On February 10, 2010, Po River filed a response to the IACT Petition stating that the relief requested is no longer necessary since the Company has remedied the defect in the December 15, 2009 notice by reissuing the notice to all of its customers on January 29, 2010. With regard to IACT's request that a hearing be scheduled and that Po River's proposed rate increase and revised rules and regulations be suspended one hundred and fifty (150) days from January 5, 2010, Po River stated that IACT relies incorrectly on § 56-265.13:3 of the Code, which only applies to companies with gross annual revenues of more than $500,000. Po River stated that the sixty (60) day suspension period under § 56 265.13:6 A of the Code applies to Po River, should the Commission decide to order any suspension period, because Po River has only slightly more that $402,000 in annual gross revenues based upon its financial statements for the twelve months ending December 31, 2008.

Furthermore, Po River asserted that no suspension period should be ordered beyond the delayed implementation period of May 1, 2010, which Po River has provided for by its own actions. Po River asserted that it is incurring substantial financial loss under its currents rates, and it asked that the Commission allow the proposed rates to go into effect May 1, 2010.

Finally, Po River requested that it not be required to escrow the increase in rates as provided under § 56-265.13:6 C of the Code, asserting that it needs immediate relief given its annual losses of over $250,000. Po River asserted that escrowing the amount of the increase in rates until final resolution of the proceeding will deny Po River the funds needed to continue to meet the Commonwealth's environmental and health laws and to provide adequate service.

On February 16, 2010, IACT filed its reply wherein it agreed with Po River that the new notice sent on January 29, 2010, provides customers with the statutorily mandated forty-five (45) day notice on the proposed rate changes required under § 56-265.13:5 of the Code. Accordingly, IACT stated that there is no longer any need for injunctive and declaratory relief. However, IACT asserted that the one hundred and fifty (150) day suspension period provided pursuant to § 56-265.13:3 of the Code is the correct suspension period to be used in this proceeding because the Company's proposed rates and charges will produce gross annual revenues of $700,634. By proposing rates in excess of the $500,000 annual gross revenues threshold, IACT asserts that Po River has triggered the longer suspension period under § 56-265.13:3 of the Code. Accordingly, IACT asserted that the one hundred and fifty (150) day suspension period should run from January 29, 2010. IACT also asserted that the customers should be granted the further protection of having the rates declared interim and subject to refund as allowed by § 56-265.13:6 A of the Code. Finally, in regard to Po River's request that it not be required to escrow the increase in rates, IACT argued that the provisions of § 56-265.13:6 C of the Code require the Commission to direct that the funds produced by the increase be held in escrow when new rates will produce a 50% increase in revenues.

The changes to the rates, rules, and regulations proposed by Po River in both its December 15, 2009 notice and its January 29, 2010 notice provide for an increase in the flat quarterly rate from $22.69 to $37.98 per privately owned lot receiving only water service. Po River also seeks to implement a new flat combined quarterly rate for customers receiving water and sewer services, which would increase the rate presently paid by those customers from $22.69 to $70.96. IACT's flat quarterly rate for water and sewer services will be increased from $45,345 to $117,003. The Company also proposes to change certain portions of its rules and regulations for service, which are set out in detail in the notice previously provided to customers and filed herein. According to an exhibit filed by the Company with the notice, the proposed increase would raise annual operating revenues to $799,634, an increase of $426,025.

To date, the Commission's Division of Energy Regulation has received in excess of 250 comments and requests for hearing on the Company's proposed increase in rates and revised rules and regulations from Po River's customers. Section 56-265.13:6 of the Code provides that the Commission shall conduct a hearing on the proposed rate change if requested by either 250 customers or 25% of the customers of the small water or sewer utility, whichever number is lesser.

NOW THE COMMISSION, having considered the filings herein and applicable law, is of the opinion and finds as follows.

Declaratory Judgment and Injunction

IACT has stated that its request for injunctive and declaratory relief has been rendered unnecessary by Po River's reissuing of its notice to all of its customers and the Commission on January 29, 2010. We agree and find that portion of the Petition filed by IACT should be denied as it is now moot.

Hearing

We find that a hearing should be scheduled pursuant to § 56-265.13:6 A of the Code to receive evidence relevant to Po River's proposed rate increase and revisions to its rules and regulations. The Commission has received in excess of 250 comments and requests for hearing from the customers of

Po River about its intended rate increase. We will direct that a Hearing Examiner be appointed to conduct the proceedings and issue a report. We will also direct Po River to give notice to the public of the procedural schedule adopted herein.

Suspension of Rates

IACT has requested that the Commission suspend the implementation of the increase in rates and the revised rules and regulations one hundred and fifty (150) days from January 29, 2010, the date the notice to the customers was reissued by Po River. In support of this request, IACT relies on § 56-265.13:3 of the Code. In contrast, Po River argues that the sixty (60) day suspension period under § 56-265.13:6 A of the Code is applicable to this proceeding.

Section 56-265.13:3 of the Code provides, in part, that "[i]n case of a company with gross annual revenues of $500,000 or more, (i) the Commission may suspend a proposed increase in rates for a period not exceeding 150 days from the date of the filing of the proposed rate increase . . . ." Both IACT and Po River agree that prior to filing for this proposed rate increase, Po River did not have annual gross revenues of $500,000 or more. We do not find that Po River's filing notice of its intent to prospectively increase rates to produce revenues above this $500,000 threshold triggers implementation of § 56-265.13:3 of the Code. Accordingly, we find that IACT's request for a suspension period of one hundred and fifty (150) days from January 29, 2010, should be denied.

We also find it appropriate to suspend the Company's rates until May 1, 2010, consistent with Po River's January 29, 2010 notice to its customers. In addition, we find the proposed rates, charges, fees, rules, and regulations proposed by Po River to be interim and subject to refund with interest pursuant to § 56-265.16:6 A of the Code. Thus, Po River may, but is not obligated to, implement the proposed rates, charges, and revised rules and regulations effective May 1, 2010, on an interim basis subject to refund with interest until such time as the Commission has made its final determination in the proceeding.

Escrow

Po River asks the Commission not to require the Company to escrow the increase in rates while the case is pending. IACT asserts that escrowing new rates is a form of ratepayer protection mandated by statute when a company proposes new rates that will produce a 50% or greater increase in rates.

Section 56-265.13:6 C of the Code, in part, provides:

> If the change in rates, fees, and charges results in an increase of 50 percent or greater of the small water or sewer utility's annual revenues . . . and, if a hearing is ordered, the Commission shall expedite the hearing on the change in rates, fees, and charges. The Commission shall also direct that the funds produced by the increase in rates, fees, and charges shall be held in escrow by the small water or sewer utility until the Commission has rendered its decision, at which time the funds held in escrow shall either be released to the small water or sewer utility or refunded to its customers. The Commission may, however, allow the funds held in escrow to be used as necessary to comply with environmental or health laws or regulations or to allow the small water or sewer utility to provide adequate service to its customers.

The rate increases noticed by Po River will increase its annual revenues by more than 50%, from $402,018 in annual revenues as of year end 2008 to $799,634, if approved by the Commission. The Commission finds the provisions of § 56-265.13:6 C of the Code to be mandatory; that is, the Commission is required by this statute to direct the funds to be held in escrow when this statutory threshold increase is met or exceeded. Accordingly, the Commission will direct the Company to hold in escrow the funds produced by the increase in rates, fees, and charges implemented on an interim basis and subject to refund on or after May 1, 2010. Po River may, pursuant to § 56-265.13:6 C of the Code, petition the Commission for authorization to use funds held in escrow when necessary to comply with environmental or health laws or regulations or to allow the Company to provide adequate service to its customers. Such requests will be considered on a case-by-case basis in light of the statutory requirements of § 56-265.13:6 C of the Code.

Accordingly, IT IS ORDERED THAT:

(1) This matter be docketed and assigned Case No. PUE-2009-00136.

(2) IACT's Petition for declaratory judgment and injunction is moot and thereby denied.

(3) As provided by § 12.1-31 of the Code and the Commission's Rules of Practice and Procedure, 5 VAC 5-20-120, a Hearing Examiner shall be appointed to conduct further proceedings in this matter on behalf of the Commission and shall issue a final report herein.

(4) A public hearing before a Hearing Examiner shall be held on July 28, 2010, commencing at 10:00 a.m. in the Commission's Second Floor Courtroom, located in the Tyler Building, 1300 East Main Street, Richmond, Virginia 23218, to receive the testimony of public witnesses and evidence from the Company, any respondents, and the Staff related to the proposed increase in rates and revisions to the rules and regulations of Po River. Any person desiring to offer testimony as a public witness at the hearing need only appear in the Commission's Courtroom at 9:45 a.m. on the day of the hearing and register a request to speak with the Commission's Bailiff.

(5) Pursuant to § 56-265.13:6 A of the Code, the Company's proposed rates, rules, and regulations shall be interim and subject to refund with interest. Po River may, but is not obligated to, implement its proposed rates, fees, charges, and revisions to its rules and regulations, on an interim basis subject to refund with interest, effective for service rendered on or after May 1, 2010.

(6) Pursuant to § 56-265.13:6 C of the Code, the Company shall hold in escrow all funds produced by the increase in rates, fees, and charges until the Commission has rendered its decision in this case.

(7) On or before April 9, 2010, the Company shall file with the Clerk of the Commission an original and fifteen (15) copies of the testimony and exhibits that the Company intends to present at the public hearing.

(8) The Company shall make copies of its proposed changes to its rates, rules, and regulations, as well as a copy of this Order for Notice and Hearing, available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Copies also may be obtained by submitting a written request to counsel for the Company, Donald G. Owens, Esquire, Troutman Sanders LLP, P.O. Box 1122, Richmond, Virginia 23218-1122. Copies of the revised rates, rules, and regulations and related documents also shall be available for interested persons to review in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. Interested persons may also download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

(9) On or before April 9, 2010, the Company shall cause the following notice to be sent to each of its customers by first class mail, postage prepaid (bill inserts are acceptable):

NOTICE TO THE PUBLIC OF A HEARING
ON THE PROPOSED CHANGE IN WATER AND SEWER
RATES, RULES, AND REGULATIONS OF
PO RIVER WATER AND SEWER COMPANY
CASE NO. PUE-2009-000136

TAKE NOTICE that Po River Water and Sewer Company ("Po River" or the "Company") has filed with the State Corporation Commission, pursuant to § 56-265.13:1 *et seq*. of the Code of Virginia, notice of the Company's intent to change its rates, rules, and regulations effective May 1, 2010.

The Company proposes to increase the flat quarterly rate per privately owned lot receiving only water service from $22.69 to $37.98, and to implement a new flat combined quarterly rate for customers receiving water and sewer services, which will increase the rate presently paid by those customers from $22.69 to $70.96. The flat quarterly rate of the Indian Acres Club of Thornburg, the property owners' association, for water and sewer services is proposed to increase from $45,345 to $117,003. Through the proposed rate increase, the Company seeks an additional $426,025 in annual operating revenue.

The Commission has entered an Order scheduling a hearing on the proposed rate increase and the changes to the rules and regulations of the Company. The Commission has also ruled that the changes in rates, rules, and regulations may be placed into effect by Po River on May 1, 2010, on an interim basis subject to refund with interest pending the outcome of the proceeding. Furthermore, all funds produced by the increase in rates, fees, and charges will be held in escrow until the Commission has rendered its decision in this case.

TAKE NOTICE that while the total revenue requirement that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, the individual rates and charges approved by the Commission may be higher or lower than those proposed by the Company.

A public hearing before a Hearing Examiner is scheduled to commence at 10:00 a.m. on July 28, 2010, in the Commission's Second Floor Courtroom, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence related to proposed changes in rates, rules, and regulations. Any person desiring to testify as a public witness need only appear in the Commission's Second Floor Courtroom in the Tyler Building at the address set forth above prior to 9:45 a.m. on the day of the hearing and register a request to speak with the Commission's Bailiff.

A copy of Po River's proposed changes to its rates, rules, and regulations, as well as a copy of this Order for Notice and Hearing, will be available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Copies also may be obtained by submitting a written request to counsel for the Company, Donald G. Owens, Esquire, Troutman Sanders LLP, P.O. Box 1122, Richmond, Virginia 23218-1122. Copies of the revised rates, rules, and regulations, and related documents also shall be available for interested persons to review in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. Interested persons may also download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a respondent in this proceeding by filing, on or before May 27, 2010, an original and fifteen (15) copies of a notice of participation as a respondent with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2009-00136.

On or before May 27, 2010, each respondent may file with the Clerk of the Commission at the address above an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to the Company, all other respondents, and the Staff. Respondents shall comply with the Commission's Rules of Practice and Procedure, including: 5 VAC 5-20-140, *Filing and service*; 5 VAC 5-20-150, *Copies and format*; and 5 VAC 5-20-240, *Prepared testimony and exhibits*.

On or before July 21, 2010, any interested person may file with the Clerk of the Commission, at the address set forth above, written comments on Po River's proposed changes to its rates, rules and regulations.

Any interested person desiring to submit comments electronically may do so by following the instructions on the Commission's website: http://www.scc.virginia.gov/case. All correspondence shall refer to Case No. PUE-2009-00136.

PO RIVER WATER AND SEWER COMPANY

(10) On or before April 9, 2010, the Company shall serve a copy of this Order for Notice and Hearing on the chairman of the board of supervisors and county attorney and upon the mayor or manager (or equivalent official) of the city or town in which the Company provides service in the Commonwealth of Virginia. Service shall be made by first class mail to the customary place of business or residence of the person served.

(11) On or before May 7, 2010, the Company shall file with the Clerk of the Commission proof of the notice and service required by Ordering Paragraphs (9) and (10) herein.

(12) On or before July 21, 2010, any interested person may file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, written comments on the Company's proposed changes in rates, rules, and regulations. Any interested person desiring to submit comments electronically may do so by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

(13) Any interested person may participate as a respondent in this proceeding by filing, on or before May 27, 2010, an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address in Ordering Paragraph (12) and shall simultaneously serve a copy of the notice of participation on counsel to the Company at the address in Ordering Paragraph (8). Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2009-00136.

(14) Within three (3) business days of receipt of a notice of participation as a respondent, the Company shall serve upon each respondent a copy of this Order for Notice and Hearing and a copy of the proposed changes to its rates, rules, and regulations, unless these materials have already been provided to the respondent.

(15) On or before May 27, 2010, each respondent may file with the Clerk of the Commission an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to the Company and on all other respondents. Respondents shall comply with the Commission's Rules of Practice and Procedure, including: 5 VAC 5-20-140, *Filing and service*; 5 VAC 5-20-150, *Copies and format*; and 5 VAC 5-20-240, *Prepared testimony and exhibits*.

(16) The Staff shall investigate the Company's proposed increase in rates and revisions to its rules and regulations. On or before June 25, 2010, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of the Staff's testimony and exhibits.

(17) On or before July 16, 2010, Po River shall file with the Clerk of the Commission an original and fifteen (15) copies of any rebuttal testimony and exhibits and shall serve a copy on the Staff and all respondents.

(18) The Company and all respondents shall respond to written interrogatories and requests for the production of documents within seven (7) business days after receipt of the same. Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice and Procedure.

(19) This matter is continued pending further order of the Commission.

CASE NO. PUE-2009-00137
MAY 4, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY

For a certificate of public convenience and necessity to rebuild a portion of a 138 kV transmission line in Washington County and the City of Bristol, Virginia

FINAL ORDER

On December 16, 2009, Appalachian Power Company ("APCo" or "Company") filed an application with the State Corporation Commission ("Commission") for a certificate of public convenience and necessity to rebuild a portion of the Company's existing Saltville-Kingsport 138 kV transmission line located in Washington County and the City of Bristol, Virginia. Prepared testimony, exhibits, copies of correspondence, and other materials were filed in support of the Company's application.

The Company's application requests authority to rebuild 5.4 miles of its existing Saltville-Kingsport 138 kV transmission line between the Company's North Bristol Substation and Structure No. 62-116/1A & 2A, which is located approximately 0.4 mile northwest of the Company's Wolf Hills Substation. According to the application, the existing conductor on 5.4 miles of the Saltville-Kingsport 138 kV transmission line needs to be upgraded in order to handle the additional generation capacity that will be placed on the line by Virginia Electric and Power Company's ("Virginia Power") Virginia City

Hybrid Energy Center ("VCHEC") approved by the Commission in Case No. PUE-2007-00066.[1] The Company's application further represents that if the transmission line is not rebuilt and upgraded, non-contingency overloading will occur on the line when the VCHEC is placed in service.[2]

In order to prevent overloading on the transmission line, the Company plans to replace the line's existing towers and install a larger conductor to handle the additional generation capacity that will occur when the VCHEC is placed in service. The current towers, which have an average height of 100 feet, will be replaced with double circuit 138 kV steel lattice structures with an average height of 120 feet.[3] In addition, the existing conductor, which is approximately 0.75 inch in diameter, will be replaced with a larger conductor approximately 1.5 inches in diameter to handle the increased electrical load resulting from the VCHEC.[4] The Company's application proposes to rebuild the transmission line entirely within the Company's existing 100-foot-wide right-of-way.[5] The application's supporting testimony further states that Virginia Power will pay for the rebuild of the line, which is estimated to cost approximately $10.91 million.[6]

On February 1, 2010, the Commission issued an Order for Notice and Comment that docketed the application as Case No. PUE-2009-00137; directed APCo to provide public notice of its application; invited interested persons to file written comments and/or requests for hearing on the application by April 1, 2010; ordered the Commission Staff to review the application and file a Staff Report summarizing the results of its investigation by March 29, 2010; and allowed APCo to respond to the Staff Report and any public comments or requests for hearing on or before April 12, 2010.

On February 26, 2010, the Department of Environmental Quality ("DEQ") filed its coordinated environmental review ("DEQ Report") of the Company's proposed transmission line rebuild project. The DEQ Report recommends that the Company's proposal to rebuild the transmission line on its existing right-of-way be approved by the Commission. The DEQ Report further recommends that several mitigation measures be utilized by APCo in order to lessen the impact of the rebuild project on the environment and historic resources. The Company's application also contains a wetlands consultation conducted by the DEQ's Office of Wetlands and Water Protection. The DEQ's Office of Wetlands and Water Protection supports the Company's proposal to rebuild the line on its existing right-of-way and further recommends several permits that may be required for the project.[7]

On March 8, 2010, the Wise County Board of Supervisors filed a letter supporting the Company's application. According to the Wise County Board of Supervisors, the rebuild of the transmission line is necessary so the VCHEC can successfully operate in two years and provide Wise County with the significant economic benefits associated with the construction and operation of the VCHEC.

On March 25, 2010, the Staff filed a Report summarizing the results of its investigation of the Company's application. The Staff Report found "that the Company has demonstrated a public need for the proposed project . . . [and that the] Company's preferred route on the existing transmission line segment is superior to alternative routes studied."[8] Accordingly, "the Staff recommends that the Commission approve the proposed project and issue the requested certificate of public convenience and necessity."[9]

No requests for hearing were filed by interested persons on or before April 1, 2010, as required by the Commission's Order for Notice and Comment.

On April 8, 2010, the Company filed rebuttal testimony, which opposes two of the recommendations contained in the DEQ Report. First, the Company opposes the Virginia Department of Game and Inland Fisheries' ("VDGIF") recommendation that the Company be required to "[m]aintain undisturbed wooded buffers of at least 100 feet in width around all on-site wetlands and on both sides of all perennial and intermittent streams . . . ."[10] The Company opposes this recommendation because it presents safety and service reliability risks due to the potential for vegetation and wire contact from tall tree growth. The Company also claims that complying with the recommendation would require taller and heavier structures and additional line length,

[1] The Virginia City Hybrid Energy Center is a 585 megawatt (nominal) coal-fired generating plant that was approved by the Commission on March 31, 2008, in *Application of Virginia Electric and Power Company, For a certificate of public convenience and necessity to construct and operate an electric generation facility in Wise County, Virginia, and for approval of a rate adjustment clause under §§ 56-585.1, 56-580 D, and 56-46.1 of the Code of Virginia,* 2008 S.C.C. Ann. Rept. 385, Final Order (March 31, 2008) *aff'd, Appalachian Voices, et al., v. State Corp. Comm'n, et al.,* 277 Va. 509, 675 S.E. 2d 458 (April 17, 2009). In conjunction with the approval of the VCHEC, the Commission also approved on July 9, 2008, the construction of a 138 kV double circuit transmission line in Wise County and Russell County, Virginia, to connect the VCHEC to APCo's Clinch River Substation in Case No. PUE-2007-00111, *Application of Virginia Electric and Power Company d/b/a Dominion Virginia Power, For a certificate of public convenience and necessity to construct and operate a 138 kV Double Circuit Transmission Line in Wise and Russell Counties,* 2008 S.C.C. Ann. Rept. 448, Final Order (July 9, 2008).

[2] The Company's application advises that PJM Interconnection, L.L.C. ("PJM"), conducted "impact studies to determine, among other things, whether system reinforcements are required to accommodate the addition of the Coal Plant to the transmission system." Application at 2. The application further advises that "PJM's impact studies identified a non-contingency overload on APCo's North Bristol-Wolf Hills 138 kV circuit located on APCo's Saltville-Kingsport 138 kV line as a result of the addition of the Coal Plant's generating capacity at APCo's Clinch River Substation." *Id*.

[4] *Id.* at 2-3.

[5] Application at 3.

[6] Direct testimony of Company witness Taberner at 4.

[7] Application, Attachment 6, DEQ Wetland and Water Protection Letter.

[8] Staff Report at 9.

[9] *Id.* at 10.

[10] DEQ Report at 19.

thereby increasing the costs of the project. The Company finally claims that the VDGIF's recommended 100-foot buffer should not be adopted by the Commission because the Company's existing clearing methods are adequate to protect streams and wetlands.

The Company also opposes the VDGIF's recommendation that the Company "[a]dhere to a time-of-year restriction for all tree removal and ground clearing that is protective of resident and migratory songbird nesting from March 15 through August 15 of any year."[11] APCo claims such a restriction "would prevent [the Company from] clearing for almost half the year during the months that constitute the prime time for such activities."[12] The Company further claims that the recommendation, except as may be necessary to accommodate endangered species, would: (1) be unduly burdensome and utterly impractical; (2) adversely affect the Company's ability to complete the project on schedule; (3) increase costs; and (4) raise worker safety concerns due to a greater likelihood of clearing occurring under adverse weather conditions during non-summer months.[13]

The Company also commented on the DEQ's recommendation that APCo "to the extent feasible, . . . use the least toxic pesticides or herbicides effective in controlling the target species."[14] According to the Company's rebuttal testimony, some herbicides with low toxicity require higher concentrations and volumes of the active ingredient in order to control targeted vegetation. Accordingly, there may be occasions where the Company is required to use more toxic herbicides in order to lower the volume of herbicides necessary to control vegetation. However, the Company states that it "intends to use appropriate herbicide applications that will utilize the lowest volume of herbicide required to control the targeted vegetation, in strict accordance with the manufacturer's recommendations."[15]

Finally, the Company's rebuttal testimony indicates that Virginia Power recently advised APCo that the VCHEC will be test-fired on December 1, 2011. Accordingly, the Company requests "the Commission to expedite its consideration of this application to the extent possible in order to permit the Company to begin construction of this project by July 1, 2010."[16]

On April 21, 2010, the DEQ filed a Response to the Company's rebuttal testimony and included with its response a letter prepared by the VDGIF on April 19, 2010 ("VDGIF Response"). The VDGIF Response advised that the two recommendations opposed by APCo:

> were made as general guidance to minimize overall project impacts to wildlife and Virginia's natural resources. These recommendations were not specific to, or necessary for, the protection of threatened or endangered wildlife, the resources upon which they depend, or other unique or important wildlife resources under our jurisdiction. We understand that these recommendations can be difficult to adhere to and not practical in every situation. We do not intend, by making these recommendations, to significantly stall important infrastructure projects or to create safety issues associated with such projects.
>
> We are agreeable to the State Corporation Commission (SCC) removing the requirements for adherence to these recommendations from Appalachian Power's permit. We do ask, however, that Appalachian Power consider these recommendations and other ways to minimize impacts upon wildlife and our natural resources associated with this project, where practicable. We are happy to assist them in such efforts, as requested…. Our recommendations for the protection of listed species and trout streams associated with this project remain valid.[17]

With respect to the concerns raised by APCo regarding DEQ's recommendations for pesticides and herbicides, the DEQ states that it "has no objection to APCo's decision not to use the least toxic pesticides or herbicides effective in controlling the target species in instances where this approach would not be beneficial to the environment. As indicated in this recommendation, implementation was conditioned on its feasibility."[18]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that the public convenience and necessity require that APCo's existing Saltville-Kingsport 138 kV transmission line be rebuilt as proposed in the Company's application and that a certificate of public convenience and necessity should be issued authorizing the project.

Approval

The statutory scheme governing the Company's application is found in several chapters of Title 56 of the Code of Virginia ("Code"). Section 56-265.2 A of the Code provides that "[i]t shall be unlawful for any public utility to construct . . . facilities for use in public utility service . . . without first having obtained a certificate from the Commission that the public convenience and necessity require the exercise of such right or privilege."

Section 56-46.1 of the Code further directs the Commission to consider several factors when reviewing the Company's application. Subsection A of the statute provides that:

---

[11] *Id.*

[12] Rebuttal testimony of Company witness M. Shawn Smith at 2.

[13] *Id.* at 3.

[14] DEQ Report at 23.

[15] Rebuttal testimony of Company witness M. Shawn Smith at 3.

[16] *Id.* at 4.

[17] VDGIF Response, April 19, 2010, at 1-2.

[18] DEQ April 21, 2010 Response at 2.

> Whenever the Commission is required to approve the construction of any electrical utility facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse environmental impact . . . . In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted . . . . Additionally, the Commission (i) shall consider the effect of the proposed facility on economic development within the Commonwealth and (ii) shall consider any improvements in service reliability that may result from the construction of such facility.

Section 56-46.1 B of the Code further provides that: "[a]s a condition to approval the Commission shall determine that the line is needed and that the corridor or route the line is to follow will reasonably minimize adverse impact on the scenic assets, historic districts and environment of the area concerned."

Finally, the Code requires the Commission to consider existing right-of-way easements when siting transmission lines. Section 56-46.1 C of the Code provides that "[i]n any hearing the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company." In addition, § 56-259 C of the Code provides that "[p]rior to acquiring any easement of right-of-way, public service corporations will consider the feasibility of locating such facilities on, over, or under existing easements of rights-of-way."

Need

According to the Company's application, the proposed transmission line rebuild project is needed to accommodate the additional generating capacity of Virginia Power's VCHEC in Wise County, Virginia. The purpose of the proposed project is to upgrade the existing 80+ year-old conductor and install new supporting towers to resolve an overload projected by PJM when the VCHEC is placed in service. The Staff reviewed the Company's load flow studies and concluded that the load flow modeling and reliability needs presented by the Company to justify the new project are reasonable.

Accordingly, the evidence in this case is undisputed that there is a need to rebuild the Company's existing Saltville-Kingsport 138 kV transmission line between the Company's North Bristol Substation and Structure No. 62-116/1A & 2A in order to prevent overloading on APCo's transmission facilities when Virginia Power's VCHEC is placed in service. We therefore find that the Company has demonstrated a need to rebuild the transmission line as proposed in its application.

Economic Development and Service Reliability

According to the Company's application, the proposed rebuild of the transmission line is necessary to maintain system reliability and support the operation of Virginia Power's VCHEC in Wise County, Virginia. The Staff Report agrees that there is a need for the project to assure the reliability of APCo's transmission facilities and further concludes "that the project will not adversely affect economic development and is necessary to allow ongoing economic development in the area to continue."[19] Finally, the Wise County Board of Supervisors states that the rebuild of the transmission line is necessary so the VCHEC can successfully operate in two years and provide many high paying jobs and other economic benefits in Wise County, Virginia, associated with the construction and operation of the facility.

Based on the record in this case, it is undisputed that the transmission line project is needed to maintain the reliability of APCo's transmission facilities once the VCHEC is placed in service and that the VCHEC, as well as the proposed rebuild project, will have a favorable impact on economic development in southwestern Virginia. We therefore find that the project is necessary to assure the continued reliability of APCo's transmission facilities and that the rebuild of the line will allow ongoing economic development in southwestern Virginia, including the VCHEC, to continue.

Scenic Assets, Historic Districts, and Existing Rights-of-Way

The Company's application included assessments of the environmental, architectural, and historic resources that could be potentially impacted by the proposed rebuild of the transmission line. The Company concluded that the proposed rebuild project will have no adverse impacts on the scenic or historic resources in the vicinity of the project. After reviewing the Company's application, existing photographs, and studying the GIS constraints map, the Staff agrees that the proposed project will have no adverse impacts on the scenic or historic resources in the project area.

The Company further proposes to rebuild the transmission line on existing rights-of-way, which will minimize any adverse impacts caused by a rebuild of the transmission line. The Company's proposal to rebuild the line on its existing rights-of-way was also supported by the DEQ and Commission Staff. In addition, no comments were received from interested persons opposing the rebuild of the transmission line in the Company's existing rights-of-way.

Accordingly, we find that the transmission line will have little, if any, adverse impacts on the scenic and historic resources in the project area. Moreover, since the transmission line will be rebuilt entirely on existing rights-of-way, any scenic impacts of the transmission line will be minimized to the extent practicable. We further find that allowing the transmission line to be rebuilt entirely on the Company's existing rights-of-way will promote the public policy of the Commonwealth favoring the construction of transmission lines along existing rights-of-way where practicable.

Environmental Impact

Under §§ 56-46.1 A and B of the Code, the Commission is required to consider the proposed transmission line's impact on the environment and to establish such conditions as may be desirable or necessary to minimize adverse environmental impact. The statute further provides that the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection.

[19] Staff Report at 9.

In order to assist the Commission with its review of the potential impacts of the proposed rebuild of the transmission line, the DEQ filed its coordinated environmental review recommending that the Company undertake the following actions when rebuilding its transmission line:

- Follow the DEQ's recommendations to minimize impacts to wetlands and streams (Environmental Impacts and Mitigation, item 1(d), pages 9-10).
- Reduce solid waste at the source, reuse it and recycle it to the maximum extent practicable, and follow the DEQ's recommendations to manage waste, as applicable (Environmental Impacts and Mitigation, item 5(d), page 15).
- Test and dispose of any soil that is suspected of contamination or hazardous materials that are generated during demolition and construction in accordance with applicable federal, state and local laws and regulations (Environmental Impacts and Mitigation, item 5(e), pages 15-16).
- Coordinate with the Department of Conservation and Recreation ("DCR") for updates to the Biotics Data System database if a significant amount of time passes before the project is implemented (Environmental Impacts and Mitigation, item 6(f), page 18).
- Coordinate with the DCR Karst Program if undocumented karst features are discovered (Environmental Impacts and Mitigation, item 6(f), page 18).
- Conduct a habitat survey and biological inventory, if appropriate, and coordinate with the DCR to protect and minimize impacts to protected species and natural heritage resources (Environmental Impacts and Mitigation, item 6(f), page 18).
- Coordinate with the DCR and submit requested information to the agency if Segments H and/or I are chosen (Environmental Impacts and Mitigation, item 6(f), page 18).
- Coordinate with the VDGIF regarding its recommendations on instream work, potential impacts to protected species and to minimize impacts to wildlife (Environmental Impacts and Mitigation, item 7(c), pages 19 and 20).
- Coordinate with the Department of Historic Resources regarding recommendations to conduct an archaeological survey and mitigate impacts to any site found eligible for listing on the Virginia Landmarks Register (Environmental Impacts and Mitigation, item 9(d), page 21).
- Coordinate with the Virginia Department of Transportation regarding road crossings (Environmental Impacts and Mitigation, item 10(d), page 21).
- Complete a 7460-1 form and submit it to the Federal Aviation Administration (Environmental Impacts and Mitigation, item 11(c), page 22).
- Follow the principles and practices of pollution prevention to the maximum extent practicable (Environmental Impacts and Mitigation, item 13, pages 22-23).
- Limit the use of pesticides and herbicides to the extent practicable (Environmental Impacts and Mitigation, item 14, page 23).

The Company did not object to the recommendations contained in the DEQ Report, with the exception of the two VDGIF recommendations noted herein. As previously stated, the Company objects to the VDGIF's recommendations to: (1) maintain undisturbed wooded buffers of at least 100 feet in width around all on-site wetlands and on both sides of all perennial and intermittent streams; and (2) adhere to a time-of-year restriction for all tree removal and ground clearing that is protective of resident and migratory songbird nesting from March 15 through August 15 of any year.

The response to the Company's rebuttal testimony indicates that the VDGIF is agreeable to removing these recommendations as conditions for approval of the Company's application, noting that it nevertheless asks that the Company consider these requirements and other ways to minimize impacts upon wildlife and other natural resources associated with the project, where practical. The VDGIF also advises that it stands ready to assist the Company in such efforts.

Accordingly, having considered the DEQ Report, the Company's rebuttal testimony, and the VDGIF Response, we will not impose these two recommendations as requirements necessary to minimize the adverse environmental impact of the proposed rebuild project, or as requirements to be made a part of the certificate of public convenience and necessity issued herein. The other recommendations made in the DEQ Report, as outlined herein, are conditions of the certificate of public convenience and necessity granted herein. With respect to the use of herbicides and pesticides, the Company shall comply with existing state and federal regulatory requirements and shall utilize herbicides and pesticides in a manner that minimizes any adverse impacts on the environment.

Alignment of the Proposed Transmission Line

The Company's application considered two alternate routing segments (identified as segments H and I on Exhibit 9 of the Company's application) between the Company's North Bristol Substation and Structure No. 62-116/1A & 2A in an effort to reduce the transmission line's impact on residences that have encroached on the Company's existing rights-of-way in several locations. However, the alternate routing segments were ultimately rejected by the Company because they would have increased the impact of the line on residences; increased the length of the line; increased the impact of the line on forested land; and would affect previously undisturbed land.

The Staff investigated the alternate routing segments and concluded that the Company's proposed route over its existing rights-of-way was preferable. The DEQ also supported the proposed route. We agree with the Company, Staff, and the DEQ that the route proposed by the Company is superior to routing that incorporates segments H and I.

Accordingly, IT IS ORDERED THAT:

(1) As proposed in its application, APCo is authorized to rebuild 5.4 miles of its existing Saltville-Kingsport 138 kV transmission line between the Company's North Bristol Substation and Structure No. 62-116/1A & 2A, which is located approximately 0.4 mile northwest of the Company's Wolf Hills Substation.

(2) Pursuant to §§ 56-46.1, 56-265.2 and related provisions of Title 56 of the Code, APCo's application for a certificate of public convenience and necessity to rebuild and operate a portion of its Saltville-Kingsport 138 kV transmission line is granted, as provided for herein, and subject to the requirements set forth in this Order.

(3) Pursuant to the Utility Facilities Act, Chapter 10.1 (§§ 56-265.1 *et seq.*) of Title 56 of the Code, APCo is issued the following certificate of public convenience and necessity:

> Certificate No. ET-49 f, which authorizes Appalachian Power Company under the Utility Facilities Act to operate presently constructed transmission lines and facilities in Washington County and the City of Bristol, all as shown on the detailed map attached to the certificate, and to construct and operate facilities as authorized in Case No. PUE-2009-00137, cancels Certificate No. ET-49 e issued to Appalachian Power Company on January 13, 1971, in Case No. 10848.

(4) The Commission's Division of Energy Regulation shall forthwith provide the Company a copy of the certificate issued in Ordering Paragraph (3) above with the detailed map attached.

(5) The transmission line project approved herein must be constructed and in service by December 31, 2011; however, the Company is granted leave to apply for an extension for good cause shown.

(6) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

CASE NO. PUE-2009-00138
MARCH 10, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For permission of its Customer and member, Flippo Lumber Corporation, to participate in the PJM Interconnection Economic Loan Response Program

ORDER GRANTING CONDITIONAL PERMISSION TO PARTICIPATE IN THE PJM INTERCONNECTION ECONOMIC LOAD RESPONSE PROGRAM

On December 16, 2009, Rappahannock Electric Cooperative ("Rappahannock" or "Company"), a Virginia electric cooperative, by counsel, filed an Application seeking permission for its Customer and member, Flippo Lumber Corporation ("Flippo"), to participate in the PJM Interconnection ("PJM") Economic Load Response Program ("ELRP").

In support of its Application, Rappahannock stated that Flippo is a customer and member of Rappahannock, which is a member of Old Dominion Electric Cooperative ("Old Dominion"). Rappahannock further states that Flippo has demonstrated an ability to shed demand for electricity during peak demand and peak pricing periods and has participated for a number of years in the ELRP pursuant to permission obtained from Rappahannock.

With regard to Flippo's participation in the ELRP, Old Dominion is the Load Serving Entity ("LSE"), Rappahannock is the Electric Distribution Company("EDC"), and the Virginia State Corporation Commission ("Commission") is the relevant electric retail regulatory authority ("RERRA"). On July 16, 2009, the Federal Energy Regulatory Commission ("FERC") issued an Order on Rehearing in its Docket No. RM07-19-001 (Wholesale Competition in Regions with Organized Electric Markets). In that Order, FERC directed the RTOs and ISOs (such as PJM) to amend their market rules to accept bids from aggregators of retail customers of utilities that distributed four (4) million MWh or less in the previous fiscal year (such as Rappahannock) only with the permission of the RERRA. PJM made a compliance filing in FERC Docket No. RM07-19-001, which included certain tariff revisions related to its ELRP. PJM notified its market participants that Economic Load Response registrations for end-use sites that are served by small EDCs (served less than four (4) million MWh in 2008) will be terminated unless evidence of the applicable RERRA's permission or conditioned permission to participate is supplied to PJM by the EDC or LSE. The evidence supplied must take the form of an order, resolution or ordinance of the RERRA, an opinion of the RERRA's legal counsel attesting to existence of an order, resolution, or ordinance, or an opinion of the state attorney general on behalf of the RERRA attesting to existence of an order, resolution or ordinance.

In its Application, Rappahannock asserted that the termination of Flippo's registration in the ELRP would reduce the incentive for it to curtail load during periods of high-priced electricity and cause practical difficulties and financial hardship for Flippo during these difficult economic times. Rappahannock also represented Old Dominion had consented to Flippo's request for an order granting it conditional permission to participate in the ELRP.

On December 18, 2009, the Commission entered an Order on Rappahannock's Application which, among other things, granted Flippo conditional permission to continue to participate in the PJM ELRP in order to preserve the *status quo*, subject to further action of the Commission.

On January 12, 2010, the Commission entered an Order Inviting Comments wherein it invited interested persons to file comments regarding the Application on or before February 5, 2010. However, the Commission received no comments in response to the Order Inviting Comments.

NOW THE COMMISSION is of the opinion and finds that Rappahannock's Application for permission of its customer, Flippo, to participate in the PJM ELRP should be granted subject to further action of the Commission.

Accordingly, IT IS ORDERED THAT:

(1) Flippo is granted conditional permission to continue its participation in the PJM ELRP subject to further action of the Commission and such approval shall not serve as precedent in this or any other proceeding.

(2) This matter is continued generally.

CASE NO. PUE-2009-00139
APRIL 14, 2010

APPLICATION OF
VIRGINIA NATURAL GAS, INC.

For Authority to Amend its Conservation and Ratemaking Efficiency Plan

FINAL ORDER

On December 23, 2008, the State Corporation Commission ("Commission") entered an "Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan" in Case No. PUE-2008-00060 in which the Commission approved a 3-year Conservation and Ratemaking Efficiency Plan ("CARE Plan" or the "Plan") effective pursuant to Va. Code § 56-600 *et seq.* for Virginia Natural Gas, Inc. ("VNG" or the "Company").[1]

On July 16, 2009, VNG filed with the Commission a Motion for Waiver and Application to modify certain aspects of the CARE Plan approved by the Commission's December 23, 2008 Order. On November 10, 2009, the Commission approved VNG's request to modify certain aspects of its conservation and energy efficiency programs for the first year of its 3-year CARE Plan.[2]

On December 17, 2009, VNG, by counsel, filed an application with the Commission to modify the CARE Plan approved in Case No. PUE-2008-00060 for the second and third year of the Plan ("Application"). In its Application, the Company proposed to expand the eligibility for the low-income weatherization program to seventy-five percent of the median income, up from 175% of the poverty level approved in the December 23, 2008 Order in order to match the eligibility requirements now being used by VNG's partner agencies, the Southeastern Tidewater Opportunity Project and the Williamsburg/James City County Community Action Network (the "Community Action Agencies"), as a result of their receipt of funds pursuant to the American Recovery and Reinvestment Act of 2009 ("Stimulus Act"). VNG also requested authority to modify the program's eligibility requirements to match the eligibility requirements of the Community Action Agencies should the Community Action Agencies modify these requirements in the future. Additionally, VNG requested authority to shift funds, *i.e.*, $222,075, from the low-income weatherization program to the space heating (high-efficiency furnace) program. The total VNG-provided funds proposed to be available for the low-income weatherization program is $150,000.

VNG also requested authority to align the rebate for a programmable thermostat of a customer's choice with the free programmable thermostat program and to maximize the seasonal checkup program as approved by the December 23, 2008 Order. The Company proposes to continue to redefine the seasonal checkup program as a stand-alone program. The Company's Application advises that if the modification is approved, the $25 rebate for programmable thermostats will be funded from the allocation for the free programmable thermostat program. The money allocated to the seasonal checkup program will be spent on rebates for customers who perform seasonal checkups and not be combined with rebates for programmable thermostats, and customers will be able to participate in both programs if they choose. The Company also proposes to increase the rebate amount for the seasonal checkup program from $25 to $50 each to encourage participation in that program.

Additionally, VNG requests permission to shift $579,852 from the programmable thermostat program to the space heating (high-efficiency furnace) and tankless water heater programs. The total VNG-provided funds for the programmable thermostats and the administration costs required for the free programmable thermostat program will be approximately $45,148 each year in 2010 and 2011.

The Company also asks to shift $67,304 from the seasonal checkup program to the tankless water heater and tank-style water heater rebate programs. The total Company-provided funds proposed to be available for the seasonal checkup program is $121,466.

Further, the Company proposes to expand participation in the space heating (high-efficiency furnaces) rebate, tankless water heater rebate, and tank-style water heater rebate programs because the response to these programs was greater than originally projected by the Company or the Commission. VNG seeks to shift dollars from the low-income weatherization, programmable thermostat, and seasonal checkup programs to the space heating (high-efficiency furnace) rebate, tankless water heater rebate, and tank-style water heater rebate programs for the remainder of years two and three of these programs and to increase participation further by accepting federal stimulus dollars to fund additional rebates for these three programs upon distribution of the funds by the Department of Mines, Minerals, and Energy.

---

[1] *Application of Virginia Natural Gas, Inc., For approval to implement a natural gas conservation and ratemaking efficiency plan including a decoupling mechanism and to record accounting entries associated with such mechanism*, Case No. PUE-2008-00060, 2008 S.C.C. Ann. Rept. 566, Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan (Dec. 23, 2008) ("December 23, 2008 Order").

[2] *See Application of Virginia Natural Gas, Inc., To modify its conservation and ratemaking efficiency plan*, Case No. PUE-2009-00070, Doc. Con. No. 420994, slip op., Final Order (Nov. 10, 2009).

Finally, VNG proposes that it be authorized to reallocate up to one-third of the budgeted funds for each program or measure to another program or measure within a CARE Plan year without prior approval from the Commission. VNG proposes that Commission approval would be required to reallocate funds in excess of the foregoing budget limits from such measure or programs.

The Company also requested that it be permitted to carry over into the following program year any unused budgeted funds for a program or measure to the same program or measure for the following program year. VNG advised that unused administrative costs in any program or measure may also be carried over to the following year. VNG proposes to advise the Commission Staff in advance of any such reallocation or carry-over of budgeted funds. VNG requested authority to allocate Stimulus Act funds among eligible conservation and energy efficiency programs and measures in any manner that is consistent with funding guidelines applicable to such Stimulus Act funds in order to maximize the availability and utilization of such funds. VNG represented that this proposal was consistent with the flexibility provided to Columbia Gas of Virginia, Inc., in the Commission's December 4, 2009 Final Order in Case No. PUE-2009-00051 approving CGV's CARE Plan.[3]

VNG's Application included the following chart (Attachment A thereto), summarizing how funds will be reallocated and the number of participants proposed for 2010:

Program	No. of participants approved in Dec. 23, 2008 Order	Dollars allocated in Dec. 23, 2008 Order	No. of participants approved in revised 2009 Order	Dollars approved in revised 2009 Order	No. of participants proposed for 2010	Dollars proposed for 2010
Customer Education & Community Outreach		$750,000		$481,075		$750,000
Programmable Thermostats	25,000	$625,000	25,601	$485,377	8,000	$45,148
Low-Income Weatherization	226	$372,075	226	$150,000	226	$150,000
Seasonal Check-Up Rebate	7,550	$188,750	7,550	$188,750	2,400	$121,446
High-Efficiency Tank Water Heater Rebate	177	$26,550	177	$26,550	250	$37,637
Tankless Water Heater Rebate	196	$98,000	498	$249,000	650	$325,351
Space Heating Program (High-Efficiency Furnace Rebate)	196	$98,000	1,146	$573,000	1,456	$728,793
EnergyStar New Construction	20	$5,000	20	$5,000	20	$5,000

On January 25, 2010, the Commission entered its Order for Notice and Comment herein ("Order"). In its Order, among other things, the Commission directed VNG to publish notice of its Application throughout VNG's service territory in Virginia, serve a copy of the Order on local governmental officials in the Company's service territory, invited interested persons and the Commission Staff ("Staff") to file written comments on the issues presented in the case on or before March 11, 2010, and permitted the Company to file its response to the comments filed in the proceeding on or before March 25, 2010.

On February 26, 2010, VNG, by counsel, filed proof of the notice and service required by Ordering Paragraphs (2) and (3) of the Order.

Comments were filed by the Office of the Attorney General and Diane Ribble on March 11, 2010.

On March 11, 2010, the Staff, by counsel, filed a letter advising that it was not filing comments and that it took no position on the proposed modifications to the Company's CARE Plan set out in the Application.

On March 16, 2010, VNG, by counsel, filed its Reply Comments ("Reply"). In its Reply, among other things, VNG noted that the electronic comments filed by the interested party were not relevant to the proceeding because the Company is not seeking a rate increase and because the party filing those comments did not appear to reside in VNG's service territory. VNG requested the Commission to issue an order approving the Application so that the Company could make the proposed modifications to its CARE Plan as soon as possible.

NOW THE COMMISSION, upon consideration of the Application, the comments filed herein, and VNG's Reply thereto, is of the opinion and finds as follows.

First, we find that VNG's proposed reallocation of funds among certain programs raises an issue of creating potential savings to a smaller group of customers funded by an even larger body of customers, who incur higher rates as a result thereof. To address this issue, we find that the following modifications to VNG's proposed CARE Plan amendments would need to be made: (1) shift no funds from the low-income weatherization program to the space heating program; (2) shift one-half of VNG's proposed $579,852 from the programmable thermostat program to the space heating program, with the remaining one-half of such funds not to be expended (which results in cost savings to the larger body of customers); (3) shift one-half of VNG's proposed $67,304 from the seasonal check-up program to the water heater programs, with the remaining one-half of such funds not to be expended (which results in

[3] *See Application of Columbia Gas of Virginia, Inc., For approval to implement a natural gas conservation and ratemaking efficiency plan including a decoupling mechanism*, Case No. PUE-2009-00051, Doc. Con. No. 421963, slip op., Final Order (Dec. 4, 2009).

cost savings to the larger body of customers); (4) limit VNG's authority to shift funds from a program – without Commission approval – to no more than 25% of that program's fund allocation; and (5) any funds not expended on the programs designated thereto during a CARE Plan year shall not be spent and shall serve to lower the overall expenditures of the CARE Plan.

Accordingly, since § 56-602 B of the Code of Virginia requires the Commission either to "approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan," we deny VNG's Application to amend its CARE Plan as filed.

Second, we note that the Company's Application did not include quantitative data concerning the cost effectiveness of these programs before and after the proposed amendments. We will require VNG to file in this docket with the Clerk of the Commission an annual report pursuant to § 56-602 E of the Code, beginning May 3, 2010,[4] and continuing on May 1 of every year thereafter during the term of the Company's CARE Plan. In particular, we direct VNG to file results of the RIM and TRC tests for each program. In accordance with § 56-602 E of the Code, this report must show "the year over year weather-normalized use of natural gas on an average customer basis, by customer class, as well as the incremental, independently verified net economic benefits created by the utility's cost-effective conservation and energy-efficiency programs during the previous year." This report shall also include: (i) the findings and recommendations of the Energy Conservation and Efficiency Advisory Group; (ii) cost/benefit analyses of the conservation and energy efficiency programs;[5] (iii) program participation rates; (iv) an effectiveness test comparing the program results to a non-participating control group; and (v) expected program benefits for the next program year.

The annual reports required herein will provide important information to the Commission concerning whether the Plan programs are cost effective and warrant continuation or whether they should be modified or discontinued. Indeed, any subsequent request from VNG to amend or extend its CARE Plan shall incorporate the results from these annual reports.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 56-602 B of the Code and in accordance with the findings made herein, VNG's Application to amend its CARE Plan is hereby denied.

(2) In accordance with § 56-602 E of the Code and the findings made herein, beginning May 3, 2010, and continuing thereafter on every May 1 for the term of VNG's CARE Plan, VNG shall file an annual report with the Clerk of the Commission in this docket.

(3) There being nothing further to be done herein, this case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

[4] VNG's CARE Plan has been in effect since January 1, 2009, and will remain in effect through December 31, 2011. Thus, the May 3, 2010 Report will be the first such report filed by the Company under § 56-602 E of the Code. May 3, 2010, has been selected as the date for the filing of the first report because May 1, 2010, falls on a Saturday, and Monday, May 3, 2010, is the first day the Commission will be open to conduct business following May 1, 2010.

[5] The cost benefit analyses for VNG's report to be filed May 3, 2010, shall be based upon the actual cost of gas for VNG from the Company's most recent purchased gas adjustment filings and shall also include separate cost/benefit analyses that reflect the effect of the amendments to the CARE Plan approved by the Commission in Case No. PUE-2009-00070. VNG's annual report for the respective CARE Plan years ending 2010 and 2011 shall be based upon the actual cost of gas from the Company's most recent purchased gas adjustment filings and shall include the effects of any plan amendments that are subsequently approved by the Commission.

CASE NO. PUE-2009-00139
JULY 23, 2010

APPLICATION OF
VIRGINIA NATURAL GAS, INC.

For Authority to Amend its Conservation and Ratemaking Efficiency Plan

ORDER APPROVING MODIFICATIONS AND AMENDED APPLICATION

On December 17, 2009, Virginia Natural Gas, Inc. ("VNG" or the "Company"), by counsel, filed an application with the State Corporation Commission ("Commission") to modify its three-year Conservation and Ratemaking Efficiency Plan ("CARE Plan" or the "Plan") approved in Case No. PUE-2008-00060[1] for the second and third year of the Plan ("Application"). The modifications to the CARE Plan set out in the Company's Application included: (i) expansion of the eligibility for low-income weatherization programs to seventy-five percent of the median income up from 175% of the poverty level, as authorized in the Plan approved in Case No. PUE-2008-00060, so as to match the eligibility requirements now being used by VNG's partner agencies, the Southeastern Tidewater Opportunity Project and the Williamsburg/James City County Community Action Network, as a result of their receipt of funds pursuant to the American Recovery and Reinvestment Act of 2009 (the "Stimulus Act"); (ii) authority to shift the program's eligibility requirements to match the partner agencies' eligibility requirements should these requirements change in the future; (iii) authority to shift allocated dollars from the low-income weatherization program to the space heating (high-efficiency furnace) program; (iv) authority to align the rebate for a programmable thermostat of the customer's choice with the free programmable thermostat program and to maximize the seasonal checkup program as approved in the December 23, 2008 Order; (v) authority to increase the rebate amount for the seasonal checkup program from Twenty-five Dollars ($25) to Fifty Dollars ($50) each;

[1] *Application of Virginia Natural Gas, Inc., For approval to implement a natural gas conservation and ratemaking efficiency plan including a decoupling mechanism and to record accounting entries associated with such mechanism*, Case No. PUE-2008-00060, 2008 S.C.C. Ann. Rept. 566, Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan (Dec. 23, 2008) ("December 23, 2008 Order").

(vi) expansion of participation in the space heating (high-efficiency furnace) rebate, tankless water heater rebate, and tank-style water heater rebate programs; (vii) authority to shift dollars from the low-income weatherization, programmable thermostat and seasonal checkup programs to the space heating (high-efficiency furnace) rebate, tankless water heater rebate, and tank-style water heater rebate programs for the remainder of years two (2) and three (3) of the Plan and to increase participation further by accepting federal stimulus dollars to fund additional rebates for these three (3) programs upon distribution of those funds by the Virginia Department of Mines, Minerals and Energy; (viii) authorization to reallocate up to one-third of the budgeted funds for each program or measure to another program or measure within a CARE Plan year without prior approval from the Commission; (ix) authorization to carry over into the following program year any unused budgeted funds for a program or measure to the same program or measure for the following program years;[2] unused administrative costs in any program or measure would also be carried over to the following year; and (x) authorization to allocate Stimulus Act funds among eligible conservation and energy efficiency programs and measures in any manner that is consistent with funding guidelines applicable to such Stimulus Act funds in order to maximize the availability and utilization of such funds.

On January 25, 2010, the Commission entered its Order for Notice and Comment ("Order"). Among other things, the Order directed VNG to publish notice of its Application throughout the Company's service territory in Virginia and serve a copy of the Order on local governmental officials in the Company's service territory. The Order also invited interested persons and the Commission Staff to file, on or before March 11, 2010, written comments on the issues presented in the case and directed the Company to file, on or before March 25, 2010, any response to the comments filed in the proceeding.

On February 26, 2010, VNG, by counsel, filed proof of the notice and service required by Ordering Paragraphs (2) and (3) of the Order.

Comments were filed by the Office of the Attorney General and Diane Ribble on March 11, 2010. Also on March 11, 2010, the Commission Staff filed a letter advising that it was not filing comments in the proceeding.

On March 16, 2010, VNG filed its Reply Comments.

On April 14, 2010, the Commission entered its Final Order[3] in this matter, in which it denied VNG's application as filed. In its Final Order the Commission made the following findings:

> First, we find that VNG's proposed reallocation of funds among certain programs raises an issue of creating potential savings to a smaller group of customers funded by an even larger body of customers, who incur higher rates as a result thereof. To address this issue, we find that the following modifications to VNG's proposed CARE Plan amendments would need to be made: (1) shift no funds from the low-income weatherization program to the space heating program; (2) shift one-half of VNG's proposed $579,852 from the programmable thermostat program to the space heating program, with the remaining one-half of such funds not to be expended (which results in cost savings to the larger body of customers); (3) shift one-half of VNG's proposed $67,304 from the seasonal check-up program to the water heater programs, with the remaining one-half of such funds not to be expended (which results in cost savings to the larger body of customers); (4) limit VNG's authority to shift funds from a program – without Commission approval – to no more than 25% of that program's fund allocation; and (5) any funds not expended on the programs designated thereto during a CARE Plan year shall not be spent and shall serve to lower the overall expenditures of the CARE Plan.
>
> Accordingly, since § 56-602 B of the Code of Virginia requires the Commission either to 'approve or deny, within 120 days, a natural gas utility's application to amend a previously approved plan,' we deny VNG's Application to amend its CARE Plan as filed.
>
> Second, we note that the Company's Application did not include quantitative data concerning the cost effectiveness of these programs before and after the proposed amendments. We will require VNG to file in this docket with the Clerk of the Commission an annual report pursuant to § 56-602 E of the Code, beginning May 3, 2010, . . . and continuing on May 1 of every year thereafter during the term of the Company's CARE Plan. . . .
>
> The annual reports required herein will provide important information to the Commission concerning whether the Plan programs are cost effective and warrant continuation or whether they should be modified or discontinued. Indeed, any subsequent request from VNG to amend or extend its CARE Plan shall incorporate the results from these annual reports.[4]

On May 25, 2010, VNG filed "Virginia Natural Gas, Inc.'s Acceptance of Modifications and Amended Application" ("May 25, 2010 Filing"). On June 14, 2010, VNG requested leave to withdraw its May 25, 2010 Filing and filed in its place a revised version of its "Application to Accept Commission's Modifications and for Authority to Amend its Conservation and Ratemaking Efficiency Plan and Verifications of Virginia Natural Gas, Inc." (hereinafter "Compliance Filing"). In its Compliance Filing, VNG accepted the modifications to the CARE Plan set forth in the Commission's Final Order and affirmed that the Company's modifications to its CARE Plan set out in its Compliance Filing will: (1) shift no funds from the low-income weatherization program to the space heating program; (2) shift one-half of the proposed $579,852 from the programmable thermostat program to the space heating (high-efficiency natural gas furnace) program, with the remaining one-half of such funds not to be expended; (3) shift one-half of the proposed $67,304 from the seasonal check-up program to the high efficiency natural gas water heater programs, with the remaining one-half of such funds not to be expended; (4) limit VNG's

[2] According to the Company's Application, VNG proposed to advise the Commission Staff in advance of any such reallocation or carry-over of budgeted funds.

[3] *See Application of Virginia Natural Gas, Inc., For Authority to Amend its Conservation and Ratemaking Efficiency Plan*, Case No. PUE-2009-00139, Doc. Con. Cen. No. 428114, Final Order (April 14, 2010) (hereinafter "Final Order").

[4] *Id.*, Final Order at 6-8 (footnotes omitted).

authority to shift funds from a program without prior Commission approval to no more than 25% of that program's fund allocation; and (5) retain any funds not expended in the programs designated thereto during a CARE Plan year in order to lower overall expenditures of the CARE Plan.

NOW THE COMMISSION, upon consideration of VNG's Compliance Filing, and having been advised by its Staff, is of the opinion and finds that VNG should be permitted to substitute its Compliance Filing for the May 25, 2010 Filing and to implement the proposals set forth in its Compliance Filing, effective as of the date of this Order.

In this regard, we note that § 56-602 B of the Code of Virginia grants a utility like VNG "the right to refile, without prejudice, an amended plan or amendment within 60 days" of a denial of a plan or amendment by the Commission. Thereafter, the Commission has "60 days to approve or deny the amended plan or amendment." VNG's Compliance Filing represents VNG's 60-day filing made after the denial of its initial application to amend its CARE Plan. After a review of VNG's Compliance Filing, we find that it complies with the findings and requirements in the Final Order. We recognize that many of VNG's CARE Plan programs include amendments thereto that have not been implemented for a full twelve months. We will, therefore, continue to review the cost/benefit analyses associated with these programs to consider whether the programs remain cost-effective during the term of VNG's Plan and to determine whether the programs should be continued in the event the Company files to amend or extend its CARE Plan further.

Accordingly, IT IS ORDERED THAT the amendments to VNG's CARE Plan set forth in its June 14, 2010 Compliance Filing are hereby approved, effective as of the date of this Order.

CASE NO. PUE-2009-00141
JANUARY 28, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For approval of the amount and form of security for payment

ORDER

On December 17, 2009, Rappahannock Electric Cooperative ("Rappahannock" or "Cooperative") filed with the State Corporation Commission ("Commission") its Application for approval of a Security Deposit pursuant to Rappahannock Electric Cooperative's Schedule LP-2 ("Application"). As Rappahannock explained in its Application, its tariff provision for Closed Heavy Industrial Service, Schedule LP-2, provides, in part, that "[t]he Customer shall post with the Cooperative a security bond, letter of credit or other security in an amount and form acceptable to and approved by the State Corporation Commission which security deposit shall be used to secure payment to the Cooperative of all obligations of the Customer."[1]

In accordance with this tariff provision, the Cooperative now seeks Commission approval of the Financial Security Agreement for Customers Utilizing Schedule LP-2 attached to the Application as Exhibit B.

The Commission has broad jurisdiction over the terms and conditions of service provided by utility consumer services cooperatives such as Rappahannock.[2] We have exercised our jurisdiction to adopt standards for security deposits held by utilities subject to our jurisdiction.[3]

According to Rappahannock, Bear Island Paper Company, L.P., is the only customer that takes service under Schedule LP-2. Bear Island Paper Company is owned by White Birch Paper Company ("White Birch").[4] Rappahannock and White Birch have mutually agreed to the terms of the agreement attached to the Application as Exhibit B.[5]

Upon consideration of the Application, the Commission finds that the Financial Security Agreement for Customers Utilizing Schedule LP-2 attached to the Application as Exhibit B should be approved in accordance with the Cooperative's Closed Heavy Industrial Service, Schedule LP-2, received by the Commission's Division of Energy Regulation on October 14, 2009, and effective on and after November 1, 2009.

ACCORDINGLY, IT IS ORDERED THAT:

(1) As provided by § 56-35, Chapter 9.1 (§ 56-231.15 *et seq.*), Chapter 10 (§ 56-232 *et seq.*), and related provisions of Title 56 of the Code, this matter be docketed as Case No. PUE-2009-00141 and that all associated papers be filed therein.

(2) The Financial Security Agreement for Customers Utilizing Schedule LP-2 attached to the Application as Exhibit B is approved.

(3) Case No. PUE-2009-00141 is dismissed from the Commission's docket and placed in closed status in the records of the Clerk of the Commission.

---

[1] Application at 2.

[2] Sections 56-35, 56-231.34 of the Code of Virginia ("Code").

[3] Rule governing utility customer deposit requirements, 20 VAC 5-10-20.

[4] Application at 2.

[5] *Id.* at 2-3 and Application Exhibit B.

CASE NO. PUE-2009-00142
JANUARY 11, 2010

APPLICATION OF
ATMOS ENERGY CORPORATION

For authority to issue common stock

ORDER GRANTING AUTHORITY

On December 18, 2009, Atmos Energy Corporation ("Atmos" or "Applicant") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia requesting authority to issue additional shares of common stock through the Atmos Energy Corporation Retirement Savings Plan and Trust ("RSP"). Applicant paid the requisite fee of $250.

Atmos requests authority to issue up to 2,000,000 additional shares of common stock through its RSP, formerly known as the Employee Stock Ownership Plan and Trust. Under the RSP, Atmos will match every dollar invested by an employee in the RSP up to a maximum of 4% of the employee's annual salary, providing a means for additional investment in Atmos and strengthening each employee's direct interest in the financial success of Applicant.

Applicant indicates that funds from the stock issuances will be used for general corporate purposes related to the provision of natural gas services. Applicant also asserts that the issuance of shares under the RSP will ultimately strengthen Atmos' equity ratio, will provide financing flexibility, and may lower its cost of capital.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Applicant is hereby authorized to issue and sell up to an additional 2,000,000 shares of common stock through and pursuant to the Atmos Energy Corporation Retirement Savings Plan and Trust under the terms and conditions and for the purposes set forth in the application.

(2) There being nothing further to be done, this matter is hereby closed.

CASE NO. PUE-2010-00001
APRIL 5, 2010

APPLICATION OF
VIRGINIA-AMERICAN WATER COMPANY

For a general increase in rates

ORDER FOR NOTICE AND HEARING

On March 16, 2010, Virginia-American Water Company ("Virginia-American" or "Company") completed an application with the State Corporation Commission ("Commission") for a general increase in rates. According to its application, Virginia-American has applied for a general increase in rates in accordance with Article 2 (§ 56-234 *et seq.*) of Title 56 of the Code of Virginia ("Code") and the provisions for rate increases set forth in the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings, 20 VAC 5-201-10 *et seq*. The Company seeks a rate increase that would produce additional annual jurisdictional revenues of $6,875,954, representing an overall revenue increase of approximately 22.4% on test year revenues. The increase in metered rates is divided between the Alexandria District - $2,017,023; the Hopewell District - $3,048,350; and the Prince William District - $1,810,581. The rate schedules furnished by the Company in Filing Schedule 41 of its application reflect an effective date of April 8, 2010, but the application anticipates that the Commission will suspend the rates for 150 days from the date of filing. The application was not deemed to be complete until March 16, 2010. Therefore, the suspension of such rates runs until August 13, 2010.

NOW THE COMMISSION, having considered the application with accompanying schedules, testimony, and exhibits, finds that this application for a general increase in rates should be docketed and that, as required by §§ 56-237 and 56-237.1 of the Code, notice of the application should be given. The Commission further finds that a public hearing on the proposed revised rates and charges should be held. We will assign a Hearing Examiner to conduct the hearing and to file a report with the Commission. We will also direct the Commission Staff to investigate the application and present its findings at the hearing. The Commission will provide an opportunity for participation and representation of persons affected by the proposed changes in rates and charges.

Pursuant to §§ 56-237 and 56-240 of the Code, we will permit the Company to place its proposed rates into effect, subject to refund, on August 13, 2010. The proposed rates and charges shall take effect subject to the power of the Commission to fix and to substitute just and reasonable rates and to order the utility to make refunds or give credits. Although § 56-240 of the Code does not expressly provide for interest on any refund ordered, we have interpreted this and other provisions of Title 56 of the Code to empower the Commission to require a utility to pay interest on any refund.[1]

[1] *Commonwealth Public Service Corp*., Case No. PUE-1994-00076, 1994 Ann. Rept. 424.

Accordingly, IT IS ORDERED THAT:

(1) Virginia-American's application shall be docketed as Case No. PUE-2010-00001, and all associated papers shall be filed in that docket.

(2) As provided by §§ 56-237 and 56-240 of the Code, Virginia-American's proposed increase in rates and charges may take effect on August 13, 2010, subject to the Commission's power to fix and order substituted just and reasonable rates, charges, terms, and conditions and to order refunds or credits.

(3) Within seven (7) days of the date of entry of this Order, the Company shall file with the Commission's Division of Energy Regulation appropriate replacement tariff sheets showing all proposed changes for all schedules and terms and conditions permitted to take effect as provided by Ordering Paragraph (2) above. The following caption shall appear at the foot of each sheet showing any change: "Effective August 13, 2010, subject to investigation and modification by the Virginia State Corporation Commission in Case No. PUE-2010-00001."

(4) A public hearing shall be held at 10:00 a.m. on September 21, 2010, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence on the application for a general increase in rates.

(5) As provided by § 12.1-31 of the Code and Rule 5 VAC 5-20-120 of the Commission's Rules of Practice and Procedure ("Rules of Practice"), *Procedure before hearing examiners*, a Hearing Examiner shall be appointed to conduct all further proceedings in this matter on behalf of the Commission and to file a final report.

(6) Virginia-American's application and accompanying materials may be viewed between the hours of 8:15 a.m. and 5:00 p.m. at the Commission's Document Control Center, First Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia. Interested persons may also access unofficial copies of the application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case. A copy of the application and accompanying materials may also be obtained, at no cost, by making a request in writing to counsel for the Company, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074. The Company shall make a copy available on an electronic basis upon request.

(7) On or before April 30, 2010, Virginia-American may file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, an original and fifteen (15) copies of any additional testimony and exhibits by which it expects to establish its case.

(8) On or before May 21, 2010, any person who expects to participate as a respondent in this proceeding shall file with the Clerk of the Commission at the address set out in Ordering Paragraph (7) an original and fifteen (15) copies of a notice of participation as a respondent, as required by Rule of Practice 5 VAC 5-20-80 B, *Participation as a respondent*, and shall serve a copy on counsel to Virginia-American, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074, and on the Commission's Office of General Counsel, State Corporation Commission, P.O. Box 1197, Richmond, Virginia 23218-1197. The notice of participation shall be filed and served as required by Rules of Practice 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-150, *Copies and format*. Any organization, corporation, or government entity participating as a respondent must be represented by counsel as required by Rule of Practice 5 VAC 5-20-30, *Counsel*.

(9) Within five (5) business days of receipt of a notice of participation as a respondent, Virginia-American shall serve upon each respondent a copy of this Order, a copy of the application, and all materials filed with the Commission, unless these materials have already been provided to the respondent.

(10) On or before July 28, 2010, each respondent shall file with the Clerk of the Commission an original and fifteen (15) copies of the testimony and exhibits by which it expects to establish its case and shall serve a copy of the testimony and exhibits on counsel to Virginia-American and on all other parties. Respondents shall comply with Rules of Practice 5 VAC 5-20-140, *Filing and service*, 5 VAC 5-20-150, *Copies and format*, and 5 VAC 5-20-240, *Prepared testimony and exhibits*.

(11) Interested persons may file written comments on the application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Comments should refer to Case No. PUE-2010-00001 and should be filed by September 15, 2010. Those desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/case.

(12) The Commission Staff shall investigate the application and, on or before August 24, 2010, shall file with the Clerk of the Commission the testimony and exhibits that it intends to present at the hearing and copies of any workpapers that support the recommendations made in its testimony. Copies of the testimony and exhibits shall be served on all parties.

(13) On or before September 7, 2010, Virginia-American may file with the Clerk of the Commission an original and fifteen (15) copies of all testimony and exhibits that it expects to offer in rebuttal to testimony and exhibits of the respondents and the Commission Staff and shall serve one (1) copy on all parties.

(14) Rule of Practice 5 VAC 5-20-260, *Interrogatories to parties or requests for production of documents and things*, shall be modified for this proceeding as follows: (i) answers and objections shall be served within twelve (12) days after receipt of interrogatories, counting weekends and holidays; (ii) motions on the validity of any objections raised shall be filed within four (4) business days of receipt of the objection; and (iii) answers, objections, and motions on the validity of objections shall be served by 3:00 p.m. on the date due unless the Staff or party upon whom service must be made agrees in advance to other arrangements.

(15) On or before April 16, 2010, the Company shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager (or equivalent official) of every city and town in which the Company provides service in the Commonwealth of Virginia. Service shall be made by first class mail to the customary place of business or residence of the person served.

(16) On or before April 16, 2010, Virginia-American shall make available for inspection copies of the application and this Order at the following offices:

Virginia-American Water Company
2223 Duke Street
Alexandria, Virginia
(Alexandria and Prince William Districts)

Virginia-American Water Company
900 Industrial Street
Hopewell, Virginia
(Hopewell District)

(17) Virginia-American shall publish as display advertising the following notice once a week for two (2) consecutive weeks in a newspaper of general circulation in its Alexandria District. Publication shall be completed by April 30, 2010.

NOTICE TO CUSTOMERS OF
VIRGINIA-AMERICAN WATER COMPANY
OF A GENERAL INCREASE IN RATES
FOR THE ALEXANDRIA DISTRICT
CASE NO. PUE-2010-00001

Virginia-American Water Company ("Virginia-American" or "Company") has filed with the State Corporation Commission ("Commission") an application for a general increase in rates. The application has been docketed as Case No. PUE-2010-00001. The Company is seeking additional annual jurisdictional revenues of $6,875,954. Of the total increase, $2,017,023 in additional annual revenues would be allocated to the Alexandria District. Additional annual revenues of $3,048,350 would be allocated to the Hopewell District and $1,810,581 to the Prince William District.

The proposed rates for the Alexandria District follow:

RATE:

	Gallons Per Month	Quarter	Rate Per 1,000 Gallons
For the first	2,000	6,000	(minimum charge)
For all over	2,000	6,000	$1.9113

MINIMUM CHARGE:

No bill will be rendered for less than the minimum charges set forth below:

Size of Meter	Minimum Charge Per Month	Per Quarter
5/8 inch	$11.51	$34.53
3/4 inch	17.30	51.90
1 inch	28.79	86.37
1½ inch	57.58	172.74
2 inch	92.12	276.36
3 inch	172.79	518.37
4 inch	288.00	864.00
6 inch	576.01	1,728.03
8 inch	921.58	2,764.74

While the total revenue that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, TAKE NOTICE that the individual rates and charges approved may be either higher than or lower than those proposed by the Company.

The proposed rates and charges shall take effect for service rendered on and after August 13, 2010. The proposed rates and charges shall take effect subject to the power of the Commission to fix and to substitute just and reasonable rates and to order the utility to make refunds or give credits.

The application and related filings may be inspected in the Document Control Center, Office of the Clerk, First Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m. on Commission business days. The application may also be inspected during regular business hours at Virginia-American Water Company, 2223 Duke Street, Alexandria, Virginia, and Virginia-American Water Company, 900 Industrial Street, Hopewell, Virginia. Interested persons may also access unofficial copies of the application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case. A copy of the application and accompanying materials may also be obtained, at no cost, by making a request in writing to counsel for the Company, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074. The Company shall make a copy available on an electronic basis upon request.

The State Corporation Commission has ordered its Staff to investigate the application and has established procedures for affected persons to participate or be represented in the proceeding. A hearing will be held on the application beginning at 10:00 a.m. on September 21, 2010, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia. Individuals with disabilities who require an accommodation to participate in the hearing should contact the Commission at least seven (7) days before the scheduled hearing date at 1-800-552-7945 (voice) or 1-804-371-9206 (TDD).

Interested persons may file written comments on the application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Comments should refer to Case No. PUE-2010-00001 and should be filed by September 15, 2010. Those desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a public witness at the hearing on September 21, 2010. Interested persons should arrive at the Commission's Courtroom by 9:45 a.m. and inform the Commission's Bailiff that they wish to be a public witness.

On or before May 21, 2010, any person who expects to present evidence, to cross-examine witnesses, and to otherwise participate as a respondent in this proceeding, as provided by Rule 5 VAC 5-20-80 B of the State Corporation Commission's Rules of Practice and Procedure ("Rules of Practice"), *Participation as a respondent*, shall file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, an original and fifteen (15) copies of a notice of participation as a respondent. Copies shall be served on counsel to Virginia-American, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074, and on the Commission's Office of General Counsel, State Corporation Commission, P.O. Box 1197, Richmond, Virginia 23219-1197. The notice of participation shall be filed and served as required by Rules of Practice 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-150, *Copies and format*. As required by Rule of Practice 5 VAC 5-20-30, *Counsel*, any organization, corporation, or government entity participating as a respondent must be represented by counsel.

The unofficial text of the State Corporation Commission's orders in Case No. PUE-2010-00001 may be viewed at http://www.scc.virginia.gov/case. The Commission's Rules of Practice and other information may be viewed at http://www.scc.virginia.gov.

VIRGINIA-AMERICAN WATER COMPANY

(18) Virginia-American shall publish as display advertising the following notice once a week for two (2) consecutive weeks in a newspaper of general circulation in its Hopewell District. Publication shall be completed by April 30, 2010.

NOTICE TO CUSTOMERS OF
VIRGINIA-AMERICAN WATER COMPANY
OF A GENERAL INCREASE IN RATES
FOR THE HOPEWELL DISTRICT
CASE NO. PUE-2010-00001

Virginia-American Water Company ("Virginia-American" or "Company") has filed with the State Corporation Commission ("Commission") an application for a general increase in rates. The application has been docketed as Case No. PUE-2010-00001. The Company is seeking additional annual jurisdictional revenues of $6,875,954. Of the total increase, $3,048,350 in additional annual revenues would be allocated to the Hopewell District. Additional annual revenues of $2,017,023 would be allocated to the Alexandria District and $1,810,581 to the Prince William District.

The proposed rates for potable water in the Hopewell District follow:

RATE:

	Cubic Feet		Rate Per
	Month	Quarter	100 Cubic Feet
For the first	300	900	(minimum charge)
For the next	1,700	5,100	$4.6682
For the next	298,000	894,000	3.9130
For the next	700,000	2,100,000	2.3514
For the next	5,000,000	15,000,000	.9405
For all over	6,000,000	18,000,000	1.2999

MINIMUM CHARGE:

No bill will be rendered for less than the minimum charges set forth below:

Size of Meter	Minimum Charge Per Month	Per Quarter
5/8 inch	$16.25	$48.75
3/4 inch	24.37	73.11
1 inch	40.49	121.47
1½ inch	81.11	243.33
2 inch	129.86	389.58
3 inch	243.07	729.21
4 inch	404.89	1,214.67
6 inch	811.11	2,433.33
8 inch	1,297.25	3,891.75
10 inch	1,756.75	5,270.25
12 inch	3,492.18	10,476.54

While the total revenue that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, TAKE NOTICE that the individual rates and charges approved may be either higher than or lower than those proposed by the Company.

The proposed rates and charges shall take effect for service rendered on and after August 13, 2010. The proposed rates and charges shall take effect subject to the power of the Commission to fix and to substitute just and reasonable rates and to order the utility to make refunds or give credits.

The application and related filings may be inspected in the Document Control Center, Office of the Clerk, First Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m. on Commission business days. The application may also be inspected during regular business hours at Virginia-American Water Company, 2223 Duke Street, Alexandria, Virginia, and Virginia-American Water Company, 900 Industrial Street, Hopewell, Virginia. Interested persons may also access unofficial copies of the application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case. A copy of the application and accompanying materials may also be obtained, at no cost, by making a request in writing to counsel for the Company, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074. The Company shall make a copy available on an electronic basis upon request.

The State Corporation Commission has ordered its Staff to investigate the application and has established procedures for affected persons to participate or be represented in the proceeding. A hearing will be held on the application beginning at 10:00 a.m. on September 21, 2010, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia. Individuals with disabilities who require an accommodation to participate in the hearing should contact the Commission at least seven (7) days before the scheduled hearing date at 1-800-552-7945 (voice) or 1-804-371-9206 (TDD).

Interested persons may file written comments on the application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Comments should refer to Case No. PUE-2010-00001 and should be filed by September 15, 2010. Those desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a public witness at the hearing on September 21, 2010. Interested persons should arrive at the Commission's Courtroom by 9:45 a.m. and inform the Commission's Bailiff that they wish to be a public witness.

On or before May 21, 2010, any person who expects to present evidence, to cross-examine witnesses, and to otherwise participate as a respondent in this proceeding, as provided by Rule 5 VAC 5-20-80 B of the State Corporation Commission's Rules of Practice and Procedure ("Rules of Practice"), *Participation as a respondent*, shall file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, an original and fifteen (15) copies of a notice of participation as a respondent. Copies shall be served on counsel to Virginia-American, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074, and on the Commission's Office of General Counsel, State Corporation Commission, P.O. Box 1197, Richmond, Virginia 23219-1197. The notice of participation shall be filed and served as required by Rules of Practice 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-150, *Copies and format*. As required by Rule of Practice 5 VAC 5-20-30, *Counsel*, any organization, corporation, or government entity participating as a respondent must be represented by counsel.

The unofficial text of the State Corporation Commission's orders in Case No. PUE-2010-00001 may be viewed at http://www.scc.virginia.gov/case. The Commission's Rules of Practice and other information may be viewed at http://www.scc.virginia.gov.

VIRGINIA-AMERICAN WATER COMPANY

(19) Virginia-American shall publish as display advertising the following notice once a week for two (2) consecutive weeks in a newspaper of general circulation in its Prince William District. Publication shall be completed by April 30, 2010.

NOTICE TO CUSTOMERS OF
VIRGINIA-AMERICAN WATER COMPANY
OF A GENERAL INCREASE IN RATES
FOR THE PRINCE WILLIAM DISTRICT
CASE NO. PUE-2010-00001

Virginia-American Water Company ("Virginia-American" or "Company") has filed with the Virginia State Corporation Commission ("Commission") an application for a general increase in rates. The application has been docketed as Case No. PUE-2010-00001. The Company is seeking additional annual jurisdictional revenues of $6,875,954. Of the total increase, $1,810,581 in additional annual revenues would be allocated to the Prince William District. Additional annual revenues of $2,017,023 would be allocated to the Alexandria District and $3,048,350 to the Hopewell District.

The proposed rates for the Prince William District follow:

RATE:

	Gallons Per		Rate Per
	Month	Quarter	1000 Gallons
For the first	2,000	6,000	(minimum charge)
For all over	2,000	6,000	$4.9101

MINIMUM CHARGE:

No bill will be rendered for less than the minimum charges set forth below:

	Minimum Charge	
Size of Meter	Per Month	Per Quarter
5/8 inch	$11.52	$34.56
3/4 inch	17.27	51.81
1 inch	28.78	86.34
1½ inch	57.55	172.65
2 inch	92.09	276.27
3 inch	172.85	517.95
4 inch	287.77	863.31
6 inch	572.52	1,726.56
8 inch	920.84	2,762.52

While the total revenue that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, TAKE NOTICE that the individual rates and charges approved may be either higher than or lower than those proposed by the Company.

The proposed rates and charges shall take effect for service rendered on and after August 13, 2010. The proposed rates and charges shall take effect subject to the power of the Commission to fix and to substitute just and reasonable rates and to order the utility to make refunds or give credits.

The application and related filings may be inspected in the Document Control Center, Office of the Clerk, First Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m. on Commission business days. The application may also be inspected during regular business hours at Virginia-American Water Company, 2223 Duke Street, Alexandria, Virginia, and Virginia-American Water Company, 900 Industrial Street, Hopewell, Virginia. Interested persons may also access unofficial copies of the application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case. A copy of the application and accompanying materials may also be obtained, at no cost, by making a request in writing to counsel for the Company, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074. The Company shall make a copy available on an electronic basis upon request.

The State Corporation Commission has ordered its Staff to investigate the application and has established procedures for affected persons to participate or be represented in the proceeding. A hearing will be held on the application beginning at 10:00 a.m. on September 21, 2010, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia. Individuals with disabilities who require an accommodation to participate in the hearing should contact the Commission at least seven (7) days before the scheduled hearing date at 1-800-552-7945 (voice) or 1-804-371-9206 (TDD).

Interested persons may file written comments on the application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Comments should refer to Case No. PUE-2010-00001 and should be filed by September 15, 2010. Those

desiring to submit comments electronically may do so by following the instructions available at the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a public witness at the hearing on September 21, 2010. Interested persons should arrive at the Commission's Courtroom by 9:45 a.m. and inform the Commission's Bailiff that they wish to be a public witness.

On or before May 21, 2010, any person who expects to present evidence, to cross-examine witnesses, and to otherwise participate as a respondent in this proceeding, as provided by Rule 5 VAC 5-20-80 B of the State Corporation Commission's Rules of Practice and Procedure ("Rules of Practice"), *Participation as a respondent*, shall file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, an original and fifteen (15) copies of a notice of participation as a respondent. Copies shall be served on counsel to Virginia-American, Richard D. Gary, Esquire, and Charlotte P. McAfee, Esquire, Hunton & Williams LLP, Riverfront Plaza, East Tower, 951 East Byrd Street, Richmond, Virginia 23219-4074, and on the Commission's Office of General Counsel, State Corporation Commission, P.O. Box 1197, Richmond, Virginia 23219-1197. The notice of participation shall be filed and served as required by Rules of Practice 5 VAC 5-20-140, *Filing and service*, and 5 VAC 5-20-150, *Copies and format*. As required by Rule of Practice 5 VAC 5-20-30, *Counsel*, any organization, corporation, or government entity participating as a respondent must be represented by counsel.

The unofficial text of the State Corporation Commission's orders in Case No. PUE-2010-00001 may be viewed at http://www.scc.virginia.gov/case. The Commission's Rules of Practice and other information may be viewed at http://www.scc.virginia.gov.

VIRGINIA-AMERICAN WATER COMPANY

(20) Virginia-American shall include once as a bill insert for customers in the Alexandria, Hopewell, and Prince William Districts the text of the public notice prescribed for each district in Ordering Paragraphs (17), (18), and (19). In addition, the Company shall furnish direct mail notice to its industrial customers in the Hopewell District that purchase non-potable water, advising those customers of the proposed rate increases reflected on pages 4 and 5 of Schedule 41. The Company shall commence as soon as practicable to include the bill insert and to mail the industrial notice and shall continue until all customers have received these notices.

(21) On or before May 14, 2010, Virginia-American shall file with the Clerk of the Commission proof of the posting, mailing, and publication required by Ordering Paragraphs (15), (17), (18), (19), and (20).

CASE NO. PUE-2010-00002
APRIL 7, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
NORTHERN NECK ELECTRIC COOPERATIVE,
Defendant

ORDER ON RULE TO SHOW CAUSE

On January 7, 2010, Northern Neck Electric Cooperative ("NNEC" or "Cooperative"), by counsel, submitted a letter ("Letter") to William F. Stephens, Director of the Division of Energy Regulation of the State Corporation Commission ("Commission") that stated as follows:

> On behalf of [NNEC], we are hereby submitting copies of NNEC's revised rate schedules reflecting an across-the-board five percent (5%) increase in all classes of the Cooperative's rates for distribution services to be effective on and after February 1, 2010, pursuant to § 56-585.3 A 2 of the Code of Virginia [('Code')], and pursuant to an affirmative resolution of the Cooperative's board of directors ('Resolution'). Also submitted herewith is a copy of the Resolution.[1]

The Letter asserts, among other things, that: (1) "[§] 56-585.3 A 2 of the Code states, in part, that '[e]ach cooperative may, without Commission approval . . . increase or decrease all classes of its rates for distribution services at any time;'" (2) "the General Assembly also . . . stat[ed] that 'such adjustments will not effect a cumulative net increase or decrease in excess of 5 percent in such rates in any 3 year period;'" (3) "NNEC sought and received Commission approval of a 6.04 percent increase in base rates, effective January 1, 2009, in Case No. PUE-2008-00076;" and (4) "the timing and the amount of the Commission-approved rate increase [in Case No. PUE-2008-00076] has no bearing on when and in what relative amount NNEC may institute a board-approved rate adjustment."[2]

[1] Letter at 1.

[2] *Id.* at 1-3.

In this regard, § 56-585.3 A 2 of the Code provides as follows:

> Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or decrease all classes of its rates for distribution services at any time, provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of 5 percent in such rates in any three year period. Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates with the Commission for informational purposes; . . . .

On January 13, 2010, the Commission issued a Rule to Show Cause that directed NNEC to show cause why its across-the-board five percent increase in all classes of the Cooperative's rates for distribution services to be effective on and after February 1, 2010 "does not 'effect a cumulative net increase or decrease in excess of 5 percent in such rates in any three year period' in violation of § 56-585.3 A 2 of the Code."

On February 1, 2010, the Commission's Staff ("Staff") filed a Statement of Position. The Staff concluded as follows:

> Virginia Code § 56-585.3 A 2 does not allow Virginia jurisdictional distribution electric cooperatives to unilaterally increase distribution rates without regard to the timing or magnitude of any prior Commission-approved distribution rate increase(s). Accordingly, the Commission should enjoin [NNEC] from implementing its planned increase at this time.[3]

On February 19, 2010, the Cooperative filed an Answer, which asserted in part as follows:

> In NNEC's view, the words used in § 56-585.3 A 2 are clear, unambiguous, and susceptible to but one interpretation: a finding that the action the Cooperative has taken to increase its rates does not effect a cumulative net increase or decrease in excess of 5 percent in such rates in any three-year period or otherwise violate Va. Code § 56-585.3 A 2.[4]

In addition, "the Cooperative respectfully request[ed] the opportunity to present oral argument and to respond to questions from the Commissioners, on an expedited basis."[5]

On March 11, 2010, the Commission heard oral argument from NNEC and Staff.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that NNEC shall be enjoined at this time from implementing its across-the-board five percent (5%) increase in all classes of the Cooperative's rates for distribution services.

The Commission previously approved an increase in NNEC's electric rates, which became effective for service rendered on and after January 1, 2009.[6] This Commission-approved increase raised NNEC's rates for distribution services ("Commission-approved increase"). Specifically, Staff asserts that the Commission-approved increase raised such rates by 48%.[7] The Cooperative now proposes to implement an additional 5% increase in its current rates for distribution services pursuant to an affirmative resolution of NNEC's Board of Directors ("Board-approved increase"). The Cooperative agrees that if the Board-approved increase is implemented at this time, NNEC's rates for distribution services will have increased by more than 5% in a three-year period.[8]

We must determine whether, under these circumstances, the proposed Board-approved increase violates § 56-585.3 A 2 of the Code, which states as follows (emphasis added):

> Each cooperative may, without Commission approval or the requirement of any filing other than as provided in this subdivision, upon an affirmative resolution of its board of directors, increase or decrease all classes of its rates for distribution services at any time, *provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of 5 percent in such rates in any three year period*. Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions. The cooperative will promptly file any such revised rates with the Commission for informational purposes; . . . .

Both NNEC and Staff assert that this statute is unambiguous.[9] We agree. We find that under the plain language of this statute, the Commission-approved increase is considered when determining the amount of the "cumulative net increase . . . in such rates." As a result, the proposed Board-approved increase will "effect a cumulative net increase . . . in excess of 5 percent in such rates in any three year period" – in violation of the above statute.

First, the term "such adjustments" in the statute refers to increases or decreases of NNEC's rates for distribution services that the Cooperative may make without Commission approval under § 56-585.3 A 2 of the Code. In this case, it is the proposed Board-approved increase of 5%.

[3] Staff's February 1, 2010 Statement of Position at 8.

[4] NNEC's February 19, 2010 Answer at 3.

[5] *Id.* at 2.

[6] *Application of Northern Neck Electric Cooperative, For a general increase in electric rates*, Case No. PUE-2008-00076, Final Order (Jan. 13, 2009).

[7] Tr. 27.

[8] *See, e.g.,* Tr. 27; NNEC's February 19, 2010 Answer at 10-11.

[9] *See* NNEC's February 19, 2010 Answer at 3; Staff's February 1, 2010 Statement of Position at 5; Tr. 24.

Next, NNEC may implement the Board-approved increase "provided, however, that such adjustments will not effect a cumulative net increase or decrease in excess of 5 percent in such rates in any three year period." The question in this case is the meaning of this limitation in the statute. According to NNEC, it means that the total of Board-approved increases over a three-year period cannot exceed 5%. The statute, however, is simply not phrased in that manner. Rather, the statute requires a determination of the increase effected by the Board's action. In this regard, if the proposed Board-approved increase is implemented, such adjustment will effect an increase of more than 5% in a three-year period in violation of the statute.

The Cooperative further explains its reading of the statute as follows: "If Mr. Roussy has 15 pounds of potatoes in his arms and I give him five more, I'm not causing him, I haven't caused him to carry 20 pounds. I've caused him to carry five pounds. That's the essence of the Cooperative's position."[10] This illustrates NNEC's position that the statute only prohibits Board-approved increases from totaling over 5% in three years – regardless of any Commission-approved increase that ratepayers may already be carrying. The statute is not so limited. The statute speaks to the result on ratepayers effected by the Board-approved increases, not simply to the total of such increases. In this instance, although the total of the proposed Board-approved increase does not exceed 5%, such adjustment effects an increase in rates for distribution services of greater than 5% within a three-year period in violation of the express language of the statute.

Finally, we note that the second sentence of the above statute explicitly excludes certain Commission-approved increases from the 5% limitation. Specifically, as quoted above, the statute provides as follows immediately after the 5% limitation: "Such adjustments will not affect or be limited by any existing fuel or wholesale power cost adjustment provisions." That is, in determining whether a Board-approved increase violates the 5% limitation, any existing fuel or wholesale power cost increases approved by the Commission shall not be considered. Accordingly, our finding herein is not applicable to any such Commission-approved fuel or wholesale power cost adjustments.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) NNEC's proposed across-the-board five percent (5%) increase in all classes of the Cooperative's rates for distribution services "effect[s] a cumulative net increase or decrease in excess of 5 percent in such rates in any three year period" in violation of § 56-585.3 A 2 of the Code.

(2) NNEC is enjoined at this time from implementing its across-the-board five percent (5%) increase in all classes of the Cooperative's rates for distribution services.

(3) This case is dismissed.

[10] Tr. 19.

