lapse rate is an appropriate level for projecting future experience.

As discussed above, for the morbidity study, actual claim cost experience is compared to the underlying tables from the 2009 Milliman Long Term Care guidelines. The A/E's for each form by duration are then analyzed and smoothed for use in projecting future experience. Those by-form-by-duration A/E factors are then used in the ALFA projection software, applied to the base tables from the Milliman guidelines to project future claims. The actual A/E's by form and duration from the right most column of the first three pages of the morbidity study accompanying this filing are restated in the left section of the fourth page and can be compared against the smoothed assumptions in the middle section to see what adjustments to the raw data are made in developing the assumptions, again using actuarial judgement with regards to where credible experience is concentrated and how future experience is likely to trend based on the latest durations available to observe.

Finally, the Company engaged Milliman, Inc. to perform an actuarial review of these assumptions, the resulting projections and the proposed premium rate increase. A letter from Milliman attesting to their review and their opinion that the proposed increase is justified based on the underlying projection has been included in the filing materials.

**11) Please provide the reserve basis and justification for the reserve levels provided.**

Active life reserves are determined based on the year the policy was issued. The bulk of this block was issued 1996 and subsequent so the ALR assumptions included one year preliminary term, 1994 GAM and a 4.5% interest rate. Reserve adequacy is reviewed annually.

**12) If this increase is approved and experience develops as anticipated, will the company forgo increases in the future? If not, what would trigger a rate increase in the future? In other words, what targeted loss ratio does the company plans to manage this block in the future?**

No future rate increases are assumed if experience develops as projected in this filing. If future experience develops adversely, and that adverse experience is expected to continue, then future rate increases will be necessary. We would expect to determine the possible need for future increases using the same method as done for this filing, namely we would determine if the revised projection using any updated assumptions results in an adverse development of the difference between future premium and future claims from that point forward. As shown in the last page of the 'Nationwide Exhibits 2017.pdf' file as attached in the initial filing materials, the difference in the present value of future (2017+) premiums and the present value of future claims after the proposed increase is -\$428.4M. If at some point in the future that deficit from the new current point forward is larger than that projected in this filing, it may be determined that additional rate action is necessary.

---

13) For each projection provided, please provide the anticipated future loss ratio where the numerator is equal to the anticipated incurred claims less policy reserves, and the denominator is equal to the anticipated earned premium.

The following table shows the anticipated future loss ratios as requested for each of the projections as labeled:

Projection	Projected Incurred Claims	ALR as of 12/31/2016	Projected Earned Premium	Anticipated Loss Ratio
Base Nationwide Projection	1,039,102,812	504,955,722	501,414,606	106.5%
Nationwide at VA Rate Level	1,039,102,812	504,955,722	624,858,411	85.5%
Nationwide at Proposed Rate Level	1,039,102,812	504,955,722	655,755,728	81.5%
Virginia Specific Projection	6,934,774	2,969,223	3,412,838	116.2%

14) In addition to experience exhibits, please include projection exhibits based on Virginia data as well.

Virginia specific historical and projected experience exhibits are included in tabs 9 and 10 of the attached Excel file 'Virginia Exhibits 2017.xlsx.'

15) In Section 4 of the Actuarial Memorandum you state, "We notify policyholders 60 days in advance before implementing a rate increase..." 14VAC5-200-75 D says, "An insurer shall provide notice of an upcoming premium rate schedule increase to all policyholders or certificate holders, if applicable, at least 75 days prior to the implementation of the premium rate schedule increase by the insurer." Please amend the Actuarial Memorandum to be in compliance with this.

We have adjusted Section 4 of the Actuarial Memorandum to reflect the updated notification requirement for Virginia.

#### **Objection 4**

The Virginia State Corporation Commission adopted revisions to the Rules Governing Long-Term Care Insurance set forth in Chapter 200 of Title 14 of the Virginia Administrative Code. Except as specifically provided in the regulation, the changes are effective September 1, 2015. The Order adopting the revisions to the long term care insurance regulation and all related documents are located on the commission's website at <http://www.scc.virginia.gov/DocketSearch#/caseDetails/132748>.

As part of the revisions, the commission revised the requirements for policyholder notifications regarding rate increases as stated in 14 VAC5-200-75 D. A summary of the new requirements are:

- The notice is required to be filed with the commission at the time the premium rate increase is filed;
- The insurer is required to provide the notice at least 75 days prior to the implementation of the premium rate schedule increase;
- The notice is required to include at least the following information:

#### **1. All applicable information identified in 14VAC5-200-75 including**

A 1) which requires a statement indicating the policy may be subject to future rate increases;

A 2) which requires a statement that should there be future rate increases, options similar to those being offered now will be available and that benefits may be changed at any time and not just the time of a rate increase.  
PROPOSED WORDING: In the event of future rate increases, similar options may be available; however, you can contact us at any time to discuss decreasing your coverage and premiums, per the provisions of your policy.

A 3) which requires a statement indicating the premium rate or rate schedules that will be effect;

A 4 a) which requires a statement as to when the premium rate or rate schedule adjustments will be effective; and

A 4 b) which requires a statement that the insured has a right to a revised premium rate or rate schedule upon request.

#### **2. A clear explanation of options available to the policyholder as alternatives to paying the increased premium amount, including:**

a. An offer to reduce policy benefits provided by the current coverage consistent with the requirements of 14VAC5-200-183;

b. A disclosure stating that all options available to the policyholder may not be of equal value. As a disclosure this information should be emphasized by bolding, highlighting, using larger text or some other method that will bring attention to it;

c. In the case of a partnership policy, a disclosure that some benefit reduction options may result in a loss in partnership status that may reduce policyholder protections. As stated above, the information should be emphasized to bring attention to it; and

d. Contact information that will allow the policyholder to contact the insurer for additional options available;

3. A clear identification of the driving factors of the premium rate increase; and

4. A statement substantially similar to the following:

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at [www.scc.virginia.gov/BOI](http://www.scc.virginia.gov/BOI).