CASE NO. PUE-2010-00004
JULY 21, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For approval and certificates of public convenience and necessity for facilities in Arlington County: Glebe-Radnor Heights 230 kV Transmission Line; Davis-Radnor Heights 230 kV Transmission Line; Ballston-Radnor Heights 230 kV Transmission Line; and Radnor Heights Substation

FINAL ORDER

On February 9, 2010, Virginia Electric and Power Company d/b/a Dominion Virginia Power ("Dominion Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") its Application for Approval and Certification of Electric Facilities: Radnor Heights-Line #2036 Junction 230 kV Underground Transmission Lines, Ballston-Radnor Heights 230 kV Underground Transmission Line and 230-34.5 kV Radnor Heights Substation, Application No. 245 ("Application"). Prepared testimony, exhibits, copies of correspondence, and other material were attached to the Application and supplemental testimony was filed by the Company on February 22, 2010.

The Company proposes to construct two new 230 kV underground transmission lines by cutting into the existing 230 kV Glebe-Davis Line #2036 and extending each section approximately 2.6 miles from the junction to the proposed Radnor Heights Substation, which would be built on the northern portion of Joint Base Myer-Henderson Hall ("Fort Myer"). The Company also proposes to construct a new 230 kV underground transmission line from the existing Ballston Substation approximately 1.1 miles to the proposed Radnor Heights Substation. In addition to the proposed construction and operation of these facilities, the Company proposes their inclusion in the pilot program established by House Bill 1319 ("HB 1319"), which was enacted during the 2008 Session of the Virginia General Assembly for the placement of qualifying electric transmission lines of 230 kV or less in whole or in part underground.[1]

According to the Application, the proposed transmission lines and substation are required to assure reliable service to customers. Assuming that load growth continues in the Rosslyn-Ballston and Jefferson Davis corridors of Arlington County, the Company's studies indicate that violations of mandatory federal reliability standards may occur by the summer of 2012. In addition, the Application states that the project will improve service reliability.

The Application contains a wetlands consultation conducted by the Department of Environmental Quality's Office of Wetlands and Water Protection ("DEQ"). The DEQ concluded that the proposed project "does not appear to contain State Waters, including wetlands, and therefore a Virginia

[1] 2008 Va. Acts Chapt. 799.

Water Protection ("VWP") permit is not necessary for the project"[2] – a conclusion affirmed by the DEQ in a Wetlands Impact Consultation filed in this proceeding on March 4, 2010.

On March 17, 2010, the Commission issued an Order for Notice and Comment that docketed the Application as Case No. PUE-2010-00004; directed Dominion Virginia Power to provide public notice of the Application; invited interested persons to file written comments and/or requests for hearing on the Application by May 24, 2010; ordered the Commission Staff ("Staff") to review the Application and file a Staff Report summarizing the results of its investigation by June 7, 2010; and allowed Dominion Virginia Power to respond to the Staff Report and any public comments or requests for hearing on or before June 16, 2010.

On June 7, 2010, the Staff filed a Report summarizing the results of its investigation of the Application. The Staff Report found that the Company has reasonably demonstrated the need for the proposed project and that the proposed line routing is optimal.[3] Additionally, Staff stated that the project meets the explicit criteria of HB 1319 and does not object to its inclusion in the pilot program.[4] On June 16, 2010, Dominion Virginia Power filed comments stating that the Company agrees with and supports the findings and conclusions of the Staff Report.

On July 13, 2010, Dominion Virginia Power filed a resolution of the Board of Arlington County dated July 10, 2010, with certification by the Clerk of the County Board attached thereto. The resolution describes the proposed project and states that the County Board "finds it is in the public interest with general community support for the line to be placed underground in accordance with the requirements of Section 4.3 of the HB 1319 pilot program."

Dominion Virginia Power was directed to provide notice of the Commission's Order for Notice and Comment to the County of Arlington, where all construction for the proposed project would occur. Additionally, the Company was directed to provide public notice of the Application in newspapers that serve the affected area and to owners of property within the route of the proposed line. The Company filed proof of service and publication on March 24, 2010, and May 13, 2010, respectively. The Commission finds that notice of the Application was given as required by § 56-265.2 of the Code of Virginia ("Code"). In response to the notice, no interested person requested a hearing on the Application; no person filed comments; and no person file a notice of participation as a respondent.

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that the public convenience and necessity require that transmission lines and substation be built as proposed in the Company's Application and that certificates of public convenience should be issued authorizing the project.

Approval

The statutory scheme governing the Company's application is found in several chapters of Title 56 of the Code. Section 56-265.2 A of the Code provides that "[i]t shall be unlawful for any public utility to construct … facilities for use in public utility service …without first having obtained a certificate from the Commission that the public convenience and necessity require the exercise of such right or privilege."

Section 56-46.1 of the Code further directs the Commission to consider several factors when reviewing the Company's application. Subsection A of the statute provides that:

> Whenever the Commission is required to approve the construction of any electrical facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse environmental impact….In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted ….
>
> Additionally, the Commission (i) shall consider the effect of the proposed facility on economic development within the Commonwealth and (ii) shall consider any improvements in service reliability that may result from the construction of such facility.

Section 56-46.1 B of the Code further provides that: "[a]s a condition to approval the Commission shall determine that the line is needed and that the corridor or route the line is to follow will reasonably minimize adverse impact on the scenic assets, historic districts and environment of the area concerned."

The Code further requires the Commission to consider existing right-of-way easements when siting transmission lines. Section 56-46.1 C of the Code provides that "[i]n any hearing the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company." Additionally, § 56-259 C of the Code provides that "[p]rior to acquiring any easement of right-of-way, public service corporations will consider the feasibility of locating such facilities on, over, or under existing easements of rights-of-way."

Finally, for inclusion of a project in the pilot program established by HB 1319, the project must satisfy the following three criteria:

> 1. An engineering analysis demonstrates that it is technically feasible to place the proposed line, in whole or in part, underground;

[2] Application, DEQ Supplement at Attach. 2.D.

[3] Staff Report at 20.

[4] *Id.* at 8. Staff's conclusion that the project meets the explicit criteria of HB 1319 was conditioned on passage of a resolution by the Arlington County Board of Supervisors in support of the project. Such a resolution was passed following the filing of the Staff Report, as discussed herein.

> 2. The estimated additional cost of placing the proposed line, in whole or in part, underground does not exceed 2.5 times the cost of placing the same line overhead, assuming accepted industry standards for undergrounding to ensure safety and reliability…; and
>
> 3. The governing body of each locality in which a portion of the proposed line will be placed underground indicates, by resolution, general community support for the line to be placed underground.[5]

Need

According to the Application, the proposed project is required to assure reliable service to customers. Assuming that load growth continues in the Rosslyn-Ballston and Jefferson Davis corridors of Arlington County, the Company's studies indicate that violations of mandatory federal reliability standards may occur by the summer of 2012.[6] The Staff reviewed the Company's load flow studies and concluded that the load flow modeling and reliability needs presented by the Company to justify the new project are reasonable.[7] In addition to resolving the potential reliability violation, the Staff Report concludes that the proposed project would: (1) provide valuable bulk power reinforcement to a portion of the metropolitan Washington, D.C. area; (2) eliminate power disturbances at Fort Myer; and (3) provide a new source to serve anticipated load growth north of Fort Myer.[8]

Accordingly, the evidence in this case is undisputed that there is a need to construct the proposed transmission lines and substation in order to prevent violations of mandatory federal reliability standards that might otherwise occur by the summer of 2012. We therefore find that the Company has demonstrated a need to build the project as proposed in the Application.

Economic Development and Service Reliability

As discussed above, it is undisputed that the transmission line and substation project is necessary to maintain, and will enhance, system reliability. Based on the record, we find that construction of the proposed project will assure reliability and support development in Arlington County and the metropolitan Washington, D.C. area. The project will also provide additional tax revenue to Arlington County.[9]

Scenic Assets and Historic Districts

The area in which the transmission lines and substation are proposed to be constructed is a historically significant area, which includes several resources listed on the National Register of Historic Places and the Virginia Landmarks Register.[10] As indicated by the Company, placement of the proposed transmission lines underground will mitigate any visual impact to these resources. Additionally, Fort Meyer has initiated a review of the project in accordance with Section 106 of the National Historic Preservation Act of 1966, 16 U.S.C. § 470 *et seq.* ("NHPA"). Prior to construction, NHPA review will include consultation with Arlington County, the administration of Arlington National Cemetery, the Arlington Historical Society, and the National Park Service office in Philadelphia, and the Virginia Department of Historic Resources.[11]

Because much of the route will be on federal property, Dominion Virginia Power will be further required to satisfy a review under the National Environmental Policy Act of 1969, 42 U.S.C. § 4321 *et seq.* ("NEPA"). The Company lists twenty-two (22) local, state, and federal agencies expected to participate in the NEPA review process.[12] Following the preparation of a draft Environmental Assessment, these agencies and the public will have the opportunity to file comments, which will be incorporated and addressed in the final Environmental Assessment.[13] Additionally, the substation design is under review by Fort Myer, the National Capital Area Planning Commission, and the U.S. Commission of Fine Arts.[14]

Existing Right-of-Way

The Company has provided sufficient evidence that existing rights-of-way cannot adequately serve the system needs this project is designed to satisfy. The new lines will be predominately within road right-of-way belonging to the Virginia Department of Transportation or the County of Arlington or on federal properties.[15]

Environmental Impact

Sections 56-46.1 A and B of the Code require the Commission to consider the proposed project's impact on the environment and to establish such conditions as may be desirable or necessary to minimize adverse environmental impact. The statute further provides that the Commission shall receive and give consideration to all reports that relate to the proposed facilities by state agencies concerned with environmental protection.

The record, which includes the DEQ Supplement prepared by the Company as part of the Application, supports findings that the Company's proposed route reasonably minimizes adverse environmental impact. In accordance with § 62.1-44.15:21 D 2 of the Code and the Department of Environmental Quality-State Corporation Commission Memorandum of Agreement Regarding Wetland Impacts Consultation, dated July 2003, the Staff requested that DEQ perform a Wetland Impacts Consultation for the project. As discussed above, the DEQ concluded that a VWP permit is not required for the project because it does not appear to contain State Waters, including wetlands. Additionally, a substantial portion of this project, including the proposed substation, along with its associated impact will be on federal properties subject to the NEPA compliance review in addition to a NHPA review, as discussed above.[16]

HB 1319 Pilot Project

We find that the project meets all criteria set forth in HB 1319: (1) the Company has demonstrated that it is technically feasible to construct the proposed 230 kV transmission lines underground; (2) the cost of installing the proposed lines underground is less than 2.5 times the cost of installing overhead lines;[17] and (3) the governing body of Arlington County has expressed its support, by resolution, for undergrounding the proposed lines. Additionally, we find that the project will provide the Company with additional experience installing underground transmission facilities. Accordingly, we approve inclusion of the project in the pilot program established by HB 1319.

Accordingly, IT IS ORDERED THAT:

(1) The Company is authorized to construct and operate the two Radnor Heights-Line #2036 Junction 230 kV underground transmission lines and the Ballston-Radnor Heights 230 kV underground transmission line, all on the routes proposed in the Company's Application. The Company is also authorized to construct and operate the proposed Radnor Heights Substation within Fort Meyer.

(2) Pursuant to §§ 56-46.1, 56-265.2, and related provisions of Title 56 of the Code, the Company's Application for a certificate of public convenience and necessity to construct the proposed transmission lines is granted, as provided for herein, and subject to the requirements set forth in this Final Order.

(3) Pursuant to the Utility Facilities Act, Chapter 10.1 (§ 56-265.1 *et seq.*) of Title 56 of the Code, the Company is issued the following certificate of public convenience and necessity:

> Certificate No. ET-79ll authorizes Virginia Electric and Power Company under the Utility Facilities Act to construct and operate the proposed Ballston-Radnor Heights 230 kV underground transmission lines, Radnor Heights-Line #2036 Junction underground transmission line, and associated facilities, all as authorized in Case No. PUE-2010-00004; and to operate previously certificated transmission lines and facilities in Fairfax County, all as shown on the map attached to the certificate. Certificate No. ET-79ll cancels Certificate No. ET-79kk issued to Virginia Electric and Power Company on April 21, 2009 in Case No. PUE-2008-00072.

(4) The Commission's Division of Energy Regulation shall forthwith provide the Company a copy of the certificate issued in Ordering Paragraph (3) above with the detailed map attached.

(5) The Company is authorized to construct the proposed transmission lines and associated substation as part of an underground pilot project pursuant to HB 1319.

(6) The transmission lines and associated substation approved herein must be constructed and in service by June 30, 2010; however, the Company is granted leave to apply for an extension for good cause shown.

(7) As there is nothing further to come before the Commission, this matter is dismissed and the pages herein placed in the file for ended causes.

---

[16] Supplemental Testimony of Elizabeth P. Harper at 2-4.

[17] Direct Testimony of David C. Witt at 5, 8 (estimating a cost of $87.3 million for the proposed project compared to an estimated cost of $254.4 million to install overhead lines).

CASE NO. PUE-2010-00005
JUNE 30, 2010

APPLICATION OF
WASHINGTON GAS LIGHT COMPANY

For an Annual Informational Filing for the Twelve Months Ended September 30, 2009

ORDER ACCEPTING STAFF RECOMMENDATIONS AND DISMISSING PROCEEDING

On November 4, 2009, Washington Gas Light Company ("WGL" or the "Company"), by counsel, filed a petition with the State Corporation Commission ("Commission") requesting a waiver of certain filing requirements set out in 20 VAC 5-201-30 of the Rules Governing Utility Rate Applications and Annual Informational Filings ("Rate Case Rules").

On November 25, 2009, the Commission entered its Order Granting Waiver ("Order") in Case No. PUE-2009-00123.[1] In its Order, the Commission directed WGL to file Schedules 1-5, 9, 11-12, 14-18, 29, which would include only the work papers relating to the earnings test, and 40(a) as required by the Rate Case Rules as part of WGL's Annual Informational Filing ("AIF") for the twelve (12) months ended September 30, 2009. The Commission granted WGL a waiver of the requirements of 20 VAC 5-201-30 to file Schedules 6-7, 19, 21-22, 24-25, 27-28, 29 (except for work papers relating to the earnings test) and 40(b). The Commission conditioned the waiver upon the reservation of the right of the Commission Staff ("Staff") to request all of the AIF schedules, if needed, during Staff's review of the AIF for the twelve (12) months ended September 30, 2009, or in any future AIF proceeding.

On January 28, 2010, WGL filed its AIF for the twelve months ended September 30, 2009 ("2009 AIF") with the Commission.

On May 24, 2010, Staff filed its Report in the captioned matter. That Report consisted of financial and accounting analyses. In the financial analysis portion of its Report, Staff advised that WGL's consolidated per books return on average equity was 11.1% for the test year. Staff also commented that the Company maintained bond ratings of AA- from Standard & Poor's and A2 from Moody's Investors Service during the test year and throughout the credit crisis that began in late 2008 and extended through early 2009. Staff noted that WGL's consolidated per books equity ratio for the test year was 62.09%, with the exclusion of current maturities on long-term debt and short-term debt from total capital, and 54.79% when those items are included in total capital.

WGL's ratemaking capital structure reflects the 9.5%-10.5% return on equity range that was part of the Stipulation agreement for a Performance Based Ratemaking Plan ("PBR Plan") adopted by the Commission's September 19, 2007 Order entered in Case No. PUE-2006-00059.[2] Staff observed that based on the return on equity range midpoint of 10.0%, WGL's overall cost of capital for the test year is 7.92%, as compared to 8.08% for the fiscal year ended September 2008. According to Staff, the decrease primarily stems from a reduction in the cost of debt between the two periods.

In its accounting analysis, Staff explained that the Stipulation accepted in Case No. PUE-2006-00059 provides for no change in base tariff rates during the four-year PBR Plan that extends from October 1, 2007 through September 30, 2011. Staff reported that the Stipulation accepted in Case No. PUE-2006-00059 provides for an Earnings Sharing Mechanism ("ESM") to share excess earnings during the PBR Plan between ratepayers and shareholders. In accordance with that Stipulation, the Company will share Virginia jurisdictional earnings under the ESM beginning at a 10.50% rate of return on common equity. Virginia jurisdictional earnings would be shared under the Stipulation with 75% credited to ratepayers and 25% retained by shareholders.

Staff also advised that in WGL's preceding AIF, Case No. PUE-2009-00005, WGL had agreed to file its earnings test in conformance with the adjustments calculated by Staff in Staff's earnings test for the 2008 AIF, as illustrated by the Earnings Test Rate of Return Statement attached as Appendix A to the Stipulation accepted by the Commission in Case No. PUE-2009-00005.[3] Staff noted that WGL presented its ratemaking adjustments in conformance with the Stipulation accepted in Case No. PUE-2009-00005, except for an accounting adjustment related to a termination of The Williams Companies, Inc. ("Williams") right to call capacity near Leidy, Pennsylvania, used by WGL for asset optimization purposes.

With regard to WGL's asset optimization activities, Staff reported that during the fiscal year 2009, WGL earned $30 million in system-wide asset optimization revenues before sharing, net of storage fill, with $12.1 million of this amount being allocated to Virginia. Of the $12.1 million adjusted net asset optimization revenues allocated to Virginia, $2.6 million was shared with Virginia ratepayers through the Annual Cost Adjustment ("ACA") mechanism of WGL's Purchased Gas Adjustment Clause in accordance with Paragraph 8(b) of the Stipulation accepted in Case No. PUE-2006-00059.[4]

The Company adjusted the net $9.5 million due to a misallocation to Virginia of certain items such as lower-of-cost or market adjustments and to normalize the Williams' call termination. To correct the misallocation, WGL made an earnings test adjustment to allocate these items on a gross-of-sharing

---

[2] *See Application of Washington Gas Light Company, For a general increase in rates, fees, charges and revisions to the terms and conditions of service as well as approval of a performance-based regulation methodology under Va. Code § 56-235.6*, Case No. PUE-2006-00059, 2007 S.C.C. Ann. Rept. 315, Final Order (Sept. 19, 2007) (hereafter referred to as "Case No. PUE-2006-00059"). The September 19, 2007 Final Order incorporates a Stipulation resolving all issues related to the Company's Application, including approval of a PBR Plan for WGL for the period October 1, 2007 through September 30, 2011.

[3] *See Application of Washington Gas Light Company, For an Annual Informational Filing for 2008*, Case No. PUE-2009-00005, 2009 S.C.C. Ann. Rept. 381, 382, Final Order (July 24, 2009).

[4] The $2.6 million is calculated based on Virginia's 41% allocation of the first $6 million of net asset optimization revenues, leaving a Virginia allocated amount of $9.5 million after sharing through the ACA.

basis, an adjustment accepted by Staff. After all of WGL's earnings test adjustments and after the $2.6 million returned to Virginia customers in the ACA, the adjusted level of net asset optimization activities included in the Virginia ESM was $6.6 million.

With regard to the Williams' call termination, Staff did not accept WGL's proposed ratemaking treatment of the expenses to terminate Williams' right to call capacity for the final two years of the contract. For earnings test purposes, WGL deferred the amount until fiscal years 2010 and 2011 consistent with the time period that revenues would be derived from the termination. The Company's earnings test adjustment amount on a Virginia jurisdictional basis is a $2.4 million decrease to expense, or an increase in net asset optimization revenues.

Staff explained in its Report that earning test adjustments have historically been made to place a utility's books on a regulatory basis rather than to normalize expenses. Staff noted that Paragraph 10(f) of the Stipulation accepted in Case No. PUE-2006-00059 prohibits WGL from establishing any regulatory assets before or during the term of the PBR Plan other than the deferral of the costs to achieve the Administrative and General Initiative ("A&G Initiative"). According to Staff, since WGL expensed the Williams' call termination cost during the test year but desires to recognize such costs in future earnings tests, WGL appeared to be requesting regulatory asset treatment for these costs. Based upon Paragraph 10(f) of the Stipulation accepted in Case No. PUE-2006-00059, Staff did not incorporate WGL's proposed earnings test adjustment to defer the test year cost of the Williams' call termination.

After Staff's ratemaking adjustments, $4.2 million of net asset optimization revenues are included in the fiscal year 2009 Virginia jurisdictional earnings test. Staff's revenue amount is lower than WGL's because the Staff did not defer the $2.4 million Virginia jurisdictional Williams' call termination cost until fiscal years 2010 and 2011, as did WGL.

Staff reported that WGL amortizes the Virginia costs of business process outsourcing, *i.e.*, the A&G Initiative, over the four-year PBR Plan term in accordance with Paragraph 10(f) of the Stipulation approved in Case No. PUE-2006-00059. Staff explained that the unamortized regulatory asset balance as of the September 30, 2009, end of the test year was $2.8 million on a Virginia jurisdictional basis net of tax. According to Staff, this balance, as well as any incremental accruals during fiscal years 2010 and 2011, will be completely amortized by September 30, 2011, the termination date for the Company's PBR Plan.

With regard to WGL's Virginia infrastructure investment, Paragraph 11 of the Stipulation approved in Case No. PUE-2006-00059 directed WGL to conduct a targeted mechanical seal replacement program of $8 million annually in Virginia. WGL's December 1, 2009 PBR Report for fiscal year 2009 quantifies $10.3 million of capital expenditures, including $1.2 million of encapsulation costs, related to mechanical couplings. Staff did not consider the costs of encapsulation in its analysis of whether WGL met its investment commitment since the Stipulation in Case No. PUE-2006-00059 requires the capital expenditures to be for "mechanical seal replacement." After excluding the costs related to encapsulation, WGL satisfied its commitment for mechanical seal replacement based on WGL's reported activity for fiscal year 2009. Staff included the cost of replacement and encapsulation in its development of WGL's rate base.

With regard to hexane gas, an additive used to reconstitute the chemical make-up of natural gas to avoid compromising mechanical seals in the Company's distribution system, WGL represented that it incurred $1.4 million of test year Virginia jurisdictional costs to purchase hexane gas. Hexane has both a BTU (heating value) and non-BTU component. Of test year cost, WGL represents that $0.9 million was related to the non-BTU component of hexane. Paragraph 6(b) of the Stipulation accepted in Case No. PUE-2006-00059 provides that, to the extent WGL's Virginia jurisdictional earnings result in less than a 10.0% return on common equity on a per books earnings test basis, WGL may file an application requesting recovery of the actual Virginia jurisdictional amount of non-BTU component hexane expensed during the test year in excess of $400,000. In accordance with the Stipulation accepted in Case No. PUE-2006-00059, the cost recovery will be limited to that portion of the non-BTU hexane component in excess of $400,000 required for the Company to achieve an earned return on equity of 10.0% for that PBR period of the PBR Plan.

With respect to State Income Tax Expense, Staff made an adjustment to Virginia jurisdictional state income tax expense of $960,194. This adjustment is based on a three part factor of plant, payroll, and sales within the Maryland, Virginia, and District of Columbia ("D.C.") jurisdictions, respectively. Since the Company had not yet filed its fiscal year 2009 tax returns, Staff used the apportionment factors from the Company's fiscal year 2008 tax returns as a proxy. Since WGL filed a consolidated tax return in D.C., Staff removed the non-WGL portion of the state income taxes from the D.C. apportionment factor.

Based on Staff's revisions to WGL's filed earnings tests, Staff concluded that WGL's rate of return earned on rate base on a Virginia jurisdictional per books basis was 8.04% and, after limited adjustments, was 7.48%. Staff calculated that WGL earned a 10.16% rate of return on common equity on a Virginia jurisdictional per books basis and, after limited adjustments, earned a 9.20% rate of return on common equity. Based on the adjusted rate of return earned on average common equity, Staff did not recommend that any Earnings Sharing Mechanism sharing occur. Staff did not propose any revisions to WGL's non-gas base rates.

On June 9, 2010, WGL, by counsel, filed a letter advising that WGL did not have any comments on the Staff Report.

NOW THE COMMISSION, upon consideration of the 2009 AIF, Staff's May 24, 2010 Report, the Company's June 9, 2010 letter, and the applicable statutes, is of the opinion and finds that the accounting adjustments, capital structure, and recommendations set out in Staff's Report should be adopted as supported by the record; that no earnings sharing through WGL's ESM mechanism is necessary for the test year ending 2009; that no further action should be taken on the Company's rates at this time; and that this case should be dismissed from the Commission's docket of active proceedings.[5]

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the findings made herein, the accounting adjustments, capital structure, and recommendations set forth in the May 24, 2010 Staff Report are hereby accepted.

(2) No earnings sharing through WGL's ESM mechanism is necessary for the test year ending September 30, 2009.

[5] The findings made herein pertain only to the record made in this docket. They do not constitute a determination of any other issues in other dockets that may be pending before the Commission involving WGL.

(3) No action should be taken on the Company's rates at this time.

(4) There being nothing further to be done herein, this case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00006
JUNE 29, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For approval to revise its Rider T rate adjustment clause pursuant to § 56-585.1 A 4 of the Code of Virginia

FINAL ORDER

On March 31, 2010, Virginia Electric and Power Company ("Dominion" or "Company"), pursuant to § 56-585.1 A 4 of the Code of Virginia ("Code"), submitted an application to the State Corporation Commission ("Commission") to revise the Company's rate adjustment clause ("RAC") designated as Rider T. Section 56-585.1 A 4 of the Code allows an investor-owned electric utility to recover, with Commission approval, certain costs through a RAC and deems to be prudent the "costs for transmission services provided to the utility by the regional transmission entity of which the utility is a member" and "costs charged to the utility that are associated with demand response programs approved by the Federal Energy Regulatory Commission and administered by the regional transmission entity of which the utility is a member."

By Final Order entered in Case No. PUE-2009-00018, the Commission approved the Company's proposal to establish Rider T, which was placed into effect on September 1, 2009.[1] The Company's application in the instant proceeding proposes an increase to its current Rider T rates to be effective for service rendered on and after September 1, 2010. The rates in the Company's application were designed to produce a revenue requirement of approximately $339 million, or an annual increase of $119 million above the revenues projected to be generated under existing Rider T rates.[2]

Additionally, according to the Company, "[t]he revised Rider T proposed in this case reflects the Order Approving Stipulation and Addendum issued … on March 11, 2010, in Case Nos. PUE-2009-00011, *et al.*"[3] ("Order Approving Stipulation").[4] The Order Approving Stipulation approved, among other things, certain rate credits and an agreement by the Company to waive collection of certain deferred regional transmission organization ("RTO") costs as of January 1, 2011. Regarding the Company's agreement to waive recovery of the deferred RTO costs, the application proposes two sets of rates – one set effective for usage on and after September 1, 2010, and another set effective for usage on and after January 1, 2011.

Finally, the Company requested a waiver of Rule 20 VAC 5-201-60 of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings (20 VAC 5-201-10, *et seq.*) ("Rate Case Rules"). Rule 20 VAC 5-201-60 of the Rate Case Rules requires, among other things, the filing of Schedule 45 as "documentation supporting the return on equity benchmark proposed pursuant to § 56-585.1 A 2 a and b of the Code of Virginia." As noted by the Company, the Commission does not need to determine a return on equity for the proposed Rider T.[5]

On April 13, 2010, the Commission issued an Order for Notice and Hearing directing Dominion to provide notice of its application; permitting interested persons to file written or electronic comments or to participate as a respondent; scheduling a public hearing for June 15, 2010; and granting the requested waiver of Rule 20 VAC 5-201-60 of the Rate Case Rules, while allowing the opportunity for interested parties the opportunity to file objections to the Commission's waiver.

Notices of participation were filed by the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel"), the Virginia Committee for Fair Utility Rates ("Committee"), and MeadWestvaco Corporation ("MeadWestvaco"). No objections to the Commission's waiver of Rule 20 VAC 5-201-60 were filed.

On May 25, 2010, MeadWestvaco filed testimony addressing the proposed rate design for Dominion's GS-4 customer class. On June 7, 2010, MeadWestvaco, by counsel, filed a letter, which was signed and agreed to by counsel for Dominion, advising that MeadWestvaco and Dominion intend to work cooperatively with other interested parties to investigate potential rate design alternatives for the GS-4 customer class.

On May 27, 2010, Dominion, by counsel, filed a letter indicating that it had identified certain costs included in the application that the Company proposed to remove in a compliance filing of the final rates approved in this case. On June 1, 2010, the Commission's Staff ("Staff") filed testimony recommending a revenue requirement of $337.9 million, or approximately $1.1 million lower than the Company originally requested.[6] Staff's

[1] *Application of Virginia Electric and Power Company, For approval of rate adjustment clause pursuant to § 56-585.1 A 4 of the Code of Virginia*, Case No. PUE-2009-00018, 2009 S.C.C. Ann. Rept. 422, Final Order (June 29, 2009).

[2] Ex. 9 at 4, n.3.

[3] Ex. 5 at 2.

[4] *Application of Virginia Electric and Power Company, For a 2009 statutory review of rates, terms and conditions for the provision of generation, distribution, and transmission services pursuant to § 56-585.1 A of the Code of Virginia*, Case No. PUE-2009-00019, Order Approving Stipulation and Addendum (Mar. 11, 2010).

[5] Ex. 2, Application at 8.

[6] Ex. 9 at 15.

recommendation reflects the removal of costs identified by Dominion's May 27, 2010, letter and one additional accounting adjustment. On June 8, 2010, Dominion filed rebuttal testimony agreeing to the revenue requirement calculated by Staff.[7]

The Commission held a public evidentiary hearing on June 15, 2010. The following participated at the hearing: Dominion; Committee; Consumer Counsel; and Staff. No public witnesses appeared at the hearing. The Company's application, filing schedules, and all supporting and rebuttal testimony, as well as the testimony of witnesses for MeadWestvaco and the Staff were all admitted to the record without cross-examination.

NOW THE COMMISSION, having considered this matter, is of the opinion and finds as follows. Section 56-585.1 A 4 of the Code deems certain costs "reasonable and prudent," and further directs that the Commission "shall approve a rate adjustment clause under which such costs … shall be recovered on a timely and current basis from customers." Pursuant to this statute, we approve the Rider T revenue requirement of $337.9 million, as recommended by the Commission's Staff, agreed to by the Company, and not contested by any party to this proceeding.

Additionally, we find that the Company's proposal is consistent with the Order Approving Stipulation, as discussed herein. Although the current Rider T rates became effective on September 1, 2009, and we now approve an increase to those rates to be effective on and after September 1, 2010, the Order Approving Stipulation provides for separate rate credits to offset, through December 31, 2010, both the initial Rider T increase and the additional increase approved herein.[8] As stated by the Company, "[g]iven the terms of the Order Approving Stipulation … prior to January 1, 2011, net billing for transmission service will be at rates in place as of August 31, 2009 (pre-Rider T rates)." On January 1, 2011, when the increased Rider T costs are reflected in customer bills, those charges will not include any recovery of the deferred RTO costs, which the Company agreed to waive.[9]

Finally, we approve the Company's proposed rate design and allocation of costs and direct the lower revenue requirement approved herein to be allocated in a manner consistent with the Company's proposed methodology. In doing so, we acknowledge the stated intent of Dominion and MeadWestvaco to work cooperatively to explore alternatives in hopes of reaching an agreement to re-design the GS-4 rate design. The Commission will review in future proceedings any proposed rate design, regardless of whether or not such proposal is a collaborative outcome.

Accordingly, IT IS ORDERED THAT:

(1) The Company's application is granted in part and denied in part as set forth herein.

(2) Within thirty (30) days from the date of this Final Order, the Company shall file with the Commission's Division of Energy Regulation a revised Rider T, with supporting workpapers, which reflects the findings and requirements set forth herein.

(3) The modifications to Rider T as approved herein shall become effective for service rendered on and after September 1, 2010.

(4) This matter is dismissed.

[7] Ex. 6 at 3.

[8] Ex. 5 at 9.

[9] *Id.* at 3; Ex. 3 at Sch. 2.

CASE NO. PUE-2010-00007
SEPTEMBER 3, 2010

APPLICATION OF
ENERGY CURTAILMENT SPECIALISTS, INC.

Pursuant to Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly for approval of demand response programs to be offered to retail customers

ORDER GRANTING APPROVAL

On February 5, 2010, Energy Curtailment Specialists, Inc. ("ECS" or the "Company") filed an application ("Application") with the State Corporation Commission ("Commission") for approval of demand response programs to be offered to retail customers in the Appalachian Power Company ("APCo") service territory. The Company's Application is filed pursuant to Section 3 of Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly ("Section 3"), which states as follows:

> That the State Corporation Commission, for the service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement as an alternative to other capacity mechanisms, shall approve any demand response program proposed to be offered to retail customers by the generating electric utility or any other qualified nonutility provider if, following notice and the opportunity for a hearing, the State Corporation Commission finds (i) any nonutility provider to be qualified, (ii) the program to be effective, reliable, and verifiable as a capacity resource, and (iii) such program to be in the public interest. A State Corporation Commission order issued pursuant to this section shall not affect any contract between a retail customer and a curtailment service provider executed prior to July 1, 2009.

The Application seeks authority for ECS to continue to market and provide demand response programs through individual customer contracts in the APCo service territory. Among other things, ECS states: (i) that it is an active Curtailment Service Provider ("CSP") in the demand response programs

of the regional transmission entity PJM Interconnection, LLC ("PJM"); (ii) that it "contracts with commercial and industrial end-users who are willing and able to curtail their electric consumption in accordance with PJM's program requirements"; and (iii) that it "installs metering and control equipment to enable the customer to curtail, aggregates its customers' load to meet its obligations to PJM, submits the verification of demand reductions for payment by PJM, and receives payments from PJM on behalf of its customers."[1]

On February 26, 2010, the Commission issued an Order Inviting Comments in this proceeding that allowed interested persons an opportunity to participate as respondents and to file comments and request a hearing on the Company's Application. On or before April 2, 2010, comments and notices of participation were received from: APCo; EnergyConnect, Inc. ("EnergyConnect"); EnerNOC, Inc. ("EnerNOC"); CPower, Inc. ("CPower"); Comverge, Inc. ("Comverge"); and the Old Dominion Committee for Fair Utility Rates ("Committee"). Piedmont Environmental Council ("Piedmont") filed comments.

In its comments, APCo raises concerns about the requested approval. APCo states that it is unable to capture from such third-party demand response programs certain benefits of load curtailment. APCo indicates that, under PJM's capacity market, participation by APCo's customers in demand response programs offered by third-party providers, such as ECS, cannot be counted toward its capacity obligation, which is met through PJM's Fixed Resource Reliability alternative. Additionally, APCo expresses concern that ECS's proposal could result in higher costs for APCo and its customers in the long run. APCo also questions the sufficiency of information provided in the Application.

EnergyConnect, EnerNOC, CPower, and Comverge, which, like ECS, operate as CSPs within the PJM region and elsewhere, support ECS's Application because they believe it is likely to lead to more demand response within APCo's service territory. The CSPs state, among other things, that an increase in demand response within APCo's service territory would potentially reduce APCo's monthly peak and its member load ratio ("MLR") within the American Electric Power Company ("AEP") pool of operating companies. According to the CSPs, a reduction in APCo's MLR would reduce capacity equalization payments by APCo to other AEP operating companies, thereby providing benefits to APCo customers that participate in demand response programs and those that do not. Similarly, Piedmont urges the Commission to approve ECS's Application based, in part, on Piedmont's assertion that "more competitive service providers should allow for deeper market penetration and more demand response overall."[2] The CSPs also cite to the ability of demand response to lower energy and capacity prices within the PJM region. Finally, the CSPs request that an evidentiary hearing be convened if the Commission is inclined to reject the Application.

The Committee, in its comments, asks that the Commission dismiss the Application for lack of jurisdiction based on the Committee's assertion that:

> the Application does not involve a demand response program *proposed to be offered* to retail customers. Rather, the Application involves an *existing* demand response program that *already* is offered by PJM, not by CSPs. The CSPs merely serve as a conduit for participating in the demand response program that is offered by PJM: the CSPs do not establish any of the rules, terms, or conditions for participating in such programs.[3]

The Committee further asserts that regulation of CSPs under Section 3 is "not needed" because the Federal Energy Regulatory Commission ("FERC") and the Virginia General Assembly have already determined that the PJM demand response programs are in the public interest.[4] "If the Commission determines that it should exercise jurisdiction over the Application," the Committee supports its approval.[5] Finally, the Committee requests an evidentiary hearing on the Application but only in the event that "the Commission does not dismiss the Application for lack of jurisdiction, and if the Commission determines that it cannot approve the Application based solely on written submissions in this docket."[6]

On April 16, 2010, ECS filed responsive comments that largely address the concerns raised by APCo in its comments. ECS asserts that APCo's concerns are unwarranted and identifies various benefits of demand response in further support of its requested approval.

In addition to comments, as discussed above, the Committee filed, on April 30, 2010, a Motion to Dismiss the Application. In its Motion to Dismiss, the Committee advances jurisdictional arguments similar to those raised separately in its comments. The Committee concludes that ". . . nothing in Section 3 . . . , and nothing in state policy or prior Commission precedent supports a finding that Virginia laws or regulations do not permit a retail customer to participate in PJM demand response programs."[7]

On May 20, 2010, the Commission's Staff ("Staff") filed a response to the Committee's Motion to Dismiss in which Staff recommends that the Committee's Motion to Dismiss be denied. Staff asserts that the Company's proposal is the type contemplated by the Virginia General Assembly's enactment of Section 3. In support of its position, Staff cites to the Section 3 requirement for a determination of whether a proposed program is a "capacity resource" and indicates that "CSPs aggregate the resources of their retail customers to register as capacity resources and bid those resources into PJM's markets. But the PJM programs themselves are not capacity resources."[8] Additionally, Staff indicates that the Committee's proposed distinction between "existing" and "new demand response programs offered after some unspecified date" is inconsistent with the grandfather clause of Section 3, which references only

[1] Application at 1-2.

[8] Staff's Response to Motion to Dismiss at 4.

"contracts" executed prior to July 1, 2009.[9] Finally, Staff cites to FERC Order Nos. 719 and 719-A and states that the issue of retail customers' participation in demand response programs has been left for the States to decide.

On June 4, 2010, the Committee filed a reply to Staff's response to the Committee's Motion to Dismiss. The Committee's reply focuses largely on the issue of whether the programs offered by the Company are, in their own right, demand response programs or whether CSPs, such as ECS, serve as a mere conduit for customer participation in PJM programs. The Committee argues that not treating CSPs as conduits of the PJM program: (i) is inconsistent with FERC Order No. 719-A; (ii) is inconsistent with the plain language of Section 3; (iii) is inconsistent with Staff's evaluation of CSPs in a representative Staff Report; and (iv) would result in disparate treatment of CSP customers. However, the Committee "concedes . . . that its reading of Section 3 would result in Section 3 applying to non-utility [sic] demand response programs that are not PJM demand response programs, and the universe of such programs is presently hard to discern."[10] The Committee's reply also asserts that "regulation of the CSPs in APCo's territory is unwise."[11]

On May 7, 2010, the Staff filed its report on the Application ("Staff Report") in which it concludes that: (i) "ECS is technically qualified as a nonutility provider of demand response provider [sic] and has the necessary resources for providing such services"; (ii) "ECS has the financial resources necessary to provide the proposed services"; and (iii) "ECS offers programs that are effective, reliable, measurable and verifiable as a demand response resource."[12] Staff further concludes that the public interest implications of ECS's programs may vary depending on the perspective from which they are viewed. According to Staff:

> The provision of demand response services in APCo's service territory by nonutility providers may have a positive impact on the PJM region as a whole while possibly having an adverse impact on AEP and its nonparticipating customers. It does not necessarily follow, however, that APCo will be harmed as a stand-alone entity.[13]

Staff recommends that Commission approval of the Application be conditioned on the Company providing an annual report demonstrating its continued qualifications and includes in the Staff Report specific recommendations for such a reporting requirement.

On May 21, 2010, ECS filed comments in response to the Staff Report. ECS stresses the economic development benefits of demand response payments to retail customers. The Company agrees with Staff that increased demand response from nonutility CSPs may not harm APCo as a stand-alone entity and indicates that participation in demand response programs offered by CSPs results in benefits to nonparticipating customers. ECS further asserts that "[i]ncreased demand response is explicit public policy in Virginia."[14] Finally the Company concludes that it does not object to the reporting requirements proposed by Staff but requests that the Commission consider those reports as "extraordinarily sensitive information under Rule 5 VAC 5-20-170 in order to maintain the confidentiality of the information."[15]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that, by enacting Section 3, the Virginia General Assembly has specifically directed the Commission to evaluate any application for the provision of demand response programs within a specific geographic area of the Commonwealth.[16] We have evaluated ESC's Application and find that it should be approved, subject to the conditions set forth herein.

Motion to Dismiss

As a preliminary matter, we deny the Committee's Motion to Dismiss. We agree with Staff that the demand response "program[s]" to be evaluated under Section 3 are "the actual products and services offered … to retail customers" and that the programs proposed to be offered by the Company are not the same as the PJM platforms for demand response.[17] Section 3 contemplates Commission consideration of demand-side resources capable of functioning as capacity. Staff cites to, and no party has rebutted, provisions of the PJM Open Access Transmission Tariff and Reliability Assurance Agreement as evidence that the PJM platforms are not "capacity resource[s]."[18] Put simply, although the PJM demand response platforms may also be referred to as programs, they are not the "program[s]" that Section 3 directs us to evaluate. Moreover, the Committee's legal interpretation would appear to render meaningless Section 3, either in part or in its entirety. Indeed, as the Committee concedes, "the universe of such programs" provided by nonutility providers to which Section 3 would apply under the Committee's interpretation "is presently hard to discern."[19]

[18] *Id*. at 4, n.6.

[19] Committee's Reply to Response to Motion to Dismiss at 10.

Application

Based on the record, we find that the Company currently possesses both the technical and financial qualifications necessary to support the demand response programs it proposes to continue offering within APCo's service territory.[20] We further find that the programs, as they are currently provided by the Company, have been effective, reliable and verifiable as capacity resources.[21] That, in order to participate in PJM's markets, the Company and its programs have thus far been able to satisfy certain financial and technical requirements of PJM is relevant to, but is not dispositive of, our determination herein.

Additionally, we find approval of the Company's programs to be in the public interest, subject to the reporting requirements recommended by Staff and unopposed by the Company.[22] In reaching this conclusion we have considered, among other things, the demand response benefits provided or potentially provided both regionally and locally, as cited by Staff and the parties to this proceeding.[23]

Given the legislative emphasis on the effectiveness, reliability, and verifiability of demand response programs subject to Section 3, we find that the public should be provided reasonable assurance – beyond the snapshot in time presented in this proceeding – that the Company's programs continue to contribute positively to system reliability. The need for regular reporting to demonstrate the continuing qualifications of the Company and its programs is reinforced by the evolving, if not increasing, role of demand response providers and their services.[24] Accordingly, it is only subject to such reporting that we find the provision of the demand response programs offered by the Company to be in the public interest.[25]

ECS shall be required to provide the following information annually:

1) A list of states in which ECS, or an affiliate of ECS, conducts business related to curtailment services;

2) Disclosure of any affiliate relationships with a local electric distribution company or other CSP that conducts business in Virginia;

3) A copy of ECS's audited balance sheet and income statement for the most recent fiscal year. If not available, other financial information that demonstrates ECS's financial ability to continue to provide demand response services in Virginia;

4) Demonstration that ECS has adequate commercial liability insurance commensurate with the business being conducted in Virginia;

5) Disclosure of any (i) civil, criminal, or regulatory sanctions or penalties imposed or in place within the previous five years against ECS, any of its affiliates, or any officer, director, partner, or member pursuant to any state or federal consumer protection law or regulation; and (ii) felony convictions within the previous five years, which relate to the business of the Company or to an affiliate thereof, of any officer, director, partner, or member;

6) Disclosure of whether ECS has ever been denied authority to provide demand response services and whether any authority issued to it or an affiliate has ever been suspended or revoked and whether other sanctions have been imposed; and

7) Disclosure of any incurrence of penalties from PJM, curtailment test failures or failures to meet committed curtailments during curtailment events.

We direct Staff to monitor these reporting requirements and to advise us of any information that materially affects the qualifications of ECS or its programs under the standards of Section 3.

Requests for Hearing

EnergyConnect, EnerNOC, CPower, and Comverge request that an evidentiary hearing be convened if the Commission is inclined to deny ECS's Application. The Committee requests an evidentiary hearing in the event the Commission does not dismiss ECS's Application on jurisdictional grounds and, further, finds the written submissions in this docket inadequate to approve the Application. As previously noted, we deny the Committee's Motion to

[20] *See*, *e.g.*, Staff Report at 2-7.

[21] *See*, *e.g.*, *id*. at 7-11.

[22] *Id*. at 15-16; ECS's May 21, 2010 Comments at 7-8.

[23] *See*, *e.g.*, Staff Report at 12-14; ECS's May 21, 2010 Comments at 2-3; EnergyConnect's Comments at 4-6. We are also mindful of the Committee's concern that "APCo's customers will be harmed if their demand response options … are restricted through the elimination of viable and active CSPs." Committee's Comments at 4.

[24] Application at 5-6.

[25] Based on the competitive concerns raised by the Company, we direct Staff to maintain these reports as confidential information and to withhold their contents from public disclosure. Such reports shall be handled consistent with all the provisions of 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure, including the provisions for individually marking pages or documents that contain confidential information, for maintaining confidential information, and for challenging confidential designations.

Dismiss. We also find the written record in this docket adequate for us to evaluate ECS's Application. Accordingly, we deny all requests for a hearing in this case.

Accordingly, IT IS ORDERED THAT:

(1) ECS's Application to continue offering the demand response programs it currently provides within APCo's service territory is hereby approved, subject to ECS's full compliance with all of Staff's reporting recommendations as listed above, which are hereby accepted and approved.

(2) ECS shall submit its first annual report no later than June 30, 2011, to the Commission's Divisions of Energy Regulation and Economics and Finance, and subsequent reports shall be submitted no later than June 30 for each year in which ECS continues to provide demand response programs to retail customers in APCo's service territory.

(3) The Committee's Motion to Dismiss is denied.

(4) All requests for an evidentiary hearing are denied.

(5) There being nothing further to come before the Commission, this case is hereby dismissed.

CASE NO. PUE-2010-00008
SEPTEMBER 3, 2010

APPLICATION OF
ENERNOC, INC.

Pursuant to Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly for approval of demand response programs to be offered to retail customers

ORDER GRANTING APPROVAL

On February 5, 2010, EnerNOC, Inc. ("EnerNOC" or the "Company"), filed an application ("Application") with the State Corporation Commission ("Commission") for approval of demand response programs to be offered to retail customers in the Appalachian Power Company ("APCo") service territory. The Company's Application is filed pursuant to Section 3 of Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly ("Section 3"), which states as follows:

> That the State Corporation Commission, for the service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement as an alternative to other capacity mechanisms, shall approve any demand response program proposed to be offered to retail customers by the generating electric utility or any other qualified nonutility provider if, following notice and the opportunity for a hearing, the State Corporation Commission finds (i) any nonutility provider to be qualified, (ii) the program to be effective, reliable, and verifiable as a capacity resource, and (iii) such program to be in the public interest. A State Corporation Commission order issued pursuant to this section shall not affect any contract between a retail customer and a curtailment service provider executed prior to July 1, 2009.

The Application seeks authority for EnerNOC to continue to market and provide demand response programs through individual customer contracts in the APCo service territory. Among other things, EnerNOC states: (i) that it is an active Curtailment Service Provider ("CSP") in the demand response programs of the regional transmission entity PJM Interconnection, LLC ("PJM"); (ii) that it "contracts with commercial and industrial end-users who are willing and able to curtail their electric consumption in accordance with PJM's program requirements"; and (iii) that it "installs metering and control equipment to enable the customer to curtail, aggregates its customers' load to meet its obligations to PJM, submits the verification of demand reductions for payment by PJM, and receives payments from PJM on behalf of its customers."[1]

On February 26, 2010, the Commission issued an Order Inviting Comments in this proceeding that allowed interested persons an opportunity to participate as respondents and to file comments and request a hearing on the Company's Application. On or before April 16, 2010, comments and notices of participation were received from: APCo; EnergyConnect, Inc. ("EnergyConnect"); Energy Curtailment Specialists, Inc. ("ECS"); CPower, Inc. ("CPower"); Comverge, Inc. ("Comverge"); and the Old Dominion Committee for Fair Utility Rates ("Committee").

In its comments, APCo raises concerns about the requested approval but concludes that it neither opposes nor supports EnerNOC's Application. APCo states that it is unable to capture from such third-party demand response programs certain benefits of load curtailment. APCo indicates that, under PJM's capacity market, participation by APCo's customers in demand response programs offered by third-party providers, such as EnerNOC, cannot be counted toward its capacity obligation, which is met through PJM's Fixed Resource Reliability alternative. Additionally, APCo expresses concern that EnerNOC's proposal could result in higher costs for APCo and its customers in the long run. APCo also questions the sufficiency of information provided in the Application.

EnergyConnect, ECS, CPower, and Comverge, which, like EnerNOC, operate as CSPs within the PJM region and elsewhere, support EnerNOC's Application because they believe it is likely to lead to more demand response within APCo's service territory. The CSPs state, among other things, that an increase in demand response within APCo's service territory would potentially reduce APCo's monthly peak and its member load ratio ("MLR") within the American Electric Power Company ("AEP") pool of operating companies. According to the CSPs, a reduction in APCo's MLR would reduce capacity

[1] Application at 1-2.

equalization payments by APCo to other AEP operating companies, thereby providing benefits to APCo customers that participate in demand response programs and those that do not. The CSPs also cite to the ability of demand response to lower energy and capacity prices within the PJM region. Finally, the CSPs request that an evidentiary hearing be convened if the Commission is inclined to reject the Application.

The Committee, in its comments, asks that the Commission dismiss the Application for lack of jurisdiction based on the Committee's assertion that:

> the Application does not involve a demand response program *proposed to be offered* to retail customers. Rather, the Application involves an *existing* demand response program that *already* is offered by PJM, not by CSPs. The CSPs merely serve as a conduit for participating in the demand response program that is offered by PJM: the CSPs do not establish any of the rules, terms, or conditions for participating in such programs.[2]

The Committee further asserts that regulation of CSPs under Section 3 is "not needed" because the Federal Energy Regulatory Commission ("FERC") and the Virginia General Assembly have already determined that the PJM demand response programs are in the public interest.[3] "If the Commission determines that it should exercise jurisdiction over the Application," the Committee supports its approval.[4] Finally, the Committee requests an evidentiary hearing on the Application but only in the event that "the Commission does not dismiss the Application for lack of jurisdiction, and if the Commission determines that it cannot approve the Application based solely on written submissions in this docket."[5]

On April 30, 2010, EnerNOC filed responsive comments that largely address the concerns raised by APCo in its comments. EnerNOC asserts that APCo's concerns are unwarranted and identifies various benefits of demand response in further support of its requested approval.

In addition to comments, as discussed above, the Committee filed, on April 30, 2010, a Motion to Dismiss the Application. In its Motion to Dismiss, the Committee advances jurisdictional arguments similar to those raised separately in its comments. The Committee concludes that ". . . nothing in Section 3 . . ., and nothing in state policy or prior Commission precedent supports a finding that Virginia laws or regulations do not permit a retail customer to participate in PJM demand response programs."[6]

On May 20, 2010, the Commission's Staff ("Staff") filed a response to the Committee's Motion to Dismiss in which Staff recommends that the Committee's Motion to Dismiss be denied. Staff asserts that the Company's proposal is the type contemplated by the Virginia General Assembly's enactment of Section 3. In support of its position, Staff cites to the Section 3 requirement for a determination of whether a proposed program is a "capacity resource" and indicates that "CSPs aggregate the resources of their retail customers to register as capacity resources and bid those resources into PJM's markets. But the PJM programs themselves are not capacity resources."[7] Additionally, Staff indicates that the Committee's proposed distinction between "existing" and "new demand response programs offered after some unspecified date" is inconsistent with the grandfather clause of Section 3, which references only "contracts" executed prior to July 1, 2009.[8] Finally, Staff cites to FERC Order Nos. 719 and 719-A and states that the issue of retail customers' participation in demand response programs has been left for the States to decide.

On June 4, 2010, the Committee filed a reply to Staff's response to the Committee's Motion to Dismiss. The Committee's reply focuses largely on the issue of whether the programs offered by the Company are, in their own right, demand response programs or whether CSPs, such as EnerNOC, serve as a mere conduit for customer participation in PJM programs. The Committee argues that not treating CSPs as conduits of the PJM program: (i) is inconsistent with FERC Order No. 719-A; (ii) is inconsistent with the plain language of Section 3; (iii) is inconsistent with Staff's evaluation of CSPs in a representative Staff Report; and (iv) would result in disparate treatment of CSP customers. However, the Committee "concedes . . . that its reading of Section 3 would result in Section 3 applying to non-utility [sic] demand response programs that are not PJM demand response programs, and the universe of such programs is presently hard to discern."[9] The Committee's reply also asserts that "regulation of the CSPs in APCo's territory is unwise."[10]

On May 13, 2010, the Staff filed its report on the Application ("Staff Report") in which it concludes that: (i) "EnerNOC is technically qualified as a nonutility provider of demand response provider [sic] and has the necessary resources for providing such services"; (ii) "EnerNOC has the financial resources necessary to provide the proposed services"; and (iii) "EnerNOC offers programs that are effective, reliable, measurable and verifiable as a demand response resource."[11] Staff further concludes that the public interest implications of EnerNOC's programs may vary depending on the perspective from which they are viewed. According to Staff:

---

[10] *Id*. at 8.

[11] Staff Report at 13.

> The provision of demand response services in APCo's service territory by nonutility providers may have a positive impact on the PJM region as a whole while possibly having an adverse impact on AEP and its nonparticipating customers. It does not necessarily follow, however, that APCo will be harmed as a stand-alone entity.[12]

Staff recommends that Commission approval of the Application be conditioned on the Company providing an annual report demonstrating its continued qualifications and includes in the Staff Report specific recommendations for such a reporting requirement.

On June 1, 2010, EnerNOC filed comments in response to the Staff Report. EnerNOC stresses the economic development benefits of demand response payments to retail customers. The Company agrees with Staff that increased demand response from nonutility CSPs may not harm APCo as a stand-alone entity and indicates that participation in demand response programs offered by CSPs results in benefits to nonparticipating customers. EnerNOC further asserts that "[i]ncreased demand response is explicit public policy in Virginia."[13] Finally, the Company concludes that it does not object to the reporting requirements proposed by Staff but requests that the Commission consider those reports as "extraordinarily sensitive information under Rule 5 VAC 5-20-170 in order to maintain the confidentiality of the information."[14]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that, by enacting Section 3, the Virginia General Assembly has specifically directed the Commission to evaluate any application for the provision of demand response programs within a specific geographic area of the Commonwealth.[15] We have evaluated EnerNOC's Application and find that it should be approved, subject to the conditions set forth herein.

Motion to Dismiss

As a preliminary matter, we deny the Committee's Motion to Dismiss. We agree with Staff that the demand response "program[s]" to be evaluated under Section 3 are "the actual products and services offered … to retail customers" and that the programs proposed to be offered by the Company are not the same as the PJM platforms for demand response.[16] Section 3 contemplates Commission consideration of demand-side resources capable of functioning as capacity. Staff cites to, and no party has rebutted, provisions of the PJM Open Access Transmission Tariff and Reliability Assurance Agreement as evidence that the PJM platforms are not "capacity resource[s]."[17] Put simply, although the PJM demand response platforms may also be referred to as programs, they are not the "program[s]" that Section 3 directs us to evaluate. Moreover, the Committee's legal interpretation would appear to render meaningless Section 3, either in part or in its entirety. Indeed, as the Committee concedes, "the universe of such programs" provided by nonutility providers to which Section 3 would apply under the Committee's interpretation "is presently hard to discern."[18]

Application

Based on the record, we find that the Company currently possesses both the technical and financial qualifications necessary to support the demand response programs it proposes to continue offering within APCo's service territory.[19] We further find that the programs, as they are currently provided by the Company, have been effective, reliable and verifiable as capacity resources.[20] That, in order to participate in PJM's markets, the Company and its programs have thus far been able to satisfy certain financial and technical requirements of PJM is relevant to, but is not dispositive of, our determination herein.

Additionally, we find approval of the Company's programs to be in the public interest, subject to the reporting requirements recommended by Staff and unopposed by the Company.[21] In reaching this conclusion we have considered, among other things, the demand response benefits provided or potentially provided both regionally and locally, as cited by Staff and the parties to this proceeding.[22]

Given the legislative emphasis on the effectiveness, reliability, and verifiability of demand response programs subject to Section 3, we find that the public should be provided reasonable assurance – beyond the snapshot in time presented in this proceeding – that the Company's programs continue to contribute positively to system reliability. The need for regular reporting to demonstrate the continuing qualifications of the Company and its programs is

Committee's Comments at 5.

reinforced by the evolving, if not increasing, role of demand response providers and their services.[23] Accordingly, it is only subject to such reporting that we find the provision of the demand response programs offered by the Company to be in the public interest.[24]

EnerNOC shall be required to provide the following information annually:

1) A list of states in which EnerNOC, or an affiliate of EnerNOC, conducts business related to curtailment services;

2) Disclosure of any affiliate relationship with a local electric distribution company or other CSP that conducts business in Virginia;

3) A copy of EnerNOC's audited balance sheet and income statement for the most recent fiscal year. If not available, other financial information that demonstrates EnerNOC's financial ability to continue to provide demand response services in Virginia;

4) Demonstration that EnerNOC has adequate commercial liability insurance commensurate with the business being conducted in Virginia;

5) Disclosure of any (i) civil, criminal, or regulatory sanctions or penalties imposed or in place within the previous five years against EnerNOC, any of its affiliates, or any officer, director, partner, or member pursuant to any state or federal consumer protection law or regulation; and (ii) felony convictions within the previous five years, which relate to the business of the Company or to an affiliate thereof, of any officer, director, partner, or member;

6) Disclosure of whether EnerNOC has ever been denied authority to provide demand response services and whether any authority issued to it or an affiliate has ever been suspended or revoked and whether other sanctions have been imposed; and

7) Disclosure of any incurrence of penalties from PJM, curtailment test failures or failures to meet committed curtailments during curtailment events.

We direct Staff to monitor these reporting requirements and to advise us of any information that materially affects the qualifications of EnerNOC or its programs under the standards of Section 3.

Requests for Hearing

EnergyConnect, ECS, CPower, and Comverge request that an evidentiary hearing be convened if the Commission is inclined to deny EnerNOC's Application. The Committee requests an evidentiary hearing in the event the Commission does not dismiss EnerNOC's Application on jurisdictional grounds and, further, finds the written submissions in this docket inadequate to approve the Application. As previously noted, we deny the Committee's Motion to Dismiss. We also find the written record in this docket adequate for us to evaluate EnerNOC's Application. Accordingly, we deny all requests for a hearing in this case.

Accordingly, IT IS ORDERED THAT:

(1) EnerNOC's Application to continue offering the demand response programs it currently provides within APCo's service territory is hereby approved, subject to EnerNOC's full compliance with all of Staff's reporting recommendations, as listed above, which are hereby accepted and approved.

(2) EnerNOC shall submit its first annual report no later than June 30, 2011, to the Commission's Divisions of Energy Regulation and Economics and Finance, and subsequent reports shall be submitted no later than June 30 for each year in which EnerNOC continues to provide demand response programs to retail customers in APCo's service territory.

(3) The Committee's Motion to Dismiss is denied.

(4) All requests for an evidentiary hearing are denied.

(5) There being nothing further to come before the Commission, this case is hereby dismissed.

[23] Application at 5.

[24] Based on the competitive concerns raised by the Company, we direct Staff to maintain these reports as confidential information and to withhold their contents from public disclosure. Such reports shall be handled consistent with all the provisions of 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure, including the provisions for individually marking pages or documents that contain confidential information, for maintaining confidential information, and for challenging confidential designations.

CASE NO. PUE-2010-00009
SEPTEMBER 3, 2010,

APPLICATION OF
COMVERGE, INC.

Pursuant to Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly for approval of demand response programs to be offered to retail customers

ORDER GRANTING APPROVAL

On February 5, 2010, Comverge, Inc. ("Comverge" or the "Company"), filed an application ("Application") with the State Corporation Commission ("Commission") for approval of demand response programs to be offered to retail customers in the Appalachian Power Company ("APCo") service territory. The Company's Application is filed pursuant to Section 3 of Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly ("Section 3"), which states as follows:

> That the State Corporation Commission, for the service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement as an alternative to other capacity mechanisms, shall approve any demand response program proposed to be offered to retail customers by the generating electric utility or any other qualified nonutility provider if, following notice and the opportunity for a hearing, the State Corporation Commission finds (i) any nonutility provider to be qualified, (ii) the program to be effective, reliable, and verifiable as a capacity resource, and (iii) such program to be in the public interest. A State Corporation Commission order issued pursuant to this section shall not affect any contract between a retail customer and a curtailment service provider executed prior to July 1, 2009.

The Application seeks authority for Comverge to continue to market and provide demand response programs through individual customer contracts in the APCo service territory. Among other things, Comverge states: (i) that it is an active Curtailment Service Provider ("CSP") in the demand response programs of the regional transmission entity PJM Interconnection, LLC ("PJM"); (ii) that it "contracts with commercial and industrial end-users who are willing and able to curtail their electric consumption in accordance with PJM's program requirements"; and (iii) that it "installs metering and control equipment to enable the customer to curtail, aggregates its customers' load to meet its obligations to PJM, submits the verification of demand reductions for payment by PJM, and receives payments from PJM on behalf of its customers."[1]

On February 26, 2010, the Commission issued an Order Inviting Comments in this proceeding that allowed interested persons an opportunity to participate as respondents and to file comments and request a hearing on the Company's Application. On or before April 30, 2010, comments and notices of participation were received from: APCo; EnergyConnect, Inc. ("EnergyConnect"); EnerNOC, Inc. ("EnerNOC"); CPower, Inc. ("CPower"); Energy Curtailment Specialists, Inc. ("ECS"); and the Old Dominion Committee for Fair Utility Rates ("Committee"). Wal-Mart Stores East, LP and Sam's East, Inc. (collectively, "Wal-Mart") filed a notice of participation.

In its comments, APCo raises concerns about the requested approval but concludes that it neither opposes nor supports Comverge's Application. APCo states that it is unable to capture from such third-party demand response programs certain benefits of load curtailment. APCo indicates that, under PJM's capacity market, participation by APCo's customers in demand response programs offered by third-party providers, such as Comverge, cannot be counted toward its capacity obligation, which is met through PJM's Fixed Resource Reliability alternative. Additionally, APCo expresses concern that Comverge's proposal could result in higher costs for APCo and its customers in the long run. APCo also questions the sufficiency of information provided in the Application.

EnergyConnect, EnerNOC, CPower, and ECS, which, like Comverge, operate as CSPs within the PJM region and elsewhere, support Comverge's Application because they believe it is likely to lead to more demand response within APCo's service territory. The CSPs state, among other things, that an increase in demand response within APCo's service territory would potentially reduce APCo's monthly peak and its member load ratio ("MLR") within the American Electric Power Company ("AEP") pool of operating companies. According to the CSPs, a reduction in APCo's MLR would reduce capacity equalization payments by APCo to other AEP operating companies, thereby providing benefits to APCo customers that participate in demand response programs and those that do not. The CSPs also cite to the ability of demand response to lower energy and capacity prices within the PJM region. Finally, the CSPs request that an evidentiary hearing be convened if the Commission is inclined to reject the Application.

The Committee, in its comments, asks that the Commission dismiss the Application for lack of jurisdiction based on the Committee's assertion that:

> the Application does not involve a demand response program *proposed to be offered* to retail customers. Rather, the Application involves an *existing* demand response program that *already* is offered by PJM, not by CSPs. The CSPs merely serve as a conduit for participating in the demand response program that is offered by PJM: the CSPs do not establish any of the rules, terms, or conditions for participating in such programs.[2]

The Committee further asserts that regulation of CSPs under Section 3 is "not needed" because the Federal Energy Regulatory Commission ("FERC") and the Virginia General Assembly have already determined that the PJM demand response programs are in the public interest.[3] "If the Commission determines

[1] Application at 1-2.

[2] Committee's Notice of Participation as Respondent, Comments, and Request for Hearing at 3 (internal quotations omitted) (emphasis in original).

[3] *Id*. at 3-4.

that it should exercise jurisdiction over the Application," the Committee supports its approval.[4] Finally, the Committee requests an evidentiary hearing on the Application but only in the event that "the Commission does not dismiss the Application for lack of jurisdiction, and if the Commission determines that it cannot approve the Application based solely on written submissions in this docket."[5]

On May 13, 2010, Comverge filed responsive comments that largely address the concerns raised by APCo in its comments. Comverge asserts that APCo's concerns are unwarranted and identifies various benefits of demand response in further support of its requested approval.

In addition to comments, as discussed above, the Committee filed, on April 30, 2010, a Motion to Dismiss the Application. In its Motion to Dismiss, the Committee advances jurisdictional arguments similar to those raised separately in its comments. The Committee concludes that ". . . nothing in Section 3 . . ., and nothing in state policy or prior Commission precedent supports a finding that Virginia laws or regulations do not permit a retail customer to participate in PJM demand response programs."[6]

On May 20, 2010, Wal-Mart filed a response to the Committee's Motion to Dismiss in which Wal-Mart supports dismissal of Comverge's Application for the reasons stated in the Committee's Motion to Dismiss. Additionally, Wal-Mart states that scrutiny of existing demand response programs "could have an unintended restrictive impact on the availability of demand response programs to customers like Wal-Mart in Virginia" and "FERC has recognized that aggregators such as the Applicant remove an important barrier to the market for demand response."[7] Wal-Mart requests that the Commission grant the Committee's Motion to Dismiss or, in the alternative, approve Comverge's Application.

On May 20, 2010, the Commission's Staff ("Staff") filed a response to the Committee's Motion to Dismiss in which Staff recommends that the Committee's Motion to Dismiss be denied. Staff asserts that the Company's proposal is the type contemplated by the Virginia General Assembly's enactment of Section 3. In support of its position, Staff cites to the Section 3 requirement for a determination of whether a proposed program is a "capacity resource" and indicates that "CSPs aggregate the resources of their retail customers to register as capacity resources and bid those resources into PJM's markets. But the PJM programs themselves are not capacity resources."[8] Additionally, Staff indicates that the Committee's proposed distinction between "existing" and "new demand response programs offered after some unspecified date" is inconsistent with the grandfather clause of Section 3, which references only "contracts" executed prior to July 1, 2009.[9] Finally, Staff cites to FERC Order Nos. 719 and 719-A and states that the issue of retail customers' participation in demand response programs has been left for the States to decide.

On June 4, 2010, the Committee filed a reply to the responses to its Motion to Dismiss. The Committee's reply focuses largely on the issue of whether the programs offered by the Company are, in their own right, demand response programs or whether CSPs, such as Comverge, serve as a mere conduit for customer participation in PJM programs. The Committee argues that not treating CSPs as conduits of the PJM program: (i) is inconsistent with FERC Order No. 719-A; (ii) is inconsistent with the plain language of Section 3; (iii) is inconsistent with Staff's evaluation of CSPs in a representative Staff Report; and (iv) would result in disparate treatment of CSP customers. However, the Committee "concedes . . . that its reading of Section 3 would result in Section 3 applying to non-utility [sic] demand response programs that are not PJM demand response programs, and the universe of such programs is presently hard to discern."[10] The Committee's reply also asserts that "regulation of the CSPs in APCo's territory is unwise."[11]

On June 1, 2010, the Staff filed its report on the Application ("Staff Report") in which it concludes that: (i) "Comverge is technically qualified as a nonutility demand response provider and has the necessary resources for providing such services"; (ii) "Comverge has the financial resources necessary to provide the proposed services"; and (iii) "Comverge offers programs that are effective, reliable, measurable and verifiable as a demand response resource."[12] Staff further concludes that the public interest implications of Comverge's programs may vary depending on the perspective from which they are viewed. According to Staff:

> The provision of demand response services in APCo's service territory by nonutility providers may have a positive impact on the PJM region as a whole while possibly having an adverse impact on AEP and its nonparticipating customers. It does not necessarily follow, however, that APCo will be harmed as a stand-alone entity.[13]

Staff recommends that Commission approval of the Application be conditioned on the Company providing an annual report demonstrating its continued qualifications and includes in the Staff Report specific recommendations for such a reporting requirement.

[10] Committee's Reply to Responses to Motion to Dismiss at 10.

[11] *Id*. at 8.

[12] Staff Report at 13.

[13] *Id*.

On June 10, 2010, Comverge filed comments in response to the Staff Report. Comverge stresses the economic development benefits of demand response payments to retail customers. The Company agrees with Staff that increased demand response from nonutility CSPs may not harm APCo as a stand-alone entity and indicates that participation in demand response programs offered by CSPs results in benefits to nonparticipating customers. Comverge further asserts that "[i]ncreased demand response is explicit public policy in Virginia."[14] Finally the Company concludes that it does not object to the reporting requirements proposed by Staff but requests that the Commission consider those reports as "extraordinarily sensitive information under Rule 5 VAC 5-20-170 in order to maintain the confidentiality of the information."[15]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that, by enacting Section 3, the Virginia General Assembly has specifically directed the Commission to evaluate any application for the provision of demand response programs within a specific geographic area of the Commonwealth.[16] We have evaluated Comverge's Application and find that it should be approved, subject to the conditions set forth herein.

Motion to Dismiss

As a preliminary matter, we deny the Committee's Motion to Dismiss. We agree with Staff that the demand response "program[s]" to be evaluated under Section 3 are "the actual products and services offered … to retail customers" and that the programs proposed to be offered by the Company are not the same as the PJM platforms for demand response.[17] Section 3 contemplates Commission consideration of demand-side resources capable of functioning as capacity. Staff cites to, and no party has rebutted, provisions of the PJM Open Access Transmission Tariff and Reliability Assurance Agreement as evidence that the PJM platforms are not "capacity resource[s]."[18] Put simply, although the PJM demand response platforms may also be referred to as programs, they are not the "program[s]" that Section 3 directs us to evaluate. Moreover, the Committee's legal interpretation would appear to render meaningless Section 3, either in part or in its entirety. Indeed, as the Committee concedes, "the universe of such programs" provided by nonutility providers to which Section 3 would apply under the Committee's interpretation "is presently hard to discern."[19]

Application

Based on the record, we find that the Company currently possesses both the technical and financial qualifications necessary to support the demand response programs it proposes to continue offering within APCo's service territory.[20] We further find that the programs, as they are currently provided by the Company, have been effective, reliable and verifiable as capacity resources.[21] That, in order to participate in PJM's markets, the Company and its programs have thus far been able to satisfy certain financial and technical requirements of PJM is relevant to, but is not dispositive of, our determination herein.

Additionally, we find approval of the Company's programs to be in the public interest, subject to the reporting requirements recommended by Staff and unopposed by the Company.[22] In reaching this conclusion we have considered, among other things, the demand response benefits provided or potentially provided both regionally and locally, as cited by Staff and the parties to this proceeding.[23]

Given the legislative emphasis on the effectiveness, reliability, and verifiability of demand response programs subject to Section 3, we find that the public should be provided reasonable assurance – beyond the snapshot in time presented in this proceeding – that the Company's programs continue to contribute positively to system reliability. The need for regular reporting to demonstrate the continuing qualifications of the Company and its programs is reinforced by the evolving, if not increasing, role of demand response providers and their services.[24] Accordingly, it is only subject to such reporting that we find the provision of the demand response programs offered by the Company to be in the public interest.[25]

---

[14] Comverge's June 10, 2010 Comments at 6.

[15] *Id*. at 7-8.

[16] No party has challenged the fact that APCo's service territory is the "service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement . . .," as described by Section 3.

[23] *See*, *e.g.*, Staff Report at 10-12; Comverge's June 10, 2010 Comments at 2-3; EnergyConnect's Comments at 4-6. We are also mindful of the Committee's concern that "APCo's customers will be harmed if their demand response options … are restricted through the elimination of viable and active CSPs." Committee's Comments at 5.

[24] Application at 5.

[25] Based on the competitive concerns raised by the Company, we direct Staff to maintain these reports as confidential information and to withhold their contents from public disclosure. Such reports shall be handled consistent with all the provisions of 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure, including the provisions for individually marking pages or documents that contain confidential information, for maintaining confidential information, and for challenging confidential designations.

Comverge shall be required to provide the following information annually:

1) A list of states in which Comverge, or an affiliate of Comverge, conducts business related to curtailment services;

2) Disclosure of any affiliate relationship with a local electric distribution company or other CSP that conducts business in Virginia;

3) A copy of Comverge's audited balance sheet and income statement for the most recent fiscal year. If not available, other financial information that demonstrates Comverge's financial ability to continue to provide demand response services in Virginia;

4) Demonstration that Comverge has adequate commercial liability insurance commensurate with the business being conducted in Virginia;

5) Disclosure of any (i) civil, criminal, or regulatory sanctions or penalties imposed or in place within the previous five years against Comverge, any of its affiliates, or any officer, director, partner, or member pursuant to any state or federal consumer protection law or regulation; and (ii) any felony convictions within the previous five years, which relate to the business of the Company or to an affiliate thereof, of any officer, director, partner, or member;

6) Disclosure of whether Comverge has ever been denied authority to provide demand response services and whether any authority issued to it or an affiliate has ever been suspended or revoked and whether other sanctions have been imposed; and

7) Disclosure of any incurrence of penalties from PJM, curtailment test failures or failures to meet committed curtailments during curtailment events.

We direct Staff to monitor these reporting requirements and to advise us of any information that materially affects the qualifications of Comverge or its programs under the standards of Section 3.

Requests for Hearing

EnergyConnect, ECS, CPower, and EnerNOC request that an evidentiary hearing be convened if the Commission is inclined to deny Comverge's Application. The Committee requests an evidentiary hearing in the event the Commission does not dismiss Comverge's Application on jurisdictional grounds and, further, finds the written submissions in this docket inadequate to approve the Application. As previously noted, we deny the Committee's Motion to Dismiss. We also find the written record in this docket adequate for us to evaluate Comverge's Application. Accordingly, we deny all requests for a hearing in this case.

Accordingly, IT IS ORDERED THAT:

(1) Comverge's Application to continue offering the demand response programs it currently provides within APCo's service territory is hereby approved, subject to Comverge's full compliance with all of Staff's reporting recommendations, as listed above, which are hereby accepted and approved.

(2) Comverge shall submit its first annual report no later than June 30, 2011, to the Commission's Divisions of Energy Regulation and Economics and Finance, and subsequent reports shall be submitted no later than June 30 for each year in which Comverge continues to provide demand response programs to retail customers in APCo's service territory.

(3) The Committee's Motion to Dismiss is denied.

(4) All requests for an evidentiary hearing are denied.

(5) There being nothing further to come before the Commission, this case is hereby dismissed.

CASE NO. PUE-2010-00010
SEPTEMBER 3, 2010

APPLICATION OF
CPOWER, INC.

Pursuant to Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly for approval of demand response programs to be offered to retail customers

ORDER GRANTING APPROVAL

On February 5, 2010, CPower, Inc. ("CPower" or the "Company"), filed an application ("Application") with the State Corporation Commission ("Commission") for approval of demand response programs to be offered to retail customers in the Appalachian Power Company ("APCo") service territory. The Company's Application is filed pursuant to Section 3 of Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly ("Section 3"), which states as follows:

> That the State Corporation Commission, for the service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement as

> an alternative to other capacity mechanisms, shall approve any demand response program proposed to be offered to retail customers by the generating electric utility or any other qualified nonutility provider if, following notice and the opportunity for a hearing, the State Corporation Commission finds (i) any nonutility provider to be qualified, (ii) the program to be effective, reliable, and verifiable as a capacity resource, and (iii) such program to be in the public interest. A State Corporation Commission order issued pursuant to this section shall not affect any contract between a retail customer and a curtailment service provider executed prior to July 1, 2009.

The Application seeks authority for CPower to continue to market and provide demand response programs through individual customer contracts in the APCo service territory. Among other things, CPower states: (i) that it is an active Curtailment Service Provider ("CSP") in the demand response programs of the regional transmission entity PJM Interconnection, LLC ("PJM"); (ii) that it "contracts with commercial and industrial end-users who are willing and able to curtail their electric consumption in accordance with PJM's program requirements"; and (iii) that it "installs metering and control equipment to enable the customer to curtail, aggregates its customers' load to meet its obligations to PJM, submits the verification of demand reductions for payment by PJM, and receives payments from PJM on behalf of its customers."[1]

On February 26, 2010, the Commission issued an Order Inviting Comments in this proceeding that allowed interested persons an opportunity to participate as respondents and to file comments and request a hearing on the Company's Application. On or before May 14, 2010, comments and notices of participation were received from: APCo; EnergyConnect, Inc. ("EnergyConnect"); EnerNOC, Inc. ("EnerNOC"); Comverge, Inc. ("Comverge"); Energy Curtailment Specialists, Inc. ("ECS"); and the Old Dominion Committee for Fair Utility Rates ("Committee"). Wal-Mart Stores East, LP and Sam's East, Inc. (collectively, "Wal-Mart") filed a notice of participation.

In its comments, APCo raises concerns about the requested approval but concludes that it neither opposes nor supports CPower's Application. APCo states that it is unable to capture from such third-party demand response programs certain benefits of load curtailment. APCo indicates that, under PJM's capacity market, participation by APCo's customers in demand response programs offered by third-party providers, such as CPower, cannot be counted toward its capacity obligation, which is met through PJM's Fixed Resource Reliability alternative. Additionally, APCo expresses concern that CPower's proposal could result in higher costs for APCo and its customers in the long run. APCo also questions the sufficiency of information provided in the Application.

EnergyConnect, EnerNOC, Comverge, and ECS, which, like CPower, operate as CSPs within the PJM region and elsewhere, support CPower's Application because they believe it is likely to lead to more demand response within APCo's service territory. The CSPs state, among other things, that an increase in demand response within APCo's service territory would potentially reduce APCo's monthly peak and its member load ratio ("MLR") within the American Electric Power Company ("AEP") pool of operating companies. According to the CSPs, a reduction in APCo's MLR would reduce capacity equalization payments by APCo to other AEP operating companies, thereby providing benefits to APCo customers that participate in demand response programs and those that do not. The CSPs also cite to the ability of demand response to lower energy and capacity prices within the PJM region. Finally, the CSPs request that an evidentiary hearing be convened if the Commission is inclined to reject the Application.

The Committee, in its comments, asks that the Commission dismiss the Application for lack of jurisdiction based on the Committee's assertion that:

> the Application does not involve a demand response program *proposed to be offered* to retail customers. Rather, the Application involves an *existing* demand response program that *already* is offered by PJM, not by CSPs. The CSPs merely serve as a conduit for participating in the demand response program that is offered by PJM: the CSPs do not establish any of the rules, terms, or conditions for participating in such programs.[2]

The Committee further asserts that regulation of CSPs under Section 3 is "not needed" because the Federal Energy Regulatory Commission ("FERC") and the Virginia General Assembly have already determined that the PJM demand response programs are in the public interest.[3] "If the Commission determines that it should exercise jurisdiction over the Application," the Committee supports its approval.[4] Finally, the Committee requests an evidentiary hearing on the Application but only in the event that "the Commission does not dismiss the Application for lack of jurisdiction, and if the Commission determines that it cannot approve the Application based solely on written submissions in this docket."[5]

On May 27, 2010, CPower filed responsive comments that largely address the concerns raised by APCo in its comments. CPower asserts that APCo's concerns are unwarranted and identifies various benefits of demand response in further support of its requested approval.

In addition to comments, as discussed above, the Committee filed, on April 30, 2010, a Motion to Dismiss the Application. In its Motion to Dismiss, the Committee advances jurisdictional arguments similar to those raised separately in its comments. The Committee concludes that ". . . nothing in Section 3 . . ., and nothing in state policy or prior Commission precedent supports a finding that Virginia laws or regulations do not permit a retail customer to participate in PJM demand response programs."[6]

---

[1] Application at 1-2.

[2] Committee's Notice of Participation as Respondent, Comments, and Request for Hearing at 3 (internal quotations omitted) (emphasis in original).

[3] *Id*. at 3-4.

[4] *Id*. at 4-5.

[5] *Id*. at 5.

[6] Committee's Motion to Dismiss at 3.

On May 20, 2010, Wal-Mart filed a response to the Committee's Motion to Dismiss in which Wal-Mart supports dismissal of CPower's Application for the reasons stated in the Committee's Motion to Dismiss. Additionally, Wal-Mart states that scrutiny of existing demand response programs "could have an unintended restrictive impact on the availability of demand response programs to customers like Wal-Mart in Virginia" and "FERC has recognized that aggregators such as the Applicant remove an important barrier to the market for demand response."[7] Wal-Mart requests that the Commission grant the Committee's Motion to Dismiss or, in the alternative, approve CPower's Application.

On May 20, 2010, the Commission's Staff ("Staff") filed a response to the Committee's Motion to Dismiss in which Staff recommends that the Committee's Motion to Dismiss be denied. Staff asserts that the Company's proposal is the type contemplated by the Virginia General Assembly's enactment of Section 3. In support of its position, Staff cites to the Section 3 requirement for a determination of whether a proposed program is a "capacity resource" and indicates that "CSPs aggregate the resources of their retail customers to register as capacity resources and bid those resources into PJM's markets. But the PJM programs themselves are not capacity resources."[8] Additionally, Staff indicates that the Committee's proposed distinction between "existing" and "new demand response programs offered after some unspecified date" is inconsistent with the grandfather clause of Section 3, which references only "contracts" executed prior to July 1, 2009.[9] Finally, Staff cites to FERC Order Nos. 719 and 719-A and states that the issue of retail customers' participation in demand response programs has been left for the States to decide.

On June 4, 2010, the Committee filed a reply to the responses to its Motion to Dismiss. The Committee's reply focuses largely on the issue of whether the programs offered by the Company are, in their own right, demand response programs or whether CSPs, such as CPower, serve as a mere conduit for customer participation in PJM programs. The Committee argues that not treating CSPs as conduits of the PJM program: (i) is inconsistent with FERC Order No. 719-A; (ii) is inconsistent with the plain language of Section 3; (iii) is inconsistent with Staff's evaluation of CSPs in a representative Staff Report; and (iv) would result in disparate treatment of CSP customers. However, the Committee "concedes … that its reading of Section 3 would result in Section 3 applying to non-utility [sic] demand response programs that are not PJM demand response programs, and the universe of such programs is presently hard to discern."[10] The Committee's reply also asserts that "regulation of the CSPs in APCo's territory is unwise."[11]

On June 11, 2010, the Staff filed its report on the Application ("Staff Report") in which it concludes that: (i) "CPower is technically qualified as a nonutility demand response provider and has the necessary resources for providing such services"; (ii) "CPower has the financial resources necessary to provide the proposed services"; and (iii) "CPower offers programs that are effective, reliable, measurable and verifiable as a demand response resource."[12] Staff further concludes that the public interest implications of CPower's programs may vary depending on the perspective from which they are viewed. According to Staff:

> The provision of demand response services in APCo's service territory by nonutility providers may have a positive impact on the PJM region as a whole while possibly having an adverse impact on AEP and its nonparticipating customers. It does not necessarily follow, however, that APCo will be harmed as a stand-alone entity.[13]

Staff recommends that Commission approval of the Application be conditioned on the Company providing an annual report demonstrating its continued qualifications and includes in the Staff Report specific recommendations for such a reporting requirement.

On June 18, 2010, CPower filed comments in response to the Staff Report. CPower stresses the economic development benefits of demand response payments to retail customers. The Company agrees with Staff that increased demand response from nonutility CSPs may not harm APCo as a stand-alone entity and indicates that participation in demand response programs offered by CSPs results in benefits to nonparticipating customers. CPower further asserts that "[i]ncreased demand response is explicit public policy in Virginia."[14] Finally, the Company concludes that it does not object to the reporting requirements proposed by Staff but requests that the Commission consider those reports as "extraordinarily sensitive information under Rule 5 VAC 5-20-170 in order to maintain the confidentiality of the information."[15]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that, by enacting Section 3, the Virginia General Assembly has specifically directed the Commission to evaluate any application for the provision of demand response programs within a specific geographic area of the Commonwealth.[16] We have evaluated CPower's Application and find that it should be approved, subject to the conditions set forth herein.

[16] No party has challenged the fact that APCo's service territory is the "service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement . . .," as described by Section 3.

Motion to Dismiss

As a preliminary matter, we deny the Committee's Motion to Dismiss. We agree with Staff that the demand response "program[s]" to be evaluated under Section 3 are "the actual products and services offered . . . to retail customers" and that the programs proposed to be offered by the Company are not the same as the PJM platforms for demand response.[17] Section 3 contemplates Commission consideration of demand-side resources capable of functioning as capacity. Staff cites to, and no party has rebutted, provisions of the PJM Open Access Transmission Tariff and Reliability Assurance Agreement as evidence that the PJM platforms are not "capacity resource[s]."[18] Put simply, although the PJM demand response platforms may also be referred to as programs, they are not the "program[s]" that Section 3 directs us to evaluate. Moreover, the Committee's legal interpretation would appear to render meaningless Section 3, either in part or in its entirety. Indeed, as the Committee concedes, "the universe of such programs" provided by nonutility providers to which Section 3 would apply under the Committee's interpretation "is presently hard to discern."[19]

Application

Based on the record, we find that the Company currently possesses both the technical and financial qualifications necessary to support the demand response programs it proposes to continue offering within APCo's service territory.[20] We further find that the programs, as they are currently provided by the Company, have been effective, reliable and verifiable as capacity resources.[21] That, in order to participate in PJM's markets, the Company and its programs have thus far been able to satisfy certain financial and technical requirements of PJM is relevant to, but is not dispositive of, our determination herein.

Additionally, we find approval of the Company's programs to be in the public interest, subject to the reporting requirements recommended by Staff and unopposed by the Company.[22] In reaching this conclusion, we have considered, among other things, the demand response benefits provided or potentially provided both regionally and locally, as cited by Staff and the parties to this proceeding.[23]

Given the legislative emphasis on the effectiveness, reliability, and verifiability of demand response programs subject to Section 3, we find that the public should be provided reasonable assurance – beyond the snapshot in time presented in this proceeding – that the Company's programs continue to contribute positively to system reliability. The need for regular reporting to demonstrate the continuing qualifications of the Company and its programs is reinforced by the evolving, if not increasing, role of demand response providers and their services.[24] Accordingly, it is only subject to such reporting that we find the provision of the demand response programs offered by the Company to be in the public interest.[25]

CPower shall be required to provide the following information annually:

1) A list of states in which CPower, or an affiliate of CPower, conducts business related to curtailment services;

2) Disclosure of any affiliate relationship with a local electric distribution company or other CSP that conducts business in Virginia;

3) A copy of CPower's audited balance sheet and income statement for the most recent fiscal year. If not available, other financial information that demonstrates CPower's financial ability to continue to provide demand response services in Virginia;

4) Demonstration that CPower has adequate commercial liability insurance commensurate with the business being conducted in Virginia;

5) Disclosure of any (i) civil, criminal, or regulatory sanctions or penalties imposed or in place within the previous five years against CPower, any of its affiliates, or any officer, director, partner, or member pursuant to any state or federal consumer protection law or regulation; and (ii) any felony convictions within the previous five years, which relate to the business of the Company or to an affiliate thereof, of any officer, director, partner, or member;

[17] Staff's Response to Motion to Dismiss at 3-5.

[18] *Id*. at 4, n.6.

[19] Committee's Reply to Responses to Motion to Dismiss at 10.

[20] *See*, *e.g*., Staff Report at 2-8.

[21] *See*, *e.g.*, *id*. at 7-12.

[22] *Id*. at 12-15; CPower's June 18, 2010 Comments at 7-8.

[23] *See*, *e.g.*, Staff Report at 13; CPower's June 18, 2010 Comments at 2-3; EnergyConnect's Comments at 4-6. We are also mindful of the Committee's concern that "APCo's customers will be harmed if their demand response options … are restricted through the elimination of viable and active CSPs." Committee's Comments at 5.

[24] Application at 5.

[25] Based on the competitive concerns raised by the Company, we direct Staff to maintain these reports as confidential information and to withhold their contents from public disclosure. Such reports shall be handled consistent with all the provisions of 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure, including the provisions for individually marking pages or documents that contain confidential information, for maintaining confidential information, and for challenging confidential designations.

6) Disclosure of whether CPower has ever been denied authority to provide demand response services and whether any authority issued to it or an affiliate has ever been suspended or revoked and whether other sanctions have been imposed; and

7) Disclosure of any incurrence of penalties from PJM, curtailment test failures or failures to meet committed curtailments during curtailment events.

We direct Staff to monitor these reporting requirements and to advise us of any information that materially affects the qualifications of CPower or its programs under the standards of Section 3.

Requests for Hearing

EnergyConnect, ECS, Comverge, and EnerNOC request that an evidentiary hearing be convened if the Commission is inclined to deny CPower's Application. The Committee requests an evidentiary hearing in the event the Commission does not dismiss CPower's Application on jurisdictional grounds and, further, finds the written submissions in this docket inadequate to approve the Application. As previously noted, we deny the Committee's Motion to Dismiss. We also find the written record in this docket adequate for us to evaluate CPower's Application. Accordingly, we deny all requests for a hearing in this case.

Accordingly, IT IS ORDERED THAT:

(1) CPower's Application to continue offering the demand response programs it currently provides within APCo's service territory is hereby approved, subject to CPower's full compliance with all of Staff's reporting recommendations, as listed above, which are hereby accepted and approved.

(2) CPower shall submit its first annual report no later than June 30, 2011, to the Commission's Divisions of Energy Regulation and Economics and Finance, and subsequent reports shall be submitted no later than June 30 for each year in which CPower continues to provide demand response programs to retail customers in APCo's service territory.

(3) The Committee's Motion to Dismiss is denied.

(4) All requests for an evidentiary hearing are denied.

(5) There being nothing further to come before the Commission, this case is hereby dismissed.

CASE NO. PUE-2010-00011
MARCH 5, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For authority to issue debt and preferred securities

ORDER GRANTING AUTHORITY

On February 9, 2010, Virginia Electric and Power Company ("Virginia Power" or "Applicant") filed an application with the State Corporation Commission ("Commission") under Chapters 3 and 4 of Title 56 of the Code of Virginia requesting authority to issue debt and preferred securities. Applicant has paid the requisite fee of $250.

Virginia Power proposes to issue up to $3 billion in aggregate principal amount of its Senior Notes, Junior Subordinated Notes, Sub-Junior Subordinated Notes and preferred securities (collectively "the Securities"). Virginia Power also proposes to issue debt to its parent, Dominion Resources, Inc. ("DRI") which, according to Virginia Power, would in all material aspects mimic the provisions of similar debt issued to the capital markets by DRI. Virginia Power states that the Securities will be issued over a two-year period.

In conjunction with the issuance of the Securities, Virginia Power also proposes to establish a Trust Financing Facility ("Trust"). According to Virginia Power, the Trust will exist only for the purpose of issuing its own preferred and common securities, investing the proceeds from the sales in Virginia Power's Junior Subordinated Notes and/or Sub-Junior Subordinated Notes and conducting other incidental activities. Since the Trust will be an affiliate of Virginia Power, the Applicant has sought approval under Chapter 4 of Title 56 of the Code of Virginia.

The Securities may be issued in various series with various maturities and will bear interest or pay dividends at rates determined by their maturities, features, and conditions in the financial markets at the time of sale. Virginia Power proposes to market the Securities on a competitive basis at market rates to or through underwriters and dealers to the public or through private placement with financial institutions, depending on the most economically desirable circumstances at the time of issuance. The Securities may also be sold directly to purchasers or through agents at market rates.

The proceeds from the Securities will be used to meet a portion of the Applicant's capital requirements such as construction, upgrading and maintenance expenditures, capacity expansion, and the refunding of outstanding debt and preferred securities.

Virginia Power also proposes to enter into anticipatory hedging transactions related to the issuance of the Securities. Virginia Power states that the purpose of entering into anticipatory hedging transactions is to provide a mechanism to mitigate the risk that economic circumstances underlying decisions to refund an outstanding security or to issue a new security will change adversely by the time the transaction can be executed. Applicant proposes to limit such authority in a manner similar to that authorized by the Commission in Case No. PUF-1997-00017.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest. Accordingly,

IT IS ORDERED THAT:

(1) Applicant is hereby authorized to: (a) issue up to $3 billion in aggregate of its Securities, and (b) establish a Trust for the issuance of securities, under the terms and conditions and for the purposes set forth in the application through February 28, 2012, provided that any refinancing results in demonstrated cost savings to Virginia Power.

(2) Applicant shall submit a preliminary report of action within ten days after the issuance of any Securities pursuant to this Order to include the type of security, the date of issuance, the amount of issuance, the applicable interest rate or dividend rate, the maturity date, and net proceeds to Applicant.

(3) Within 60 days of the end of the calendar quarter in which Securities are issued, Applicant shall file a more detailed report to include the information required in Ordering Paragraph (2), as well as an itemized list of actual expenses to date associated with the Securities issuances, a comparison of the effective rate of Securities issued and any refunded securities, use of proceeds, and a balance sheet reflecting the actions taken.

(4) On or before April 30, 2012, Applicant shall file a final report of action to include all information required in Ordering Paragraph (3) which incorporates then-current actual expenses and fees paid for the proposed Securities issuances.

(5) The authority granted herein shall have no implications for ratemaking purposes.

(6) The authority granted herein shall not preclude the Commission from applying the provisions of § 56-78 and § 56-80 of the Code of Virginia hereafter.

(7) The Commission reserves the right, pursuant to § 56-79 of the Code of Virginia, to examine the books and records of any affiliate in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(8) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00012
OCTOBER 21, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY D/B/A DOMINION VIRGINIA POWER

For approval and certification of electric facilities: Landstown – Virginia Beach 230 kV transmission line rebuild

FINAL ORDER

On March 1, 2010, Virginia Electric and Power Company d/b/a Dominion Virginia Power ("Dominion Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") an application for Approval and Certification of Electric Facilities: Landstown - Virginia Beach 230 kV Transmission Line Rebuild, Application No. 246 ("Application"). Prepared testimony, exhibits, copies of correspondence, and other materials were filed in support of the Company's Application.

The Company's Application requests authority to rebuild an existing double-circuit transmission line operating at 115 kV in Virginia Beach between Landstown Substation and Virginia Beach Substation for operation of one circuit at 115 kV and one circuit at 230 kV.[1] Modifications would be made within the existing substations to accommodate the change in voltage. The rebuilding would extend for approximately 11 miles, and no new right-of-way would be required.

The existing lattice towers, which support the 115 kV lines, would be replaced with new double-circuit weathering steel H-frame transmission structures located entirely within existing right-of-way.

Existing conductors for one line would be replaced with 1-2500 ACAR 84/7 conductors, to be operated at 230 kV. The conductors for the other 115 kV line supported by the existing towers would also be replaced with 1-2500 ACAR 84/7 conductors but operated at 115 kV.[2]

According to Dominion Virginia Power, in December 2009, load flow models identified the need for the construction of the rebuilt Landstown – Virginia Beach 230 kV line to relieve identified violations of mandatory North American Electric Reliability Corporation ("NERC") Reliability Standards beginning in May 2012. If not relieved, the Company believes that the identified reliability violations will impact service reliability. Dominion Virginia Power further asserts that the Project is necessary to maintain the structural integrity of the Company's transmission system in Virginia Beach.[3]

On March 24, 2010, the Commission entered an Order for Notice that docketed the Application as Case No. PUE-2010-00012; directed Dominion Virginia Power to provide public notice of its Application; invited interested persons to file written comments and/or requests for hearing on the

[1] The proposed transmission line rebuild will be referred to throughout this Order as the "Project."

[2] Application at 2.

[3] *Id.* at 3-5.

Application; ordered the Commission Staff ("Staff") to investigate the Application and to file a report ("Staff Report") containing its findings and recommendations; and allowed Dominion Virginia Power to respond to the Staff Report and any public comments or requests for hearing.

On May 18, 2010, the Department of Environmental Quality ("DEQ") filed its coordinated environmental review ("DEQ Report") of the Project. After conducting their coordinated environmental review of the proposed transmission line rebuild, the DEQ, other state and local agencies and commissions reviewing the Project, the Virginia Outdoors Foundation, and the City of Virginia Beach recommended that several mitigation measures be implemented by Dominion Virginia Power in order to lessen the impact on the environment and historic resources in the area. While the DEQ's Office of Wetlands and Water Protection does not oppose the Company's proposed transmission line and substation, it made several recommendations to mitigate the impact of the Project on wetlands and streams, as well as identified certain permits that may be required for the Project.[4]

On July 7, 2010, Staff filed its Staff Report summarizing the results of its investigation of the Company's Application. The Staff Report found that "the Company has reasonably demonstrated the need for the proposed Landstown-Virginia Beach double-circuit 230 kV transmission line between Landstown Substation and Virginia Beach Substation" and that "[s]ince the proposed route utilizes existing right-of-way, the . . . proposed routing is optimal."[5]

No comments or requests for hearing were filed by interested persons.

On July 21, 2010, the Company filed its comments on the Staff and DEQ Reports. In its comments, Dominion Virginia Power agreed with the findings and recommendations in the Staff Report. The Company's comments also reiterated its assertion in its Application that Commission approval is not required for the Project.[6] The Company's comments also addressed the Staff's cost comparison calculation for underground pilot projects for purposes of House Bill 1319, which was enacted by the Virginia General Assembly for the placement of qualifying electric transmission lines of 230 kV or less, in whole or in part, underground.[7] The Company agreed with the Staff Report's assessment that "the option of undergrounding two 230 kV circuits as a pilot program [under House Bill 1319] is not reasonable,"[8] but disagreed with the cost comparison calculation provided in the Staff Report. The Company's comments also addressed the Staff's suggestion that the use of galvanized steel and non-reflective conductors would reduce the visual impact of the proposed transmission line in residential areas.[9] While Dominion Virginia Power did not challenge the Staff's suggestion that galvanized steel structures and non-reflective conductors would reduce the visual impact of the project, the Company explained that it "chose Corten structures over galvanized steel because they are less expensive and their maintenance costs are lower and because the existing towers being replaced by the Rebuild Project are weathering steel."[10] Moreover, the Company stated that the aluminum conductor that it proposes for the line will "dull naturally under normal atmospheric conditions," thereby further reducing the visual impact of the proposed line.[11]

The Company's comments also opposed two of the recommendations contained in the DEQ Report. First, the Company opposed the Virginia Department of Game and Inland Fisheries' ("VDGIF") recommendation that the Company be required to "[m]aintain undisturbed wooded buffers of at least 100 feet in width around all on-site wetlands and on both sides of all perennial and intermittent streams."[12] Dominion Virginia Power opposed the recommendation "because it presents safety and service reliability concerns and would violate the Company's Transmission Vegetation Maintenance Program ("TVMP"), established in compliance with FAC-003-1, the mandatory federal standard for transmission line vegetation management."[13]

The Company also opposed the VDGIF's recommendation that the Company "[a]dhere to a time-of-year restriction from March 15 through August 15 of any year for tree removal and ground clearing in order to protect nesting resident and migratory songbirds."[14] The Company claimed the VDGIF's recommendation is unreasonable because "it would prevent right-of-way vegetation management activities for almost half the year during months when they are most appropriately conducted" and because "[t]he Company must . . . conduct its right-of-way vegetation management activities year round in order to . . . comply with the TVMP and FAC-003-1, which require maintenance at regular intervals and annual patrols that could require additional

[4] DEQ Report, letter from Michelle Henicheck, PWS, Wetland Ecologist, to Ellie Irons, Office of Environmental Impact Review, Department of Environmental Quality, dated March 9, 2010 (adopting recommendations provided in February 11, 2010, letter from Michelle Henicheck, PWS, Wetland Ecologist, to Diana T. Faison, Siting and Permitting Specialist, Dominion Virginia Power).

[5] Staff Report at 17.

[6] *See* Application at Addendum to Appendix Section I.A. In its Application, Dominion Virginia Power noted that the Commission granted a certificate of public convenience and necessity to construct and operate the 1968 line at 230 kV by its July 16, 1968 Order Instituting Supplemental Proceeding and Granting Amended Certificates in Case No. 11655. The Company further noted that by filing an application in this proceeding that it does not indicate that Commission approval is required to rebuild and operate the 1968 line at the previously approved 230 kV voltage.

[14] DEQ Report at 22.

corrective maintenance."[15] The Company stated, however, that it "can accommodate time-of-year restrictions for clearing activities in those areas where threatened species are found."[16]

The Company's comments further stated that "[a]s a result of recent discussions between the Company and [the V]DGIF regarding the Company's concerns detailed above, [the V]DGIF delivered a letter to the Company, dated July 15, 2010, indicating that [the V]DGIF supports 'the State Corporation Commission's removal of these two conditions from Dominion's permit for the referenced project.'"[17]

Finally, the Company stated that it "intends to coordinate with the Virginia Department of Transportation and the City of Virginia Beach regarding transportation improvement projects as recommended on page 7 of the DEQ Report."[18] However, regarding the additional recommendations made by the City of Virginia Beach regarding demolition and building permits, site clearing permits, potential wetlands impacts, and a public information meeting,[19] the Company notes that "§ 56-46.1 F of the Code of Virginia provides that Commission approval of a transmission line is 'deemed to satisfy the requirements of § 15.2-2232 and local zoning ordinances with respect to such transmission line.'"[20]

NOW THE COMMISSION, having considered the Company's Application, the Staff and DEQ Reports, the Company's comments, and the applicable law, is of the opinion and finds that Dominion Virginia Power's Application to construct and operate the proposed 230 kV transmission line in the City of Virginia Beach is justified by the public convenience and necessity and that a certificate of public convenience and necessity should be issued authorizing the construction and operation of the proposed Project.[21]

Approval

The statutory scheme governing the Company's Application is found in several chapters of Title 56 of the Code of Virginia ("Code"). Section 56-265.2 A of the Code provides that "[i]t shall be unlawful for any public utility to construct . . . facilities for use in public utility service . . . without first having obtained a certificate from the Commission that the public convenience and necessity require the exercise of such right or privilege."

Section 56-46.1 of the Code further directs the Commission to consider several factors when reviewing the Company's Application. Subsection A of the statute provides that:

> Whenever the Commission is required to approve the construction of any electrical utility facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse environmental impact . . . . In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted . . . . Additionally, the Commission (i) shall consider the effect of the proposed facility on economic development within the Commonwealth and (ii) shall consider any improvements in service reliability that may result from the construction of such facility.

Section 56-46.1 B of the Code further provides that: "[a]s a condition to approval the Commission shall determine that the line is needed and that the corridor or route the line is to follow will reasonably minimize adverse impact on the scenic assets, historic districts and environment of the area concerned."

Finally, the Code requires the Commission to consider existing right-of-way easements when siting transmission lines. Section 56-46.1 C of the Code provides that "[i]n any hearing the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company." In addition, § 56-259 C of the Code provides that "[p]rior to acquiring any easement of right-of-way, public service corporations will consider the feasibility of locating such facilities on, over, or under existing easements of rights-of-way."

Need

According to the Company's Application, the proposed transmission line is needed to continue to meet the Company's transmission planning standards governing the reliability of the bulk power system serving the Company's Virginia Beach load area and to relieve identified violations of mandatory NERC Reliability Standards beginning in May 2012. The Staff reviewed the Company's load flow studies and concluded that the load flow modeling and reliability needs presented by the Company to justify the Project are reasonable. Accordingly, the evidence in this case is undisputed that there is a need to construct and operate the proposed 230 kV transmission line.

[18] *Id*.

[19] *See* DEQ Report at 26-27.

[20] Dominion Virginia Power Comments at 13.

[21] Having made this finding, we do not reach the question of whether the previously granted 1968 certificate encompasses the Project.

Economic Development and Service Reliability

According to the Company's Application, the proposed transmission line is necessary to provide reliable electric service to its customers in Virginia Beach consistent with NERC Reliability Standards for transmission facilities and the Company's planning criteria and to maintain the structural integrity of the Company's transmission system in Virginia Beach. The Staff Report agreed that there is a need for the Project to resolve reliability violations such as thermal overloading and unacceptably low voltages following the unexpected outages of certain transmission components. The Staff concluded that the Project would resolve all the Company's listed reliability deficiencies.

Based on the record in this case, it is undisputed that the transmission line rebuild between Landstown Substation and Virginia Beach Substation is needed to maintain the current and future reliability of the electrical system of Dominion Virginia Power given the load growth projected in the Virginia Beach area. In addition, the Project will promote economic development in the area by allowing sufficient supplies of electrical power to be delivered to the eastern part of Virginia Beach, which consists of a highly developed mixed commercial and residential community as well as a number of military operations including the Oceana Naval Air Station and Camp Pendleton. We therefore find that the Project is necessary to assure the continued reliability of the electrical system of Dominion Virginia Power, and the Project will promote future economic development in the Virginia Beach area.

Scenic Assets, Historic Districts, and Existing Right-of-Way

The Company's Application included assessments of the environmental, architectural, and historic resources that could be potentially impacted by the proposed transmission line rebuild. The record reveals that the Project will be located in an area that is comprised of a highly developed mixed commercial and residential community with both single family and multi-family housing. Although the Company's Application indicates there are a total of 1,860 dwellings located within 500 feet of the transmission line, it is not aware of any buildings that will be demolished if the existing transmission line facilities are rebuilt as proposed. However, the Company does indicate that there are a number of encroachments on the existing right-of-way, such as above-ground pools and sheds as well as a long-term storage of camping trailers at the Holiday Trav-L Park Campground, which would need to be removed or relocated before beginning construction of the Project. As noted in the Staff Report," the Company proposes to remove its existing double-circuit 115 kV transmission line between Landstown Substation and Virginia Beach Substation, a distance of approximately 11 miles, and replace it with a new double-circuit 230 kV line."[22] As further explained in the Staff Report, the current double-circuit lattice towers will be removed and replaced with new double-circuit weathering steel H-frame transmission structures that will be located entirely within the existing right-of-way. Accordingly, there should be very little, if any, additional scenic impacts associated with the new transmission line.

The Company identified one historical resource, the historic Norfolk and Virginia Beach Railroad, located partly within the existing right-of-way. However, the architectural site already contains existing double circuit transmission facilities and is not expected to be adversely impacted by the Project.

Accordingly, we find that the proposed transmission line will have little, if any, adverse impacts on the scenic and historic resources in the Project area. Moreover, since the transmission line will be built entirely on existing right-of-way, any scenic impacts of the transmission line will be minimized to the extent practicable.

Environmental Impact

Under §§ 56-46.1 A and B of the Code, the Commission is required to consider the Project's impact on the environment and to establish such conditions as may be desirable or necessary to minimize adverse environmental impact. The statute further provides that the Commission shall receive and give consideration to all reports that relate to the Project by state agencies concerned with environmental protection.

In order to assist the Commission with its review of the potential impacts of the proposed transmission line, the DEQ filed its coordinated environmental review recommending that the Company undertake the following actions when constructing the transmission line:

- Follow DEQ's recommendations to minimize impacts to wetlands and streams (Environmental Impacts and Mitigation, item 1(d), pages 9-10).
- Conduct an environmental investigation, if not already done, on and near the property to identify any solid or hazardous waste sites or issues before work can commence. Reduce solid waste at the source, reuse it and recycle it to the maximum extent practicable, and follow DEQ's recommendations to manage waste, as applicable (Environmental Impacts and Mitigation, item 5(f), page 15).
- Coordinate with the Department of Conservation and Recreation (DCR) for updates to the Biotics Data System database if a significant amount of time passes before the project is implemented; follow DCR's recommendations to protect vegetation and the habitat of listed species, including the Eastern big-eared bat; and promote native vegetation (Environmental Impacts and Mitigation, item 8(e), page 20).
- Conduct an inventory in the study area due to the potential for the project site to support Little Metalmark and Southeastern Cane Borer Moth and coordinate with DCR regarding inventory results (Environmental Impacts and Mitigation, item 8(e), page 20).
- Coordinate with the Center for Conservation Biology and the Department of Game and Inland Fisheries (DGIF), if applicable, regarding new bald eagle nests if discovered during recent surveys and coordinate with DGIF regarding its recommendations to minimize impacts to wildlife (Environmental Impacts and Mitigation, item 9(c), pages 21-22).
- Train contractors regarding the canebrake rattlesnake and coordinate, as necessary, with DGIF to ensure the safe capture and relocation of the protected species (Environmental Impacts and Mitigation, item 9(c), page 22).
- Coordinate with the Department of Historic Resources (DHR) and conduct archaeological and architectural surveys (Environmental Impacts and Mitigation, item 11(d), page 23).

[22] Staff Report at 1.

- Coordinate with the Virginia Department of Transportation (VDOT) and the City of Virginia Beach regarding transportation improvement projects (Environmental Impacts and Mitigation, item 12(d), page 24).
- Complete a 7460-1 form and submit it to the Federal Aviation Administration (Environmental Impacts and Mitigation, item 13(b), page 25).
- Notify water supply sources identified by the Virginia Department of Health and allow these entities an opportunity to comment on the scope of the project (Environmental Impacts and Mitigation, item 14(c), page 25).
- Follow the principles and practices of pollution prevention to the maximum extent practicable (Environmental Impacts and Mitigation, Item 15, pages 25-26).
- Limit the use of pesticides and herbicides to the extent practicable (Environmental Impacts and Mitigation, item 16, page 26).

The Company indicated that it intended to comply with all of the DEQ recommendations with the exception of the VDGIF's recommended buffer zone for wetlands and streams and VDGIF's recommended time-of-use restriction. However, since the VDGIF subsequently withdrew these two recommendations after consulting with Dominion Virginia Power, there is no need for the Commission to address these recommendations at this time.

Alignment of the Proposed Transmission Line

The Company did not consider any routing alternatives for its proposed transmission line since it will be located entirely on existing right-of-way. The Staff Report concluded that "[s]ince the proposed route utilizes the existing right-of-way . . . the proposed routing is optimal."[23] We approve the proposed route of the transmission line.

Accordingly, IT IS ORDERED THAT:

(1) As proposed in the Application, Dominion Virginia Power is authorized to construct and operate in the City of Virginia Beach a new 230 kV double circuit transmission line, approximately 11 miles in length, between the Company's existing Landstown Substation and Virginia Beach Substation.

(2) Pursuant to §§ 56-46.1, 56-265.2 and related provisions of Title 56 of the Code, Dominion Virginia Power's Application for a certificate of public convenience and necessity to construct and operate a new 230 kV double circuit transmission line in the City of Virginia Beach is granted, as provided for herein, and subject to the requirements set forth in this Order.

(3) Pursuant to the Utility Facilities Act, Chapter 10.1 (§§ 56-265.1 *et seq.*) of Title 56 of the Code, Dominion Virginia Power is issued the following certificate of public convenience and necessity:

> Certificate No. ET-95w, which authorizes Dominion Virginia Power under the Utility Facilities Act to operate presently certificated transmission lines and facilities in the City of Virginia Beach, all as shown on the detailed map attached to the certificate, and to construct and operate facilities as authorized in Case No. PUE-2010-00012, and cancels Certificate No. ET-95v, issued to Dominion Virginia Power on October 31, 2008 in Case No. PUE-2007-00020.

(4) The Commission's Division of Energy Regulation shall forthwith provide the Company a copy of the certificate issued in Ordering Paragraph (3) above with the detailed map attached.

(5) The transmission line Project approved herein must be constructed and in service by December 31, 2012; however, the Company is granted leave to apply for an extension for good cause shown.

(6) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

[23] Staff Report at 17.

CASE NO. PUE-2010-00013
FEBRUARY 17, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY D/B/A OLD DOMINION POWER COMPANY

To revise its fuel factor pursuant to § 56-249.6 of the Code of Virginia

ORDER ESTABLISHING 2010-2011 FUEL FACTOR PROCEEDING

On February 12, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits ("Application") proposing to decrease its fuel factor from 3.213¢ per kilowatt-hour ("kWh") to 2.519¢ per kWh, effective for service rendered on and after April 1, 2010. According to KU/ODP's Application, fuel expense for Virginia jurisdictional customers is expected to decrease from $26.8 million for the period April 2009 through March 2010 and to $24.6 million for the period April 2010 through March 2011.[1] The Company's proposed fuel factor includes both an in-period factor and a correction factor. The Company's

[1] Application at 4.

proposed in-period factor of 2.799¢ per kWh is based on forecast average fuel costs of $25.89 per megawatt-hour. This is a reduction from the in-period fuel factor effective as of May 21, 2009, which was 2.960¢ per kWh based on average projected fuel costs of $27.83 per megawatt-hour.[2] The Company asserts in its Application that this decrease of .161¢ per kWh is equivalent to a decrease of $1.61 per month for a customer using 1,000 kilowatt hours.[3]

KU/ODP also proposes to decrease its correction factor from a charge of .253¢ per kWh effective as of May 21, 2009, to a credit of .280¢ per kWh for the period April 1, 2010, through March 31, 2011.[4] The Company asserts in its Application that this reduction is equivalent to a decrease of $5.33 per month for a customer using 1,000 kilowatt hours.[5]

KU/ODP advises that the Company is in an over-recovery position as the result of (1) fully recovering the under-recovery position from prior proceedings and (2) actual fuel expense for the 2009 calendar year being lower than the amount forecasted by the Company in Case No. PUE-2009-00008.[6] KU/ODP states in its Application that the combination of adjustments to the in-period factor and correction factor results in the proposed fuel factor of 2.519¢ per kWh, which is a decrease of .694¢ per kWh from the current fuel factor. The Company asserts that this reduction equates to a total decrease of $6.94 per month for a customer using 1,000 kilowatt hours.[7]

NOW THE COMMISSION, having considered the Company's Application, is of the opinion and finds that this matter should be docketed and assigned to a Hearing Examiner to conduct all further proceedings pursuant to Rule 5 VAC 5-20-120 A of the Commission's Rules of Practice and Procedure; that a hearing should be scheduled to consider the Company's Application; that public notice and an opportunity for participation in this proceeding should be given; and that the Company's proposed fuel factor should go into effect on an interim basis for service rendered on and after April 1, 2010.

Accordingly, IT IS ORDERED THAT:

(1) This matter is hereby docketed and assigned Case No. PUE-2010-00013.

(2) Pursuant to Rule 5 VAC 5-20-120 A of the Commission's Rules of Practice and Procedure, a Hearing Examiner is appointed to conduct all further proceedings in this matter.

(3) The Company's proposed fuel factor of 2.519¢ per kWh shall go into effect on an interim basis for service rendered on and after April 1, 2010.

(4) A public hearing shall be convened on March 30, 2010, at 11:30 a.m., in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence related to the establishment of the Company's proposed fuel factor. Any person desiring to offer testimony as a public witness at the hearing concerning the Application need only appear in the Commission's Courtroom at 11:15 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff.

(5) The Company shall make copies of the public version of its Application, as well as a copy of this Order, available for public inspection during regular business hours at each of the Company's business offices in the Commonwealth of Virginia. Interested persons may also obtain copies of the same, at no charge, by submitting a written request to counsel for the Company, Kendrick R. Riggs, Esquire, Stoll Keenon Ogden PLLC, 2000 PNC Plaza, 500 West Jefferson Street, Louisville, Kentucky 40202-2828. The Company shall make a copy of its Application and related materials available on an electronic basis upon request. Copies of the public version of the Application, testimony, and schedules, as well as a copy of this Order, shall also be available for interested persons to review in the Commission's Document Control Center located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday. Interested persons may also download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

(6) On or before March 4, 2010, the Company shall cause the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the Company's service territory within Virginia:

NOTICE TO THE PUBLIC OF 2010-2011 FUEL FACTOR
PROCEEDING FOR OLD DOMINION POWER COMPANY
CASE NO. PUE-2010-00013

On February 12, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits ("Application") proposing to decrease its fuel factor from 3.213¢ per kilowatt-hour ("kWh") to 2.519¢ per kWh, effective for service rendered on and after April 1, 2010. According to KU/ODP's Application, fuel expense for Virginia jurisdictional customers is expected to decrease from $26.8 million for the period April 2009 through March 2010 and to $24.6 million for the period April 2010 through March 2011. The Company's proposed fuel factor includes both an in-period factor and a correction

factor. The Company's proposed in-period factor of 2.799¢ per kWh is based on forecast average fuel costs of $25.89 per megawatt-hour. This is a reduction from the in-period fuel factor effective as of May 21, 2009, which was 2.960¢ per kWh based on average projected fuel costs of $27.83 per megawatt-hour. The Company asserts in its Application that this decrease of .161¢ per kWh is equivalent to a decrease of $1.61 per month for a customer using 1,000 kilowatt hours.

KU/ODP also proposes to decrease its correction factor from a charge of .253¢ per kWh effective as of May 21, 2009, to a credit of .280¢ per kWh for the period April 1, 2010, through March 31, 2011. The Company asserts in its Application that this reduction is equivalent to a decrease of $5.33 per month for a customer using 1,000 kilowatt hours.

KU/ODP advises that the Company is in an over-recovery position as the result of (1) fully recovering the under-recovery position from prior proceedings and (2) actual fuel expense for the 2009 calendar year being lower than the amount forecasted by the Company in Case No. PUE-2009-00008. KU/ODP states in its Application that the combination of adjustments to the in-period factor and correction factor results in the proposed fuel factor of 2.519¢ per kWh, which is a decrease of .694¢ per kWh from the current fuel factor. The Company asserts that this reduction equates to a total decrease of $6.94 per month for a customer using 1,000 kilowatt hours.

The Commission entered an Order for Notice and Hearing ("Scheduling Order") that, among other things, scheduled a public hearing to commence at 11:30 a.m. on March 30, 2010, in the Commission's Second Floor Courtroom, Tyler Building, 1300 East Main Street, Richmond, Virginia, for the purpose of receiving comments from members of the public and evidence related to the approval of the Company's proposed fuel factor. Public witnesses desiring to offer testimony at the public hearing need only appear in the Commission's Second Floor Courtroom in the Tyler Building at the address set forth above prior to 11:15 a.m. on the day of the hearing and register a request to speak with the Commission's Bailiff.

The Company's Application and the Commission's Scheduling Order are available for public inspection during regular business hours at all of the Company's offices where bills may be paid. Interested persons may also review the Company's Application in the Commission's Document Control Center located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. A copy may also be obtained, at no cost, by written request to counsel for the Company, Kendrick R. Riggs, Esquire, Stoll Keenon Ogden PLLC, 2000 PNC Plaza, 500 West Jefferson Street, Louisville, Kentucky 40202-2828. In addition, unofficial copies of the Company's Application, Commission Orders entered in this docket, the Commission's Rules of Practice and Procedure, as well as other information concerning the Commission and the statutes it administers, may be viewed on the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a respondent in this proceeding by filing, on or before March 17, 2010, an original and fifteen (15) copies of a notice of participation as a respondent with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218. Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2010-00013.

On or before March 17, 2010, each respondent may file with the Clerk of the Commission at the address above an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to the Company at the address above and on all other respondents. In the alternative, testimony and exhibits may be filed electronically as provided by Rule 5 VAC 5-20-140 of the Commission's Rules of Practice and Procedure. Respondents shall comply with the Commission's Rules of Practice and Procedure, including: 5 VAC 5-20-140, *Filing and service*; 5 VAC 5-20-150, *Copies and format*; and 5 VAC 5-20-240, *Prepared testimony and exhibits*.

On or before March 24, 2010, any interested person may file with the Clerk of the Commission, at the address set forth above, written comments on the Application. On or before March 24, 2010, any interested person desiring to submit comments electronically may do so by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. All correspondence shall refer to Case No. PUE-2010-00013.

Persons commenting electronically need not file comments in writing with the Clerk of the Commission.

KENTUCKY UTILITIES COMPANY
D/B/A OLD DOMINION POWER COMPANY

(7) On or before February 25, 2010, the Company shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager (or equivalent official) of every city and town in which the Company provides service in the Commonwealth of Virginia. Service shall be made by first class mail to the customary place of business or residence of the person served.

(8) On or before March 17, 2010, the Company shall file with the Clerk of the Commission proof of the notice and service required by Ordering Paragraphs (6) and (7) herein.

(9) On or before March 24, 2010, any interested person desiring to file comments on the Company's Application shall file copies of such comments with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218. Any interested person desiring to submit comments electronically may do so by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

(10) Any interested person may participate as a respondent in this proceeding by filing, on or before March 17, 2010, an original and fifteen (15) copies of a notice of participation with the Clerk at the address in Ordering Paragraph (9), and shall simultaneously serve a copy of the notice of participation on counsel to the Company at the address in Ordering Paragraph (5). Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2010-00013.

(11) Within five (5) calendar days of receipt of a notice of participation as a respondent, the Company shall serve upon each respondent a copy of this Order for Notice and Hearing, a copy of the Application, and all materials filed by the Company with the Commission unless these materials have already been provided to the respondent.

(12) On or before March 17, 2010, each respondent may file with the Clerk of the Commission an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to the Company and on all other respondents. In the alternative, testimony and exhibits may be filed electronically as provided by Rule 5 VAC 5-20-140 of the Commission's Rules of Practice and Procedure. Respondents shall comply with the Commission's Rules of Practice and Procedure, including: 5 VAC 5-20-140, *Filing and service*; 5 VAC 5-20-150, *Copies and format*; and 5 VAC 5-20-240, *Prepared testimony and exhibits*.

(13) The Commission Staff shall investigate the Application. On or before March 17, 2010, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of the Staff's testimony and exhibits and shall serve a copy on counsel to the Company and all respondents.

(14) On or before March 24, 2010, KU/ODP shall file with the Clerk of the Commission an original and fifteen (15) copies of any rebuttal testimony and exhibits and shall serve a copy on the Staff and all respondents on the same day. In the alternative, rebuttal testimony and exhibits may be filed electronically as provided by Rule 5 VAC 5-20-140 of the Commission's Rules of Practice and Procedure.

(15) The Company and all respondents shall respond to written interrogatories and requests for production of documents within five (5) calendar days after receipt of the same. Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice and Procedure.

(16) This matter is continued generally.

CASE NO. PUE-2010-00013
MARCH 31, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY D/B/A OLD DOMINION POWER COMPANY

To revise its fuel factor pursuant to § 56-249.6 of the Code of Virginia

ORDER ESTABLISHING FUEL FACTOR

On February 12, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("Company" or "KU/ODP") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits proposing a decrease in its fuel factor from 3.213¢ per kilowatt-hour ("kWh") to 2.519¢ per kWh, effective for service rendered on and after April 1, 2010. The Company's proposed fuel factor includes both an in-period factor and a correction factor. The Company's proposed in-period factor of 2.799¢ per kWh is designed to recover the Company's total projected Virginia jurisdictional fuel expenses of approximately $24.6 million for the period from April 2010 through March 2011. The Company proposed to decrease its correction factor from a charge of 0.253¢ per kWh to a credit of 0.280¢ per kWh to refund the over-recovery occurring under the current fuel factor. In its application, the Company projected an over-recovery balance of $2,456,670 as of March 31, 2010.

On February 17, 2010, the Commission entered an Order Establishing 2010-2011 Fuel Factor Proceeding ("Scheduling Order") that, among other things: (1) assigned a Hearing Examiner to conduct all further proceedings; (2) scheduled a hearing on the Company's application for March 30, 2010; (3) required the Company to provide public notice of its application; and (4) directed the Company to place its proposed fuel factor into effect on an interim basis for service rendered on and after April 1, 2010.

On March 17, 2010, the Staff filed its testimony in which it recommended that the Commission approve a fuel factor for KU/ODP of 2.482¢ per kWh. The Staff stated that while the Company's projected fuel expenses and sales forecast are reasonable, the proposed fuel factor should be adjusted to reflect the updated projection of the March 31, 2010 recovery balance and to correct a minor projected fuel expense calculation error. Taken together, these two adjustments produce an in-period factor of 2.797¢ per kWh and a correction factor credit of 0.315¢ per kWh, resulting in a recommended fuel factor of 2.482¢ per kWh.

The Staff stated that the combined effect of these proposed adjustments would reduce the monthly bill of a KU/ODP Virginia residential customer using 1,000 kilowatt-hours by $7.31 from $83.98 to $76.67, a decrease of 8.7%. By comparison, the Company's proposed fuel factor would reduce the same monthly bill by $6.94 to $77.04, a decrease of 8.3%.

On March 24, 2010, the Company filed a letter indicating it has reviewed the Staff's testimony and accepts the Staff's recommendations, including the Staff's proposed fuel factor of 2.482¢ per kWh. KU/ODP also requests to put this lower fuel factor into effect on April 1, 2010, in lieu of

implementing its proposed factor of 2.519¢ per kWh that was authorized on an interim basis pursuant to the Commission's February 17, 2010 Scheduling Order.

The hearing on the Company's application was convened on March 30, 2010. Appearances were made by counsel for KU/ODP and the Staff. Proof of public notice of the application and service on local government officials were marked as exhibits and received into the record. Pursuant to an agreement of counsel, the Company's application, testimony, and exhibits, as well as the Staff's testimony and exhibits, were entered into the record without cross-examination. Upon receipt of all the evidence, the Chief Hearing Examiner issued her report from the bench recommending that the Company's proposed reduction to its fuel factor be further reduced in accordance with the adjustments proposed by the Staff and agreed to by KU/ODP. Accordingly, the Chief Hearing Examiner recommended that the Commission approve a fuel factor of 2.482¢ per kWh. The Chief Hearing Examiner further directed the Company to implement the agreed-upon fuel factor of 2.482¢ per kWh on an interim basis for service rendered on and after April 1, 2010, pending further order of the Commission.

NOW THE COMMISSION, upon consideration of the record in this case, the Report of the Chief Hearing Examiner, and the applicable law, is of the opinion and finds that a decrease in the Company's fuel factor to 2.482¢ per kWh is reasonable and appropriate.

However, as noted in the Chief Hearing Examiner's Report, our approval of the fuel factor should not be construed as approval of KU/ODP's actual fuel expenses. No finding in this Order is final, as this matter is continued generally pending Staff's audit of actual fuel expenses and the Commission's entry of a final order addressing the Company's fuel recovery position. Should the Commission find (1) that any component of KU/ODP's actual fuel expenses or credits has been inappropriately included or excluded, or (2) that KU/ODP has failed to make every reasonable effort to minimize fuel costs or has made decisions resulting in unreasonable fuel costs, KU/ODP's recovery position will be adjusted. This adjustment will be reflected in the recovery position at the time of KU/ODP's next fuel factor proceeding.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the Chief Hearing Examiner are hereby adopted.

(2) The total fuel factor of 2.482¢ per kWh, effective for service rendered on and after April 1, 2010, is hereby approved.

(3) This case is continued generally.

CASE NO. PUE-2010-00015
APRIL 8, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
NAOMI G. MADSEN
v.
COLUMBIA GAS OF VIRGINIA, INC.

For Review of a Dispute Regarding Estimated Billing and Service

DISMISSAL ORDER

On February 17, 2010, Naomi G. Madsen ("Petitioner") filed a complaint with the State Corporation Commission ("Commission") concerning an estimated bill for natural gas service she received from Columbia Gas of Virginia, Inc. ("Columbia" or "Company"). The Petitioner also raised issues relating to the quality of service she received when she contacted the Company about her bill.

On March 10, 2010, the Commission entered an Order Docketing Case wherein it docketed the case; directed the Petitioner to file an amended complaint in accordance with 5 VAC 5-20-100 B of the Commission's Rules of Practice and Procedure ("Rules"), directed the Company to file an answer or other responsive pleading to the amended complaint within twenty-one days of the filing of the amended complaint, and assigned the case to a Hearing Examiner in accordance with 5 VAC 5-20-120 of the Rules.

On March 29, 2010, Columbia, by counsel, filed a letter with the Commission advising that the Petitioner had entered into a settlement agreement resolving the matter that formed the basis of her complaint. Among other things, Columbia represented that the Petitioner had agreed to file a letter with the Commission withdrawing her complaint.

On March 30, 2010, the Petitioner filed a letter with the Commission seeking to withdraw her complaint and advising that she had accepted a settlement with Columbia and no longer wished to proceed with her formal complaint.

On March 31, 2010, Michael D. Thomas, Hearing Examiner, issued his Hearing Examiner's Report ("Report") wherein he found that: (i) the case has been resolved to the satisfaction of both parties; (ii) the case should be dismissed from the Commission's docket of active proceedings; and (iii) the comment period to the Report should be waived. The Hearing Examiner recommended that the Commission adopt the findings in his Report and dismiss the case.

NOW THE COMMISSION, upon consideration of the record herein, is of the opinion and finds that the findings and recommendations of the March 31, 2010 Hearing Examiner's Report should be adopted and this case dismissed.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the March 31, 2010 Hearing Examiner's Report are hereby adopted.

(2) There being nothing further to be done herein, this case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00016
MARCH 18, 2010

APPLICATION OF
VIRGINIA-AMERICAN WATER COMPANY

For approval to issue debt securities

ORDER GRANTING AUTHORITY

On February 26, 2010, Virginia-American Water Company ("Applicant" or the "Company") filed an application with the Virginia State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia. In its application, the Company requests authority to issue promissory notes ("Notes") to an affiliate, American Water Capital Corporation ("AWCC"), from time to time through December 31, 2011.[1] Applicant paid the requisite fee of $250.

In its application, the Company requests authority to issue to AWCC up to $16 million in Notes. The terms of the Notes' interest rates, timing of payments, maturity dates, and other such issues will mirror the terms set forth in the securities to be issued by AWCC. The proceeds will be used for one or more of the following purposes: the repayment of all or a portion of the Company's outstanding short-term debt; a March 2010 and March 2011 sinking fund payment associated with a 6.87% debt issuance; the purchase, acquisition and/or construction of additional properties and facilities, as well as improvements to the Company's existing utility plant; and for general corporate purposes.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest. Accordingly, the application should be approved, subject to the provisions of the affiliates' Financial Services Agreement entered December 21, 2009, in Case No. PUE-2009-00120.

Accordingly, IT IS ORDERED THAT:

(1) The Applicant is hereby authorized to issue and sell up to $16 million in promissory notes to AWCC, under the terms and conditions and for the purposes set forth in the application. All ordering provisions of the Order Granting Authority issued December 21, 2009, in Case No. PUE-2009-00120 shall remain in effect.

(2) The Applicant shall file a preliminary Report of Action within ten (10) days after the issuance of any security pursuant to this Order to include the type of security, the issuance date, the amount of the issuance, the interest rate or yield, the maturity date, and any securities retired with the proceeds.

(3) On or before March 1, 2012, the Applicant shall file a Final Report of Action to include details concerning all financing activities completed pursuant to this authority. Such report shall include a summary of the information required in the preceding ordering paragraph, in addition to a breakeven analysis showing that the retiring of any debt prior to maturity was cost beneficial to the Company, and a comparison of the interest rate on the debt issued to the affiliate against the interest rate available to the Company from non-affiliated sources.

(4) The authority granted herein shall have no implications for ratemaking purposes. Specifically, the approval granted in this Order shall not guarantee recovery of any costs directly or indirectly related to the issuance of securities authorized herein.

(5) This matter shall be continued, subject to the continued review, audit, and appropriate directive of the Commission.

[1] Pursuant to the Commission's Order Granting Authority dated December 21, 2009, in Case No. PUE-2009-00120, Virginia-American Water Company's existing affiliate agreement is set to expire December 31, 2011.

CASE NO. PUE-2010-00017
DECEMBER 17, 2010

APPLICATION OF
COLUMBIA GAS OF VIRGINIA, INC.

For authority to increase rates and charges and to revise the terms and conditions applicable to gas service

FINAL ORDER

On May 3, 2010, Columbia Gas of Virginia, Inc. ("Columbia" or "Company"), filed with the State Corporation Commission ("Commission") an application pursuant to Chapter 10 of Title 56 (§ 56-232 *et seq.*) of the Code of Virginia ("Code") requesting authority to increase its rates and charges, effective January 1, 2011, and to revise other terms and conditions applicable to its gas service ("Application"). Columbia's Application advised that the proposed rates and charges are designed to increase the Company's annual operating revenues by approximately $13,048,642, based on an 11.5% return on equity ("ROE"). According to the Application, approximately $7,588,330 of the requested increase represents an increase in annual operating non-gas base revenues, with approximately $5,487,521 representing the gas cost portion of the uncollectible expense and the carrying costs of storage and deferred gas

that Columbia proposes to recover through its Purchased Gas Adjustment ("PGA") mechanism. Columbia's Application advises that its requested revenue increase excludes the Company's Large Volume Transportation Service customer class, which is made up of large industrial and power generation customers and special contracts negotiated by the Company pursuant to § 56-235.2 of the Code.

Columbia's Application proposes several changes in rate design and seeks to recover the gas component of uncollectible accounts expense, carrying costs on gas storage, and short term interest on Actual Cost Adjustment ("ACA") balances through the Company's PGA/ACA mechanism rather than non-gas base rates. The Application includes a weather normalization adjustment ("WNA") proposed in order to remove the impact of weather from customer's bills. According to the Company, the WNA is designed to adjust customer usage reflected in the temperature-sensitive portion of residential and small commercial customers' bills to offset monthly variations from normal weather levels that were the basis upon which non-gas rates are designed and approved.

The Application sets out various proposals to modify the Company's retail choice program and associated tariffs approved by the Commission in various orders entered in Case No. PUE-2001-00587.[1]

The Company proposes that the requested increase in rates and charges and the proposed revisions to its Rate Schedules, General Terms and Conditions, and Form of Service Agreements become effective January 1, 2011, consistent with the provisions of Columbia's Performance Based Regulatory Plan ("PBR Plan"),[2] except for the Company's tariff modifications relating to its choice program ("Choice Program"). The Company proposes that Rate Schedule CSPS and the Competitive Service Provider Agreement become effective April 1, 2011, in order to facilitate a seamless transition to the new provisions of its Choice Program.

Columbia also proposes to: (i) increase the threshold under which customer deposits may be paid in monthly installments from $40 to $100; (ii) increase its returned check charge from $14 to $17; and (iii) impose a minimum late payment charge of $5 on residential accounts and $10 on small general service accounts.

On May 27, 2010, the Commission issued its Order for Notice and Hearing in which it prescribed notice of the Application, established a procedural schedule, invited comments, directed the Commission Staff ("Staff") to investigate the Application, and scheduled a public hearing for November 16, 2010, before a Hearing Examiner.

On June 23, 2010, the Virginia Industrial Gas Users Association ("VIGUA") filed its Notice of Participation. On June 29, 2010, the Office of the Attorney General, Division of Consumer Counsel ("OAG"), filed notice of its intent to participate in the proceeding. On August 3, 2010, the Board of Supervisors of Fairfax County ("Fairfax County") filed its Notice of Participation.

On the morning of November 16, 2010, in accordance with the Hearing Examiner's Ruling of November 15, 2010, the hearing was convened before Deborah V. Ellenberg, Chief Hearing Examiner, for the sole purpose of receiving the testimony of public witnesses. No public witnesses appeared. The hearing was reconvened at 3:00 p.m. on the same day to receive a Proposed Stipulation and Recommendation ("Stipulation") supported by the case participants.

Counsel noting appearances at the November 16, 2010 hearing were Bernard L. McNamee, Esquire, and James S. Copenhaver, Esquire, for the Company. Sherry H. Bridewell, Esquire, Glenn P. Richardson, Esquire, and Kerry R. Wortzel, Esquire, appeared on behalf of the Commission Staff; Ashley B. Macko, Esquire, appeared on behalf of the OAG; Marilyn S. McHugh, Esquire, appeared on behalf of Fairfax County; and Louis R. Monacell, Esquire, appeared on behalf of VIGUA.

By agreement of counsel, the prefiled testimony was admitted into the record without causing the witnesses to take the stand and be subjected to cross-examination. In addition, the Stipulation executed by the case participants was marked and admitted into the record as Exhibit 29. The Stipulation recommended approval of the Company's Application subject to the modifications set forth in the Stipulation. Among other provisions, the Stipulation recommended an increase of $500,000 over the current fully adjusted non-gas base jurisdictional revenues for all rate schedules other than the Large Volume Transportation Service ("LVTS") Rate Schedule. At the conclusion of the hearing, the case participants waived the right to file comments to the Chief Hearing Examiner's Report in the event the Chief Hearing Examiner recommended that the Commission accept the Stipulation without any modifications.

On December 2, 2010, the Chief Hearing Examiner issued her report ("Report" or "December 2, 2010 Report"). After summarizing the evidence and Stipulation, the Chief Hearing Examiner found the Stipulation offered by the Company, Staff, and parties to be reasonable. In addition, she made the following findings:

1. An unadjusted NiSource consolidated capital structure as of June 30, 2010, is reasonable;

2. A reasonable ROE range is 9.6% to 10.6%, which does not include a 25 basis point performance adjustment, with an ROE midpoint of 10.1%;

3. The Company's overall weighted average cost of capital is 7.924%;

---

[1] *See, e.g., Application of Columbia Gas of Virginia, Inc., To Change Rates, Charges, Rules, and Regulations,* Case No. PUE-2001-00587, 2003 S.C.C. Ann. Rept. 346, Order on Reconsideration (Nov. 24, 2003).

[2] Columbia has been operating under a PBR Plan approved by the Commission on December 28, 2006, in Case Nos. PUE-2005-00098 and PUE-2005-00100. The PBR Plan expires on December 31, 2010. The Commission's December 28, 2006 Final Order in Case Nos. PUE-2005-00098 and PUE-2005-00100 and the proposed Stipulation approved in that Final Order require Columbia to file an Application for a rate case, for a new PBR Plan, or to extend the existing PBR Plan by May 1, 2010. *See Application of Columbia Gas of Virginia, Inc., For approval of a performance based rate regulation methodology pursuant to Va. Code § 56-235.6*, Case No. PUE-2005-00098 and *Commonwealth of Virginia, ex rel. State Corporation Commission, Ex Parte, In Re: Investigation of the justness and reasonableness of current rates, charges, and terms and conditions of service*, Case No. PUE-2005-00100, 2006 S.C.C. Ann. Rept. 366, Final Order (Dec. 28, 2006) (hereinafter, "Case No. PUE-2005-00098").

4. The Company requires jurisdictional revenue for purposes of establishing non-gas base rates in the amount of $105,715,763 which is an increase of $500,000 over the current fully adjusted non-gas jurisdictional revenues for all classes other than the LVTS class, and such an increase is just, fair and reasonable;

5. It is reasonable to separate the LVTS class from other jurisdictional classes in the calculation of the cost of service and the ROE in a manner that ensures the revenue requirements of other classes are not affected by the LVTS class;

6. The earnings test conducted by Staff yields an ROE below the earnings sharing threshold specified in the Company's PBR Plan, and therefore the Company did not generate sharable earnings for 2009;

7. The cost allocation and rate design recommended in the Stipulation is appropriate;

8. The WNA recommended by the Stipulating Parties[3] is also reasonable;

9. The changes to the Company's General Terms and Conditions as set forth in the Stipulation are reasonable; and

10. The Stipulating Parties recommended that this case be concluded by the end of 2010 to facilitate the changes to rates, rate structure, tariff provisions, and General Terms and Conditions as recommended in the Stipulation, with the exception of the WNA and modifications to Rate Schedule CSPS, being made effective for service rendered on and after January 1, 2011.

The Chief Hearing Examiner recommended that the Commission enter an order adopting the findings of her Report, granting the Company an increase in gross non-gas annual revenues of $500,000, and dismissing the case from the Commission's docket of active proceedings. The Chief Hearing Examiner advised in her Report that the case participants had waived the right to file comments in response to her Report.

NOW THE COMMISSION, upon consideration of the record herein, the Report of the Chief Hearing Examiner, and the applicable statutes, is of the opinion and finds that the findings and recommendations of the December 2, 2010 Report of the Chief Hearing Examiner appear reasonable and supported by the record; that the terms and provisions of the Stipulation, attached hereto as Attachment A, are reasonable and are incorporated into this Order by their attachment hereto; that in accordance with the Stipulation adopted herein, the Company is authorized to increase its current fully adjusted non-gas base jurisdictional revenues for all classes except the LVTS class by $500,000, and the resulting rates to recover this increase shall be developed as shown on Attachment II to the Stipulation accepted herein; that the Company should file revised tariffs, and terms and conditions of service in accordance with the findings made herein with the Commission's Division of Energy Regulation; that, in accordance with the terms of the Stipulation, the modifications of the Company's rates, rate structure, tariff provisions and General Terms and Conditions should take effect for service rendered on and after January 1, 2011, except for the implementation of the WNA and modifications to Rate Schedule CSPS, described herein; in accordance with the terms of the Stipulation, the implementation of the WNA should take effect commencing with meter readings on and after February 1, 2011; that in accordance with the terms of the Stipulation, the modifications to Rate Schedule CSPS should take effect commencing with the first billing unit of April 2011; that because the Company's 2009 ROE fell below the 10.50% ROE earnings sharing threshold specified in Columbia's PBR Plan, there are no shareable earnings under the PBR Plan for 2009; that the earnings test applicable to Columbia's 2010 earnings will continue to be governed by the provisions of the PBR Plan; and that this case should be dismissed.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the December 2, 2010 Report of the Chief Hearing Examiner are hereby adopted.

(2) The terms and provisions of the Stipulation (Attachment A hereto) are adopted and incorporated into this Order by attachment hereto.

(3) In accordance with the findings made herein and the Stipulation attached hereto, Columbia shall recover the gas component of uncollectible expenses, carrying costs on gas storage inventory, and short-term interest on unrecovered Account 191 balances through the Company's PGA/ACA mechanism as proposed by Columbia and accepted by Staff and other parties.

(4) In accordance with the Stipulation accepted herein, the Company's jurisdictional revenue requirement for purposes of establishing non-gas base rates will be $105,715,763, an increase of $500,000 over the current fully adjusted non-gas base jurisdictional revenues for all classes other than the LVTS class. The rates established to recover this increase shall be developed as shown on Attachment II to the Stipulation accepted herein.

(5) The tariff revisions accepted herein shall be effective for service rendered on and after January 1, 2011, except for the implementations of the WNA and modifications to Rate Schedule CSPS.

(6) The implementation of the WNA tariff accepted herein shall be effective commencing with meter readings on and after February 1, 2011.

(7) The tariff revisions to Rate Schedule CSPS shall be effective for meter readings commencing with the first billing unit of April 2011.

(8) Columbia shall record the depreciation rates approved administratively by Staff, beginning January 1, 2010. The Company shall complete its next depreciation study based on plant balances of no later than December 31, 2014, and shall file such study no later than May 1, 2015.

(9) The LVTS class of customers shall be separated from other jurisdictional classes of customers in the calculation of cost of service and the return on equity for all rate classes other than LVTS. This shall be accomplished in a manner that ensures the revenue requirements of other classes are not affected by the LVTS class of customers.

[3] The Stipulating Parties include all case participants: Columbia, Staff, VIGUA, the OAG, and Fairfax County.

(10) Columbia shall conduct a study of Rate Schedule SGS in order to determine whether the diversity in customer usage within the small general service ("SGS") rate class justifies the creation of a new rate class to separate larger and smaller SGS customers, as well as the appropriate division and level of rate blocks to be used for this class (or classes) of customers. The Company shall file the results of that study with, or in advance of, the Company's next non-gas base rate case.

(11) In accordance with the findings made herein and Stipulation attached hereto, the Company shall conduct a class cost of service study based on the Customer/Demand methodology adjusted to allocate seven-twelfths (7/12) of demand related costs to interruptible customer classes. The Company shall file the results of the study with the Company's next non-gas base rate case, but it need not utilize the results of the study for ratemaking purposes.

(12) Because the Company's 2009 ROE fell below the 10.5% ROE earnings sharing threshold specified in Columbia's PBR Plan, there are no shareable earnings to be returned under the PBR Plan for 2009.

(13) The earnings test applicable to Columbia's earnings for the twelve months ending December 31, 2010, shall continue to be governed by the provisions of the PBR Plan adopted in Case No. PUE-2005-00098.

(14) Columbia shall forthwith file with the Commission's Division of Energy Regulation revised tariffs and terms and conditions of service in accordance with the findings made herein.

(15) There being nothing further to be done in this matter, this case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

NOTE: A copy of Attachment A entitled "Stipulation" is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. PUE-2010-00018
MAY 18, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For authority to incur bridge financing from the National Rural Utilities Cooperative Financing Corporation and CoBank, ACB under Chapter 3 of Title 56 of the Code of Virginia

ORDER GRANTING AUTHORITY

On March 1, 2010, Rappahannock Electric Cooperative ("Rappahannock" or "Applicant") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to incur debt in the form of a bridge loan from the National Rural Utilities Cooperative Financing Corporation ("CFC") and CoBank, ACB ("CoBank") under Chapter 3 of Title 56 of the Code of Virginia. Applicant has paid the requisite fee of $250.

Applicant seeks authorization to enter into two financial agreements to finance its acquisition of approximately 50% of the Virginia distribution assets ("REC Portion") of The Potomac Edison Company d/b/a Allegheny Power ("Potomac").[1] Rappahannock requests approval to borrow up to $102.5 million under a line of credit agreement with CFC ("CFC LOC") and to borrow up to $87.5 million from CoBank in the form of a loan ("CoBank Loan"), for total borrowing authority of $190.0 million. The proceeds from the CFC LOC and the CoBank Loan will be used to provide bridge financing of the acquisition of the REC Portion of Potomac's assets, consistent with Rappahannock's application in Case No. PUE-2009-00101.

According to the Applicant, the term of the CFC LOC will be thirty-six (36) months and the interest rate will be fixed at the time of the draw for the duration of the loan. The term of the CoBank Loan will be twenty-four (24) months, and the interest rate will be floating based on an index chosen at the time of the draw down. Rappahannock anticipates making arrangements with the U.S. Department of Agriculture's Rural Utilities Service ("RUS") and a non-RUS lender for long-term financing in the next twenty-four (24) months, which will refinance the CFC LOC and CoBank Loan bridge loans. Since the permanent financing will be used to redeem the bridge loan authorized herein, Rappahannock acknowledges it will need to file a new application with the Commission before it can issue debt to retire the CFC LOC and CoBank Loan balances approved herein.

According to the application, Rappahannock's total capitalization as of the end of calendar year 2008 was approximately $421.48 million, with an equity-to-total capitalization ratio of 57.7%. Since the application seeks authorization to issue up to $190.0 million in the near term, approval of the application would increase Rappahannock's total capitalization by approximately 45%.

In the application, Rappahannock provided various projections of the short-term and long-term financial impacts of the proposed financing on the financial and operating performance of Rappahannock. According to the projections, once the CFC and CoBank debt is issued to finance the acquisition, Rappahannock's equity-to-total capitalization ratio will decline to approximately 41% and approach 40% during the first few years after the acquisition. Rappahannock's internal policy targets a minimum equity-to-total capitalization ratio of 40%. Rappahannock's own projections include interest rate assumptions of 2.5% for the initial financing through the CFC LOC, and 5.50% for the RUS permanent financing and 7.50% for the permanent supplemental

[1] On September 15, 2009, Rappahannock, Potomac Edison and Shenandoah Valley Electric Cooperative filed a Joint Petition for approval of purchase and sale of service territory and facilities and a Joint Application for issuance of and cancellation of certificates of public convenience and necessity. On September 30, 2009, Rappahannock and Shenandoah Valley Electric Cooperative each filed for approval of special, transitional rate schedules related to the transaction. In its Order for Notice and Hearing dated October 9, 2009, the Commission combined consideration of the filings made on September 30, 2009, with those filed on September 15, 2009, into one docket, Case No. PUE-2009-00101.

financing. While Rappahannock's projected equity ratios and debt service coverage ("DSC") ratio appear to meet or exceed Rappahannock's internal policy guidelines over the next (5) five years, other important financial ratios such as times interest earned ratio ("TIER") and modified TIER fall below Rappahannock's targets and provide only a narrow margin over RUS's indenture minimums over the planning period of ten (10) years.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest, consistent with the modifications and conditions contained in our May 14, 2010, order in Case No. PUE-2009-00101 ("May 14 Order"). However, we note that Rappahannock's financial performance in its projections show returns significantly below historical performance in TIER, modified TIER and equity ratio. In its last two rate applications, Case Nos. PUE-1992-00038 and PUE-2009-00010, Rappahannock reiterated its need to have rates based on TIERs at 2.25 or 2.50 times for proper financial soundness, yet approval of the Potomac transaction will cause margins to fall significantly below these levels. We will expect that Rappahannock will manage its expenses, service offerings, and rates in a manner consistent with our May 14 Order approving the Potomac transaction in Case No. PUE-2009-00101.

Accordingly, IT IS ORDERED THAT:

(1) Rappahannock Electric Cooperative is authorized to enter into a line of credit agreement with the National Rural Utilities Cooperative Finance Corporation for the maximum principal amount of $102.5 million, under the terms and conditions and for the purposes stated in its application.

(2) Rappahannock Electric Cooperative is authorized to enter into a loan agreement with CoBank, ACB, for the maximum principal amount of $87.5 million, under the terms and conditions and for the purposes stated in its application.

(3) Should Applicant seek to modify any terms or conditions or seek to increase the limit amount of the line of credit or loan agreement approved herein, Applicant shall submit an application with the Commission at least twenty-five (25) days prior to the effective date of the proposed change.

(4) Rappahannock shall file a preliminary report of action within thirty (30) days of drawing any funds authorized herein, such report shall include the date of drawdown, the initial rate period chosen, the initial interest rate, any floating rate index selected, amount of principal remaining available to be drawn under the line of credit or loan agreement approved herein.

(5) Should Applicant seek to replace debt issued pursuant to this authority, Applicant shall submit an application with the Commission at least fifty-five (55) days prior to the projected date of the proposed replacement financing.

(6) The approval granted herein is subject to all modifications and conditions imposed by the Commission's May 14 Order in Case No. PUE-2009-00101.

(7) Approval of this application shall have no implications for ratemaking purposes.

(8) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00019
MAY 18, 2010

APPLICATION OF
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

For authority to incur bridge financing from the National Rural Utilities Cooperative Financing Corporation under Chapter 3 of Title 56 of the Code of Virginia

ORDER GRANTING AUTHORITY

On March 1, 2010, Shenandoah Valley Electric Cooperative ("Shenandoah" or "Applicant") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to incur debt in the form of a bridge loan from the National Rural Utilities Cooperative Financing Corporation ("CFC"). Applicant has paid the requisite fee of $250.

Applicant seeks authorization to borrow up to $175.0 million under a line of credit with CFC ("CFC LOC") to finance its acquisition of approximately 50% of the Virginia distribution assets ("Shenandoah Portion") of The Potomac Edison Company d/b/a Allegheny Power ("Potomac").[1] The proceeds from the CFC LOC will be used to provide bridge financing of the acquisition of the Shenandoah Portion of Potomac assets, consistent with Shenandoah's joint application in Case No. PUE-2009-00101. According to the Applicant, the term of the CFC LOC will be thirty-six (36) months and the interest rate will be fixed at the time of the draw. Shenandoah anticipates making arrangements with the U.S. Department of Agriculture's Rural Utilities Service ("RUS") and a non-RUS lender for permanent long-term financing in the next twenty-four (24) months, which will refinance the CFC LOC bridge loan.

According to the application, Shenandoah's total capitalization as of the end of calendar year 2008 was approximately $146.35 million, with an equity-to-total capitalization ratio of 47.8%. Since the application seeks authorization to issue up to $175.0 million in the near term, approval of the application would increase Shenandoah's total capitalization by approximately 120%.

[1] On September 15, 2009, Rappahannock Electric Cooperative, Potomac Edison and Shenandoah filed a Joint Petition for approval of purchase and sale of service territory and facilities and a Joint Application for issuance of and cancellation of certificates of public convenience and necessity. On September 30, 2009, Rappahannock Electric Cooperative and Shenandoah each filed for approval of special, transitional rate schedules related to the transaction. In its Order for Notice and Hearing dated October 9, 2009, the Commission combined consideration of the filings made on September 30, 2009, with those filed on September 15, 2009, into one docket, Case No. PUE-2009-00101.

In the application, Shenandoah provided various projections of the short-term and long-term financial impacts of the proposed financing on the financial and operating performance of Shenandoah. According to the projections, once the CFC debt is issued to finance the acquisition, Shenandoah's equity-to-total capitalization ratio will decline to approximately 26% and remain below 30% during the entire ten year planning horizon. Shenandoah's internal policy targets a modified times interest earned ratio ("Modified TIER") of at least 2.0 times, an equity-to-total-capital ratio at a minimum of 40%, and a rotation of capital credits on a fifteen (15) year cycle. Shenandoah's own projected financial performance on equity ratio and Modified TIER, fall below Shenandoah's internal policy guidelines and provide only a narrow margin over RUS's indenture minimums over the planning period of ten (10) years.

Since the permanent financing will be used to redeem the bridge loan authorized herein, Shenandoah acknowledges it will need to file a new application with the Commission before it can issue an additional debt to RUS and a non-RUS lender to retire the CFC LOC loan approved herein.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest, consistent with the modifications and conditions contained in our order of May 14, 2010, in Case No. PUE-2009-00101 ("May 14 Order"). However, we note that Shenandoah's financial performance in its projections show returns significantly below historical performance in equity ratio, TIER and Modified TIER during the entire planning period. In its last rate case, Case No. PUE-2000-00747, Shenandoah reiterated its need to have rates based on TIERs at or above 2.50 times for proper financial soundness, yet approval of the Potomac transaction will cause margins to fall significantly below these levels. We will expect that Shenandoah will manage its expenses, service offerings, and rates in a manner consistent with our May 14 Order approving the Potomac transaction in Case No. PUE-2009-00101.

Accordingly, IT IS ORDERED THAT:

(1) Shenandoah Valley Electric Cooperative is authorized to enter into an unsecured line of credit agreement with the National Rural Utilities Cooperative Finance Corporation for the maximum principal amount of $175.0 million, under the terms and conditions and for the purposes stated in its application.

(2) Should Applicant seek to modify any terms or conditions or seek to increase the amount available under the line of credit agreement approved herein, Applicant shall submit an application with the Commission at least twenty-five (25) days prior to the effective date of the proposed change.

(3) Shenandoah shall file a preliminary report of action within thirty (30) days of drawing any funds authorized herein, such report shall include the date of drawdown, the initial rate period chosen, the initial interest rate, any floating rate index selected, amount of principal remaining available to be drawn under the line of credit agreement approved herein.

(4) Should Applicant seek to replace debt issued pursuant to this authority, Applicant shall submit an application with the Commission at least fifty-five (55) days prior to the projected date of the proposed replacement financing.

(5) The approval granted herein is subject to all modifications and conditions imposed by the Commission's May 14 Order in Case No. PUE-2009-00101.

(6) Approval of this application shall have no implications for ratemaking purposes.

(7) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00021
APRIL 23, 2010

APPLICATION OF
CONOCOPHILLIPS COMPANY

For a license to conduct business as a competitive service provider for natural gas

ORDER GRANTING LICENSE

On March 10, 2010, ConocoPhillips Company ("ConocoPhillips" or "the Company"), filed an application with the State Corporation Commission ("Commission") for a license to be a competitive service provider for natural gas pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-10 *et seq.* ("Retail Access Rules"). The Company seeks authority to serve commercial and industrial customers in retail access programs in the Virginia service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company. The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B.

On March 25, 2010, the Commission issued an Order for Notice and Comment establishing the case, requiring that notice of the application be given to the specified investor owned natural gas distribution utilities and other interested persons, providing for the receipt of comments from the public, and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a report ("Staff Report"). The Company filed proof of publication of its notice on March 29, 2010. No comments from the public on ConocoPhillips' application were received.

The Staff Report was filed on April 15, 2010, concerning ConocoPhillips' fitness to conduct business as a competitive service provider for natural gas. The Staff Report summarized ConocoPhillips' proposal and evaluated its financial condition and technical fitness. The Staff recommended that ConocoPhillips be granted a license to conduct business as a competitive service provider for natural gas service to commercial and industrial customers in the investor owned natural gas distribution utility service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company. The Company filed no comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and the applicable law, the Commission finds that ConocoPhillips' application as a competitive service provider for natural gas should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) ConocoPhillips Company is hereby granted License No. G-25 to be a competitive service provider for natural gas to commercial and industrial customers in the Virginia service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company. This license to act as a competitive service provider for natural gas is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable statutes.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE-2010-00022
SEPTEMBER 3, 2010

APPLICATION OF
ENERGYCONNECT, INC.

Pursuant to Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly for approval of demand response programs to be offered to retail customers

ORDER GRANTING APPROVAL

On March 17, 2010, EnergyConnect, Inc. ("EnergyConnect" or the "Company"), filed an application ("Application") with the State Corporation Commission ("Commission") for approval of demand response programs to be offered to retail customers in the Appalachian Power Company ("APCo") service territory. The Company's Application is filed pursuant to Section 3 of Chapters 752 and 855 of the 2009 Acts of the Virginia General Assembly ("Section 3"), which states as follows:

> That the State Corporation Commission, for the service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement as an alternative to other capacity mechanisms, shall approve any demand response program proposed to be offered to retail customers by the generating electric utility or any other qualified nonutility provider if, following notice and the opportunity for a hearing, the State Corporation Commission finds (i) any nonutility provider to be qualified, (ii) the program to be effective, reliable, and verifiable as a capacity resource, and (iii) such program to be in the public interest. A State Corporation Commission order issued pursuant to this section shall not affect any contract between a retail customer and a curtailment service provider executed prior to July 1, 2009.

The Application seeks authority for EnergyConnect to continue to market and provide demand response programs through individual customer contracts in the APCo service territory. Among other things, EnergyConnect states: (i) that it is an active Curtailment Service Provider ("CSP") in the demand response programs of the regional transmission entity PJM Interconnection, LLC ("PJM"); (ii) that it "delivers demand response technologies and services to commercial, educational and industrial consumers enabling them to manage their use of electricity in response to market prices or regional power shortages"; and (iii) that it "contracts with end use customers to install metering and control equipment to enable the customer to curtail, aggregates its customers' load to meet its obligations to PJM, submits the verification of demand reductions for payment by PJM, and receives payments from PJM on behalf of its customers."[1]

On April 7, 2010, the Commission issued an Order Inviting Comments in this proceeding that allowed interested persons an opportunity to participate as respondents and to file comments and request a hearing on the Company's Application. On or before May 7, 2010, comments and notices of participation were received from: APCo; EnerNOC, Inc. ("EnerNOC"); Energy Curtailment Specialists, Inc. ("ECS"); CPower, Inc. ("CPower"); Comverge, Inc. ("Comverge"); and the Old Dominion Committee for Fair Utility Rates ("Committee"). Wal-Mart Stores East, LP and Sam's East, Inc. (collectively, "Wal-Mart") filed a notice of participation.

In its comments, APCo raises concerns about the requested approval but concludes that it neither opposes nor supports EnergyConnect's Application. APCo states that it is unable to capture from such third-party demand response programs certain benefits of load curtailment. APCo indicates that, under PJM's capacity market, participation by APCo's customers in demand response programs offered by third-party providers, such as EnergyConnect, cannot be counted toward its capacity obligation, which is met through PJM's Fixed Resource Reliability alternative. Additionally, APCo expresses concern that EnergyConnect's proposal could result in higher costs for APCo and its customers in the long run. APCo also questions the sufficiency of information provided in the Application.

EnerNOC, ECS, CPower, and Comverge, which, like EnergyConnect, operate as CSPs within the PJM region and elsewhere, support EnergyConnect's Application because they believe it is likely to lead to more demand response within APCo's service territory. The CSPs state, among other things, that an increase in demand response within APCo's service territory would potentially reduce APCo's monthly peak and its member load ratio ("MLR") within the American Electric Power Company ("AEP") pool of operating companies. According to the CSPs, a reduction in APCo's MLR would reduce capacity equalization payments by APCo to other AEP operating companies, thereby providing benefits to APCo customers that participate in

[1] Application at 2, 5.

demand response programs and those that do not. The CSPs also cite to the ability of demand response to lower energy and capacity prices within the PJM region. Finally, the CSPs request that an evidentiary hearing be convened if the Commission is inclined to reject the Application.

The Committee, in its comments, asks that the Commission dismiss the Application for lack of jurisdiction based on the Committee's assertion that:

> the Application does not involve a demand response program *proposed to be offered* to retail customers. Rather, the Application involves an *existing* demand response program that *already* is offered by PJM, not by CSPs. The CSPs merely serve as a conduit for participating in the demand response program that is offered by PJM: the CSPs do not establish any of the rules, terms, or conditions for participating in such programs.[2]

The Committee further asserts that regulation of CSPs under Section 3 is "not needed" because the Federal Energy Regulatory Commission ("FERC") and the Virginia General Assembly have already determined that the PJM demand response programs are in the public interest.[3] "If the Commission determines that it should exercise jurisdiction over the Application," the Committee supports its approval.[4] Finally, the Committee requests an evidentiary hearing on the Application but only in the event that "the Commission does not dismiss the Application for lack of jurisdiction, and if the Commission determines that it cannot approve the Application based solely on written submissions in this docket."[5]

On May 20, 2010, EnergyConnect filed responsive comments that largely address the concerns raised by APCo in its comments. EnergyConnect asserts that APCo's concerns are unwarranted and identifies various benefits of demand response in further support of its requested approval.

In addition to comments, as discussed above, the Committee filed, on April 30, 2010, a Motion to Dismiss the Application. In its Motion to Dismiss, the Committee advances jurisdictional arguments similar to those raised separately in its comments. The Committee concludes that ". . . nothing in Section 3 . . ., and nothing in state policy or prior Commission precedent supports a finding that Virginia laws or regulations do not permit a retail customer to participate in PJM demand response programs."[6]

On May 20, 2010, Wal-Mart filed a response to the Committee's Motion to Dismiss in which Wal-Mart supports dismissal of EnergyConnect's Application for the reasons stated in the Committee's Motion to Dismiss. Additionally, Wal-Mart states that scrutiny of existing demand response programs "could have an unintended restrictive impact on the availability of demand response programs to customers like Wal-Mart in Virginia" and "FERC has recognized that aggregators such as the Applicant remove an important barrier to the market for demand response."[7] Wal-Mart requests that the Commission grant the Committee's Motion to Dismiss or, in the alternative, approve EnergyConnect's Application.

On May 20, 2010, the Commission's Staff ("Staff") filed a response to the Committee's Motion to Dismiss in which Staff recommends that the Committee's Motion to Dismiss be denied. Staff asserts that the Company's proposal is the type contemplated by the Virginia General Assembly's enactment of Section 3. In support of its position, Staff cites to the Section 3 requirement for a determination of whether a proposed program is a "capacity resource" and indicates that "CSPs aggregate the resources of their retail customers to register as capacity resources and bid those resources into PJM's markets. But the PJM programs themselves are not capacity resources."[8] Additionally, Staff indicates that the Committee's proposed distinction between "existing" and "new demand response programs offered after some unspecified date" is inconsistent with the grandfather clause of Section 3, which references only "contracts" executed prior to July 1, 2009.[9] Finally, Staff cites to FERC Order Nos. 719 and 719-A and states that the issue of retail customers' participation in demand response programs has been left for the States to decide.

On June 4, 2010, the Committee filed a reply to the responses to its Motion to Dismiss. The Committee's reply focuses largely on the issue of whether the programs offered by the Company are, in their own right, demand response programs or whether CSPs, such as EnergyConnect, serve as a mere conduit for customer participation in PJM programs. The Committee argues that not treating CSPs as conduits of the PJM program: (i) is inconsistent with FERC Order No. 719-A; (ii) is inconsistent with the plain language of Section 3; (iii) is inconsistent with Staff's evaluation of CSPs in a representative Staff Report; and (iv) would result in disparate treatment of CSP customers. However, the Committee "concedes . . . that its reading of Section 3 would result in Section 3 applying to non-utility [sic] demand response programs that are not PJM demand response programs, and the universe of such programs is presently hard to discern."[10] The Committee's reply also asserts that "regulation of the CSPs in APCo's territory is unwise."[11]

On June 2, 2010, the Staff filed its report on the Application ("Staff Report") in which it concludes that: (i) "EnergyConnect is technically qualified as a nonutility provider of demand response provider [sic] and has the necessary resources for providing such services"; (ii) "EnergyConnect has

[11] *Id*. at 8.

the financial resources necessary to provide the proposed services"; and (iii) "EnergyConnect offers programs that are effective, reliable, measurable and verifiable as a demand response resource."[12] Staff further concludes that the public interest implications of EnergyConnect's programs may vary depending on the perspective from which they are viewed. According to Staff:

> The provision of demand response services in APCo's service territory by nonutility providers may have a positive impact on the PJM region as a whole while possibly having an adverse impact on AEP and its nonparticipating customers. It does not necessarily follow, however, that APCo will be harmed as a stand-alone entity.[13]

Staff recommends that Commission approval of the Application be conditioned on the Company providing an annual report demonstrating its continued qualifications and includes in the Staff Report specific recommendations for such a reporting requirement.

On June 18, 2010, EnergyConnect filed comments in response to the Staff Report. EnergyConnect stresses the economic development benefits of demand response payments to retail customers. The Company agrees with Staff that increased demand response from nonutility CSPs may not harm APCo as a stand-alone entity and indicates that participation in demand response programs offered by CSPs results in benefits to nonparticipating customers. EnergyConnect further asserts that "[i]ncreased demand response is explicit public policy in Virginia."[14] Finally, the Company concludes that it does not object to the reporting requirements proposed by Staff but requests that the Commission consider those reports as "extraordinarily sensitive information under Rule 5 VAC 5-20-170 in order to maintain the confidentiality of the information."[15]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that, by enacting Section 3, the Virginia General Assembly has specifically directed the Commission to evaluate any application for the provision of demand response programs within a specific geographic area of the Commonwealth.[16] We have evaluated EnergyConnect's Application and find that it should be approved, subject to the conditions set forth herein.

Motion to Dismiss

As a preliminary matter, we deny the Committee's Motion to Dismiss. We agree with Staff that the demand response "program[s]" to be evaluated under Section 3 are "the actual products and services offered . . . to retail customers" and that the programs proposed to be offered by the Company are not the same as the PJM platforms for demand response.[17] Section 3 contemplates Commission consideration of demand-side resources capable of functioning as capacity. Staff cites to, and no party has rebutted, provisions of the PJM Open Access Transmission Tariff and Reliability Assurance Agreement as evidence that the PJM platforms are not "capacity resource[s]."[18] Put simply, although the PJM demand response platforms may also be referred to as programs, they are not the "program[s]" that Section 3 directs us to evaluate. Moreover, the Committee's legal interpretation would appear to render meaningless Section 3, either in part or in its entirety. Indeed, as the Committee concedes, "the universe of such programs" provided by nonutility providers to which Section 3 would apply under the Committee's interpretation "is presently hard to discern."[19]

Application

Based on the record, we find that the Company currently possesses both the technical and financial qualifications necessary to support the demand response programs it proposes to continue offering within APCo's service territory.[20] We further find that the programs, as they are currently provided by the Company, have been effective, reliable and verifiable as capacity resources.[21] That, in order to participate in PJM's markets, the Company and its programs have thus far been able to satisfy certain financial and technical requirements of PJM is relevant to, but is not dispositive of, our determination herein.

[13] *Id*. at 15.

[14] EnergyConnect's June 18, 2010 Comments at 6.

[15] *Id*. at 8.

[16] No party has challenged the fact that APCo's service territory is the "service area of a generating electric utility that has elected to meet its capacity obligations of a regional transmission entity through a fixed capacity resource requirement . . .," as described by Section 3.

[17] Staff's Response to Motion to Dismiss at 3-5.

[18] *Id*. at 4, n.6.

[19] Committee's Reply to Responses to Motion to Dismiss at 10.

[20] *See*, *e.g.*, Staff Report at 2-8; EnergyConnect's June 18, 2010 Comments at 2.

[21] *See*, *e.g.*, Staff Report at 8-11.

Additionally, we find approval of the Company's programs to be in the public interest, subject to the reporting requirements recommended by Staff and unopposed by the Company.[22] In reaching this conclusion we have considered, among other things, the demand response benefits provided or potentially provided both regionally and locally, as cited by Staff and the parties to this proceeding.[23]

Given the legislative emphasis on the effectiveness, reliability, and verifiability of demand response programs subject to Section 3, we find that the public should be provided reasonable assurance – beyond the snapshot in time presented in this proceeding – that the Company's programs continue to contribute positively to system reliability. The need for regular reporting to demonstrate the continuing qualifications of the Company and its programs is reinforced by the evolving, if not increasing, role of demand response providers and their services.[24] Accordingly, it is only subject to such reporting that we find the provision of the demand response programs offered by the Company to be in the public interest.[25]

EnergyConnect shall be required to provide the following information annually:

1) A list of states in which EnergyConnect, or an affiliate of the Company, conducts business related to curtailment services;

2) Disclosure of any affiliate relationship with a local electric distribution company or other CSP that conducts business in Virginia;

3) A copy of EnergyConnect's audited balance sheet and income statement for the most recent fiscal year. If not available, other financial information that demonstrates the Company's financial ability to continue to provide demand response services in Virginia;

4) Demonstration that EnergyConnect has adequate commercial liability insurance commensurate with the business being conducted in Virginia;

5) Disclosure of any (i) civil, criminal, or regulatory sanctions or penalties imposed or in place within the previous five years against EnergyConnect, any of its affiliates, or any officer, director, partner, or member pursuant to any state or federal consumer protection law or regulation; and (ii) felony convictions within the previous five years, which relate to the business of the Company or to an affiliate thereof, of any officer, director, partner, or member;

6) Disclosure of whether EnergyConnect has ever been denied authority to provide demand response services and whether any authority issued to it or an affiliate has ever been suspended or revoked and whether other sanctions have been imposed; and

7) Disclosure of any incurrence of penalties from PJM, curtailment test failures or failures to meet committed curtailments during curtailment events.

We direct Staff to monitor these reporting requirements and to advise us of any information that materially affects the qualifications of EnergyConnect or its programs under the standards of Section 3.

Requests for Hearing

CPower, ECS, Comverge, and EnerNOC request that an evidentiary hearing be convened if the Commission is inclined to deny EnergyConnect's Application. The Committee requests an evidentiary hearing in the event the Commission does not dismiss EnergyConnect's Application on jurisdictional grounds and, further, finds the written submissions in this docket inadequate to approve the Application. As previously noted, we deny the Committee's Motion to Dismiss. We also find the written record in this docket adequate for us to evaluate EnergyConnect 's Application. Accordingly, we deny all requests for a hearing in this case.

Accordingly, IT IS ORDERED THAT:

(1) EnergyConnect's Application to continue offering the demand response programs it currently provides within APCo's service territory is hereby approved, subject to EnergyConnect's full compliance with all of Staff's reporting recommendations, as listed above, which are hereby accepted and approved.

(2) EnergyConnect shall submit its first annual report no later than June 30, 2011, to the Commission's Divisions of Energy Regulation and Economics and Finance, and subsequent reports shall be submitted no later than June 30 for each year in which EnergyConnect continues to provide demand response programs to retail customers in APCo's service territory.

[22] *Id*. at 15-16; EnergyConnect's June 18, 2010 Comments at 8.

[23] *See*, *e.g.*, Staff Report at 12-14; EnergyConnect's June 18, 2010 Comments at 2-3; CPower's Comments at 4-6. We are also mindful of the Committee's concern that "APCo's customers will be harmed if their demand response options … are restricted through the elimination of viable and active CSPs." Committee's Comments at 4-5.

[24] Application at 5-6.

[25] Based on the competitive concerns raised by the Company, we direct Staff to maintain these reports as confidential information and to withhold their contents from public disclosure. Such reports shall be handled consistent with all the provisions of 5 VAC 5-20-170 of the Commission's Rules of Practice and Procedure, including the provisions for individually marking pages or documents that contain confidential information, for maintaining confidential information, and for challenging confidential designations.

(3) The Committee's Motion to Dismiss is denied.

(4) All requests for an evidentiary hearing are denied.

(5) There being nothing further to come before the Commission, this case is hereby dismissed.

CASE NO. PUE-2010-00023
AUGUST 2, 2010

APPLICATION OF
DALE SERVICE CORPORATION
and
INTERSTATE MANAGEMENT, INC.,
FOR AND ON BEHALF OF MAPLEDALE PLAZA, LLC

For extension of authority for lease agreement between affiliates

ORDER GRANTING AUTHORITY

On March 17, 2010, Dale Service Corporation ("Dale Service") and Interstate Management, Inc. ("Interstate"), for and on behalf of Mapledale Plaza, LLC, Successor to the Trustees of the Irene V. Hylton Charitable Lead Trust, in turn, Successor to the Trustees of the Irene V. Hylton Marital Trust "B" (Share 2), U/W/O Cecil D. Hylton ("Hylton Trust") (collectively, the "Applicants") filed an application with the State Corporation Commission ("Commission"), pursuant to Chapter 4 of Title 56 of the Code of Virginia ("Code"), for authority to extend the terms of a Lease Agreement between Dale Service and Interstate. On June 1, 2010, the Applicants filed an amended application to reflect changes in the proposed terms of the lease extension.

Dale Service is a Virginia public service corporation that provides wastewater treatment services in Dale City and Prince William County, Virginia. Dale Service was initially owned by Cecil D. Hylton ("Mr. Hylton"). Upon Mr. Hylton's demise in 1989, the Dale Service stock passed to his estate. In 1992, the executors of Mr. Hylton's estate transferred Dale Service's stock to the Cecil D. Hylton Marital Trust for the benefit of Irene V. Hylton ("Mrs. Hylton"). Upon Mrs. Hylton's demise in 1996, Dale Service's stock was transferred to the Second Children's Charitable Trust, which existed for the benefit of Mr. Hylton's children. The Second Children's Charitable Trust expired March 29, 2006, and all of the stock was transferred to Mr. Hylton's children and their heirs by operation of law.

Interstate, with its office at 5533 Mapledale Plaza located in the Mapledale Plaza Shopping Center in Dale City, Virginia, manages shopping centers owned by the Hylton Trust. Interstate was incorporated in 1996 and is a Subchapter S corporation. Interstate is owned by Mr. Hylton's children and their heirs.

The Hylton Trust, which is located at 5533 Mapledale Plaza in Dale City, Virginia, owns the shopping centers that are managed by Interstate. The Hylton Trust is a charitable trust that was established in 1996 upon the demise of Mrs. Hylton. The beneficiaries of the Hylton Trust are Mr. Hylton's children and their heirs.

Since Dale Service, Interstate, and the Hylton Trust share common ownership by the children of Mr. Hylton and their heirs, the Applicants are considered affiliated interests under § 56-76 of the Code. As such, any contract or arrangement between the Applicants to provide or receive services must be approved by the Commission pursuant to Chapter 4 of Title 56 of the Code (the "Affiliates Act") prior to the Applicants entering into such contract or arrangement.

Interstate, which is acting as agent on behalf of the Hylton Trust, and Dale Service request authority to extend the Lease Agreement between Dale Service and Interstate wherein Dale Service would continue leasing 2,431 square feet ("SF") of space located at 5609 Mapledale Plaza, Woodbridge, Virginia (the "Premises"), from the Hylton Trust. Dale Service began leasing the Premises in 2004 with a term of five years.

The Commission's October 18, 2004 Order Granting Approval in Case No. PUE-2004-00093 granted Dale Service authority to enter into the Lease Agreement, which had a term of five years. However, the Lease Agreement expired in October 2009, and the Applicants did not receive Commission approval to continue the Lease Agreement. Starting in October 2009, the parties of the Lease Agreement continued operating under the Lease Agreement on a month-to-month basis. During this period, Dale Service has continued to pay the same base rent and additional monthly fees that it was paying when the Lease Agreement expired.

In the amended application filed June 1, 2010, the Applicants propose to enter into a revised Lease Agreement ("Revised Agreement") with a base rental rate of $14 per SF, plus $4.24 per SF for common area maintenance costs, as well as taxes, insurance, and trash service. The Revised Agreement has a term of one year beginning June 1, 2010, and expiring May 31, 2011.

The purpose of extending the Lease Agreement is to allow Dale Service to continue operating from its current location. Dale Service began leasing the Premises in 2004. Prior to that time, Dale Service leased a smaller office at 5565 Mapledale Plaza, Dale City, Virginia, from the Hylton Trust through Interstate. The current location is more than twice the square footage as the previous location with 2,431 SF compared to 1,000 SF. The Applicants state that this additional space allows Dale Service to house all of its administrative operations, including customer service and storage for company and customer-related files, in one location. The Applicants represent that the terms and conditions of the Revised Agreement are similar to the agreement last approved by the Commission in Case No. PUE-2004-00093.

NOW THE COMMISSION, upon consideration of the application and representations of the Applicants and having been advised by its Staff, is of the opinion and finds that the Revised Agreement is in the public interest and should be approved pursuant to the Affiliates Act.

The Applicants represent that the Revised Agreement offers both tangible and intangible benefits to Dale Service and its customers. The Premises is situated within Dale Service's service territory and is conveniently located for its customers. Dale Service's office has been at this location for the past five years. Prior to that time, Dale Service's office was in the same shopping area. Customers should be familiar with its location. Also, by allowing Dale Service to continue leasing its current office space, Dale Service will avoid the cost of moving to a different location. Further, the current office provides Dale Service with the additional space to house all of its operations and files and eliminates the need for renting off-site storage facilities as it has done in the past. In the final year of the Lease Agreement, Dale Service paid a base rental rate of $16.00 per SF and continues to do so on a month-to-month basis. Based on information provided to Staff, the $14.00 per SF base rental rate appears to be consistent with the lower of cost or market pricing for affiliate transactions.

We are concerned, however, that the Applicants did not request an extension of the Lease Agreement prior to its expiration and instead waited six months after the Lease Agreement expired before requesting an extension. Dale Service should take the steps necessary to ensure that future requests for approval under the Affiliates Act are filed in a timely manner.

Accordingly, IT IS ORDERED THAT:

1) Pursuant to § 56-77 of the Code of Virginia, Dale Service Corporation is hereby granted approval to enter into the above-referenced Revised Agreement with Interstate Management, Inc., acting as agent for and on behalf of the trustees of the Irene V. Hylton Charitable Lead Trust, consistent with the findings above.

2) The authority granted herein shall be effective as of the date of this Order.

3) Dale Service shall bear the burden of proving, in any annual informational filing or rate case proceeding, that it paid the lower of cost or market under the Revised Agreement.

4) Commission approval shall be required for any changes in the terms and conditions of the Revised Agreement approved herein, including any successors or assigns.

5) The authority granted herein shall not preclude the Commission from exercising the provisions of §§ 56-78 and 56-80 of the Code of Virginia hereafter.

6) The authority granted herein shall have no ratemaking implications for annual informational filings or future rate proceedings.

7) The authority granted herein shall not be deemed to include any approvals other than for the specific Revised Agreement approved herein.

8) The Commission reserves the right to examine the books and records of any affiliate in connection with the approval granted herein, whether or not such affiliate is regulated by this Commission.

9) There appearing nothing further to be done in this matter, it is hereby dismissed.

CASE NO. PUE-2010-00024
MAY 7, 2010

APPLICATION OF
CONSTELLATION NEW ENERGY-GAS DIVISION LLC

For a license to conduct business as a competitive service provider

ORDER GRANTING LICENSE

On March 23, 2010, Constellation NewEnergy-Gas Division, LLC ("Constellation" or "the Company") filed an application with the State Corporation Commission ("Commission") for a license to act as a competitive service provider for natural gas service. This application seeks authority to serve commercial and industrial customers throughout the Commonwealth of Virginia as the Commonwealth opens to retail access and customer choice. The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B of the Commission's Rules Governing Retail Access to Competitive Energy Services ("Retail Access Rules").

On April 6, 2010, the Commission issued an Order for Notice and Comment docketing the application; requiring that notice of the application be given to all local gas distribution companies operating in Virginia; allowing interested persons to file comments on the application; and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a Staff Report. The Company filed proof of publication of its notice on April 20, 2010. No comments were received on Constellation's application.

The Staff filed its Report on April 26, 2010, addressing Constellation's fitness to conduct business as a competitive service provider for natural gas service. In its Report, the Staff summarized Constellation's proposal and evaluated its financial condition and technical fitness. Based on its review of the application, Staff recommended that Constellation be granted a license to conduct business as a competitive service provider of natural gas service to commercial and industrial customers throughout the Commonwealth of Virginia as Virginia opens to retail access and customer choice. No comments on the Staff report were received.

NOW UPON CONSIDERATION of the application, the Staff Report, the applicable law, and the Retail Access Rules, the Commission is of the opinion and finds that Constellation's request for a license as a competitive service provider of natural gas service should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) Constellation is hereby granted License No. G-26 to be a competitive service provider of natural gas service to commercial and industrial customers throughout the Commonwealth of Virginia as Virginia opens to retail access and customer choice. This license to act as a competitive service provider is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable statutes.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE-2010-00026
AUGUST 26, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For a determination that its plan complies with 20 VAC 5-317-10 through -50 of the Virginia Administrative Code

ORDER

Virginia Code ("Code") § 56-235.1:1, enacted by the 2009 Session of the Virginia General Assembly,[1] directs the State Corporation Commission ("Commission") to adopt regulations for electric utility standby service provided by electric utilities to "customers that operate a cogeneration facility in the Commonwealth that generates renewable energy, as defined in § 56-576." The Code also requires that such regulations must "allow the electric utility to recover all of the costs that are identified by the electric utility and determined by the Commission to be related to the provision of the stand-by service, including but not limited to the costs of transformers and other equipment required to provide stand-by service and the costs of capacity and generation, including but not limited to fuel costs."

Section 56-235.1:1 of the Code further requires that within ninety (90) days of the effective date of such regulations, "each public utility providing electric service in the Commonwealth shall submit a plan setting forth how the utility will comply with the regulations if it does not already have stand-by provisions approved by the Commission that comply with the regulations." Thereafter, the Commission is required, after notice and an opportunity for a hearing, to determine whether a utility's plan complies with the regulations.

By Order dated December 2, 2009, in Case No. PUE-2009-00080, the Commission adopted regulations entitled: Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code ("Standby Service Rules").[2] Pursuant to 20 VAC 5-317-40 of the Standby Service Rules, each electric utility was required to submit to the Commission on or before April 1, 2010, its plan for compliance with the Standby Service Rules.

On March 31, 2010, Virginia Electric and Power Company d/b/a Dominion Virginia Power ("Dominion Virginia Power" or " Company") filed an application ("Application") with the Commission seeking a determination that its Plan to Comply with the Commission's Rules Concerning Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code ("Compliance Plan") complies with the Standby Service Rules. The Company asserts that its current rate schedules are applicable to the provision of standby service to renewable cogeneration facilities. On April 14, 2010, the Company filed a Motion to revise its Compliance Plan, seeking to substitute the rate schedules accepted for filing by the Commission's Staff in Case No. PUE-2009-00019 for those originally included in the March 31, 2010 Application.