Because the letter must be "filed", please attach the letter to the Form Schedule in SERFF in compliance with the requirements of Chapter 100 of Title 14 of the Virginia Administrative Code including a Certification of Compliance. The letter will require a form number in the lower left hand corner. Please ensure the full and proper corporate name of the insurer prominently appears in the letter. Please include a Statement of Variability, if applicable.

The rate increase notice we propose using in conjunction with this rate increase is attached. The form number for the rate increase notification letter is RI-17-VA.

#### **Objection 5**

Please explain how a policy is updated to reflect any benefit changes the insured may choose to reduce the effects of the rate increase. If the policy is revised or changed in any way, the policyowner must first agree to the changes and the policy must be amended or endorsed by an approved form such as a rider, endorsement, application or schedule of benefits that has been reviewed and approved by the Virginia Bureau of Insurance. The document must be dated or have an indication of the effective date of change in the policy benefits, state that a change is being made to the policy and this new document will be made a part of the contract. If the company has such forms available for this purpose, please provide a copy of the form, the SERFF tracking number and date of approval. If the company does not have any available documents to effectuate such changes, a form will need to be submitted for review and approval. It can be attached to this filing if desired. Please keep in mind, there are several options provided in the policyholder letter to reduce the effect of the rate increase. Please be sure all options are covered in the new form or forms including the contingent benefit upon lapse and/or optional nonforfeiture benefit. If the company chooses to include variability in the form, please provide a statement of variability. A Certification of Compliance would be required in accordance with 14VAC5-100-40.3 as well as a readability certification in accordance with 14VAC5-110-60.

We have attached the endorsement rider that is sent to policyholders upon confirmation of their election to adjust their benefits. This form was filed and approved by the Virginia Department of Insurance. We have also included the letter that is sent to policyholders that either actively elect or lapse when eligible for the contingent nonforfeiture benefit.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Subject: Long Term Care Insurance Rate Filing – Objection Dated November 1, 2017**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

1. We have updated the Rate/Rule Schedule to include all 3 policy forms (3358, 692, and 694) and all applicable riders, consistent with the memorandum. It is correct that policy form 3358 is not receiving an increase and so the rate sheets included for that form and applicable riders show no increase. The Rate/Rule Schedule item for policy form LT694 and riders was inadvertently left in draft status when the previous response was submitted.
  2. We have updated the form numbers included in the revised Rate Request Summary file and expanded the explanation for the reason for the rate increase.
  3. The average increase in Virginia is 42.48% for the 118 Ability policies, 53.07% for the 37 Medico policies, and 45.32% for all policies across both companies. The Actuarial Memorandum has been updated to reflect these percentages, consistent with the Rate/Rule Schedule.
  4. Attached is a sample confirmation letter that is sent to policyholders that elect the contingent nonforfeiture benefit.
  5.
    - a. We have removed the Draft watermark from each of the forms submitted.
    - b. We respectfully request that we continue to be allowed to use the TriPlus header, which does also include the full and proper name of the insurer within the TriPlus header. TriPlus handles ALL correspondence for these long term care policies. If we remove the TriPlus information and replace it with only the name and address of the insurer, we have concern that policyholders will mail their correspondence back to the insurer rather than to TriPlus. This will definitely decrease productivity and increase the time it will take for policy changes to become effective as the letters will be sent to the wrong address and then need to be forwarded from the insurers to TriPlus. It is also possible that policyholder communication can get lost when it is initially sent to the incorrect address.
    - c. We believe our current explanation as to the need for the rate increase is an accurate description as to the need of the rate increase, yet also worded clear enough that policyholders can understand. We believe getting into further details about the need for the rate increase may confuse policyholders and cause more questions than answers.
-

- d. We are not really sure what this item means so we would like more clarification. Our letter does mention the new premium and the percentage increase as well as discuss the ability to modify coverage to reduce the premium. We were wondering if the Department has a sample rate increase letter that we could review and incorporate the appropriate language into our letter for items such as this one?
  - e. We added a sentence that disclosed that not all downgrade options may be of the same value.
  - f. We revised the Contingent Benefit Upon Lapse paragraph as requested.
6. We have made the Benefit Adjustment Option Return Form a separate form with its own form number.
- 7.
- a. We are now filing the Contingent Benefit Upon Lapse as a separate form (form RI-17-VA-CBUL). We also adjusted the first bullet point of the form to discuss that the benefit will be no less than 30 times the daily nursing home benefit at the time of lapse, but will not exceed the remaining amount of benefits available under the policy.
  - b. The Contingent Benefit Upon Lapse benefit will be offered to everyone that is not eligible for a Return of Premium Benefit under their policy. It will not be restricted to only those who meet the trigger points as set forth in 14VAC5-185 D 3 as revised effective September 2015.
- 8.
- a. We are now filing the FAQ as a separate form (form RI-17-VA-FAQ). As discussed earlier, we respectfully request that we continue to be allowed to use the TriPlus header, which does also include the full and proper name of the insurer.
  - b. We expanded the response as requested.
  - c. We expanded the response to explain when no specific options would be included in the letter.
  - d. We added a sentence to remind policyholders that benefit changes may be made at any time and not just at the time of a rate increase.
9. We have denoted the variable portions of each document by placing a "<<" before the variable and a ">>" following the variable.
10. We will include a Certification of Compliance with our next response. We knew that our response was due today and we did not have time to complete everything prior to our response.
11. While we would prefer to implement the entire increase at one time, we would be amenable to phasing in the increase over multiple years. Our recommendation would be to have a 40% cap in any one year. This would allow us to fully implement the increase in one year for non-inflation plans as the increase we are requesting on those plans ranges from 0%-40%. For inflation plans we are requesting an increase ranging from 0%-90%. For those plans the first increase would be up to 40%, and the follow up increase would be such that the cumulative increase would be approximately actuarially equivalent to the initial request. Please let us know if implementing this increase over two years is acceptable and we will provide the exact rate increase percentages for the second increase.
-