According to the Company, "[m]ost of Dominion Virginia Power 's currently effective rate schedules in the Company's Residential, GS-1, GS-2, GS-3 and GS-4 Customer Classes enable the Company to provide standby service to all of its residential and general service customers, including those who operate a cogeneration facility in the Commonwealth of Virginia that generates renewable energy."[3] The Company acknowledges that these rate schedules do not specifically address standby service for renewable cogeneration facilities but asserts that the existing tariffs can accommodate such arrangements and permit the Company to fully recover the costs related to the provision of standby service to renewable cogeneration facilities.

On April 27, 2010, the Commission issued an Order for Notice and Comment in this proceeding requiring the Company to provide notice to the public and allowing interested parties to comment on the Application or request a hearing in this matter. The Commission received no comments or requests for hearing. By letter dated July 2, 2010, the Commission Staff indicated that it did not intend to file comments.

NOW THE COMMISSION, having considered the matter, is of the opinion that Dominion Virginia Power's Compliance Plan satisfies the requirements of § 56-235.1:1 of the Code and the Commission's Standby Service Rules.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) Dominion Virginia Power's Compliance Plan, as amended, is hereby approved.

(2) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

[1] Chapter 745 of the 2009 Acts of Assembly.

[2] Chapter 317 (20 VAC 5-317-10 *et seq.*) of Title 20 of the Virginia Administrative Code.

[3] Application, Attachment A at 2.

CASE NO. PUE-2010-00028
SEPTEMBER 3, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY

For a determination that its plan complies with 20 VAC 5-317-10 through -50 of the Virginia Administrative Code

ORDER

Virginia Code ("Code") § 56-235.1:1, enacted by the 2009 Session of the Virginia General Assembly,[1] directs the State Corporation Commission ("Commission") to adopt regulations for electric utility standby service provided by electric utilities to "customers that operate a cogeneration facility in the Commonwealth that generates renewable energy, as defined in § 56-576." This law also requires that such regulations must "allow the electric utility to recover all of the costs that are identified by the electric utility and determined by the Commission to be related to the provision of the stand-by service, including but not limited to the costs of transformers and other equipment required to provide stand-by service and the costs of capacity and generation, including but not limited to fuel costs."

Section 56-235.1:1 of the Code further requires that within ninety (90) days of the effective date of such regulations, "each public utility providing electric service in the Commonwealth shall submit a plan setting forth how the utility will comply with the regulations if it does not already have stand-by provisions approved by the Commission that comply with the regulations." Thereafter, the Commission is required, after notice and an opportunity for a hearing, to determine whether a utility's plan complies with the regulations.

By Order dated December 2, 2009, in Case No. PUE-2009-00080, the Commission adopted regulations entitled: Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code ("Standby Service Rules").[2] Pursuant to 20 VAC 5-317-40 of the Standby Service Rules, each electric utility was required to submit to the Commission, on or before April 1, 2010, its plan for compliance with the Standby Service Rules.

On April 2, 2010, Appalachian Power Company ("APCo" or "Company") filed a Motion to File Out of Time requesting that the Commission allow the Company to file its plan for compliance with the Standby Service Rules on or before April 15, 2010.[3] On April 15, 2010, APCo filed an application with the Commission seeking a determination that its modification to Schedule SBS, Virginia SCC Tariff No. 22 ("Compliance Plan") complies with the Standby Service Rules.

According to the Company, the modified Schedule SBS is consistent with the Standby Service Rules because it (1) is available to all customers who take Standard Service from the Company that request standby electric service for their cogeneration facilities that generate "renewable energy" as defined by § 56-576 of the Code and that are designed to operate in parallel with the Company's system, as required by the Standby Service Rules, and (2) provides for recovery of customer charges, distribution charges, transmission service charges, electricity supply charges, and fuel charges, as required by the Standby Service Rules.[4]

On April 27, 2010, the Commission issued an Order for Notice and Comment in this proceeding, granting the Company's Motion to File Out of Time, requiring the Company to provide notice to the public, and allowing interested parties to comment on the application or request a hearing in this matter. The Commission received no comments or requests for hearing. By letter dated July 2, 2010, the Commission Staff indicated that it did not intend to file comments.

NOW THE COMMISSION, having considered the matter, is of the opinion that Appalachian Power Company's Compliance Plan and modification of Schedule SBS satisfies the requirements of § 56-235.1:1 of the Code and the Commission's Standby Service Rules.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) Appalachian Power Company's Compliance Plan and proposed modification of Schedule SBS is hereby approved.

(2) The Company is directed to file the modified schedule to be accepted as a replacement to its currently effective tariff within thirty (30) days of the date of this Order.

(3) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

CASE NO. PUE-2010-00030
MAY 24, 2010

APPLICATION OF
GLACIAL NATURAL GAS COMPANY

For a license to conduct business as a competitive service provider for natural gas

ORDER GRANTING LICENSE

On April 8, 2010, Glacial Natural Gas Company ("Glacial" or "the Company") filed an application with the State Corporation Commission ("Commission") for a license to be a competitive service provider for natural gas pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-10 *et seq.* ("Retail Access Rules"). The Company seeks authority to serve residential, commercial, and industrial customers in retail access programs in the Virginia service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company (including its Shenandoah Gas service area). The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B.

On April 16, 2010, the Commission issued an Order for Notice and Comment establishing the case, requiring that notice of the application be given to Columbia Gas of Virginia, Inc., and Washington Gas Light Company and other interested persons, providing for the receipt of comments from the public, and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a report ("Staff Report"). The Company filed proof of publication of its notice on April 26, 2010. No comments from the public on Glacial's application were received. The Staff Report was filed on May 11, 2010, concerning Glacial's fitness to conduct business as a competitive service provider for natural gas. The Staff Report summarized Glacial's proposal and evaluated its financial condition and technical fitness. The Staff recommended that Glacial be granted a license to conduct business as a competitive service provider for natural gas service to residential, commercial, and industrial customers in the service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company. The Company filed no comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and the applicable law, the Commission finds that Glacial's application as a competitive service provider for natural gas should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) Glacial Natural Gas Company is hereby granted License No. G-27 to be a competitive service provider for natural gas to residential, commercial, and industrial customers in the service territories of Columbia Gas of Virginia, Inc., and Washington Gas Light Company. This license to act as a competitive service provider for natural gas is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable statutes.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE-2010-00032
SEPTEMBER 27, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For a certificate of public convenience and necessity to construct and operate a 230 kV Transmission Line in the City of Hopewell and Prince George County and a Substation in Prince George County

FINAL ORDER

On April 26, 2010, Virginia Electric and Power Company ("Dominion Virginia Power" or "Company") filed an application with the State Corporation Commission ("Commission") for a certificate of public convenience and necessity to construct and operate a 230 kV transmission line in the City of Hopewell and Prince George County and a substation in Prince George County. Prepared testimony, exhibits, copies of correspondence, and other materials were filed in support of the Company's application.

The Company's application requests authority to construct a new single circuit 230 kV transmission line in the City of Hopewell and Prince George County that is approximately 2.5 miles long. The Company also proposes to construct a new substation ("Prince George Substation") in Prince George County.[1] The proposed transmission line would be located entirely within Dominion Virginia Power's existing right-of-way and would run from the Company's existing Hopewell Substation in the City of Hopewell to the proposed Prince George Substation. The Prince George Substation would be located adjacent to the Company's existing right-of-way near Middle Road in Prince George County.[2]

The estimated total cost of the Project, which is scheduled for completion in May 2012, is $14.1 million. Of this $14.1 million, $5.9 million is needed for the construction of the proposed 230 kV transmission line, and $8.2 million is needed for construction of the Prince George Substation and for additional work at the Company's Hopewell, Harvell, and Poe Substations.[3]

[1] Collectively, the proposed transmission line and substation will be referred to throughout this Order as the "Project."

[2] Application at 2.

[3] *Id.*

The Company's application represents that the need for the proposed Project is being driven by load growth in the City of Hopewell and Prince George County, particularly around Fort Lee, which has recently experienced significant load growth. Moreover, the future demand for power is projected to accelerate rapidly in the area. While from 2004 to 2009 the peak electrical demand in this area grew from 196.6 MW to 205.4 MW, an increase of 4.5%, load projections indicate an approximate 73.4% growth in load by 2019 when a peak electrical demand of 356.2 MW is projected.[4]

On June 2, 2010, the Commission entered an Order for Notice and Comment that docketed the application as Case No. PUE-2010-00032; directed Dominion Virginia Power to provide public notice of its application; invited interested persons to file written comments and/or requests for hearing on the application; ordered the Commission Staff ("Staff") to investigate the application and to file a Staff Report containing its findings and recommendations; and allowed Dominion Virginia Power to respond to the Staff Report and any public comments or requests for hearing. On July 16, 2010, the Commission entered an Order Granting Motion to Permit Correction of Notice to Landowners and Extend Certain Procedural Dates ("July 16, 2010 Order") which, among other things, directed the Company to resend the notice of its application and a copy of the June 2, 2010 Order for Notice and Comment to affected landowners within the route of the proposed transmission line and extended the dates for the filing of notices of participation, comments, and requests for hearing by those landowners. The July 16, 2010 Order also extended the dates for the filing of the Staff Report, the Company's response to the Staff Report, and any comments or requests for hearing filed by interested persons.

On July 16, 2010, the Department of Environmental Quality ("DEQ") filed its coordinated environmental review ("DEQ Report") of the proposed Project. After conducting their coordinated environmental review of the proposed transmission line and substation, the DEQ, other state agencies and commissions reviewing the Project, and Prince George County stated they "have no objection to the project as proposed."[5] However, the DEQ Report recommended that several mitigation measures be implemented by Dominion Virginia Power in order to lessen the impact of the Project on the environment and historic resources in the area. The DEQ Report also contains a wetlands consultation conducted by the DEQ's Office of Wetlands and Water Protection. While the DEQ's Office of Wetlands and Water Protection does not oppose the Company's proposed transmission line and substation, it made several recommendations to mitigate the impact of the Project on wetlands and streams, as well as identified certain permits that may be required for the Project.[6]

On August 16, 2010, the Staff filed its report ("Staff Report") summarizing the results of its investigation of the Company's application. The Staff Report found "that the Company has reasonably demonstrated the need for the proposed Hopewell-Prince George 230 kV single-circuit transmission line and the Prince George Substation, and that the proposed line route is optimal."[7] Accordingly, "[t]he Staff recommends that the Commission approve the construction and operation of the proposed Hopewell-Prince George 230 kV transmission line and Prince George Substation, as requested in the Application."[8]

No comments or requests for hearing were filed by interested persons.

On August 25, 2010, the Company filed its comments on the Staff and DEQ Reports. In its comments, Dominion Virginia Power agreed with the findings and recommendations in the Staff Report. The Company's comments also addressed the Staff's suggestion on page 15 of the Staff Report that the use of galvanized steel structures and non-reflective conductors would reduce the visual impact of the proposed transmission line on three subdivisions located in the vicinity of the Project. While Dominion Virginia Power did not challenge the Staff's suggestion that galvanized steel structures and non-reflective conductors would reduce the visual impact of the Project, the Company explained that it "chose Corten steel pole structures over galvanized steel poles because they are less expensive, their maintenance costs are lower and the weathering steel of the proposed structures will not appear significantly different from the appearance of the existing galvanized steel lattice towers" that must be removed to install the new transmission line.[9] Moreover, the Company stated that the aluminum conductor that it proposes for the line will "dull naturally under normal atmospheric conditions," thereby further reducing the visual impact of the proposed transmission line.[10]

The Company's comments also opposed two of the recommendations contained in the DEQ Report. First, the Company opposed the Virginia Department of Game and Inland Fisheries' ("VDGIF") recommendation that the Company be required to "[m]aintain undisturbed wooded buffers of at least 100 feet in width around all on-site wetlands and on both sides of all perennial and intermittent streams."[11] Dominion Virginia Power opposed this recommendation "because it presents safety and service reliability concerns and would violate the Company's Transmission Vegetation Maintenance Program ("TVMP"), established in compliance with FAC-003-1, the mandatory federal standard for transmission line vegetation management."[12]

---

[4] *Id.* at 2-3. Two major economic development projects are driving the significant load growth projections for this area. First, Base Realignment and Closure ("BRAC") consolidation is occurring at Fort Lee, which will add additional infrastructure and personnel to Fort Lee. Second, a Rolls Royce plant is being developed in Prince George County, which will increase load significantly between 2009 and 2012. *See* Application at 3-4.

[5] DEQ Report at 6.

[6] DEQ Report, letter from Michelle Henicheck, PWS, Wetland Ecologist, to Ellie Irons, Office Environmental Impact Reviews, Department of Environmental Quality, dated May 20, 2010, at 2-3.

[7] Staff Report at 26.

[8] *Id.*

[9] DVP Comments at 3.

[10] *Id.*

[11] DEQ Report at 18.

[12] DVP Comments at 4-5.

The Company also opposed the VDGIF's recommendation that the Company "[a]dhere to a time-of-year restriction from March 15 through August 15 of any year for tree removal and ground clearing in order to protect nesting resident and migratory songbirds."[13] The Company claimed the VDGIF's recommendation is unreasonable because "it would prevent right-of-way vegetation management activities for almost half the year during months when they are most appropriately conducted" and because "[t]he Company must . . . conduct its right-of-way vegetation management activities year round in order to . . . comply with the TVMP and FAC-003-1, which require maintenance at regular intervals and annual patrols that could require additional corrective maintenance."[14] The Company stated, however, that it "can accommodate time-of-year restrictions for clearing activities in those areas where threatened and endangered species are found."[15]

Finally, the Company's comments stated that "[a]s a result of recent discussions between the Company and [the V]DGIF regarding the Company's concerns detailed above, [the V]DGIF delivered a letter to the Company, dated August 12, 2010, indicating that [the V]DGIF supports 'the State Corporation Commission's removal of these two conditions from Dominion's permit for the referenced project.'"[16] A copy of the VDGIF's August 12, 2010 letter withdrawing these two recommendations was attached to the Company's comments as Attachment A.

NOW THE COMMISSION, having considered the Company's application, the Staff and DEQ Reports, the Company's comments, and the applicable law, is of the opinion and finds that Dominion Virginia Power's application to construct and operate the proposed 230 kV transmission line in the City of Hopewell and Prince George County and the proposed Prince George Substation in Prince George County are justified by the public convenience and necessity, and that a certificate of public convenience and necessity should be issued authorizing the construction and operation of the proposed Project.

Approval

The statutory scheme governing the Company's application is found in several chapters of Title 56 of the Code of Virginia ("Code"). Section 56-265.2 A of the Code provides that "[i]t shall be unlawful for any public utility to construct . . . facilities for use in public utility service . . . without first having obtained a certificate from the Commission that the public convenience and necessity require the exercise of such right or privilege."

Section 56-46.1 of the Code further directs the Commission to consider several factors when reviewing the Company's application. Subsection A of the statute provides that:

> Whenever the Commission is required to approve the construction of any electrical utility facility, it shall give consideration to the effect of that facility on the environment and establish such conditions as may be desirable or necessary to minimize adverse environmental impact . . . . In every proceeding under this subsection, the Commission shall receive and give consideration to all reports that relate to the proposed facility by state agencies concerned with environmental protection; and if requested by any county or municipality in which the facility is proposed to be built, to local comprehensive plans that have been adopted . . . . Additionally, the Commission (i) shall consider the effect of the proposed facility on economic development within the Commonwealth and (ii) shall consider any improvements in service reliability that may result from the construction of such facility.

Section 56-46.1 B of the Code further provides that: "[a]s a condition to approval the Commission shall determine that the line is needed and that the corridor or route the line is to follow will reasonably minimize adverse impact on the scenic assets, historic districts and environment of the area concerned."

Finally, the Code requires the Commission to consider existing right-of-way easements when siting transmission lines. Section 56-46.1 C of the Code provides that "[i]n any hearing the public service company shall provide adequate evidence that existing rights-of-way cannot adequately serve the needs of the company." In addition, § 56-259 C of the Code provides that "[p]rior to acquiring any easement of right-of-way, public service corporations will consider the feasibility of locating such facilities on, over, or under existing easements of rights-of-way."

Need

According to the Company's application, the proposed transmission line and Prince George Substation are needed to accommodate current and future load growth in the City of Hopewell and Prince George County, particularly around the Fort Lee area. The Staff reviewed the Company's load flow studies and concluded that the load flow modeling and reliability needs presented by the Company to justify the Project are reasonable. Accordingly, the evidence in this case is undisputed that there is a need to construct and operate the proposed 230 kV transmission line and Prince George Substation.

Economic Development and Service Reliability

According to the Company's application, the proposed transmission line and Prince George Substation are necessary to maintain system reliability and support future load growth in the City of Hopewell and Prince George County. The Staff Report agreed that there is a need for the Project to assure the continued reliability of the Company's electrical facilities and concluded that "[t]he proposed project is necessary to continue a reliable electric supply to the load area and so is essential, in particular, to the expansion at Fort Lee and the new Rolls Royce aircraft engine plant, which are expected to bring large economic benefits to the area."[17]

---

[13] DEQ Report at 19.

[14] DVP Comments at 8-9.

[15] DVP Comments at 9.

[16] *Id.* at 9-10.

[17] Staff Report at 21.

Based on the record in this case, it is undisputed that the transmission line and Prince George Substation are needed to maintain the current and future reliability of the electrical system of Dominion Virginia Power given the load growth projected in the Hopewell-Prince George area. In addition, the Project will promote economic development in the area by allowing sufficient supplies of electrical power to be delivered to Fort Lee, the Rolls Royce plant, and other economic development projects in the area, as well as future residential development. We therefore find that the proposed Project is necessary to assure the continued reliability of the electrical system of Dominion Virginia Power, and that the Project will promote future economic development in the Hopewell-Prince George area.

Scenic Assets, Historic Districts, and Existing Rights-of-Way

The Company's application included assessments of the environmental, architectural, and historic resources that could be potentially impacted by the proposed transmission line and Prince George Substation. The record reveals that the Project will be located in an area that is comprised of a mix of industrial and single family residential development. Although the Company's application indicates there are 115 single family homes within 500 feet of the proposed transmission line, the scenic assets should not be significantly impacted by the proposed transmission line. As noted in the Staff Report, the "new 230 kV line would replace (be built in the same location as) a portion of 115 kV Line #97 that has been idled from transmission use since the 1970s."[18] As further explained in the Staff Report, the current galvanized lattice structures of Line #97 will be removed and replaced with single shaft steel structures for the proposed transmission line. Accordingly, there should be very little, if any, additional scenic impacts associated with the new transmission line.

The Company also conducted a view-shed analysis to determine the impact the Project will have on the architectural and archeological sites in the area. Several architectural and archeological sites were identified in the view-shed analysis, including the Downtown Hopewell Historical District, which is eligible for the National Register of Historic Places. However, none of the architectural and archeological sites are expected to be adversely impacted by the Project, including the Downtown Hopewell Historic District "because the built environment and the existing landscape within the Project area appear to mitigate any potentially adverse visual impacts to this district resource."[19]

Accordingly, we find that the proposed transmission line and Prince George Substation will have little, if any, adverse impacts on the scenic and historic resources in the Project area. Moreover, since the transmission line will be built entirely on existing right-of-way, any scenic impacts of the transmission line will be minimized to the extent practicable.

Environmental Impact

Under §§ 56-46.1 A and B of the Code, the Commission is required to consider the proposed Project's impact on the environment and to establish such conditions as may be desirable or necessary to minimize adverse environmental impact. The statute further provides that the Commission shall receive and give consideration to all reports that relate to the proposed Project by state agencies concerned with environmental protection.

In order to assist the Commission with its review of the potential impacts of the proposed transmission line and Prince George Substation, the DEQ filed its coordinated environmental review recommending that the Company undertake the following actions when constructing the transmission line and Prince George Substation:

- Follow DEQ's recommendations to minimize impacts to wetlands and streams (Environmental Impacts and Mitigation, item 1(d), pages 9-10).
- Conduct an environmental investigation, if not already done, on and near the property to identify any solid or hazardous waste sites or issues before work can commence. Reduce solid waste at the source, reuse it and recycle it to the maximum extent practicable, and follow DEQ's recommendations to manage waste, as applicable (Environmental Impacts and Mitigation, item 5(d), pages 15-16).
- Coordinate with the Department of Conservation and Recreation (DCR) for updates to the Biotics Data System database if a significant amount of time passes before the project is implemented (Environmental Impacts and Mitigation, item 7(e), page 18).
- Continue to coordinate with the Department of Historic Resources (DHR) regarding potential impacts to historic resources (Environmental Impacts and Mitigation, item 10(e), page 20).
- Coordinate with the Department of Game and Inland Fisheries (DGIF) concerning the applicability of general recommendations to protect wildlife and natural resources (Environmental Impacts and Mitigation, item 8(c), pages 18-19).
- Coordinate [with] the Federal Aviation Administration regarding submission of Form 7460-1 (Environmental Impacts and Mitigation, item 12(c), page 21).
- Notify the Virginia-American Water Company of the scope of the project and allow the company an opportunity to comment (Environmental Impacts and Mitigation, item 13(c), page 22).
- Follow the principles and practices of pollution prevention to the maximum extent practicable (Environmental Impacts and Mitigation, item 14, page 22).
- Limit the use of pesticides and herbicides to the extent practicable (Environmental Impacts and Mitigation, item 15, page 22).

[18] *Id.* at 3.

[19] Company Application, appendix at 62.

The Company indicated that it intended to comply with all of the DEQ recommendations, with the exception of the VDGIF's recommended buffer zone for wetlands and streams and VDGIF's recommended time-of-use restriction. However, since the VDGIF subsequently withdrew these two recommendations after consulting with Dominion Virginia Power, there is no need for the Commission to address these recommendations at this time.

Alignment of the Proposed Transmission Line

The Company did not consider any routing alternatives for its proposed transmission line since it will be located entirely on existing right-of-way. The Staff Report concluded that "[t]he Company's proposed route is clearly optimal since it is entirely on existing right-of-way and is nearly a straight line."[20]

We agree with the Company and Staff that the proposed route of the transmission line is optimal because it will be located on existing right-of-way and is the shortest route between the Hopewell Substation and the proposed Prince George Substation.

Accordingly, IT IS ORDERED THAT:

(1) As proposed in the application, Dominion Virginia Power is authorized to construct and operate in the City of Hopewell and Prince George County a new 230 kV single circuit transmission line, approximately 2.5 miles in length, between the Company's existing Hopewell Substation and the proposed Prince George Substation.

(2) As proposed in the application, Dominion Virginia Power is authorized to construct and operate the Prince George Substation to be located in the vicinity of Middle Road in Prince George County.

(3) Pursuant to §§ 56-46.1, 56-265.2 and related provisions of Title 56 of the Code, Dominion Virginia Power's application for a certificate of public convenience and necessity to construct and operate a new 230 kV single circuit transmission line in the City of Hopewell and Prince George County and a new substation in Prince George County is granted, as provided for herein, and subject to the requirements set forth in this Order.

(4) Pursuant to the Utility Facilities Act, Chapter 10.1 (§§ 56-265.1 *et seq.*) of Title 56 of the Code, Dominion Virginia Power is issued the following certificate of public convenience and necessity:

> Certificate No. ET-104 m, which authorizes Dominion Virginia Power under the Utility Facilities Act to operate presently certificated transmission lines and facilities in Prince George County and the City of Hopewell, all as shown on the detailed map attached to the certificate, and to construct and operate facilities as authorized in Case No. PUE-2010-00032, cancels Certificate No. ET-104 l, issued to Dominion Virginia Power on October 31, 2008, in Case No. PUE-2007-00020.

(5) The Commission's Division of Energy Regulation shall forthwith provide the Company a copy of the certificate issued in Ordering Paragraph (4) above with the detailed map attached.

(6) The transmission line and substation project approved herein must be constructed and in service by December 31, 2012; however, the Company is granted leave to apply for an extension for good cause shown.

(7) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

[20] Staff Report at 25.

CASE NO. PUE-2010-00033
JUNE 11, 2010

APPLICATION OF
MCBRIDE ENERGY SERVICES, LLC

For a license to conduct business as a competitive service provider for electricity

ORDER GRANTING LICENSE

On April 23, 2010, McBride Energy Services, LLC ("McBride Energy" or "the Company") filed an application with the State Corporation Commission ("Commission") for a license to be a competitive service provider for electric service pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-10 *et seq.* ("Retail Access Rules"). The Company seeks authority to serve commercial and industrial customers in retail access programs throughout the Commonwealth. McBride Energy attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B of the Retail Access Rules.

On April 30, 2010, the Commission issued an Order for Notice and Comment establishing the case; requiring that notice of the application be given to investor-owned electric utilities, electric cooperatives, and other interested persons; providing for the receipt of comments from the public; and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a report ("Staff Report"). The Company filed proof of publication of its notice on May 6, 2010. No comments on McBride Energy's application were received from the public.

The Staff Report was filed on May 27, 2010. The Staff Report summarized McBride Energy's proposal and evaluated its financial condition and technical fitness. The Staff recommended that McBride Energy be granted a license to conduct business as a competitive service provider for electric service to commercial and industrial customers throughout the Commonwealth. The Company filed no comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and applicable law, the Commission finds that McBride Energy's application for a license to conduct business in the Commonwealth as a competitive service provider of electricity should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) McBride Energy Services, LLC is hereby granted License No. E-22 to be a competitive service provider for electric service to commercial and industrial customers throughout the Commonwealth. This license to act as a competitive service provider for electricity is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable law.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE-2010-00034
JULY 29, 2010

APPLICATION OF
THE POTOMAC EDISON COMPANY d/b/a ALLEGHENY POWER

For a determination that its plan complies with 20 VAC 5-317-10 through -50 of the Virginia Administrative Code

DISMISSAL ORDER

Section 56-235.1:1 of the Code of Virginia ("Code"), enacted by the 2009 Session of the Virginia General Assembly, directed the State Corporation Commission ("Commission") to adopt regulations for electric utility standby service provided by electric utilities to customers that operate a cogeneration facility in the Commonwealth that generates renewable energy, as defined in § 56-576 of the Code. By Order Promulgating Regulations, dated December 2, 2009, in Case No. PUE-2009-00080, the Commission adopted regulations entitled "Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code of Virginia" ("Standby Service Rules"). The Standby Service Rules required each electric utility providing electric service in the Commonwealth to submit to the Commission its plan for compliance with the Standby Service Rules on or before April 1, 2010, as required by the Code.

On April 20, 2010, The Potomac Edison Company d/b/a Allegheny Power ("Potomac Edison" or the "Company") filed its Motion to File Out of Time ("Motion") and application, requesting that the Commission find that the Company's existing Alternative Generation Schedule AGS, S.C.C. Va. No. 15, complies with the Standby Service Rules. On May 6, 2010, the Commission issued an Order for Notice and Comment, which granted the Company's Motion, docketed its application, and provided an opportunity for comments and requests for hearing on the application.

On September 15, 2009, Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative (collectively, the "Cooperatives"), and Potomac Edison (with the Cooperatives, collectively, the "Joint Petitioners") filed a Joint Petition with the Commission requesting, among other things, approval of a transaction that would result in the sale to the Cooperatives of Potomac Edison's electric distribution facilities used in connection with the retail sale and distribution of electric power in its Virginia service territory (the "Transaction").[1] On May 14, 2010, the Commission granted the Joint Petition subject to certain requirements to which the Joint Petitioners agreed. On June 1, 2010, the Joint Petitioners completed the Transaction, and the Cooperatives began to provide retail electric service to the customers of Potomac Edison.

As a result of the Transaction, Potomac Edison no longer provides retail electric service to customers in Virginia and is therefore not subject to the Standby Service Rules. An application by the Cooperatives seeking a determination that their existing tariff complies with the Standby Service Rules is pending before the Commission in Case No. PUE-2010-00036.[2]

On June 15, 2010, Potomac Edison filed with the Commission a Motion to Dismiss this proceeding and stated that counsel for Commission Staff does not oppose the Motion.

NOW THE COMMISSION, being sufficiently advised, is of the opinion and finds that Potomac Edison's Motion to Dismiss should be granted.

Accordingly, IT IS ORDERED THAT:

(1) The Company's Motion to Dismiss is hereby granted.

(2) This case is hereby dismissed from the Commission's docket of active cases, and the papers filed herein shall be placed in the Commission's file for ended causes.

---

[1] *Joint Petition of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and The Potomac Edison Company d/b/a Allegheny Power, For approval of the purchase and sale of service territory and facilities, for the issuance of, and cancellation of, certificates of public convenience and necessity, and for approval of special, transitional rate schedules*, Case No. PUE-2009-00101.

[2] *Application of Virginia Electric Cooperatives, For approval of standby service compliance plan*, Case No. PUE-2010-00036.

CASE NO. PUE-2010-00035
AUGUST 31, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY d/b/a OLD DOMINION POWER COMPANY

For a determination that its plan complies with 20 VAC 5-317-10 through -50 of the Virginia Administrative Code

FINAL ORDER

Section 56-235.1:1 of the Code of Virginia ("Code"), enacted by the 2009 Session of the Virginia General Assembly,[1] directs the State Corporation Commission ("Commission") to adopt regulations for electric utility standby service provided by electric utilities to "customers that operate a cogeneration facility in the Commonwealth that generates renewable energy, as defined in § 56-576." This law also requires that such regulations must "allow the electric utility to recover all of the costs that are identified by the electric utility and determined by the Commission to be related to the provision of the stand-by service, including but not limited to the costs of transformers and other equipment required to provide stand-by service and the costs of capacity and generation, including but not limited to fuel costs."

Section 56-235.1:1 of the Code further requires that within ninety (90) days of the effective date of such regulations, "each public utility providing electric service in the Commonwealth shall submit a plan setting forth how the utility will comply with the regulations if it does not already have stand-by provisions approved by the Commission that comply with the regulations." Thereafter, the Commission is required, after notice and an opportunity for a hearing, to determine whether a utility's plan complies with the regulations.

By Order dated December 2, 2009, in Case No. PUE-2009-00080, the Commission adopted regulations entitled "Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code" ("Standby Service Rules").[2] Pursuant to 20 VAC 5-317-40 of the Standby Service Rules, each electric utility was required to submit to the Commission, on or before April 1, 2010, its plan for compliance with the Standby Service Rules.

On April 1, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Company") filed an application with the Commission seeking a determination that its proposed standard rate rider for Supplemental or Standby Service ("Rider") complies with the Standby Service Rules. According to the Company, the proposed Rider would provide supplemental or standby service "to customers whose premises or equipment are regularly supplied with electric energy from generating facilities other than those of [the] Company and who desire to contract with [the] Company for reserve, breakdown, supplemental or stand-by service."[3] The proposed tariff also provides that customers' payment under the tariff would be due twelve (12) days from the date of the bill.

On April 27, 2010, the Commission entered an Order for Notice and Comment in this proceeding that, among other things, directed KU/ODP to provide public notice of the proposed Rider and afforded interested persons an opportunity to file comments or request a hearing on the matter. No public comments, requests to participate as a respondent, or requests for a hearing were submitted.

On July 1, 2010, a Staff Report ("Report") prepared by the Commission's Division of Energy Regulation was filed. The Staff noted that, as filed, the rate calculations for KU/ODP's Rider included a number of inconsistencies: (i) a 7.787% weighted cost of capital;[4] (ii) inclusion of non-jurisdictional costs and data in the cost of service study; (iii) inclusion of primary demand costs in the rate base for secondary distribution lines; and (iv) inclusion of cost of service information that did not reflect the ratemaking adjustments approved in the Commission's Final Order in the Company's recent base rate proceeding.[5] Accordingly, the Staff proposed a revised Standby Service Rider that adjusts for these inconsistencies and provided the proper rates for KU/ODP to recover all of the costs identified by the Company to be related to the provision of standby service.

The Staff further noted that the Commission's Opinion and Final Order in Case No. 19589 established for public utilities a twenty (20) day minimum between the date of mailing a customer's bill and the date when such payment may be considered overdue.[6] Accordingly, the Staff recommended that the bill date period under the proposed tariff be changed from twelve (12) days to twenty (20) days.

On July 12, 2010, KU/ODP filed its response to the Staff Report ("Response"). In its Response, KU/ODP stated that it did not object to the contents or conclusions of the Staff Report and recommended that the Commission authorize the proposed standby service by approving the revised Standby Service Rider proposed by the Staff. KU/ODP requested that the Commission issue its order in this proceeding by August 31, 2010, making the revised Standby Service Rider effective for service rendered on and after September 1, 2010.

NOW THE COMMISSION, having considered the matter, is of the opinion and finds that KU/ODP's Rider, as revised by the Staff in its Report, complies with the Standby Service Rules. We further find that, as recommended by Staff, the bill date period under the Company's proposed Rider should be changed from twelve (12) days to twenty (20) days. The Company should file with the Commission's Division of Energy Regulation a revised rider that: (i) incorporates the Staff's revisions, and (ii) changes the bill payment due date period from twelve (12) days to twenty (20) days after the date of

the bill. The revised Rider should be submitted as soon as possible but in no event later than thirty (30) days from the entry of this Order and should be made effective for service rendered on and after September 1, 2010.

Accordingly, IT IS ORDERED THAT:

(1) KU/ODP's Rider, as revised by the Staff in its Report, complies with the Standby Service Rules.

(2) KU/ODP shall file with the Commission's Division of Energy Regulation, as soon as possible but in no event later than thirty (30) days from the date of this Order, a revised rider that: (i) incorporates the Staff's revisions, and (ii) changes the bill date period from twelve (12) days to twenty (20) days.

(3) The revised rider be made effective for service rendered on and after September 1, 2010.

(4) As there is nothing further to come before the Commission, this matter is dismissed from the Commission's active docket and the papers filed herein placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00036
AUGUST 26, 2010

APPLICATION OF
VIRGINIA ELECTRIC COOPERATIVES

For approval of Standby Service Compliance Plan

ORDER

Virginia Code ("Code") § 56-235.1:1, enacted by the 2009 Session of the Virginia General Assembly,[1] directed the State Corporation Commission ("Commission") to adopt regulations for electric utility standby service provided by electric utilities to "customers that operate a cogeneration facility in the Commonwealth that generates renewable energy, as defined in § 56-576." This law also required that such regulations must "allow the electric utility to recover all of the costs that are identified by the electric utility and determined by the Commission to be related to the provision of the stand-by service, including but not limited to the costs of transformers and other equipment required to provide stand-by service and the costs of capacity and generation, including but not limited to fuel costs."

Section 56-235.1:1 of the Code further required that within ninety (90) days of the effective date of such regulations, each public utility providing electric service in the Commonwealth must "submit a plan setting forth how the utility will comply with the regulations if it does not already have stand-by provisions approved by the Commission that comply with the regulations." Thereafter, the Commission is required, after notice and an opportunity for a hearing, to determine whether a utility's plan complies with the regulations.

By Order dated December 2, 2009, in Case No. PUE-2009-00080, the Commission adopted regulations entitled: Rates for Standby Service Furnished to Certain Renewable Cogeneration Facilities Pursuant to § 56-235.1:1 of the Code ("Standby Service Rules").[2] Pursuant to 20 VAC 5-317-40 of the Standby Service Rules, each electric utility was required to submit to the Commission, on or before April 1, 2010, its plan for compliance with the Standby Service Rules.

On March 31, 2010, A&N Electric Cooperative, BARC Electric Cooperative, Central Virginia Electric Cooperative, Community Electric Cooperative, Craig-Botetourt Electric Cooperative, Mecklenburg Electric Cooperative, Northern Neck Electric Cooperative, Northern Virginia Electric Cooperative, Prince George Electric Cooperative, Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and Southside Electric Cooperative (collectively, "Cooperatives") filed with the Commission a Request for Waiver or, in the Alternative, Proposed Compliance Plan ("Application" or "Compliance Plan").

In their Application, the Cooperatives requested that the Commission waive the Standby Service Rules for the Cooperatives and allow them to continue their current practice of negotiating standby service rates on a case-by-case basis. According to the Cooperatives, in negotiating an arrangement for standby service, each Cooperative would calculate the cost of the physical plant and other facilities necessary to serve the customer. The Cooperative would then collect these costs through an excess facilities charge, a contribution-in-aid of construction, or some combination of the two. The Cooperative and the customer would then enter into a formal agreement memorializing terms, which the Cooperatives argue would comply with the Standby Service Rules. According to the Application, each Cooperative has at least one existing rate schedule under which such service could be provided.[3]

On April 27, 2010, the Commission issued an Order for Notice and Comment in this proceeding denying the Cooperatives' request for waiver and requiring the Cooperatives to provide notice to the public and allowing interested parties to comment on the Application or request a hearing in this matter. The Commission received no comments or requests for hearing. By letter dated July 2, 2010, Staff indicated that it did not intend to file comments.

NOW THE COMMISSION, having considered the matter, is of the opinion that the Cooperatives' Compliance Plan satisfies the requirements of § 56-235.1:1 of the Code and the Commission's Standby Service Rules.

---

[1] Chapter 745 of the 2009 Acts of Assembly.

[2] Chapter 317 (20 VAC 5-317-10 *et seq.*) of Title 20 of the Virginia Administrative Code.

[3] Application at 4-5.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) The Cooperatives' Compliance Plan is hereby approved.

(2) As there is nothing further to come before the Commission, this matter is dismissed and the papers herein placed in the file for ended causes.

CASE NO. PUE-2010-00037
JULY 9, 2010

APPLICATION OF
COLUMBIA GAS OF VIRGINIA, INC.

For approval to modify the application of an allocation factor in a service agreement between Columbia Gas of Virginia, Inc., and NiSource Corporate Services Company pursuant to Chapter 4 of Title 56 of the Code of Virginia

ORDER GRANTING APPROVAL

On April 21, 2010, Columbia Gas of Virginia, Inc. ("CGV" or "Applicant"), filed an application ("Application") with the State Corporation Commission ("Commission") requesting approval to modify an allocation basis employed in a Service Agreement, as amended ("Amended Service Agreement"), between CGV and NiSource Corporate Services Company ("NCSC") pursuant to Chapter 4 of Title 56 ("Affiliates Act") of the Code of Virginia ("Code").[1] The Applicant also requested: (i) modification of the allocation basis to be approved contemporaneously with the February 1, 2010, effective date of the modification for other NiSource affiliates;[2] (ii) the request to be approved without the necessity of a public hearing; and (iii) the Commission to grant such further relief as may be necessary and appropriate.

On June 15, 2010, pursuant to § 56-77 of the Code, the Commission entered its Order Extending Time for Review of the issues in this matter through July 20, 2010.

CGV is a Virginia public service corporation and natural gas local distribution company that serves approximately 240,000 residential, commercial, and industrial customers located in Central and Southern Virginia, the Piedmont region, the Shenandoah Valley, portions of Northern and Western Virginia, and the Hampton Roads region.

NCSC operates as a centralized service company subject to the jurisdiction of the Federal Energy Regulatory Commission pursuant to 18 C.F.R. §§ 366 *et seq*. of the Public Utility Holding Company Act of 2005 ("PUHCA 2005"). NCSC provides corporate, administrative, and technical support services to NiSource and its affiliates, including CGV.

NiSource is an energy holding company organized pursuant to PUHCA 2005, whose subsidiaries provide natural gas transmission, storage and distribution, electric generation, transmission and distribution, and other products and services to approximately 3.8 million customers located within a corridor that runs from the Gulf Coast through the Midwest to New England. For the twelve months ending December 31, 2009, NiSource reported consolidated revenues of approximately $6.65 billion and net income of $218 million. NiSource employs 7,616 people and has a current market capitalization of approximately $4.5 billion.

Since CGV and NCSC share the same senior parent company, NiSource, the companies are considered affiliated interests under § 56-76 of the Code. As such, CGV must obtain approval from the Commission pursuant to the Affiliates Act prior to entering into any contract or arrangement between the companies to furnish or receive services; purchase, sell, lease, or exchange any property, right, or thing; or purchase or sell treasury bonds or treasury capital stock.

The Amended Service Agreement, which the Commission previously approved in Case No. PUE-2009-00063,[3] allows CGV to obtain a variety of corporate, administrative, and technical support services ("Corporate Services")[4] from NCSC at cost, which includes overheads and reasonable compensation for the cost of capital[5] necessary to provide the services. NCSC bills the Corporate Services, to the extent possible, directly to the NiSource

[1] CGV is a wholly owned subsidiary of the Columbia Energy Group, which is a wholly owned subsidiary of NiSource Inc. ("NiSource"). NCSC is a wholly owned subsidiary of NiSource.

[2] NCSC updates its allocation factors on a semi-annual basis, each February and July.

[3] *See Application of Columbia Gas of Virginia, Inc., For approval of a Service Agreement, as amended, between Columbia Gas of Virginia, Inc., and NiSource Corporate Services Company pursuant to Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2009-00063, 2009 S.C.C. Ann. Rept. 495, 497, Order Granting Approval (Sept. 25, 2009) (hereafter "PUE-2009-00063 Order").

[4] The Corporate Services listed in Appendix A to the Amended Service Agreement include: Accounting and Statistical Services; Auditing Services; Budget Services; Business Promotion Services; Corporate Services; Depreciation Services; Economic Services; Electronic Communications Services; Employee Services; Engineering and Research Services; Gas Dispatching Services; Information Technology Services; Information Services; Insurance Services; Legal Services; Office Space; Officers; Operations, Support and Planning Services; Purchasing, Storage and Disposition Services; Rate Services; Tax Services; Transportation Services; Treasury Services; Land/Surveying Services; Customer Billing, Collection and Contact Services; and Miscellaneous Services. However, Ordering Paragraph (3) of the PUE-2009-00063 Order denied approval of the Miscellaneous Services service category and requires CGV to seek separate Commission approval to add a new Corporate Service from NCSC that is not specifically identified in the Amended Service Agreement.

[5] CGV represents that the term "compensation for the cost of capital" refers to the recovery of the interest costs that NCSC incurs on its inter-company long-term debt with NiSource Finance Corporation. There is no cost of equity component included in the Corporate Service charges.

affiliate receiving the service. Any remaining costs are allocated using one of thirteen allocation bases.[6] Article 2, Section 2.2 of the Amended Service Agreement allows NCSC to modify the allocators to reflect the addition, sale or modification of groups of NiSource companies within an allocation basis. Ordering Paragraph (6) of the PUE-2009-00063 Order states that any change in the terms or conditions of the Amended Service Agreement, including any changes in allocation methodologies affecting CGV, requires further Commission approval.

Allocation Basis 20

Allocation Basis 20 – Direct Costs ("Basis 20") is described below.

> Job order charges will be allocated to each benefited affiliate on the basis of the relation of its direct costs billed by [NCSC] to the total of all direct costs billed by [NCSC]. All companies may be included in this allocation.

The primary purpose of Basis 20 is to allocate corporate type functions that benefit all NiSource companies, including the NiSource parent and non-regulated affiliates. Historically, the Basis 20 term "all direct costs billed by NCSC" has been interpreted to include all NCSC contract billings, which includes billings for services provided to all NiSource affiliates and NiSource Business Unit ("NBU") specific billings. A NBU is a group of NiSource affiliate companies with similar operations that report internally or externally as a business segment up to a NBU chief executive. NBUs sometimes employ NCSC to provide and bill out certain services that are shared only between the affiliates that comprise the NBU. NCSC does not bill CGV or any other NiSource affiliate for use of the billing system because it is fully depreciated.

Recently, the NiSource Gas Distribution NBU has transferred certain operating functions to NCSC,[7] which has increased its NBU specific billings. That, in turn, has increased the percentage of NCSC charges allocated to CGV under Basis 20. NCSC, after consulting with the NBUs, determined that Basis 20 should be modified to include only the billings for services provided to all NiSource affiliates in order to achieve a more equitable allocation of costs.

The effect of the proposed change is expected to reduce CGV's Basis 20 billings. Based on NCSC's 2009 contract billings, CGV's Basis 20 allocation percentage would decline 84 basis points (from 4.98% to 4.14%), and its annual Corporate Services charges would decrease approximately $490,000. CGV further represents that the Basis 20 modification will not shift costs to another part of its NCSC contract bill or change its billings from other NBU affiliates.

NOW THE COMMISSION, upon consideration of the Application and representations of the Applicant and having been advised by its Staff, is of the opinion and finds that the captioned Application appears reasonable. The proposed Basis 20 modification should produce a more equitable allocation of NCSC Corporate Service charges to NiSource affiliates. For CGV, the Basis 20 change is expected to reduce annual Corporate Services costs by approximately $490,000. Therefore, we find that the proposed modification of Basis 20 pursuant to the Amended Service Agreement is in the public interest and should be approved subject to the following requirements.

First, we find that all of the regulatory, recordkeeping, and reporting requirements for the Amended Service Agreement that were established by the PUE-2009-00063 Order should remain in force.

Second, we note that CGV has not requested any change in the language of the Amended Service Agreement itself to highlight the Basis 20 modification. For the purpose of future reference, we find that CGV should file with the Commission within sixty (60) days of the date of this Order an addendum to the Amended Service Agreement stating that Basis 20 has been modified to allocate corporate type functions and costs that benefit all NiSource companies pursuant to our Order Granting Approval in Case Number PUE-2010-00037.

Third, CGV represents that its request for approval effective with the February 2010 billings is intended to align the effective date of the Basis 20 modification for CGV with NCSC's semi-annual allocation basis update and the effective date of the Basis 20 modification for other NiSource affiliates. In addition, CGV represents that it will receive a credit from NCSC for the difference in current and proposed Basis 20 billings from February 2010 to the present. Based on these representations, we will approve the Basis 20 modification contemporaneously with the February 1, 2010, effective date of the modification for other NiSource affiliates.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 56-77 of the Code, Columbia Gas of Virginia, Inc., is hereby granted approval to modify the Basis 20 allocation basis for the Amended Service Agreement, consistent with the findings set out above and effective with the February 1, 2010, modification date for other NiSource affiliates as described herein.

(2) The regulatory, recordkeeping, and reporting requirements that are set out in the PUE-2009-00063 Order shall remain in full force.

(3) Within sixty (60) days of the date of the entry of the Order Granting Approval in this case, CGV shall file with the Commission an addendum to the Amended Service Agreement stating that Basis 20 has been modified to allocate corporate type functions and costs that benefit all NiSource companies pursuant to the Commission's Order Granting Approval in Case Number PUE-2010-00037.

---

[6] The allocation bases listed in Revised Exhibit A to the Amended Service Agreement include: 50% Gross Fixed Assets and 50% Total Operating Expenses; Gross Fixed Assets; 50% Gross Depreciable Property and 50% Total Operating Expense; Gross Depreciable Property; Automobile Units; Number of Retail Customers; Number of Regular Employees; Fixed Allocation; Number of Transportation Customers; Number of Commercial Customers; Number of Residential Customers; Number of High Pressure Customers; and Direct Costs.

[7] The transferred functions and services include: Bangs Fabrication Shop; Billing Exceptions; Cash Operations; Columbia Distribution Company Sales; Damage Prevention & Recovery; Engineering Technology; Gas Transportation Management; Meter Shop; Operations Support; Program Administration; Revenue Recovery; Standards and Compliance; and Technical Support. CGV benefits from all of the transferred functions and services, which are classified under existing and previously approved service categories.

(4) Commission approval shall be required for any changes in the terms and conditions of the Amended Service Agreement, including any changes in allocation methodologies affecting CGV and successors or assignees.

(5) The approval granted in this case shall have no ratemaking implications. Specifically, the approval granted in this case shall not guarantee the recovery of any costs directly or indirectly related to the Amended Service Agreement.

(6) The approval granted herein shall not preclude the Commission from exercising the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(7) The Commission reserves the right to examine the books and records of any affiliate in connection with the approval granted herein whether or not such affiliate is regulated by this Commission.

(8) CGV shall include the transactions associated with the Basis 20 modification to the Amended Service Agreement approved in this case in its Annual Report of Affiliate Transactions ("ARAT") submitted to the Commission's Director of the Division of Public Utility Accounting ("PUA Director") on May 1 of each year, subject to administrative extension by the Commission's PUA Director.

(9) In the event that CGV's annual informational filings or expedited or general rate case filings are not based on a calendar year, then CGV shall include the affiliate information contained in its ARAT in such filings.

(10) There appearing nothing further to be done, this case shall be dismissed from the Commission's docket of active cases, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00038
JULY 1, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY
and
AEP APPALACHIAN TRANSMISSION COMPANY, INC.

For authority to enter into affiliate transactions under Chapter 4 of Title 56 of the Code of Virginia

ORDER TERMINATING PROCEEDING

On April 26, 2010, Appalachian Power Company and AEP Appalachian Transmission Company, Inc. ("Virginia Transco") (collectively, the "Joint Applicants"), filed a joint application ("Application") with the State Corporation Commission ("Commission") seeking authority to enter into affiliate transactions pursuant to Chapter 4 of Title 56 of the Code of Virginia.[1]

On April 30, 2010, the Commission issued an Order for Notice and Comment and Extending Time for Review ("Procedural Order"). Among other things, the Procedural Order established deadlines for the filing of written comments, notices of participation, and requests for hearing. The Procedural Order also authorized the Joint Applicants, on or before July 2, 2010, to respond to any request for hearing and to file rebuttal testimony.

On June 29, 2010, the Joint Applicants filed a Motion to Withdraw Application and Terminate Proceeding ("Motion"). In support of their Motion, the Joint Applicants note that their response to the rate impact analysis conducted by the Staff of the Commission ("Staff") in the Staff Report filed on June 22, 2010, will necessarily be dependent upon the formula transmission rate that has not yet been approved for Virginia Transco by the Federal Energy Regulatory Commission ("FERC") in Docket No. ER10-355-000. Because it is unlikely the FERC proceeding will be concluded prior to the Commission's statutory deadline for ruling on the Application, the Joint Applicants seek leave to withdraw the Application and request that the Commission terminate this proceeding. Also, because their rebuttal testimony is currently due on July 2, 2010, the Joint Applicants request expedited consideration of their Motion.

On June 30, 2010, the Staff, by counsel, filed a letter stating that it does not oppose the Motion. The Old Dominion Committee for Fair Utility Rates also consented to the Motion on July 1, 2010.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds that the Motion should be granted and that the Application should be dismissed without prejudice.

Accordingly, IT IS ORDERED THAT:

(1) The Joint Applicants' Motion is hereby granted.

(2) This matter is dismissed without prejudice.

[1] Pursuant to Va. Code § 56-84, approximately thirty (30) affiliates of the Joint Applicants also joined in the Application.

CASE NO. PUE-2010-00039
JUNE 11, 2010

APPLICATION OF
GREEN kW ENERGY, INC.

For a license to conduct business as a competitive service provider for electricity

ORDER GRANTING LICENSE

On April 28, 2010, Green kW Energy, Inc., ("GkW Energy" or "Company"), filed an application with the State Corporation Commission ("Commission") for a license to be a competitive service provider for electricity pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-10 *et seq.* ("Retail Access Rules). The Company seeks authority to serve commercial and industrial customers throughout the Commonwealth of Virginia. The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B of the Virginia Administrative Code.

On May 7, 2010, the Commission issued an Order for Notice and Comment ("Order") in this proceeding in which it, among other things: (1) required that notice of the application be served upon appropriate persons; (2) permitted interested persons to file comments on the Company's application; and (3) required the Commission Staff to analyze the reasonableness of GkW Energy's application and present its findings in a Staff Report ("Report"). On May 24 and May 26, 2010, the Company filed the proof of notice required by Ordering Paragraph (5) of the Order. No comments from the public on GkW Energy's application were received.

The Staff filed its Report on June 4, 2010, concerning GkW Energy's fitness to conduct business as a competitive service provider for electricity. In its Report, the Staff summarized GkW Energy's proposal and evaluated its financial condition and technical fitness. Based on its review of the application, Staff recommended that GkW Energy be granted a license to conduct business as a competitive service provider for electricity to commercial and industrial customers throughout the Commonwealth of Virginia. The Company filed no comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and the applicable law, the Commission finds that GkW Energy's application to be a competitive electric provider for electricity should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) Green kW Energy, Inc. is hereby granted License No. E-23 to be a competitive service provider of electricity to commercial and industrial customers throughout the Commonwealth of Virginia. This license to act as a competitive service provider for electricity is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable statutes.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modification to this license.

CASE NO. PUE-2010-00040
OCTOBER 1, 2010

PETITION OF
C & P ISLE OF WIGHT WATER CO.

For approval of the disposition of a water facility serving the subdivision known as Queen Anne's Court to Isle of Wight County and approval to amend C & P Isle of Wight Water Co.'s certificate of public convenience and necessity

ORDER GRANTING APPROVAL

On April 30, 2010, C & P Isle of Wight Water Co. ("C&P" or "Petitioner") filed a petition with the State Corporation Commission ("Commission") pursuant to Chapter 5 of Title 56 of the Code of Virginia ("Code") requesting approval of the disposition of a water system and approval to amend C&P's certificate of public convenience and necessity to reflect such disposition. C&P and Isle of Wight County ("County") have entered into a Water System Purchase Agreement ("Agreement") wherein the County will purchase from C&P the water system serving the Queen Anne's Court subdivision located in the Newport Magisterial District in the County of Isle of Wight, Virginia. The water system currently serves 62 customers in the subdivision.

C&P is a Virginia public service corporation that provides water in southeastern Virginia to 753 customers. C&P owns and operates the Queen Anne's Court water system. C&P, which is headquartered in Smithfield, Virginia, is jointly owned and operated by Ted W. Christian and David D. Pugh. The County operates as a public service authority and provides water service to customers in and around the County of Isle of Wight, Virginia.

The Petitioner states that the water system is currently experiencing issues with the amount of fluoride contained in the water. The Petitioner further states that C&P is unable to remedy the issue unless major upgrades are made to the system, which will, in turn, require major expenditures on C&P's behalf and would likely result in significant rate increases for all of C&P's customers. The Petitioner represents that the County is in position to provide adequate service to the customers at just and reasonable rates. The Petitioner further represents that C&P will continue providing service to its other customers at just and reasonable rates, and the service to its customers will not be impaired or jeopardized by the proposed transfer.

The assets involved in the proposed transfer include all items used in the delivery of water to the Queen Anne's Court subdivision customers, including, but not limited to, all easements, rights-of-way, territorial rights, permits and franchises, and the distribution system, including all pipelines, water meters, and connections, and all other hardware, excluding the well lot and pump house.

In accordance with the Agreement, the County will purchase the water system from C&P for $70,000. The purchase price was negotiated at arm's length by the parties. C&P acquired the system in June 1998 at an original cost of $24,500.

The purpose of the transfer for C&P is to allow it to dispose of a water system that is in need of significant upgrades. The fluoride levels of the water system exceed the acceptable levels approved by the Commonwealth of Virginia's Department of Health. Excessive fluoride levels can present certain health risks. The Petitioner represents that C&P would need to spend a significant amount of money to bring the fluoride to acceptable levels.

For the County, the purpose of the transfer is to acquire a water system within its operating territory in an effort to provide its citizens with a dependable supply of drinking water. The County plans to abandon the system's well and connect the system to a treated water source from the Western Tidewater Water Authority ("WTWA"). By doing so, the County will be able to eliminate the excessive fluoride in the water and provide Queen Anne's Court residents with clean, reliable water.

After the proposed transfer, the Queen Anne's Court customers will be served by the County and will pay its rates, which are expected to be higher than C&P's. Additionally, the customers will be required to pay a connection fee of $500. The Queen Anne's Court customers were notified of the proposed transfer and the resulting increase in rates and connection fee, and no customer commented on or responded to the notice. The connection fee will be used to help offset the County's cost of connecting the water system to the WTWA infrastructure. The connection fee will be billed separately from the service bill, and owners will be given six months to pay the fee before any interest will begin to accrue. After the six-month period, a 10% penalty plus interest will accrue at a rate of 10% per annum, billed monthly.

NOW THE COMMISSION, upon consideration of the petition and representations of the Petitioner and having been advised by its Staff, is of the opinion and finds that the proposed transfer will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and, therefore, should be approved.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to §§ 56-89 and 56-90 of the Code, the Petitioner is hereby granted approval of the transfer of the Queen Anne's Court water system to Isle of Wight County, as described herein.

(2) C & P Isle of Wight Water Co.'s Certificate No. W-283(f) is hereby cancelled.

(3) C & P Isle of Wight Water Co. shall be granted a certificate of public convenience and necessity, Certificate No. W-283(g), to provide water service to the subdivisions previously authorized in Certificate No. W-283(f) that are not covered by our approval in this matter.

(4) Within sixty (60) days from the date of this Order Granting Approval, C & P Isle of Wight Water Co. shall submit to the Commission's Division of Energy Regulation a new tariff that reflects the changes to C&P's service area.

(5) Within ninety (90) days of completing the transfer, the Petitioner shall file a report with the Commission to include the date of the transfer, the actual transfer price, and the actual accounting entries reflecting the transfer.

(6) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00042
MAY 11, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

To revise its fuel factor pursuant to § 56-249.6 of the Code of Virginia

ORDER ESTABLISHING 2010-2011 FUEL FACTOR PROCEEDING

On April 30, 2010, Virginia Electric and Power Company ("Dominion Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits requesting to decrease its fuel factor from 2.927 cents per kilowatt-hour to 2.803 cents per kilowatt-hour, effective for usage on and after July 1, 2010. According to the Company's application, the proposed fuel factor will decrease the Company's fuel expense recovery by approximately $81.6 million below the 2009-2010 fuel recovery level.[1]

The Company's proposed total fuel factor, Fuel Charge Rider A, consists of both a current and prior period factor. According to the application, Fuel Charge Rider A's proposed current period factor of $0.02659/kWh is designed to recover the Company's estimated Virginia jurisdictional fuel expenses of approximately $1.8 billion for the period July 1, 2010 through June 30, 2011. Fuel Charge Rider A's proposed prior period factor of $0.00144/kWh is designed to recover approximately $94.4 million, and this amount is the net of three projected June 30, 2010 balances. The first balance is the projected June 30, 2010 under-recovery balance of approximately $61.7 million associated with recovery of the July 2009 through June 2010 current period expense. The second balance is the projected June 30, 2010 over-recovery balance of approximately $0.8 million associated with recovery of the July 2009 through June 2010 prior period expense. The third balance is the projected June 30, 2010 under-recovery balance of approximately $33.5 million associated with

[1] Company application at 2.

recovery of the remaining portion of the June 30, 2007 Deferral Portion balance pursuant to Va. Code § 56-249.6 C. In connection with its application, the Company is also proposing certain modifications to the Commission's Definitional Framework of Fuel Expenses for Virginia Electric and Power Company, one of which specifies the fuel factor treatment for revenues associated with certain transmission rights the Company receives via its membership and participation in the PJM Interconnection. Additionally, and concurrent with filing its application herein, the Company filed with the Clerk of the Commission a motion seeking the entry of a protective order in this docket.

NOW THE COMMISSION, having considered the application, is of the opinion and finds that this matter should be docketed; that public notice and an opportunity for participation in this proceeding should be given; and that a hearing should be scheduled on the application.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUE-2010-00042.

(2) The Company's proposed fuel factor of 2.803 cents per kilowatt-hour shall be placed into effect on an interim basis for service rendered on and after July 1, 2010.

(3) A public hearing shall be convened on September 8, 2010, at 10:00 a.m. in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive comments from the public and evidence related to the establishment of Dominion Virginia Power's fuel factor. Any person desiring to make a statement at the public hearing concerning the application need only appear in the Commission's Second Floor Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff.

(4) The Company shall forthwith make copies of its application, prefiled testimony, and exhibits available for public inspection during regular business hours at all Company offices in the Commonwealth of Virginia. Interested persons may also review a copy of Dominion Virginia Power's application in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. Interested persons may also request a copy of the same, at no charge, by written request to counsel for Dominion Virginia Power, Karen L. Bell, Esquire, or William H. Baxter, II, Esquire, Dominion Resources Services, 120 Tredegar Street, Richmond, Virginia 23219. Dominion Virginia Power shall make a copy available on an electronic basis upon request. In addition, unofficial copies of the Company's application, Commission Orders entered in this docket, the Commission's Rules of Practice and Procedure ("Rules"), as well as other information concerning the Commission and the statutes it administers, may be viewed on the Commission's website at http://www.scc.virginia.gov/case.

(5) On or before June 3, 2010, Dominion Virginia Power shall cause a copy of the following notice to be published as display advertising (not classified) on one occasion in newspapers of general circulation throughout its service territory in the Commonwealth of Virginia:

NOTICE TO THE PUBLIC OF VIRGINIA
ELECTRIC AND POWER COMPANY'S REQUEST
TO DECREASE ITS FUEL FACTOR
CASE NO. PUE-2010-00042

On April 30, 2010, Virginia Electric and Power Company ("Dominion Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits requesting to decrease its fuel factor from 2.927 cents per kilowatt-hour to 2.803 cents per kilowatt-hour, effective for usage on and after July 1, 2010. According to the Company's application, the proposed fuel factor will decrease the Company's fuel expense recovery by approximately $81.6 million below the 2009-2010 fuel recovery level.

The Company's proposed total fuel factor, Fuel Charge Rider A, consists of both a current and prior period factor. According to the application, Fuel Charge Rider A's proposed current period factor of $0.02659/kWh is designed to recover the Company's estimated Virginia jurisdictional fuel expenses of approximately $1.8 billion for the period July 1, 2010 through June 30, 2011. Fuel Charge Rider A's proposed prior period factor of $0.00144/kWh is designed to recover approximately $94.4 million, and this amount is the net of three projected June 30, 2010 balances. The first balance is the projected June 30, 2010 under-recovery balance of approximately $61.7 million associated with recovery of the July 2009 through June 2010 current period expense. The second balance is the projected June 30, 2010 over-recovery balance of approximately $0.8 million associated with recovery of the July 2009 through June 2010 prior period expense. The third balance is the projected June 30, 2010 under-recovery balance of approximately $33.5 million associated with recovery of the remaining portion of the June 30, 2007 Deferral Portion balance pursuant to Va. Code § 56-249.6 C. In connection with this application, the Company is also proposing certain modifications to the Commission's Definitional Framework of Fuel Expenses for Virginia Electric and Power Company, one of which specifies the fuel factor treatment for revenues associated with certain transmission rights the Company receives via its membership and participation in the PJM Interconnection.

Pursuant to § 56-249.6 of the Code of Virginia, the Commission has scheduled a public hearing to commence at 10:00 a.m. on September 8, 2010, in the Commission's Second Floor Courtroom, Tyler Building, 1300 East Main Street, Richmond, Virginia, for the purpose of receiving comments from members of the public and evidence related to the establishment of Dominion Virginia Power's fuel factor.

The Company's application, prefiled testimony, and exhibits are available for public inspection during regular business hours at all of the Company's offices in the Commonwealth of Virginia. Interested persons may also review a copy of the application in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. A copy of the Company's application

may also be obtained by written request to counsel for Dominion Virginia Power, Karen L. Bell, Esquire, or William H. Baxter, II, Esquire, Dominion Resources Services, 120 Tredegar Street, Richmond, Virginia 23219. Dominion Virginia Power shall make a copy available on an electronic basis upon request. In addition, unofficial copies of the Company's application, Commission Orders entered in this docket, the Commission's Rules of Practice and Procedure, as well as other information concerning the Commission and the statutes it administers, may be viewed on the Commission's website: http://www.scc.virginia.gov/case.

Any person desiring to make a statement at the public hearing concerning the application need only appear in the Commission's Second Floor Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff. Any person desiring to file written comments on the Company's application shall file, on or before September 2, 2010, such comments with the Clerk of the Commission at the address set forth below. Any person desiring to file comments electronically may do so, on or before September 2, 2010, by following the instructions found at the Commission's website: http://www.scc.virginia.gov/case.

On or before July 15, 2010, any interested person may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, and shall simultaneously serve a copy of the notice of participation on counsel to the Company. Interested persons should obtain a copy of the Commission's Order for further details on participation as a respondent.

On or before July 15, 2010, each respondent may file with the Clerk at the address set forth above, an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to Dominion Virginia Power and on all other respondents.

All filings with the Clerk of the Commission shall refer to Case No. PUE-2010-00042 and shall simultaneously be served on counsel for the Company at the address set forth above.

VIRGINIA ELECTRIC AND POWER COMPANY

(6) On or before June 3, 2010, the Company shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager of every city and town (or upon equivalent officials in counties, towns, and cities having alternate forms of government) in which the Company provides service in the Commonwealth of Virginia. Service shall be made by first class mail to the customary place of business or residence of the person served.

(7) At the commencement of the hearing scheduled herein, the Company shall provide proof of service and notice as required in this Order.

(8) Any person desiring to file written comments on the Company's application shall file, on or before September 2, 2010, such comments with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Any person desiring to file comments electronically may do so, on or before September 2, 2010, by following the instructions found at the Commission's website: http://www.scc.virginia.gov/case.

(9) On or before July 15, 2010, any interested person may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set out in Ordering Paragraph (8) above and shall simultaneously serve a copy of the notice of participation on counsel to the Company at the address set forth in Ordering Paragraph (4) above. Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2010-00042.

(10) Within three (3) business days of receipt of a notice of participation as a respondent, the Company shall serve upon each respondent a copy of this Order, a copy of the application, and all materials filed with the Commission, unless these materials have already been provided to the respondent.

(11) On or before July 15, 2010, each respondent may file with the Clerk of the Commission at the address set forth in Ordering Paragraph (8) above, an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall simultaneously serve copies of the testimony and exhibits on counsel to the Company and all other respondents.

(12) The Commission Staff shall investigate the reasonableness of the Company's estimated fuel expenses and proposed fuel factor. On or before August 5, 2010, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of the Staff's testimony and exhibits regarding the captioned application and shall promptly serve a copy on counsel to the Company and all respondents.

(13) On or before August 19, 2010, the Company shall file with the Clerk of the Commission an original and fifteen (15) copies of any testimony that the Company expects to offer in rebuttal to the testimony and exhibits of the respondents and the Commission Staff and shall on the same day serve one (1) copy on Staff and all respondents.

(14) The Company and all respondents shall respond to written interrogatories within five (5) business days after receipt of the same. Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice and Procedure.

(15) Pursuant to § 12.1-31 of the Code of Virginia and 5 VAC 5-20-120 of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.*, the Commission assigns a Hearing Examiner to rule on any discovery matter that may arise in this proceeding, including the Company's motion seeking the entry of a protective order in this docket filed with the Clerk of the Commission on April 30, 2010.

(16) This proceeding shall be continued generally.

CASE NO. PUE-2010-00042
OCTOBER 7, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

To revise its fuel factor pursuant to § 56-249.6 of the Code of Virginia

ORDER ESTABLISHING FUEL FACTOR

On April 30, 2010, Virginia Electric and Power Company ("Virginia Power" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits requesting to decrease its fuel factor from 2.927¢/kilowatt-hour ("kWh") to 2.803¢/kWh, effective for usage on and after July 1, 2010 ("Application"). According to the Application, the proposed fuel factor will decrease the Company's fuel expense recovery by approximately $81.6 million below the 2009-2010 fuel recovery level.[1]

The Company's proposed total fuel factor, Fuel Charge Rider A, consists of a current period factor and a prior period factor. According to the Application, Fuel Charge Rider A's proposed current period factor of 2.659¢/kWh is designed to recover the Company's estimated Virginia jurisdictional fuel expenses of approximately $1.8 billion for the period July 1, 2010 through June 30, 2011. Fuel Charge Rider A's proposed prior period factor of 0.144¢/kWh is designed to recover approximately $94.4 million, and this amount is the net of three projected June 30, 2010 balances. The first balance is the projected June 30, 2010 under-recovery balance of approximately $61.7 million associated with recovery of the July 2009 through June 2010 current period expense. The second balance is the projected June 30, 2010 over-recovery balance of approximately $0.8 million associated with recovery of the July 2009 through June 2010 prior period expense. The third balance is the projected June 30, 2010 under-recovery balance of approximately $33.5 million associated with recovery of the remaining portion of the June 30, 2007 Deferral Portion balance pursuant to Va. Code § 56-249.6 C. The Company also proposed certain modifications to its Definitional Framework of Fuel Expenses ("Definitional Framework").

On May 11, 2010, the Commission entered an Order Establishing 2010-2011 Fuel Factor Proceeding that, among other things: (1) established a procedural schedule for this matter; (2) required the Company to provide public notice of its Application; (3) scheduled a public hearing for September 8, 2010; and (4) directed that Virginia Power's proposed fuel factor of 2.803¢/kWh shall be placed into effect on an interim basis for service rendered on and after July 1, 2010.

The following parties filed notices of participation in this case: Virginia Committee for Fair Utility Rates ("Committee"); and the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel"). The Commission received one written comment on the Application.

The Commission convened the public evidentiary hearing in Richmond on September 8, 2010. The following participated at the hearing: Virginia Power; Committee; Consumer Counsel; and the Commission's Staff ("Staff"). The Commission received into evidence the prefiled testimony from witnesses for the Company and Staff; the Committee and Consumer Counsel did not submit testimony. No public witnesses appeared at the hearing.

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that Virginia Power's fuel factor approved herein shall be 2.803¢/kWh for service rendered on and after July 1, 2010.

Fuel Factor

No participant in this case opposed the Company's proposed fuel factor of 2.803¢/kWh, which we herein approve. Pursuant to Va. Code § 56-249.6, Virginia Power is statutorily entitled to recover its prudently incurred fuel costs. Indeed, in describing this statutory provision almost twenty years ago, the Commission explained that the fuel factor permits *dollar for dollar* recovery of prudently incurred fuel costs.[2] We find that the fuel factor approved herein is reasonably comprised of (1) a current period factor of 2.659¢/kWh, and (2) a prior period factor (*i.e.*, a correction factor) of 0.144¢/kWh.

Furthermore, and as also explained in prior fuel cases, approval of a fuel factor herein does not represent ultimate approval of the Company's actual fuel expenses. An audit and investigation of the Company's actual booked fuel expenses, among other things, is conducted by the Staff after the close of the fuel year. The Commission subsequently determines what are, in fact, reasonable, prudent and, therefore, allowable fuel expenses and credits, as well as the Company's recovery position as of the end of the audit period. For example, the Commission has previously described this review as follows:

> Should the Commission find in its Final Audit Order (1) that any component of the Company's actual fuel expenses or credits has been inappropriately included or excluded, or (2) that the Company has failed to make

[1] Application at 2.

[2] *Commonwealth of Virginia, ex rel. State Corp. Comm'n, Ex Parte: In the matter of establishing Commission policy regarding rate treatment of purchased power capacity charges by electric utilities and cooperatives*, Case No. PUE-1988-00052, 1988 S.C.C. Ann. Rept. 346, 347 (Nov. 10, 1988) (describing the "fuel factor" as "a statutory adjustment mechanism through which all prudently incurred energy costs are recovered, *dollar for dollar*" (emphasis added)). *See also Application of Kentucky Utils. Co., t/a Old Dominion Power Co., To revise its fuel factor pursuant to Virginia Code § 56-249.6*, Case No. PUE-1994-00043, 1995 S.C.C. Ann. Rept. 309, 310 (Jan. 6, 1995) ("*Kentucky Utils.*") (explaining that the "fuel factor mechanism . . . gives the Company *dollar for dollar* recovery for allowable fuel expenses" (emphasis added)).

> every reasonable effort to minimize fuel cost or has made decisions resulting in unreasonable fuel cost, the Company's recovery position will be adjusted. This adjustment will be reflected in the recovery position of the Company's next fuel factor. We reiterate that no finding in this order is final, as this matter is continued generally, pending Staff's audit of actual fuel expenses.[3]

Likewise, while we find that the fuel factor approved herein shall be implemented for usage on and after July 1, 2010, no finding in this Order Establishing Fuel Factor is final, as this matter is continued generally, pending audit and investigation of the Company's actual fuel expenses.

Definitional Framework

The Company proposes changes to the Definitional Framework that: (1) remove the reference therein to "fossil" fuels; (2) provide clarification regarding existing treatment of line losses; and (3) explicitly address the treatment of Financial Transmission Rights ("FTRs") and Auction Revenue Rights ("ARRs").[4] Staff supports the clarifications in (1) and (2), and states that (3) is not required.[5] Consumer Counsel and the Committee oppose all of the proposed changes to the Definitional Framework, asserting that such changes are unnecessary and/or may result in unintended consequences.[6] We find that no changes are necessary to the Definitional Framework in order to approve an appropriate fuel factor herein.[7]

Staff Recommendations

Finally, Staff also recommended as follows:

> (1) The Company's fuel accounting software should provide transparent information that allows for verification of fuel costs to invoices and other supporting documentation;
>
> (2) The results of financial hedges should be included in the [Company's Fuel Monitoring System ("FMS") reports] in order for the Commission to monitor the results of [Virginia Power's] financial hedging activity that [it] proposes to include in the fuel factor;
>
> (3) The Company should take the necessary steps to ensure that fuel information reported to the Commission in the FMS is accurate and ties to the data used to calculate the monthly fuel deferral on the Company's books; and
>
> (4) The Commission should require the Company to file for new approval of the affiliate agreements in Case Nos. PUA-1998-00037, PUA-1998-00039, PUA-1995-00028, PUE-2006-00067 and PUA-1997-00007.[8]

In response, the Company: (1) explains that it is in the process of implementing new fuel accounting software that will allow it to respond to future Staff audit requests in a more streamlined fashion;[9] (2) agrees to include the results of financial hedges in its FMS reports;[10] (3) agrees to ensure that the information in its FMS reports is accurate and tied to the data used to calculate the monthly fuel deferral on the Company's books;[11] and (4) agrees with Staff that any potential Commission review of the existing fuel-related affiliate agreements may be more appropriately addressed after the Commission's approval of a new services agreement between Virginia Power and Dominion Resources Services, Inc., which will be filed by December 11, 2010.[12]

---

[3] *Kentucky Utils.*, 1995 S.C.C. Ann. Rept. at 311.

[4] *See, e.g.,* Ex. 8 at Exh. Page 1 of 1 (Foust direct).

[5] Ex. 18 at 11-12 (Lamm direct).

[6] Tr. 27, 29.

[7] The Definitional Framework applicable to the Company is not a regulation. It was adopted in 1979 by Order of this Commission in Case No. PUE-1979-00010 to implement provisions of § 56-249.6 of the Code. Since then, this Definitional Framework has periodically been modified to reflect technological, statutory or other changes, but only upon Order of the Commission. Thus, the Definitional Framework, as it has evolved via Commission Orders, serves as Commission precedent for the Company's fuel expense recovery and, as such, the Company's fuel expenses are expected to conform to such precedent. While it is not necessary to change the Definitional Framework in order to decide this case, we direct the Company, Staff, and interested parties to confer to see whether further modifications are necessary and whether agreement can be reached on appropriate modifications to the Definitional Framework that can be proposed in the next fuel factor proceeding.

[8] Ex. 21 at 33 (Pate direct).

[9] *See, e.g.,* Ex. 13 at 3 (Workman rebuttal).

[10] *See, e.g.,* Ex. 15 at 3 (Foust rebuttal).

[11] *See, e.g., id.* at 2-3.

[12] *See, e.g.,* Ex. 21 at 31-32 (Pate direct); Ex. 14 at 6 (Wood rebuttal). We do not address, at this time, whether the Company subsequently shall be required to file for new approval of the affiliate agreements in Case Nos. PUA-1998-00037, PUA-1998-00039, PUA-1995-00028, PUE-2006-00067 and PUA-1997-00007. Moreover, Staff may further address, in subsequent proceedings, other potential issues discussed in this case, such as (i) post-transaction analyses of affiliated coal transactions, and (ii) the Company's inability to identify the actual cost of natural gas purchased from Virginia Power Energy Marketing, Inc. *See, e.g.,* Ex. 21 at 24-28 (Pate direct); Ex. 16 at 1-5 (Hupp rebuttal); Ex. 14 at 1-7 (Wood rebuttal).

Accordingly, IT IS ORDERED THAT:

(1) The Company's fuel factor shall be 2.803¢/kWh for service rendered on and after July 1, 2010.

(2) The Company's proposed Fuel Charge Rider A is accepted for filing and shall become effective for service rendered on and after July 1, 2010.

(3) This case is continued generally.

CASE NO. PUE-2010-00043
AUGUST 23, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY d/b/a DOMINION VIRGINIA POWER

For revised Competitive Service Provider Coordination Tariff

FINAL ORDER

This Order accepts for filing, tariff revisions filed with the Clerk of the State Corporation Commission ("Commission") on May 5, 2010, by Virginia Electric and Power Company d/b/a Dominion Virginia Power ("DVP" or "Company"). The proposed tariff revisions consist of a revised Competitive Service Provider ("CSP") Coordination Tariff ("CSP Coordination Tariff") together with accompanying documents ("Filing").

The Commission's Order for Comment entered on June 18, 2010 in this docket ("Order for Comment") noted that the Company's May 5, 2010, transmittal letter accompanying the Filing ("Transmittal Letter") stated, in substance, that the revisions proposed to DVP's CSP Coordination Tariff (and accompanying documents) correspond to legislative and regulatory changes affecting electric utilities' coordination of billing and metering service with CSPs furnishing competitive electric generation supply. The tariff revisions were proposed to become effective on and after May 6, 2010.

In particular, the Company's Filing proposed changes to its currently effective: (i) CSP Coordination Tariff; (ii) Competitive Service Provider Agreement; (iii) Electronic Data Interchange (EDI) Trading Partner Agreement; (iv) Dispute Resolution Procedure between the Company and Competitive Services Providers for Retail Access to Electric Supply Services; and (v) Aggregator Agreement. The Transmittal Letter further stated that these documents also "reflect removal of the option for consolidated billing by either a CSP or the Company, and the option of competitive metering by a CSP."[1]

The Company had sought to make these changes administratively by transmitting them to the Clerk of the Commission for filing. However, as noted by the Commission in its Order for Comment, the proposed changes contained in the Filing have practical implications for competitive electric generation supply within DVP's service territory. Consequently, the Commission found that it would be beneficial to provide notice of this Filing to CSPs currently licensed to provide competitive electric generation supply in Virginia (and to those entities with pending CSP licensing applications) and to provide such CSPs (or prospective CSPs) an opportunity to comment on the Filing, prior to final action by the Commission thereon.

Consequently, the Commission's Order for Comment directed the Clerk of the Commission to send copies of that Order to all such current or prospective CSPs. The Order provided CSPs an opportunity to comment on the Company's Filing, on or before July 9, 2010. The Staff was also permitted by the Order to comment on the Filing on or before July 23, 2010, and the Company was permitted to reply to comments of interested parties and the Staff on or before July 30, 2010.

No comments were filed with the Commission on behalf of any interested person on or before July 9, 2010; the Staff filed correspondence with the Clerk of the Commission on July 21, 2010, stating that the Staff did not object to the relief sought by the Company in its Filing and further stating that the Staff did not intend to file comments in this docket. On July 30, 2010, the Company filed correspondence with the Clerk of the Commission noting the absence of any opposition to the Filing, and requesting that the Commission accept the proposed tariff revisions for filing, including its effective date for usage on and after May 6, 2010, and dismiss the case from the Commission's docket of active cases.

NOW THE COMMISSION, upon consideration of the foregoing, is of the opinion and finds that the Company's proposed tariff revisions should be accepted for filing, effective for usage on and after May 6, 2010.

Accordingly, IT IS ORDERED THAT:

(1) The Company's proposed tariff revisions comprised by the Filing herein are hereby accepted for filing, effective for usage on and after May 6, 2010.

(2) This case is dismissed and the papers herein shall be placed in the file for ended causes.

[1] Transmittal Letter at 2.

CASE NO. PUE-2010-00044
AUGUST 20, 2010

APPLICATION OF
NORTHERN VIRGINIA ELECTRIC COOPERATIVE

For general rate relief

ORDER FOR NOTICE AND HEARING

On August 10, 2010, Northern Virginia Electric Cooperative ("NOVEC" or "Applicant") completed an Application and Request for Waiver ("Application") with the State Corporation Commission ("Commission") for approval of its proposed rates, which would result in a general decrease in the rates charged to NOVEC's customers.[1] NOVEC filed this Application pursuant to §§ 56-231.33, 56-231.34, 56-235, and 56-585.3 of the Code of Virginia ("Code") and in accordance with the Commission's Orders in Case No. PUE-2008-00083.

NOVEC states that its last general rate case was filed with the Commission on July 7, 1991, as Case No. PUE-1991-00033.[2] The Applicant states that since that time, the number of customers that it serves has grown from 72,447 to more than 143,500. Additionally, in an Order Approving Tariff Modification, dated December 10, 2008, in Case No. PUE-2008-00083,[3] NOVEC received the Commission's approval to modify the tariff under which it recovers its wholesale power procurement costs to reflect its withdrawal from membership in the Old Dominion Electric Cooperative.[4] In an Order on Reconsideration in the same case, the Commission directed NOVEC to file this general rate proceeding on or before July 31, 2010.[5] NOVEC states that it has subsequently assumed full responsibility for all of its power purchases and has achieved wholesale power price stability.[6] The Applicant states that it is in a strong financial position as a result of sound corporate management and operations and that the reduction in rates requested in the Application will more accurately reflect its cost of service and allow it to maintain its financial strength and quality of service.[7]

The Applicant seeks approval to put in place new Energy Supply Services rates, including a Power Cost Adjustment. These new rates are designed to recover NOVEC's actual cost of purchased power and power cost related expenses.[8] The Applicant also seeks approval to decrease test year jurisdictional revenues by $9,789,134, or 2.68 percent, to produce total test year jurisdictional margins of $24,993,785. NOVEC asserts that the requested rates will result in a jurisdictional rate of return on rate base of 6.03 percent and would produce a Times Interest Earned Ratio of 5.72.[9] NOVEC states that it seeks to have its rate design move closer towards cost-based rates.[10]

For customers served under NOVEC's HV1 rate, NOVEC proposes to clarify the language regarding supply options that are available. Additionally, NOVEC proposes eliminating Schedule IS-3, Interruptible Service, and replacing it with an interruptible rider, Rider IS-1, as an option for customers who are served under the Large Power Service billing rate.[11]

In addition to the modification of its rates and tariffs, NOVEC is also proposing revisions to its Terms and Conditions for Providing Electric Service. The Applicant first proposes revising the line extension policy to require developers in certain new developments, including all new townhouse developments, to install a primary and secondary conduit system in order to enhance safety and reliability by minimizing the likelihood of damage to NOVEC's underground facilities in areas where the available space has been limited by the developer's subdivision layout.[12]

NOVEC also proposes revising the applicability of the Retail Access Terms and Conditions to include only non-residential customers. The Applicant states that this change is consistent with Chapter 397 of the 2010 Virginia Acts of Assembly, which amended § 56-577 of the Code. Additionally,

---

[1] The Application was originally filed on July 30, 2010, in compliance with the Commission's Orders in *Application of Northern Virginia Electric Cooperative, For a modification to its tariff,* Case No. PUE-2008-00083, but was deemed incomplete at that time due to Schedule 9 missing certain necessary information. The additional information was filed and the Application was deemed complete as of August 10, 2010. Additionally, on August 11, 2010, NOVEC filed a revised page 3 to the Application.

the Applicant proposes to withdraw the Residential Retail Access tariff. NOVEC asserts that both of these changes are conditioned on the Commission's approval of the 100% Renewable Tariff proposed by NOVEC on July 2, 2010, in Case No. PUE-2010-00071.[13]

The Applicant requested that the revised rates and charges be suspended for one hundred fifty (150) days pursuant to § 56-238 of the Code and thereafter be permitted to take effect for bills rendered on or after January 1, 2011, subject to revision following a final order in this matter.[14]

Finally, NOVEC, pursuant to Rule 20 VAC 5-200-21 B 7 of the Virginia Administrative Code, has requested that the Commission grant a partial waiver of Rule 20 VAC 5-200-21 E, insofar as Rule 20 VAC 5-200-21 E requires NOVEC to file Schedules 15-19.[15]

NOW THE COMMISSION, upon consideration of the Application and applicable statutes and rules, is of the opinion and finds that this matter should be set for a public hearing to receive evidence on the Application and that, pursuant to Rule 5 VAC 5-20-120 A of the Commission's Rules of Practice and Procedure, this matter should be assigned to a Hearing Examiner to conduct all further proceedings, including ruling on the Applicant's Motion for Protective Order, which was filed with the Application on July 30, 2010. The Staff of the Commission ("Staff") shall investigate the Application and present its findings in testimony. The Applicant will be permitted to file testimony in rebuttal to the testimony filed by respondents and the Staff. While the Applicant requested that the rates and charges be suspended for one hundred fifty (150) days, we find that the proposed rates should be placed into effect on an interim basis, subject to refund, for service rendered on and after September 1, 2010. However, pursuant to § 56-238 of the Code, the Applicant's proposed terms and conditions should be suspended for a period of one hundred fifty (150) days from the date the Application was filed with the Commission, or through December 27, 2010.

We grant the Applicant's request for waiver of Schedules 15-19 as required by Rule 20 VAC 5-200-21 E.

Accordingly, IT IS ORDERED THAT:

(1) This matter shall be docketed and assigned Case No. PUE-2010-00044.

(2) Pursuant to Rule 5 VAC 5-20-120 A of the Commission's Rules of Practice and Procedure, a Hearing Examiner is appointed to conduct all further proceedings in this matter.

(3) NOVEC shall place its proposed rates into effect on an interim basis, subject to refund, for service rendered on and after September 1, 2010. Pursuant to § 56-238 of the Code, NOVEC's proposed terms and conditions should be suspended for one hundred fifty (150) days. The Applicant may, but is not obligated to, place its proposed terms and conditions into effect on an interim basis, subject to refund, for service rendered on or after December 27, 2010.

(4) The Applicant's request for waiver of Rule 20 VAC 5-200-21 E with regard to the filing of Schedules 15-19 is granted.

(5) A public hearing shall be convened on March 1, 2011, at 10:00 a.m., in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence related to the establishment of rates in this proceeding. Any person desiring to offer testimony as a public witness at the hearing concerning the Application need only appear in the Commission's Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Bailiff.

(6) NOVEC shall forthwith make copies of its Application, testimony, and schedules, as well as a copy of this Order, available for public inspection during regular business hours at NOVEC's business office at 10432 Balls Ford Road, Suite 220, Manassas, Virginia, 20109. Copies also may be obtained by submitting a written request to counsel for NOVEC, Richard D. Gary, Esquire, Hunton & Williams LLP, 951 East Byrd Street, Richmond, Virginia 23221. In addition, interested persons may review copies in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

(7) On or before October 1, 2010, NOVEC shall cause a copy of the following notice to be published as display advertising (not classified) in newspapers of general circulation in its service territory:

NOTICE TO THE PUBLIC OF AN APPLICATION
BY NORTHERN VIRGINIA ELECTRIC COOPERATIVE,
FOR GENERAL RATE RELIEF
CASE NO. PUE-2010-00044

On August 10, 2010, Northern Virginia Electric Cooperative ("NOVEC" or "Applicant") completed an Application and Request for Waiver ("Application") with the State Corporation Commission ("Commission") for approval of its proposed rates, which would result in a general decrease in the rates charged to NOVEC's customers. NOVEC filed this Application pursuant to §§ 56-231.33, 56-231.34, 56-235, and 56-585.3 of the Code of Virginia ("Code") and in accordance with the Commission's Orders in Case No. PUE-2008-00083.

The Applicant seeks approval to put in place new Energy Supply Services rates, including a Power Cost Adjustment. These new rates are designed to recover NOVEC's actual cost of purchased power and power

[13] *Id.* at 5. For further details on this tariff proposal, see *Application of Northern Virginia Electric Cooperative, For approval of a 100% renewable tariff,* Case No. PUE-2010-00071, Application, Doc. Con. Cen. No. 100710105 (July 2, 2010).

[14] Application at 3.

[15] *Id.* at 5-6.

cost related expenses. The Applicant also seeks approval to decrease test year jurisdictional revenues by $9,789,134, or 2.68 percent, to produce total test year jurisdictional margins of $24,993,785. NOVEC asserts that the requested rates will result in a jurisdictional rate of return on rate base of 6.03 percent and would produce a Times Interest Earned Ratio of 5.72. NOVEC states that it seeks to have its rate design move closer towards cost-based rates. The Applicant states that it is in a strong financial position as a result of sound corporate management and operations and that the reduction in rates requested in the Application will more accurately reflect its cost of service and allow it to maintain its financial strength and quality of service.

For customers served under NOVEC's HV1 rate, the Applicant proposes to clarify the language regarding supply options that are available. Additionally, NOVEC proposes eliminating Schedule IS-3, Interruptible Service, and replacing it with an interruptible rider, Rider IS-1, as an option for customers who are served under the Large Power Service billing rate.

In addition to the modification of its rates, NOVEC is also proposing certain revisions to its Terms and Conditions for Providing Electric Service. The Applicant first proposes revising the line extension policy to require developers in certain new developments, including all new townhouse developments, to install a primary and secondary conduit system in order to enhance safety and reliability by minimizing the likelihood of damage to NOVEC's underground facilities in areas where the available space has been limited by the developer's subdivision layout. Details of additional proposed revisions are contained in NOVEC's Application.

The Commission has scheduled a public hearing on March 1, 2011, at 10:00 a.m., in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence related to the establishment of rates in this proceeding. Any person desiring to offer testimony as a public witness at the hearing concerning the Application need only appear in the Commission's Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Bailiff.

Copies of NOVEC's Application, testimony, and schedules, as well as a copy of the Commission's Order for Notice and Hearing in this proceeding, are available for public inspection during regular business hours at NOVEC's business office at 10432 Balls Ford Road, Suite 220, Manassas, Virginia, 20109. Copies also may be obtained by submitting a written request to counsel for NOVEC, Richard D. Gary, Esquire, Hunton & Williams LLP, 951 East Byrd Street, Richmond, Virginia 23221. In addition, interested persons may review copies in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

On or before February 22, 2011, any interested person may file an original and fifteen (15) copies of any comments on the Application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Any interested person desiring to submit comments electronically may do so on or before February 22, 2011, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

On or before November 5, 2010, any interested party may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set forth above. Interested parties should obtain a copy of the Commission's Order for Notice and Hearing for further details on participation as a respondent.

All written communications to the Commission concerning NOVEC's Application shall be directed to Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218, shall refer to Case No. PUE-2010-00044, and shall simultaneously be served on counsel for NOVEC at the address set forth above.

NORTHERN VIRGINIA ELECTRIC COOPERATIVE

(8) On or before October 1, 2010, NOVEC shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager of every city and town (or upon the equivalent officials in counties, towns, and cities having alternate forms of government) in which the Applicant provides service. Service shall be made by first class mail to the customary place of business or residence of the person served.

(9) On or before November 5, 2010, NOVEC shall provide proof of service and notice as required in this Order.

(10) On or before February 22, 2011, any interested person may file an original and fifteen (15) copies of any comments on the Application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Any interested person desiring to submit comments electronically may do so on or before February 22, 2011, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. Interested persons shall refer in their comments to Case No. PUE-2010-00044. Any person not participating as a respondent as provided in Ordering Paragraph (11) below may testify as a public witness at the March 1, 2011 public hearing. Any person desiring to testify as a public witness need only appear in the Commission's Second Floor Courtroom in the Tyler Building at 9:45 a.m. on the day of the hearing and identify himself or herself to the Bailiff.