## **Objection 2**

1. To clarify the 1.31 A/E factor, this represents the weighted average factor that results from applying the year end 2016 inforce premium by policy form and duration to the smoothed A/E ratios developed for each policy form and duration. It is a single number intended to indicate the aggregate level of adjustment needed to apply to the baseline Milliman claim cost tables in order to closely match the actual emerging experience for the block overall for the first projected experience year of 2017. In practice, A/E factors are developed for each form separately as shown in the A/E study exhibit previously provided. The A/E factors vary by duration and are based on the actual emerging experience from each form separately.

The smoothed A/E ratios are only used for projecting future claim costs and so most of the early duration factors are not material to the projection. Therefore the technique for smoothing focuses primarily on the factors within and beyond the durations where there are inforce policies remaining on each respective form, with the ultimate level factor for all future durations being the most significant contributor to projected future claim levels.

For each form, this ultimate level factor reflects the average actual A/E from the most recent fully developed experience. The actual experience shown for the latest 2-3 durations by form is generally not fully developed (low exposure counts, insufficient time for all claims to be reported, largely influenced by reserves as opposed to actual developed continuance) and so the experience from four to eight durations back from the last one shown in the exhibit is considered most relevant. The following table shows the most relevant durations, average actual A/E from the most relevant durations and the smoothed ultimate A/E used in the projections by policy form.

<b>Policy Form</b>	<b>Most Relevant Durations</b>	<b>Average Actual A/E</b>	<b>Smoothed Ultimate A/E</b>
201	7 - 11	1.48	1.50
692	16 - 20	1.17	1.14
694	13 - 17	1.23	1.24
695	13 - 17	1.36	1.30
698	10 - 14	1.41	1.34
3358	21 - 25	0.55	0.60

In most cases the smoothed ultimate A/E closely reflects the average actual A/E over the most relevant durations. In some cases we arrive at a slightly higher or lower ultimate A/E based on judgement of the trend over recent durations. Note that the "other" forms from the claim cost study are excluded from the table as the wider range of issue years and inforce durations on that group means that a different methodology is used – these forms make up a small percentage of the inforce block and further discussion of this group is not warranted.

As demonstrated above, the smoothed A/E's by form reflect recent emerging actual experience and are appropriate for use in projecting best estimate claim costs in the future. Furthermore, the assumptions underlying the projected experience were reviewed and determined to be reasonable by Milliman, Inc. as part of the rate review and analysis process. As stated in the Actuarial Memorandum, a letter from Milliman attesting to their involvement is included in the filing materials. Finally, the projected

---

incurred claims resulting from the underlying assumptions for incurred years 2017 and beyond are in line with the actual experience from recent years.

We do not agree that the historical A/E for duration 10+ results in a factor of 1.02 that is appropriate to apply to the current inforce for projecting future experience. The A/E ratio for duration 10+ varies significantly by policy form generation. The oldest policy form 3358 has the greatest amount of historical experience in duration 10+ (36% of the total exposures) and has by far the lowest A/E ratio of any of the forms for those durations at 0.63. However, only 2% of 2016 earned premium comes from policy form 3358 (see the table below for details).

<u>Policy Form</u>	<u>Duration</u>	<u>Expected Claim Cost</u>	<u>Actual Claim Cost</u>	<u>Claim Cost A:E</u>	<u>2016 Inforce Prem (000's)</u>	<u>Portion of 2016 Inforce</u>
201	10+	21,110,378	30,280,953	1.43	8,284	11.4%
692	10+	56,884,634	68,668,788	1.21	1,997	2.7%
694	10+	189,148,479	239,132,104	1.26	31,771	43.6%
695	10+	42,200,138	52,825,544	1.25	5,124	7.0%
698	10+	105,069,621	143,162,672	1.36	21,983	30.2%
3358	10+	298,843,915	187,539,523	0.63	1,627	2.2%
<u>All Other</u>	<u>10+</u>	<u>116,466,577</u>	<u>125,347,230</u>	<u>1.08</u>	<u>2,080</u>	<u>2.9%</u>
Total	10+	829,723,742	846,956,815	1.02	72,867	

It would be inappropriate to apply a factor derived with such a large weight from the 0.63 A/E factor from durations 10+ on the 3358 to the projected claim costs on other policy forms which have a significantly higher historical A/E at those durations and make up a much larger portion of future projected experience. Therefore, as we've outlined above, the A/E's for each individual policy form are considered separately and applied in projecting the experience for that individual policy form going forward. Similarly, the lifetime A/E across all policy forms would be equally inappropriate to apply in aggregate to the future projected experience.