(11) On or before November 5, 2010, any interested party may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set forth in Ordering Paragraph (10) above and shall simultaneously serve a copy of the notice of participation on counsel to NOVEC at the address set forth in Ordering Paragraph (6) above. Pursuant to Rule 5 VAC 5-20-80 of the

Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Respondents shall refer in all filed papers to Case No. PUE-2010-00044.

(12) Within five (5) business days of receipt of a notice of participation as a respondent, NOVEC shall serve upon each respondent a copy of this Order, a copy of the Application, and all materials filed with the Commission, unless these materials have already been provided to the respondent.

(13) On or before December 10, 2010, each respondent may file with the Clerk of the Commission at the address set forth in Ordering Paragraph (10) above an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case. Each respondent shall serve copies of the testimony and exhibits on counsel for NOVEC, Staff, and on all other respondents.

(14) On or before January 21, 2011, the Staff shall investigate the reasonableness of NOVEC's Application and shall file with the Clerk of the Commission an original and fifteen (15) copies of testimony and exhibits regarding its investigation of the Application and shall promptly serve a copy on counsel to NOVEC and all respondents.

(15) On or before February 11, 2011, NOVEC shall file with the Clerk of the Commission at the address set forth in Ordering Paragraph (10) above an original and fifteen (15) copies of any testimony that it expects to offer in rebuttal to the testimony and exhibits of the respondents and the Commission Staff and shall on the same day serve one copy on Staff and all respondents.

(16) NOVEC and respondents shall respond to written interrogatories within ten (10) calendar days after receipt of the same. Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-240 et seq.

(17) This matter is continued generally.

CASE NO. PUE-2010-00044
SEPTEMBER 1, 2010

APPLICATION OF
NORTHERN VIRGINIA ELECTRIC COOPERATIVE

For general rate relief

ORDER GRANTING NORTHERN VIRGINIA ELECTRIC COOPERATIVE'S MOTION AND MODIFYING THE AUGUST 20, 2010 ORDER FOR NOTICE AND HEARING

On August 10, 2010, Northern Virginia Electric Cooperative ("NOVEC" or "Applicant") completed an Application and Request for Waiver ("Application") with the State Corporation Commission ("Commission") for approval of its proposed rates, which would result in a general decrease in the rates charged to NOVEC's customers.[1] NOVEC filed this Application pursuant to §§ 56-231.33, 56-231.34, 56-235, and 56-585.3 of the Code of Virginia ("Code") and in accordance with the Commission's directives in Case No. PUE-2008-00083.[2]

In its Application, NOVEC requests, in part, that the revised rates and charges be suspended for the statutory one hundred fifty (150) days and be permitted to take effect for bills rendered on and after January 1, 2011, provided that if a final order has not been rendered by the end of this suspension period, NOVEC would agree to change its rates for bills rendered on and after the first day of the next month following the issuance of the final order.

On August 20, 2010, the Commission issued an Order for Notice and Hearing ("August 20, 2010 Order for Notice and Hearing") that, among other things, ordered NOVEC to place its proposed rates into effect on an interim basis, subject to refund, for service rendered on and after September 1, 2010.

On August 26, 2010, NOVEC filed a Motion for Modification of Order for Notice and Hearing ("Motion") and a proposed Modifying Order. In its Motion, NOVEC stated that it is unable to implement the proposed interim rates effective September 1, 2010, because it needs to implement and test changes concerning the new rate schedules within its billing system, and this testing and implementation cannot be completed in time to comply with the September 1, 2010 deadline set forth in the August 20, 2010 Order for Notice and Hearing. NOVEC proposed in its Motion that its current rates be made interim, subject to refund with interest, for bills rendered on or after October 1, 2010, and remain in place until: (i) the Commission renders a final order in this case; or (ii) NOVEC exercises its right pursuant to § 56-238 of the Code to implement its proposed rates on an interim basis on and after January 7, 2011. In its Motion, NOVEC further stated that the Commission Staff supports this proposal.

NOW THE COMMISSION, upon further consideration, and being sufficiently advised, hereby grants NOVEC's Motion in part and modifies its August 20, 2010 Order for Notice and Hearing. The Commission will not require NOVEC to implement its proposed interim rates effective September 1, 2010, because the Cooperative needs sufficient time to implement and test changes for the new rate schedules within the billing system. Instead, the Commission finds at this time that NOVEC's current rates shall be made interim, subject to refund with interest, for bills rendered on or after October 1,

[1] The Application was originally filed on July 30, 2010, in compliance with the Commission's Order in *Application of Northern Virginia Electric Cooperative, For a modification of its tariff*, Case No. PUE-2008-00083, but was deemed incomplete at that time due to Schedule 9 missing certain necessary information. The additional information was filed, and the Application was deemed complete as of August 10, 2010. Additionally, on August 11, 2010, NOVEC filed a revised page 3 to the Application.

[2] Specifically, see *Application of Northern Virginia Electric Cooperative, For a modification of its tariff*, Case No. PUE-2008-00083, 2009 SCC Ann. Rept. 343, Order on Reconsideration (Feb. 17, 2009).

2010. Both the current interim rates and, if ordered implemented, the proposed interim rates, shall be subject to refund pending the Commission's final order, and the Cooperative shall provide applicable refunds with interest, as prescribed by such final order, for bills rendered on and after October 1, 2010.

The Commission finds that the Cooperative's refund obligation will consist of one refund with interest, as appropriate, at the conclusion of the proceedings.

Accordingly, IT IS ORDERED THAT:

(1) NOVEC's Motion is hereby granted in part, as described herein.

(2) Ordering Paragraph (3) of the Commission's August 20, 2010 Order for Notice and Hearing shall be modified as follows: NOVEC's current rates shall be made interim, subject to refund with interest, for bills rendered on or after October 1, 2010.

(3) Ordering Paragraph (6) of the Commission's August 20, 2010 Order for Notice and Hearing shall be modified as follows: NOVEC shall forthwith make copies of its Application, testimony, and schedules, as well as a copy of this Order Granting Northern Virginia Electric Cooperative's Motion and Modifying the August 20, 2010 Order for Notice and Hearing, as well as the Commission's August 20, 2010 Order for Notice and Hearing, available for public inspection during regular business hours at NOVEC's business office at 10432 Balls Ford Road, Suite 220, Manassas, Virginia 20109. Copies also may be obtained by submitting a written request to counsel for NOVEC, Richard D. Gary, Esquire, Hunton & Williams LLP, 951 East Byrd Street, Richmond, Virginia 23219.[3] In addition, interested persons may review copies in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

(4) Ordering Paragraph (7) of the Commission's August 20, 2010 Order for Notice and Hearing shall be modified as follows: On or before October 1, 2010, NOVEC shall cause a copy of the following notice to be published on one occasion as display advertising (not classified) in newspapers of general circulation in its service territory:

NOTICE TO THE PUBLIC OF AN APPLICATION
BY NORTHERN VIRGINIA ELECTRIC COOPERATIVE
FOR GENERAL RATE RELIEF
CASE NO. PUE-2010-00044

On August 10, 2010, Northern Virginia Electric Cooperative ("NOVEC" or "Applicant") completed an Application and Request for Waiver ("Application") with the State Corporation Commission ("Commission") for approval of its proposed rates, which would result in a general decrease in the rates charged to NOVEC's customers. NOVEC filed this Application pursuant to §§ 56-231.33, 56-231.34, 56-235, and 56-585.3 of the Code of Virginia ("Code") and in accordance with the Commission's Orders in Case No. PUE-2008-00083.

The Applicant seeks approval to put in place new Energy Supply Services rates, including a Power Cost Adjustment. These new rates are designed to recover NOVEC's actual cost of purchased power and power cost related expenses. The Applicant also seeks approval to decrease test year jurisdictional revenues by $9,789,134, or 2.68 percent, to produce total test year jurisdictional margins of $24,993,785. NOVEC asserts that the requested rates will result in a jurisdictional rate of return on rate base of 6.03 percent and would produce a Times Interest Earned Ratio of 5.72. NOVEC states that it seeks to have its rate design move closer towards cost-based rates. The Applicant states that it is in a strong financial position as a result of sound corporate management and operations and that the reduction in rates requested in the Application will more accurately reflect its cost of service and allow it to maintain its financial strength and quality of service.

For customers served under NOVEC's HV1 rate, the Applicant proposes to clarify the language regarding supply options that are available. Additionally, NOVEC proposes eliminating Schedule IS-3, Interruptible Service, and replacing it with an interruptible rider, Rider IS-1, as an option for customers who are served under the Large Power Service billing rate.

In addition to the modification of its rates, NOVEC is also proposing certain revisions to its Terms and Conditions for Providing Electric Service. The Applicant first proposes revising the line extension policy to require developers in certain new developments, including all new townhouse developments, to install a primary and secondary conduit system in order to enhance safety and reliability by minimizing the likelihood of damage to NOVEC's underground facilities in areas where the available space has been limited by the developer's subdivision layout. Details of additional proposed revisions are contained in NOVEC's Application.

The Commission has scheduled a public hearing on March 1, 2011, at 10:00 a.m., in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive evidence related to the establishment of rates in this proceeding. Any person desiring to offer testimony as a public witness at the hearing concerning the Application need only appear in the Commission's Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff.

The Commission has ordered that the rates NOVEC currently has in effect shall be made interim, subject to refund with interest, for bills rendered on or after October 1, 2010. Both the current interim rates and, if

[3] In NOVEC's Application, NOVEC mistakenly lists Mr. Gary's zip code as being "23221." As such, Mr. Gary's zip code was cited incorrectly in the August 20, 2010 Order for Notice and Hearing.

ordered implemented, the proposed interim rates, shall be subject to refund pending the Commission's final order, and the Cooperative shall provide applicable refunds with interest, as prescribed by such final order, for bills rendered on and after October 1, 2010.

Copies of NOVEC's Application, testimony, and schedules, as well as a copy of the Commission's Order for Notice and Hearing and Order Granting Northern Virginia Electric Cooperative's Motion and Modifying the August 20, 2010 Order for Notice and Hearing, are available for public inspection during regular business hours at NOVEC's business office at 10432 Balls Ford Road, Suite 220, Manassas, Virginia 20109. Copies also may be obtained by submitting a written request to counsel for NOVEC, Richard D. Gary, Esquire, Hunton & Williams LLP, 951 East Byrd Street, Richmond, Virginia 23219. In addition, interested persons may review copies in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

On or before February 22, 2011, any interested person may file an original and fifteen (15) copies of any comments on the Application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Any interested person desiring to submit comments electronically may do so on or before February 22, 2011, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

On or before November 5, 2010, any interested party may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set forth above. Interested parties should obtain a copy of the Commission's Order for Notice and Hearing and Order Granting Northern Virginia Electric Cooperative's Motion and Modifying the August 20, 2010 Order for Notice and Hearing for further details on participation as a respondent.

All written communications to the Commission concerning NOVEC's Application shall be directed to Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218, shall refer to Case No. PUE-2010-00044, and shall simultaneously be served on counsel for NOVEC at the address set forth above.

NORTHERN VIRGINIA ELECTRIC COOPERATIVE

(5) Ordering Paragraph (8) of the Commission's August 20, 2010 Order for Notice and Hearing shall be modified as follows: On or before October 1, 2010, NOVEC shall serve a copy of the Commission's August 20, 2010 Order for Notice and Hearing and this Order Granting Northern Virginia Electric Cooperative's Motion and Modifying the August 20, 2010 Order for Notice and Hearing on each Commonwealth's Attorney, the chairman of the board of supervisors, and the county attorney of each county, and upon the mayor or manager of every city and town (or upon the equivalent officials in counties, towns, and cities having alternate forms of government) in which the Applicant provides service. Service shall be made by first class mail to the customary place of business or residence of the person served.

(6) In all other respects, the Commission's August 20, 2010 Order for Notice and Hearing shall remain unchanged.

(7) This case is continued generally.

CASE NO. PUE-2010-00045
OCTOBER 6, 2010

APPLICATION OF
GPC GREEN ENERGY, LLC

For approval to construct, own and operate an electric generation facility in Suffolk, Virginia pursuant to Va. Code §§ 56-46.1 and 56-580 D

ORDER

On September 4, 2008, GPC Green Energy, LLC ("GPC" or the "Company"), filed an application with the State Corporation Commission ("Commission") pursuant to §§ 56-46.1 and 56-580 D of the Code of Virginia for approval to develop, construct, own and operate an electric generating facility in Suffolk, Virginia (the "Project"). As originally proposed, the Project was a 20 MW landfill gas-to-energy generating facility at the manufacturing plant of its host facility, Ciba Corporation ("Ciba"). Ciba operates a process steam and district heating network to serve its manufacturing complex, situated on 212 acres in Suffolk. The complex is approximately three miles from the Suffolk landfill, which supplies landfill gas ("LFG") by existing pipeline.

By Order issued November 25, 2009, in Case No. PUE-2008-00085, the Commission granted GPC approval to construct and operate a 20 MW landfill gas-to-energy generation facility consisting of three (3) 10 MW combustion turbines, one of which was to be held in reserve for redundancy and for use in emergencies, as set forth in the original application and subject to certain designated environmental and contractual conditions.[1] In addition, given the uncertainty surrounding the Project, the Order further provided that authorization to construct the facility would expire if construction had not begun within three (3) years of the Commission's Order.

[1] *Application of GPC Green Energy, LLC, For approval to construct, own and operate an electric generation facility in Suffolk, Virginia, pursuant to Va. Code §§ 56-46.1 and 56-580 D*, Case No. PUE-2008-00085, Final Order (Nov. 25, 2009).

On January 11, 2010, the Company submitted a letter requesting that the Commission amend GPC's certificate relating to the Project to permit GPC to increase the output of the Project by 10 MW, for a total capacity of 30 MW. Following a request from Commission Staff ("Staff") for additional information in compliance with the Commission's filing requirements for small power projects, on March 16, 2010, GPC submitted a formal request to amend its original proposal for the Project to allow it to operate a 30 MW LFG generation facility on the site and under the same conditions set forth in the original application ("Upgrade Application").

On May 17, 2010, the Commission entered an Order for Notice and Comment that, among other things, docketed the matter; established a procedural schedule for the filing of comments, notices of participation and requests for hearing; directed the Staff to investigate the Upgrade Application and file a report; and provided the Company the opportunity to respond to any comments, requests for hearing, or the Staff Report. No comments, notices of participation, or requests for hearing have been filed in this matter.

On September 22, 2010, the Company filed a letter with the Clerk of the Commission indicating that it wished to withdraw its Upgrade Application. The Commission has not received any opposition to the Company's request. On September 24, 2010, Hearing Examiner A. Ann Berkebile filed a Report recommending that the Commission grant the Company's request for withdrawal of its Upgrade Application ("Hearing Examiner's Report").

NOW THE COMMISSION, upon consideration of the record in this case, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the findings and recommendations of the September 24, 2010 Hearing Examiner's Report should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) The Company's request to withdraw its Upgrade Application is granted.

(2) This matter is dismissed, and the papers herein shall be passed to the file for ended causes.

CASE NO. PUE-2010-00046
JUNE 15, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For approval of a demand-side management program including promotional allowances

ORDER GRANTING APPROVAL

On May 14, 2010, Rappahannock Electric Cooperative ("REC" or the "Cooperative") filed an application with the State Corporation Commission ("Commission") pursuant to Title 56 of the Code of Virginia and the Commission's Rules Governing Utility Promotional Allowances, 20 VAC 5-303-10 *et seq*., the Rules Governing Cost/Benefit Measures Required for Demand-Side Management Programs, 20 VAC 5-304-10 *et seq*. and the Commission's Promotional Allowance Program Standards, 20 VAC 5-303-40, requesting approval of a demand-side management ("DSM") program including promotional allowances, along with expedited consideration of its request.

REC is a utility consumer services cooperative providing electric service to customers in its service territory in Virginia. REC is headquartered in Fredericksburg, Virginia, and is subject to regulation as to rates and service by the Commission.

REC filed the instant application in which it is requesting to implement a DSM program using load-cycling switch devices to reduce demand created by central air conditioning systems in the homes of eligible, participating residential member-consumers. REC requests the Commission approve the full implementation of the program, which initially began as a pilot program in the summer of 2009, conducted by REC's power supplier, Old Dominion Electric Cooperative ("ODEC"). REC further requests that publication of notice to its member-consumers in an upcoming edition of *Cooperative Living* magazine describing the program and the conditions pertaining to the promotional allowance be the only publication ordered in this proceeding.[1]

REC states in its application that participation in the program is voluntary and that participants may end their participation in the program at any time.[2] In order to participate in the program, an eligible member-consumer must meet the following requirements: (i) be a targeted,[3] residential class member-consumer (new or existing) who is not utilizing the Cooperative's Residential Time-Of-Use Tariff; (ii) be a resident in a single-family home, multi-family home, or a manufactured home; (iii) have a central HVAC system; and (iv) allow REC's vendor, GoodCents Holdings, Inc. ("GoodCents"), or any successor vendor that REC may select, to install REC's specific "demand response unit" switches.[4] As an incentive to participate in the program, participants will receive a one-time $25 retail gift card if the switch remains in operation through the end of the summer season, specifically through September 30th of the year in which the switch was initially installed.[5]

[1] REC further requests that the notice published in *Cooperative Living* magazine contain substantially similar information to that contained in Exhibit A of its application. Application at 7.

[2] *Id.* at 3.

[3] According to REC's application, a targeted member-consumer is one that REC has found to be a high user of electricity during the summer months based on the Cooperative's usage data. *Id.* at 2-3. REC later advised Staff that any residential member-consumer in its original service territory who volunteers will be permitted to participate in the program subject to equipment limitations.

[4] *Id.* at 2.

[5] *Id.* at 6.

REC advised Staff of the Commission ("Staff") that it expects the 500 participants from the 2009 pilot program to continue to participate. In the 2010 cooling season the Cooperative will add to the program those currently on the 2009 waiting list and additional volunteers to grow the program by an additional 500 participants. REC then expects to increase the number of participants by 6,000 in each cooling season of 2011 and 2012. At the end of the 2012 cooling season, the Cooperative expects to have a total of 13,000 member-consumers participating in the program.[6]

REC's application states that the administrative cost for GoodCents to oversee the program will be absorbed by ODEC as part of a larger DSM program, currently in development, so that the cost impact to REC will be limited to the installed cost of the switches, marketing, maintenance, and promotional allowances.[7] REC expects to recover its costs by anticipated savings from reductions in wholesale power costs.[8] No individual energy savings are expected to be achieved by the individual participating member-consumers.[9]

REC's application provides a brief description of the cost/benefit tests used in its analysis and the Cooperative's results indicating that the proposed program passes the Participants Test, the Utility Cost Test, the Ratepayer Impact Measure Test, and the Total Resource Cost Test.[10] Staff reproduced the Cooperative's cost/benefit analysis and concluded that the proposed program passes all four tests, including the Ratepayer Impact Measure Test and the Total Resource Cost Test for both a seven-year and fifteen-year horizon.[11]

NOW THE COMMISSION, upon consideration of the application and representations of the Cooperative and having been advised by its Staff, finds that the air conditioner switch DSM program proposed in REC's application is cost effective and in the public interest and that REC shall be allowed to implement the program as soon as practicable, subject to certain requirements outlined below.

First, we find that notice published in *Cooperative Living* magazine that contains information substantially similar to that contained in Exhibit A of the Cooperative's application is sufficient notice of the proposed DSM program for purposes of this proceeding.

Second, we find that REC should submit a report to the Commission by December 1st of each year that the program is in effect, describing the details and results of the program during the preceding summer season to verify the costs and savings of the program. The report should include, but not be limited to, information regarding the number of installed switches, the number of load control events, any attrition of installed switches, and any change to the marginal cost of power demand.

Third, we find that the program should be reviewed after the 2012 summer season to consider the saturation of installed and active switches and the next target level projections to assure cost-effectiveness before extending the program.

Fourth, we find that should the review of a report submitted by the Cooperative after a cooling season indicate that the program is not cost-effective, the Cooperative or the Commission should suspend the program by not permitting any additional member-consumers to participate.

Accordingly, IT IS ORDERED THAT:

(1) REC's application is hereby approved subject to the following conditions.

(2) Prior to implementation of the program, REC shall publish notice in *Cooperative Living* magazine that contains information substantially similar to that contained in Exhibit A of its application.

(3) REC shall be allowed to implement the program as soon as practicable.

(4) REC shall submit a report to the Commission by December 1st of each year that the program is in effect, describing the details and results of the program during the preceding summer season to verify the costs and savings of the program. The report shall include, but not be limited to, information regarding the number of installed switches, the number of load control events, any attrition of installed switches, and any change to the marginal cost of power demand.

(5) REC shall supplement its 2012 report with additional information that includes data and analysis of the saturation of installed and active switches. The report shall also include, but not be limited to, the Cooperative's plans to continue, maintain, or expand the program and a cost/benefit analysis of any future plans for expansion of the program.

(6) The authority granted herein shall have no ratemaking implications for future rate proceedings.

---

[6] *See also id.* at 2.

[7] *Id*. at 6-7.

[8] Based on Staff's analysis of assumptions in REC's application, the annual reduction in wholesale power costs with 13,000 active switches is approximately $772,000. The wholesale power cost savings are expected to continue for as long as the switches stay in place. Staff estimates the net plant value of the installed switches at the end of the third year (associated with adding 500 switches in year 1 and 6,000 switches in years 2 and 3) to be $2.5 million. Staff estimates annual marketing, depreciation and incentive expense in the third year of the program to be $310,000.

[9] Application at 6.

[10] *Id.* at Ex. B.

[11] The data provided to Staff by REC to support its cost/benefit analysis represents actual costs for the 2009 pilot, which is expected to remain the same throughout 2012. The power cost savings per kW reduction is a fixed contract amount between ODEC and REC. Although it may be revised annually, the 2009 cost remains in effect for 2010. This power cost is not expected to increase or decrease greatly through 2012. The assumed kW reduction represents the median result of the 2009 pilot and is the same in all months.

CASE NO. PUE-2010-00047
JUNE 11, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE
and
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

For modification of special, transitional rates

ORDER OF NOTICE AND PROCEDURE

On May 14, 2010, The Potomac Edison Company d/b/a Allegheny Power ("Allegheny" or "Company") filed an application with the State Corporation Commission ("Commission") seeking an increase in its fuel factor pursuant to Va. Code § 56-249.6 ("Application"). Allegheny requested in the Application that it be permitted to increase its Levelized Purchase Power Factor ("LPPF") rates, which are the Company's tariffed fuel factor rates, during the period July 1, 2010, through June 30, 2011 ("Rate Period"). The Company also requested that the Commission waive 20 VAC 5-301-20 of the Commission's *Rules Governing the Use of Bidding Programs to Purchase Electricity From Other Power Suppliers* ("Bidding Rules"), to the extent that rule is relevant to this proceeding.

As proposed in the Application, Residential customers' LPPF rate would increase from $0.02706 per kilowatt-hour ("kWh") to $0.02877 per kWh; the LPPF rate for Commercial and General Service customers would increase from $0.02653 per kWh to $0.02736; the LPPF rate for Rate Schedules PH & AGS would increase from $0.03199 per kWh to $0.03314; the LPPF rate for Rate Schedule PP would increase from $0.03368 per kWh to $0.03386; and the LPPF rate for Lighting customers would increase from $0.04683 per kWh to $0.04863. Cumulatively, the proposed LPPF rates are designed to produce additional revenues of approximately $3.6 million for the Rate Period and an overall increase in annual revenue of approximately 1.5%.

On May 14, 2010, the Commission entered an Order in Case No. PUE-2009-00101 ("Transfer Order") approving the transfer of facilities and the certificated Virginia service territory of Allegheny to Rappahannock Electric Cooperative and Shenandoah Valley Electric Cooperative (collectively, the "Cooperatives").[1] Additionally, the Transfer Order approved specialized, transitional rates for the customers being transferred from Allegheny to the Cooperatives.

The special rates approved in the Transfer Order for the former Allegheny customers are to be based, in part, on the provisions of the Stipulation approved in Case No. PUE-2008-00033 ("2008 Stipulation").[2] In this regard, the Transfer Order provides as follows:

> The Cooperatives have agreed to be bound by the rates and charges set out in the Commission's Order dated November 26, 2008, in Case No. PUE-2008-00033 and the Stipulation attached to that Order, with respect to the Virginia Assets, for the time periods set forth therein….[3]
>
> The Cooperatives requested that the Commission grant them approval to implement transitional rate schedules for Potomac Edison's current customers in the new REC territory and in the new SVEC territory should the Joint Petition be granted. As is mentioned above, these specialized, transitional rate schedules are consistent with the rates and charges set forth in the November 26, 2008 Order in Case No. PUE-2008-00033, and the Stipulation attached to that Order.[4]

The 2008 Stipulation to which the Cooperatives agreed to be bound as part of the Commission's approval in the Transfer Order had required Allegheny to initiate a process to procure power necessary for serving its customers from June 1, 2009, through June 30, 2011, which is the end of the Rate Period;[5]

---

[1] *Joint Petition of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and The Potomac Edison Company d/b/a Allegheny Power, For approval of the purchase and sale of service territory and facilities, for the issuance of, and cancellation of, certificates of public convenience and necessity, and for approval of special, transitional, rate schedules*, Case No. PUE-2009-00101, Order (May 14, 2010). Allegheny filed the Application in the instant proceeding approximately three hours before the Transfer Order was issued.

[2] *Application of The Potomac Edison Company d/b/a Allegheny Power, For an increase in its electric rates pursuant to Va. Code §§ 56-249.6 and 56-582 and, alternatively, request to modify Memorandum of Understanding and Order in Case No. PUE-2000-00280*, Case No. PUE-2008-00033, 2008 S.C.C. Ann. Rept. 520, Order (Nov. 26, 2008).

[3] Transfer Order at 3.

[4] *Id.* at 4.

[5] Application at 2-4; Direct Testimony of Robert B. Reeping at 3.

provides for certain rate credits, some of which continue through the end of the Rate Period;[6] and provides for an adjustment to Allegheny's LPPF rates effective July 1, 2010.[7]

On June 4, 2010, Allegheny and the Cooperatives filed a Joint Motion For Leave To Amend Pleadings ("Motion to Substitute"). The Motion to Substitute states that on June 1, 2010, the Cooperatives and Allegheny consummated the transfer approved in Case No. PUE-2009-00101 and that the Cooperatives thereby assumed Allegheny's former rights and obligations to provide retail utility service in the Commonwealth.[8] Allegheny and the Cooperatives seek to substitute the Cooperatives as the applicants in this proceeding initiated by Allegheny and to substitute the Cooperatives' counsel for that of Allegheny.[9] The Motion to Substitute states further that with this exception the Cooperatives would effectively adopt the entirety of the Application and testimony filed by Allegheny, including all the LPPF rates proposed by Allegheny.[10] In addition to substituting the parties and counsel, the Motion to Substitute asks for any other such changes and corrections as may be required or appropriate and granting any such further relief deemed necessary by the Commission.[11]

NOW THE COMMISSION, upon consideration of the Application and the Motion to Substitute, hereby dockets this proceeding; grants the Motion to Substitute; requires public notice by the Cooperatives; establishes a procedural schedule for this case; and provides interested persons with the opportunity to participate as respondents, file comments, or request a hearing on the Application. We also direct the Commission Staff ("Staff") to investigate the Application and to file a report on the results of its investigation in accordance with 5 VAC 5-20-80 D of the Commission's Rules of Practice and Procedure, *Regulatory proceedings,* Commission staff.

Although the Application in this case was filed by Allegheny, we find that its continuation by the Cooperatives is appropriate for us to determine whether such modification, as agreed to by the parties to the earlier case for Allegheny, is necessary for the Cooperatives to fulfill the terms of our approval in Case No. PUE-2009-00101. As discussed above, that approval incorporated the Cooperatives' commitment to be bound by the 2008 Stipulation as part of the special rates approved for the former Allegheny customers now served by the Cooperatives. Accordingly, this case is established for the limited purpose of determining LPPF rates that are consistent with the 2008 Stipulation for the Cooperatives' customers in the former Allegheny Virginia service territory, including whether the requested exemption from the Bidding Rules is necessary or appropriate. In allowing the substitution of the Cooperatives for Allegheny as the named applicants in this proceeding, however, it is our expectation that Allegheny will coordinate with the Cooperatives to the extent necessary during the conduct of this proceeding.

Finally, we will permit the Cooperatives to place the proposed LPPF rates into effect for service rendered on and after July 1, 2010, in accordance with the 2008 Stipulation. If the proposed rates are ultimately found to be inconsistent with the 2008 Stipulation, we will require the appropriate adjustments to those rates.

Accordingly, IT IS ORDERED THAT:

(1) The Application is docketed as Case No. PUE-2010-00047.

(2) The Motion to Substitute is granted.

(3) The Cooperatives may place the proposed LPPF rates into effect for service rendered on and after July 1, 2010.

(4) A copy of the Application and supporting documents shall be made available for public inspection in the Commission's Document Control Center, located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday. Interested persons may access unofficial copies of the Application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case.

(5) The Cooperatives shall forthwith make copies of their Application and supporting documents available for public inspection during regular business hours at all Cooperatives' offices in Virginia where customer bills may be paid. A copy of the Application may also be obtained by directing a request in writing to counsel for the Cooperatives: Edward L. Flippen, Esquire, McGuireWoods LLP, One James Center, 901 East Cary Street, Richmond, Virginia 23219-4030. The Cooperatives shall, within three (3) days of receipt of the request, serve the requested documents upon the person making such request. The Cooperatives shall make copies available on an electronic basis, upon request.

---

[6] Application at 2.

[7] For example, Paragraph 5 of the 2008 Stipulation provides that:

> Effective July 1, 2010, the [LPPF] for all customers not included in Paragraph 2 will be adjusted to reflect any over- or under- recovery of revenue against the allowed rates for the preceding twelve months. Actual results available at the time of the filing of each revision of the [LPPF] will be used together with estimates for the remaining months of the period, with true-up of those estimates to actual results in the immediately succeeding revision of the Factor.

[8] Motion to Substitute at 3.

[9] *Id.*

[10] *Id.* at 3-4.

[11] *Id.* at 5.

(6) On or before June 27, 2010, the Cooperatives shall cause a copy of the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout the portion of their service territories acquired pursuant to Commission approval in Case No. PUE-2009-00101:

NOTICE TO THE PUBLIC OF AN
APPLICATION BY RAPPAHANNOCK ELECTRIC COOPERATIVE
AND SHENANDOAH VALLEY ELECTRIC COOPERATIVE
FOR MODIFICATION OF SPECIAL, TRANSITIONAL RATES
CASE NO. PUE-2010-00047

On May 14, 2010, The Potomac Edison Company d/b/a Allegheny Power ("Allegheny" or "Company") filed an application with the State Corporation Commission ("Commission") seeking an increase in its fuel factor pursuant to Va. Code § 56-249.6 ("Application"). Allegheny requested in the Application that it be permitted to increase its Levelized Purchase Power Factor ("LPPF") rates, which are the Company's tariffed fuel factor rates, during the period July 1, 2010, through June 30, 2011 ("Rate Period"). The Company also requested that the Commission waive 20 VAC 5-301-20 of the Commission's *Rules Governing the Use of Bidding Programs to Purchase Electricity From Other Power Suppliers*, to the extent that rule is relevant to this proceeding.

As proposed in the Application, Residential customers' LPPF rate would increase from $0.02706 per kilowatt-hour ("kWh") to $0.02877 per kWh; the LPPF rate for Commercial and General Service customers would increase from $0.02653 per kWh to $0.02736; the LPPF rate for Rate Schedules PH & AGS would increase from $0.03199 per kWh to $0.03314; the LPPF rate for Rate Schedule PP would increase from $0.03368 per kWh to $0.03386; and the LPPF rate for Lighting customers would increase from $0.04683 per kWh to $0.04863. Cumulatively, the proposed LPPF rates are designed to produce additional revenues of approximately $3.6 million for the Rate Period and an overall increase in annual revenue of approximately 1.5%.

On May 14, 2010, the Commission entered an Order in Case No. PUE-2009-00101 ("Transfer Order") approving the transfer of facilities and the certificated Virginia service territory of Allegheny to Rappahannock Electric Cooperative and Shenandoah Valley Electric Cooperative (collectively, the "Cooperatives"). Additionally, the Transfer Order approved specialized, transitional rates for the customers being transferred from Allegheny to the Cooperatives. The special rates approved in the Transfer Order for the former Allegheny customers are to be based, in part, on the provisions of the Stipulation approved in Case No. PUE-2008-00033 ("2008 Stipulation").

On June 4, 2010, Allegheny and the Cooperatives filed a Joint Motion For Leave To Amend Pleadings ("Motion to Substitute"). The Motion to Substitute stated that on June 1, 2010, the Cooperatives and Allegheny consummated the transfer approved in Case No. PUE-2009-00101 and that the Cooperatives thereby assumed Allegheny's former rights and obligations to provide retail utility service in the Commonwealth. Allegheny and the Cooperatives sought to substitute the Cooperatives as the applicants in this proceeding initiated by Allegheny, to substitute the Cooperatives' counsel for that of Allegheny, and for any further relief deemed appropriate or necessary by the Commission.

The Commission has entered an Order of Notice and Procedure that docketed this proceeding as PUE-2010-00047; granted the Motion to Substitute; requires public notice by the Cooperatives; and establishes a procedural schedule for participation in this case. The Commission established this proceeding for the purpose of determining LPPF rates that are consistent with the 2008 Stipulation for the Cooperatives' customers in the former Allegheny Virginia service territory. The Order further permits the Cooperatives to place the proposed LPPF rates in effect on service rendered on and after July 1, 2010, in accordance with the 2008 Stipulation. If the proposed rates are found to be inconsistent with the 2008 Stipulation, the Commission will require appropriate adjustments to those rates.

The Cooperatives' Application and supporting documents are available for public inspection during regular business hours at all Cooperatives' offices in Virginia where customer bills may be paid. Interested persons may also review copies of the Application in the Commission's Document Control Center, located on the first floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday. Interested persons may access unofficial copies of the Application through the Commission's Docket Search portal at http://www.scc.virginia.gov/case. A copy of the Application may also be obtained by directing a request in writing to counsel for the Cooperatives: Edward L. Flippen, Esquire, McGuireWoods LLP, One James Center, 901 East Cary Street, Richmond, Virginia 23219-4030. The Cooperatives will make copies available on an electronic basis, upon request.

On or before July 16, 2010, any interested person may submit written comments on the Application by filing such comments with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P. O. Box 2118, Richmond, Virginia 23218-2118. Any interested person desiring to submit comments electronically may do so by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. Interested persons shall refer in their comments to Case No. PUE-2010-00047. If a hearing is established in this proceeding, any written comments filed by a person that has properly filed a notice of participation shall only be considered as evidence if sponsored by a witness.

On or before July 16, 2010, interested persons may submit written requests for hearing on the Application by filing such requests with the Clerk of the Commission at the address given above. Any request for hearing shall state with specificity why the issues raised in the request for hearing cannot be adequately addressed in written comments. If no sufficient request for hearing is received, the Commission may consider the proposed Application based upon the papers filed herein without convening a hearing at which oral testimony is received. Interested persons shall refer in their requests for hearing to Case No. PUE-2010-00047.

On or before July 16, 2010, any person filing a request for hearing and expecting to participate as a respondent in any hearing that may be scheduled in this matter shall file with the Clerk of the Commission, at the address given above, an original and fifteen (15) copies of a notice of participation. Pursuant to Rule 80 B of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq.*, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Copies of any notice of participation shall refer to Case No. PUE-2010-00047 and shall simultaneously be served on counsel for the Cooperatives, as given above.

RAPPAHANNOCK ELECTRIC COOPERATIVE AND
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

(7) On or before July 9, 2010, the Cooperatives shall file with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P. O. Box 2118, Richmond, Virginia 23218-2118, proof of the notice required in Ordering Paragraph (6) herein.

(8) On or before July 16, 2010, any interested person may submit written comments on the Application by filing such comments with the Clerk of the Commission at the address set forth in Ordering Paragraph (7) above. Any interested person desiring to submit comments electronically may do so by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. Interested persons shall refer in their comments to Case No. PUE-2010-00047. If a hearing is established in this proceeding, any written comments filed by a person that has properly filed a notice of participation shall only be considered as evidence if sponsored by a witness.

(9) On or before July 16, 2010, interested persons may submit written requests for hearing on the Application by filing such requests with the Clerk of the Commission at the address set forth in Ordering Paragraph (7) above. Any request for hearing shall state with specificity why the issues raised in the request for hearing cannot be adequately addressed in written comments. If no sufficient request for hearing is received, the Commission may consider the proposed Application based upon the papers filed herein without convening a hearing at which oral testimony is received. Interested persons shall refer in their requests for hearing to Case No. PUE-2010-00047.

(10) On or before July 16, 2010, any person filing a request for hearing and expecting to participate as a respondent in any hearing that may be scheduled in this matter shall file with the Clerk of the Commission, at the address set forth in Ordering Paragraph (7) above, an original and fifteen (15) copies of a notice of participation. Pursuant to Rule 5 VAC 5-20-80 B of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Copies of any notice of participation shall refer to Case No. PUE-2010-00047 and shall simultaneously be served on counsel for the Cooperatives at the address set forth in Ordering Paragraph (5) above.

(11) Within three (3) business days of receipt of a notice of participation as a respondent, the Cooperatives shall serve upon each respondent a copy of this Order, a copy of the Application, and all materials filed with the Commission, unless these materials have already been provided to the respondent.

(12) The Commission Staff shall investigate the reasonableness of the Cooperatives' Application herein. On or before July 30, 2010 the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of the Staff Report concerning the Application and shall promptly serve one (1) copy each on counsel for the Cooperatives and all respondents.

(13) On or before August 6, 2010, the Cooperatives shall file with the Clerk of the Commission an original and fifteen (15) copies of any reply comments it may have to requests for hearing or comments filed by interested persons or respondents and the Staff report and shall on the same day serve one copy each upon the Commission Staff and each respondent.

(14) As provided by § 12.1-31 of the Code and the Commission's Rules of Practice and Procedure, 5 VAC 5-20-120, *Procedure before Hearing Examiners*, a Hearing Examiner shall be appointed to rule on any discovery matters that may arise during the course of this proceeding.

(15) The Cooperatives shall respond to written interrogatories or data requests within seven (7) calendar days after receipt of the same. Except as modified herein, discovery shall be in accordance with Part IV of the Commission's Rules of Practice.

(16) This matter is continued generally.

CASE NO. PUE-2010-00047
SEPTEMBER 24, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE
and
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

For modification of special, transitional rates

ORDER APPROVING MODIFICATION TO SPECIAL, TRANSITIONAL RATES

On May 14, 2010, The Potomac Edison Company d/b/a Allegheny Power ("Allegheny" or "Company") filed an application with the State Corporation Commission ("Commission") seeking an increase in its fuel factor pursuant to Va. Code § 56-249.6 ("Application"). The proposed Levelized Purchase Power Factor ("LPPF") rates, which were Allegheny's fuel factor rates, were designed to produce additional revenues of approximately $3.6 million, and an overall increase in annual revenue of approximately 1.5%, during the period July 1, 2010, through June 30, 2011 ("Rate Period"). The Company also requested that the Commission waive 20 VAC 5-301-20 of the Commission's *Rules Governing the Use of Bidding Programs to Purchase Electricity From Other Power Suppliers* ("Bidding Rules"), to the extent that rule is relevant to this proceeding.

On May 14, 2010, the Commission entered an Order in Case No. PUE-2009-00101 ("Transfer Order") approving the transfer of Allegheny's certificated Virginia service territory and associated facilities to Rappahannock Electric Cooperative and Shenandoah Valley Electric Cooperative (collectively, the "Cooperatives").[1] Additionally, the Transfer Order approved special, transitional rates for the customers within the service territory being transferred from Allegheny to the Cooperatives. The special rates approved in the Transfer Order for customers within the former Allegheny service territory are to be based, in part, on the provisions of the Stipulation approved in Case No. PUE-2008-00033 ("2008 Stipulation").[2] Specifically, the Transfer Order incorporated the Cooperatives' agreement to be bound by the 2008 Stipulation, which had required Allegheny to initiate a process to procure power necessary for servicing its customers through the end of the Rate Period; provides for certain rate credits, some of which continue through the end of the Rate Period; and provides for an adjustment to Allegheny's LPPF rates effective July 1, 2010.[3]

On June 4, 2010, Allegheny and the Cooperatives filed a Joint Motion for Leave to Amend Pleadings ("Motion to Substitute"). In light of the Commission's approval in the Transfer Order, the Motion to Substitute requested that the Commission allow for the substitution of the Cooperatives as the applicants in this proceeding.

On June 11, 2010, the Commission issued an Order of Notice and Procedure. The Order of Notice and Procedure: (1) granted the Motion to Substitute, after finding that the requested substitution is appropriate and necessary for the Cooperatives to fulfill the terms of our approval in the Transfer Order; (2) required the Cooperatives to provide public notice of the Application; (3) established a procedural schedule, which allowed the opportunity for interested persons to participate as respondents, file comments, or request a hearing on the Application; (4) permitted the Cooperatives to place the proposed LPPF rates into effect for service rendered on and after July 1, 2010, subject to any future adjustments found to be appropriate; and (5) directed the Commission's Staff ("Staff") to investigate the Application and file a report on the results of its investigation.

In response to the Commission's Order of Notice and Procedure, the Office of the Attorney General's Division of Consumer Counsel filed a notice of participation in this proceeding. No person filed comments or requested a hearing on the Application. On July 9, 2010, the Cooperatives filed proof of the notice required by the Order of Notice and Procedure.[4]

On July 30, 2010, the Staff filed a report summarizing the results of its investigation of the Application. The Staff Report recommends approval of the LPPF rates proposed in the Application as consistent with the 2008 Stipulation. Staff further recommends that the Commission direct each of the Cooperatives to file a proposed tariff mechanism for the refund of any over-recovery balance, or the collection of any under-recovery balance, as of June 30, 2011. Staff recommends that these tariff provisions be designed to allow for "true-up" of any such balance. Finally, the Staff does not oppose waiver of Rule 20 VAC 5-301-20 of the Bidding Rules, to the extent that rule is relevant to this proceeding.

On August 6, 2010, the Cooperatives, by counsel, filed comments on the Staff Report. The Cooperatives "agree with and support the findings and recommendations in the Staff Report" and, with respect to Staff's recommendation for a true-up tariff mechanism, the Cooperatives "propose to file, no later than March 31, 2011, an amendment to its respective Wholesale Power Cost Adjustment Clause ("WPCA") that will include such a mechanism."[5]

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that the proposed LPPF rates, which have not been contested, should be approved as originally proposed by Allegheny and subsequently supported by the Cooperatives. We find that the LPPF rates proposed

---

[1] *Joint Petition of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and the Potomac Edison Company d/b/a Allegheny Power, For approval of the purchase and sale of service territory and facilities, for the issuance of, and cancellation of, certificates of public convenience and necessity, and for approval of special, transitional rate schedules*, Case No. PUE-2009-00101, Order (May 14, 2010) ("Transfer Order"). Allegheny filed the Application in the instant proceeding approximately three hours before the Transfer Order was issued.

[2] *Application of The Potomac Edison Company d/b/a Allegheny Power, For an increase in its electric rates pursuant to Va. Code §§ 56-249.6 and 56-582 and, alternatively, request to modify Memorandum of Understanding and Order in Case No. PUE-2000-00280*, Case No. PUE-2008-00033, 2008 S.C.C. Ann. Rept. 520, Order (Nov. 26, 2008).

[3] Transfer Order at 3; Application at 2-4; Direct Testimony of Robert B. Reeping at 3.

[4] The Order of Notice and Procedure required the Cooperatives to provide notice by June 27, 2010. The Commission subsequently granted a request by the Cooperatives to extend this date to July 1, 2010.

[5] August 6, 2010 Comments of the Cooperatives at 2 (footnote omitted).

for the customers within the former Allegheny service territory are consistent with the terms of our approval in the Transfer Order, which incorporated the Cooperatives' commitment to be bound by the 2008 Stipulation approved in Case No. PUE-2008-00033 and previously implemented in Case No. PUE-2009-00028.

In approving this adjustment to the Cooperatives' special, transitional rates, we adopt Staff's recommendation that the Cooperatives file a tariff mechanism for the refund of any over-recovery balance, or the collection of any under-recovery balance, that may exist as of June 30, 2011. The application of such a mechanism to customers within the former Allegheny service territory is consistent with the 2008 Stipulation.[6] Accordingly, customers receiving service under the Cooperatives' special rate tariffs shall pay only the actual LPPF costs incurred during the Rate Period, with subsequent adjustments made to the LPPF rate of each customer class for which a difference between actual LPPF costs and the recoveries under the rates approved herein occurs.[7]

We further direct the Cooperatives to submit reports on their respective over-recovery or under-recovery balances as ordered herein. By ensuring Staff's ability to monitor and audit the Cooperatives' recoveries under the rates approved herein, we find that this requirement is an appropriate continuation of a reporting obligation previously assumed by the Cooperatives with respect to the LPPF rates approved in Case No. PUE-2009-00028.[8]

Accordingly, IT IS ORDERED THAT:

(1) The Application is granted, subject to the findings set forth herein.

(2) On or before November 15, 2010, the Cooperatives shall submit to the Commission's Divisions of Energy Regulation and Public Utility Accounting revisions to their proposed LPPF tariffs to include a mechanism for the refund of any over-recovery balance, or the collection of any under-recovery balance, that may exist as of June 30, 2011. This compliance filing shall reflect the findings and requirements set forth herein.

(3) On or before forty-five (45) days following the close of business for each month during which the LPPF rates approved herein are effective, the Cooperatives shall submit to the Commission's Divisions of Energy Regulation and Public Utility Accounting monthly reports and supporting workpapers detailing actual LPPF monthly and cumulative over- and under-recovery positions with respect to the LPPF rates approved herein. The first such report shall be filed within thirty (30) days of the entry of this order.

(4) This matter is continued generally.

[6] *See* Staff Report at Attachment 1, 2008 Stipulation at ¶ 5.

[7] Consistent with our approval in the Transfer Order and our approval of the LPPF rates herein, the true-up calculation, which necessarily must occur after the conclusion of the Rate Period, shall incorporate the applicable rate credits included in the 2008 Stipulation.

[8] *See Joint Petition of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and The Potomac Edison Company d/b/a Allegheny Power, For approval of the purchase and sale of service territory and facilities, for the issuance of, and cancellation of, certificates of public convenience and necessity, and for approval of special, transitional, rate schedules*, Case No. PUE-2009-00101, Order Granting Motion at 2 (Aug. 18, 2010) (indicating that the Cooperatives assumed the obligation to submit such a report for the period during which the LPPF rates approved in Case No. PUE-2009-00028 were in effect). In addition, Allegheny's request for an exemption from the Bidding Rules is now inapposite as a result of the Transfer Order and our prior Order granting the Motion to Substitute.

CASE NO. PUE-2010-00048
JULY 7, 2010

APPLICATION OF
I. C. THOMASSON ASSOCIATES, INC.

For licenses to conduct business as an aggregator and competitive service provider of natural gas and electricity

ORDER GRANTING LICENSES

On May 24, 2010, I. C. Thomasson Associates, Inc. ("I. C. Thomasson" or "the Company"), completed an application with the State Corporation Commission ("Commission") for licenses to act as an aggregator and competitive service provider for electricity and natural gas service pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-20 *et seq.* ("Retail Access Rules"). The Company seeks authority to serve commercial and industrial customers in retail access programs throughout the Commonwealth of Virginia.[1] I. C. Thomasson attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B of the Retail Access Rules.

On June 11, 2010, the Commission issued an Order for Notice and Comment establishing the case; requiring that notice of the application be given to investor-owned electric utilities, electric cooperatives, natural gas distribution utilities, and other interested persons; providing for the receipt of comments from the public; and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a report ("Staff Report"). The Company filed proof of service on June 24, 2010. No comments on I. C. Thomasson's application were received from the public.

[1] Amending legislation passed by the 2003 Session of the General Assembly as House Bill 2637 to § 56-580 of the Code of Virginia, suspended application of the Virginia Electric Utility Regulation Act to Kentucky Utilities operating in the Commonwealth as Old Dominion Power Company until such time as the utility provides retail electric services in any other service territory in any jurisdiction to customers who have the right to receive competitive retail electric energy.

The Staff Report was filed on June 28, 2010. The Staff Report summarized I. C. Thomasson's proposals and evaluated its financial condition and technical fitness. The Staff recommended I. C. Thomasson be granted licenses to conduct business as an aggregator and competitive service provider for electricity and natural gas service to commercial and industrial customers throughout the Commonwealth. The Company filed no comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and applicable law, the Commission finds that I. C. Thomasson's application for licenses to conduct business in the Commonwealth of Virginia as an aggregator and competitive service provider for electricity and natural gas service should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) I. C. Thomasson Associates, Inc., is hereby granted License No. E-24 to be a competitive service provider for electric service to commercial and industrial customers throughout the Commonwealth. This license to act as a competitive service provider for electricity is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable law.

(2) I. C. Thomasson Associates, Inc., is hereby granted License No. G-28 to be a competitive service provider for natural gas service to commercial and industrial customers throughout the Commonwealth. This license to act as a competitive service provider for natural gas service is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable law.

(3) I. C. Thomasson Associates, Inc., is hereby granted License No. A-31 to be an aggregator for natural gas and electricity to commercial and industrial customers throughout the Commonwealth. This license to act as an aggregator for natural gas and electricity is granted subject to the provisions of the Retail Access Rules, this Order, and all other applicable law.

(4) These licenses are not valid authority for the provision of any product or service not identified within the license itself.

(5) This case shall remain open for consideration of any subsequent amendments or modifications to these licenses.

CASE NO. PUE-2010-00049
JULY 21, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY
and
DOMINION RESOURCES, INC.

For approval of authority to issue up to $500 million in common stock to parent under Chapters 3 and 4 of Title 56 of the Code of Virginia of 1950, as amended

ORDER GRANTING APPROVAL

On May 27, 2010, Virginia Electric and Power Company ("DVP" or "Company") and its affiliated parent company, Dominion Resources, Inc. ("DRI") (collectively, "Applicants"), filed an Application ("Application"), pursuant to Chapters 3 and 4 of Title 56 of the Code of Virginia ("Code"), in which they request authority whereby DVP would be permitted to issue and sell up to $500 million of authorized but unissued shares of the Company's common stock to DRI through December 31, 2010.

The requested authorization would be in addition to the remaining authorization, approximately $67 million, granted in Case No. PUE-2009-00100. The Applicants state that this authority to issue additional common stock is necessary to offset the reduction that resulted from the approved settlement in the Company's base rate case and certain related proceedings.[1] According to the Application, this settlement had a net effect of decreasing the Company's December 2009 common equity balance by approximately $477 million.

The Application states that the projected purchase price of such shares of stock "will be set at the book value per share of the Company's outstanding common stock, determined on the basis of the Company's latest unaudited financial statements prior to the sale" of the stock.[2] Applicants further state that the net proceeds from the sale of stock:

> may be used to refund a portion of the Company's outstanding securities, including outstanding commercial paper and outstanding balances under the intercompany credit agreement between the Company and [DRI], to meet a portion of its capital requirements, and for other general corporate purposes. Such capital requirements consist generally of construction, upgrading and maintenance expenditures and the refunding of outstanding securities.[3]

Additionally, Applicants state that the common stock may be sold to DRI in more than one transaction per calendar year, and that the Company will file a report with the Commission within 10 days after each issuance of common stock "detailing the date of the sale, the amount sold and the price per share."[4]

[1] Case Nos. PUE-2009-00011, PUE-2009-00016, PUE-2009-00017, PUE-2009-00018, PUE-2009-00019, and PUE-2009-00081.

[2] Application at 4.

[3] *Id.*

[4] *Id.*

The Applicants request that the Commission "enter an Order finding that the proposed transactions are reasonably necessary to carry out the purposes set forth herein and in the public interest, granting all authority as may be required under Chapter 3 and Chapter 4 of the Code to issue and sell the Common Stock, and granting all other requisite authorization for the consummation of the transactions contemplated."[5]

On June 14, 2010, the Commission issued an Order for Notice and Comment that established a procedural schedule for this case and requested that comments be filed by July 8, 2010.

On July 8, 2010, the Virginia Committee for Fair Utility Rates (the "Committee") filed comments in which it questioned the Company's justification for the proposed transaction following the Commission's October 30, 2009 Order Granting Approval of the issuance and sale of up to $1.5 billion of common stock in Case No. PUE-2009-00100 and the settlement of the Company's base rate case that was ultimately approved by the Commission on March 11, 2010.[6] The Committee also stated that the proposed equity issuance could ultimately have a greater impact on customer rates in Virginia than if the same transaction was accomplished by debt financing. Finally, the Committee urged the Commission to institute a capital structure planning proceeding to outline reasonable ranges for capital structure targets and to design regulatory mechanisms that will support (i) an appropriate bond rating and access to capital during major construction programs, and (ii) minimization of rates to retail customers.

On July 12, 2010, the Commission Staff filed a report recommending that the Commission approve the Application. The Staff concluded that the issuance of equity would be reasonable based on the Company's goal of maintaining or improving its credit ratings and based on the Commission's ruling in Case No. PUE-2009-00100 "where it authorized the Company to issue equity in amounts that were projected to increase [DVP's] equity ratio above 52%."[7]

On July 14, 2010, Applicants filed reply comments in which they urged the Commission to reject the Committee's assertion that Applicants "knew or should have known" of the potential impact of the settlement of the Company's 2009 rate case when it made its request and the Commission approved the request to issue common stock in Case No. PUE-2010-00100. Applicants also urged the Commission to adopt the Staff's recommendation to approve the Application and to reject the Committee's request for a separate capital planning proceeding based on the reasoning the Commission used to decline to initiate such a proceeding in Case No. PUE-2009-00100.

NOW THE COMMISSION, upon consideration of this matter, is of the opinion and finds as follows:

Code of Virginia

Chapter 3 of Title 56

The Applicants seek approval under Chapter 3 of Title 56 of the Code, § 56-55 *et seq*., Issuance of Stocks, Bonds, Etc. ("Chapter 3"). Chapter 3 includes, but is not limited to, certain provisions as follows:

Section 56-56 of the Code states that the Company's ability to issue securities is a special privilege subject to regulation:

> The power of public service companies to issue stocks and stock certificates or other evidences of interest or ownership, and bonds, notes and other evidences of indebtedness and to create liens on their property situated within this Commonwealth is a special privilege, the right of supervision, regulation, restriction, and control of which is and shall continue to be vested in the Commonwealth; and such power shall be exercised as provided by law and under such rules and regulations as the Commission may prescribe; provided that this section shall not apply to obligations incurred for purchase of machinery or equipment where such obligations are secured by conditional sales contracts.

Section 56-58 of the Code lists the only purposes for which such common stock may be issued:

> A public service company may issue stocks and stock certificates or other evidences of interest or ownership, and bonds, notes and other evidences of indebtedness payable at periods of twelve months or more after the date thereof, for the following purposes and no others, namely:
>
> (1) For the acquisition of property (including stocks, stock certificates or other evidences of interest or ownership, and bonds, notes and other evidences of indebtedness of other persons, firms, associations or corporations when the acquisition thereof has been approved and authorized by the Commission);
>
> (2) For the construction, completion, extension or improvement of its facilities;
>
> (3) For the improvement or maintenance of its service;
>
> (4) For the discharge or lawful refunding of its obligations; or
>
> (5) For the reimbursement of moneys actually expended from income, or from any other moneys in the treasury of the public service company not secured by or obtained from the issue of its stocks or stock certificates or

[5] *Id.* at 6.

[6] *See* Order Approving Settlement, March 11, 2010, Case Nos. PUE-2009-00011, PUE-2009-00016, PUE-2009-00017, PUE-2009-00018, PUE-2009-00019, and PUE-2009-00081.

[7] Staff Report at 4.

> other evidences of interest or ownership of bonds, notes or other evidences of indebtedness payable at periods of twelve months or more after the date thereof, for any of the aforesaid purposes except maintenance of service in cases where the applicant shall have kept its accounts and vouchers for such expenditures in such manner as to enable the Commission to ascertain the amount of moneys so expended and the purposes for which such expenditures were made.

Section 56-61 provides the standard that must be applied by the Commission in this proceeding under Chapter 3:

> [W]hen the application sets forth that such securities are to be issued or such obligations or liabilities are to be assumed for any purpose set forth in § 56-58, and the Commission so finds, it shall approve the application and issue the order applied for, unless the Commission shall find, for reasons stated by it, that the issuance of such securities or the assumption of such obligations or liabilities is not reasonably necessary to carry out one or more of the purposes set forth in the application. The Commission may by its order grant permission for any such issuance or assumption in the amount or on the terms applied for, or in a less amount, or on different terms, or not at all, and may include in its order such terms and conditions fairly relating to the matter of such issuance or assumption as it may deem reasonable or necessary. Whenever the Commission refuses, in whole or in part, an application to issue securities or assume obligations or liabilities, or grants such an application with modifications, it shall state specifically its reasons so that such refusal or modifications may be reviewed judicially on appeal. . . .

Chapter 4 of Title 56

Since the proposed transaction is between affiliates, the Applicants also seek approval under Chapter 4 of Title 56 of the Code, § 56-76 *et seq.*, Regulation of Relations with Affiliated Interests ("Chapter 4"). Chapter 4 includes, but is not limited to, certain provisions as follows:

Section 56-77 of the Code states in part:

> A. No contract or arrangement providing for the furnishing of management, supervisory, construction, engineering, accounting, legal, financial, or similar services, and no contract or arrangement for the purchase, sale, lease or exchange of any property, right or thing, other than those above enumerated, or for the purchase or sale of treasury bonds or treasury capital stock made or entered into between a public service company and any affiliated interest shall be valid or effective unless and until it shall have been filed with and approved by the Commission. . . .

Section 56-80 addresses the Commission's continuing control over such arrangements as necessary to protect and promote the public interest:

> The Commission shall have continuing supervisory control over the terms and conditions of such contracts and arrangements as are herein described so far as necessary to protect and promote the public interest. The Commission shall have the same jurisdiction over the modification or amendment of contracts or arrangements herein described as it has over such original contracts or arrangements. The fact that the Commission shall have approved entry into any such contract or arrangement shall not preclude disallowance or disapproval of payments made pursuant thereto in the future, if upon actual experience under such contract or arrangement, it appears that the payments provided for, or made, were, or are, unreasonable. Every order of the Commission approving any such contract or arrangement shall be expressly conditioned upon the reserved power of the Commission to revise and amend the terms and conditions thereof, if, when and as necessary to protect and promote the public interest.

Discussion

We find that the Applicants' request satisfies the statutory standards of Chapters 3 and 4. We find that the issuance of common stock as requested herein is "reasonably necessary to carry out one or more of the purposes set forth in the [A]pplication,"[8] and that such purposes comport with those permitted under § 56-58 of the Code and are permissible under Chapter 4.

The proposed transaction will have the effect of increasing the Company's equity ratio, which could potentially put upward pressure on the Company's rates, depending on several factors not in front of us in this proceeding. Pursuant to § 56-61 of the Code, the Commission must deny the Application if we find that the requested issuance of Common Stock "is not reasonably necessary to carry out one or more of the purposes set forth in the [A]pplication." We must also find that affiliate transactions are in the public interest under Chapter 4. The potential impact on rates is relevant to both of these standards. The Applicants have stated that the purpose of the transaction is to offset the impact of the settlement of the Company's base rate case on its equity ratio in order to maintain its target credit metrics.[9] While this issuance of equity and corresponding increase in the Company's equity ratio could result in upward pressure on rates, we find that it is reasonable in light of the Company's stated goals. As we previously noted, the Company's levels of equity, the highest cost element of its financing sources, are projected at the top of the Company's own target range. This reinforces the need for proper balance in the context of the many factors that must be considered in maintaining a sound financial plan. We will direct our Staff to continue monitoring the elements which comprise the Company's capital structure to determine periodically whether this goal is being met in light of the changes in capital markets, including debt ratings, as well as the Company's construction activities and other relevant factors.

We also find that it is not necessary to initiate a separate capital structure planning proceeding as requested by the Committee at this time. There is sufficient evidence in the instant case for us to make the findings required by Chapters 3 and 4. Furthermore, if the Company seeks authority to issue

[8] Va. Code § 56-61.

[9] Application at 2.

common stock after 2010, it must initiate a subsequent proceeding that will necessarily address capital structure. Finally, our approval herein does not represent a finding that any specific equity ratio is reasonable for subsequent ratemaking purposes.

Accordingly, IT IS ORDERED THAT:

(1) DVP is authorized to issue and sell up to $500 million of authorized but unissued shares of the Company's common stock to DRI through December 31, 2010, under the terms and conditions and for the purposes described in the Application.[10]

(2) DVP shall file a report with the Commission within 10 days after each issuance of common stock detailing the date of the sale, the amount sold, and the price per share.

(3) Within thirty (30) days of the end of each calendar quarter in which common stock is issued, DVP shall submit a more detailed report to the Commission. Such report shall include the cumulative amount of common stock issued pursuant to the approval herein (including the date of sale, the amount sold, and the price per share), a statement concerning the purposes for which the common stock was issued, and a balance sheet that reflects the actions taken and the capital structure following such actions.

(4) The Commission reserves the right to examine the books and records of any affiliate in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(5) The approval granted herein shall not preclude the Commission from exercising the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(6) The approval granted herein shall have no implications for ratemaking purposes.

(7) This matter shall be continued, subject to the continuing review, audit, and appropriate directive of the Commission.

[10] The authority to issue and sell $500 million of authorized by unissued shares of common stock approved herein is not cumulative of the authorized, but unissued shares of common stock previously approved in Case No. PUE-2009-00100.

CASE NO. PUE-2010-00051
JUNE 11, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE,
SHENANDOAH VALLEY ELECTRIC COOPERATIVE,
A&N ELECTRIC COOPERATIVE,
and
SOUTHSIDE ELECTRIC COOPERATIVE

For conditional approval for certain identified customers to participate in the PJM Interconnection Interruptible Load for Reliability Program, Demand Resource Program, and Economic Load Response Program

ORDER

On June 1, 2010, Rappahannock Electric Cooperative ("Rappahannock"), Shenandoah Valley Electric Cooperative ("Shenandoah"), A&N Electric Cooperative ("A&N"), and Southside Electric Cooperative ("Southside") (collectively, the "Cooperatives"), all Virginia utility consumer services cooperatives, by counsel, filed with the State Corporation Commission ("Commission") an Application for conditional approval for certain identified customers to participate in the PJM Interconnection, LLC ("PJM"), Interruptible Load for Reliability Program ("ILRP"), Demand Resource Program ("DRP"), and Economic Load Response Program ("ELRP") (collectively, the "Programs"), and in support thereof stated as follows:

(1) The entities identified on Exhibits 1, 2, and 3 of the Application, and also included as Exhibits 1, 2, and 3 hereto (collectively, "Customers"), are electric utility service member-consumers of the Cooperatives. Exhibits 1, 2, and 3 also identify the Cooperative to which each Customer belongs as a member-consumer. Exhibits 1 and 2 identify customers of The Potomac Edison Company d/b/a Allegheny Power that have or will become member-consumers of Rappahannock or Shenandoah on or about June 1, 2010, pursuant to the Commission's May 14, 2010 Order in Case No. PUE-2009-00101. Exhibit 3 identifies member-consumers of A&N and Southside. The Cooperatives are members of Old Dominion Electric Cooperative ("ODEC").

(2) The Cooperatives have determined that the Customers may have the ability to shed load during peak demand and high energy pricing periods.

(3) The Customers have participated or demonstrated an interest in participating in one or more of the Programs, and each Customer's Cooperative has consented to such Customer's conditional participation in one or more of the Programs.

(4) With regard to each Customer's participation in the Programs, ODEC is the Load Serving Entity ("LSE"), its Cooperative is the Electric Distribution Company ("EDC"), and the Commission is a relevant electric retail regulatory authority ("RERRA").

(5) On July 16, 2009, the Federal Energy Regulatory Commission ("FERC") issued an Order on Rehearing in its Docket No. RM07-19-001 (Wholesale Competition in Regions with Organized Electric Markets). In that Order, FERC directed RTOs and ISOs (such as PJM) to amend their market

rules to accept bids from aggregators of retail customers of utilities that distributed 4 million MWh or less in the previous fiscal year (such as the Cooperatives) only with permission of the RERRA.[1]

(6) PJM made a compliance filing in FERC Docket No. RM07-19-001 that included certain tariff revisions related to the Programs. With regard to the ELRP, PJM specifies that participants should submit completed registration forms ten (10) business days prior to the expected date to begin active participation in the ELRP. The EDC and LSE have ten (10) business days to respond. ELRP registrations for end-use sites that were served by Small EDCs (those that distributed less than 4 million MWh in 2008) require evidence of the applicable RERRA's permission or conditioned permission to participate to be supplied to PJM by the EDC or LSE.[2] The evidence supplied must take the form of an order, resolution, or ordinance of the RERRA; an opinion of the RERRA's legal counsel attesting to the existence of an order, resolution, or ordinance; or an opinion of the state attorney general on behalf of the RERRA attesting to the existence of such an order, resolution, or ordinance. With regard to the ILRP, PJM specifies that participants should submit completed registration forms ten (10) business days prior to the applicable ILRP certification deadline. The EDC and LSE have ten (10) business days to respond. PJM further clarified that, to the extent that a completed registration form is submitted with ten (10) or fewer business days remaining prior to the applicable ILRP certification deadline, then the registration may be rejected by PJM if the EDC or LSE has not verified the registration before the registration deadline.[3]

(7) Participation by the Customers in the Programs would provide one incentive for Customers to curtail load during periods of high-priced electricity and may create financial opportunities for Customers.

(8) ODEC has consented to the Cooperatives' request for an order, in the form submitted with the Cooperatives' Application, granting the Customers conditional approval to participate in the ELRP, ILRP, and DRP in order to preserve the option of participation, pending further evaluation by the Customers, the Cooperatives, and ODEC and pending further action by the Commission.

NOW THE COMMISSION, having considered the Application, hereby dockets this case as Case No. PUE-2010-00051. Good cause having been shown, the Commission hereby grants permission to the Customers identified on Exhibits 1, 2, and 3 hereto to participate in the PJM Interruptible Load for Reliability Program, Demand Resource Program, or Economic Load Response Program, or a combination of them as indicated by Exhibits 1, 2 and 3, on the condition that such participation be limited and subject to the terms and conditions of any further action of the Commission.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUE-2010-00051.

(2) The Commission grants the Customers identified on Exhibits 1, 2, and 3 hereto conditional permission to participate in the PJM Interruptible Load for Reliability Program, Demand Resource Program, or Economic Load Response Program, or a combination of them as indicated by Exhibits 1, 2, and 3, limited by and subject to any future action of the Commission.

(3) The Cooperatives, either directly or through the appropriate LSE, shall provide a copy of this Order, including Exhibits 1, 2, and 3, to PJM and to each Customer identified in Exhibits 1, 2, and 3.

(4) Within thirty (30) days of this Order, the Cooperatives shall file with the Commission a report of action demonstrating compliance with Ordering Paragraph (3) above.

(5) This matter is continued for further orders of the Commission.

---

[1] Order 719, issued in the referenced FERC docket, stated that a "relevant electric retail regulatory authority" is an "entity that establishes the retail electric prices and any retail competition policies for customers, such as the city council for a municipal utility, the governing board of a cooperative utility, or the state public utility commission." Order 719 at P 158.

CASE NO. PUE-2010-00053
NOVEMBER 5, 2010

JOINT PETITON OF
VIRGINIA ELECTRIC AND POWER COMPANY
and
RAPPAHANNOCK ELECTRIC COOPERATIVE

For approval of the sale and purchase of utility assets pursuant to the Va. Code §§ 56-88 *et seq.*

ORDER GRANTING APPROVAL

On June 1, 2010, Virginia Electric and Power Company ("DVP") and Rappahannock Electric Cooperative ("REC") (collectively, the "Joint Petitioners") filed a Joint Petition with the State Corporation Commission ("Commission"), pursuant to the Utility Transfers Act, Chapter 5 of Title 56 of the

Code of Virginia ("Code"),[1] for approval for DVP to sell and for REC to purchase utility assets. On July 6, 2010, Staff filed a Memorandum of Completeness, which deemed the Joint Petition complete.

DVP is a Virginia public service corporation with its principal business headquarters located in Richmond, Virginia. DVP is engaged in the business of providing electric utility service in Virginia and northeastern North Carolina. REC is a rural electric cooperative with its principal business headquarters located in Fredericksburg, Virginia, and is a member cooperative of Old Dominion Electric Cooperative ("ODEC").

DVP and REC are interconnected electronically through several delivery points pursuant to the Mutual Operating Agreement between DVP and ODEC dated May 18, 2005, which was filed with the Federal Energy Regulatory Commission ("FERC") in Docket No. ER05-1037 on May 27, 2005, and accepted for filing by FERC on July 7, 2005.

Pursuant to a Facilities Purchase Agreement ("Agreement") dated as of April 6, 2010, between DVP and REC, the Joint Petitioners mutually agreed that DVP will sell and REC will purchase DVP's control enclosure at the Locust Grove Delivery Point, including batteries and phone equipment (collectively, the "Control Enclosure"). The Joint Petitioners state that the Locust Grove Delivery Point Control Enclosure is no longer required by DVP, and its sole purpose is to serve REC, which desires to purchase the Control Enclosure for its use to serve REC customers in Virginia. Accordingly, DVP has offered to sell to REC, and REC has agreed to purchase from DVP, the Control Enclosure on the terms and conditions set forth in the Agreement.

At the closing of the Agreement, DVP will execute and deliver to REC a Bill of Sale conveying the Control Enclosure to REC. The purchase price for the Control Enclosure is $31,32 1, which represents the reproduction cost new depreciated, plus an administrative fee of $1,500, for a total price of $32,821.

Upon completion of the proposed transfer, the use of the property purchased by REC from DVP, the Control Enclosure, will remain as it is currently, an electric substation supplying the power needs for REC. The Joint Petitioners state that DVP previously provided interconnection service to REC through the Locust Grove Delivery Point, which was served from DVP's Transmission Circuits 2 and 198. A portion of this circuit is located within REC's certificated service territory. DVP, however, cannot serve customers from this portion of its circuit. Therefore, the Joint Petitioners have mutually agreed on the sale of the Control Enclosure by DVP to REC.

The Joint Petitioners state that the proposed transfer will have no impact on DVP's customers in Virginia, because REC is the only customer served by the facilities. Furthermore, there are no anticipated upgrades or improvements that will need to be made as a result of the proposed transfer. The Joint Petitioners state that there will be no impact on DVP's or REC's Virginia customers' rates, nor will there be any economic impact on the Commonwealth of Virginia as a result of the proposed transfer.

NOW THE COMMISSION, upon consideration of the Joint Petition and representations of the Joint Petitioners, and having been advised by its Staff, is of the opinion and finds that the above-described sale and purchase of utility assets will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and should, therefore, be approved.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to §§ 56-88 *et seq*. of the Code, Virginia Electric and Power Company and Rappahannock Electric Cooperative are hereby granted approval for Virginia Electric and Power Company to sell and for Rappahannock Electric Cooperative to purchase the utility assets as described herein for a total sales price of $32,821.

(2) The Joint Petitioners shall file a report of the action taken pursuant to the approval granted herein within thirty (30) days of the transaction taking place, subject to administrative extension by the Commission's Director of Public Utility Accounting. Such report shall include the date the sale took place, the actual sales price, and the actual accounting entries reflecting the transaction on the books of Virginia Electric and Power Company and Rappahannock Electric Cooperative.

(3) There appearing nothing further to be done in this matter, it hereby is dismissed.

[1] Va. Code §§ 56-88 *et seq.*

CASE NO. PUE-2010-00056
SEPTEMBER 9, 2010

JOINT PETITION OF
ALLEGHENY ENERGY, INC.
FIRSTENERGY CORP.;
TRANS-ALLEGHENY INTERSTATE LINE COMPANY;
and
THE POTOMAC EDISON COMPANY D/B/A ALLEGHENY POWER

For approval of the acquisition of control of The Potomac Edison Company d/b/a Allegheny Power and Trans-Allegheny Interstate Line Company by FirstEnergy Corp., pursuant to the Utility Transfers Act

FINAL ORDER

On June 4, 2010, pursuant to the Utility Transfers Act, Chapter 5 of Title 56 of the Code of Virginia ("Code"),[1] Allegheny Energy, Inc. ("Allegheny Energy"); FirstEnergy Corp. ("FirstEnergy"); Trans-Allegheny Interstate Line Company ("TrAILCo"); and The Potomac Edison Company d/b/a Allegheny Power ("Potomac Edison") (collectively, "Petitioners" or "Joint Petitioners"), filed a Motion for Protective Ruling with the State Corporation Commission ("Commission"), and on June 14, 2010, the Petitioners completed the filing of a Joint Petition seeking approval of the transfer of control of Potomac Edison and TrAILCo to FirstEnergy.[2]

On June 4, 2010, Allegheny Energy, the parent company of Potomac Edison and TrAILCo, and FirstEnergy entered into an Agreement and Plan of Merger ("Agreement").[3] Under the terms of the Agreement, Allegheny Energy and FirstEnergy would combine, after which Allegheny Energy would become a wholly owned subsidiary of FirstEnergy (hereinafter, "proposed transaction" or "proposed merger"), and Potomac Edison and TrAILCo would become indirect wholly owned subsidiaries of FirstEnergy.[4] Thus, if the proposed merger is completed, FirstEnergy would become the ultimate corporate parent of Allegheny Energy and all of its subsidiaries.[5]

In the Joint Petition, the Petitioners also stated that, although a final decision has not been made, they may elect to transition to a corporate structure whereby Allegheny Energy's three direct public utility subsidiaries that conduct business as Allegheny Power would all be aligned as first tier subsidiaries of FirstEnergy.[6] To avoid the time and expense of a separate filing before the Commission if the Petitioners decide to transition to such a corporate structure, the Joint Petitioners requested that the Commission also approve this alternative corporate structure.[7]

On June 25, 2010, the Commission issued an Order for Notice and Comment that, among other things: ordered the Joint Petitioners to provide notice of their Joint Petition to the public; provided interested persons an opportunity to comment or request a hearing on the Joint Petition; directed Commission Staff ("Staff") to analyze the reasonableness of the Joint Petition and present its findings in a Staff Report on or before August 13, 2010; and provided the Petitioners an opportunity to file a response to the Staff Report or to any comments or hearing requests.

On June 29, 2010, Shenandoah Valley Electric Cooperative and Rappahannock Electric Cooperative (collectively, the "Cooperatives") filed a Joint Notice of Participation with the Commission. The Cooperatives stated in their Joint Notice of Participation that they generally supported the proposed transaction but intended to participate in this proceeding in order to ensure that their vital interests were protected.[8]

On July 7, 2010, Robert F. McDonnell, Governor of the Commonwealth of Virginia, filed comments in support of the Joint Petition. Also on July 7, 2010, the National Association of Minority & Women Owned Law Firms ("NAMWOLF") filed comments on the Joint Petition, in which it informed the Commission of its intent to file a Notice of Appearance in the proceeding and urged the Commission to confirm that the proposed merger is in the public interest.

On July 30, 2010, Constellation Energy Commodities Group, Inc., and Constellation NewEnergy, Inc. (collectively, "Constellation"), filed a Motion to Intervene and Notice of Participation with the Commission.[9] Constellation stated that it intended to participate in this case because it had a direct

[1] Va. Code §§ 56-88 *et seq*.

[2] The Joint Petition was filed with the Clerk of the Commission on June 4, 2010, but not deemed complete until June 14, 2010, when the verified signature of FirstEnergy's corporate secretary was received.

[3] Joint Petition at 1.

[4] *Id*. at 1, 5. Specifically, to effectuate the proposed transaction, Allegheny Energy and Element Merger Sub., Inc., would merge, after which Allegheny Energy would be the surviving entity, and the separate corporate existence of Element Merger Sub., Inc., would cease. Element Merger Sub., Inc., is a wholly owned subsidiary of FirstEnergy, which was formed for the sole purpose of effecting the proposed merger. *See Id*. at 2, 5.

[5] *Id*. at 6.

[6] Allegheny Energy has three direct public utility subsidiaries that conduct business as Allegheny Power: West Penn Power Company in Pennsylvania; Monongahela Power Company in West Virginia; and Potomac Edison in Maryland, West Virginia, and Virginia. *Id*. at 5.

[7] *Id*. at 6.

[8] *See* Joint Notice of Participation at 3-4.

[9] On August 6, 2010, Constellation filed with the Commission a Notice of Withdrawal of the Motion to Intervene; however, Constellation requested to maintain its Notice of Participation in this proceeding.

and substantial interest in the outcome of the proceeding as retail and wholesale electricity suppliers in Virginia. Also on July 30, 2010, Yolanda Coly, Managing Director of NAMWOLF, in her individual capacity, filed a request for a hearing in this proceeding. However, subsequently, Ms. Coly filed a letter withdrawing her request to participate in this case. Finally, the Cooperatives filed comments on the proposed transaction on July 30, 2010. The Cooperatives requested that

> the Commission direct, in its Final Order in this proceeding, that FirstEnergy and Allegheny [Energy] shall not take any action or cause Potomac Edison to take any action that would modify, amend, delay or frustrate in any manner, the obligations of Potomac Edison set forth in the [Order dated May 14, 2010, in Case No. PUE-2009-00101] and in the related agreements filed with the Commission in connection with the approvals addressed in [Case No. PUE-2009-00101].[10]

On August 13, 2010, Staff filed its Staff Report. Staff found that the proposed acquisition of control of Potomac Edison and TrAILCo by FirstEnergy was not likely to impair or jeopardize the provision of adequate service to the public at just and reasonable rates and, therefore, the proposed transaction meets the standard set forth in the Utility Transfers Act. Staff recommended approval of the Joint Petition, with a report of action due within thirty (30) days of the close of the proposed transaction. Staff indicated that such report should include the date the proposed transaction took place.[11]

On August 20, 2010, the Joint Petitioners filed a response ("Response") to the Staff Report and Ms. Coly's hearing request. In the Response, the Petitioners agreed with the conclusions made by Staff in the Staff Report and urged that Ms. Coly's request for a hearing be denied.[12]

NOW THE COMMISSION, upon consideration of the record, is of the opinion and finds that, as Ms. Coly was the only participant who requested a hearing in this proceeding and as she subsequently withdrew from the case, no request for a hearing is currently before the Commission. Accordingly, no hearing will be held in this case.

The Commission further finds that the proposed transfer of utility assets, as set forth in the Joint Petition, will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and should, therefore, be approved with the exception that the Joint Petitioners' request to have its alternate corporate structure approved is hereby denied. As is mentioned above, the Petitioners stated that they may desire in the future to transition to a corporate structure whereby Allegheny Energy's three direct public utility subsidiaries that conduct business as Allegheny Power would all be aligned as first tier subsidiaries of FirstEnergy. The Petitioners have stated that any transition to the alternative corporate structure would most likely take place one year or more after the completion of the proposed transaction.[13] Given that the Joint Petitioners placed no time limitations on when such a future transition could take place, nor provided any specifics regarding this alternative structure, the Commission finds that the Petitioners' request for open-ended approval of this as-yet speculative alternate corporate structure shall be denied.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the Utility Transfers Act, the Petitioners' Joint Petition for approval of the acquisition of control of The Potomac Edison Company d/b/a Allegheny Power and Trans-Allegheny Interstate Line Company by FirstEnergy Corp. is hereby approved as described and with the exceptions stated herein.

(2) Within thirty (30) days of completing the transfer, the Joint Petitioners shall file a report of action with the Commission. Such report shall include the date the proposed transaction took place.

(3) FirstEnergy Corp. and Allegheny Energy, Inc. shall not take any action or cause Potomac Edison to take any action that would modify, amend, delay or frustrate in any manner the obligations of Potomac Edison set forth in the Order dated May 14, 2010, in Case No. PUE-2009-00101 and in the related agreements filed with the Commission in connection with the approvals addressed in Case No. PUE-2009-00101.

(4) There being nothing further to come before the Commission in this proceeding, this case is hereby dismissed from the active docket and the papers filed herein placed in the Commission's file for ended causes.

---

[10] Comments of Rappahannock Electric Cooperative and Shenandoah Valley Electric Cooperative at 3. For additional information on the Order referenced herein, see *Joint Petition of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and The Potomac Edison Company d/b/a Allegheny Power, For approval of the purchase and sale of service territory and facilities, for the issuance of, and cancellation of, certificates of public convenience and necessity, and for approval of special, transitional, rate schedules*, Order, Doc. Con. Cen. No. 100540231 (May 14, 2010) (approving transactions providing the Cooperatives the rights and obligations to provide retail electricity service in Potomac Edison's Virginia service territory, transferring distribution facilities to the Cooperatives, releasing Potomac Edison from the rights and obligations to provide electricity service at retail in its Virginia service territory, and requiring Potomac Edison to make certain payments to the Cooperatives).

CASE NO. PUE-2010-00057
AUGUST 17, 2010

PETITION OF
CONTENTMENT ISLAND, L.L.C.,
and
WESTERN VIRGINIA WATER AUTHORITY

For approval of a transfer of a public utility

ORDER GRANTING APPROVAL

On June 7, 2010, Contentment Island, L.L.C. ("Contentment Island"), and the Western Virginia Water Authority ("Authority") (together, the "Petitioners") filed a petition with the State Corporation Commission ("Commission") for approval of a transfer of a public utility from Contentment Island to the Authority pursuant to Chapter 5 of Title 56 of the Code of Virginia ("Code"). More specifically, the Petitioners request approval to transfer the Contentment Island water system from Contentment Island to the Authority.

Contentment Island is a Virginia limited liability company and the owner of the water system, including the real estate, easements, and equipment that serves the owners of homes and lots in the Contentment Island Subdivision and The Cottages at Contentment Island located at Smith Mountain Lake in Franklin County, Virginia. Contentment Island is the successor to the initial developer, Virginia-Carolina Development Corporation ("Virginia-Carolina"), a Virginia corporation.

Virginia-Carolina purchased approximately 140 acres from Michael Paul Chaney in December 1988 for a consideration of $4,000,000 and developed the land for a residential neighborhood. The Plat of Section I of Contentment Island was recorded on June 8, 1989, for 20 lots; the Plat of Section II was recorded on December 5, 1989, for 21 lots; the Plat of Section III was recorded on December 5, 1989 for 11 lots; and the Plat of Section IV was recorded on March 6, 1990, for 23 lots. During the process of subdividing the lots and selling a portion thereof, Virginia-Carolina constructed a water system with necessary water lines extended to the lots in Contentment Island, and several wells were dug and equipment was installed to supply water. Fifty-nine houses have been constructed in the Contentment Island Subdivision, all of which are being served by the Contentment Island water system.

In 1996, Virginia-Carolina conveyed the remaining lots and land, including the Contentment Island water system, to Contentment Island to complete the development and sale of the remaining property of Virginia-Carolina. The Petitioners represent that Contentment Island's consideration for the conveyance was the cancellation of debt owed by Virginia-Carolina to the owner-members of Contentment Island. The Petitioners further state that no part of the consideration was apportioned to the water system, and the consideration for the cancellation of the indebtedness was based on the value of the lots and remaining acreage. In June 2003, Contentment Island conveyed to Resource Partners, L.L.C. ("Resource Partners"), a Virginia limited liability company, its remaining acreage of approximately 42 acres known as the main land property. Contentment Island has continued to sell lots and, at the present time, owns two lots and a 2.411 acre well lot upon which the water system equipment is located.

Resource Partners has subdivided the approximately 42 acres into 62 single family residential lots upon which it has constructed and sold approximately 42 residences. Resource Partners constructed the water lines and mains to supply the lots in The Cottages at Contentment Island, and the Contentment Island water system that Contentment Island operates is currently supplying water to those units. Contentment Island agreed to supply water to the 62 lots of The Cottages at Contentment Island as part of its sale of the 42 acres.

In December 2008, Resource Partners conveyed to Contentment Island all water distribution lines and equipment and easements to maintain, repair, and replace the water distribution lines and other equipment in The Cottages at Contentment Island. The Petitioners represent that Contentment Island did not pay any consideration to Resource Partners for the water system assets.

The Authority was formed by the Council of the City of Roanoke and the Board of Supervisors for the County of Roanoke on July 1, 2004, as a regional water authority to establish and operate water and sewer disposal systems and related facilities. The Authority was chartered in 2004 pursuant to the Virginia Water and Waste Authorities Act, Chapter 51 of Title 15.2 of the Code of Virginia (the "Act"). The Authority is authorized to acquire, finance, construct, manage, and maintain fully integrated water, wastewater, septage disposal and related facilities pursuant to the Act. On November 5, 2009, Franklin County became a member of the Authority, and the Authority's area of service was expanded to include Franklin County, Virginia.

The Petitioners entered into a Water System Purchase Agreement whereby Contentment Island agrees to sell, and the Authority agrees to purchase, the Contentment Island water system and all of the assets presently used in the operation of the system. After the proposed transfer, the Authority will provide water service to the Contentment Island Subdivision and The Cottages at Contentment Island customers and to the owners and future owners of homes in the subdivisions. The Contentment Island water system currently serves a total of 101 customers. The purchase price will be $90,000 cash payable to Contentment Island.

The assets involved in the proposed transfer include the 2.411 acre well lot, all water lines, laterals, valves, fittings, connections, storage facilities, sources of water supply, pumps, manholes, and any and all other equipment and related appurtenances now installed or hereinafter installed in the streets and public utility or water line easement areas in the Contentment Island Subdivision and The Cottages at Contentment Island. Also included are all inventory and water treatment chemicals and all items of tangible personal property currently being used for the treatment of water and which are located at the treatment facilities as well as all easements used or required in the operation of the Contentment Island water system.

For Contentment Island, the purpose of the proposed transfer is to allow it to dispose of the water system to an entity that is better suited to provide the customers with reliable service while allowing Contentment Island to exit the water business. By transferring the water system to the Authority, the Contentment Island water system will be staffed by personnel whose expertise is in owning and operating water systems.

For the Authority, the purpose of the transfer is to acquire a water system within its operating territory to provide Roanoke area citizens with a dependable supply of drinking water. The Authority treats and delivers 24 million gallons of drinking water per day for 56,000 customer accounts. The Authority is a governmental entity created solely to supply water to residences and businesses in the western Virginia area, which includes Franklin County, Virginia. The Authority recently acquired other systems in the general area of the Contentment Island system. The Petitioners represent that, after the

proposed transfer, all of the assets of the water systems will be owned by a governmental entity, which will be in a better position to provide continued reliable service at reasonable rates to the customers.

NOW THE COMMISSION, upon consideration of the petition and representations of the Petitioners and having been advised by its Staff, is of the opinion and finds that the proposed transfer will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and, therefore, should be approved.

However, we find that, in addition to the transfer of the water system to the Authority, Commission approval is also required for conveyances of the Contentment Island water system assets that occurred in 1996 between Virginia-Carolina and Contentment Island and in 2008 between Resource Partners and Contentment Island. Section 56-88 of the Code states in part that a public utility is "any company which owns or operates facilities within the Commonwealth . . . for the furnishing of sewerage facilities or water." In 1996, Virginia-Carolina owned and operated the Contentment Island water system and provided the water service. The conveyance of the assets to Contentment Island constituted an acquisition and disposition of utility assets that was subject to the provisions of § 56-89 *et seq*. Similarly, Resource Partners owned the water lines that provided service to The Cottages at Contentment Island, and the conveyance of the assets to Contentment Island also constituted an acquisition and disposition of utility assets.

Based on the information included in the petition and provided to the Commission Staff, we find that the transfers of utility assets that occurred in 1996 and 2008 have not impaired or jeopardized the provision of adequate service to the public at just and reasonable rates. Contentment Island, Virginia-Carolina, and Resource Partners do not appear to have violated the Utility Transfers Act deliberately.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to §§ 56-89 and 56-90 of the Code, the Petitioners are hereby granted approval of the transfer of assets to Western Virginia Water Authority, as described herein. Approval is also granted for the transfer of utility assets that occurred between Virginia-Carolina and Contentment Island in 1996 and the transfer of utility assets that occurred between Resource Partners and Contentment Island in 2008.

(2) Within ninety (90) days after the consummation of the transfer to the Authority, the Petitioners shall file a report with the Commission to include the date of the transfer to the Authority and the actual transfer price. The report shall also include the dates of the 1996 and 2008 transfers of assets.

(3) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00058
JUNE 18, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY

To revise its fuel factor pursuant to Va. Code § 56-249.6

ORDER ESTABLISHING 2010-2011 FUEL FACTOR PROCEEDING

On June 10, 2010, Appalachian Power Company ("Appalachian Power" or "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits requesting to decrease its current fuel factor from 2.876 cents per kilowatt-hour ("kWh") to 2.197 cents per kWh, effective for service rendered on and after August 1, 2010. The fuel factor revisions requested in Appalachian Power's application represent an estimated revenue decrease through the Company's fuel factor of approximately $109.8 million for the thirteen-month period from August 1, 2010 through August 31, 2011, or approximately $101.4 million on an annual basis.

The Company's proposed fuel factor includes both an in-period factor and a prior period factor. The Company's proposed in-period fuel factor reduction from 2.346 cents per kWh to 2.053 cents per kWh reflects lower projected fuel costs going forward. The Company's proposed prior period fuel factor reduction from 0.530 cents per kWh to 0.144 cents per kWh is designed to recover an anticipated under-recovery deferred fuel balance of $23 million as of July 31, 2010.

NOW THE COMMISSION, having considered the application, is of the opinion and finds that this matter should be docketed, that public notice and an opportunity for participation in this proceeding should be given, and that a hearing should be scheduled.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed and assigned Case No. PUE-2010-00058.

(2) The Company's proposed fuel factor of 2.197 cents per kWh shall be allowed to go into effect on an interim basis for service rendered on and after August 1, 2010.

(3) A public hearing shall be convened on September 21, 2010, at 10:00 a.m., in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive comments from members of the public and evidence related to the establishment of Appalachian Power's fuel factor pursuant to its application. Any person desiring to make a statement at the public hearing concerning the application need only appear in the Commission's Second Floor Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff.

(4) The Company shall forthwith make copies of its application, prefiled testimony, and exhibits available for public inspection during regular business hours at all Company offices in Virginia where customer bills may be paid. Interested persons may also review a copy of Appalachian Power's application in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. Interested persons may also request a copy of the same, at no

charge, by written request to counsel for Appalachian Power, Anthony Gambardella, Esquire, Woods Rogers PLC, 823 East Main Street, Suite 1200, Richmond, Virginia 23219. Appalachian Power shall make a copy available on an electronic basis upon request. In addition, unofficial copies of the Company's application, Commission orders entered in this docket, the Commission's Rules of Practice and Procedure, as well as other information concerning the Commission and the statutes it administers, may be viewed on the Commission's website at http://www.scc.virginia.gov/case.

(5) On or before July 13, 2010, Appalachian Power shall cause a copy of the following notice to be published as display advertising (not classified) on one (1) occasion in newspapers of general circulation throughout its service territory:

NOTICE TO THE PUBLIC OF
APPALACHIAN POWER COMPANY'S
REQUEST TO DECREASE ITS FUEL FACTOR
CASE NO. PUE-2010-00058

On June 10, 2010, Appalachian Power Company ("Appalachian Power" or "Company") filed with the State Corporation Commission ("Commission") an application, written testimony and exhibits requesting to decrease its current fuel factor from 2.876 cents per kilowatt-hour ("kWh") to 2.197 cents per kWh, effective for service rendered on and after August 1, 2010. The fuel factor revisions requested in Appalachian Power's application represent an estimated revenue decrease through the Company's fuel factor of approximately $109.8 million for the thirteen-month period from August 1, 2010 through August 31, 2011, or approximately $101.4 million on an annual basis.

The Company's proposed fuel factor includes both an in-period factor and a prior period factor. The Company's proposed in-period fuel factor reduction from 2.346 cents per kWh to 2.053 cents per kWh reflects lower projected fuel costs going forward. The Company's proposed prior period fuel factor reduction from 0.530 cents per kWh to 0.144 cents per kWh is designed to recover an anticipated under-recovery deferred fuel balance of $23 million as of July 31, 2010.

Pursuant to Va. Code § 56-249.6, the Commission has scheduled a public hearing to commence at 10:00 a.m. on September 21, 2010, in the Commission's Second Floor Courtroom, Tyler Building, 1300 East Main Street, Richmond, Virginia, for the purpose of receiving comments from members of the public and evidence related to the establishment of Appalachian Power's fuel factor. The Commission also allowed the Company to place its proposed fuel factor in effect for service rendered on and after August 1, 2010, on an interim basis.

The Company's application, prefiled testimony, and exhibits are available for public inspection during regular business hours at all of the Company's offices where bills may be paid. Interested persons may also review a copy of the application in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. A copy of the Company's application may also be obtained, at no cost, by written request to counsel for Appalachian Power, Anthony Gambardella, Esquire, Woods Rogers PLC, 823 East Main Street, Suite 1200, Richmond, Virginia 23219. In addition, unofficial copies of the Company's application, Commission orders entered in this docket, the Commission's Rules of Practice and Procedure, as well as other information concerning the Commission and the statutes it administers, may be viewed on the Commission's website: http://www.scc.virginia.gov/case.

Any person desiring to make a statement at the public hearing concerning the application need only appear in the Commission's Second Floor Courtroom at 9:45 a.m. on the day of the hearing and identify himself or herself to the Commission's Bailiff. Any person desiring to file written comments on the Company's application shall file, on or before August 13, 2010, such comments with the Clerk of the Commission at the address set forth below and shall simultaneously serve a copy of such comments on counsel for the Company at the address set forth above. Any person desiring to file comments electronically may do so on or before August 13, 2010, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

On or before July 20, 2010, any interested person may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, and simultaneously serving a copy of the notice of participation on counsel to the Company. Interested parties should obtain a copy of the Commission's Order for further details on participation as a respondent.

On or before August 13, 2010, each respondent may file with the Clerk of the Commission at the address set forth above, an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall serve copies of the testimony and exhibits on counsel to Appalachian Power and on all other respondents.

All filings with the Clerk of the Commission shall refer to Case No. PUE-2010-00058 and shall simultaneously be served on counsel for the Company at the address set forth above.

APPALACHIAN POWER COMPANY

(6) On or before July 13, 2010, the Company shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager (or equivalent official) of every city and town in which the Company provides service. Service shall be made by first class mail to the customary place of business or residence of the person served.

(7) At the commencement of the hearing scheduled herein, the Company shall provide proof of service and notice as required in this Order.

(8) Any person desiring to file written comments on the Company's application shall file, on or before August 13, 2010, such comments with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118, and shall simultaneously serve a copy of such comments on counsel to the Company at the address set out in Ordering Paragraph (4) above. Any person desiring to file comments electronically may do so on or before August 13, 2010, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case.

(9) On or before July 20, 2010, any interested person may participate as a respondent in this proceeding by filing an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set out in Ordering Paragraph (8) above, and simultaneously serving a copy of the notice of participation on counsel to the Company at the address set forth in Ordering Paragraph (4) above. Pursuant to Rule 5 VAC 5-20-80 of the Commission's Rules of Practice and Procedure, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested parties shall refer in all of their filed papers to Case No. PUE-2010-00058.

(10) Within three (3) business days of receipt of a notice of participation as a respondent, the Company shall serve upon each respondent a copy of this Order, a copy of the application, and all materials filed with the Commission, unless these materials have already been provided to the respondent.

(11) On or before August 13, 2010, each respondent may file with the Clerk of the Commission at the address set forth in Ordering Paragraph (8) above, an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case and shall simultaneously serve copies of the testimony and exhibits on counsel to the Company and all other respondents.

(12) The Commission Staff shall investigate the reasonableness of the Company's estimated fuel expenses and proposed fuel factor. On or before August 27, 2010, the Staff shall file with the Clerk of the Commission an original and fifteen (15) copies of the Staff's testimony and exhibits regarding the captioned application and shall promptly serve a copy on counsel to the Company and all respondents.

(13) On or before September 3, 2010, the Company shall file with the Clerk of the Commission an original and fifteen (15) copies of any rebuttal testimony that the Company expects to offer in rebuttal to the testimony and exhibits of the respondents and the Commission Staff and shall on the same day serve one (1) copy on Staff and all respondents.

(14) The Company and all respondents shall respond to written interrogatories within seven (7) calendar days after receipt of the same. Except as modified above, discovery shall be in accordance with Part IV of the Commission's Rules of Practice and Procedure.

(15) Pursuant to § 12.1-31 of the Code of Virginia and 5 VAC 5-20-120 of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq*., the Commission assigns a Hearing Examiner to rule on any discovery matter that may arise in this proceeding.

(16) This matter is continued pending further order of the Commission.

CASE NO. PUE-2010-00058
OCTOBER 6, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY

To revise its fuel factor pursuant to Va. Code § 56-249.6

ORDER ESTABLISHING FUEL FACTOR

On June 10, 2010, Appalachian Power Company ("Appalachian Power" or the "Company") filed with the State Corporation Commission ("Commission") its application, written testimony, and exhibits requesting to decrease its current fuel factor from 2.876 cents per kilowatt-hour ("kWh") to 2.197 cents per kWh, effective for service rendered on and after August 1, 2010. The fuel factor revisions requested in Appalachian Power's application represented an estimated revenue decrease through the Company's fuel factor of approximately $109.8 million for the thirteen-month period from August 1, 2010, through August 31, 2011, or approximately $101.4 million on an annual basis.

The Company's proposed fuel factor includes both an in-period factor and a prior period factor. The Company's proposed in-period fuel factor reduction from 2.346 cents per kWh to 2.053 cents per kWh reflects lower projected fuel costs going forward. The Company's proposed prior period fuel factor reduction from 0.530 cents per kWh to 0.144 cents per kWh is designed to recover an anticipated under-recovery deferred fuel balance of approximately $23 million at July 31, 2010.

On June 18, 2010, the Commission entered an Order Establishing 2010-2011 Fuel Factor Proceeding that, among other things: (1) permitted the Company to place the proposed fuel factor into effect on an interim basis for service rendered on and after August 1, 2010; (2) established a procedural schedule for this matter; (3) required the Company to provide public notice of its application; and (4) scheduled a hearing on the Company's application for September 21, 2010.

On September 1, 2010, the Commission Staff ("Staff") filed its testimony wherein the Staff concluded that "in total the Company's estimated fuel expenses for the forecast period and the resulting proposed fuel factor, while somewhat optimistic in nature, are generally reasonable for the purpose of establishing the fuel factor."[1] Staff did, however, identify a number of potential fuel factor adjustments that the Commission could

[1] Ex. 13 at 11.

reasonably consider, including: (1) the elimination of pre-August 9, 2010 wind energy contract costs from the deferred fuel balance; (2) an update to the July 31, 2010 estimated deferred fuel balance; (3) correction of an error in the Company's accounting of the Virginia coal tax credit; (4) correction of an error in the Company's assumed small coal unit heat rates; and (5) an adjustment for an optimistic off-system sales ("OSS") margin credit projection. Staff estimated that these adjustments would reduce the Company's fuel factor from 2.197 cents per kWh to 2.123 cents per kWh.

On September 10, 2010, the Company filed its rebuttal testimony. The Company agreed with Staff that adjustments to remove wind energy costs from the deferred fuel balance and to correct identified accounting errors were appropriate. The Company noted, however, that due to an error in a Company audit response, the Staff's wind energy cost estimate was based on total company costs rather than Virginia jurisdictional costs. The Company calculated that Staff's adjustments would result in a fuel factor of 2.217 cents per kWh, and recommended that the Commission retain the interim fuel factor of 2.197 cents per kWh.

The hearing on the Company's application was convened on September 21, 2010. One public witness appeared at the hearing. Senator William Roscoe Reynolds testified on behalf of the citizens residing in the Virginia 20th Senatorial District. Appearances were made by counsel for the Company, Old Dominion Committee for Fair Utility Rates ("Committee"), the Virginia Municipal League ("VML") and the Virginia Association of Counties ("VACo") APCo Steering Committee (collectively, "VML/VACo APCo Steering Committee"), the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel") and the Staff. Proofs of public notice of the application and service on local government officials were marked as exhibits and received into the record. Pursuant to an agreement of counsel, the Company's application, testimony and exhibits, as well as the Staff's testimony and exhibits, were entered into the record without cross-examination.

At the hearing, the Company, Staff, Consumer Counsel and the VML/VACo APCo Steering Committee (collectively, the "Stipulating Participants") presented a joint stipulation ("Stipulation") resolving all contested issues in the proceeding.[2] The Committee was not a party to the Stipulation but did not express any opposition to the Stipulation during the hearing. Pursuant to the Stipulation, the Stipulating Participants agreed that the fuel factor of 2.197 cents per kWh, requested by the Company and made effective by the Commission's June 18, 2010 Order for service rendered on and after August 1, 2010, should remain in effect until changed by the Commission. The Stipulating Participants also agreed that the Commission should adopt the Staff's recommendation to decrease the deferred fuel balance to eliminate Camp Grove and Fowler Ridge purchased power wind energy costs incurred prior to August 10, 2009, without prejudice to their continued deferral and recovery as appropriate, in future Commission proceedings. The Stipulating Participants further agreed that the appropriate amount of such Virginia jurisdictional wind energy costs is $9,956,634.

The Stipulating Participants further agreed that the Commission should hold open the Company's 2007-2009 Fuel Audit, and that adjustments to the Company's treatment of Virginia coal tax credits should be reflected in its actual fuel costs and in the determination of its actual monthly fuel cost deferral balance in this case. The Stipulating Participants agreed that the amount of such adjustments should result in a net decrease to Virginia jurisdictional fuel expense of $4,025,688, subject to the audit of such adjustments in completing the Company's 2007-2009 Fuel Audit. Finally, the Company agreed in the Stipulation that it will report its fuel hedging transactions as requested in the Staff testimony.

NOW THE COMMISSION, upon consideration of the record in this case and the applicable statutes, is of the opinion and finds that the proposed Stipulation should be accepted.

As explained in prior cases, approval of the fuel factor herein does not represent ultimate approval of the Company's fuel expenses. An audit and investigation of the Company's actual booked fuel expenses and OSS margins, among other things, will be conducted by the Staff after the close of the fuel year. The Commission subsequently determines what are, in fact, prudent and therefore allowable fuel expenses, as well as the Company's recovery position at the end of the audit period. For example, the Commission has previously described this review as follows:

> Should the Commission find in its Final Audit Order (1) that any component of the Company's actual fuel expenses or credits has been inappropriately included or excluded, or (2) that the Company has failed to make every reasonable effort to minimize fuel cost or has made decisions resulting in unreasonable fuel cost, the Company's recovery position will be adjusted. This adjustment will be reflected in the recovery position of the Company's next fuel factor. We reiterate that no finding in this order is final, as this matter is continued generally, pending Staff's audit of actual fuel expenses.[3]

Accordingly, no finding in this Order Establishing Fuel Factor is final, as this matter is continued generally pending audit and investigation of the Company's actual fuel expenses.

Finally, we direct the Staff to monitor the Company's fuel cost recovery on a monthly basis. If the Staff finds evidence of a change in the recovery balance that permits the Commission, pursuant to Va. Code § 56-249.6 A 2, to adjust the fuel factor downward during the current period, we will review the matter to determine whether fuel rates should be decreased.

Accordingly, IT IS ORDERED THAT:

(1) The Stipulation is hereby accepted.

(2) The Company's fuel factor shall be 2.197 cents per kWh for service rendered on and after August 1, 2010.

(3) This case is continued generally.

---

[2] Steel Dynamics, Inc., filed a Notice of Participation in this matter but did not appear at the hearing and took no position on the joint stipulation.

[3] *Application of Kentucky Utilities Company, t/a Old Dominion Power Company, To revise its fuel factor pursuant to Va. Code § 56-249.6*, Case No. PUE940043, Order Establishing 1994/95 Fuel Factor, 1995 S.C.C. Ann. Rept. 309, 311 (Jan. 6, 1995).

CASE NO. PUE-2010-00060
OCTOBER 19, 2010

JOINT PETITION OF
PPL CORPORATION, E.ON AG, E.ON US INVESTMENTS CORP., E.ON U.S. LLC,
AND KENTUCKY UTILITIES COMPANY d/b/a OLD DOMINION POWER COMPANY

For approval of transfer of ownership and control

FINAL ORDER

On June 15, 2010, PPL Corporation ("PPL"), E.ON AG ("E.ON"), E.ON US Investments Corp. ("E.ON US Investments"), E.ON U.S. LLC ("E.ON U.S."), and Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP") (collectively, "Petitioners"), filed with the State Corporation Commission ("Commission") a joint petition, pursuant to the Utility Transfers Act, Chapter 5 of Title 56 of the Code of Virginia ("Code"), § 56-88 *et seq*. of the Code, for approval of the transfer of ownership and control of KU/ODP by E.ON US Investments to PPL ("Joint Petition"). The Petitioners stated that, in accordance with the terms of a purchase and sale agreement, PPL intends to acquire all of the issued and outstanding limited liability company interests of E.ON U.S. from E.ON's indirect wholly owned subsidiary, E.ON US Investments ("Proposed Transfer").

The Petitioners have requested that the Commission find that approval of the proposed acquisition of ownership and control of E.ON U.S. by PPL will not impair or jeopardize the provision of adequate service by KU/ODP to the public at just and reasonable rates. In conjunction with the request for the Commission to approve the proposed acquisition of ownership and control, the Petitioners have also requested that the Commission determine that PPL and any intermediate company between PPL and KU/ODP will not, by reason of ownership of all limited liability interests of E.ON U.S., which in turn owns all outstanding common shares of KU/ODP, be a public service company in Virginia as defined in § 56-1 of the Code. The Petitioners further have requested that the Commission declare that no further approval under Chapter 4 of Title 56 of the Code is necessary for the previously approved services agreement between and among KU/ODP, Louisville Gas and Electric Company, and LG&E Energy Services, Inc. ("Services Agreement").[1]

On June 25, 2010, E.ON US Investments filed its Supplemental Verification with the Commission in response to Staff's Memorandum of Incompleteness issued on June 23, 2010. Commission Staff subsequently issued a Memorandum of Completeness deeming the Joint Petition complete as of June 25, 2010.

On July 9, 2010, the Commission entered an Order for Notice and Comment, which, *inter alia*, directed the publishing of notice to the public, afforded interested persons an opportunity to comment and request a hearing on the Joint Petition, and directed the Staff of the Commission ("Staff") to review the Joint Petition and file a report detailing the results of its investigation.

To date, no comments or requests for hearing have been received by the Commission. On September 24, 2010, the Staff Report was filed, which documented certain commitments ("Commitments") made by the Petitioners in support of the Proposed Transfer, which Staff believes are appropriate and will further ensure that adequate service to the public at just and reasonable rates will not be jeopardized by the Proposed Transfer. They are as follows:

1. KU/ODP's ability to provide adequate, efficient, and reasonable utility service will not be impaired by E.ON U.S.

2. KU/ODP is prohibited from guaranteeing the debt of E.ON U.S. and its affiliates without the prior approval of the Commission.

3. KU/ODP will not include in Virginia retail rates any costs attributable to LG&E's regulatory assets or potential strandable costs without prior Commission approval.

4. PPL will ensure that KU/ODP will: a) adequately fund and maintain KU/ODP's transmission and distribution systems, b) comply with all Commission regulations and statutes, and c) supply KU/ODP customers' service needs.

5. PPL and E.ON U.S. will support and assist KU/ODP's continued maintenance of a balanced capital structure and recognize the Commission's continued ratemaking authority over KU/ODP's capital structure, financing, and cost of capital.

6. KU/ODP's ratepayers, directly or indirectly, will not incur any additional costs, liabilities, or obligations in conjunction with the acquisition (except in connection with the repayment and refinancing of the closing indebtedness in accordance with its terms).

7. The Commission will have open access to the books and records of E.ON U.S. and KU/ODP and to appropriate personnel, including the books and records of affiliates and subsidiaries as they relate to transactions between KU/ODP and other affiliates. PPL and KU/ODP also commit to continue the same reporting process in place and to include such additional, special, or periodic reports, schedules, classifications, or other information that the Commission would reasonably require in accordance with Virginia regulatory law, to monitor significant transfers of utility assets, personnel changes, business ventures, other major transactions, and to regulate effectively the operations of KU/ODP.

[1] *See Joint Petition of Kentucky Utilities Co., Louisville Gas and Elec. Co., and LG&E Energy Services, For approval of a services agreement*, Case No. PUA-2000-00050, 2000 S.C.C. Ann. Rept. 210, Order Granting Approval (Aug. 10, 2000). Note that this case is also referred to as Case No. PUA000050.

8. KU/ODP will commit to continue to maintain a high level of cooperation with Staff and will take all actions necessary to ensure KU/ODP's timely response to informal data requests submitted by Staff with respect to KU/ODP's provisions of service in Virginia.

9. KU/ODP will not seek recovery of the acquisition premium paid by PPL for the E.ON U.S. stock and the costs associated with the consummation of the transaction through its Virginia jurisdictional retail rates. Further, PPL and E.ON U.S. commit that the premium paid by PPL for the E.ON U.S. stock, as well as any other associated costs, will not be "pushed down" to KU/ODP for ratemaking purposes.

10. KU/ODP commits to provide Staff annually with information regarding the general corporate objectives of the consolidated operations of E.ON U.S. and their potential impact on KU/ODP.

11. KU/ODP will operate and maintain the distribution system in its Virginia service territory at or above current levels of service quality and reliability; will implement, on a timely basis, distribution system improvements that are required to maintain such system levels of service quality and reliability as well as to provide any individual customer or groups of customers with an acceptable level of service quality and reliability consistent with nationally recognized standards acceptable to the Commission.

12. KU/ODP will make all reasonable efforts to support any additional distribution reliability monitoring efforts undertaken by Staff.

13. KU/ODP will provide the Commission with notice thirty (30) days' prior to any FERC [Federal Energy Regulatory Commission] filing that proposes new allocation factors.

14. KU/ODP will abide by the conditions placed on the Services Agreement by the Commission in its August 10, 2000 Order in Case No. PUA000050 unless and until modified by the Commission.[2]

Furthermore, the Staff recommended approval of the proposed acquisition, subject to the above-mentioned Commitments to which the Petitioners have agreed. In addition to these Commitments, Staff also recommended that the Commission require that when any of the affiliates with which KU/ODP currently has an approved affiliate agreement undergoes a name change as a result of the proposed acquisition, KU/ODP should be required to obtain Commission approval of a new affiliate agreement within sixty (60) days of such name change taking effect. At that time, the Staff can review the appropriateness of the services being provided to KU/ODP as well as the associated allocation methods.

Also, the Staff recommended that KU/ODP be required to file an application requesting approval under Chapter 4 of Title 56 of the Code, § 56-76 *et seq.* ("Affiliates Act"), in the event that E.ON U.S. Services, Inc., utilizes any other affiliates, including PPL Services Corporation, to provide services to KU/ODP. The Staff noted that even though the transaction is not dependent on any synergies and savings, the Staff still recommended that the Petitioners track costs and savings attributable to the proposed acquisition for KU/ODP and maintain such records to be available for Staff review as necessary.

The Staff recommended that the Commission require, for a period of two (2) years, that PPL report to the Commission any credit rating agency downgrade of the debt of PPL or any E.ON U.S.-based operating subsidiaries within thirty (30) days of such downgrade. The Staff recommended that PPL supply in its report to the Commission a copy of the publicly available rating agency report containing such downgrade.

Staff also recommended that a report of action be filed with the Commission within thirty (30) days of the acquisition taking place, subject to administrative extension by the Commission's Director of Public Utility Accounting. Such report should include the date the acquisition took place, the price paid by PPL, and any accounting entries on the books of KU/ODP as a result of the acquisition. With these requirements, the Staff recommended that the Commission approve the Proposed Transfer.

On September 29, 2010, the Petitioners filed their response to the Staff Report acknowledging their agreement with the fourteen Commitments contained in the Staff Report and offering comments on the five additional recommendations offered by Staff. Regarding Staff's recommendation that KU/ODP be required to obtain Commission approval of a new affiliate agreement within sixty (60) days when any of its affiliates with which it currently has an approved affiliate agreement undergoes a name change, Petitioners requested that the Commission accept the Staff's recommendation "with the clarification that KU/ODP 'seek' rather than 'obtain' Commission approval."[3] The Petitioners noted that KU/ODP currently operates under a Services Agreement approved by the Commission in its August 10, 2000 Order in Case No. PUE-2000-00050 and that the Joint Petition requested a finding that no further approval under Chapter 4 of Title 56 of the Code is necessary for that Services Agreement. The Petitioners further noted that they expect to announce the name change of E.ON US Services, Inc., and intend to file with the Commission the existing Services Agreement with the new name within sixty (60) days of the announcement or by November 29, 2010.

The Petitioners' response also addressed Staff's recommendation that "Petitioners track costs and savings attributable to the proposed acquisition for KU/ODP and maintain such records to be available for Staff review as necessary."[4] The Petitioners suggested that this requirement is adequately

[2] Staff Report at 13-15.

[3] Petitioners' Response at 2.

[4] Staff Report at 15.

addressed by the Commitments contained in the Staff Report.[5] To the extent that this requirement is not satisfied by the Commitments, the Petitioners stated that they can accept this recommendation "with the understanding it is consistent with the documentation of expected cost effectiveness of significant business decisions and maintaining those records for Staff review as necessary, which is the current business practice of KU/ODP."[6]

Finally, the Petitioners stated that the additional recommendations by Staff are acceptable to the Petitioners as contained in the Staff Report. Due to favorable conditions for the refinancing in the bond market, the Petitioners requested that the Commission issue its orders in this proceeding by October 15, 2010, to support and facilitate a closing of the acquisition by November 1, 2010.

NOW THE COMMISSION, upon consideration of the filings herein and of the applicable law, is of the opinion and finds that the Commitments of the Petitioners and the recommendations as set forth in the Staff Report, except as modified herein, should be adopted as requirements for Commission approval of the Proposed Transfer. The Commission further finds that, with these Commitments and recommendations in place, the Proposed Transfer will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and should, therefore, be approved.

With regard to the Petitioners' request that the Commission declare that no further approval under Chapter 4 of Title 56 of the Code is necessary for the Services Agreement between and among KU/ODP, Louisville Gas and Electric Company, and LG&E Energy Services, Inc. which was previously approved by the Commission in Case No. PUA-2000-00050, the Commission finds that the request should be granted in part. Said Services Agreement need not be re-filed for approval at this time. However, we have herein adopted a requirement directing the filing of a new application for approval of an affiliate agreement when an affiliate in the agreement undergoes a name change. The Services Agreement approved in Case No. PUA-2000-00050 is subject to the same requirement. At that time we will exercise our continuing jurisdiction, as per § 56-80 of the Code, to review the Services Agreement to ensure that it continues to be in the public interest.

Finally, Petitioners requested that the Commission determine that PPL and any intermediate company between PPL and KU/ODP will not, by reason of ownership of all limited liability interests of E.ON U.S., which in turn owns all outstanding common shares of KU/ODP, be a public service company in Virginia as defined in § 56-1 of the Code. We find that such a determination is not necessary at this time nor required for reaching our decision on the Proposed Transfer under the relevant statutory standards.

Accordingly, IT IS ORDERED THAT:

(1) The Proposed Transfer is hereby approved subject to the requirements set forth herein.

(2) KU/ODP's ability to provide adequate, efficient, and reasonable utility service shall not be impaired by E.ON U.S.

(3) KU/ODP shall be prohibited from guaranteeing the debt of E.ON U.S. and its affiliates without the prior approval of the Commission.

(4) KU/ODP shall not include in Virginia retail rates any costs attributable to LG&E's regulatory assets or potential strandable costs without prior Commission approval.

(5) PPL shall ensure that KU/ODP will: a) adequately fund and maintain KU/ODP's transmission and distribution systems, b) comply with all Commission regulations and statutes, and c) supply KU/ODP customers' service needs.

(6) PPL and E.ON U.S. shall support and assist KU/ODP's continued maintenance of a balanced capital structure and recognize the Commission's continued ratemaking authority over KU/ODP's capital structure, financing, and cost of capital.

(7) KU/ODP's ratepayers shall not, directly or indirectly, incur any additional costs, liabilities, or obligations in conjunction with the acquisition (except in connection with the repayment and refinancing of the closing indebtedness in accordance with its terms).

(8) The Commission shall have open access to the books and records of E.ON U.S. and KU/ODP and to appropriate personnel, including the books and records of affiliates and subsidiaries as they relate to transactions between KU/ODP and other affiliates. PPL and KU/ODP also shall continue the same reporting process in place and include such additional, special, or periodic reports, schedules, classifications, or other information that the Commission may reasonably require in accordance with Virginia regulatory law, to monitor significant transfers of utility assets, personnel changes, business ventures, and other major transactions, and to regulate effectively the operations of KU/ODP.

(9) KU/ODP shall continue to maintain a high level of cooperation with Staff and shall take all actions necessary to ensure KU/ODP's timely response to informal data requests submitted by Staff with respect to KU/ODP's provision of service in Virginia.

(10) KU/ODP shall not seek recovery of the acquisition premium paid by PPL for the E.ON U.S stock and the costs associated with the consummation of the transaction through its Virginia jurisdictional retail rates. The premium paid by PPL for the E.ON U.S. stock, as well as any other associated costs, shall not be "pushed down" to KU/ODP for ratemaking purposes.

(11) KU/ODP shall provide Staff annually with information regarding the general corporate objectives of the consolidated operations of E.ON U.S. and their potential impact on KU/ODP.

---

[5] Petitioners' Response at 3. Specifically, the Petitioners suggested that Commitment Nos. 6 and 9 satisfactorily address this recommendation made by the Staff. Commitment No. 6 provides that "KU/ODP's ratepayers, directly or indirectly, will not incur any additional costs, liabilities, or obligations in conjunction with the acquisition (except in connection with the repayment and refinancing of the closing indebtedness in accordance with its terms)." Commitment No. 9 provides that "KU/ODP will not seek recovery of the acquisition premium paid by PPL for the E.ON U.S. stock and the costs associated with the consummation of the transaction through its Virginia jurisdictional retail rates. Further, PPL and E.ON U.S. commit that the premium paid by PPL for the E.ON U.S. stock, as well as any other associated costs, will not be 'pushed down' to KU/ODP for ratemaking purposes." Staff Report at 14.

[6] Petitioners' Response at 4.

(12) KU/ODP shall operate and maintain the distribution system in its Virginia service territory at or above current levels of service quality and reliability; shall implement, on a timely basis, distribution system improvements that are required to maintain such system levels of service quality and reliability as well as to provide any individual customer or groups of customers with an acceptable level of service quality and reliability consistent with nationally recognized standards acceptable to the Commission.

(13) KU/ODP shall make all reasonable efforts to support any additional distribution reliability monitoring efforts undertaken by Staff.

(14) KU/ODP shall provide the Commission with notice thirty (30) days prior to any FERC filing that proposes new allocation factors.

(15) KU/ODP shall abide by the conditions placed on the Services Agreement by the Commission in its August 10, 2000 Order in Case No. PUA-2000-00050 unless and until modified by the Commission.

(16) When any of the affiliates with which KU/ODP currently has an approved affiliate agreement undergoes a name change as a result of the Proposed Transfer, KU/ODP shall file an application for Commission approval of a new affiliate agreement within sixty (60) days of such name change taking effect.

(17) In the event that E.ON U.S. Services, Inc., utilizes any other affiliates, including PPL Services Corporation, to provide services to KU/ODP, then KU/ODP shall file an application requesting approval under the Affiliates Act to obtain such services.

(18) KU/ODP shall track costs and savings attributable to the Proposed Transfer for KU/ODP and maintain such records to be available for Staff review as necessary.

(19) For a period of two (2) years, PPL shall be required to report to the Commission any credit rating agency downgrade of the debt of PPL or any E.ON U.S.-based operating subsidiaries within thirty (30) days of such downgrade. In its report, PPL shall supply to the Commission a copy of the publicly available rating agency report containing such downgrade. PPL shall offer to provide a discussion or presentation to the Commission Staff of the future plans to deal with the credit downgrade.

(20) Within thirty (30) days of completing the Proposed Transfer, the Petitioners shall file a report of action with the Commission. Such report shall include the date the acquisition took place, the price paid by PPL, and any accounting entries on the books of KU/ODP as a result of the acquisition. The deadline for the filing of the report shall be subject to administrative extension by the Commission's Director of Public Utility Accounting.

(21) As there is nothing further to come before the Commission, this matter is dismissed from the Commission's active docket and the papers filed herein placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00061
OCTOBER 19, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY d/b/a OLD DOMINION POWER COMPANY

For authority under Chapter 3 of Title 56 of the Code of Virginia to restructure and refinance unsecured debt, to assume obligations, and for amendment of existing authority

ORDER GRANTING AUTHORITY

On June 15, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Company"), filed an application with the State Corporation Commission ("Commission") pursuant to Chapter 3 of Title 56 of the Code of Virginia ("Code"), § 56-55 *et seq.* of the Code, to restructure and refinance its existing debt ("Application"). On June 25, 2010, KU/ODP paid the requisite fee of $250.

KU/ODP states that this Application is filed concurrently with the joint petition of PPL Corporation ("PPL"), E.ON AG ("E.ON"), E.ON US Investments Corp. ("E.ON US Investments"), E.ON U.S. LLC, and KU/ODP (collectively "Joint Petitioners"), in Case No. PUE-2010-00060, in which the Joint Petitioners seek the Commission's approval for the transfer of ownership and control ("Change of Control") of KU/ODP by E.ON US Investments to PPL, pursuant to the Utility Transfers Act, § 56-88 *et seq*. of the Code.[1] KU/ODP states that the approvals requested herein are in conjunction with and are contingent upon approval of the Change in Control sought in Case No. PUE-2010-00060. On July 7, 2010, the Commission issued an order extending jurisdiction over the instant case until 30 days after the final order in Case No. PUE-2010-00060. The Company supplemented the Application with revisions filed on August 2, 2010, August 24, 2010, and October 12, 2010.

In this Application, KU/ODP seeks Commission authority to replace a total of twenty-one (21) existing unsecured promissory notes ($1.331 billion total principal amount) between itself and Fidelia Corporation ("Fidelia"), an affiliate within E.ON, with the issuance of First Mortgage Bonds ("FMB") directly to the market secured by a lien on KU/ODP's properties in Kentucky. According to the Application, when the Change of Control transaction is completed, all Fidelia promissory notes ("Fidelia Notes") will become due at the closing, requiring refinancing. Bridge financing to retire the Fidelia Notes will be provided by a financing affiliate of PPL and is under Commission consideration in Case No. PUE-2010-00094. KU/ODP intends to issue FMB in a like amount of principal after the Change of Control transaction is completed. The existing loan agreements with Fidelia include a prepayment provision should the Fidelia Notes be paid off prior to maturity. As of March 31, 2010, KU/ODP estimated the prepayment provision would

[1] KU/ODP acknowledges that certain aspects of the refinancing transactions proposed herein involve affiliate transactions that will also require approval under Chapter 4 of Title 56 of the Code. The Company filed an application on August 17, 2010, and the Commission docketed it as Case No. PUE-2010-00094.

require a payment of approximately $73 million from KU/ODP to Fidelia. However, under the terms of the Change of Control, the prepayment provision is waived, saving refinancing costs.

KU/ODP also seeks to revise the authority granted in Case No. PUE-2009-00130[2] to allow KU/ODP to issue up to $225 million in long-term debt to Fidelia or the external capital markets. If a portion of the $225 million in debt authority is issued to Fidelia prior to the Change of Control, KU/ODP also requests authority to replace the additional Fidelia debt with a like amount of new FMB. KU/ODP states that it is not requesting any additional borrowing beyond the amount already approved by the Commission. By letter filed on October 12, 2010, KU/ODP requests that the time to issue the $225 million of debt securities be extended from December 31, 2010, to December 31, 2011.

The Company also seeks an order from the Commission confirming KU/ODP's existing authority to secure seven (7) series of pollution control debt with the Company's FMB or, alternatively, modifying KU/ODP's authority with respect to these seven (7) series of pollution control debt to allow for such security, and granting the Company authority to secure four (4) series of pollution control debt with FMB, which series were issued since 2006.

KU/ODP further seeks an order that expressly allows for the use of FMB to secure any refunding debt obligations that may be incurred pursuant to the authority granted to KU/ODP in Case No. PUE-2008-00034.[3] KU/ODP states that mitigation actions contemplated may not be completed until 2011, therefore the Company further requests that its authority in Case No. PUE-2008-00034 be extended through December 31, 2011.

The Company also seeks authority to enter into new, multi-year revolving credit facilities to replace KU/ODP's current $400 million revolving credit facilities with Fidelia, to allow for short-term borrowing from time to time. When the Change of Control is completed, the existing revolving credit facility ("Money Pool") between KU/ODP and Fidelia will no longer be available. KU/ODP will be seeking to enter into a new multi-year revolving credit facility with one or more financial institutions, to become effective when the Change of Control becomes effective.

Finally, KU/ODP seeks Commission authority to secure the proposed debt issuances via a lien created under a proposed new mortgage indenture, which would, as described herein, include modernized administrative terms and conditions, according to the Company.

KU/ODP originally requested that the order in this case be issued concurrently with the order in Case No. PUE-2010-00060 and that the orders be issued no later than November 19, 2010. However, in filings made on September 22, 2010, and on September 29, 2010, in Case No. PUE-2010-00060, where, among other things, KU/ODP's requested approval date for Case Nos. PUE-2010-00060, PUE-2010-00061, and PUE-2010-00094, was revised from November 19, 2010, to October 15, 2010.

NOW THE COMMISSION, upon consideration of the Application and having been advised by its Staff, is of the opinion and finds that approval of the Application will not be detrimental to the public interest. Therefore, we find that KU/ODP's requests to restructure and refinance unsecured debt, to assume obligations, and for amendment of existing authority should be granted.[4]

Accordingly, IT IS ORDERED THAT:

(1) KU/ODP is authorized to enter into a new indenture agreement, all under the terms and conditions and for the purposes as set forth in the Application.

(2) KU/ODP is authorized to refinance up to $1.331 billion of unsecured debt to Fidelia Corporation or PPL Corporation, as applicable, from the date of this order through December 31, 2011, all under the terms and conditions and for the purposes set forth in the Application.

(3) KU/ODP is authorized to secure all eleven (11) existing series of pollution control financing debt with secured debt issued by KU/ODP to refinance Fidelia unsecured long-term debt, all under the terms and conditions and for the purposes set forth in the Application.

(4) KU/ODP is authorized to enter into one or more new credit facilities to provide short-term financing up to $400 million to replace its current revolving credit facility with Fidelia, all under the terms and conditions and for the purposes set forth in the Application.

(5) KU/ODP shall submit to the Division of Economics and Finance a preliminary report of action within ten (10) days after the issuance of any long-term debt securities pursuant to Ordering Paragraph (2) to include the type of security, the issuance date, amount of the issue, the interest rate, the maturity date, and a brief explanation of reasons for the term of maturity chosen.

(6) Within sixty (60) days after any debt securities are issued pursuant to Ordering Paragraph (2), KU/ODP shall file with the Commission a detailed report of action with respect to all long-term debt securities to include:

(a) The issuance date, type of security, amount issued, interest rate, date of maturity, issuance expenses realized to date, net proceeds to KU/ODP, and an updated cost benefit analysis that reflects the impact of any Hedging Facility for any secured debt issued to refund other outstanding debt prior to maturity, if an update is applicable;

Ann. Rept. 557, Order Granting Authority (Dec. 28, 2009).

[3] *Application of Kentucky Utilities Co. d/b/a Old Dominion Power Co., For authority to issue securities under Chapter 3 of Title 56 of the Code of Virginia*, Case No. PUE-2008-00034, 2008 S.C.C. Ann. Rept. 522, Order Granting Authority (June 19, 2008), and 2009 S.C.C. Ann. Rept. 311, Order Granting Motion and Extending Authority (Nov. 30, 2009).

[4] In accordance with the findings herein, orders will be issued concurrently in Case Nos. PUE-2008-00034 and PUE-2009-00130 amending the authority granted and extending the time period approved therein to and through December 31, 2011.

(b) A summary of the specific terms and conditions of each Hedging Facility and an explanation of how it functions to lock-in the interest rate on an associated issuance of secured debt; and

(c) The cumulative principal amount of secured debt issued under the authority granted herein and the amount remaining to be issued.

(7) KU/ODP shall submit to the Division of Economics and Finance a final report of action on or before February 28, 2012, to include all information required in Ordering Paragraph (6) along with a balance sheet that reflects the capital structure following the issuance of any long-term debt. The final report of action shall further provide a term sheet for the revolving credit facilities authorized in Ordering Paragraph (4), and a detailed account of all upfront line of credit fees and a summary of the actual expenses and ongoing line of credit fees associated with the revolving lines of credit. Further, the final report of action shall provide a detailed account of all the actual expenses and fees paid to date for all secured debt issued pursuant to the authority granted herein with an explanation of any variances from the estimated expenses contained in the Financing Summary attached to the application.

(8) Approval of the Application shall have no implications for ratemaking purposes.

(9) The authority granted herein shall not preclude the Commission from applying the provisions of § 56-78 and § 56-80 of the Code hereafter.

(10) The Commission reserves the right to examine the books and records of any affiliate, whether or not such affiliate is regulated by this Commission, in connection with the authority granted herein.

(11) This matter shall be continued, subject to the continuing review, audit, and appropriate directive of the Commission.

CASE NO. PUE-2010-00063
JULY 14, 2010

APPLICATION OF
WASHINGTON GAS LIGHT COMPANY

For approval to recover hexane costs

PRELIMINARY ORDER

On June 23, 2010, Washington Gas Light Company ("WGL" or the "Company") filed an application with the State Corporation Commission ("Commission") to recover $507,121 of costs associated with the non-Btu component of hexane injections for the fiscal year ended September 30, 2009, in accordance with the terms of the Stipulation accepted by the Commission in Case No. PUE-2006-00059[1] ("Application"). Paragraph 6(b) of the Stipulation accepted in Case No. PUE-2006-00059 provides in pertinent part that

> . . . if the Company's Virginia-jurisdictional earned return on equity is less than 10.0%, based on a per-books earnings test for the fiscal year ended September 30, during any [performance-based regulation] PBR period for the revised PBR Plan, the Company may file an application pursuant to 5 VAC 5-20-80 A, to request recovery of the actual Virginia-jurisdictional amount of the non-Btu component of hexane expensed during that PBR period in excess of $400,000. The cost recovery of the non-Btu component of hexane will be limited to that amount in excess of $400,000 required for the Company to achieve an earned return on equity of 10.0% for that PBR period for the revised PBR Plan. If the Company's earned return on equity is greater than or equal to 10.0% during any PBR Period, then the Company shall not seek additional recovery of the cost of the non-Btu component of hexane.[2]

In its Application, WGL maintains that its Annual Informational Filing for the twelve months ended September 30, 2009, indicates that WGL's return on equity was below 10.0%. The Company asserts that the revenue requirement available for incremental hexane cost recovery for WGL to earn a return on equity of 10.0% for fiscal year 2009 would be $2,838,576. WGL advises that the actual Virginia non-Btu hexane cost for fiscal year 2009 is $907,121. According to WGL, since the Stipulation permits the Company to collect any excess of actual Virginia-jurisdictional non-Btu hexane costs in excess of $400,000, the Application requests recovery of $507,121 of the non-Btu component of hexane costs expensed during fiscal year 2009.

The Company included tariff revisions to collect the $507,121 amount in excess of the $400,000 threshold for the non-Btu component of hexane costs expensed during fiscal year 2009. The Company proposes to collect the approved amount of non-Btu hexane costs in the following manner: the Company will include an adjustment to the distribution charge to collect the non-Btu portion of hexane costs for Company customers served under WGL Rate Schedule Nos. 1, 1A, 2, 2A, 3, 3A, 4, and 7. According to WGL, the hexane charge will be computed as a cents-per-therm basis comprising a current and a reconciling factor. The current factor, if applicable, will be calculated annually by dividing the non-Btu portion of hexane costs that the Commission permits the Company to recover by total weather normalized throughput for the year. The reconciling factor, according to WGL, will be the difference between the actual amount to be charged and the actual amount collected during the twelve-month period. WGL proposes to implement the current factor (as an adjustment to the distribution charge) in the first billing cycle month following Commission approval of WGL's Application to recover the non-Btu portion of the costs of hexane injections. The Company included revised tariff pages showing the computation of the factor to collect the non-Btu hexane costs as Appendix C to its Application.

---

[1] *Application of Washington Gas Light Company, For a general increase in rates, fees, charges and revisions to the terms and conditions of service as well as approval of a performance-based rate regulation methodology under Va. Code § 56-235.6*, Case No. PUE-2006-00059, 2007 S.C.C. Ann. Rept. 315, 319, Final Order (Sept. 19, 2007) (hereafter "Case No. PUE-2006-00059").

[2] *See* Stipulation accepted in Case No. PUE-2006-00059 at 8-9.

NOW THE COMMISSION, upon consideration of the foregoing, is of the opinion and finds that the captioned application should be docketed and assigned Case No. PUE-2010-00063; that the Company's proposed tariff revisions should be suspended pursuant to § 56-238 of the Code of Virginia ("Code") for a period of one hundred fifty days from the date the proposed tariff revisions were filed with the Commission to and through November 20, 2010, or until the Commission renders its final determination in this matter, whichever is earlier; and that this case should be continued generally.

Accordingly, IT IS ORDERED THAT:

(1) The captioned matter shall be docketed and assigned Case No. PUE-2010-00063.

(2) The Company's proposed tariff revisions shall be suspended pursuant to § 56-238 of the Code for a period of one hundred fifty days from the date the proposed revised tariffs were filed with the Commission to and through November 20, 2010, or until the Commission renders its final determination in this matter, whichever is earlier.

(3) This case shall be continued generally.

CASE NO. PUE-2010-00063
DECEMBER 15, 2010

APPLICATION OF
WASHINGTON GAS LIGHT COMPANY

For approval to recover hexane costs and to revise tariffs

FINAL ORDER

On June 23, 2010, Washington Gas Light Company ("WGL" or "Company") filed an application with the State Corporation Commission ("Commission") requesting approval to recover $507,121 of costs relating to the non-Btu component of hexane injections for the fiscal year ended September 30, 2009 ("Application"). In support of its Application, the Company advised that it began injecting hexane into its system in February 2006 to replace heavy hydrocarbons in liquefied natural gas that enters the Company's distribution system. According to WGL, the injection of hexane was a response to increased leaks in mechanical couplings on the Company's distribution system. WGL advised that the leaks are attributable to the shrinkage of rubber seals in mechanical couplings used in the construction of 2-inch and smaller distribution mains and service lines. The Company contends that the shrinkage of the rubber seals has been linked to the lack of heavy hydrocarbons in re-gasified liquefied natural gas ("LNG") received from Cove Point LNG, LP. According to WGL, during the natural gas liquefaction process, heavy hydrocarbons, e.g., hexanes and pentanes, are separated from the natural gas stream. The primary goal of the hexane exchange is to limit additional leaks from mechanical couplings where delivery of LNG cannot be avoided.

WGL's Application related that in Case No. PUE-2006-00059,[1] the Commission approved a Stipulation as part of WGL's performance-based rate regulation plan ("PBR Plan") that, among other things, permitted WGL to request approval from the Commission to recover the non-Btu portion of hexane costs if the Company's return on equity is less than 10% in any PBR Plan annual period. The Company's Application advised that in its Annual Informational Filing ("AIF") for the twelve-month period ending September 30, 2009 ("fiscal year 2009"), the results of WGL's earnings test filed in the AIF indicated that the Company earned less than a 10% return on equity.[2] The Company's Application seeks recovery of the actual Virginia-jurisdictional amount of the non-Btu component of hexane, in excess of $400,000, or expensed in the fiscal year and PBR Plan period ended September 30, 2009. WGL's Application explained that the revenue requirement available for incremental hexane cost relief for WGL to earn a return on equity of 10.0% for the fiscal year 2009 would be $2,838,576, but the actual Virginia non-Btu hexane cost for the fiscal year 2009 was $907,121. In accordance with the Stipulation, WGL proposes to collect the actual Virginia jurisdictional non-Btu hexane costs in excess of $400,000, or $507,121. WGL proposes to collect any amount of non-Btu hexane costs approved by the Commission from customers receiving service under Rate Schedule Nos. 1 - Residential Service, 1A - Residential Delivery Service, 2 - Commercial and Industrial Service, 2A - Commercial and Industrial Delivery Service, 3 - Group Metered Apartment Service, 3A - Group Metered Apartment Delivery Service, 4 - Interruptible Service, and 7 - Interruptible Delivery Service, through an adjustment to the distribution charge for these Rate Schedules.

WGL proposed that the hexane charge be computed on a cents-per-therm basis comprising a current and a reconciling factor. According to the Company's Application, the current factor, if applicable, will be calculated annually by dividing the non-Btu portion of hexane costs approved by the Commission by total weather normalized throughput for the year. The Company filed, as Appendix C to its Application, revised tariff pages showing the computation of the factor to collect the non-Btu hexane costs. WGL proposed to implement the current factor as an adjustment to the distribution charge in the first billing cycle month following Commission approval of its Application.

On July 14, 2010, the Commission entered its Preliminary Order herein. The Preliminary Order docketed the Company's Application and suspended the Company's proposed tariff revisions pursuant to § 56-238 of the Code of Virginia to and through November 20, 2010, or until the Commission makes its final determination in this case, whichever is earlier.

---

[1] *See Application of Washington Gas Light Company, For a general increase in rates, fees, charges and revisions to the terms and conditions of service as well as approval of a performance-based rate regulation methodology under Va. Code § 56-235.6*, Case No. PUE-2006-00059, 2007 S.C.C. Ann. Rept. 315, Final Order (Sept. 19, 2007) (hereafter "Case No. PUE-2006-00059"). The Final Order entered in Case No. PUE-2006-00059 incorporated the terms of the Stipulation as part of the Order. *Id.*, 2007 S.C.C. Ann. Rept. at 319, Final Order (Sept. 19, 2007).

[2] WGL noted that the Staff Report filed on May 24, 2010, by the Staff of the Commission ("Staff") in Case No. PUE-2010-00005, the AIF for the twelve-month period ended September 30, 2009, showed that WGL earned a 9.20% return on equity. WGL concluded that it had earned a 9.55% return on equity in the earnings test submitted with its AIF for fiscal year 2009.

On July 22, 2010, the Commission entered its Order for the Notice and Comment ("Order"). In this Order, the Commission directed the Company to prefile on or before August 18, 2010, the direct testimony and exhibits the Company intended to offer in support of its Application; invited interested persons to file comments or requests for hearing on the Company's Application on or before September 30, 2010; directed the Company to complete publication of notice prescribed in the Order[3] on or before August 18, 2010; required the Company to serve a copy of the Order on local governmental officials in counties, cities, and towns in which the Company offers service; required the Commission Staff to file on or before October 21, 2010, a report or testimony, as appropriate, on the proposals set forth in the Company's Application; directed the Company to file proof of the notice and service required by the Order on or before November 4, 2010; and authorized the Company to file on or before November 4, 2010, its response or testimony it expected to introduce in rebuttal to the comments or requests for hearing of interested persons or the Staff Report or testimony.

On August 18, 2010, the Company filed the prefiled Direct Testimony of Paul S. Buckley in support of the Application. This testimony, among other things, advised that the Application filed herein reflected an incorrect allocation of the hexane costs between the Btu and the non-Btu components of hexane. Mr. Buckley included an exhibit (Exhibit PSB-1) to his testimony that shows the correct allocations. Mr. Buckley advised at page 2 of his testimony that although Exhibit PSB-1 supports non-Btu hexane cost recovery of $542,745, the Company requests authority to recover $507,121 in non-Btu hexane costs, and plans to make the necessary adjustment in the 2010 Actual Cost Adjustment ("ACA") reconciliation for the non-Btu hexane costs that were collected through WGL's Purchased Gas Charge ("PGC"), the automatic adjustment clause through which the Company recovers its gas supply purchases.

No comments or requests for hearing were filed herein by interested persons. WGL filed its proof of notice and service with the Commission on September 8, 2010.

On October 20, 2010, the Staff filed its Report ("Staff Report" or "Report") on the Company's Application. In its Report, Staff noted, among other things, that in WGL's AIF for the fiscal year 2009, the Commission entered an Order Accepting Staff Recommendations and Dismissing Proceeding on June 30, 2010,[4] which adopted Staff's accounting adjustments, capital structure and recommendations set forth in the May 24, 2010 Staff Report filed in Case No. PUE-2010-00005.

According to the Staff Report filed in Case No. PUE-2010-00005, based on a 9.20% rate of return on average common equity, WGL's revenues were $5.1 million below what was necessary to earn a 10% rate of return on average common equity. The Report noted that recovery of the requested $507,121 would not result in earnings which exceed a 10% rate of return on average common equity for the test year.

The Staff Report also discussed WGL's hexane cost recovery. The Report commented that WGL's calculation of its hexane cost recovery included the Btu and the non-Btu components of hexane that were expensed during the PBR Plan period, October 1, 2008, to September 30, 2009. The Report advised that WGL determines the costs allocated with the Btu component of hexane each month by converting the Virginia jurisdictional quantity of withdrawn hexane gallons to therms and multiplying that product by the respective month's weighted average cost of gas. WGL calculates the total Virginia jurisdictional hexane costs each month by multiplying the total costs allocated with the withdrawal of hexane by the Virginia allocation factor of 41%. The non-Btu component of hexane is the difference between the Btu hexane costs and the total Virginia jurisdictional hexane costs. The Report explained that in Appendix B of the Company's Application, WGL divides the non-Btu hexane costs totaling $507,121 by an estimated weather normalized throughput of 607,241,000 therms, which represents the twelve-month budget period beginning July 2010, through June 2011.

The Staff reported that the actual throughput for the PBR Plan period, October 2008 through September 2009, was 618,558,795 therms. The current factor for the non-Btu portion of hexane costs using the actual throughput for the PBR Plan period is $0.0008 cents per therm. Staff noted that the current factor for the non-Btu portion of hexane representing total costs of $542,745, and a throughput of 618,558,795 therms is $0.0009 cents per therm.

At pages 10-11 of its Report, the Staff proposed revised tariff language, which it represents is more consistent with the Stipulation accepted in Case No. PUE-2006-00059 and clearly sets out how WGL should compute its non-Btu hexane costs. Staff also recommended that WGL submit its hexane work papers along with its quarterly PGC filings. Additionally, Staff recommended that WGL's recovery of non-Btu hexane costs should be shared among all of the Company's customers who utilize WGL's distribution system. The Staff therefore recommended that Rate Schedule No. 8 - Developmental Natural Gas Vehicle Service and Rate Schedule No. 10 - Large Volume Delivery Service[5] should be included in the Company's proposed performance-based rate recovery ("PBRR") factor calculations, and the Company's tariff should be revised to address the recovery of the non-Btu portion of hexane costs from these Rate Schedules.

On November 4, 2010, the Company filed the "Response of Washington Gas Light Company to Staff Report" ("Response"). In its Response, WGL advised that it will submit its 2010 ACA in November 2010, which will include a credit adjustment for $35,622 of non-Btu hexane costs that had been collected from WGL's customers in the 2008-2009 ACA period. WGL advised that it did not object to applying the non-Btu hexane costs to Rate Schedule Nos. 8 and 10. Appendix 1 attached to the Response recalculates the factor to recover non-Btu hexane costs to include the additional throughput associated with Rate Schedule No. 8.

The Company confirmed that it does not currently provide service to any customers under Rate Schedule No. 10, and it advised that it did not object to including the throughput allocated with Rate Schedule No. 10 if the Company were to provide service to large volume delivery service customers in the future. According to the Company, the PBRR factor shown in Appendix 1 to the Response replaces the PBRR factor calculations shown in Exhibit PSB-2 of Company witness Paul S. Buckley's August 18, 2010 testimony.

---

[3] The public notice prescribed in the Order advised that "after considering the record in this case, the Commission may change the tariff revisions proposed by the Company or take other actions with respect to the recovery of the non-Btu component of hexane costs that differ from the proposals set out in the Company's Application." Order at 6.

[4] *See Application of Washington Gas Light Company, For an Annual Informational Filing for the Twelve Months ending September 30, 2009*, Case No. PUE-2010-00005, Doc. Con. Cen. No. 100660077, slip op. at 7, Order Accepting Staff Recommendations and Dismissing Proceeding (June 30, 2010).

[5] Staff noted that the throughput for Rate Schedule No. 10 is zero since the Company currently does not serve any customers under this Schedule. In the event WGL services customers in Rate Schedule No. 10 prospectively, then the PBRR factor would apply.

The Company agreed to Staff's proposed revised tariff language for General Service Provision ("GSP") No. 33 (Performance-Based Rate Recovery) as revised to include language to reflect the PBRR factor for Rate Schedule Nos. 8 and 10. WGL's Response proposed to add the following language to the first sentence of Paragraph A.1. of GSP No. 33 after the words "Distribution Charge": "(Commodity Charge on Rate Schedule No. 8, monthly charge on Rate Schedule No. 10)."[6] The tariff pages with the revisions to GSP No. 33 recommended by the Staff and supported by WGL in its Response appear as Appendix II to the Response. Appendix II also includes tariff pages for revisions to Rate Schedule Nos. 8 and 10 to indicate that GSP No. 33 will apply to service provided under these two rate schedules.

NOW THE COMMISSION, upon consideration of the Application, the Company's prefiled direct testimony, the Staff Report, the Response thereto and the applicable statutes, is of the opinion and finds that the Company's Application to recover $507,121 of costs relating to the non-Btu portion of hexane injections is supported by the record and should be approved subject to the findings made herein for the period ended September 30, 2009; that the revised PBRR factor set out in Revised (11/04/10) Exhibit PSB-2 (Appendix I to WGL's Response) should be implemented as an adjustment to the distribution charge in the first billing cycle month following the issuance of this Order to recover the non-Btu portion of the cost of hexane injections; that WGL should file its work papers supporting its hexane cost recovery as part of its quarterly PGC filings with the Commission's Division of Energy Regulation; that the Company should adjust for the collection of non-Btu hexane costs that were recovered through the 2008-2009 ACA in the 2010 ACA; that the 2010 ACA submitted to the Division of Energy Regulation Staff should include a credit adjustment in the amount of $35,622 for non-Btu hexane costs that were collected in the 2008-2009 ACA period; that it is appropriate to apply the non-Btu hexane costs to Rate Schedule Nos. 1, 1A, 2, 2A, 3, 3A, 4, 7, 8, and 10; that the revised tariff set out in Appendix II to WGL's response is hereby approved effective for the first billing cycle month following the issuance of this Order; and that this case should be dismissed from the Commission's docket of active proceedings.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the findings made herein, the Company's Application to recover $507,121 of costs relating to the non-Btu portion of hexane injections is hereby approved for the period ended September 30, 2009.

(2) The revised PBRR factor set out in Appendix 1 to WGL's Response shall be implemented as an adjustment to the distribution charge in the first billing cycle month following the issuance of this Order to recover the non-Btu portion of the cost of hexane injections.

(3) WGL shall file the work papers supporting its hexane cost recovery along with its quarterly PGC filings with the Commission's Division of Energy Regulation.

(4) WGL shall include a credit adjustment of $35,622 of non-Btu hexane costs that were recovered in the 2008-2009 ACA in the 2010 ACA.

(5) The revised tariff set out in Appendix II to WGL's Response is hereby approved effective for the first billing cycle month following the issuance of this Order.

(6) There being nothing further to be done herein, this case is hereby dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

[6] Response at 3.

CASE NO. PUE-2010-00065
AUGUST 6, 2010

APPLICATION OF
MASSANUTTEN PUBLIC SERVICE CORPORATION

For Waiver of 2009 AIF Filing

ORDER GRANTING PARTIAL WAIVER

On June 25, 2010, Massanutten Public Service Corporation ("Massanutten" or "Company") filed its Request for Waiver of Filing of 2009 AIF ("AIF Waiver Request"). Under the terms of the State Corporation Commission ("Commission") Rules Governing Utility Rate Applications and Annual Informational Filings, 20 VAC 5-201-30 ("Rule 30"), Massanutten asked the Commission to find that it did not need to file an Annual Informational Filing for 2009, or, in the alternative, that the Company be granted a waiver with respect to such a filing.

On July 27, 2010, the Commission Staff ("Staff") filed its response to Massanutten's AIF Waiver Request, asserting that a 2009 AIF was required but that the only schedules needed by the Staff were the "earnings test" schedules 9, 11, 12, 14, and 16, as identified in 20 VAC 5-201-90. The Staff also proposed that Rule 30's 120-day requirement be waived and that Massanutten file the aforementioned schedules no later than September 1, 2010.

By letter filed July 29, 2010, Massanutten confirmed that it was in agreement with the Staff's proposal regarding the schedules to be filed and the filing date.

NOW THE COMMISSION, having considered the pleadings and the agreement between Massanutten and the Staff, is of the opinion and finds that the Company should file schedules 9, 11, 12, 14 and 16, on or before September 1, 2010.

Accordingly, IT IS ORDERED THAT:

(1) Massanutten's Request for Waiver of Filing of 2009 AIF is granted in part, and denied in part, as set forth herein;

(2) Massanutten shall file Schedules 9, 11, 12, 14, and 16, for the calendar year 2009, on or before September 1, 2010; and

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00065
OCTOBER 4, 2010

APPLICATION OF
MASSANUTTEN PUBLIC SERVICE CORPORATION

For Waiver of 2009 AIF Filing

ORDER *NUNC PRO TUNC*

On August 6, 2010, the State Corporation Commission ("Commission") entered its Order Granting Partial Waiver ("August 6, 2010 Order") in response to a request for waiver filed on June 25, 2010, by Massanutten Public Service Corporation ("Company"). The August 6, 2010 Order stated inadvertently in Ordering Paragraph (3) that the case was dismissed.

On August 31, 2010, the Company properly filed the designated schedules 9, 11, 12, 14, and 16 for the 2009 test period, as directed by the August 6, 2010 Order. To retain this proceeding as the vehicle for the Commission Staff to submit its analysis and report regarding those schedules, the Commission, *nunc pro tunc*, will alter Ordering Paragraph (3) to continue this case generally.

NOW THE COMMISSION, having considered its August 6, 2010 Order, has determined that Ordering Paragraph (3) should be revised to continue this matter generally.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) Ordering Paragraph (3) of the August 6, 2010 Order is modified to read as follows:

"(3) This matter is continued generally."

(2) In all other respects, the August 6, 2010 Order remains unaltered.

CASE NO. PUE-2010-00066
DECEMBER 17, 2010

APPLICATION OF
MECKLENBURG ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On June 30, 2010, Mecklenburg Electric Cooperative ("MEC" or the "Cooperative") filed an Application for approval of its proposed Rider GT for 100% renewable electric service ("Rider GT") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code").[1] The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to MEC, Rider GT would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative

[1] On August 27, 2010, in Case No. PUE-2010-00066, MEC filed a Motion for Leave to Withdraw Application (Doc. Con. Cen. No. 100870727) and a Motion for Leave to Amend Application (Doc. Con. Cen. No. 100870728) (collectively, "Motions") simultaneously with an Amended Application for Approval of 100% Renewable Tariff (Doc. Con. Cen. No. 100870729) ("Application"). In its Motions at pages 1-2, the Cooperative stated that "acting in an abundance of caution, it is prudent to seek leave to withdraw the Application and refile it so as to comply with the letter of the Act, which provides for approvals on or after July 1, 2010.'" The Application and attached Rider GT are substantively identical to the Cooperative's Application and Rider GT filed in this case on June 30, 2010 (Doc. Con. Cen. No. 100660125). The Commission's September 9, 2010 Order for Notice and Comment granted the Motions and accepted MEC's Application and attached Rider GT filed on August 27, 2010, in lieu of its filing on June 30, 2010.

Rate Schedule. MEC also stated that Rider GT would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

MEC further stated that the customer may terminate billing under Rider GT by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider GT effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider GT or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider GT would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider GT would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider GT, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider GT. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider GT "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider GT (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider GT's consistency with § 56-577 A 6 of the Code and on Rider GT's technical soundness.[7] Staff suggested that the title of Rider GT, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider GT's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

---

[8] *Id*. at 4.

[9] *Id.* at 5.

Staff's proposed amendment deletes from Rider GT's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, MEC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, MEC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] MEC agreed with Staff's recommended modification of Rider GT's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] MEC acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. MEC further stated that it disagreed with Staff's recommended title for the tariff. Instead, MEC suggested that Rider GT be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider GT being described as "100% renewable," MEC noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider GT is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, MEC argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, MEC asserted that tariffs such as Rider GT would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider GT would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to MEC, approval of Rider GT could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, MEC stated that, although Rider GT does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the

[11] *Id*. (emphasis in original).

[12] *Id.* at 5.

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00066, Doc. Con. Cen. No. 101110147 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[19] Rebuttal Comments at 7-8.

REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] MEC further stated that neither Rider GT nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider GT is potentially deceptive to customers and in violation of federal consumer protection laws, MEC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. MEC stated that it has made the statutorily required disclosures and will continue to do so.[22] MEC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Rider GT would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, MEC asserted that Rider GT would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. MEC further asserted that Rider GT would create a new demand for RECs and is in the public interest.[24]

Finally, MEC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, MEC argued that Rider GT, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Rider GT subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider GT satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider GT are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider GT, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider GT. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider GT's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider GT is available to residential class customers only.

[24] *Id*. at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider GT unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by MEC, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate MEC's Application and Rider GT. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) MEC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider GT is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) MEC shall submit its revised Rider GT, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00067
DECEMBER 17, 2010

APPLICATION OF
BARC ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On June 30, 2010, BARC Electric Cooperative ("BARC" or the "Cooperative") filed an Application for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code").[1] The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to BARC, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. BARC also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

BARC further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

[1] On August 27, 2010, in Case No. PUE-2010-00067, BARC filed a Motion for Leave to Withdraw Application (Doc. Con. Cen. No. 100870719) and a Motion for Leave to Amend Application (Doc. Con. Cen. No. 100870720) (collectively, "Motions") simultaneously with an Amended Application for Approval of 100% Renewable Tariff (Doc. Con. Cen. No. 100870723) ("Application"). In its Motions at pages 1-2, the Cooperative stated that "acting in an abundance of caution, it is prudent to seek leave to withdraw the Application and refile it so as to comply with the letter of the Act, which provides for approvals 'on or after July 1, 2010.'" The Application and attached Rider R are substantively identical to the Cooperative's Application and Rider R filed in this case on June 30, 2010 (Doc. Con. Cen. No. 100660126). The Commission's September 9, 2010 Order for Notice and Comment granted the Motions and accepted BARC's Application and attached Rider R filed on August 27, 2010, in lieu of its filing on June 30, 2010.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

[12] *Id.* at 5.

On November 4, 2010, BARC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, BARC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] BARC agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] BARC acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. BARC further stated that it disagreed with Staff's recommended title for the tariff. Instead BARC suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," BARC noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, BARC argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, BARC asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to BARC, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, BARC stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] BARC further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, BARC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. BARC stated that it has made the statutorily required disclosures and will continue to do so.[22] BARC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23]

---

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00067, Doc. Con. Cen. No. 101110148 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

[17] *Id*. at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[19] Rebuttal Comments at 7-8.

[20] *Id*. at 8, n.16.

[21] *Id*. at 8-9.

[22] *Id*. at 9-10.

[23] *Id.* at 10.

According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, BARC asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. BARC further asserted that Rider R would create a new demand for RECs and is in the public interest.[24]

Finally, BARC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, BARC argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by BARC, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate BARC's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

[26] Rebuttal Comments at 11-12.

[27] Red Barn Trading Comments.

[28] Old Mill Power Comments at 18.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) BARC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) BARC shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00068
DECEMBER 17, 2010

APPLICATION OF
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On June 30, 2010, Shenandoah Valley Electric Cooperative ("SVEC" or the "Cooperative") filed an Application for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code").[1] The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to SVEC, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. SVEC also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

SVEC further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be

[1] On August 27, 2010, in Case No. PUE-2010-00068, SVEC filed a Motion for Leave to Withdraw Application (Doc. Con. Cen. No. 100870724) and a Motion for Leave to Amend Application (Doc. Con. Cen. No. 100870725) (collectively, "Motions") simultaneously with an Amended Application for Approval of 100% Renewable Tariff (Doc. Con. Cen. No. 100870726) ("Application"). In its Motions at pages 1-2, the Cooperative stated that "acting in an abundance of caution, it is prudent to seek leave to withdraw the Application and refile it so as to comply with the letter of the Act, which provides for approvals 'on or after July 1, 2010.'" The Application and attached Rider R are substantively identical to the Cooperative's Application and Rider R filed in this case on June 30, 2010 (Doc. Con. Cen. No. 100660127). The Commission's September 9, 2010 Order for Notice and Comment granted the Motions and accepted SVEC's Application and attached Rider R filed on August 27, 2010, in lieu of its filing on June 30, 2010.

> provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, SVEC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, SVEC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] SVEC agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] SVEC

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00068, Doc. Con. Cen. No. 101110149 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. SVEC further stated that it disagreed with Staff's recommended title for the tariff. Instead, SVEC suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," SVEC noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, SVEC argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, SVEC asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to SVEC, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, SVEC stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] SVEC further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, SVEC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. SVEC stated that it has made the statutorily required disclosures and will continue to do so.[22] SVEC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, SVEC asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. SVEC further asserted that Rider R would create a new demand for RECs and is in the public interest.[24]

Finally, SVEC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, SVEC argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

[23] *Id.* at 10.

[24] *Id.* at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by SVEC, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate SVEC's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) SVEC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) SVEC shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00069
DECEMBER 17, 2010

APPLICATION OF
PRINCE GEORGE ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On June 30, 2010, Prince George Electric Cooperative ("Prince George" or the "Cooperative") filed an Application for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code").[1] The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to Prince George, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. Prince George also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

Prince George further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the

[1] On August 27, 2010, in Case No. PUE-2010-00069, Prince George filed a Motion for Leave to Withdraw Application (Doc. Con. Cen. No. 100870730) and a Motion for Leave to Amend Application (Doc. Con. Cen. No. 100870731) (collectively, "Motions") simultaneously with an Amended Application for Approval of 100% Renewable Tariff (Doc. Con. Cen. No. 100870732) ("Application"). In its Motions at pages 1-2, the Cooperative stated that "acting in an abundance of caution, it is prudent to seek leave to withdraw the Application and refile it so as to comply with the letter of the Act, which provides for approvals 'on or after July 1, 2010.'" The Application and attached Rider R are substantively identical to the Cooperative's Application and Rider R filed in this case on June 30, 2010 (Doc. Con. Cen. No. 100660128). The Commission's September 9, 2010 Order for Notice and Comment granted the Motions and accepted Prince George's Application and attached Rider R filed on August 27, 2010, in lieu of its filing on June 30, 2010.

[2] Comments of Robert Vanderhye, Case No. PUE-2010-00069, Doc. Con. Cen. No. 101020225 (Oct. 14, 2010). (Typographical errors in original corrected. Emphasis in original.)

[3] Comments of Green kW Energy, Case No. PUE-2010-00069, Doc. Con. Cen. No. 101020225 (Oct. 14, 2010).

[4] Comments of Red Barn Trading, Case No. PUE-2010-00069, Doc. Con. Cen. No. 101020225 (Oct. 14, 2010) ("Red Barn Trading Comments").

Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, Prince George filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, Prince George considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] Prince George agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] Prince George acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. Prince George further stated that it disagreed with Staff's recommended title for the tariff. Instead, Prince George suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," Prince George noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00069, Doc. Con. Cen. No. 101110150 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

In response to Mr. Vanderhye, Prince George argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, Prince George asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to Prince George, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, Prince George stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] Prince George further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, Prince George noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. Prince George stated that it has made the statutorily required disclosures and will continue to do so.[22] Prince George further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, Prince George asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. Prince George further asserted that Rider R would create a new demand for RECs and is in the public interest.[24]

Finally, Prince George addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, Prince George argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

---

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[19] Rebuttal Comments at 7-8.

[20] *Id*. at 8, n.16.

[21] *Id*. at 8-9.

[22] *Id.* at 9-10.

[23] *Id.* at 10.

[24] *Id*. at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by Prince George, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate Prince George's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) Prince George's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) Prince George shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

[27] Red Barn Trading Comments.

[28] Old Mill Power Comments at 18.

CASE NO. PUE-2010-00070
JULY 8, 2010

APPLICATION OF
VIRGINIA NATURAL GAS, INC.
and
AGL SERVICES COMPANY

For approval of a revised services agreement under Chapter 4 of Title 56 of the Code of Virginia

ORDER GRANTING INTERIM EXTENSION OF EXISTING AUTHORITY

On July 2, 2010, Virginia Natural Gas, Inc. ("VNG" or "Company") and AGL Services Company ("AGL Services") (hereinafter, the "Movants"), filed the Motion of Virginia Natural Gas, Inc. and AGL Services Company for Interim Extension of Existing Approval ("Motion") with the State Corporation Commission ("Commission"). On the same day, VNG and AGL Services delivered an Application for approval of a revised services agreement ("Third Revised Services Agreement") under Chapter 4 of Title 56 of the Code of Virginia ("Application") to the Commission.

In their Motion, the Movants requested that the Commission extend on an interim basis the approval for its Second Revised Services Agreement,[1] *i.e.*, Agreement #3, provided by the Commission's July 8, 2005 Order Denying Petition for Clarification and Granting Approval entered in Case No. PUE-2005-00025[2] until such time as the Commission can act on the Third Revised Services Agreement referenced in the Application delivered to the Commission contemporaneously with the Motion. According to the Motion, Ordering Paragraph (3) of the Order Granting Approval provided that any "subsequent operation under Agreement #3 shall require further Commission approval" pursuant to the Affiliates Act. The Movants explained that they were in the process of revising the terms and conditions of the Second Revised Services Agreement and intend to enter into the new Third Revised Services Agreement, if such agreement is approved by the Commission. The Movants therefore requested that the Commission extend on an interim basis the five-year term for the approval of the Second Revised Services Agreement provided for in the Order Granting Approval until such time as the Movants' July 2, 2010 Application is acted upon by the Commission. The Movants represented that they were authorized to state that counsel for the Commission Staff did not object to the relief sought by the Motion.

NOW THE COMMISSION, upon consideration of the Motion and the applicable statutes, is of the opinion and finds that the captioned matter should be docketed and assigned Case No. PUE-2010-00070; and that VNG and AGL Services should be granted an interim extension of authority for the Second Revised Services Agreement as prescribed in Ordering Paragraph (3) of the July 8, 2005 Order Granting Approval until such time as the Movants' July 2, 2010 Application is acted upon by the Commission.

Accordingly, IT IS ORDERED THAT:

(1) The captioned matter is hereby docketed and assigned Case No. PUE-2010-00070.

(2) The July 2, 2010 request for an extension of the authority for the Second Revised Services Agreement (Agreement #3) as prescribed in Ordering Paragraph (3) of the July 8, 2005 Order Granting Approval is hereby granted until such time as the Movants' July 2, 2010 Application is acted upon by the Commission.

(3) This case is continued pending further order of the Commission.

[1] The Second Revised Services Agreement is a service company agreement wherein VNG agrees to purchase from AGL Services certain centralized services at actual cost.

[2] *See Application of Virginia Natural Gas, Inc., and AGL Services Company, For approval of a revised services agreement pursuant to Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2005-00025, 2005 S.C.C. Ann. Rept. 424, Order Denying Petition for Clarification and Granting Approval (July 8, 2005) (hereinafter "Order Granting Approval").

CASE NO. PUE-2010-00070
SEPTEMBER 30, 2010

APPLICATION OF
VIRGINIA NATURAL GAS, INC.
and
AGL SERVICES COMPANY

For approval of a revised services agreement under Chapter 4 of Title 56 of the Code of Virginia

ORDER GRANTING APPROVAL

On July 2, 20 10, Virginia Natural Gas, Inc. ("VNG"), and AGL Services Company ("AGSC") (collectively "Applicants"), filed an application ("Application") with the State Corporation Commission ("Commission") requesting all approvals necessary under Chapter 4 of Title 56 ("Affiliates Act") of the Code of Virginia ("Code") to implement a Third Revised Services Agreement by which AGSC will provide certain administrative, management and other centralized shared services ("Centralized Services") to VNG. The Commission approved previous versions of this agreement in Case Nos. PUE-2005-00025[1] and PUA-2000-00060.[2]

On the same day, the Applicants filed a motion for interim extension of the current VNG-AGSC services agreement ("PUE-2005-00025 Agreement"), until such time as the Commission acted on the Application. On July 8, 2010, the Commission issued an Order Granting Interim Extension of Existing Authority ("Interim Order"), which docketed the Application and permitted VNG to receive services under the existing agreement until such time as the captioned Application was acted upon by the Commission.

On August 31, 2010, the Applicants filed a modified agreement[3] that included some minor changes intended to clarify the description of services provided by AGSC to VNG. Specifically, the changes included: (a) moving "records management" services from Section 15(iv), Business Support-Other,

[1] *Application of Virginia Natural Gas, Inc., and AGL Services Company, For approval of a revised services agreement pursuant to Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2005-00025, 2005 S.C.C. Ann. Rept. 424, Order Denying Petition for Clarification and Granting Approval (July 8, 2005); recons. granted, 2005 S.C.C. Ann. Rept. 428, Order Granting Reconsideration and Suspending Prior Order (July 28, 2005); 2005 S.C.C. Ann. Rept. 428, Order on Reconsideration (Nov. 1, 2005) (hereafter collectively referred to as "PUE-2005-00025 Order").

[2] Application of Virginia Natural Gas, Inc., and A GL Services Company, For approval of a Services Agreement, Case No. PUA-2000-00060, 2000 S.C.C. Ann. Rept. 222, Order Granting Approval (Sept. 25, 2000).

[3] The July 2, 20 10 agreement together with the August 31, 201 0 modifications is hereafter referred to as the "New Agreement."

to Section 6, Legal Services and Risk Management, and deleting the Business Support-Other service sub-category ; (b) moving Section 11, Investor Relations, to Section 8, Financial Services, and deleting the Investor Relations service category; and (c) clarifying Section 11, Customer Services, to include multiple departments.[4]

VNG is a Virginia public service corporation that provides natural gas local distribution service to approximately 273,000 residential, commercial, and industrial customers located primarily in the Hampton Roads area of southeastern Virginia, including the communities of Norfolk, Virginia Beach, Chesapeake, Suffolk, Hampton, Newport News, Williamsburg, and Hanover County. VNG is a wholly owned subsidiary of AGL Resources Inc. ("AGLR").

AGSC is a service company organized to provide certain centralized shared services to AGLR and its affiliates, including VNG. AGSC is a wholly owned subsidiary of AGLR.

AGLR, which is headquartered in Atlanta, Georgia, is an energy services holding company whose principal business is the distribution of natural gas in six states Florida, Georgia, Maryland, New Jersey, Tennessee, and Virginia. AGLR's six utilities serve approximately 2.3 million end-use customers. AGLR also operates several related businesses including retail natural gas marketing to end-use customers primarily in Georgia; natural gas asset management and related logistics activities for both the AGLR utilities and non-affiliated companies; natural gas storage arbitrage and related activities; and the development and operation of high-deliverability natural gas storage assets. AGLR also owns and operates a small telecommunications business.

Since VNG and AGSC share the same senior parent company, AGLR, the companies are considered affiliated interests under § 56-76 of the Code. As such, VNG must obtain approval from the Commission pursuant to the Affiliates Act prior to entering into any contract or arrangement between the companies to furnish or receive services; purchase, sell, lease, or exchange any property, right, or thing; or purchase or sell treasury bonds or treasury capital stock.

The Applicants represent that AGLR has no public utility subsidiaries, *i.e.*, electric utilities, as defined by the Public Utility Holding Company Act of 2005, Pub. L. No. 109-58, §§ 1261-77, 119 Stat. 594, 972-78 (2005) ("PUHCA 2005"), and its natural gas local distribution subsidiaries are not natural gas companies as defined under Sections 1(b) or 1(c) of the Natural Gas Act (15 U.S.C. § 717 (b), (c)) because they do not engage in the transmission of natural gas in interstate commerce. Therefore, the Applicants represent that AGLR is an exempt holding company as defined in 18 C.F.R. § 366.3 (b)(2)(vi), which exempts AGLR and AGSC from the books, records, and reporting requirements imposed by the Federal Energy Regulatory Commission ("FERC") on holding companies and affiliated service companies under PUHCA 2005.[5]

Centralized Services

Exhibit I to the New Agreement lists seventeen (17) categories of Centralized Services available to VNG. Exhibit I also includes a "Description of Services" paragraph, which states in part that: "a description of each of the services performed by AGSC, which may be modified from time to time, is presented below." The Centralized Services service categories include: (i) Rates and Regulatory; (ii) Internal Auditing; (iii) Strategic Planning; (iv) External Relations; (v) Gas Supply, Capacity Planning and Capacity Management; (vi) Legal Services and Risk Management; (vii) Marketing; (viii) Financial Services; (ix) Information Systems; (x) Executive; (xi) Customer Services; (xii) Employee Services; (xiii) Engineering; (xiv) Business Support; (xv) Corporate Communications; (xvi) Corporate Compliance and Corporate Secretary; and (xvii) Other. The Applicants represent that, with certain exceptions, VNG has the option of obtaining the Centralized Services listed above from AGSC via the New Agreement or from non-affiliated suppliers.

Section III of the New Agreement states that AGSC may provide Centralized Services to VNG by utilizing the services of such executives, accountants, financial advisers, technical advisers, attorneys, engineers and other persons as have the necessary qualifications. In addition, the New Agreement permits AGSC to engage directly or act as administrative agent to arrange for and monitor the services of unaffiliated experts, consultants, attorneys, and other parties providing services to VNG.

Direct, Assigned, and Allocated Charges

Under the existing services agreement, AGSC charges VNG for Centralized Services costs in three ways: (i) direct charges; (ii) directly assigned charges; and (iii) allocated charges. The Applicants have provided documentation showing the amount of direct, assigned, and allocated Centralized Services charges to VNG from 2005 through 2009. During this period, AGSC directly charged and assigned approximately 24% ($26 million/$108 million) of its total Centralized Services charges to VNG.[6] AGSC's primary allocation basis is the Composite Ratio, which is defined as the composite average of the number of full-time equivalent employees, total assets, operating expenses, and operating margin ratios. AGSC utilizes the Composite Ratio for approximately 35% ($38 million/$108 million) of its total Centralized Services charges to VNG.[7] In the Application, the Applicants represent that: "Allocations based on a general allocator should be limited to five percent (5%) of total charges if at all possible."[8] The Applicants represent that the Composite Ratio is not a general allocator because it gives weight to more than one factor.[9]

[4] The cover letter for the August 31, 2010 modified New Agreement filing referred to the Customer Services service category as Section 12. In the modified New Agreement, the Customer Services category has been renumbered as Section 11. Also, the Applicants represent that the third change in the modified New Agreement, the clarification of the Customer Services category to include multiple departments, was achieved by removing the word "department" and replacing it with "related" in the service category description to indicate that more than one department provides call center functions.

[5] See Applicants' Response dated August 13, 2010, to Staff Data Request No. 15 dated July 30, 2010.

[6] See Applicants' Response dated July 26, 2010, to Staff Data Request No. 4 dated July 12, 2010.

[7] See Applicants' Response dated August 13, 2010, to Staff Data Request No. 19 dated July 30, 2010.

[8] See Exhibit A of the Application, "Transaction Summary-Affiliate Transactions," Page 4 of 11, Question B (7).

[9] See Applicants' Response dated July 26, 2010, to Staff Data Request No. 6 dated July 12, 2010.

Definition of Cost

Section IV of the New Agreement states that AGSC will provide the Centralized Services to VNG at cost. The PUE-2005-00025 Agreement defines the components of cost as: (a) costs directly charged to VNG through specifically created O&M projects, unique business identifiers and through standard rates and drivers; (b) payroll costs directly assigned to VNG designated for individual affiliates; and (c) indirect costs such as overhead and administrative and general costs and taxes, which are allocated based on causal drivers.[10] In the Application, among other changes to the PUE-2005-00025 Agreement, the Applicants are proposing to add two new components to the definition of cost in the New Agreement: (i) a cost of capital component ("Cost Component D"); and (ii) a cost of capital projects assignable to VNG component ("Cost Component E")

Cost Component D

The proposed language for Cost Component D is:

> Cost of services performed includes a cost of capital component. AGSC cost of capital is based on net plant investment multiplied by the grossed-up weighted average cost of capital (WACC). Net plant equals plant less accumulated depreciation and accumulated defer-red income taxes related to plant. The grossed-up WACC equals the cost of capital authorized by the applicable state regulatory authority adjusted to equal a pre-tax revenue requirement factor. For non-regulated affiliates, the WACC will be based on the actual cost of debt for AGLR and an estimated cost of equity.[11]

The Applicants acknowledge that the PUE-2005-00025 Agreement did not explicitly define the level of allocated cost of capital.[12] They also state that the cost of capital previously allocated to VNG consisted of its share of the money pool interest income or expense incurred by and recorded on the books and records of AGSC. The Applicants represent that money pool interest is based on a short-term debt rate that is not indicative of the cost of financing the assets of AGSC. They state that AGSC has no long-term debt and does not maintain a meaningful common equity balance for the determination of the cost of capital.

The Applicants are proposing to change the allocated cost of capital charged to VNG from money pool interest to the regulated cost of capital for VNG. The Applicants state that AGSC will use VNG's approved cost of capital from Case No. PUE-1996-00227.[13] This cost of capital rate will be grossed-up for the revenue conversion factor to yield a pre-tax revenue requirement factor of 11.15%.[14] The Applicants state that this cost of capital rate will be applied to VNG's portion of AGSC's net plant investment to compute the cost of capital charge.[15] The Applicants propose to use this cost of capital rate until a new cost of capital rate is authorized in VNG's next base rate case.

AGSC states that it will also charge a cost of capital to other, non-regulated AGLR affiliates. The cost of capital rate will be based on AGLR's consolidated capital structure, AGLR's consolidated short-term and long-term debt rates, and the estimated earned return on equity for AGLR, updated annually.

Cost Component E

The Applicants also propose to add "a cost of capital projects assignable to VNG" component, *i.e.*, Cost Component E, to the definition of cost in the New Agreement. The proposed language for Cost Component E is:

> AGSC also assigns the cost of capital projects that are attributable to affiliates. Cost of these projects includes costs directly incurred by AGSC and the overheads incurred by AGSC in the completion of capital projects that are assignable to multiple AGLR system companies. Amount (*sic*) assigned to individual AGLR System Companies are based on the specific characteristics of each project. Generally these projects are managed by information systems. From time to time other functional areas may manage certain capital projects that benefit multiple AGLR System Companies.[16]

The Applicants represent that the capital project assets ("capital assets") that AGSC assigns benefit a specific subset of AGLR affiliates.[17] Historically, most of the assignments have been information system assets. Capital assets benefiting all affiliates are not assigned and remain at AGSC.

[10] See Exhibit I of PUE-2005-00025 Agreement, "Cost of Services Performed" at 4.

[11] See Exhibit I of New Agreement, "Cost of Services Performed" at 4.

[12] See Applicants' Response dated July 26, 2010, to Staff Data Request No. 7 dated July 12, 2010.

[13] Application of Virginia Natural Gas, Inc., For an expedited increase in gas rates, Case No. PUE-1996-00227, 1998 S.C.C. Ann. Rept. 338, Final Order (April 27, 1998). In this case, the approved capital structure was that of Consolidated Natural Gas, Inc. ("CNG"), VNG's parent at that time, and rates were established using a CNG capital structure with a return on equity of 10.90%.

[14] See Applicants' Response dated July 26, 2010, to Staff Data Request No. 9 dated July 12, 2010.

[15] See Applicants' Response dated September 17, 2010, to Staff Data Request No. 29 dated September 7, 2010. The proposed Cost Component D language in the New Agreement does not specify that the cost of capital will be calculated based on VNG's portion of AGSC's net plant.

[16] See Exhibit I of New Agreement, "Cost of Services Performed" at 4-5.

[17] See Applicants' Response dated August 26, 2010, to Staff Data Request No. 20 dated August 12, 2010.

The Applicants state that, during construction, AGSC retains legal title to the capital asset and accounts for it on its books.[18] Once placed in service, AGSC transfers the capital asset to VNG and other AGLR affiliates as soon as reasonably possible. The transfer is booked as a debit to plant in service and a credit to the AGLR inter-company money pool payable. The money pool balance is paid when VNG performs its periodic recapitalization to synchronize its authorized capital structure.

The Applicants state that the capital assets currently assigned and transferred to VNG from AGSC are used by both VNG and AGSC employees.[19] The Applicants represent that the general methodology for assigning the capital asset is the number of end-use customers for each affiliate that benefit from the use of the capital asset.[20] In rare cases, AGSC can directly identify the costs that are attributable to a specific affiliate. If a capital asset solely benefits VNG, AGSC assigns 100% of the asset cost to VNG. Once the capital asset is assigned, the affiliate records the related depreciation and property tax expense to its books as with any other capital asset. Since the affiliates receiving the assigned capital asset benefit from its use, the Applicants represent there is no reason for AGSC to retain any portion of the capital asset.

The Applicants represent that the assigned amount of the capital asset may not remain permanent.[21] The assigned amount may change because of a change in the level of service received or due to a change in the number of affiliates receiving service. For example, the customer management application asset, which was initially assigned in 2006, was re-assigned in 2007 to reflect the allocation of a portion of the capital asset to AGLR's NUI Corporation affiliates.[22]

The Applicants acknowledge that, as with Cost Component D, the PUE-2005-00025 Agreement does not explicitly discuss the cost of capital projects that benefit and are allocated to multiple affiliates.[23] However, the Applicants believe that the "Cost of Services Performed" section of the PUE-2005-00025 Agreement, which describes the method of accumulation of the costs of capital projects, permits these transactions.[24]

Motion to Modify Services Agreement

On September 28, 2010, the Applicants filed a "Motion to Modify Revised Services Agreement under Chapter 4 of Title 56 of the Code of Virginia" ("Motion"). The Applicants filed the Motion in response to the draft recommendations ("Recommendations") on the Application provided by the Commission Staff ("Staff") to the Applicants on September 22, 2010. In the Motion, among other things, the Applicants agree with Staff Recommendations One (1) through Four (4). In response to Staff Recommendation Five (5), the Applicants propose to withdraw the language in the New Agreement pertaining to Cost Component D.

With respect to Staff Recommendation Six (6), the Applicants agree with the section stating that, for previously assigned assets, the Applicants should be required to reassess the asset assignment amounts annually to ensure that the amounts assigned to VNG remain equitable. The Applicants also accept the requirement that VNG should supply documentation supporting the reasonableness of its asset assignment methodology as part of its application in its next rate proceeding.

In addition, the Applicants agree that, on a prospective basis, AGSC will only assign to VNG capital assets that are used by VNG and/or AGSC employees solely for VNG's benefit. The Applicants further agree that, on a prospective basis, all capital assets will remain on AGSC's books, and AGSC will bill VNG for its use of such assets through the AGSC Centralized Services bill. Moreover, the Applicants represent that AGSC will not push down or assign any assets to VNG until further order of the Commission. Accordingly, the Applicants propose the following modified language be adopted as Cost Component E:

> AGSC also assigns the cost of capital projects that are attributable to individual affiliates. Cost of these projects includes costs directly incurred by AGSC and the overheads incurred by AGSC in the completion of capital projects that are solely attributable to one AGLR System company. Generally these projects are managed by information systems. From time to time other functional areas may manage certain capital projects that benefit an AGLR System Company.

Staff Response to Motion and Applicants' Reply

On September 28, 201 0, Staff filed a "Response of the Staff of the State Corporation Commission" ("Response") to the Applicants' Motion. In its Response, among other things, Staff states that it does not take issue with the Applicants' proposed modifications to the New Agreement. Staff also reserves its right, in the event VNG intends to raise issues regarding the affiliate arrangement in any other proceeding, to revisit the issues raised by the Application, develop further evidence, and make additional or different recommendations in response to evidence developed in that record.

[18] See Applicants' Response dated August 26, 20 10, to Staff Data Request No. 21 dated August 12, 2010.

[19] See Applicants' Response dated August 26, 2010, to Staff Data Request No. 24 dated August 12, 2010

[20] See Applicants' Response dated August 26, 2010, to Staff Data Request No. 25 dated August 12, 2010.

[21] See Applicants' Response dated August 26, 201 0, to Staff Data Request No. 26 dated August 12, 2010.

[22] AGLR's acquisition of NUI Corporation and of control over NUI Corporation's wholly owned subsidiaries operating in Virginia was approved by the Commission in 2004. See Joint Petition and Application of AGL Resources Inc. and NUI Corporation, For approval of a change in control through merger under Chapter 5 of Title 56 of the Code of Virginia, request for expedited consideration, and for such other relief as may be necessary under the law, Case No. PUE-2004-00097, 2004 S.C.C. Ann. Rept. 512, Final Order (Oct. 29, 2004).

[23] See Applicants' Response dated July 26, 2010, to Staff Data Request No. 7 dated July 12, 2010.

[24] See Applicants' Response dated August 26, 2010, to Staff Data Request No. 28 dated August 12, 2010.

On September 29, 2010, the Applicants filed their "Reply to the Response of the Staff of the State Corporation Commission," confirming that the Applicants have not made any decision regarding the filing of future modifications in any proceeding but stating that they do not object to Staff's clarification concerning revisiting issues, developing evidence, and making recommendations in response to evidence developed in the records of future proceedings.

NOW THE COMMISSION, upon consideration of the Application, the representations of the Applicants, including the Motion of the Applicants on the Staff's recommendations and responsive pleadings thereto, and the applicable statutes, is of the opinion and finds that the captioned Application appears reasonable if it is subject to the requirements and conditions set forth below.

The use of centralized service companies by energy holding companies to provide corporate and administrative services to their regulated and non-regulated affiliates is an established practice in the United States. The Applicants represent that the New Agreement will permit AGSC to provide VNG with high quality, cost-effective Centralized Services while generating corporate-wide efficiencies by, among other things, reducing the duplication of personnel and facilities across AGLR's system. They further represent that VNG is not staffed to operate as a stand-alone company and has received Centralized Services from AGSC since 2000. Based on these factors, a continuation of the VNG-AGSC relationship seems reasonable subject to the limitations and requirements set forth below, which we find necessary to protect the public interest.