2. A projection exhibit was included in the 2013 filing that is substantially similar to the one included in the current filing that produces the data in section 9 of the memorandum. We have attached two files to this response: the first, titled "Projection Comparison from 2013 filing" is pulled directly from the 2013 filing – it was the final page of the attachment entitled "VA 2013 Exhibits" submitted with that filing. And the second, "Projection Comparison from 2017 filing" is included as the last page of the file "Nationwide Exhibits 2017.pdf" from the initial filing materials in this current 2017 filing. The final two columns from the 2013 file are now used as the two columns of data under the "2013 Filing" heading in the 2107 file. This file produces the data shown in section 9 of the actuarial memorandum. Both the 2013 and 2017 projection used in developing the table in section 9 use the nationwide projected experience based upon the assumptions outlined in the Actuarial Memorandum from the respective filings.
3. The attached file '2013 Experience and Projection at Virginia Rate Level.xlsx' shows the historical experience and projection consistent with data and assumptions from the 2013 filing with premiums restated to the Virginia rate level from that point in time. These tabs are consistent with tabs 3 & 4 from the previously provided spreadsheet "Virginia Exhibits 2017."

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

Fax: (877) 855-7817

<<DATE>>

<<NAME>>  
<<ADDRESS>>  
<<CITY, ST ZIP CODE>>

Insured: <<NAME>>  
Policy No: <<#####>>

As previously notified, the premium rate on the above mentioned long term care policy was recently increased. As part of that rate increase, we offered a contingent benefit upon lapse non-forfeiture benefit, which means that if you were to cancel the policy or were to lapse due to the nonpayment of premium between the time you were notified of the rate increase and 120 days after the effective date of that increase, we would place your policy into contingent non-forfeiture status.

You are receiving this letter because you either cancelled your policy or we did not receive your premium payment and effective <<MM/DD/YYYY>> the policy is now in contingent non-forfeiture status. The policy benefit period has been reduced to equal the total premium paid into the policy divided by the maximum daily benefit of the policy. This new benefit period may not exceed the remaining maximum benefits that were available prior to entering into contingent non-forfeiture status. If you currently have an open claim, or if a new claim is filed, any benefits paid for dates of service after <<MM/DD/YYYY>> will be applied to and will not exceed the policy's new maximum benefit amount. The policy's maximum benefit amount is now <<\$#####.##>>.

Please note, if the policy contained an inflation rider the maximum daily benefit will not continue to increase. Likewise, if the policy contained a return of premium rider, all benefits associated with that rider cease as of the effective date mentioned above.

You may be eligible to request reinstatement. Please review your policy to determine if you are eligible for reinstatement.

If we can be of further assistance please contact us and a customer support representative will be happy to assist you.

Sincerely,

Policyholder Services Department  
TriPlus Services, Inc.  
Third Party Administrator for Medico Insurance Company

**To: Janet Hauser**

**From: Todd Moltumyr ASA, MAAA**

**Date: March 1, 2018**

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated December 18, 2017**

---

This memo is in response to the captioned Objection Letter from Janet Hauser of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

### **Objection 1**

1. We have corrected this issue and removed the draft watermark.
2. We have updated the header to make sure the insurance company name is in 10 point font.
3. We have bolded and increased the font size of the insurance company name in the first sentence of the letter.
4. While we strongly prefer the language we are using in all other states, we will agree to use the language from the Long Term Care Rate Request Summary instead for Virginia policies only.
5. We are willing to add the sentence you mentioned in your response to our rate increase letter, however, we do not know what that sentence means. If a policyholder calls us and asks us for a revised premium rate or rate schedule, we would not know what to give them. Please clarify what a revised premium rate or rate schedule means so we can properly comply with the Department's request. Please also recommend where we should add that sentence to the letter as we are having a difficult time determining where we should add the sentence "The insured has a right to a revised premium rate or rate schedule upon request."
6. We have bolded the sentence "Please note that all options may not be of equal value" in the letter.
7. The number of days is determined by the sum of the total premiums paid divided by the daily benefit amount. For example, if the sum of the total premiums paid is \$10,000 and there is a \$100 daily benefit amount, there would be 100 days payable. The contingent benefit will be a minimum of 30 days, unless 30 days exceeds the remaining number of days payable under the policy.
8. No partnership policies are included in this filing.

### **Objection 2**

---

We will agree to give the insured a choice to exercise the return of premium benefit or choose to have a paid up policy.

### **Objection 3**

We have revised the FAQ form to comply with your request.

### **Objection 4**

The Certification of Compliance is attached.

### **Objection 5**

A Statement of Variability is attached in Supporting Documentation for each of the four forms filed on the form schedule.

### **Objection 6**

We agree.

### **Objection 7**

We have revised the BAO form to comply with your request.

### **Objection 8**

The Benefit Adjustment Rider is not being filed for approval at this time; it is an existing approved form already in use, included as Supporting Documentation in this filing per a request. As such we have not included a Statement of Variability in this filing.

If the sum of the total premiums paid exceed the remaining maximum benefits available prior to the policy lapsing, the paid up value is equal to the remaining maximum benefits available prior to the policy lapsing.

### **Objection 9**

1. We first reiterate that the original projections provided in this filing do not use a 1.31 A/E factor on the baseline claim costs to project future incurred claims. A/E factors varying by form and duration are developed based on actual past experience and applied to the baseline claim costs such that the average aggregate adjustment is approximately 1.31.

The attached exhibit 'VA Projections at Adjusted AEs' shows the baseline projected premium along with projected claims under 4 scenarios including the baseline projection, a level 1.31 factor on all durations and forms, and the level 1.18 and 1.02 factor sensitivity tests as requested. This exhibit illustrates the difference between the baseline projection using the smoothed A/E's varying by form and duration ultimately closely matches the projection using a level 1.31 factor but actually projects claims around 5% lower than in the level 1.31 scenario.

2. The average statutory valuation rate for the policies included in this projection is 4.544%.
  3. The requested separate projections for policies with and without inflation are attached.
-

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**STATEMENT OF VARIABILITY**

**Form:**

**RI-17-VA - Policyholder Rate Increase Notification Letter**

**February 19, 2018**

The above captioned form is to be sent to Medico Insurance Company policyholders notifying them of a rate increase, to be implemented upon approval. The language that is bracketed (“<< >>”) in the attached form is intended to be illustrative and variable, and may be modified as described below.

<b>Bracketed Item</b>	<b>Description</b>
Printing date	Date the letter is printed
Name of policyholder	Name of policyholder for that particular policy
Address line 1	Street Address for that particular policyholder
Address line 2	City, State and Zip code for that particular policyholder
Policy number	Policy Number for that particular policy
Name of insured	Name of insured for that particular policy
New premium rate	New modal premium amount due after the rate increase
Effective date 1	Renewal date that the new premium rate is effective
Percentage increase	Percentage increase in the premium rate from the prior premium rate
Effective date 2	Renewal date that the new premium rate is effective
Adjust your coverage option	<p>Paragraphs describing the option to adjust coverage to lower premium and offset the increase. When policy is actively on claim, the section is changed to read as follows instead:</p> <p><b>“Adjust your coverage:</b> You may have the option to adjust your level of coverage in order to make your premiums more affordable. If you would like to investigate the availability of benefit adjustment options, please call our dedicated Customer Support Department, toll free at 877-795-8493.</p> <p>Please discuss potential policy changes with your family or advisors as well as our Customer Support Department to make sure any changes to your policy will best suit your needs.”</p>

**Medico Insurance Company**

**STATEMENT OF VARIABILITY**

**Form:**

**RI-17-VA-BAO - Policyholder Rate Increase Notification Letter Benefit Adjustment Option Form**

**February 19, 2018**

The above captioned form is to be sent to Medico Insurance Company policyholders as an insert when applicable with a letter notifying them of a rate increase. The policyholder can fill out this form and return it with their signature to elect an option. The language that is bracketed (“<< >>”) in the attached form is intended to be illustrative and variable, and may be modified as described below.

<b>Bracketed Item</b>	<b>Description</b>
Printing date	Date the letter is printed
Name of policyholder	Name of policyholder for that particular policy
Policy number	Policy Number for that particular policy
Benefit Adjustment Options	This section shows up to 5 specific benefit adjustment options. If any of the specific options are invalid due to current policy benefits already being at the minimum or maximum, the entire option is omitted. If no options are available, the entire form is omitted from the mailing.
Current Benefit Period 1	Shows current benefit period for policy
Adjusted Benefit Period 1	Shows adjusted benefit period for adjustment option 1 being quoted
Revised premium 1	Shows what the revised premium would be if adjustment option 1 is elected
Current Benefit Period 2	Shows current benefit period for policy
Adjusted Benefit Period 2	Shows adjusted benefit period for adjustment option 2 being quoted
Revised premium 2	Shows what the revised premium would be if adjustment option 2 is elected
Current elimination period 1	Shows current elimination period for policy
Revised premium 3	Shows what the revised premium would be if adjustment option 3 is elected
Current Benefit Period 3	Shows current benefit period for policy
Adjusted Benefit Period 3	Shows adjusted benefit period for adjustment option 4 being quoted
Current elimination period 2	Shows current elimination period for policy
Revised premium 4	Shows what the revised premium would be if adjustment option 4 is elected
Current base daily benefit amount	Shows current base daily benefit amount for policy
Revised base daily benefit amount	Shows adjusted base daily benefit amount for adjustment option 5 being quoted

Revised premium 5	Shows what the revised premium would be if adjustment option 5 is elected
Revised Inflated daily benefit amount	Shows adjusted inflated daily benefit amount for adjustment option 5 being quoted
Effective date 1	Renewal date that the revised inflated daily benefit amount is as of
Additional Coverages text	Paragraph is only included if the policy has a separate pool benefit for HHC benefits.
Effective date 2	Renewal date that the revised premiums for the adjustment options would become effective

**From: Todd Moltumyr ASA, MAAA**

**Date: July 18, 2018**

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated July 16, 2018**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

1. The Incurred Claims by year shown in the exhibit include undiscounted paid claims plus the current (as of 12/31/2016) claim reserve and IBNR (i.e. the paid claims are not discounted back to the incurred date for each claim). To determine the PV Incurred Claims we are taking the paid claims in each calendar year (not shown in the exhibit) and accumulating them to 12/31/2016 and then adding in the claim reserve and IBNR as of 12/31/2016. We are essentially calculating the PV the same way we are doing it for Earned Premium, but because the paid claims are not discounted in the Incurred Claims column we applying the interest to the paid claims outside of this exhibit and then adding in the claim reserve and IBNR.
2. The nationwide Active Life Reserve as of 12/31/2016 for policies with and without inflation protection is as follows:
  - a. ALR for policies without inflation protection: \$180,020,975
  - b. ALR for policies with inflation protection: \$\$324,934,747

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Date: February 5, 2019**

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated January 31, 2019**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

We have bolded and increased the font size of the insurance company name in both the letterhead and the body of the letter. TriPlus handles all long term care correspondence with Medico policyholders, both via letters as well as over the phone, and has administered these policies for over ten years. All policies affected by this filing have been in force for at least 15 years so the policyholders are aware that they have Medico Insurance Company policies administered by TriPlus Services.

TriPlus Services is only shown in the letterhead and the signature line. Would it be preferable to file this form with the letterhead only listed as a placeholder (i.e. removing the actual letterhead and just listing the word "Letterhead" in its place), as well as doing the same for the signature line? If we submit the form this way then the form would be filed generically but we would still be able to use the actual letterhead and signature line when mailing out the letters.