Commission Conditions Related to the PUE-2005-00025 Agreement

In the PUE-2005-00025 Order, the Commission issued a number of directives pertaining to the PUE-2005-00025 Agreement. First, we limited the duration of our approval of the PUE-2005-00025 Agreement to five (5) years from the entry of the PUE-2005-00025 Order. Second, we determined that the Commission's statutory duties under the Affiliates Act could not be supplanted by a broad, open-ended affiliate agreement provision such as the "Description of Services" clause that permitted additions or modifications in Centralized Services without further Commission approval. Third, we limited our approval to the Centralized Services specifically identified in the PUE-2005-00025 Agreement and to other services specifically identified by the Applicants. We denied approval of a broad "other" services category. Fourth, we directed that Commission approval would be required for any changes in the terms and conditions of the PUE-2005-00025 Agreement including, but not limited to, any changes in Centralized Services provided, any changes in allocation methodologies, and any successors or assigns. Fifth, we determined that our approval of the PUE-2005-00025 Agreement did not include approval of any provision that allows AGSC to engage affiliated third parties to provide Centralized Services to VNG. Should VNG and AGSC wish to make use of their AGLR affiliates' expertise, separate approval under the Affiliates Act would be required. We find that these conditions remain applicable for the proposed New Agreement and will re-adopt them in this case.

Recordkeeping and Pricing Requirements of the PUE-2005-00025 Order

The Commission also implemented certain recordkeeping and pricing requirements in the PUE-2005-00025 Order. Specifically, we required VNG to maintain records demonstrating that the Centralized Services provided by AGSC were cost beneficial to Virginia customers. For Centralized Services provided by AGSC where a market might exist, VNG was required to investigate alternative sources from which to purchase the services. If an alternative source for provision of the service existed, VNG was required to compare that market price to AGSC's cost and pay the lower of cost or market. We directed that, in any rate proceeding, VNG must bear the burden of proving that VNG paid AGSC the lower of cost or market for all Centralized Services received. We find that these recordkeeping and pricing requirements are consistent with the Commission's pricing directives for other affiliated service company agreements and remain applicable for the proposed New Agreement. Therefore, we will re-adopt these requirements in this case.

Reporting Requirements of the PUE-2005-00025 Order

The PUE-2005-00025 Order contained certain reporting requirements that are pertinent to this case. First, we directed VNG to provide with its Annual Report of Affiliate Transactions ("ARAT") a copy of the Securities and Exchange Commission ("SEC") Forms U5S and U-13-60, plus copies of any correspondence with regulatory agencies concerning changes in Centralized Services or allocation methodologies. Second, we ordered VNG to provide with its ARAT a schedule of annual AGSC billings by Centralized Services category, segregated between directly charged, directly assigned, and allocated amounts and showing for each allocated amount the allocation basis and actual allocation factor.

With regard to the first reporting requirement, we note that with the passage of PUHCA 2005, the SEC's jurisdiction over public utilities was transferred to the FERC, and the SEC's reports were replaced by the FERC's Form 60 for centralized service companies. Therefore, in order to promote consistency in its review of affiliated centralized service companies, we will direct the Applicants to substitute the FERC Form 60 Report format for the now-defunct SEC Forms U58 and U-13-60 Reports. As to the second reporting requirement, we find that it remains applicable for the proposed New Agreement, and we will re-adopt it in this case.

Direct, Assigned, and Allocated Charges

We have some concerns with AGSC's methodology for charging Centralized Services costs to VNG. First, in our experience, AGSC's percentage of direct and directly assigned charges appears low. Second, AGSC relies too heavily on the Composite Ratio allocation factor. To the extent that Centralized Services charges are allocated, AGSC should follow cost causation principles that link a cost to a specific type of activity or cost driver. The Composite Ratio is decidedly non-specific because it uses four ratios, which makes the allocator more general in its effect. Therefore, we will direct the Applicants to take steps to increase the level of directly charged Centralized Services and decrease AGSC's reliance on the Composite Ratio allocator.

Cost Component D (Cost of Capital)

We accept the Applicants' proposal in their Motion to withdraw the following Cost Component D language from the New Agreement:

> Cost of services performed includes a cost of capital component. AGSC cost of capital is based on net plant investment multiplied by the grossed-up weighted average cost of capital (WACC). Net plant equals plant less accumulated depreciation and accumulated deferred income taxes related to plant. The grossed-up WACC equals the cost of capital authorized by the applicable state regulatory authority adjusted to equal a pre-tax revenue requirement factor. For non-regulated affiliates, the WACC will be based on the actual cost of debt for AGLR and an estimated cost of equity.

Cost Component E (Cost of Capital Projects Assigned to VNG)

The Applicants' proposed addition of Cost Component E to the New Agreement raises a number of concerns. However, it is unnecessary to resolve these issues in light of the modified language for Cost Component E offered in the Applicants' Motion. We will therefore accept the Applicants' proposed language revisions concerning Cost Component E set out in the Applicants' Motion as described below:

> AGSC also assigns the cost of capital projects that are attributable to individual affiliates. Cost of these projects includes costs directly incurred by AGSC and the overheads incurred by AGSC in the completion of capital projects that are solely attributable to one AGLR System company. Generally these projects are managed by information systems. From time to time other functional areas may manage certain capital projects that benefit an AGLR System Company.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 56-77 of the Code, Virginia Natural Gas, Inc., and AGL Services Company are hereby granted approval to enter into the Third Revised Services Agreement, as modified by the August 31, 2010 filing, consistent with the findings set out above and effective as of the date of the entry of this Order.

(2) Concurrent with the approval granted above, the Applicants' interim authority to operate under the PUE-2005-00025 Agreement, which was granted in the July 8, 2010 Interim Order, is hereby terminated.

(3) The approval granted herein shall be limited to five years from the date of the entry of the Order in this case. Should VNG wish to continue the New Agreement beyond that date, further Commission approval shall be required.

(4) A Commission order or the Commission's duties under the Affiliates Act cannot be supplanted by affiliate agreement provisions such as the "Description of Services" clause.

(5) The approval granted herein is limited to Centralized Services specifically identified in the New Agreement. Approval is denied for non-specific "Other" service or sub-service categories. If VNG wishes to add a new category of Centralized Services that is not specifically identified in the New Agreement, separate Commission approval shall be required.

(6) The approval granted herein does not include permission for VNG to receive Centralized Services from AGSC through the engagement of affiliated third parties. Should the Applicants wish to make use of their AGLR affiliates' expertise, separate Commission approval shall be required.

(7) VNG shall be required to maintain records demonstrating that the Centralized Services provided by AGSC are cost beneficial to Virginia ratepayers. For all Centralized Services provided by AGSC where a market may exist, VNG shall investigate whether there are alternative sources from which it could purchase such services. If an alternative source exists, VNG shall compare the market price to AGSC's charges and pay the lower of cost or market. Records of such investigations and comparisons shall be available for Staff review upon request. VNG must bear the burden of proving, in any rate proceeding, that VNG paid AGSC the lower of cost or market for all Centralized Services.

(8) VNG and AGSC shall take steps to increase the level of directly charged Centralized Services and decrease AGSC's reliance on the Composite Ratio allocator.

(9) The Applicants' proposal to withdraw the Cost Component D (Cost of Capital) language from the New Agreement is granted.

(10) The Cost Component E (Cost of Capital Projects Assigned) language, as modified in the Applicants' Motion, is hereby approved subject to the following restrictions. On a prospective basis, AGSC shall be permitted to assign to VNG capital assets that are used by VNG and/or AGSC employees solely for VNG's benefit. Assets that are used to benefit multiple AGLR affiliates shall not be assignable to VNG, and AGSC shall bill VNG for the benefits VNG receives from these assets through the AGSC Centralized Services bill. With regard to previously assigned assets, the Applicants shall be required to reassess the asset assignment amounts annually to ensure that the amounts assigned to VNG remain equitable. The reassessments shall be available for review upon Staff s request. In addition, VNG shall be required to supply documentation supporting the reasonableness of its asset assignment methodology in its next rate proceeding.

(11) Commission approval shall be required for any changes in the terms and conditions of the New Agreement including, but not limited to, any changes in Centralized Services provided, any changes in allocation methodologies, and any successors or assignees.

(12) The approval granted in this case shall have no ratemaking implications. Specifically, the approval in this case shall not guarantee the recovery of any costs directly or indirectly related to the New Agreement.

(13) The approval granted herein shall not preclude the Commission from exercising its authority under the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(14) The Commission reserves the right to examine the books and records of any affiliate in connection with the approval granted herein whether or not such affiliate is regulated by this Commission.

(15) VNG shall include the transactions associated with the New Agreement approved herein in its ARAT submitted to the Commission's Director of the Division of Public Utility Accounting ("PUA Director") on May 1 of each year, subject to administrative extension by the Commission's PUA Director. VNG shall also provide with its ARAT, in addition to its current affiliate reporting requirements, a copy of AGSC's financial activities organized in the format of the FERC's Form 60 report for centralized service companies. Finally, VNG shall provide a schedule of AGSC's annual billings by Centralized Ser-vice category and segregated between direct charged, direct assigned, and allocated amounts. For each allocated amount, the allocation basis and actual allocation factor shall be shown.

(16) In the event that VNG's annual informational filings or expedited or general rate case filings are not based on a calendar year, then VNG shall include the affiliate information contained in its ARAT for the test period in such filings.

(17) There appearing nothing further to be done, this case shall be dismissed from the Commission's docket of active cases, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00071
DECEMBER 17, 2010

APPLICATION OF
NORTHERN VIRGINIA ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On July 2, 2010, Northern Virginia Electric Cooperative ("NOVEC" or the "Cooperative") filed an Application[1] for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code"). The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to NOVEC, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. NOVEC also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

NOVEC further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy;

[1] Application for Approval of 100% Renewable Tariff, Case No. PUE-2010-00071, Doc. Con. Cen. No. 100710105 (July 2, 2010) ("Application").

[2] Comments of Robert Vanderhye, Case No. PUE-2010-00071, Doc. Con. Cen. No. 101020226 (Oct. 14, 2010). (Typographical errors in original corrected. Emphasis in original.)

[3] Comments of Green kW Energy, Case No. PUE-2010-00071, Doc. Con. Cen. No. 101020226 (Oct. 14, 2010).

(iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[4] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[5]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[6] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[7] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[8]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[9] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[10] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[11]

On November 4, 2010, NOVEC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[12] In its Rebuttal Comments, NOVEC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[13] NOVEC agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[14] NOVEC acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. NOVEC further stated that it disagreed with Staff's recommended title for the tariff. Instead, NOVEC suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[15]

In response to Mr. Vanderhye, NOVEC argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[16] In response to Green

[9] *Id.*

[10] *Id.* (emphasis in original).

[11] *Id.* at 5-6.

[12] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[13] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00071, Doc. Con. Cen. No. 101110151 at 2-3 (Nov. 4, 2010).

[14] *Id.* at 3-4 (emphasis in original).

[15] *Id.* at 4.

[16] *Id.* at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

kW Energy, NOVEC asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to NOVEC, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[17]

In response to Old Mill Power, NOVEC stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[18] NOVEC further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[19]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, NOVEC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. NOVEC stated that it has made the statutorily required disclosures and will continue to do so.[20] NOVEC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[21] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, NOVEC asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. NOVEC further asserted that Rider R would create a new demand for RECs and is in the public interest.[22]

Finally, NOVEC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, NOVEC argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[23] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[24]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

[17] Rebuttal Comments at 7-8.

[18] *Id*. at 8, n.16.

[19] *Id*. at 8-9.

[20] *Id.* at 9-10.

[21] *Id.* at 10.

[22] *Id*. at 10-11.

[23] U.S. Const., amend. 14, § 1.

[24] Rebuttal Comments at 11-12.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by NOVEC, we find that the Virginia statute is not prohibited by federal law.

Request for Hearing

Old Mill Power suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[25] We find the written record in this docket adequate for us to evaluate NOVEC's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT
:

(1) NOVEC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) NOVEC shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

[25] Old Mill Power Comments at 18.

CASE NO. PUE-2010-00072
OCTOBER 20, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For approval of an extension and modifications to special rates, terms and conditions pursuant to Virginia Code § 56-235.2

FINAL ORDER

On July 2, 2010, Virginia Electric and Power Company d/b/a Dominion Virginia Power ("Dominion Virginia Power" or the "Company") filed an application ("Application") in both public and confidential versions with the State Corporation Commission ("Commission") pursuant to § 56-235.2 of the Code of Virginia. This Application requests the Commission to approve an extension of, and modifications to, the Special Rates, Terms and Conditions for the Company's provision of electric service to Chaparral (Virginia) Inc. ("Chaparral").

The Commission previously approved a special rate contract between the Company and Chaparral in 1999, which would have extended through June 30, 2004. However, on August 22, 2003, in Case No. PUE-2003-00176, the Commission granted Chaparral's request to terminate service under the earlier special rate contract and to take electric service under Dominion Virginia Power's Rate Schedule 10 - Large General Service. According to the Application, although the average rates under Schedule 10 were lower than the rates under the original special rate contract, Chaparral informed the Company that the rates remained higher than it could profitably manage. Accordingly, the Company filed an application on July 8, 2004 ("July 8, 2004 Application"), in Case No. PUE-2004-00083 for approval of a new special rate contract for service to Chaparral. On October 8, 2004, the Commission approved the Special Rates, Terms and Conditions ("Agreement") set out in the July 8, 2004 Application, subject to certain modifications. The Commission found that the Agreement would have no adverse impact on existing customers and would not jeopardize the continuation of reliable utility service.

According to the Application, the current Agreement between Dominion Virginia Power and Chaparral is scheduled to terminate on December 31, 2010. The Company states that the terms of the Stipulation and Addendum, approved as part of the Commission's March 11, 2010 Order in Case No. PUE-2009-00019, prevent the Company from changing base rates for standard tariff offerings prior to December 1, 2013. While the terms of the Stipulation do not address changes to special rates, the Company states that it believes it to be appropriate for the term of the special rates to conform to the

period of frozen rates provided in the Stipulation. Accordingly, the Application requests that the term of the Agreement be extended through November 30, 2013. The Company has not requested a change to the stated electric rates themselves. The Company has, however, proposed certain changes to the Agreement to reflect the Company's membership in PJM Interconnection, LLC, which became effective May 1, 2005.

On July 29, 2010, the Commission entered an Order for Notice and Comment that, among other things, docketed the matter; established a procedural schedule for the filing of comments, notices of participation and requests for hearing; directed the Commission Staff ("Staff") to investigate the Application and provided Staff the opportunity to file a report; and permitted the Company to respond to any comments, requests for hearing, or the Staff Report. No comments, notices of participation, or requests for hearing have been filed in this matter. On September 21, 2010, Staff filed a letter stating that it would not be filing a report in this matter. On October 1, 2010, the Company stated that it would not be filing a written response and requested that the Commission act expeditiously to approve the Application.

NOW THE COMMISSION, upon consideration of the Company's Application, the record herein, and the applicable statutes, is of the opinion and finds that the Company's proposed extension of and modifications to the Agreement should be approved. The Commission agrees with the Company that extension of the Agreement will not unreasonably prejudice or disadvantage any customer or class of customers and will not jeopardize the continuation of reliable electric service.

Accordingly, IT IS ORDERED THAT:

(1) Consistent with the findings made herein, Dominion Virginia Power may continue to offer Chaparral the special rates and terms and conditions set out in the Agreement approved by the Commission in Case No. PUE-2004-00083, as modified and extended as proposed by the Company in its Application, effective for service rendered on and after the date of this Order.

(2) Dominion Virginia Power shall file its revised special rates and terms and conditions with the Commission's Division of Energy Regulation.

(3) There being nothing further to be done in this matter, the case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's files for ended causes.

CASE NO. PUE-2010-00073
AUGUST 19, 2010

APPLICATION OF
INTERSTATE GAS SUPPLY, INC. d/b/a IGS ENERGY

For a license to conduct business as a competitive service provider of natural gas

ORDER GRANTING LICENSE

On July 9, 2010, Interstate Gas Supply, Inc. d/b/a IGS Energy ("IGS" or "Company") filed an application with the State Corporation Commission ("Commission") for a license to act as a competitive service provider for natural gas service pursuant to § 56-235.8 F of the Code of Virginia ("Application"). This Application seeks authority to serve residential and small commercial customers in the service territories of Washington Gas Light Company ("WGL"), including WGL's Shenandoah Gas Division service area, and Columbia Gas of Virginia, Inc. ("CGV"). The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B of the Commission's Rules Governing Retail Access to Competitive Energy Services ("Retail Access Rules"). On the same day, the Company, by counsel, filed a Motion for Protective Order ("Motion"), together with a proposed protective order to maintain the confidentiality of certain information, including financial information, required to be filed with the Application by the Retail Access Rules.

On July 16, 2010, the Commission issued an Order for Notice and Comment ("Order") which docketed the Application, required that notice of the Application be given to WGL and CGV, permitted interested persons to file comments on the Application, and required the Commission's Staff to analyze the reasonableness of the Application and present its findings in a Staff Report. The Company filed proof of service of the Order on July 19, 2010. No comments were received on IGS's Application.

The Staff filed its Report on August 10, 2010, addressing IGC's fitness to conduct business as a competitive service provider for natural gas service. In its Report, the Staff summarized IGS's proposal and evaluated the Company's financial condition and technical fitness. Based on its review of the Application, Staff recommended that IGS be granted a license to conduct business as a competitive service provider of natural gas service to residential and small commercial customers in WGL's and CGV's service territories. IGS, by counsel, filed comments in support of the Staff Report. No other comments were filed in the proceeding.

NOW UPON CONSIDERATION of the Application, the Staff Report, the applicable law, and the Retail Access Rules, the Commission is of the opinion and finds that IGC's request for confidential treatment of certain documents filed with its Application on July 9, 2010, is unnecessary and should be denied;[1] that IGC's request for a license as a competitive service provider of natural gas service should be granted, subject to the conditions set forth below; and that this case should be continued to accommodate the consideration of any subsequent amendments or modifications to the license granted herein.

[1] The Commission held the Company's Motion in abeyance. We note that no request for leave to review the confidential information filed on July 9, 2010, has been received in this proceeding. Accordingly, we deny the Motion as moot but direct the Clerk of the Commission to retain the confidential information to which the Motion pertains under seal.

Accordingly, IT IS ORDERED THAT:

(1) IGS's July 9, 2010 Motion for Protective Order is hereby denied; however, we direct the Clerk of the Commission to retain the confidential information to which the July 9, 2010 Motion pertains under seal.

(2) IGC is hereby granted License No. G-29 to be a competitive service provider of natural gas service to residential and small commercial customers in CGV's and WGL's service territories. This license to act as a competitive service provider is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable statutes.

(3) This license is not valid authority for the provision of any product or service not identified within the license itself.

(4) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE-2010-00076
AUGUST 2, 2010

APPLICATION OF
SHENANDOAH VALLEY ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On July 12, 2010, Shenandoah Valley Electric Cooperative ("Shenandoah" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $25 million from the Federal Financing Bank ("FFB") with a guarantee from the Rural Utilities Service. Shenandoah has paid the requisite fee of $250.

The loan will have a term of thirty-five (35) years . The interest rate will be fixed based on the interest rate at the time of advance. At the time the application was filed, the long-term fixed interest rate was approximately 3.65%. The Cooperative will have five (5) years to drawdown the $25 million. The proceeds will be used to finance Shenandoah's June 2009 through December 2011 work plan.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Shenandoah is authorized to incur up to $25 million in debt obligations from the FFB, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from FFB, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00077
OCTOBER 7, 2010

APPLICATION OF
ROANOKE GAS COMPANY

For an expedited rate increase

ORDER FOR NOTICE AND HEARING

On September 13, 2010, Roanoke Gas Company ("Roanoke Gas" or "Company") filed with the State Corporation Commission ("Commission") an application for an expedited increase in rates ("Application") and direct testimony, exhibits, and schedules as prescribed by the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings, 20 VAC 5-201-10 *et seq.* ("Rate Case Rules"). Roanoke Gas seeks to increase its annual revenues by approximately $1,434,968 or approximately 2.6 percent.[1] According to the Company, base, non-gas rates would increase by approximately 6.2 percent spread proportionally to each class of customer.[2] As provided by 20 VAC 5-201-20 D of the Rate Case Rules, Roanoke Gas proposes that its increase in rates take effect, on an expedited basis and subject to refund, for service on and after November 1, 2010.[3]

[1] Application at 1.

[2] Direct Testimony of Dale P. Lee at 1-2.

[3] Application at 2.

The Commission last granted the Company an increase in rates in 2009.[4] In support of its current Application, Roanoke Gas states that its operations have not materially changed since its last rate case, but operating costs have increased.[5] The proposed increase in rates reflects application of a return on equity of 10.1 percent.[6]

As required by the Commission's Rules of Practice and Procedure ("Rules of Practice"), 5 VAC 5-20-10 *et seq.*, specifically 5 VAC 5-20-160, on September 20, 2010, the Staff of the Commission ("Staff") filed a memorandum stating that all required information had been filed and that all requirements of statute and rule had been met.

On September 21, 2010, the Staff filed an interim report on its preliminary review of the Application and supporting testimony, exhibits, and schedules as required by the Commission's Rate Case Rules. The Staff concluded that the proposed adjustments and rate design are consistent with those approved in the previous expedited rate case for Roanoke Gas.[7] The Staff also stated that it believes it is appropriate that the Company's rate request be put into effect on an interim basis for service rendered on and after November 1, 2010, subject to refund.

NOW THE COMMISSION, upon consideration of the filings herein and of the applicable law, is of the opinion and finds that the Company filed a completed Application on September 13, 2010. The Commission further finds that public notice and an opportunity for participation in this proceeding should be given; that a hearing should be scheduled on the Application; and that a Hearing Examiner should be assigned to conduct all further proceedings on behalf of the Commission, concluding with the filing of a final report containing the Hearing Examiner's findings and recommendations.

As noted, Roanoke Gas proposes that its rates take effect, subject to refund, on November 1, 2010. The Company advises the Commission that it has not experienced a substantial change in its circumstances. In this proceeding, Roanoke Gas proposes to use a return on equity of 10.1 percent, as approved by the Commission in the Company's last rate proceeding.[8] In its September 21 Report, the Staff made a preliminary determination that the proposed adjustments and rate design in this proceeding are consistent with those approved in the previous rate proceeding for Roanoke Gas.[9] Therefore, the Commission finds that Roanoke Gas has satisfied the specific requirements of Rate Case Rule 20 VAC-5-201-20 D for putting its proposed rates into effect, subject to refund, as provided by Rate Case Rule 20 VAC-5-201-20 E.

Accordingly, IT IS ORDERED THAT:

(1) The Company's Application for an expedited increase in rates is docketed and assigned Case No. PUE-2010-00077.

(2) Roanoke Gas may put its proposed rates into effect on an interim basis, subject to modification and refund, for service provided on and after November 1, 2010.

(3) As provided by § 12.1-31 of the Code of Virginia and 5 VAC 5-20-120 of the Rules of Practice, a Hearing Examiner shall be appointed to conduct all further proceedings in this matter on behalf of the Commission and to file a final report herein.

(4) A public hearing on the Application shall be held at 10:00 a.m. on March 24, 2011, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive into the record the testimony of public witnesses and the evidence of Roanoke Gas, any respondents, and the Staff. Public witnesses desiring to testify at the hearing concerning this Application need only appear in the Commission's Second Floor Courtroom in the Tyler Building at the address set forth above prior to 9:45 a.m. on the day of the hearing and contact the Commission's Bailiff.

(5) Roanoke Gas shall forthwith make a copy of its Application; a copy of the public versions of all testimony, exhibits, and schedules filed with the Application; and a copy of this Order for Notice and Hearing available for public inspection during regular business hours at its business office at 519 Kimball Avenue, N.E., Roanoke, Virginia. The Company shall also provide, at no charge, a copy of the Application and the public versions of all testimony, exhibits, and schedules filed with the Application upon written request to Dale P. Lee, Vice President and Corporate Secretary, Roanoke Gas Company, P.O. Box 13007, Roanoke, Virginia 24030. If acceptable to the requesting individual, the Company may provide the Application, with or without attachments, by electronic means. In addition, interested persons may review copies in the Commission's Document Control Center, located on the First Floor of the Tyler Building, 1300 East Main Street, Richmond, Virginia, between the hours of 8:15 a.m. and 5:00 p.m. on regular business days, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

(6) On or before October 29, 2010, the Company shall publish once as display advertising (not classified) the following notice in newspapers of general circulation throughout its Virginia service territory.

---

[4] *Application of Roanoke Gas Company, For an expedited increase in rates*, Case No. PUE 2008-00088, 2009 S.C.C. Ann. Rept. 343, Final Order (June 10, 2009).

[5] Direct Testimony of John B. Williamson, III, at 2-3.

[6] Application at 1.

[9] September 21 Report at 1.

NOTICE TO THE PUBLIC OF THE
APPLICATION OF ROANOKE GAS COMPANY
FOR APPROVAL OF AN
EXPEDITED INCREASE IN RATES
CASE NO PUE-2010-00077

On September 13, 2010, Roanoke Gas Company ("Roanoke Gas" or" Company") filed with the State Corporation Commission ("Commission") an application for an expedited rate increase ("Application"). Roanoke Gas seeks to increase its annual revenues by approximately $1,434,968 or approximately 2.6 percent. According to the Company, base, non-gas rates would increase by approximately 6.2 percent spread proportionally to each class of customers. Roanoke Gas proposes that its increase in rates take effect, on an expedited basis and subject to refund, for service on and after November 1, 2010.

TAKE NOTICE that while the total revenue requirement that may be approved by the Commission is limited to the amount produced by the Company's proposed rates, the individual rates and charges approved by the Commission may be higher or lower than those proposed by the Company.

The Commission last granted the Company an increase in rates in June 2009. Roanoke Gas states that its operations have not materially changed since its last rate case, but operating costs have increased. The proposed increase in rates reflects application of a return on equity of 10.1 percent.

The Commission has entered an Order for Notice and Hearing that, among other things, schedules a hearing on the Company's Application, assigns a Hearing Examiner to this proceeding, and permits Roanoke Gas to implement its proposed rate increase on an interim basis, subject to modification and refund, effective for service provided on and after November 1, 2010.

A public hearing on the Company's Application shall be held at 10:00 a.m. on March 24, 2011, in the Commission's Courtroom, Second Floor, Tyler Building, 1300 East Main Street, Richmond, Virginia, to receive into the record the testimony of public witnesses and the evidence of Roanoke Gas, any respondents, and the Commission Staff. Any person desiring to testify as a public witness should appear at the hearing location fifteen (15) minutes before the starting time on the day of the hearing and contact the Commission's Bailiff. Individuals with disabilities who require an accommodation to participate in the hearing should contact the Commission at least seven (7) days before the scheduled hearing date at 1-800-552-7945 (voice) or 1-804-371-9206 (TDD).

A copy of the Application; a copy of all testimony, exhibits, and schedules filed with the Application; and a copy of the Order for Notice and Hearing will be available for public inspection during regular business hours at the Company's business office, 519 Kimball Avenue, N.E., Roanoke, Virginia. A copy of the Application may be obtained at no cost through written request to Dale P. Lee, Vice President and Corporate Secretary, Roanoke Gas Company, P. O. Box 13007, Roanoke, Virginia 24030. In addition, interested persons may review the Application and related documents in the Commission's Document Control Center, Office of the Clerk of the Commission, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia, between 8:15 a.m. and 5:00 p.m. on regular business days, or download unofficial copies from the Commission's website: http://www.scc.virginia.gov/case.

Any interested person may participate as a respondent in this proceeding by filing, on or before December 17, 2010, an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set forth above. Interested parties should obtain a copy of the Commission's Order for further details on participation as a respondent. All filings shall refer to Case No. PUE-2010-00077.

On or before March 17, 2011, any interested person may file written comments on the Application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Interested persons desiring to submit comments electronically may do so on or before March 17, 2011, by following the instructions on the Commission's website: http://www.scc.virginia.gov/case. All comments shall refer to Case No. PUE-2010-00077.

ROANOKE GAS COMPANY

(7) On or before October 29, 2010, Roanoke Gas shall serve a copy of this Order on the chairman of the board of supervisors and county attorney of each county and upon the mayor or manager of every city and town (or upon the equivalent officials in counties, towns, and cities having alternate forms of government) in which the Company provides service. Service shall be made by personal delivery or first class mail to the customary place of business or residence of the person served.

(8) On or before November 29, 2010, Roanoke Gas shall file proof of publication of the notice prescribed in Ordering Paragraph (6) above and proof of service of copies of this Order as prescribed by Ordering Paragraph (7) above, including the name, title, and address of each official served.

(9) On or before March 17, 2011, any interested person may file written comments on the Application with Joel H. Peck, Clerk, State Corporation Commission, c/o Document Control Center, P.O. Box 2118, Richmond, Virginia 23218-2118. Any interested person desiring to submit comments electronically may do so on or before March 17, 2011, by following the instructions found on the Commission's website: http://www.scc.virginia.gov/case. Interested persons shall refer in their comments to Case No. PUE-2010-00077.

(10) Any interested person may participate as a respondent in this proceeding by filing, on or before December 17, 2010, an original and fifteen (15) copies of a notice of participation with the Clerk of the Commission at the address set forth in Ordering Paragraph (9). A copy shall simultaneously be served on counsel to the Company, Richard D. Gary, Esquire, Hunton & Williams LLP, Riverfront Plaza, 951 East Byrd Street, Richmond, Virginia 23219. Pursuant to 5 VAC 5-20-80 B of the Rules of Practice, any notice of participation shall set forth: (i) a precise statement of the interest of the respondent; (ii) a statement of the specific action sought to the extent then known; and (iii) the factual and legal basis for the action. Interested persons shall refer in all of their filed papers to Case No. PUE-2010-00077.

(11) Within five (5) business days of receipt of a notice of participation as a respondent as required by Ordering Paragraph (10), the Company shall serve upon the respondent a copy of this Order, a copy of the Application, and all materials filed with the Commission unless these materials have already been provided to the respondent.

(12) On or before December 17, 2010, each respondent may file with the Clerk of the Commission, at the address set forth in Ordering Paragraph (9) above, an original and fifteen (15) copies of any testimony and exhibits by which it expects to establish its case. Each respondent shall serve copies of the testimony and exhibits on counsel for Roanoke Gas and on all other respondents. A respondent shall comply with the Commission's Rules of Practice, including 5 VAC 5-20-140, 5 VAC 5-20-150, and 5 VAC 5-20-240.

(13) On or before February 24, 2011, the Staff shall investigate the Company's Application for an expedited increase in rates and shall file with the Clerk of the Commission an original and fifteen (15) copies of testimony and exhibits regarding its investigation of the Application.

(14) On or before March 10, 2011, the Company may file with the Clerk of the Commission an original and fifteen (15) copies of any rebuttal testimony and exhibits that it expects to offer and shall serve a copy on the Staff and all respondents.

(15) The Company shall respond to interrogatories and requests for production of documents within seven (7) calendar days after receipt of same. Except as modified, discovery shall be in accordance with the Rules of Practice.

CASE NO. PUE-2010-00079
NOVEMBER 18, 2010

APPLICATION OF
WASHINGTON GAS LIGHT COMPANY

For authority to amend its natural gas conservation and ratemaking efficiency plan

ORDER ON APPLICATION TO AMEND CONSERVATION AND RATEMAKING EFFICIENCY PLAN

On March 26, 2010, the State Corporation Commission ("Commission") entered an "Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan" that approved a three-year Conservation and Ratemaking Efficiency ("CARE") Plan for the residential customers of Washington Gas Light Company ("WGL" or "Company"), effective May 1, 2010, pursuant to Chapter 25 of Title 56[1] of the Code of Virginia ("Code").[2]

On July 22, 2010, WGL filed an application ("Application")[3] to amend its CARE Plan to allow the Company to extend its CARE Plan to small commercial and industrial ("C&I") customers and group metered apartment ("GMA") customers using 30,000 therms of gas or less per month.[4] C&I customers and GMA customers using more than 30,000 therms of gas per month, customers receiving service under WGL's interruptible rate schedules, and customers in the Shenandoah Division industrial firm classes will be excluded from the CARE Plan.

The Company's proposed CARE Plan for its small C&I and GMA customers consists of four (4) principal components: (1) a portfolio of seven (7) rebate programs, a commercial custom program, and a community outreach and education program to encourage conservation and the efficient use of natural gas by small C&I and GMA customers; (2) a CARE Ratemaking Adjustment ("CRA") that adjusts the actual non-gas distribution revenues per small C&I and GMA customer to the allowed level of distribution revenues per customer approved in WGL's most recent rate case before the Commission;[5] (3) a CARE Cost Adjustment ("CCA") that will allow the Company to recover the costs of its CARE Plan for small C&I and GMA customers through a monthly surcharge to such customers' bills; and (4) a performance-based incentive mechanism that will allow WGL to retain a share of the verified net economic benefits produced by the CARE Plan for its small C&I and GMA customers.

---

[1] Va. Code §§ 56-600 *et seq*. (hereinafter, "CARE Act").

[2] *Application of Washington Gas Light Company, For approval of natural gas conservation and ratemaking efficiency plan including a decoupling mechanism*, Case No. PUE-2009-00064, Doc. Con. Cen. No. 100360098, Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan (Mar. 26, 2010).

[3] The term "Application" as used herein refers to the Application as filed on July 22, 2010, as well as the revised direct testimony and exhibits of Paul H. Raab filed by WGL on August 27, 2010.

[4] Section 56-602 A of the Code provides that a CARE Plan "shall not apply to large commercial or large industrial classes of customers." Since the Company does not have any separate rate schedules segregating any specific "large commercial or large industrial classes of customers," WGL proposes that its CARE Plan apply only to its C&I and GMA customers using 30,000 therms of gas or less per month.

[5] *Application of Washington Gas Light Company, For a general increase in rates, fees, charges and revisions to the terms and conditions of service as well as approval of a performance-based rate regulation methodology under Va. Code § 56-235.6*, Case No. PUE-2006-00059, 2007 S.C.C. Ann. Rept. 315, Final Order (Sept. 19, 2007).

The Company requests that its CARE Plan amendment be approved for a three-year period, effective November 1, 2010. The Company's total proposed expenditures for its CARE Plan for small C&I and GMA customers is $2,221,530. For the portfolio of prescriptive rebate programs, WGL estimates that savings per participating commercial customer will be between $71 and $101,301. The Company further estimates a $12,238 savings for every $2,000 spent on the commercial custom rebates.[6]

The proposed CARE Plan for small C&I and GMA customers includes nine distinct conservation and energy efficiency programs: (1) a Low Flow Pre-Rinse Spray Valve Rebate Program; (2) an ENERGY STAR® Gas Storage Water Heater (< 75,000 Btu/hr) Program; (3) an ENERGY STAR Gas Storage Water Heater (≥ 75,000 Btu/hr) Program; (4) an ENERGY STAR Tankless Water Heater (≥ 200,000Btu/hr) Program; (5) a Direct Contact Gas Water Heater Program; (6) an Infrared Heater Program; (7) an Outside Air Reset Controls Program; (8) a Commercial Custom Program; and (9) a Community Outreach and Customer Education Program for small C&I and GMA customers.

WGL's Application further proposes that the CRA approved by the Commission for the Company's residential customers in Case No. PUE-2009-00064 be applied to those small C&I and GMA customers eligible to participate in the CARE Plan. The CRA is a decoupling mechanism that will adjust a small C&I or GMA customer's actual non-gas distribution revenues to the allowed level of distribution revenues per customer approved in the Company's most recent rate proceeding, Case No. PUE-2006-00059, adjusted for customer growth. A separate CRA factor will be computed each billing cycle month for the C&I and GMA rate schedules to establish a credit or surcharge to the distribution charges contained in those rate schedules, and the CRA will be shown as a separate line item on customers' bills.

WGL also proposes that the CCA approved by the Commission for the Company's residential customers in Case No. PUE-2009-00064 be applied to those small C&I and GMA customers eligible to participate in the CARE Plan. The CCA is designed to recover the incremental costs associated with the Company's implementation of the CARE Plan for its small C&I and GMA customers. According to WGL's Application, the Company will track the costs associated with the implementation and administration of the CARE programs for its small C&I and GMA customers and recover those costs through a monthly surcharge. At the end of each twelve-month period of the CARE Plan, the Company will calculate the actual expenditures for the commercial programs, compare that to projected program costs recovered through the CCA, and provide a "true-up" for the amount recovered, if necessary, that will be applied to the CCA the following year. Based on the proposed expenditures of $2,221,530 for conservation and energy efficiency programs over the proposed three-year period, the Company's Application represents that an annual CCA for a typical small C&I and GMA customer using 5,594 therms per year is projected to be $30.30.[7]

Finally, WGL proposes to earn a performance-based incentive based on the independently verified net economic benefits produced by its CARE Plan for small C&I and GMA customers, as authorized by § 56-602 F of the Code. Accordingly, the Company proposes to include the costs and savings of the proposed CARE Plan for its small C&I and GMA customers in the calculation of the performance-based incentive mechanism approved by the Commission in Case No. PUE-2009-00064.[8]

On July 30, 2010, the Commission entered an Order for Notice and Comment that, among other things, directed WGL to provide notice of its Application; provided an opportunity for interested persons to submit written comments on the Application; and required the Commission Staff ("Staff") to investigate the Application and file a Staff Report containing its findings and recommendations on the Application.

On August 27, 2010, WGL filed a Petition for Leave to File Revised Testimony of Witness Paul H. Raab ("Witness Raab"), along with a copy of the revised direct testimony of Witness Raab.[9] On September 13, 2010, the Staff filed its Staff Report on the Application.[10] On that same date, the Office of the Attorney General's Division of Consumer Counsel ("Consumer Counsel") also filed comments ("Comments") on the Application. On September 24, 2010, the Company filed the Response of Washington Gas Light Company to the Staff Report ("Response").

Consumer Counsel raises three primary issues in its Comments: CARE program costs, customer classes, and the performance incentive target. First, Consumer Counsel notes that WGL's proposal includes a higher overall program cost for its seven proposed prescriptive rebate programs than was approved for the fifteen programs approved by the Commission for implementation by Columbia Gas of Virginia, Inc. ("CGV"). Consumer Counsel also comments, concerning the Commercial Custom Program, that WGL seeks to spend $1.5 million, whereas CGV was approved to spend approximately $205,000 for its Business Custom Program over a similar three-year period. Consumer Counsel further states that, unlike CGV, none of WGL's program costs are offset by funds from the American Recovery and Reinvestment Act.[11]

Second, Consumer Counsel discusses § 56-602 A of the Code, which permits a CARE Plan to "include one or more residential, small commercial, or small general service classes," but does not permit participation by "large commercial or large industrial classes of customers." Consumer Counsel notes that, though the CARE Act speaks of "classes" of customers, WGL does not distinguish between small and large commercial and industrial classes in its tariff and thus proposes to determine eligibility for participation based on a usage cut-off of 30,000 therms per month.[12] Consumer Counsel states, "[w]hile WGL's proposal appears to be a good-faith attempt to comply with the spirit of the CARE law, it is not clear that it complies with the letter of

[9] On September 3, 2010, the Commission entered an Order Granting Motion to File Revised Testimony that accepted for filing Witness Raab's revised direct testimony.

[10] On September 16, 2010, Staff filed revised pages 23, 24, and 37 to its September 13, 2010 Staff Report.

[11] Consumer Counsel Comments at 3.

[12] *Id*. at 4-5.

the law."[13] Consumer Counsel also points out that, should the Commission allow WGL to define what are "small" and "large" customer classes outside of its current tariff for purposes of the CARE Act, the Commission would also have to determine whether the cut-off of 30,000 therms is the appropriate point of demarcation for program participation.[14] Consumer Counsel further questions, among other things, whether WGL's GMA customers should be deemed residential or commercial customers for the purpose of applying the CARE Act.

Concerning performance incentives, Consumer Counsel recommends that the performance incentive targets in the Company's current tariff be raised to account for the additional savings potential of any CARE programs the Commission approves.[15]

In the Staff Report, Staff raises issues related to the definition of a customer class; the calculation of cost/benefit ratios; the incentives offered for the Outside Air Reset Controls Program, the Direct Contact Gas Water Heater Program, the ENERGY STAR Tankless Water Heater Program, and the Infrared Heater Program; the scale and scope of the Commercial Custom Program; the calculation of the CRA; the collection of the CCA; the need to update the usage reduction targets used in the calculation of the Performance Incentive; and concerns with the duration of the proposed CARE Plan amendments.

Staff first expresses the same concerns as Consumer Counsel about the use of the term "class" in the CARE Act and the lack of distinction between small and large C&I and GMA rate classes in WGL's existing tariff.[16] Staff also evaluates the results of the Company's cost/benefit tests, noting that WGL did not calculate cost/benefit results for the Commercial Custom Program.[17] For the seven prescriptive rebate programs, Staff notes that the calculations of cost/benefit tests do not include program costs such as administrative costs and costs for evaluation, measurement, and verification. According to Staff, "[i]gnoring these costs in the calculation of cost/benefit ratios will inflate most of the individual program ratios, thus making some programs appear cost-effective when they are not."[18] Staff expresses specific concern with the ENERGY STAR Gas Water Heater (< 75,000 Btu/hr) and (≥ 75,000 Btu/hr) Programs, which have net present value benefits of $22 and $347, respectively, without any program costs.[19] Staff further suggests that including program costs in cost/benefit ratio calculations only in the aggregate, as did WGL Witness Raab, "will have an effect of encouraging utilities to promote sub-optimal portfolios of energy efficiency programs designed to maximize their allowed performance incentive rather than the energy efficiency benefits to their customers."[20]

Staff also suggests amending the incentives for four rebate programs. For the Outside Air Reset Controls Program, Staff claims that WGL's proposed incentive exceeds the incremental cost of installation and proposes the incentive be reduced from $880 to $208, or approximately 25% of the incremental cost of the equipment.[21] For the Direct Contact Gas Water Heater Program, Staff recommends that the flat incentive of $8,450 proposed by WGL be replaced with a variable amount, based upon the size of the unit, equal to one dollar per thousand Btu per hour.[22] For the ENERGY STAR Tankless Water Heater and Infrared Heater Programs, Staff recommends that the $500 and $110 rebates be replaced with a variable amount, based upon the size of the unit, equal to two dollars per thousand Btu per hour.[23]

Concerning the Commercial Custom Program, Staff expresses concern with the scale and scope of the program compared to CGV's Business Custom Program. Staff notes that WGL's proposed incentive budget is $1.5 million over three years, compared to CGV's incentive budget of $52,500 over a two-year period.[24] Staff further notes that WGL's Commercial Custom Program could include fifty or more participants per year, compared to CGV's total of fifteen participants over two years.[25] Staff claims that this WGL program alone could cost an average commercial customer $70.86 over the program's three-year duration, in addition to administrative costs and the cost of performance incentives for the program.[26] Staff recommends that, if WGL is allowed to implement the Commercial Custom Program, the Commission limit the program to an annual incentive amount of $26,250 and that WGL verify the installation of all equipment before incentives are awarded.[27]

Staff also takes issue with WGL's proposed calculation of the CRA, the purpose of which is to adjust annual billed non-gas distribution revenue to what the CARE Act defines as the Allowed Distribution Revenue ("ADR") per customer class participating in the CARE Plan.[28] Staff explains that the basis for the ADR, as required by the CARE Act, is the class revenue numbers and class Cost of Service ("COS") Study from a utility's last rate case. According to Staff, the last COS Study, revenue apportionment, and rate design that WGL developed were based on the whole C&I and the whole GMA rate classes, with no numbers specifically calculated for "small" C&I and GMA customers.[29] Staff believes that WGL's approach, which backs out customer count and revenues associated with the "large" C&I and GMA customers from the monthly ADRs, is unsatisfactory because such a calculation would not necessarily result in "the same monthly ADRs that would have been computed in the last rate case had the [c]lass COS [S]tudy separated costs out to these newly defined subsets of customers, and the revenue apportionment and rate design been developed accordingly."[30] Staff urges that, if the Commission accepts WGL's plan to define subsets of existing C&I and GMA customers, the Commission also require the Company, in its next rate filing due by February 1, 2011, to develop an alternative class COS Study and alternative rate design using small C&I, small GMA, large C&I, and large GMA classes.[31]

Concerning the CCA, the sales adjustment clause, Staff suggests that the costs associated with any newly approved programs be collected through a separate CCA for C&I and GMA customers independent of that already approved for residential customers.[32] Addressing the proposed performance incentive, Staff urges that the usage reduction targets be updated to reflect those programs the Commission approves for the small C&I and small GMA customers.[33]

Finally, Staff comments on the duration of the CARE Plan amendments. Staff notes the current CARE programs for residential customers started May 1, 2010, and WGL requests the amended programs for eligible commercial and industrial customers begin November 1, 2010. Staff urges the Commission, if it approves the amended CARE programs, to move the effective date of the amendments to start upon Commission approval but end upon the expiration of the previously approved CARE programs.[34]

WGL's Response opposes most of Staff's and Consumer Counsel's concerns and recommendations. The Company agrees to Staff's request to calculate separately the CCAs for residential customers and for small C&I and GMA customers eligible to participate in the CARE programs.[35] WGL argues that its definition of "large" C&I and GMA customers is consistent with a prior Commission Order approving a 30,000 therm threshold for Shenandoah Gas Company customers and is consistent with the intent of the CARE Act, which itself does not define what are "large" commercial and industrial customers.[36] The Company also claims that it is not creating a new "class" of customers because WGL's tariff already includes a block rate for customers that use 30,000 or more therms per month.[37] WGL asserts that its position is more in keeping with the language and intent of the CARE Act and would allow approximately 24,800 customers to participate in the CARE Plan, versus the Staff position that would exclude all C&I and GMA customers from participation.[38]

The Company also objects to the suggestion that its proposal creates rate discrimination, stating that "there is no *unreasonable* difference in the rates between Washington Gas's small and large commercial customers."[39] The Company asserts that small and large commercial customers are not "like" customers because of differences in their usage, which can be seen in the use of different distribution charges for various customer rate blocks. Further, WGL claims that any distinction between customers is not rate discrimination but is consistent with the intent of the CARE Act.[40]

WGL argues against Staff's suggestion that the Company defer consideration of the CARE amendment proposal until February 1, 2011, when WGL makes its next general rate filing. The Company claims that, as there is no period by which the Commission must make a decision on a rate filing, putting off consideration of the amendment "would thwart the 'time certain' 120-day period provided in the CARE Act" for a decision on the CARE amendment.[41] Concerning Staff's request to align the annual true-up for the respective residential and commercial CARE programs, WGL suggests that there is no benefit to this suggestion since the true-ups will be calculated separately.[42]

Finally, WGL defends its portfolio and proposed budget amounts as cost-effective. The Company agrees with the Staff's suggestion to alter the incentive for the Outside Air Reset Control Program to $208, but it disagrees with the Staff's other proposals to make certain individual program incentives variable. WGL notes that its incentives "are based on the Company's expertise and marketing experience with its commercial customers" and argues that higher incentives encourage participation.[43] Similarly, concerning the Commercial Custom Program, WGL notes that the reduction in budget suggested by Staff would drastically limit customer participation.[44]

NOW THE COMMISSION, based upon the record, is of the opinion and finds as follows:

The threshold issue in this case is whether WGL's proposed CARE Plan amendment meets the requirements of the CARE Act, specifically § 56-602 A, which allows CARE Plan participants to "include one or more residential, small commercial, or small general service classes" but excludes "large commercial or large industrial classes of customers." Further, § 56-602 B requires the Commission to approve or deny a CARE Plan "that allocates annual per-customer fixed costs on an intra-class basis in reliance upon a revenue study or class cost of service study supporting the rates in effect at the time the plan is filed." Section 56-602 C provides that "[t]he Commission shall approve such a plan or amendment if it finds that the plan's or amendment's proposed decoupling mechanism is revenue-neutral, is consistent with this chapter [Chapter 25 of Title 56], and is otherwise in the public interest, including any findings required by § 56-235.2 or 56-235.6."

WGL's approved tariff does not currently include separate rate schedules for "small" and "large" C&I and GMA classes of customers. Further, the class COS Study and revenue apportionment performed in WGL's last rate case did not account for separate "small" and "large" commercial rate classes. WGL's proposed solution, backing out the customer count and revenue numbers associated with the subsets of large C&I and large GMA customers from the monthly allowed distribution revenues,[45] is not a sufficient substitute for a class COS Study including separate "small" and "large" classes of C&I and GMA customers. Such a calculation would not necessarily result in the same monthly ADRs produced using a class COS Study including the costs of these separate customer classes. Accordingly, we cannot approve WGL's proposed CARE Plan amendment at this time.[46] Our ruling will not inordinately delay small C&I and GMA customers from participation in CARE programs because WGL can amend its tariff to include distinctive "small" and "large" commercial customer classes, as required by the CARE Act, and perform a class COS Study including these additional rate classes in its next rate case, scheduled to be filed in a few months, by February 1, 2011.[47]

The CARE Act requires, where the Commission is denying a proposed CARE amendment, that it state specifically the reasons for such denial.[48] Accordingly, we offer the following as guidance for future amendments.

As an additional preliminary matter, it is unclear whether the GMA class should be treated as a residential, commercial, or industrial class of customers under the CARE Act. We note that for this filing WGL appears to treat the GMA class as a form of commercial customer class. A future filing should clarify how GMA customers are being treated for purposes of the CARE Act, either as residential, commercial, or industrial customers, and the basis for this treatment.

In general, in any CARE filing we note a preference for each utility to provide its own assumptions and analysis. This provides a utility the opportunity to develop and recommend programs that are best suited to its customers and the dynamics of its service territory. The programs developed for one utility may not necessarily be the best choice or in the public interest for another. Further, more granularity in describing proposed programs and the assumptions behind them will assist the Commission in considering and making the findings required by the CARE Act.

In particular, concerning program cost allocation, WGL states that there are approximately $600,000 in proposed program costs that it cannot allocate among the separate proposed programs, representing approximately 27% of the total cost WGL seeks to recover through this filing. However, failure to include program costs in cost/benefit calculations can tend to inflate individual program ratios. Where possible, program costs should be allocated or assigned to individual programs for inclusion in the cost/benefit tests. Where the Company believes this is not possible, it should provide a list of program costs by category with an explanation why these costs cannot be allocated to individual programs.[49]

---

[43] *Id*. at 13-14.

[44] *Id.*

[45] Section 56-600 defines "allowed distribution revenue" as "the average annual, weather-normalized, nongas commodity revenue per customer associated with the rates in effect as adopted in the applicable utility's last Commission-approved rate case or performance-based regulation plan, multiplied by the average number of customers served."

[46] This ruling is also consistent with our prior ruling in a case concerning Virginia Natural Gas, Inc's CARE Plan, where we found that "'[t]he statute speaks in terms of the residential, small commercial, small general service, large commercial and large industrial classes of customers. . . . [T]he Act does not permit the Commission to create subsets of classes within the residential class as identified by statute.'" *Application of Virginia Natural Gas, Inc., For approval to implement a natural gas conservation and ratemaking efficiency plan including a decoupling mechanism and to record accounting entries associated with such mechanism*, Case No. PUE-2008-00060, 2008 S.C.C. Ann. Rept. 566, 572, Order Approving Natural Gas Conservation and Ratemaking Efficiency Plan (Dec. 23, 2008) (quoting, in part, the comments of Consumer Counsel).

[47] *Application of Washington Gas Light Company, For a general increase in rates, fees, charges and revisions to the terms and conditions of service as well as approval of a performance-based rate regulation methodology under Va. Code § 56-235.6*, Case No. PUE-2006-00059, 2007 S.C.C. Ann. Rept. 315, 318-19, Final Order (Sept. 19, 2007). As noted in the Final Order, the February 1, 2011 filing must include a class COS Study already, so it should not be burdensome to the Company to perform such a study including the "small" and "large" class designations.

[48] Va. Code § 56-602 B.

[49] We also note, with regard to cost/benefit tests, that a score of 1.0 means that the cost of a program does not exceed its benefits, *i.e.*, it is a break-even score. For a program with a cost/benefit result at or barely surpassing 1.0 without the inclusion of program costs, including such costs may render the program not cost effective.

We also stress that cost/benefit tests must be performed for all proposed programs. We cannot find programs to be "cost-effective conservation and energy efficiency programs" unless we can analyze them "using the Total Resource Cost Test, the Societal Test, the Program Administrator Test, the Participant Test, the Rate Impact Measure Test, and any other test" we find appropriate.[50] The CARE Act mandates that CARE programs be cost-effective before they can be approved by the Commission. Moreover, the burden of proof is on the applicant to show its proposed CARE programs are cost-effective. In cases such as the Commercial Custom Program, no cost/benefit tests were performed by WGL even though the Company anticipated spending more than $1.5 million on this program alone. Where proposed program costs are uncertain due to the flexible nature of the program, smaller trial programs that can be enlarged after proven effective may best ensure that customer dollars are spent wisely. The program costs incurred for the Commercial Custom Program should also be set at a level that prevents imposing an unreasonable cost burden on those commercial and industrial customers who do not participate in the CARE Plan. The impacts on participating and non-participating customers should also be clearly identified.

Additional concerns with the Commercial Custom Program include the Company's proposal for random auditing to verify that the customer has installed the equipment for which a rebate application has been received. In such a program where each customer proposal is unique, all equipment installations and project savings should be verified before rebates are given. The programs should also analyze free ridership percentages and estimates of thermal savings, as well as the potential for excluding some customer-proposed energy efficiency measures that involve fuel switching and those that would result in customers meeting, rather than exceeding, applicable energy code criteria or standard industry practice.

As for rebates, in at least one proposed program, the Outside Air Reset Controls Program, the initial rebate of $880 may exceed the incremental cost of installing the controls, providing participants a windfall. WGL agreed to reduce the proposed incentive to $208, as recommended by Staff. We also agree with this recommendation. CARE programs should not be designed to provide windfalls to certain customers paid for by other customers, but rather to provide them "with long-term, meaningful opportunities to more efficiently consume natural gas and mitigate their expenditures for the natural gas commodity . . ." and to "enhance the utility bill savings that customers receive when they reduce their natural gas use."[51] Additionally, for the Direct Contact Water Heater Program, ENERGY STAR Tankless Water Heater Programs, and Infrared Heat Program, WGL proposed flat rebate amounts for these programs. Since customer savings may vary based upon the size of the qualifying units installed through the programs, the size of the incentives for these programs should be similarly varied, as recommended by Staff. Where practicable, correlating rebates with energy savings is appropriate where those savings will vary.

Finally, the WGL-proposed CARE Plan amendment did not include updated usage reduction targets to reflect the additional CARE Plan programs in its performance incentive mechanism. These targets should be updated to reflect usage savings for any proposed CARE program in a future filing with the Commission. Implementation of amendments should also be in synchronization with CARE Plan programs already approved so that annual true-ups will coincide.

Based upon the foregoing, accordingly, IT IS ORDERED THAT:

(1) WGL's Application is denied.

(2) This matter is continued pending further order of the Commission.

CASE NO. PUE-2010-00080
OCTOBER 20, 2010

APPLICATION OF
CENTRAL VIRGINIA ELECTRIC COOPERATIVE

For authority pursuant to Chapter 3 of Title 56 to finance ownership interests in Cannelton and Smithland hydroelectric generation projects

ORDER GRANTING AUTHORITY

On July 23, 2010, Central Virginia Electric Cooperative ("CVEC" or "Cooperative") filed with the State Corporation Commission ("Commission") an application for authority to finance ownership interests in two (2) run-of-river hydroelectric generation projects currently under development on the Ohio River by American Municipal Power ("Application"). Specifically, pursuant to Chapter 3 of Title 56 of the Code of Virginia, Va. Code § 56-55 *et seq.* ("Chapter 3"), CVEC requests Commission approval to obtain a loan in the amount of $84,000,000 from the Rural Utilities Services ("RUS") and for interim financing for the period prior to approval of the RUS loan. These funds would be used to finance an 8.9% interest in both the Cannelton and Smithland hydroelectric projects (collectively, the "Hydro Facilities"), with CVEC's share of these facilities estimated to total 14.6 megawatts ("MW") of nominal capacity.[1]

[1] It is estimated that Cannelton will have a rated capacity of 88 MW, of which 7.8 MW will be owned by CVEC, and Smithland will have a rated capacity of 76 MW, of which 6.8 MW will be owned by CVEC. Both projects are located in Kentucky. *See* Direct Testimony of Gary E. Wood at 3.

The Application indicates that CVEC is currently developing a diversified mix of power supply through short- and long-term contracts to replace the power supplied under an existing purchase power contract that will expire on May 12, 2012.[2] Once operational, the Application indicates that the power generated from the Hydro Facilities will satisfy approximately ten percent of the Cooperative members' energy needs based on 2007 purchases.[3] The Application indicates that, with the full impact of the loan, CVEC's financial ratios would drop below the minimum levels in the Cooperative's mortgage agreement and below Board-approved financial goals.[4] CVEC states further that it plans to file for approval for an increase in rates through a general rate case application with the Commission and include interest expense on the loan in its base rates for electricity.[5]

On August 6, 2010, the Commission issued an Order For Notice and Comment and Extending Time for Review ("Docketing Order"). Among other things, the Docketing Order: (1) extended, through November 7, 2010, the period for Commission review of the Application; (2) directed that notice be provided to all Cooperative members; (3) allowed the opportunity for interested persons to file comments on the Application; (4) directed the Cooperative to file testimony and exhibits in support of its Application; and (5) directed the Commission's Staff ("Staff") to investigate and file a report on the Application. Additionally, although the Docketing Order did not establish an evidentiary hearing on the Application, a date was reserved for such a hearing in the event the Commission subsequently determined one to be necessary. In extending the period for Commission review of the Application, the Commission indicated that the extension would, among other things, allow CVEC to provide evidence in support of its decision to pursue the Hydro Facilities instead of other power supply options.

In response to the Commission's Docketing Order, two comments were filed on the Application, both of which expressed opposition to, or displeasure with, the prospect of an increase in electric rates. No notices of participation and no requests for a hearing on the Application were filed. On September 23, 2010, the Cooperative filed proof of the notice required by the Docketing Order.

On September 2, 2010, CVEC filed the direct testimony of its President and Chief Executive Officer, Gary E. Wood. Mr. Wood states that in 2008, CVEC developed a long-term strategy for power supply procurement. CVEC's strategic plan supports the development of a diverse portfolio of assets and contracts to address the risk associated with securing CVEC's entire power supply needs in a single contract, and then having full exposure to the market at the completion of the contract.[6] According to CVEC, ownership in the Hydro Facilities will provide a long-term, fifty-year asset that will provide a hedge against fuel costs and carbon risk for its entire life span.[7] CVEC indicates further that, although investment in the Hydro Facilities will not provide the lowest cost of energy in the first year of commercial operation, ownership in the facilities will meet its long-term ownership position goal at a reasonable cost over the facilities' lifetime.[8] Finally, Mr. Wood notes that Clean Renewable Energy Bonds might also be available for a portion of the project financing.[9]

On October 1, 2010, the Staff filed a report summarizing the results of its investigation of CVEC's Application. Staff indicates that the impact of the Hydro Facilities on the Cooperative's financial metrics will be pronounced, although the severity of the impact will depend on the timing of the debt issuances.[10] As such, Staff believes it to be likely that CVEC's lenders would expect CVEC to implement a plan to improve its financial position, with such plan including additional revenues in the form of a rate increase. In this regard, Staff notes that CVEC has filed notice with the Commission of the Cooperative's intention to file for a general rate case in October of 2010, at the earliest.[11]

Additionally, the Staff Report concludes that CVEC undertook a significant analysis of the Hydro Facilities that weighed the pros and cons of the facilities while deciding to move forward in acquiring capacity from those facilities. Based on its investigation, Staff indicates that it appears CVEC decided that the intrinsic value of the Hydro Facilities as a renewable resource in its larger portfolio of resources coupled with the prospect of lower long-term operating costs outweighed the potential higher initial costs that may be associated with the facilities.[12]

Finally, Staff indicates that the National Rural Utilities Cooperative Financing Corporation ("CFC") has approved a Bridge Financing Facility ("CFC Bridge Loan") commitment term sheet that provides for an interim financing vehicle for the Hydro Facilities, contingent on regulatory approvals.[13]

Staff recommends that, should the Commission find that the Application satisfies the legal requirements for approval under Chapter 3: (1) the $84,000,000 RUS guaranteed loan should be approved under the terms and conditions as stated in the Application; (2) the $84,000,000 CFC Bridge Loan should be approved; and (3) borrowings under the two loan agreements should be expressly limited to an aggregate of $84,000,000. Additionally, Staff

[13] *Id.* at 4.

recommends that, in the event CVEC receives an allocation of Clean Renewable Energy Bonds and decides to use those bonds to finance a portion of the Hydro Facilities, CVEC should seek additional authority from the Commission prior to the issuance of any such bonds.[14]

On October 4, 2010, CVEC filed a letter notifying the Commission that CVEC would not file any rebuttal testimony and requesting that the Commission reach a decision on the Application based on the existing record.

NOW THE COMMISSION, having considered this matter, is of the opinion and finds that approval of the RUS guaranteed loan and interim financing facility, under the limitations recommended by Staff, is reasonably necessary to carry out one or more of the purposes set forth in the Application.[15]

Va. Code § 56-58 of Chapter 3 limits the purposes for which a public service company may issue debt payable at periods of twelve months or more. Those purposes include the acquisition of property, construction of facilities, and maintenance of service.

Va. Code § 56-61 provides the standard that must be applied by the Commission in this proceeding under Chapter 3:

> [W]hen the application sets forth that such securities are to be issued or such obligations or liabilities are to be assumed for any purpose set forth in § 56-58, and the Commission so finds, it shall approve the application and issue the order applied for unless the Commission shall find, for reasons stated by it, that the issuance of such securities or the assumption of such obligations or liabilities is not reasonably necessary to carry out one or more of the purposes set forth in the application. The Commission may by its order grant permission for any such issuance or assumption in the amount or on the terms applied for, or in a less amount, or on different terms, or not at all, and may include in its order such terms and conditions fairly relating to the matter of such issuance or assumption as it may deem reasonable or necessary. Whenever the Commission refuses, in whole or in part, an application to issue securities or assume obligations or liabilities, or grants such an application with modifications, it shall state specifically its reasons so that such refusal or modifications may be reviewed judicially on appeal….

As we have previously recognized, potential rate impact is relevant to the Commission's consideration of whether a request is "reasonably necessary" under this provision of Chapter 3.[16]

Specifically, the high capital costs of the transaction underlying CVEC's request represent a critical part of our analysis under Chapter 3. The decision by CVEC's Board and management to acquire the Hydro Facilities will put upward pressure on the Cooperative's costs – and thus, potentially, its customers' rates – at a time of continuing economic hardship. This is a concern that we do not take lightly. However, we cannot disregard that CVEC finds itself with the need to replace, by June 1, 2012, its entire portfolio of supply resources, all of which is "well below current market prices."[17] The absence of any long- or intermediate-term supply resources as of June 1, 2012, placed CVEC in a precarious position, with impending supply rates subject solely, and all at once, to the wholesale market.[18] This exposure was compounded by the fact that current market prices are materially higher than CVEC's existing supply prices. Based on the facts presented in this case, we cannot conclude, for purposes of our review under Chapter 3, that CVEC's requested approval "is not reasonably necessary to carry out one or more of the purposes set forth in the [A]pplication."[19] However, given the concerns raised by the current proposal, the Commission fully expects CVEC to pursue all least-cost supply alternatives for the portion of CVEC's load not to be served by the Hydro Facilities, both prior to and upon their completion.

We emphasize that our approval herein is based on the specific facts presented in this case. Although our decision is based on the entire record in this proceeding, it is primarily CVEC's particular circumstances that weigh in favor of granting the requested financing approvals, subject to the limitations recommended by Staff.[20]

Finally, as recommended by Staff, our approval herein is limited to approval of debt financing up to an aggregate amount of $84,000,000 for purposes of acquiring an ownership interest in the Hydro Facilities.[21] In addition to the limitation recommended by Staff, we direct CVEC to provide regular updates on the Hydro Facilities for the purpose of keeping the Commission informed. This information will allow the progress of the Hydro Facilities to be monitored by Staff in a timely manner.

---

[14] *Id.* at 16.

[15] We find that the written record in this docket is adequate for us to evaluate CVEC's Application. Accordingly, establishment of an evidentiary hearing in this matter is unnecessary.

[16] *See, e.g., Application of Virginia Electric and Power Company and Dominion Resources, Inc., For expedited approval of authority to issue up to $3 billion in common stock to parent under Chapters 3 and 4 of the Code of Virginia of 1950, as amended*, Case No. PUE-2009-00100, 2009 S.C.C. Ann. Rept. 538, 540, Order Granting Approval at 7 (Oct. 30, 2009).

[17] Staff Report at 2.

[18] Direct Testimony of Gary E. Wood at 6.

[19] Va. Code § 56-61.

[20] We find it unnecessary in this case to rule on issues regarding potential Clean Renewable Energy Bonds issuances, as those bonds were not proposed for approval in CVEC's Application.

[21] CVEC has not requested, and we do not approve, a specific percentage of ownership in the Hydro Facilities by CVEC.

Accordingly, IT IS ORDERED THAT:

(1) CVEC is authorized to incur, in the aggregate, up to $84,000,000 in debt obligations from an RUS guaranteed loan, under the terms and conditions and for the purposes stated in its Application, and from a CFC Bridge Loan, under the terms and conditions and for the purposes stated in the Staff Report.

(2) Within thirty (30) days of the date of any advance of funds from the RUS guaranteed loan or CFC Bridge Loan, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) On or before March 1, 2011, and every six (6) months thereafter, CVEC shall file with the Commission's Divisions of Economics and Finance and Energy Regulation a report regarding the construction progress of the Hydro Facilities, whether the projects are within the expected budget, and the level of any variances from the expected budget.

(4) The authority granted herein shall have no implications for ratemaking purposes.

(5) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00082
AUGUST 13, 2010

APPLICATION OF
CENTRAL VIRGINIA ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On July 27, 2010, Central Virginia Electric Cooperative ("Central Virginia" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $6,563,055 from the National Rural Utilities Cooperative Financing Corporation ("CFC"). Central Virginia has paid the requisite fee of $250.

Central Virginia is seeking authority to borrow $6,563,055 from CFC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new CFC debt will be structured as 16 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 16 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Central Virginia expects to realize over $330,000 in interest savings over the 16-year life of the new debt. Moreover, Central Virginia will generate over $237,000 in additional cash flow as a result of CFC patronage capital.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Central Virginia is authorized to incur up to $6,563,055 in debt obligations from the CFC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from CFC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00083
AUGUST 26, 2010

APPLICATION OF
APPALACHIAN NATURAL GAS DISTRIBUTION COMPANY

For approval of a Firm Transportation Service Tariff

ORDER GRANTING MOTION AND DISMISSING PROCEEDING

On March 17, 2010, Appalachian Natural Gas Distribution Company ("ANGD" or "Company") delivered a proposed Firm Transportation Service Rate Schedule, Schedule FTS ("FTS Filing") to the State Corporation Commission ("Commission"), which ANGD requested the Commission to accept on an administrative basis as a new rate. Thereafter, the Company was advised by the Commission Staff that its FTS Filing was incomplete.

On July 27, 2010, Paramont Energy, LC ("Paramont"), filed a letter request ("Request") asking the Commission to initiate a formal investigation of the FTS Filing, and after public notice to affected parties and opportunity for hearing, to determine what terms and conditions of transportation service are appropriate for ANGD's transportation service in Wise County, Virginia. On August 6, 2010, Paramont supplemented its Request ("August 6, 2010 Filing") and advised, among other things, that the FTS Filing may affect other potential customers in ANGD's Wise County service territory.

On August 12, 2010, the Commission entered an Order that docketed the proceeding, invited ANGD to file on or before September 10, 2010, its response to Paramont's Request and August 6, 2010 Filing, and directed Paramont to file any reply it intended to offer to ANGD's response on or before September 17, 2010.

On August 16, 2010, ANGD, by counsel, filed a Motion to Withdraw ("Motion") its FTS Filing and requested that the Commission terminate this proceeding.

On August 19, 2010, Paramont, by counsel, advised that it would not be filing a response to ANGD's Motion.

NOW THE COMMISSION, upon consideration of the foregoing, is of the opinion and finds that, good cause having been shown, ANGD's Motion should be granted; the Company should be permitted to withdraw its FTS Filing; and this case should be dismissed.

Accordingly, IT IS ORDERED THAT:

(1) ANGD's Motion is hereby granted, and the Company may withdraw its FTS Filing.

(2) This case shall be dismissed from the Commission's docket of active proceedings, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00085
DECEMBER 17, 2010

APPLICATION OF
CENTRAL VIRGINIA ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On July 30, 2010, Central Virginia Electric Cooperative ("CVEC" or the "Cooperative") filed an Application[1] for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code"). The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to CVEC, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. CVEC also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

CVEC further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to

[1] Application for Approval of 100% Renewable Tariff, Case No. PUE-2010-00085, Doc. Con. Cen. No. 100740194 (July 30, 2010) ("Application").

> request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, CVEC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, CVEC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] CVEC agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00085, Doc. Con. Cen. No. 101110152 at 2-3 (Nov. 4, 2010).

word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] CVEC acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. CVEC further stated that it disagreed with Staff's recommended title for the tariff. Instead, CVEC suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," CVEC noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, CVEC stated that it will make information available about the source of the RECs being used to service Rider R through CVEC's member publication.[18] The Cooperative further stated that it is committed to making the disclosures required by law to its customers.[19]

In response to Green kW Energy, CVEC asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to CVEC, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[20]

In response to Old Mill Power, CVEC stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[21] CVEC further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[22]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, CVEC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. CVEC stated that it has made the statutorily required disclosures and will continue to do so.[23] CVEC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[24] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, CVEC asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. CVEC further asserted that Rider R would create a new demand for RECs and is in the public interest.[25]

Finally, CVEC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, CVEC argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] CVEC's member publication is the *Current Communicator*.

[19] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[20] Rebuttal Comments at 7-8.

[21] *Id*. at 8, n.16.

[22] *Id*. at 8-9.

[23] *Id.* at 9-10.

[24] *Id.* at 10.

[25] *Id.* at 10-11.

of the United States Constitution.[26] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[27]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by CVEC, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[28] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[29] We find the written record in this docket adequate for us to evaluate CVEC's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) CVEC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

---

[26] U.S. Const., amend. 14, § 1.

[27] Rebuttal Comments at 11-12.

[28] Red Barn Trading Comments.

[29] Old Mill Power Comments at 18.

(3) CVEC shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00086
DECEMBER 17, 2010

APPLICATION OF
NORTHERN NECK ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On July 30, 2010, Northern Neck Electric Cooperative ("NNEC" or the "Cooperative") filed an Application[1] for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code"). The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered." On August 5, 2010, NNEC filed a correcting supplement to its Application proposing Schedule RE-1 ("Schedule RE-1") as a substitute to Rider R in the Cooperative's original Application. In its supplemental filing, the Cooperative asserted that Schedule RE-1 conforms to NNEC's existing naming conventions and makes other conforming and non-substantive changes.

According to NNEC, Schedule RE-1 would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. NNEC also stated that Schedule RE-1 would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

NNEC further stated that the customer may terminate billing under Schedule RE-1 by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Schedule RE-1 effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Schedule RE-1 or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Schedule RE-1 would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Schedule RE-1 would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Schedule RE-1, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Schedule RE-1. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Schedule RE-1 "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Schedule RE-1 (i) conflicts with federal consumer

[1] Application for Approval of 100% Renewable Tariff, Case No. PUE-2010-00086, Doc. Con. Cen. No. 100740195 (July 30, 2010) ("Application").

[2] Comments of Robert Vanderhye, Case No. PUE-2010-00086, Doc. Con. Cen. No. 101020228 (Oct. 14, 2010). (Typographical errors in original corrected. Emphasis in original.)

[3] Comments of Green kW Energy, Case No. PUE-2010-00086, Doc. Con. Cen. No. 101020228 (Oct. 14, 2010).

[4] Comments of Red Barn Trading, Case No. PUE-2010-00086, Doc. Con. Cen. No. 101020228 (Oct. 14, 2010) ("Red Barn Trading Comments").

protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Schedule RE-1's consistency with § 56-577 A 6 of the Code and on Schedule RE-1's technical soundness.[7] Staff suggested that the title of Schedule RE-1, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Schedule RE-1's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Schedule RE-1's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, NNEC filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, NNEC considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] NNEC agreed with Staff's recommended modification of Schedule RE-1's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] NNEC acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. NNEC further stated that it disagreed with Staff's recommended title for the tariff. Instead, NNEC suggested that Schedule RE-1 be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00086, Doc. Con. Cen. No. 101110153 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

Addressing Red Barn Trading's objection to Schedule RE-1 being described as "100% renewable," NNEC noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Schedule RE-1 is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, NNEC argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, NNEC asserted that tariffs such as Schedule RE-1 would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Schedule RE-1 would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to NNEC, approval of Schedule RE-1 could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, NNEC stated that, although Schedule RE-1 does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] NNEC further stated that neither Schedule RE-1 nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Schedule RE-1 is potentially deceptive to customers and in violation of federal consumer protection laws, NNEC noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. NNEC stated that it has made the statutorily required disclosures and will continue to do so.[22] NNEC further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Schedule RE-1 would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, NNEC asserted that Schedule RE-1 would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. NNEC further asserted that Schedule RE-1 would create a new demand for RECs and is in the public interest.[24]

Finally, NNEC addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, NNEC argued that Schedule RE-1, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Schedule RE-1 subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[19] Rebuttal Comments at 7-8.

[20] *Id*. at 8, n.16.

[21] *Id*. at 8-9.

[22] *Id.* at 9-10.

[23] *Id.* at 10.

[24] *Id.* at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

> that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Schedule RE-1 satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Schedule RE-1 are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Schedule RE-1, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Schedule RE-1. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Schedule RE-1's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Schedule RE-1 is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Schedule RE-1 unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by NNEC, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate NNEC's Application and Schedule RE-1. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) NNEC's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Schedule RE-1 is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) NNEC shall submit its revised Schedule RE-1, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

---

[27] Red Barn Trading Comments.

[28] Old Mill Power Comments at 18.

CASE NO. PUE-2010-00088
DECEMBER 17, 2010

APPLICATION OF
A&N ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On August 5, 2010, A&N Electric Cooperative ("A&N" or the "Cooperative") filed an Application[1] for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code"). The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to A&N, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. A&N also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

A&N further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

[6] Comments of Old Mill Power, Case No. PUE-2010-00088, Doc. Con. Cen. No. 101020239 (Oct. 14, 2010) ("Old Mill Power Comments").

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, A&N filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, A&N considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] A&N agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] A&N acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. A&N further stated that it disagreed with Staff's recommended title for the tariff. Instead, A&N suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," A&N noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, A&N argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

In response to Green kW Energy, A&N asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to A&N, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, A&N stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] A&N further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, A&N noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it. A&N stated that it has made the statutorily required disclosures and will continue to do so.[22] A&N further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, A&N asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. A&N further asserted that Rider R would create a new demand for RECs and is in the public interest.[24]

Finally, A&N addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, A&N argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[22] *Id*. at 9-10.

[23] *Id.* at 10.

[24] *Id.* at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by A&N, we find that the Virginia statute is not prohibited by federal law.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate A&N's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) A&N's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) A&N shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00089
AUGUST 20, 2010

APPLICATION OF
MECKLENBURG ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On August 9, 2010, Mecklenburg Electric Cooperative ("Mecklenburg" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $9,075,786 from the National Rural Utilities Cooperative Financing Corporation ("CFC"). Mecklenburg has paid the requisite fee of $250.

Mecklenburg is seeking authority to borrow $9,075,786 from CFC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new CFC debt will be structured as 14 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 14 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Mecklenburg expects to generate over $800,000 in additional cash flow as a result of interest savings and increased CFC patronage capital.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Mecklenburg is authorized to incur up to $9,075,786 in debt obligations from the CFC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from CFC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00090
AUGUST 20, 2010

APPLICATION OF
CRAIG-BOTETOURT ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On August 10, 2010, Craig-Botetourt Electric Cooperative ("Craig-Botetourt" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $6,563,055 from the National Rural Utilities Cooperative Financing Corporation ("CFC"). Craig-Botetourt has paid the requisite fee of $250.

Craig-Botetourt is seeking authority to borrow $3,505,742.33 from CFC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new CFC debt will be structured as 17 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 17 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Craig-Botetourt expects to generate over $336,000 in additional cash flow as a result of interest savings and increased CFC patronage capital.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Craig-Botetourt is authorized to incur up to $3,505,742.33 in debt obligations from the CFC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from CFC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00092
AUGUST 31, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On August 12, 2010, Rappahannock Electric Cooperative ("Rappahannock" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $91.8 million from the Rural Utilities Service ("RUS"). Rappahannock has paid the requisite fee of $25.

The loan will have a term of thirty-five (35) years. Approximately $12.6 million of the proceeds will be used to fund the construction of Rappahannock's new Culpeper district office while the balance will be used to fund Rappahannock's 2009-2012 work plan. The proceeds used to finance the Culpeper district office will be fixed at the prevailing rate at the time of drawdown while the proceeds used to finance the work plan will be fixed at 5%. The Cooperative will have five (5) years to drawdown the $91.8 million.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Rappahannock is authorized to incur up to $91.8 million in debt obligations from RUS, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from RUS, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00093
OCTOBER 15, 2010

APPLICATION OF
OLD DOMINION ELECTRIC COOPERATIVE

For acceptance of notice of election to abandon voluntary bidding program

ORDER ACCEPTING NOTICE

By its filing dated August 13, 2010, Old Dominion Electric Cooperative ("ODEC" or "Cooperative"), a wholesale electric power supplier to eleven Member Cooperatives providing retail power supply in service territories throughout the Commonwealth of Virginia, notified the State Corporation Commission ("Commission") that it was "hereby formally abandoning its bidding program, effective as of the day this notice is filed."[1] ODEC noted that it had voluntarily established, on behalf of its Member Cooperatives, a bidding program in 1991 that conformed to the Commission's rules[2] and had, over the years, issued a number of requests for proposals under those rules or, in other instances, had sought exemption from the application of said rules.[3]

The Cooperative explained that a key factor in maintaining the bidding process was to provide a way to administer the Member Cooperatives' obligations under the federal Public Utility Regulatory Policies Act ("PURPA")[4] to make purchases from Qualifying Facilities ("QFs").[5] ODEC further advised that due to changes in "the wholesale power supply market and certain changes in the law, ODEC no longer needs to operate under the Commission's bid program rules."[6] Accordingly, it was notifying the Commission of its intention to abandon its bidding program.

ODEC also explained its intentions for future dealings with QFs absent its bidding program. ODEC advised that the Federal Energy Regulatory Commission ("FERC") had issued a letter order relieving the Cooperative, on behalf of its Member Cooperatives, of its obligation to enter into contracts with QFs that have a net capacity over 20 megawatts.[7] Those QFs with capacity greater than 100 kilowatts but less than 20 megawatts would negotiate any sales of electricity with the individual Member Cooperative or, at the Member Cooperative's request, ODEC would negotiate on the Member Cooperative's behalf. Such negotiations would be conducted pursuant to Commission Rule 20 VAC 5-300-30, *Final order; implementing federal rules concerning cogeneration and small power production facilities*. Those QFs with capacity less than 100 kilowatts would be subject to each Member Cooperative's tariff setting the prices for such purchases.

NOW THE COMMISSION, being sufficiently advised, accepts ODEC's notice that it has formally abandoned its voluntary bidding program.[8] As we noted in our Final Order in Case No. PUE-2008-00078, "The Bidding Rules do not require the Company to obtain the Commission's approval prior to abandoning its voluntary Bidding Program."[9] We further state, as we did in our Final Order in Case No. PUE-2008-00078, that each electric company has a

CASE NO. PUE-2010-00094
OCTOBER 19, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY D/B/A OLD DOMINION POWER COMPANY

For approval of affiliate transactions in connection with transfer of ownership and control and restructuring and refinancing of debt pursuant to Chapter 4 of Title 56 of the Code of Virginia

ORDER GRANTING APPROVAL

On August 17, 201 0, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Applicant") filed an application ("Application") with the State Corporation Commission ("Commission") for approval of affiliate transactions, in connection with transfer of ownership and control and restructuring and refinancing of debt, pursuant to Chapter 4 of Title 56 ("Affiliates Act") of the Code of Virginia ("Code"). In the Application, KU/ODP references two (2) related cases that are pending before the Commission. In Case No. PUE-2010-00060 ("Transfer Case"),[1] KU/ODP, among others, is seeking approval pursuant to Chapter 5 of Title 56 ("Utility Transfers Act") of the Code to transfer KU/ODP from E.ON AG ("E.ON") to PPL Corporation ("PPL"). In Case No. PUE-2010-00061,[2] KU/ODP is seeking approval, pursuant to Chapter 3 of Title 56 of the Code, to refinance and restructure KU/ODP's existing debt.

In the instant Application, KU/ODP represents that it seeks approval of certain affiliate agreements that it plans to execute upon the successful change in control contemplated in the Transfer Case. Specifically, KU/ODP requests that the Commission enter an order: (1) approving a new tax allocation agreement ("PPL Agreement") between KU/ODP and PPL and its affiliates, which grants KU/ODP authority to participate in the consolidated tax allocations pursuant to the provisions of the PPL Agreement; (2) approving affiliate loans from PPL Investment Corporation ("PPL Investment") and authorizing KU/ODP to issue notes to PPL Investment with the same principal amounts, terms, conditions, and interest rates as KU/ODP's existing Fidelia Corporation notes, except that the new notes would lack "make whole" provisions and could be prepaid at par plus accrued interest at any time rather than just on interest payment dates ; and (3) approving KU/ODP's entrance into an insurance agreement ("Insurance Agreement") with PPL Power Insurance, Ltd. ("PPL Insurance"), a subsidiary of PPL.

KU/ODP is a Kentucky and Virginia corporation based in Lexington, Kentucky, which provides electric generation, transmission, and distribution service to approximately 515,000 retail customers in seventy-seven (77) counties in Kentucky, approximately 30,000 retail customers in southwestern Virginia, and five customers in Tennessee. In Virginia, KU/ODP operates under the name of Old Dominion Power and serves the Counties of Dickenson, Lee, Russell, Scott, and Wise, and the City of Norton. KU/ODP also owns coal and gas-fired electric generating facilities and a hydro-electric generating facility with a combined generation capacity of 4,570 megawatts. For the year ended December 31, 2009, KU/ODP had operating revenues of $1.355 billion and net income of $133 million. Currently, KU/ODP is a wholly owned indirect subsidiary of E.ON. E.ON, which is based in Dusseldorf, Germany, is one of the world's largest investor-owned power and gas companies, generating annual revenues of approximately €82 billion ($114.8 billion) and employing about 88,000 employees worldwide.

PPL is an energy and utility holding company that, through its subsidiaries, is primarily engaged in the generation and marketing of electricity in the northeastern and western United States and in the delivery of electricity in Pennsylvania and the United Kingdom. Headquartered in Allentown, Pennsylvania, PPL's principal direct subsidiaries are PPL Energy Funding, PPL Electric, PPL Services, and PPL Capital Funding. As of December 31, 2009, PPL Electric delivered electricity to approximately 1.4 million customers in twenty-nine counties of eastern and central Pennsylvania. For the year ended December 31, 2009, PPL and its subsidiaries had operating revenues of $7.556 billion and net income of $407 million.

On April 28, 2010, E.ON and PPL entered into a definitive agreement ("Purchase Agreement") for the purchase of E.ON's U.S.-based businesses, including KU/ODP, by PPL for $7.625 billion. Upon the successful execution of the proposed Purchase Agreement, KU/ODP and PPL will become affiliated interests under § 56-76 of the Code. As such, KU/ODP must obtain approval from the Commission pursuant to the Affiliates Act prior to entering into any arrangement, agreement or contract between the companies for the provision of services, the exchange of property, rights, or things, or the purchase or sale of treasury bonds or stock.

[1] *Joint Petition of PPL Corporation, E. ON AG, E. ONUS Investments Corp., EON US. LLC and Kentucky Utilities Company d1bla Old Dominion Power Company, For approval of transfer of ownership and control*.

[2] *Application of Kentucky Utilities Company d1bla Old Dominion Power Company, For authority under Chapter 3 of Title 56 of the Code of Virginia to restructure and refinance unsecured debt, to assume obligations, and for amendment to existing authority*.

The Applicant now requests approval, pursuant to Chapter 4 of Title 56, for KU/ODP to purchase insurance coverage from an affiliate in the PPL group of companies, PPL Insurance, at a lower premium than would be charged by the commercial insurance market, for approval of a new tax allocation agreement, and for approval of intercompany financing between itself and PPL in connection with the refinancing of KU/ODP's current intercompany debt within the E.ON holding company system.[3]

Insurance Agreement

The Applicant requests approval to enter into a Utility Service Agreement ("Insurance Agreement") under which KU/ODP would be able to purchase insurance through PPL Insurance at lower premiums than would be charged by the commercial insurance market. The Insurance Agreement may terminate by either party providing sixty (60) days' written notice of such termination.

PPL Insurance was established by PPL in 2002 to underwrite primary property, public liability, and workers' compensation coverage for PPL and its subsidiaries. PPL Insurance only provides coverage to affiliates of PPL Corporation. It is a Bermuda-licensed insurance company, which insures the deductibles of property, public liability, and workers' compensation insurance policies purchased from commercial insurance companies by PPL. It also provides coverage for storm damage to the distribution line system of PPL Electric Utilities.

The Applicant states that affiliated insurance companies, such as PPL Insurance, are able to offer insurance at lower premiums than would be charged by commercial insurance companies, because premiums are based on expected losses within the limit of coverage and do not include normal commercial insurance company loadings for underwriting expenses and profits. The Applicant represents that these loadings could add 20%-30% to the cost of insurance coverage. The Applicant states that affiliated insurers may also provide coverage where commercial insurance is not available, or they may provide coverage necessary for commercial insurance to be written. As an example provided by the Applicant, the reinsurance market may be available to provide catastrophic coverage only if there is a primary insurance policy in place. The affiliated insurance arrangement may provide insurance coverage at a lower cost. Such an arrangement also may allow KU/ODP to cover previously uninsured risks. KU/ODP would be able to insure a deductible to, in effect, "self insure" against certain losses, and then obtain primary insurance from PPL Insurance or from a commercial insurer if such coverage is available at lower rates than from PPL Insurance. Additionally, depending upon costs, likelihood of occurrence, and the impact of catastrophic losses on both KU/ODP and its ratepayers, KU/ODP might also obtain reinsurance in the commercial market.

KU/ODP states that it also could obtain insurance from PPL Insurance through its parent E.ON U.S. LLC ("E.ON U.S."). E.ON. U.S. would obtain insurance coverage from PPL Insurance for itself and its subsidiaries' benefit, including KU/ODP. KU/ODP would be assessed its share of the costs of such insurance. KU/ODP's current service agreement approved by the Commission in Case No. PUA-2000-00050 provides for the provision of insurance services and allocation of such costs from E.ON U.S. to KU/ODP. Alternatively, KU/ODP could obtain insurance coverage directly from PPL Insurance, in which case no cost allocation from E.ON U.S. would be involved. The Applicant represents that, whether KU/ODP purchases insurance from PPL Insurance directly or through EON U.S., the premium would be the same. The only costs that would be allocated to KU/ODP are costs directly related to its insurance coverage. In practice, both E.ON U.S. and KU/ODP would be named insureds, and KU/ODP's portion of the premium would be based on specific KU/ODP data used to develop actuarial loss expectancy for KU/ODP. The Applicant represents that under no circumstances would there be markup by EON U.S., and all allocated premiums would be passed to KU/ODP at cost. Under the Insurance Agreement, there would be no requirement by either party that coverage be renewed after the expiration of the current term of insurance or that coverage be undertaken at all.

The Applicant represents that a detailed analysis of potential insurance premiums has not been performed, and that KU/ODP would only purchase insurance through PPL Insurance if such detailed analysis, when performed, proved it would be cost effective. Insurance coverage potentially provided by PPL Insurance will not occur until post-merger. The primary cost benefit from PPL Insurance, according to the Applicant, will be that PPL Insurance proposals will not include any profit, which should result in lower costs.

As to the types of insurance coverage KU/ODP plans to purchase from PPL Insurance, KU/ODP could obtain coverage for deductibles for property, public liability, workers' compensation, and transmission and distribution system storm damage insurance. The Applicant represents that PPL Insurance could provide coverage on a primary basis above a deductible level for storm damages to the distribution line system of KU/ODP. It may also provide coverage for run off directors and officers liability coverage. This would apply to claims that exceed $300 million.

KU/ODP expects to pay premiums to PPL Insurance based on costs related to expected losses within coverage limits, without markups. There would be no loading for underwriting or profits. KU/ODP would be allocated its share of such insurance costs. This arrangement provides KU/ODP an additional option to acquire insurance, and one that would provide for deductible coverage. The Applicant states that KU/ODP would only purchase insurance from PPL Insurance if the cost was lower than purchasing from a commercial insurance company.

PPL Agreement

The Applicant also requests approval, pursuant to the Affiliates Act, of a "PPL and Consenting Members of its Consolidated Group Agreement for filing Consolidated Income Tax Returns and for Allocation of Consolidated Income Tax Liabilities and Benefits" tax allocation agreement between PPL and the ninety-five other affiliated members ("Members") of its consolidated tax group (collectively "PPL Group"), including KU/ODP. The proposed PPL Agreement will replace the existing tax allocation agreement between KU/ODP and E.ON US Investments Corporation, KU/ODP's current parent company, which was approved by the Commission in Case No. PUE-2009-00022.[4]

PPL files a consolidated federal income tax return ("Federal Return") on behalf of the PPL Group in accordance with 26 United States Code[5] §§ 1501-1505. The PPL Agreement also references Tax Code § 172(b)(3), § 1504(a), and § 6655, and Treasury Regulation § 1.1502-55.

[3] While KU/ODP filed this application under Chapter 4 of Title 56 of the Code, the portion of the application pertaining to the refinancing of debt and issuance of notes by KU/ODP also necessitates a review by the Commission pursuant to the provisions of Chapter 3 of Title 56 of the Code.

[4] *Application of Kentucky Utilities Company d1bla Old Dominion Power Company, For approval of a revised tax allocation agreement pursuant to Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2009-00022, 2009 S.C.C. Ann. Rept. 435, Order Granting Approval (June 29, 2009).

[5] Title 26 of the U.S.C. is also known as the Internal Revenue Code of 1986 as amended, or the "Tax Code."

PPL intends to file a consolidated Virginia income tax return ("Virginia Return") on behalf of seven (7) Members of the PPL Group ("Virginia Group"),[6] including KU/ODP, which have property, payroll, or gross receipts nexus in the state in accordance with § 58.1-300 *et seq*. of the Code. The Virginia Group also is subject to a special regulatory revenue tax equivalent to two-tenths of one percent pursuant to § 58.1-2660 of the Code.[7]

The general purpose of the PPL consolidated tax filing is to reduce the PPL Group's federal and state corporate income tax liability. The specific purpose of the PPL Agreement is to recognize KU/ODP as a new Member of the PPL Group and to establish an appropriate allocation of consolidated tax liabilities ("consolidated tax") for KU/ODP within the PPL Group. The PPL Agreement is intended to establish an allocation of consolidated tax for the PPL Group, including KU/ODP, which is consistent with the ratemaking requirements of the 2007 amendment to § 56-235.2 A in Chapter 10, Title 56 of the Code, which states:

> For ratemaking purposes, the Commission shall determine the federal and state income tax costs for investor-owned water, gas, or electric utility that is part of a publicly-traded, consolidated group as follows: (i) such utility's apportioned state income tax costs shall be calculated according to the applicable statutory rate, as if the utility had not filed a consolidated return with its affiliates, and (ii) such utility's federal income tax costs shall be calculated according to the applicable federal income tax rate and shall exclude any consolidated tax liability or benefit adjustments originating from any taxable income or loss of its affiliates.