**Objection 2**

We have revised the letter to be in "John Doe" fashion.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Date: April 17, 2019**

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objections Dated April 9, 2019**

---

This memo is in response to the captioned Objection Letters from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

## **OBJECTION LETTER 1**

### **Objection 1**

1. The reason the proposed increase varies by issue age is because the lower lapse rate assumption combined with mortality improvement has a greater impact on younger issue ages and on policies with inflation protection. We have also compared premium rates of the forms included in this filing with premium rates of companies that are still issuing new business and the biggest discrepancies are at the youngest issue ages with inflation protection, so this increases closes the premium gap at these pricing cells.
2. The requested update to Appendix A is attached, as well as providing that same information for Virginia policyholders as of 12/31/2016 and 12/31/2018.
1. The requested split by Inflation vs. Non-Inflation of the projection labeled “Experience Starting January 1, 1988 Forward - Premium restated at Original Rate Level Using Original Pricing Assumptions, but actual issued policies” is attached as the Excel file titled “Virginia Exhibit 8 – Inflation and Non-Inflation split.xlsx.” Please note that as stated in the comments accompanying the original exhibit, these projections are an estimation and not a seriatim projection of the originally issued policies. We used the original lapse, mortality and claim cost tables for representative cells from each form group in the filing to project each of the individual issue year cohorts of experience on a durational basis using those original assumptions. The issue year projections were then added together to result in the calendar year loss ratio projection as shown on that first tab of the attached exhibit.

Additionally, the representative cells used in creating the original exhibit were all based on non-inflation policies; the sum of the two separate projections provided with this response are a better approximation of the total projected lifetime loss ratio using original pricing assumptions and originally issued policies and premiums.

---

## **Objection 2**

1. We moved the "John Doe" version of the letter to supporting documentation and re-submitted the actual letter showing the variability to the Form Schedule.
2. We have revised each form to ensure that the footer is in 10 point font as requested.
3. As we discussed in our March 1, 2018 response, we are willing to add the sentence you mentioned in your response to our rate increase letter, however, we do not know what that sentence means. If a policyholder calls us and asks us for a revised premium rate or rate schedule, we would not know what to give them. Please clarify what a revised premium rate or rate schedule means so we can properly comply with the Department's request. Please also recommend where we should add that sentence to the letter as we are having a difficult time determining where we should add the sentence "The insured has a right to a revised premium rate or rate schedule upon request."

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

5/13/2019

John Doe  
123 Main Street  
City, VA, Zip Code

Policy No: 00001  
Insured: John Doe

Dear John Doe:

We value your business and want to thank you for choosing **Medico Insurance Company** to provide your long term care coverage. We are committed to ensuring that your long term care insurance benefits are there when you need them.

The purpose of this letter is to notify you that we have determined that it is necessary to increase premiums for your coverage. This is not a premium notice; if you are on a direct, paper bill mode you will receive a notice of premium due approximately 30 days before the premium is due. Your future premium rate(s) will be as follows:

\* The Annual renewal premium rate of \$1,200.00 will become effective on 7/17/2019. This represents a percentage increase of 20.0%. Please note that this premium rate does not reflect any future rate increases that may occur.

#### **Reasons for the Premium Increase**

Premium rates on your policy are being raised as a result of different than expected persistency (how long policies stay in force) and morbidity (both the incidence of illness in the population and the duration of the illness). The policy persistency, claim incidence and duration of illness in the population have been higher than initially anticipated. The higher persistency and morbidity combined with the cost of care continuing to increase means that premium rates must be adjusted to ensure current and future claims are adequately funded.

#### **Options Available To You:**

We do understand that this premium increase may make it more difficult to continue your current level of coverage. Please know that we do not take this action lightly and we recognize that raising premiums may have a significant impact on you. As such, below are options that you may consider at this time:

- 1. Continue current level of coverage:** Keep your exact coverage without any changes and the new premium will take effect on 7/17/2019. If we do not hear from you, then we will assume that you have accepted the higher premium amount.
- 2. Adjust your coverage:** You may consider adjusting the level of coverage in order to make premiums more affordable. We have provided you with the enclosed Benefit Adjustment Option Return Form, which illustrates the available policy adjustment offer(s) as an alternative to the current plan, while still maintaining essential coverage. **Please note that all options may not be of equal value.**

If you would like to investigate additional benefit adjustment options, not mentioned in the enclosed, please call our dedicated Customer Support Department, toll free at 877-795-8493.

TriPlus Services, Inc. ♦ Third-Party Administrator for  
**Medico Insurance Company**  
Policyholder Services Department  
PO Box 3735  
Omaha, NE 68103-0735

PHONE: (877) 795-8493  
FAX: (844) 855-7817  
EMAIL: customersupport@tri-plus.net

Please discuss potential policy changes with your family or advisors as well as our Customer Support Department to make sure any changes to your policy will best suit your needs.

- 3. Elect the Contingent Benefit Upon Lapse:** If you determine that you would like to discontinue this coverage we will provide a Contingent Benefit Upon Lapse. If you elect this option, the new maximum benefit amount will be equal to the greater of the sum of the premiums paid into the policy from the issue date through the current paid to date or 30 times the daily nursing home benefit at the time of lapse; in no event will the paid up value exceed the remaining amount of benefits available under the policy if it remained in premium paying status. If you currently have an open claim, or if a new claim is filed, any benefits paid for dates of service after the effective date of this new policy status will be applied to and will not exceed the policy's new maximum benefit amount. To determine the number of days payable under the policy, the sum of all premiums paid is divided by the Daily Benefit at the time of lapse. Benefit Eligibility is determined by the policy terms and all benefits paid by us will not exceed the maximum benefits which would have been payable if the policy had remained in premium paying status.

This Contingent Benefit Upon Lapse acts as a form of reduced paid up coverage and will be available should you choose to lapse the coverage at any point between now and 120 days following the date the new premium rates take effect. If you would like to elect this benefit please complete and return the enclosed Request to Exercise Contingent Benefit Upon Lapse form. If you do not complete this form, and you lapse your policy within 120 days after the effective date of the rate increase, this benefit will be automatically applied.

When you purchased your long-term care coverage, you made a conscious decision to protect yourself and your family from the increasing costs associated with long-term care, which can be significant; therefore we would like to stress the importance of retaining this valuable coverage. Before considering the options above, please carefully evaluate your situation and your reasons for initially purchasing this coverage.

Please note that the policy may be subject to future rate increases. In the event of future rate increases, similar options may be available; however, you can contact us at any time to discuss decreasing your coverage and premiums, per the provisions of your policy.

The rate increase request was reviewed by Virginia's State Corporation Commission and was found to be compliant with applicable Virginia laws and regulations addressing long-term care insurance. All premium rate filings are available for public inspection and may be accessed online through the Virginia Bureau of Insurance's webpage at [www.scc.virginia.gov/BOI](http://www.scc.virginia.gov/BOI).

We have enclosed additional information about this increase in the Frequently Asked Questions document. For any additional questions, please call our customer service center at 877-795-8493, electing option 2, then 3, at the prompt, and a customer support representative will be happy to assist you.

Sincerely,

Policyholder Services Department  
TriPlus Services, Inc.

**Date: April 17, 2019**  
**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objections Dated April 9, 2019**

---

This memo is in response to the captioned Objection Letters from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

## **OBJECTION LETTER 2**

### **Objection 1**

The current nationwide cumulative increase to date for the forms we are requesting an increase on in this nationwide filing is approximately 302%.

### **Objection 2**

The attached exhibit shows the average requested and approved rate increases nationwide. Several of the prior increases varied by either issue age, benefit period and/or inflation protection. While we request the same level of increase per pricing cell in all states, the average amount of the increase varies by state due to the distribution of policies within each state. The nationwide cumulative increase if all requested increases were approved would be approximately 380%.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Date: May 24, 2019**

**CC: Beverly Toomey, Dave Krydyski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated May 21, 2019**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

### **Objection 1**

1. This is an acquired block and very little of the original pricing and filing materials are available. Because of that we are not able to create a seriatim projection of the originally issued policies using original pricing assumptions. As we discussed in our previous letter, the projections provided with our prior response were an estimation and not a seriatim projection of the originally issued policies. We used the original lapse, mortality and claim cost tables for representative cells from each form group in the filing to project each of the individual issue year cohorts of experience on a durational basis using those original assumptions. The issue year projections were then added together to result in the calendar year loss ratio projection as shown on that first tab of the attached exhibit.

The current and proposed projections included in the filing are seriatim projections using all policies inforce as of 12/31/2016 and the pricing assumptions included in the Actuarial Memorandum. Basically, we are able to provide seriatim projections using current assumptions and inforce policies, but we are unable to provide seriatim projections using the original assumptions and original issued policies.

Please note that we believe it is most appropriate to compare this current filing with the previously approved rate filing for this block of business. We use a prospective method similar to the “Texas” approach when determining the need for a rate increase. The company does not look to recoup any past losses, it only attempts to get future experience in line with what had been projected in the prior filing.

We are copying in a portion of Section 9 of the Actuarial Memorandum below, which illustrates that we are only trying to get 2017+ experience in line with what had been projected in the approved 2013 filing:

*This filing is intended to return the future experience of this block to the level projected in 2013. As shown in the attached exhibit, this rate increase, if approved as assumed would result in the following as compared to the 2013 filing:*

<i>Projection Years 2017+</i>	<i>2013 Filing</i>	<i>Current Projection Without Increase</i>	<i>Current Projection With Increase</i>
<i>PV Future EP (in millions)</i>	<i>\$534.5</i>	<i>\$501.4</i>	<i>\$610.7</i>
<i>PV Future Claims (in millions)</i>	<i>\$963.2</i>	<i>\$1,039.1</i>	<i>\$1,039.1</i>
<i>PV Future (EP – Claims) (in millions)</i>	<i>-\$428.7</i>	<i>-\$537.7</i>	<i>-\$428.4</i>

---

The referenced exhibit (attached again with this letter) also shows actual experience from years 2013-2016 and compares that to what had been projected in the 2013 filing. The projected earned premium minus incurred claims for those four years was -\$6.7 million. The actual earned premium minus incurred claims for those four years was -\$80.0 million. The company is not trying to recoup any of that \$73.3 million deficiency from years 2013-2016. The only goal with this filing is to get 2017+ experience in line with what was projected in the 2013 nationwide filing.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Subject: Long Term Care Insurance Rate Filing – Phone Calls From October 17-21, 2019**

---

This memo is in response to the captioned telephone calls we had on October 17 and October 21 regarding this LTC rate increase filing. This response addresses the issues we discussed on the telephone calls.

The company will accept the proposed average 24% rate increase. The proposed rate increase percentages by pricing cell are shown in the revised Actuarial Memorandum. The average rate increase is slightly above or below 24% by company (Ability is slightly below 24%, Medico is slightly above 24%) but the overall average among all inforce policyholders is 24%. Revised rate sheets have been added to the Rate/Rule Schedule tab of the filing and a post-submission update has been submitted reflecting the revised percentages.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated November 25, 2019**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

1. Based on policies inforce as of 12/31/2016, the current national cumulative average increase is 337%, and the national cumulative average increase is 374% if all outstanding rate increase requests are approved for the full amount. The above percentages are for forms 690-698, which comprise the bulk of the block nationwide and in Virginia.

Please note that several historical rate increases varied by issue age, benefit period and inflation protection option. Thus, although we request the same rate increase percentages by cell in each state, the average increase calculated on a state by state basis varies based on the inforce distribution within each state.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Subject: Long Term Care Insurance Rate Filing – Objection Dated December 30, 2019**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

1. Based on policies inforce as of 12/31/2016, the current Virginia cumulative average increase is 295%, and the Virginia cumulative average increase will be 366% if this current filing is approved. The above percentages are for forms 690-698, which comprise the bulk of the block nationwide and in Virginia.

Please note that several historical rate increases varied by issue age, benefit period and inflation protection option. Thus, although we request the same rate increase percentages by cell in each state, the average increase calculated on a state by state basis varies based on the inforce distribution within each state.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

**Date: January 21, 2020**

**CC: Beverly Toomey, Dave Krydynski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated January 21, 2020**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

**Objection 1**

1. Yes, this reinstatement option is available to a policyholder that elects to stop paying their premium but does not return the CBUL form. It is available to all policyholders that lapse coverage or elect the CBUL but then later want to reinstate their policy within 65 days of the premium due date.
2. Yes, the policyholder is required to submit all past due premiums to reinstate their policy within the 65 day period from the premium due date.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**CC: Beverly Toomey, Dave Krydyski**

**Subject: Long Term Care Insurance Rate Filing – Objection Dated June 23, 2020**

---

This memo is in response to the captioned Objection Letter from Bobby Toone of the Virginia Insurance Department regarding our LTC rate increase filing. This response addresses the objections in the same order they were listed in the letter.

### **Objection 1**

1. We have submitted a Certificate of Readability for the policyholder notification letter RI-17-VA on the Supporting Documentation tab of the filing. In order to reach a minimum Flesch Reading Ease score of 50 we have made changes to the form and have included the revised version of the letter on the Form Schedule tab of the filing.
2. We have included the updated website address in the revised letter submitted with this response.
3. The statement “The policyholder has the right to a revised premium rate or rate schedule,” has been added to the letter. It continues to be unclear to us what this statement means or what is supposed to be done if a policyholder calls in with a request based on this statement. We are interpreting it to refer to the policyholder’s option to adjust benefits, either via one of the predesigned options to be included with the notification letter or by calling in to discuss alternative options with a customer service representative.

### **Objection 2**

1. We have added the full company name to the first paragraph of the FAQ insert RI-17-FAQ as requested. A revised copy of the FAQ form has been added to the Form Schedule of the filing.
2. Brackets have been added to the last FAQ around the phone number, prompt instructions, and office hours so they can be updated in the event that the information changes during the course of implementing the increase.

We appreciate your continued review of this filing. Please let us know if you have any questions or need additional information.

Sincerely,

Todd Moltumyr ASA, MAAA  
Vice President

**Medico Insurance Company**

**STATEMENT OF VARIABILITY**

**Form:**

**RI-17-VA-FAQ - Policyholder Rate Increase Notification Letter FAQ Insert**

**July 23, 2020**

The above captioned form is to be sent to Medico Insurance Company policyholders as an insert with a letter notifying them of a rate increase. The language that is bracketed (“<< >>”) in the attached form is intended to be illustrative and variable, and may be modified as described below.

<b>Bracketed Item</b>	<b>Description</b>
“What are the options to reduce my coverage?” and “I want to maintain an active premium paying policy, how do I change my coverage?” sections	<p>Sections discussing the options to adjust coverage to lower premium and offset the increase. When policy is actively on claim, the section is changed to read as follows instead:</p> <p><b>“Q. To keep my policy without paying the higher premium, how do I change my coverage?”</b></p> <p>A: To change your coverage we require your request in writing. You may submit the Benefit Adjustment Option Return Form included with your notification letter, or you may contact our Policyholder Services Department at 877-795-8493, electing option 2, then 3, at the prompt, to obtain a proposed benefit adjustment form for those options not identified in your letter. “</p>
Customer service contact number and office hours	The phone number, prompt instructions and office hours stated in the last FAQ have been marked variable so they can be updated in the event that the information changes during the course of implementing the increase.

**Medico Insurance Company**

**STATEMENT OF VARIABILITY**

**Form:**

**RI-17-VA - Policyholder Rate Increase Notification Letter**

**September 3, 2020**

The above captioned form is to be sent to Medico Insurance Company policyholders notifying them of a rate increase, to be implemented upon approval. The language that is bracketed (“<>”) in the attached form is intended to be illustrative and variable, and may be modified as described below.

<b>Bracketed Item</b>	<b>Description</b>
Printing date	Date the letter is printed
Name of policyholder	Name of policyholder for that particular policy
Address line 1	Street Address for that particular policyholder
Address line 2	City, State and Zip code for that particular policyholder
Policy number	Policy Number for that particular policy
Name of insured	Name of insured for that particular policy
New premium rate	New modal premium amount due after the rate increase
Effective date 1	Renewal date that the new premium rate is effective
Percentage increase	Percentage increase in the premium rate from the prior premium rate
Effective date 2	Renewal date that the new premium rate is effective
Adjust your coverage option	<p>Paragraphs describing the option to adjust coverage to lower premium and offset the increase. When policy is actively on claim, the section is changed to read as follows instead:</p> <p><b>“Adjust your coverage:</b> You may have the option to adjust your level of coverage in order to make your premiums more affordable. If you would like to investigate the availability of benefit adjustment options, please call our dedicated Customer Support Department, toll free at 877-795-8493.</p> <p>Please discuss potential policy changes with your family or advisors as well as our Customer Support Department to make sure any changes to your policy will best suit your needs.”</p>
Phone Number and Prompts	Customer Service Phone number, and instructions for prompts
Enclosures	If someone is on claim or if they are already at the lowest benefit amounts then they do not receive the Benefit Adjustment Option Return Form