Section Two (2) of the PPL Agreement states that PPL or its designee will prepare, make elections, and take all such other actions deemed necessary for the proper filing of the PPL Group's Federal Return. Section Five (5) of the PPL Agreement states that PPL or its designee shall make all calculations on behalf of the Members of the PPL Group to comply with the estimated tax provisions of the Tax Code, shall charge or refund members the appropriate tax amounts consistent with the dates indicated by Tax Code § 6655, and shall be responsible for paying the IRS the current federal consolidated tax. After filing the Federal Return and allocating the federal consolidated tax among the Members, PPL or its designee will charge or credit the Members to reflect the difference between the prior payments or credits and their current tax as allocated under the PPL Agreement.

The primary rules for allocating the PPL Group's federal consolidated tax are as follows. For purposes of allocating the federal consolidated tax liabilities and benefits under the PPL Agreement, each PPL affiliate operating as a limited liability company or limited partnership will be considered a Member and shall be responsible for its allocable share of corporate taxable income or loss.[8] Under the PPL Agreement, the determination of a regulated business' allocable share of corporate taxable income shall be made: (i) as if such regulated business was a regarded entity for U.S. federal income tax purposes; and (ii) utilizing the "Corporate Taxable Income" or stand-alone method.

The federal consolidated tax will be allocated among the Members of the PPL Group utilizing the separate "Corporate Taxable Income," or stand-alone, method.[9] Each Member with a corporate taxable loss ("Loss Member") will be entitled to a corporate tax credit equal to the amount by which the federal consolidated tax is reduced by including the Loss Member's taxable loss in the Federal Return. The Members with positive corporate taxable income ("Income Members") will be allocated a federal income tax liability equal to the sum of the federal consolidated tax and the corporate tax credits allocated to the Loss Members based on the ratio that each Income Member's corporate taxable income bears to the total corporate taxable income of all Income Members. If the aggregate of the Loss Members' corporate taxable losses are not fully utilized in the current year's Federal Return, then the consolidated carry-back or carry-forward of such losses to the applicable taxable years will be allocated to each Loss Member in the ratio that its corporate taxable loss bears to the total corporate taxable losses of all Loss Members.

For the purpose of computing separate return tax, intercompany eliminations booked in consolidation entries that affect the federal consolidated tax will be assigned to the Member requiring the intercompany elimination.

The consolidated alternative minimum tax ("AMT") will be allocated among the Members in accordance with Proposed Treasury Regulation § 1.1502-55 in the form the regulation exists on the date the PPL Agreement is executed. Any AMT liability shall be treated as part of the Member's separate tax liability provided that the entire PPL Group incurs an AMT liability.

Tax benefits such as general business credits, foreign tax benefits, or other tax credits[10] will be apportioned directly to the Members whose investment or contributions generated the credit or benefit ("Benefit Members"). If the tax benefit or credit cannot be fully utilized to offset current federal consolidated tax, the consolidated tax benefit or credit will be apportioned to the Benefit Members in proportion to the relative amount of benefits or credits generated by each Benefit Member.

If the amount of federal consolidated tax allocated to any Member under the PPL Agreement exceeds the separate return tax of that Member, then the excess tax will be reallocated among the Members with allocated consolidated tax less than their separate return tax liability (*i.e.* surtax exemption). The reallocation shall be in proportion to the respective reductions in separate return tax liability of these Members. Any remaining unallocated consolidated tax

---

[6] The seven (7) current Members of the Virginia Group are: (i) KU/ODP; (ii) LG&E Energy Marketing, Inc.; (iii) LG&E International, Inc.; (iv) LG&E Power Development, Inc.; (v) LG&E Power Inc.; (vi) LG&E Power Operations Inc.; and (vii) E.ON U.S. LLC. KU/ODP does not expect the list of Virginia Group Members to change as a result of the PPL acquisition.

[7] The Commission's Division of Public Service Taxation certifies and notifies KU/ODP of the amount of its calendar year gross receipts that are subject to the Virginia special tax each year.

[8] PPL Agreement, § 3, at 3.

[9] PPL Agreement, § 4, at 3-4.

[10] KU/ODP is currently eligible to receive the following federal tax credits: (i) Investment Tax Credit (including Advanced Coal Credit); (ii) Renewable Electricity Production Credit; (iii) Production Credit for Hydropower Generation; (iv) Credit for Increasing Research Activities; (v) Fuel Credits; (vi) Foreign Tax Credit; and (vii) Alternative Minimum Tax Credit.

will be assigned to PPL. Under no circumstances will the amount of federal consolidated tax allocated to a PPL Group Member under the PPL Agreement exceed its separate tax liability. Any remaining tax cost or benefit will be allocated to the applicable business unit parent on at least an annual basis.

The allocation of state and local income tax liabilities and credits[11] under the PPL Agreement will be determined by the election of one of the following filing methods: (i) separate entity; (ii) unitary group; (iii) nexus combined; and (iv) consolidated.[12]

Under a separate entity filing, all tax costs or benefits will be allocated to the PPL affiliate that filed the separate return.

Under a unitary group filing, all tax costs or benefits will be allocated to the applicable business unit. For example, if a business unit that includes a parent entity and its subsidiaries files a state unitary return, the entire state tax cost or benefit is allocated to the business unit. Further allocations within the business unit are at the discretion of the business unit.

Under a nexus combined filing, all tax costs or benefits will be allocated as if each entity or business unit filed a stand-alone or separate entity return. Both apportionment factors and taxable income will be considered in the allocation. Any residual tax costs or benefits will be allocated to the appropriate business unit at least annually.

Under a consolidated filing, all tax costs or benefits will be allocated based on each subsidiary's or business unit's nexus within the specific state or locality. For example, state tax determined in a consolidated return will be allocated as if each entity filed a stand-alone or separate tax return using both: (a) the entity's property, payroll, and receipts apportioned to the state; and (b) their taxable income or loss. Entities lacking nexus in the state or locality will not be allocated any tax or benefit. Any residual tax costs or benefits will be allocated to the appropriate business unit parent at least annually.

In Virginia, KU/ODP will participate in a consolidated Virginia Return that includes the seven (7) Members of the Virginia Group that have property, payroll, or gross receipts nexus in the state. KU/ODP represents that the Virginia tax liability for each Member of the Virginia Group, including KU/ODP, will be computed based on each Member's separate return apportionment factors. The total of the Virginia Group Members' separate return tax liabilities or benefits will then be compared to the consolidated tax computed for the Virginia Group based on consolidated apportionment factors. Any residual tax cost or benefit will be allocated to the applicable business unit parent.

KU/ODP represents that, for tax return purposes, no Virginia income taxes paid by KU/ODP are specifically allocated to another jurisdiction. Likewise, KU/ODP avers that no non-Virginia state or local income taxes paid in other jurisdictions are specifically allocated to KU/ODP's Virginia operations.

Any subsequent adjustments to the Federal Return or Virginia Return by federal or state authorities will be treated as though they had formed part of the original consolidated return. Interest paid or received, and penalties imposed as a result of the adjustment, will be allocated to the responsible member.[13] In the case of an increased tax liability, each Member shall pay its portion of the increased tax, penalties, and interest to the parent company within ten (10) days of receiving notice of the liability. In the case of a refund, the parent company will pay each member its portion of the refund within ten (10) days of receiving the refund.

Any company that joins the PPL Group or Virginia Group as a new Member must execute a duplicate copy of the PPL Agreement.[14] Any current Member that leaves the PPL Group or Virginia Group is assigned its portion of the tax attributes of the affiliated group, including but not limited to net operating losses, credit carry-forwards, and minimum tax carry-forwards.[15] If the assignment differs from the amounts previously allocated to the departing Member, then the Member must settle with the affiliated group on a dollar-for-dollar basis for tax credit differences and, in the case of net operating loss differences, by computing the tax settlement amount by applying the highest marginal tax rate. Any settlement amounts will be allocated among the remaining Members in proportion to the relative level of attributes possessed by each Member.

The PPL Agreement will be binding and inure to the benefit of any successors to the Members. The PPL Agreement is effective for the allocation of the current federal income tax liabilities of the Members for the 2010 consolidated tax year and all subsequent years until the PPL Agreement is revised in writing. The PPL Agreement is made under the law of the Commonwealth of Pennsylvania.

Under the PPL Agreement, KU/ODP will accrue taxes on a stand-alone basis and settlements or payments will be made throughout the year coinciding with the related estimated payment and filing dates. Since federal and state consolidated tax benefits will be retained by the PPL Group or Virginia Group parent, no additional entries are needed.

Restructure and refinance debt

According to the Application, upon consummation of the change of control, all KU/ODP loans from Fidelia will become payable. Since it will take a number of days or weeks to issue the permanent secured first mortgage bonds ("FMB") to be issued (under consideration in Case No. PUE-2010-00061), PPL will need to provide temporary financing at the time of closing ("Bridge Financing") to complete the change of control with E.ON. At the time of closing, PPL will cause KU/ODP to refinance those loans from Fidelia with proceeds from replacement notes issued by KU/ODP to PPL Investment Corporation, a subsidiary of PPL, on substantially the same terms and conditions as the existing Fidelia notes, including the same interest rate and maturity

[11] KU/ODP is currently eligible to receive the following state tax credits: (i) Coal Credit; (ii) Recycling Credit; (iii) Jobs Credit; (iv) Corporation Minimum Tax Credit; and (v) Construction Tax Credit.

[12] PPL Agreement, § 6, at 5-6.

[13] PPL Agreement, § 7, at 6.

[14] PPL Agreement, § 8, at 6.

[15] PPL Agreement, § 9, at 6.

date. The only changes would be elimination of the "make whole" provision and the removal of the prepayment restriction by allowing prepayment to be made with one day's notice.

The Fidelia notes are comprised of twenty-one (21) separate promissory notes, issued between April 2003 and November 2009, totaling $1.331 billion in principal amount. Interest rates on each Fidelia note were fixed at the time of issuance until maturity (fourteen notes were issued with maturities of ten years or less) for each note and vary between 4.24% and 7.035%. KU/ODP investigated and decided against providing Bridge Financing in the form of short-term debt, as the exposure to interest rate risk on all KU/ODP debt was too risky for KU/ODP management, especially in light of capital market disruptions over the past two years.

NOW THE COMMISSION, upon consideration of the Application and representations of the Applicant and having been advised by its Staff, is of the opinion and makes the following findings. Regarding the Insurance Agreement, we find that the agreement is in the public interest as long as KU/ODP pays PPL Insurance the lower of cost or market for insurance services purchased. Since KU/ODP will pay premiums to PPL Insurance based on cost of insurance related to expected losses within coverage limits without markup for underwriting and profits, such payments to PPL Insurance would likely be lower than market. It is expected that such premiums would approximate cost, which would seem to meet the lower of cost or market standard. Therefore, it appears that the Insurance Agreement for KU/ODP to purchase insurance from its affiliate, as long as KU/ODP pays PPL Insurance the lower of cost or market, is in the public interest and meets the standard of the Affiliates Act.

Regarding the PPL Agreement, the 2006 repeal of the Public Utility Holding Company Act of 1935 removes the statutory requirement that public utility holding companies such as PPL must share holding company federal consolidated tax benefits with the members of its federal consolidated tax group. The 2007 amendment to § 56-235.2 A in Chapter 10, Title 56 of the Code disallowed the recognition of any federal or state consolidated tax adjustments in the determination of income tax costs for ratemaking purposes. The PPL Agreement aligns itself with these statutory changes by providing that each Member of the PPL Group, including KU/ODP, will be allocated and pay its federal and state income tax liability or receive its share of corporate tax benefits on a separate return basis as if it was a stand-alone company. The PPL Agreement also includes the statement that "[u]nder no circumstances shall the amount of tax liability allocated to a Member of the [PPL Group] under this Agreement exceed its separate tax liability."[16] Therefore, we believe that the PPL Agreement is in the public interest and should be approved subject to certain requirements outlined below that are intended to clarify the nature and extent of our Affiliates Act approval in this case and to permit the Commission's Staff to monitor KU/ODP's separate return tax representations on an ongoing basis.

First, we reserve the right to reflect ratemaking adjustments to KU/ODP's income taxes in the course of any Commission review and analysis of KU/ODP's cost of service in the future.

Second, we will direct KU/ODP to prepare an annual detailed reconciliation of any differences between its allocation of actual federal and state tax liabilities and what such liabilities are on a separate return basis. Beginning May 1, 2010, this reconciliation should be included with KU/ODP's Annual Report of Affiliate Transactions ("ARAT") submitted to the Commission's Director of Public Utility Accounting ("PUA Director") each year. If there are no differences between KU/ODP's allocated and separate return tax liabilities, then KU/ODP should prepare a verified legal representation to that effect to be included as an addendum to its ARAT each year. We also direct KU/ODP to provide (i) a computation of the Domestic Production Activities Deduction ("DPAD") performed on a consolidated basis; (ii) a computation of the DPAD performed on a separate return basis; and (iii) a description of how the DPAD is allocated to and booked by KU/ODP, to be included in its ARAT submitted to the Commission's PUA Director each year.

We find the intercompany financing between KU/ODP and PPL in connection with the refinancing of KU/ODP's current intercompany debt within the E.ON holding company system to be in the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 56-77 of the Code, KU/ODP is hereby granted approval to enter into the Insurance Agreement with PPL Insurance, effective as of the date of this order, provided that KU/ODP pays PPL Insurance the lower of cost or market for any insurance services purchased.

(2) KU/ODP shall bear the burden of proving, during any rate proceeding, that it paid PPL Insurance the lower of cost or market under the Insurance Agreement.

(3) Pursuant to § 56-77 of the Code, KU/ODP is hereby granted approval of the PPL Agreement as described herein and consistent with the findings set out above, effective as of the date of the order in this case.

(4) Pursuant to §§ 56-57 and 56-77 of the Code, KU/ODP's proposed intercompany financing as described herein is approved, and KU/ODP is authorized to issue notes to PPL Investment Corporation with the same principal amounts, terms, conditions and interest rates as the Fidelia notes, except that the new notes will not have "make whole" provisions and can be repaid at par plus accrued interest on any day rather than only on the interest payment dates.

(5) The approval granted herein shall have no ratemaking implications. Specifically, the approval granted in this case shall not guarantee the recovery of any costs directly or indirectly related to the Insurance Agreement or the PPL Agreement.

(6) The Commission reserves the right to reflect ratemaking adjustments to KU/ODP's income taxes in the course of any Commission review and analysis of KU/ODP's cost of service in the future.

(7) The approval granted herein shall not preclude the Commission from exercising its authority pursuant to the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(8) Commission approval shall be required for any changes in any of the agreements approved herein, including any successors or assigns thereto.

[16] See PPL Agreement, § 4 at 3.

(9) The Commission reserves the right to examine the books and records of any affiliate in connection with the approval granted herein whether or not such affiliate is regulated by this Commission.

(10) KU/ODP shall prepare an annual detailed reconciliation of any differences between its allocation of actual federal and state tax liabilities and what such liabilities are on a separate return basis. Beginning May 1, 2010, this reconciliation shall be included with KU/ODP's ARAT submitted to the Commission's PUA Director each year. If there are no differences between KU/ODP's allocated and separate return tax liabilities, then KU/ODP shall prepare a verified legal representation to that effect to be included as an addendum to its ARAT each year. KU shall also provide (i) a computation of the DPAD performed on a consolidated basis; (ii) a computation of the DPAD performed on a separate return basis; and (iii) a description of how the DPAD is allocated to and booked by KU/ODP, to be included in its ARAT submitted to the Commission's PUA Director each year.

(11) KU/ODP shall include the transactions associated with the PPL Agreement approved herein in its ARAT submitted to the Commission's PUA Director by May 1 of each year, subject to administrative extension by the PUA Director.

(12) In the event that annual informational filings or expedited or general rate case filings are not based on a calendar year, then KU/ODP shall include the affiliate information contained in its ARAT in such filings.

(13) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00094
DECEMBER 20, 2010

APPLICATION OF
KENTUCKY UTILITIES COMPANY D/B/A OLD DOMINION POWER COMPANY

For approval of affiliate transactions in connection with transfer of ownership and control and restructuring and refinancing of debt pursuant to Chapter 4 of Title 56 of the Code of Virginia

AMENDING ORDER

On October 19, 2010, the State Corporation Commission ("Commission") issued an Order Granting Approval ("October 19 Order") in this proceeding, which, in part, granted approval of certain affiliate agreements to be entered into by Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP") upon completion of the change in control of KU/ODP from E.ON AG to PPL Corporation ("PPL") that was approved by the Commission in Case No. PUE-2010-00060. In the October 19 Order, the Commission approved a new tax allocation agreement, which provided for consolidated tax treatment of KU/ODP with PPL and affiliates following the transfer of control. The October 19 Order also approved KU/ODP's post-transfer entrance into an insurance agreement with PPL Power Insurance, Ltd., a subsidiary of PPL.

On December 2, 2010, KU/ODP filed a letter with the Commission advising that the transfer of control involving KU/ODP had been completed. KU/ODP further advised that, in connection with the closing of the transfer, the legal name of E.ON U.S. LLC was changed to LG&E and KU Energy LLC on November 1, 2010, and the legal name of E.ON U.S. Services Inc. was changed to LG&E and KU Services Company on September 30, 2010. Both E.ON U.S. LLC and E.ON U.S. Services Inc. were named as parties on the tax allocation agreement approved by the Commission in its October 19 Order. E.ON U.S. LLC was named as a party on the insurance agreement approved in the October 19 Order.

With the December 2, 2010 letter, KU/ODP requested that the Commission issue an order amending the authority granted in the October 19 Order to permit the replacement of the name E.ON U.S. LLC with LG&E and KU Energy LLC and the name E.ON U.S. Services Inc. with LG&E and KU Services Company in the tax allocation agreement and the insurance agreement. KU/ODP advised that it was not seeking any changes to the terms or operation of the agreements nor to the reporting requirements set out in the Commission's October 19 Order.

NOW THE COMMISSION, upon consideration of the foregoing and of the applicable law, is of the opinion and finds that KU/ODP's request should be granted and that the tax allocation agreement and insurance agreement, previously approved herein, should be amended to reflect the new legal names of the affiliates of KU/ODP.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to §§ 56-77 and 56-80 of the Code of Virginia, KU/ODP is authorized to amend the tax allocation agreement by substitution of E.ON U.S. LLC with LG&E and KU Energy LLC, and by substitution of E.ON U.S. Services Inc. with LG&E and KU Services Company.

(2) Pursuant to §§ 56-77 and 56-80 of the Code of Virginia, KU/ODP is authorized to amend the insurance agreement by substitution of E.ON U.S. LLC with LG&E and KU Energy LLC.

(3) All other provisions set forth in the Commission's October 19 Order shall remain in full force and effect.

(4) KU/ODP shall file a copy of the executed tax allocation agreement and the insurance agreement with the Commission within thirty (30) days of execution of each agreement.

(5) There being nothing further to come before the Commission, this matter is dismissed.

CASE NO. PUE-2010-00096
SEPTEMBER 13, 2010

APPLICATION OF
COLUMBIA GAS OF VIRGINIA, INC.

For authority to issue long-term debt and to participate in an intrasystem money pool arrangement with an affiliate

ORDER GRANTING AUTHORITY

On August 20, 2010, Columbia Gas of Virginia, Inc. ("CGV" or "Company"), filed an application requesting authority from the State Corporation Commission ("Commission") under Chapters 3 and 4 of Title 56 of the Code of Virginia ("Code") (§§ 56-55 *et seq*. and 56-76 *et seq*.) to issue long-term debt to an affiliate and to participate in an intrasystern money pool arrangement with an affiliate. CGV requests authority to borrow up to $150 million in short-term debt through the intrasystem money pool between January 1, 2011, and December 3 2012. The amount of short-term debt requested in the application is in excess of twelve percent (12%) of CGV's total capitalization, as defined in § 56-65.1 of the Code. CGV paid the requisite fee of $250.

CGV also proposes to issue up to $100 million of new promissory notes ("New Notes") to either NiSource Finance Corp. ("NFC") or in the capital markets between January 1, 2011, and December 31, 2012. The proceeds from the New Notes will be used to refinance approximately $45.6 million in maturing debt and to finance a portion of its construction program that is projected to be approximately $130 million during 2010-2012. The interest rate on any New Notes issued to NFC will be determined by the corresponding applicable U.S. Treasury yield effective on the date a New Note is issued, plus the yield spread on corresponding maturities for companies with a credit risk profile equivalent to that of NFC effective on the date a New Note is issued to NFC. The term of New Notes issued to NFC would have a maturity up to thirty (30) years. The interest rate on any New Notes issued in the capital market would be negotiated through underwriters, purchasers, or agents and would likely have a maturity between two (2) and ten (10) years.

In addition, CGV proposes to continue to participate in the NiSource System Money Pool ("Money Pool") under the NiSource System Money Pool Agreement for the period January 1, 2011, through December 31, 2012. CGV requests authority to borrow up to $150 million in short-term debt through the Money Pool. CGV states that the Money Pool proceeds will be used to meet peak short-term requirements, including gas purchases and gas storage.

CGV notes in the application that it received Commission authority to participate in the Money Pool in Case No. PUE-2008-00107.[1] In that case, CGV was authorized to borrow up to $150 million from January 1, 2008, through December 31, 2010.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

ACCORDINGLY, IT IS ORDERED THAT:

(1) CGV is hereby authorized to issue and sell New Notes to either NiSource Finance Corp. or in the external capital market, up to a maximum amount of $100 million, between January 1, 2011, and December 31, 2012, under the terms and conditions and for the purposes set forth in the application.

(2) CGV is hereby authorized to incur short-term indebtedness through the Money Pool in excess of twelve percent (12%) of total capitalization, provided that such debt does not exceed $150 million at any one time between January 1, 2011, and December 31, 2012, under the terms and conditions and for the purposes set forth in the application.

(3) CGV shall file annually for 2011 and 2012, with the Clerk of the Commission, quarterly reports of action no later than February 15, May 15, August 15, and November 15 of each year, reporting on its Money Pool activities during the previous calendar quarter. Such reports shall include a monthly schedule of daily short-term borrowings and investment by CGV, the average monthly balance, the average monthly interest rate, and the monthly maximum amount of short-term debt outstanding. The February 15 report shall also include an annual schedule of allocated credit facility fees charged to CGV.

(4) CGV shall submit a preliminary report of action with the Clerk of the Commission within ten (10) days after the issuance of any New Notes pursuant to Ordering Paragraph (1), to include the type of security, the issuance date, amount of the issue, the interest rate, the maturity date, a brief explanation of reasons for the term of maturity chosen, and a comparison of the interest rate available from external capital markets (comparable corporate issuers with similar risk profiles to NFC near the date of issuance with comparable maturities) and the effective rate available from NFC (comparable maturity U.S. Treasury rate plus a yield spread for companies with a credit risk profile equivalent to that of NFC).

(5) Within sixty (60) days after the end of each calendar quarter in which any New Notes are issued pursuant to Ordering Paragraph (1), CGV shall file with the Clerk of the Commission a detailed report of action with respect to all New Notes issued during the calendar quarter to include:

(a) The issuance date, type of security, amount issued, interest rate, date of maturity, issuance expenses realized to date, net proceeds to CGV, and an updated cost/benefit analysis for any New Notes issued to refund other outstanding debt prior to maturity; and

(b) The cumulative principal amount of New Notes issued under the authority granted herein and the amount remaining to be issued.

(6) CGV shall submit to the Clerk of the Commission a Final Report of Action on or before February 28, 2013, providing the information required in Ordering Paragraph (3) above for the fourth calendar quarter of 2012.

(7) Commission approval shall be required for any subsequent changes in the terms and conditions of the Money Pool.

[1] *Application of Columbia Gas of Virginia, Inc., For authority to issue long-term debt and to participate in an intrasystem money pool arrangement with an affiliate*, Case No. PUE-2008-00107, 2008 S.C.C. Ann. Rept. 613, Order Granting Authority (December 23, 2008).

(8) The authority granted herein shall not preclude the Commission from applying to CGV the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(9) The Commission reserves the right to examine the books and records of any affiliate of CGV in connection with the authority granted herein, whether or not such affiliate is regulated by the Commission.

(10) Should CGV wish to obtain authority beyond calendar year 2012, it shall file an application requesting such authority no later than November 1, 2012. Such application shall also include pro forma sources and uses of funds schedules for the next three years; a monthly projection of Money Pool borrowing and lending balances; and documentation supporting the need for the requested short-term borrowing limit, Money Pool investment limit, and long-term debt financing activity.

(11) This matter shall remain under the continued review, audit, and appropriate directive of the Commission.

CASE NO. PUE-2010-00098
SEPTEMBER 9, 2010

APPLICATION OF
PRINCE GEORGE ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On August 23, 2010, Prince George Electric Cooperative ("Prince George" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $2,171,488 from the National Cooperative Services Corporation ("NCSC"). Prince George has paid the requisite fee of $250.

Prince George is seeking authority to borrow $2,171,488 from NCSC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new NCSC debt will be structured as 13 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 14 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Prince George expects to generate over $260,000 in interest savings as a result of this refinancing.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Prince George is authorized to incur up to $2,171,488 in debt obligations from the NCSC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from NCSC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00099
DECEMBER 15, 2010

APPLICATION OF
COLUMBIA GAS OF VIRGINIA, INC.

For authority to amend its natural gas conservation and rate making efficiency plan

FINAL ORDER

On December 4, 2009, the State Corporation Commission ("Commission") entered a Final Order in Case No. PUE-2009-00051,[1] which approved a three-year Conservation and Ratemaking Efficiency ("CARE") Plan for residential and small general service classes of customers of Columbia Gas of Virginia, Inc. ("Columbia" or "Company"), effective December 31, 2009, pursuant to Chapter 25 of Title 56 (§§ 56-600 *et seq.*) ("Natural Gas Conservation and Ratemaking Efficiency Act") of the Code of Virginia ("Code").

[1] *See Application of Columbia Gas of Virginia, Inc., For approval to implement a natural gas conservation and ratemaking efficiency plan including a decoupling mechanism*, Case No. PUE-2009-00051, 2009 S.C.C. Ann. Rept. 484, Final Order (Dec. 4, 2009) (hereinafter, "Case No. PUE-2009-00051").

On August 23, 2010, Columbia, by counsel, filed an application to amend its CARE Plan ("Application"), together with a request for a waiver of the requirement to refile the information identified in the instructions pertaining to Schedule 48 in 20 VAC 5-201-90, *Instructions for schedules and exhibits for Chapter 201*[2]. In the alternative, Columbia's Application requested the Commission to take judicial notice of the information responsive to Schedule 48 filed in Case No. PUE-2009-00051. Additionally, the Company requested expeditious consideration of the Application without a hearing.

In its Application, Columbia advises that its proposed amendment to its CARE Plan has the limited effect of suspending the free water heater insulation blanket measure within the Company's Web-Based Home Audit Program. According to the Application, the Web-Based Home Audit Program, which is targeted to residential customers, includes an on-line home energy audit. Columbia explains in its Application that the on-line home energy audit results in the generation of a customized report recommending home improvements that can reduce the customer's energy usage, including a number of measures that can be implemented without cost to the customer. Such measures provided by the Company currently include natural gas storage water heater insulation blankets, low-flow shower heads, faucet aerators, and pipe insulation. Columbia's Application alleges that the Company's experience to date with the distribution of water heater insulation blankets indicates that customers will not likely install significant numbers of them because the installation of water heater insulation blankets on natural gas storage water heaters can be complex and such blankets require ongoing maintenance in order to function properly. The Company comments in its Application that the complexity of installation raises potential safety concerns with water heater insulation blankets that are installed incorrectly.

Columbia's Application relates that 136 water heater insulation blankets have been issued to CARE Plan participants to date, representing a cost of $1,926. The Application proposes that the expenditures for these water heater insulation blankets, as well as the cost of all other water heater insulation blankets purchased to date as part of Columbia's WarmWise Program,[3] will be absorbed by the Company and will not be passed through to the Company's ratepayers through the CARE Program Adjustment ("CPA"), a surcharge that permits recovery of the incremental costs associated with the Company's conservation and energy efficiency programs. Columbia further represents that these costs will not otherwise be included in the Company's base rates or Purchased Gas Adjustment mechanism.

The Company's Application represents that, as permitted by the Commission's Final Order in Case No. PUE-2009-00051, up to 33.3% of the funds budgeted for the water heater insulation blanket measures are eligible to be allocated to support other measures within the CARE Plan. Columbia advises that it plans to reallocate 33.3% ($37,625) of the funds budgeted for the water heater insulation blanket measure equally between the free low-flow shower head measure and the free faucet aerator measure, each of which are within the Web-Based Home Audit Program. Columbia proposes that the remaining 66% of the funds budgeted for use as part of the water heater insulation blanket measure will not be spent, resulting in a reduction of the CPA and corresponding savings for all ratepayers of $75,250.

Columbia averred in its Application that its proposed amendment to its CARE Plan would not affect any other conservation and energy efficiency programs within its previously approved CARE Plan. Columbia presented cost-effective analyses of its Web-Based Home Audit Program, both with and without the water heater blanket measure, after reallocating 33.3% of the water heater blanket measure budgeted amount equally between the faucet aerator and shower head measures.[4] These analyses were sponsored by Matt Gibbs, the Company's consultant.[5] These analyses showed no impact on the remaining online audit program measures as a result of the removal of the water heater blanket measure and the reallocation of 33.3% of the budget for the water heater blanket measure equally between the faucet aerator measure and the low-flow shower head measure. The Company's Application also included a revised Stipulation relating to the suspension of the water heater insulation blanket measure that was supported by those who had agreed to the initial Stipulation, namely, the Company, the Office of the Attorney General, the Commission Staff, and the Virginia Industrial Gas Users' Association.

The Company's Application also requested that the Commission take judicial notice of the information responsive to Schedule 48 filed in Case No. PUE-2009-00051 or, in the alternative, that the Commission grant a waiver of the requirement to refile such information in this proceeding to the extent that such information would be duplicative of that filed in Case No. PUE-2009-00051. Columbia filed the Affidavit of Robert E. Horner, Manager of Regulatory Policy for Columbia, in support of the representation that Schedule 48 (1) through (6) and (8) through (12) would not change as a result of the Company's proposed amendment to the CARE Plan. [6]

Columbia also requested that it be permitted to satisfy any public notice requirements by means of a bill insert that would be directed to residential and small general service customers in the event that the Commission determined public notice of the Application was necessary. The Company maintained publication of notice of its Application would significantly diminish the benefits resulting from the reduced expenditures on water heater insulation blankets.

On August 27, 2010, the Commission entered its Order for Notice and Comment ("Order") herein. This Order docketed the Application; granted Columbia's request for a waiver of the requirement to refile the information required by the instructions pertaining to Schedule 48 in 20 VAC 5-201-90, *Instructions for schedule and exhibits for Chapter 201*, to the extent that the information necessary to satisfy the requirements of 20 VAC 5-201-90, Schedule 48, was duplicative of the information filed in Case No. PUE-2009-00051; permitted the Company to complete notice to the public of its Application via bill inserts using the notice prescribed in the Order; directed the Company to serve a copy of the Order on local governmental officials; permitted interested persons to file written comments concerning Columbia's Application on or before November 3, 2010; and permitted the Company to file on or before November 10, 2010, any response it intended to offer to the comments filed by interested persons in this proceeding. The Order also directed the Company to file its proof of notice and service on or before November 10, 2010.

---

[2] Rule 20 VAC 5-201-85, *Conservation and ratemaking efficiency plans*, of the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings, 20 VAC 5-201-10 *et seq.,* requires that an applicant filing a CARE Plan must file Schedule 48, described in 20 VAC 5-201-90, with the applicant's direct testimony.

[3] Columbia markets its CARE programs to residential customers under the name "WarmWise."

[4] Attachment 1 to Attachment A, Amended Stipulation, to the Application.

[5] *See*, Attachment C to Application, Affidavit of Matt Gibbs, Vice President, Energy Efficiency and Carbon Management with the consulting firm of Nextant, Inc.

[6] Attachment D to the Application.

On October 18, 2010, one comment was filed in response to the Company's Application. This comment objected to the Company's Application on the grounds that it would increase Columbia's cost of natural gas service to its ratepayers.

On October 22, 2010, the Company filed its proof of the notice and service required by the Order.

On November 4, 2010, Columbia, by counsel, filed a letter advising that it did not intend to file a formal response in this matter and requesting that the Commission issue an order approving the Company's proposed amendment to its CARE Plan.

NOW THE COMMISSION, upon consideration of the Application, the comments filed herein, Columbia's November 4, 2010 letter, and the applicable statutes, is of the opinion and finds that the Company's Application should be approved as filed and that this case should be dismissed. The Company's CARE Plan amendment appears to be consistent with § 56-602 A and B of the Code, based on the record developed herein. The amendment to Columbia's CARE Plan does not affect the proposed decoupling mechanism found to be revenue-neutral in Case No. PUE-2009-00051, and the amendment is consistent with the Natural Gas Conservation and Ratemaking Efficiency Act. As is evident from the cost-benefit analyses filed as Attachment 1 to the Amended Stipulation (Attachment A) to the Application, the cost-effectiveness of the Web-Based Home Audit Program is not changed by suspension of the free water heater blanket measure. None of the other features of the CARE Plan generally or the Web-Based Home Audit Program are affected by the suspension of this measure.

Additionally, only 136 water heater insulation blankets have been issued to CARE Plan participants to date, representing a cost of $1,926. The Company has represented that it will absorb the expenditures for these water heater insulation blankets, as well as the cost of all other water heater insulation blankets purchased to date as part of the Company's WarmWise Program. Columbia states that it will not pass these costs through to ratepayers through its CPA nor will these costs be included in the Company's base rates or Purchased Gas Adjustment mechanism. We will adopt Columbia's proposal not to pass these costs on to its ratepayers as part of the Order issued herein.

The proposed Stipulation and Recommendation accepted in Case No. PUE-2009-00051 permits Columbia to reallocate up to 33.3% of the budget fund for an individual measure (including up to a pro-rata share of the program administrative costs) to another measure or program within a CARE Plan year without prior approval of the Commission. Columbia's proposal to reallocate 33.3% ($37,625) of the funds budgeted for the water heater blanket measure equally between the free low-flow shower head measure and the free faucet aerator measure appears to be within the authority granted in Case No. PUE-2009-00051. Columbia's proposal that the remaining 66% of funds budgeted for use under the water heater blanket measure not be spent appears to be reasonable and may result in a reduction to the CPA and savings to Columbia's ratepayers of at least $75,250. Contrary to the suggestion of the single comment filed herein, the Company's proposed amendment should reduce the costs of the CARE Plan to Columbia ratepayers.

Additionally, Columbia should file with the Clerk of the Commission an annual report, pursuant to § 56-602 E of the Code, beginning May 1, 2011[7] and continuing on May 1 of every year thereafter during the term of the Company's CARE Plan. In accordance with § 56-602 E of the Code, this report must show "the year over year weather-normalized use of natural gas on an average customer basis, by customer class, as well as the incremental, independently verified net economic benefits created by the utility's cost-effective conservation and energy-efficiency programs during the previous year," as more particularly defined in the Proposed Stipulation and Recommendation accepted in our December 4, 2009 Final Order entered in Case No. PUE-2009-00051.[8] In addition, this report should include: (i) the findings and recommendations of the WarmWise Advisory Committee; (ii) information required by the Proposed Stipulation and Recommendation accepted in the December 4, 2009 Final Order entered in Case No. PUE-2009-00051; (iii) cost-benefit and other analyses of the conservation and energy efficiency programs; (iv) program participation rates; (v) expected program benefits for the next program year; and (vi) any additional relevant information requested by the Staff. This report should be filed in this docket until further order of the Commission.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the findings made herein, Columbia's Application to suspend its free water heater insulation blanket measure within the Company's Web-Based Home Audit Program is hereby approved, effective as of the date of this Order.

(2) In accordance with the representations made in the Application, the expenditures for the water heater insulation blankets, including the 136 water heater insulation blankets issued to CARE Plan participants to date, representing a cost of $1,926, as well as the cost of all other water heater insulation blankets purchased to date as part of Columbia's WarmWise Program, shall be absorbed by the Company and shall not be passed through to the Company's ratepayers through the CARE Program Adjustment and will not otherwise be included in the Company's base rates or Purchased Gas Adjustment mechanism.

(3) In accordance with our findings made herein, 33.3% ($37,625) of the funds budgeted for the water heater insulation blanket measure shall be reallocated between the low-flow shower head measure and the free faucet aerator measure, with the remaining 66% of the funds budgeted for use as part of the water heater insulation blanket measure not being spent.

(4) In accordance with the findings made herein, Columbia shall file in this docket with the Clerk of the Commission an annual report pursuant to § 56-602 E of the Code, containing the information set forth above, beginning May 1, 2011, and continuing on May 1 of every year for the term of the Company's CARE Plan.

---

[7] Columbia's CARE Plan took effect on December 31, 2009, and will remain in effect through December 31, 2011. Thus the May 1, 2011 Report will be the first report filed by the Company under § 56-602 E of the Code. Columbia and the Commission's Staff previously had agreed upon Columbia's filing of annual reports by May 1 of 2011, 2012, and 2013. *See* Letter from Kerry R. Wortzel to James S. Copenhaver dated June 10, 2010, filed in Case No. PUE-2009-00051.

[8] *See*, December 4, 2009 Final Order, Attachment A, Proposed Stipulation and Recommendation at 8-9, describing how Measurement and Verification of the net economic benefits of the Company's conservation and energy efficiency programs will occur.

(5) There being nothing further to be done herein, this case shall be dismissed from the Commission's docket of active proceedings and the papers filed herein made a part of the Commission's file for ended causes.

CASE NO. PUE-2010-00100
SEPTEMBER 20, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On August 26, 2010, Rappahannock Electric Cooperative ("Rappahannock" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $35,261,499 from the CoBank. Rappahannock has paid the requisite fee of $250.

Rappahannock is seeking authority to borrow $35,261,499 from CoBank to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The CoBank loan will have a maturity date of November 30, 2028. The interest rate on the CoBank loan is fixed for the life of the loan at 4.33%. According to the analysis provided by Rappahannock, it expects to generate over $2.1 million in interest savings as a result of this refinancing. In addition, Rappahannock's analysis shows that it will receive over $3.5 million in cash from CoBank in the form of patronage capital.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Rappahannock is authorized to incur up to $35,261,499 in debt obligations from the CoBank, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from CoBank, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00101
OCTOBER 13, 2010

APPLICATION OF
COLUMBIA GAS OF VIRGINIA, INC.

For approval of an agreement providing access to near real time operational data from Columbia Gas Transmission, LLC, pursuant to Chapter 4 of Title 56 of the Code of Virginia

ORDER GRANTING APPROVAL

On August 26, 2010, Columbia Gas of Virginia, Inc. ("CGV" or "Applicant"), filed an application ("Application") with the State Corporation Commission ("Commission") requesting approval of a Letter Agreement dated July 28, 2010 ("2010 Agreement"), between CGV and Columbia Gas Transmission, LLC ("TCO"), pursuant to Chapter 4 of Title 56 ("Affiliates Act") of the Code of Virginia ("Code"). The proposed 2010 Agreement grants CGV access to certain operational near Real Time System ("RTS") data from TCO's Supervisory Control and Data Acquisition ("SCADA") and Electronic Measurement ("EM") applications. The Applicant also requests that the Commission approve this request as in the public interest without the necessity of a public hearing and grant such further relief as may be necessary and appropriate.

CGV is a Virginia public service corporation and natural gas local distribution company that serves approximately 240,000 residential, commercial, and industrial customers located in Central and Southern Virginia, the Piedmont region, the Shenandoah Valley, portions of Northern and Western Virginia, and the Hampton Roads region. CGV is a wholly owned subsidiary of the Columbia Energy Group, which is a wholly owned subsidiary of NiSource, Inc. ("NiSource").

TCO is a "natural gas company" as defined in Section 15 U.S.C. § 717(a) of the Natural Gas Act, which transports an average of three billion cubic feet of natural gas per day through a nearly 12,000-mile pipeline network in ten (10) states. TCO also owns and operates thirty-seven (37) natural gas storage fields in four states with nearly 600 billion cubic feet of total capacity. TCO's operations and services, including its rates and charges, are regulated by the Federal Energy Regulatory Commission ("FERC"). TCO is a wholly owned subsidiary of the Columbia Energy Group, which is a wholly owned subsidiary of NiSource.

NiSource is an energy holding company organized pursuant to the Energy Policy Act of 2005, whose subsidiaries provide natural gas transmission, storage and distribution, electric generation, transmission and distribution, and other products and services to approximately 3.8 million customers located within a corridor that runs from the Gulf Coast through the Midwest to New England. For the twelve months ending December 31, 2009, NiSource reported consolidated revenues of approximately $6.65 billion and net income of $218 million. NiSource employs 7,616 people and has a current market capitalization of approximately $4.5 billion.

Since CGV and TCO share the same senior parent company, NiSource, the companies are considered affiliated interests under § 56-76 of the Code. As such, CGV must obtain approval from the Commission pursuant to the Affiliates Act prior to entering into any contract or arrangement between the companies to furnish or receive services; purchase, sell, lease, or exchange any property, right, or thing ; or purchase or sell treasury bonds or treasury capital stock.

Compliance

In its July 18, 1996 Order in Case No. PUA- 1995-00025 ("PUA- 1995-00025 Order"),[1] the Commission approved CGV's Policy for Executing Revised or New Transportation Agreements with Affiliates ("Gas Supply Policy"), which permitted CGV to enter into supply related arrangements with TCO prior to Commission approval, with the understanding that the specifics of the arrangements would be provided to the Commission after the agreements were executed. In its April 13, 2004 Order Granting Approval in Case No. PUE-2004-00013,[2] the Commission modified its PUA-1995-00025 Order to require CGV to provide notice to the Commission's Division of Public Utility Accounting as soon as such a gas-supply agreement becomes effective and to file for Affiliates Act approval within forty-five (45) days of the agreement's execution. The Applicant complied with both of these provisions in the filing of this Application.

Purpose of Application

TCO's SCADA application permits TCO to monitor conditions on its system to control the operations of its pipelines and storage fields, and TCO's EM application records the volumes of gas delivered to its customers, including CGV and other third parties. TCO does not allow direct access to its SCADA and EM applications by third parties. However, TCO captures and stores near RTS data from its SCADA and EM applications in a corporate database from which TCO's customers may subsequently access their near RTS data.

CGV requires the near RTS data to ensure that gas supplies delivered by TCO are at an adequate pressure level to maintain uninterrupted service and ensure that CGV is operating within Maximum Allowable Operating Pressure levels. CGV also uses the near RTS data for its daily demand forecasting process, and it may allow CGV to avoid upstream pipeline penalties when TCO issues Operational Flow Orders.

Currently, CGV accesses the near RTS data via TCO's X.25 Communications Network ("X.25 Network"). An August 5, 1993 Letter Agreement ("1993 Agreement"), which the Commission approved as part of the PUA-1995-00025 Order, establishes the terms and conditions of that access.

TCO is in the process of replacing its current SCADA system, which was developed in the 1980s. TCO expects the new SCADA system to be completed and in service by September 30, 2010. Once the new system is in place, the X.25 Network will no longer be functional. Therefore, CGV entered into the 2010 Agreement to replace the 1993 Agreement and ensure continued access to the near RTS data.

Terms and Conditions of 2010 Agreement

The pertinent sections of the 2010 Agreement are as follows :

Section 1 limits CGV's access to near RTS data from measuring stations where it is the Operator or Operator's agent for the location. According to Attachment A to the 2010 Agreement, CGV will have access to twenty-four (24) measuring stations. However, either CGV or TCO can modify Attachment A to add or delete measuring stations subject to the execution of the 2010 Agreement.

Section 2 defines operational near RTS data as station inlet and outlet pressures, station volume and energy flow rates, totalized volumes and energies (since 10:00 a.m. for each gas day), and gas quality information.

Section 3 states that the near RTS data will be provided by TCO to CGV via a delimited file placed on a NiSource Corporate Services Company FTP server. Section 4 provides for CGV to be responsible for the retrieval and processing of the near RTS data, which will be updated periodically during the day and be accessible on an automated basis by CGV's Gas Control function via its SCADA system. Section 5 clarifies that the near RTS data provided under the 2010 Agreement will be limited to the RTS data captured by the NiSource SCADA or EM systems.

Section 6 states that CGV will be assessed a one-time $5,000 setup fee for the services provided by TCO pursuant to the 2010 Agreement, which is a significant reduction from the $12,700 annual fee currently paid under the 1993 Agreement.

Section 7 allows TCO to change the near RTS data at any time. Sections 7, 8, and 9 minimize TCO's exposure to any loss, damage, or liability related to access, use, or change in the near RTS data.

Section 10 clarifies that nothing in the 2010 Agreement is intended to constitute a rate or charge for the transportation or sale of natural gas subject to the jurisdiction of the FERC.

The 2010 Agreement has no fixed term. Section 12 states that either party may cancel the 2010 Agreement upon 30 days' prior written notice.

---

[1] *Application of Commonwealth Gas Services, Inc., For approval of agreements with affiliates*, Case No. PUA-1995-00025, 1996 S.C.C. Ann. Rept. 118, Order Granting Approval (July 18, 1996).

[2] *Application of Columbia Gas of Virginia, Inc., For approval of a firm transportation service agreement pursuant to Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2004-00013, 2004 S.C.C. Ann. Rept. 432, Order Granting Approval (April 13, 2004).

Alternative Sources

CGV represents that it cannot internally replicate the near RTS data provided under the 2010 Agreement without duplicating TCO's installed equipment and the housing for such equipment, and developing a communications infrastructure. CGV estimates that the initial investment would cost approximately $900,000 to $1 million, and subsequent communications and maintenance costs would average $80,000 annually. CGV further represents that there is no readily ascertainable market for the services provided under the 2010 Agreement.

NOW THE COMMISSION, upon consideration of the Application and representations of the Applicant and having been advised by its Staff, is of the opinion and finds that the captioned Application appears reasonable. CGV requires the operational near RTS data from TCO in order to operate its local distribution system in a safe and effective manner. TCO's replacement of its current SCADA system requires a new agreement between CGV and TCO. The proposed 2010 Agreement should allow CGV to obtain the near RTS data at a significantly reduced cost. Therefore, we find that the proposed 2010 Agreement is in the public interest and should be approved subject to the condition that the approval granted herein should have no ratemaking implications. Specifically, the approval granted in this case will not guarantee the recovery of any costs directly or indirectly related to the 2010 Agreement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 56-77 of the Code, Columbia Gas of Virginia, Inc., is hereby granted approval to enter into the 2010 Agreement with TCO consistent with the findings set out above and as described herein.

(2) Commission approval shall be required for any changes in the terms and conditions of the 2010 Agreement, including changes in any successors or assignees.

(3) The approval granted in this case shall have no ratemaking implications. Specifically, the approval granted in this case shall not guarantee the recovery of any costs directly or indirectly related to the 2010 Agreement.

(4) The approval granted herein shall not preclude the Commission from exercising its authority pursuant to the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(5) The Commission reserves the right to examine the books and records of any affiliate in connection with the approval granted herein whether or not such affiliate is regulated by this Commission.

(6) CGV shall include the transactions associated with the 2010 Agreement approved in this case in its Annual Report of Affiliate Transactions ("ARAT") submitted to the Director of the Commission's Division of Public Utility Accounting ("PUA Director") on May 1 of each year, subject to administrative extension by the PUA Director.

(7) In the event that CGV's annual informational filings or expedited or general rate case filings are not based on a calendar year, then CGV shall include the affiliate information contained in its ARAT for the test year in such filings.

(8) There appearing nothing further to be done, this case shall be dismissed from the Commission's docket of active cases, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00103
DECEMBER 17, 2010

APPLICATION OF
SOUTHSIDE ELECTRIC COOPERATIVE

For approval of a 100% Renewable Energy Tariff

ORDER APPROVING TARIFF

On August 27, 2010, Southside Electric Cooperative ("Southside" or the "Cooperative") filed an Application[1] for approval of its proposed Rider R for 100% renewable electric service ("Rider R") with the Virginia State Corporation Commission ("Commission") pursuant to the General Assembly's recently enacted § 56-577 A 6 of the Code of Virginia ("Code"). The Code provides that a cooperative may make a tariff for electric energy provided 100% from renewable energy available to one or more classes of its residential customers if the cooperative provides undifferentiated electric energy, retires a quantity of renewable energy certificates ("RECs") equal to 100% of the electric energy provided pursuant to such tariff, and makes appropriate disclosures regarding the RECs. The Code further provides that a cooperative must "disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered."

According to Southside, Rider R would be available on a voluntary basis as a "companion rate" to any customer who contracts with the Cooperative for the purchase and retirement of RECs equal to all of the customer's monthly metered kilowatt hour ("kWh") consumption under an existing Cooperative Rate Schedule. Southside also stated that Rider R would be available to any residential class customers with a consumption charge immediately upon approval by the Commission and available to any nonresidential class customers on a similar basis on and after July 1, 2012.

Southside further stated that the customer may terminate billing under Rider R by giving the Cooperative at least thirty (30) days' prior notice. After receiving such notice, the Cooperative would terminate billing under Rider R effective with, or prior to, the customer's next meter read date. The

[1] Application for Approval of 100% Renewable Tariff, Case No. PUE-2010-00103, Doc. Con. Cen. No. 100870733 (Aug. 27, 2010) ("Application").

Cooperative reserved the right to terminate Rider R or revise the pricing or minimum purchase amount after giving sixty (60) days' prior notice. According to the Cooperative, Rider R would not affect service taken by a customer under an existing applicable Rate Schedule.

Renewable energy charges for the Cooperative's Rider R would be in addition to all other charges due under the Cooperative's Terms and Conditions and the Rate Schedule applicable to the customer's service. Under proposed Rider R, the Renewable Energy Rate ("R") would be equal to $0.015 per kWh. The customer's total bill, including R, would never be less than zero.

On September 9, 2010, the Commission entered its Order for Notice and Comment that, among other things, docketed the Cooperative's Application; directed the Cooperative to provide notice of the Application to customers; provided interested persons an opportunity to comment on the Application; directed the Commission Staff ("Staff") to file comments on the Application; and provided the Cooperative with an opportunity to respond to the Staff's comments or to any filed comments by interested persons.

On October 14, 2010, public comments regarding the Application were filed by Mr. Robert Vanderhye, Green kW Energy, Inc. ("Green kW Energy"), Red Barn Trading, and the Old Mill Power Company ("Old Mill Power"). In his comments, Mr. Vanderhye questioned the sufficiency of the Cooperative's disclosure of information associated with Rider R. He stated:

> The Rider provides only that this information will be provided in the infrequent magazine published by the cooperative, and "upon request." Most people never read the magazine, and most people would not know to request the information. The source of the RECs and the source of the renewable energy itself should both be provided along with ANY AND ALL SOLICITATIONS associated with the program, and should also be provided on monthly bills. Only in this way will the information specified by the Legislature truly make its way into the hands of the customers.[2]

In its Comments, Green kW Energy stated that it believes the Application is inappropriate because it would give an unfair advantage over independent developers of renewable power projects and would discourage the development of such projects in Virginia.[3] Red Barn Trading requested in its comments that the Commission deny the Cooperative's Application because Rider R "(i) is inconsistent with the Commission's previous rulings on what renewable energy is; (ii) is in conflict with federal consumer protection law regarding deceptive labeling; and (iii) is in conflict with federal anti-trust law protecting small merchants like us from unfair competition."[4] Old Mill Power argued in its comments that Rider R (i) conflicts with federal consumer protection and federal anti-trust laws; (ii) is potentially deceptive to customers and thereby could divert sales of renewable energy and RECs from other vendors to the Cooperative; (iii) is not necessary for the Cooperative to conduct sales of RECs or renewable energy; (iv) is contrary to the public interest; (v) violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution;[5] (vi) will not make renewable energy more available to customers or to the market generally; and (vii) is bad for Virginia's economy.[6]

On October 28, 2010, the Staff filed its report ("Staff Report") on Rider R's consistency with § 56-577 A 6 of the Code and on Rider R's technical soundness.[7] Staff suggested that the title of Rider R, "100% RENEWABLE ELECTRIC SERVICE," could lead to confusion about the actual service being offered and suggested that the Cooperative rename the tariff "to '100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE,' 'ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES' or some other moniker that more clearly recognizes the role renewable energy certificates play under this service, as is described in the body of the proposed tariff."[8] Staff also stated that Rider R's Availability and Applicability clause should be amended to the following:

> This Rider is available on a voluntary basis as a "companion rate" to any residential Customer who contracts with the Cooperative for the purchase and retirement of renewable energy attributes ("Renewable Energy") for all of the Customer's monthly consumption under an existing Cooperative Rate Schedule.[9]

Staff's proposed amendment deletes from Rider R's Availability and Applicability clause the sentence "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012."[10] According to Staff, this sentence may lead to confusion because "the proposed service would only be available to residential customers at this time and the Cooperative must make a filing after July 1, 2012, to

[10] *Id*.

provide this service to non-residential customers in accordance with § 56-577 A 6 of the Code."[11] Finally, Staff determined that the proposed pricing and disclosure provisions of the tariff are acceptable.[12]

On November 4, 2010, Southside filed its Rebuttal Comments of the Electric Cooperatives ("Rebuttal Comments").[13] In its Rebuttal Comments, Southside considered the Staff Report "properly and appropriately constrained to examination of the Applications and Riders under the terms of Va. Code § 56-577."[14] Southside agreed with Staff's recommended modification of Rider R's Availability and Applicability clause but also suggested the addition of the word "class" so that the clause would read, "This Rider is available on a voluntary basis as a 'companion rate' to any *residential class* Customer. . .."[15] Southside acknowledged that, pursuant to § 56-577 A 6 of the Code, it will need to file an application for approval before offering a similar tariff to nonresidential class customers on or after July 1, 2012. Southside further stated that it disagreed with Staff's recommended title for the tariff. Instead, Southside suggested that Rider R be renamed "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY" and asserted that this proposed title is a reasonable compromise because it tracks the language of § 56-577 A 6.[16]

Addressing Red Barn Trading's objection to Rider R being described as "100% renewable," Southside noted that § 56-577 A 6 of the Code allows such tariffs to be offered as renewable energy tariffs and that, accordingly, Rider R is inapposite to tariffs considered by the Commission in Case Nos. PUE-2008-00057 and PUE-2008-00044.[17]

In response to Mr. Vanderhye, Southside argued that the Cooperative periodical has a high percentage of readership and that the disclosure information provided by the Cooperative through this publication is sufficient to satisfy the disclosure requirements of § 56-577 A.[18]

In response to Green kW Energy, Southside asserted that tariffs such as Rider R would likely increase the incentive for future renewable energy projects at the wholesale level. The Cooperative stated that approval of Rider R would not prevent Green kW Energy, as a competitor in the marketplace, from marketing its own RECs and renewable energy. According to Southside, approval of Rider R could instead increase incentives for wholesale green energy products by creating more demand for RECs.[19]

In response to Old Mill Power, Southside stated that, although Rider R does bundle undifferentiated energy and RECs together, it does not do so in a way that violates federal anti-trust laws. According to the Cooperative, "the Code is clear and unambiguous in that both the undifferentiated energy and the REC must be offered, together, for the tariff to be 'deemed to offer' the 100% renewable electric service described in Va. Code § 56-577.A.6."[20] Southside further stated that neither Rider R nor the law restricts anyone from buying and selling RECs in the market on his or her own initiative.[21]

Addressing Old Mill Power's assertion that Rider R is potentially deceptive to customers and in violation of federal consumer protection laws, Southside noted that § 56-577 A 6 of the Code specifically defines the product the Cooperative may offer and the disclosures which must accompany it.

[12] *Id.* at 4-5.

[13] Nine electric cooperatives filed Rebuttal Comments collectively in individual and substantively identical proceedings seeking Commission approval of tariffs filed pursuant to § 56-577 A 6 of the Code. The nine cooperatives and the corresponding case numbers of the renewable energy tariff proceedings are as follows: Mecklenburg Electric Cooperative (PUE-2010-00066), BARC Electric Cooperative (PUE-2010-00067), Shenandoah Valley Electric Cooperative (PUE-2010-00068), Prince George Electric Cooperative (PUE-2010-00069), Northern Virginia Electric Cooperative (PUE-2010-00071), Central Virginia Electric Cooperative (PUE-2010-00085), Northern Neck Electric Cooperative (PUE-2010-00086), A&N Electric Cooperative (PUE-2010-00088), and Southside Electric Cooperative (PUE-2010-00103).

[14] Rebuttal Comments of the Electric Cooperatives, Case No. PUE-2010-00103, Doc. Con. Cen. No. 101110155 at 2-3 (Nov. 4, 2010).

[15] *Id*. at 3-4 (emphasis in original).

[16] *Id*. at 4.

[17] *Id.* at 5. *See also Application of Appalachian Power Company, For Approval of its Renewable Power Rider*, Case No. PUE-2008-00057, 2008 S.C.C. Ann. Rept. 557, Order Approving Tariff (Dec. 8, 2008) (approving Renewable Power Rider but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code) and *Application of Virginia Electric and Power Company, For Approval of its Renewable Energy Tariff*, Case No. PUE-2008-00044, 2008 S.C.C. Ann. Rept. 539, Order Approving Tariff (Dec. 8, 2008) (approving tariff but declaring it is not a 100% renewable energy tariff under § 56-577 A 5 of the Code).

[18] Rebuttal Comments at 6-7. Section 56-577 A 6 of the Code requires the following disclosure:

> A cooperative . . . shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of the renewable energy being offered.

[19] Rebuttal Comments at 7-8.

[20] *Id*. at 8, n.16.

[21] *Id*. at 8-9.

Southside stated that it has made the statutorily required disclosures and will continue to do so.[22] Southside further stated that Old Mill Power's "contention that the Cooperatives would knowingly deceive and mislead their member-owners is antithetical to the core principles that govern the member-owned utilities."[23] According to the Cooperative, Rider R would not divert money invested in renewable energy away from other vendors and to electric cooperatives. Rather, Southside asserted that Rider R would add choice to the marketplace and that the Cooperative would look to the broader market to supply the RECs needed to serve the rider. Southside further asserted that Rider R would create a new demand for RECs and is in the public interest.[24]

Finally, Southside addressed equal protection concerns raised by Old Mill Power. According to the Cooperative, the interests of customers of investor-owned utilities and cooperative utilities are divergent for purposes of this proceeding. Accordingly, Southside argued that Rider R, if approved, would not treat similarly situated customers differently so as to give rise to any discrimination or disparate treatment that would violate the Equal Protection Clause of the United States Constitution.[25] The Cooperative further asserted that issues raised by Old Mill Power are policy concerns that are more appropriately addressed by the General Assembly.[26]

NOW THE COMMISSION, upon consideration of this matter, approves Rider R subject to the requirements set forth below. We note that § 56-577 A 6 of the Code provides, in relevant part, as follows:

> A tariff for one or more classes of residential customers filed with the Commission for approval by a cooperative on or after July 1, 2010, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff. . .. A cooperative offering electric energy provided 100 percent from renewable energy pursuant to this subdivision that involves the retirement of renewable energy certificates shall disclose to its retail customers who express an interest in purchasing energy pursuant to such tariff (i) that the renewable energy is comprised of the retirement of renewable energy certificates, (ii) the identity of the entity providing the renewable energy certificates, and (iii) the sources of renewable energy being offered.

We find that Rider R satisfies the requirements prescribed by § 56-577 A 6 of the Code. Further, we agree with Staff that the disclosure provisions contained in Rider R are adequate.

Title of the Tariff

We agree that the Cooperative's original proposed title for Rider R, "100% RENEWABLE ELECTRIC SERVICE," may generate confusion as to the actual service being offered under the tariff. Further, we do not find that the Cooperative's proposed name change, "TARIFF FOR ELECTRIC ENERGY PROVIDED 100 PERCENT FROM RENEWABLE ENERGY," adequately and clearly describes the service offered under Rider R. Accordingly, we find that Staff's recommendation that the title of the tariff be changed to "100% RENEWABLE ENERGY ATTRIBUTES ELECTRIC SERVICE" or "ELECTRIC SERVICE BACKED 100% BY RENEWABLE ENERGY CERTIFICATES" should be adopted.

Availability and Applicability Clause

We note that § 56-577 A 6 provides as follows:

> A tariff for one or more classes of nonresidential customers filed with the Commission for approval by a cooperative on or after July 1, 2012, shall be deemed to offer a tariff for electric energy provided 100 percent from renewable energy if it provides undifferentiated electric energy and the cooperative retires a quantity of renewable energy certificates equal to 100 percent of the electric energy provided pursuant to such tariff.

We agree with Staff that the following sentence should be deleted from Rider R's Availability and Applicability clause: "[t]his Rider is available to residential class Customers immediately and available to any nonresidential class Customers on and after July 1, 2012." A tariff for nonresidential customers filed pursuant to § 56-577 A 6 must be filed, according to the statute, on or after July 1, 2012. Accordingly, we find that the Cooperative's recommended modification of the Availability and Applicability clause should be adopted to clarify that Rider R is available to residential class customers only.

Federal Law

Old Mill Power raised several concerns regarding federal statutory and constitutional law that it argues renders Rider R unfit for approval. We find that such concerns raised by Old Mill Power do not prohibit approval of this rider, which we have found to be consistent with § 56-577 A 6 of the Code. As argued by Southside, we find that the Virginia statute is not prohibited by federal law.

[23] *Id.* at 10.

[24] *Id.* at 10-11.

[25] U.S. Const., amend. 14, § 1.

[26] Rebuttal Comments at 11-12.

Requests for Hearing

In its comments, Red Barn Trading reserved the right to participate in any hearings the Commission might set in this case.[27] Old Mill Power also suggested in its comments that a hearing might be helpful to resolve any disputes over the facts of the case.[28] We find the written record in this docket adequate for us to evaluate Southside's Application and Rider R. The material facts in this case are not in dispute and, consequently, a hearing is not necessary for their determination.

Accordingly, IT IS HEREBY ORDERED THAT:

(1) Southside's Application is granted to the extent set forth in this Order Approving Tariff and is otherwise denied.

(2) Rider R is approved subject to the requirements and conditions set forth in this Order Approving Tariff, effective for service to residential customers rendered on and after the date of this Order.

(3) Southside shall submit its revised Rider R, incorporating the modifications set forth herein, to the Director of the Commission's Division of Energy Regulation within thirty (30) days of the date of this Order.

(4) This matter is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00104
SEPTEMBER 23, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For authority to establish a credit facility

ORDER GRANTING AUTHORITY

On September 1, 2010, Virginia Electric and Power Company ("Virginia Power" or the "Company") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia. In its application, the Company requests authority to establish a $120 million, three-year Revolving Credit Facility ("Credit Facility"). The Company paid the requisite fee of $250.

The Credit Facility will be provided on a committed basis, and any borrowings under the Credit Facility will be used to purchase tax-exempt variable rate securities in the event that these securities cannot be remarketed by the remarketing agent for any reason. The Credit Facility will replace the Company's existing $200 million revolving credit facility authorized by the Commission in Case No. PUE-2006-00010. The initial term of the Credit Facility will be three years from the date of execution and delivery of the Credit Facility but Virginia Power will have the option to extend the maturity for two one-year periods.

Borrowings under the Credit Facility will bear interest, at Virginia Power's election, at one of the following rates: (a) the higher of (i) the rate of interest publicly announced by JPMorgan Chase Bank N.A. as its prime rate in effect at its office in New York, New York and (ii) the federal funds effective rate from time to time plus 0.5%, and (iii) the Eurodollar rate for a one-month interest period plus 1.0%; or (b) the rate (adjusted for statutory reserve requirements for Eurocurrency liabilities) for Eurodollar deposits for a period equal to one, two, three, or six months (as selected by the Company) appearing on the Reuters Screen LIBOR01 Page (the "Eurodollar Rate") plus an applicable margin based on Virginia Power's senior unsecured long-term credit rating by Standard & Poor's Rating Group ("S&P"), Moody's Investor Service, Inc. ("Moody's") and Fitch Ratings Ltd. ("Fitch").

Commitment and annual facility fees on the Credit Facility will also be based on the Company's senior unsecured long-term credit rating by S&P, Moody's, and Fitch, payable in arrears at the end of each calendar quarter.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Virginia Power is authorized to establish a $120 million three-year syndicated Revolving Credit Facility, under the terms and conditions and for the purposes as stated in the application.

(2) Virginia Power shall file a copy of the Credit Facility promptly after it becomes available.

(3) On or before December 31 of 2011, 2012, and 2013, Virginia Power shall file a report detailing the use of the Credit Facility for the annual period commencing on the date the agreement is executed and include the date, amount, and applicable interest rate of each loan under the Credit Facility.

(4) The authority granted herein shall replace and supersede the authority granted in Case No. PUE-2006-00010.

(5) The authority granted herein shall have no implications for ratemaking purposes.

(6) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00105
SEPTEMBER 23, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For authority to establish a credit facility

ORDER GRANTING AUTHORITY

On September 1, 2010, Virginia Electric and Power Company ("Virginia Power" or the "Company") filed an application with the State Corporation Commission ("Commission") under Chapters 3 and 4 of Title 56 of the Code of Virginia. In its application, the Company requests authority to establish a shared $500 million, three-year syndicated letter of credit facility ("LOC Facility") with its parent company, Dominion Resources, Inc. ("DRI"). The LOC Facility will be established pursuant to a credit agreement between the Company, DRI, the administrative agent and the lenders ("Credit Agreement"). The Company paid the requisite fee of $250.

The initial term of the LOC Facility will be three years from the date of execution and delivery of the Credit Agreement. However, DRI and Virginia Power will each have the option to extend the maturity for two one-year periods. While the LOC Facility will have a $500 million limit, Virginia Power and DRI will each have a sub-limit of $250 million each. The sub-limits of $250 million may be reallocated between Virginia Power and DRI up to six times per year by written notice to the administrative agent by both parties. Virginia Power and DRI intend to use the LOC Facility exclusively as the vehicle for providing letters of credit to third parties. The Company represents that a default by DRI will in no way constitute a default by Virginia Power and will not detrimentally impact its ability to access the LOC Facility.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Virginia Power is authorized to establish a $500 million three-year syndicated letter of credit facility, under the terms and conditions and for the purposes as stated in the application.

(2) Virginia Power shall file a copy of the LOC Facility promptly after it becomes available.

(3) Virginia Power shall notify the Commission within ten days of any reallocation of the sub-limits authorized herein.

(4) On or before December 31 of 2011, 2012, and 2013, Virginia Power shall file a report detailing the use of the LOC Facility for the annual period commencing on the date the Credit Agreement is executed and include the date, amount, and applicable interest rate of each loan under the LOC Facility.

(5) The authority granted herein shall have no implications for ratemaking purposes.

(6) The authority granted herein shall not preclude the Commission from applying the provisions of § 56-78 and § 56-80 of the Code of Virginia hereafter.

(7) The Commission reserves the right to examine the books and records of any affiliate in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(8) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00106
SEPTEMBER 23, 2010

APPLICATION OF
VIRGINIA ELECTRIC AND POWER COMPANY

For authority to establish a credit facility

ORDER GRANTING AUTHORITY

On September 1, 2010, Virginia Electric and Power Company ("Virginia Power" or the "Company") filed an application with the State Corporation Commission ("Commission") under Chapters 3 and 4 of Title 56 of the Code of Virginia. In its application, the Company requests authority to establish a shared $3 billion, three-year syndicated revolving credit and competitive loan facility ("Credit Facility") with its parent company, Dominion Resources, Inc. ("DRI"). The Credit Facility will be established pursuant to a credit agreement between the Company, DRI, the administrative agent and the lenders ("Credit Agreement"). The Company paid the requisite fee of $250.

The initial term of the Credit Facility will be three years from the date of execution and delivery of the Credit Agreement. However, DRI and Virginia Power will each have the option to extend the maturity for two one-year periods. While the Credit Facility will have a $3 billion limit, Virginia Power will have a sub-limit of $1 billion and DRI will have a sub-limit of $2 billion. These sub-limits may be reallocated between the Virginia Power and DRI up to six times per year by written notice to the administrative agent by both companies. Virginia Power intends to use the Credit Facility for general corporate purposes, including commercial paper liquidity back-up. In addition, a portion of the Credit Facility will be available for letters of credit. The Company represents that a default by DRI will in no way constitute a default by Virginia Power and will not detrimentally impact its ability to access the Credit Facility.

The Credit Facility will be provided on a committed basis and will incorporate two borrowing arrangements: (1) a fully committed revolving credit loan facility, and (2) a competitive loan facility ("CLF") under which the lenders are not required to lend. The CLF is an uncommitted facility with borrowings occurring through a competitive auction basis with the auctions occurring at the request of the borrower.

Commitment and arranger fees associated with the Credit Facility are estimated to total $16,675,000 and will be paid by DRI's service company at closing and amortized over the life of the Credit Facility. A portion of these fees will be allocated to Virginia Power based on the Company's sub-limit as a percentage of the full Credit Facility's $3 billion limit. Annual facility fees and letter of credit fees will be based on the Company's senior unsecured long-term credit rating by Standard & Poor's Rating Group ("S&P"), Moody's Investor Service, Inc. ("Moody's") and Fitch Ratings Ltd. ("Fitch"), payable in arrears at the end of each calendar quarter.

Borrowings under the Credit Facility will bear interest, at Virginia Power's election, at one of the following rates plus an interest margin: (a) the higher of (i) the rate of interest publicly announced by JPMorgan Chase Bank N.A. as its prime rate in effect at its office in New York, New York, (ii) the federal funds effective rate from time to time plus 0.5%, and (iii) the Eurodollar rate for a one-month interest period plus 1.0%; or (b) the rate (adjusted for statutory reserve requirements for Eurocurrency liabilities) for Eurodollar deposits for a period equal to one, two, three, or six months (as selected by the Company) appearing on the Reuters Screen LIBOR01 Page plus an applicable margin based on Virginia Power's senior unsecured long-term credit rating by S&P, Moody's, and Fitch. Each loan under the CLF will be based upon the selected lender's bid bearing interest at an absolute rate or a margin above the Eurodollar rate, with Virginia Power specified maturities ranging from 7 days to 360 days.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Virginia Power is authorized to establish a shared $3 billion three-year syndicated Credit Facility, under the terms and conditions and for the purposes as stated in the application.

(2) Virginia Power shall file a copy of the Credit Facility promptly after it becomes available.

(3) Virginia Power shall notify the Commission within ten days of any reallocation of the sub-limits authorized herein.

(4) On or before December 31 of 2011, 2012, and 2013, Virginia Power shall file a report detailing the use of the Credit Facility for the annual period commencing on the date the Credit Agreement is executed include the date, amount, and applicable interest rate of each loan under the Credit Facility.

(5) The authority granted herein shall replace and supersede the authority granted in Case No. PUE-2006-00011.

(6) The authority granted herein shall have no implications for ratemaking purposes.

(7) The authority granted herein shall not preclude the Commission from applying the provisions of § 56-78 and § 56-80 of the Code of Virginia hereafter.

(8) The Commission reserves the right to examine the books and records of any affiliate in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(9) This matter shall remain under the continued review, audit and appropriate directive of the Commission.

CASE NO. PUE-2010-00107
NOVEMBER 10, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION

In re: Virginia Electric and Power Company's Integrated Resource Plan Filing pursuant to Va. Code § 56-597 *et seq.*

FINAL ORDER

On September 1, 2010, Virginia Electric and Power Company ("DVP" or "Company") filed with the State Corporation Commission ("Commission"), pursuant to § 56-599 C of the Code of Virginia and the guidelines established by the Commission in Case No. PUE-2008-00099

("Guidelines"),[1] its total system 2010 Integrated Resource Plan ("2010 IRP") that the Company also filed with the North Carolina Utilities Commission on September 1, 2010. Section E of the Guidelines provides that "by September 1 of each year in which a plan is *not* required, each utility shall file a narrative summary describing any significant event necessitating a major revision to the most recently filed IRP, including adjustments to the type and size of resources identified." Section E of the Guidelines further provides that "[i]f the utility provides a total system IRP in another jurisdiction by September 1 of the year in which a plan is not required, filing the total system IRP from the other jurisdiction will suffice for purposes of this section."

The filing was accompanied by a Motion for Protective Order and Additional Protective Treatment ("Motion").[2] According to the Company, "[a]dditional protective treatment is necessary for the extraordinarily sensitive Appendices in order to protect the competitive marketplace and the Company's ability to negotiate with vendors in the future."[3] The Company requested that the Commission grant its Motion and, additionally, that it be permitted to mark future information as extraordinarily sensitive for the reasons set forth in its Motion.

On September 24, 2010, the Commission entered its Order on Integrated Resource Plan Filing and Motion for Entry of a Protective Order ("Order"). In its Order, the Commission provided an opportunity for any interested party to file a response to the Company's Motion. The Order also permitted the Company to file a reply to any response filed by the Commission's Staff ("Staff") or any interested party.

On October 12, 2010, Staff filed its Response to Motion for Protective Order and Additional Protective Treatment ("Response"). In its Response, Staff objected to the Company's proposed protective order as it related to "the provision of future information by the Company, filed without an additional motion, that it marks as extraordinarily sensitive."[4] Staff requested that the Commission enter a protective order that would provide for the treatment of confidential and extraordinarily sensitive information in a manner consistent with the Protective Rulings entered in Case No. PUE-2009-00096.[5]

On October 20, 2010, DVP filed its Reply to Staff's Response to the Company's Motion for Entry of a Protective Order and Additional Protective Treatment ("Reply"). In its Reply, the Company stated that by requesting the ability to mark future information as extraordinarily sensitive, it sought "to establish an efficient framework to handle future requests for information that are underlying or of the same type or category as the specific information identified in the original Motion for Protective Order."[6] DVP further stated that counsel for the Company and Staff had agreed to a modified provision for the treatment of future information identified by the Company as extraordinarily sensitive. The Company requested that the proposed Protective Order be modified accordingly.

NOW THE COMMISSION, upon consideration of the filings herein as well as the applicable law and the Guidelines, is of the opinion and finds that the Company's 2010 IRP complies with the Guidelines and should be accepted for filing. The Commission is also of the opinion and finds that DVP's Motion for Protective Order and Additional Protective Treatment is no longer necessary and should, therefore, be denied. We note that the Commission has received no request during this proceeding for leave to review the confidential and extraordinarily sensitive information. Accordingly, we deny the Motion for Protective Order and Additional Protective Treatment as moot but direct the Clerk of the Commission to retain such information under seal.

Accordingly, IT IS ORDERED THAT:

(1) The Company's 2010 IRP shall be accepted for filing.

(2) The Company's Motion for Protective Order and Additional Protective Treatment is hereby denied; however, we direct the Clerk of the Commission to retain the confidential and extraordinarily sensitive information to which the Motion pertains under seal.

(3) There being nothing further to come before the Commission, this matter is dismissed from the Commission's active docket and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00108
NOVEMBER 10, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION

In re: Appalachian Power Company's Integrated Resource Plan, 2010 Narrative Summary

FINAL ORDER

On September 1, 2010, Appalachian Power Company ("APCo" or the "Company") filed with the State Corporation Commission ("Commission") its Narrative Summary of Events Impacting the 2009 Integrated Resource Plan ("Narrative Summary") pursuant to § 56-599 C of the Code of Virginia and the guidelines established by the Commission in Case No. PUE-2008-00099 ("Guidelines").[1] Section E of the Guidelines provides that "by September 1 of each year in which a plan is *not* required, each utility shall file a narrative summary describing any significant event necessitating a major revision to the most recently filed IRP, including adjustments to the type and size of resources identified." APCo's Narrative Summary highlighted changes that have occurred to the Company's 2009 Integrated Resource Plan regarding load forecast, environmental compliance, renewable energy profiles, potential unit requirements, energy efficiency and demand response initiatives, capacity additions, and other operation considerations.

NOW THE COMMISSION, upon consideration of the applicable law and the Guidelines, is of the opinion and finds that the Company's Narrative Summary complies with the Guidelines and should be accepted for filing.

Accordingly, IT IS ORDERED THAT the Company's Narrative Summary shall be accepted for filing. With nothing further to come before the Commission, this matter shall be dismissed from the Commission's active docket and the papers filed herein shall be placed in the Commission's file for ended causes.

[1] *See Commonwealth of Va., ex rel. State Corp. Comm'n., Concerning Electric Utility Integrated Resource Planning Pursuant to § 56-597 et seq. of the Code of Virginia,* Case No. PUE-2008-00099, 2008 S.C.C. Ann. Rept. 606, Order Establishing Guidelines for Developing Integrated Resource Plans (Dec. 23, 2008).

CASE NO. PUE-2010-00109
OCTOBER 27, 2010

APPLICATION OF
NRGING, LLC

For a license to conduct business as an electric and natural gas aggregator

ORDER GRANTING LICENSE

On September 13, 2010, NRGing, LLC d/b/a NetGain Energy Advisors ("NetGain Energy" or "Company"), completed an application with the State Corporation Commission ("Commission") for a license to provide electric and natural gas aggregation services pursuant to the Commission's Rules Governing Retail Access to Competitive Energy Services, 20 VAC 5-312-10 *et seq.* ("Retail Access Rules").[1] This application seeks authority to serve commercial and industrial customers throughout the Commonwealth of Virginia where retail access and customer choice are available. The Company attested that it would abide by all applicable regulations of the Commission as required by 20 VAC 5-312-40 B.

On September 15, 2010, the Commission issued an Order for Notice and Comment establishing the case; requiring that notice of the application be given to investor-owned electric utilities, electric cooperatives, natural gas distribution utilities, and other interested persons; providing for the receipt of comments from the public; and requiring the Commission's Staff to analyze the reasonableness of the application and present its findings in a staff report ("Staff Report"). The Company filed proof of service on September 23, 2010. No comments on NetGain Energy's application were received from the public.

The Staff Report was filed on October 18, 2010, and analyzed NetGain Energy's fitness to conduct business as an electric and natural gas aggregator. The Staff Report summarized NetGain Energy's proposal and evaluated its financial condition and technical fitness. The Staff recommended NetGain Energy be granted a license to conduct business as an electric and natural gas aggregator for commercial and industrial customers throughout the Commonwealth of Virginia where retail access is available. The Company did not file comments in response to the Staff Report.

NOW UPON CONSIDERATION of the application, the Staff Report, and applicable law, the Commission finds that NetGain Energy's application for a license to conduct business in the Commonwealth of Virginia as an aggregator for electric and natural gas service should be granted, subject to the conditions set forth below.

Accordingly, IT IS ORDERED THAT:

(1) NRGing, LLC d/b/a NetGain Energy Advisors is hereby granted License No. A-32 to be an aggregator for natural gas and electricity to commercial and industrial customers throughout the Commonwealth of Virginia. This license to act as an aggregator is granted subject to the provisions of the Retail Access Rules, this Order, and other applicable law.

[1] The application was originally filed on September 2, 2010, but was incomplete. With the filing of additional information on September 13, 2010, NetGain Energy completed its application.

(2) This license is not valid authority for the provision of any product or service not identified within the license itself.

(3) This case shall remain open for consideration of any subsequent amendments or modifications to this license.

CASE NO. PUE, 2010-00110
OCTOBER 4, 2010

APPLICATION OF
APPALACHIAN POWER COMPANY

For authority to issue long-term debt securities

ORDER GRANTING AUTHORITY

On September 3, 2009, Appalachian Power Company ("APCo" or "Applicant") filed an application with the Virginia State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to issue long-term debt securities. In conjunction, Applicant requests authority to enter into one or more interest rate hedging arrangements to protect against future interest rate movements in connection with the long-term debt securities to be issued. Furthermore, APCo requests authority to utilize interest rate management techniques by entering into various Interest Rate Management Agreements ("IRMAs"). Applicant has paid the requisite fee of $250.

APCo proposes to issue secured or unsecured promissory notes ("Notes") up to the aggregate principal amount of $350,000,000 from time to time through December 31, 2011. The Notes may be issued in the form of First Mortgage Bonds, Senior Notes, Senior or Subordinated Debentures, Trust Preferred Securities or other unsecured promissory notes. Within certain limitations, APCo requests flexibility to select specific terms and conditions for the Notes based on market conditions at the time of issuance. The Notes will have maturities of not less than nine (9) months and not more than sixty (60) years. The interest rate may be fixed or variable.

APCo intends to sell the Notes (i) by competitive bidding; (ii) through negotiation with underwriters or agents; or (iii) by direct placement with a commercial bank or other institutional investor. Underwriting costs for the Notes are estimated to be 1.0% of the principal amount issued. The proceeds from the issuance of the Notes will be used primarily to reimburse APCo's treasury for construction program expenditures. Some proceeds however may be used to redeem, directly or indirectly, long-term debt; to refund, directly or indirectly, preferred stock; to repay short-term debt; and for other proper corporate purposes.

If used, Trust Preferred Securities would be issued by financing entities, which APCo would organize and own exclusively for the purpose of facilitating certain types of financings such as the issuance of tax advantaged preferred securities. The financing entities would issue Trust Preferred Securities to third parties. APCo requests approval of all necessary authorities to enable the issuance of Trust Preferred Securities.

APCo also requests authority to enter into agreements and assume obligations necessary for the payment of principal, interest, and other costs associated with the issuance and sale of up to $325,275,000 of tax exempt bonds ("Bonds") by the West Virginia Economic Development Authority (the "Authority") on behalf of Applicant. In addition to loan agreements with the Authority, other agreements may include remarketing agreements and credit facility agreements required to provide liquidity support for the issuance of variable rate Bonds. Up to $100,000,000 of the Bonds ("New Bonds") will be used to finance portions of the environmental and pollution control facilities at APCo's Amos Generating Station in Putnam County, West Virginia (the "Project"). The Authority has issued to APCo an award from the state ceiling for private activity bonds of carry forward of up to $150,000,000, under which the New Bonds will be issued. Applicant intends to use the remaining $225,275,000 of Bonds issued by the Authority on behalf of APCo to refund three separate series of outstanding tax exempt bonds.

Aggregate issuance costs associated with the Bonds are estimated by Applicant to be approximately $4,264,500, which may include, but not be limited to, underwriting compensation, trustee fees, legal fees, and rating agency fees. Without further Order of this Commission, the rate of interest on any Bonds will not exceed a fixed rate of 10.0% or an initial variable rate of 10.0%. In addition, the initial public offering price on the Bonds shall be less than 95% of the principal amount issued.

In conjunction with the issuance of the Notes and Bonds, Applicant requests authority, through December 31, 2011, to enter into one or more interest rate hedging arrangements to protect against future interest rate movements in connection with the issuance of the Notes and the Bonds. Such hedging arrangements may include, but not be limited to, treasury lock agreements, forward-starting interest rate swaps, treasury put options, or interest rate collar agreements ("Hedge Agreements"). All Hedge Agreements will correspond to the underlying amount of one or more of the Notes or Bonds. Consequently, the cumulative notional amount of the Hedge Agreements cannot exceed $350,000,000 for underlying Notes and $325,275,000 for underlying Bonds.

Finally, APCo requests a continuation of the authority, initially granted in Case No. PUE-2004-00123 and last granted in Case No. PUE-2009-00110, to utilize interest rate management techniques and enter into IMRAs through December 31, 2011.[1] The IRMAs will consist of interest rate swaps, caps, collars, floors, options, hedging forwards or futures, or any similar products designed and used to manage and minimize interest costs. IRMA transactions will be for a fixed period and based on a stated principal amount that corresponds to an underlying fixed or variable rate obligation of APCo, whether existing or anticipated. APCo will only enter into IRMAs with counterparties that are highly rated financial institutions. The aggregate notional amount of the IRMAs outstanding will not exceed 25% of APCo's existing debt obligations.

[1] Pursuant to the Commission's Order Granting Authority dated October 26, 2009, in Case No. PUE-2009-00110, APCo's existing authority to utilize IRMAs is set to expire after December 31, 2010.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Applicant is hereby authorized under Chapter 3 and, to the extent necessary for Trust Preferred Securities, Chapter 4 of Title 56 of the Code of Virginia to issue and sell up to $350,000,000 of Notes, from time to time during the period January 1, 2011, through December 31, 2011, for the purposes and under the terms and conditions set forth in the application.

(2) Applicant is hereby authorized to enter into agreements and assume obligations necessary for the payment of principal, interest, and costs associated with the issuance and sale of up to $325,275,000 of Bonds from the date of this Order through December 31, 2011, for the purposes and under the terms and conditions set forth in the application.

(3) Applicant is authorized to enter into Hedge Agreements for the purposes set forth in its application and to the extent that the aggregate notional amount outstanding does not exceed $350,000,000 for underlying Notes and $325,275,000 for underlying Bonds.

(4) Applicant is authorized to enter into IRMAs for the purposes set forth in its application and to the extent that the aggregate notional amount outstanding does not exceed 25% of Applicant's total outstanding debt obligations during the period January 1, 201 1, through December 31, 2011.

(5) Applicant shall not enter into any IRMA or Hedge Agreement transactions involving counterparties having credit ratings of less than investment grade.

(6) Applicant shall submit to the Clerk of the Commission a preliminary Report of Action within ten (10) days after the issuance of any security pursuant to this Order to include the type of security, the issuance date, the amount of the issue, the interest rate or yield, the maturity date, and any securities retired with the proceeds.

(7) Applicant shall submit to the Clerk of the Commission a preliminary Report of Action within ten (10) days after it enters into any Hedge Agreement or IRMA pursuant to Ordering Paragraphs (3) and (4) to include: the beginning and, if established, ending dates of the agreement, the notional amount, the underlying securities on which the agreement is based, an explanation of the general terms of the agreement that explain how the payment obligation is determined and when it is payable, and a calculation of the cumulative notional amount of all outstanding IRMAs as a percent of total debt outstanding.

(8) Within 60 days after the end of each calendar quarter in which any security is issued pursuant to this Order, Applicant shall file with the Clerk of the Commission a more detailed Report of Action to include: the type of security issued, the date and amount of each series, the interest rate or yield, the maturity date, net proceeds to Applicant, an itemized list of expenses to date associated with each issue, a description of how the proceeds were used, an analysis demonstrating the cost savings from Notes used to refund existing debt, a list of all Hedging Agreements and IRMAs associated the debt issued, and a balance sheet reflecting the actions taken.

(9) Applicant's Final Report of Action shall be due on or before March 30, 2012, to include the information required in Ordering Paragraph (8) in a cumulative summary of actions taken during the period authorized.

(10) Applicant shall file a Report with the Commission's Division of Economics and Finance should its exercise of the authority granted herein contribute to a decline in APCo's bond rating below investment grade. Such report shall be filed within thirty (30) days of a decline below an investment grade bond rating from any rating agency and the report shall outline plans and actions to restore an investment grade bond rating.

(11) Approval of the application shall have no implications for ratemaking purposes.

(12) The Commission reserves the right to examine the books and records of any affiliate, whether or not such affiliate is regulated by this Commission, in connection with the authority granted herein, pursuant to § 56-79 of the Code of Virginia.

(13) This matter shall remain under the continued review, audit, and appropriate action of this Commission.

CASE NO. PUE-2010-00111
SEPTEMBER 20, 2010

APPLICATION OF
SOUTHSIDE ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On September 3, 2010, Southside Electric Cooperative ("Southside" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $29,487,010 from the National Rural Utilities Cooperative Financing Corporation ("CFC"). Southside has paid the requisite fee of $250.

Southside is seeking authority to borrow $29,487,010 from CFC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new CFC debt will be structured as 17 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 17 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Southside expects to

realize over $2.2 million in interest savings over the 17-year life of the new debt. Moreover, Southside will generate over $1 million in additional cash flow as a result of CFC patronage capital.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Southside is authorized to incur up to $29,487,010 in debt obligations from the CFC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from CFC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00113
OCTOBER 5, 2010

APPLICATION OF
ATMOS ENERGY CORPORATION
and
ATMOS ENERGY HOLDINGS, INC.

For authority to incur short-term debt and to lend and borrow short-term funds In to and with its affiliate

ORDER GRANTING AUTHORITY

On September 10, 2010, Atmos Energy Corporation ("Atmos" or "Company") and Atmos Energy Holdings, Inc. ("AEH") (collectively "Applicants"), filed an application with the State Corporation Commission ("Commission") under Chapters 3 and 4 of Title 56 of the Code of Virginia (Va. Code §§ 56-55 et seq. and 56-76 et seq.) ("Code") requesting authority to incur short-term indebtedness up to a maximum of $1.135 billion between January 1, 2011, and December 31, 2011. The amount of short-term debt requested in the application is in excess of twelve percent (12%) of total capitalization as defined in § 56-65.1 of the Code and thus requires prior Commission approval. Atmos also requests authority to lend and borrow short-term funds to and from its affiliate in an amount not to exceed $350 million at any one time during 2011. By letter dated September 30, 2010, counsel for Applicants revised the requested effective date of the new authority to be December 1, 2010, in order to avoid potential violation of Chapters 3 or 4 of the Code under Atmos's current Commission authority.1 Applicants paid the requisite fee of $250.

Atmos proposes to incur short-term indebtedness by making drawdowns under existing credit facilities and lines of credit, increased or new credit facilities or lines of credit, or through the use of its commercial paper program. According to the application, borrowings under any of the credit facilities can bear floating rates of interest based on market conditions at the time of issuance or will be based on a spread above the then prevailing London InterBank Offered Rate ("LIBOR"), or at a negotiated interest rate, depending on the credit facility. Under the Atmos commercial paper program, the interest rate is set at the time of the advance and is based on capital market conditions. Atmos states that the funds will be used to repay all or a portion of the Company's outstanding short-term debt; to acquire and/or construct additional properties or facilities as well as improvements to the Company's existing plant; and for other general corporate purposes.

Atmos also proposes to continue to borrow from and lend to AEH, its wholly owned subsidiary, through a $350 million short-term cash credit facility ("Affiliate Facility") for the period December 1, 2010 through December 31, 2011. The requested loan to AEH will support the natural gas supply procurement efforts of Atmos Energy Marketing, LLC ("AEM"), another wholly owned subsidiary of Atmos, on behalf of, among others, Atmos. The Affiliate Facility will also supply cash working capital needs and financing of capital construction projects for affiliates of AEM. The interest rate on AEH loans from Atmos under the Affiliate Facility will be based on the higher of the one-month LIBOR plus 300 basis points or the AEM borrowing rate from its committed secured revolving letter of credit facility ("Stand Alone Facility") plus 75 basis points. Loans from AEH to Atmos will be priced at the lesser of the Atmos borrowing rate or the AEM borrowing rate under the Stand Alone Facility.

NOW THE COMMISSION, upon consideration of the application, as revised, and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Atmos is hereby authorized to incur short-term indebtedness up to $1.135 billion at any one time between December 1, 2010, and December 31, 2011, under the terms and conditions and for the purposes set forth in the application, as revised.

---

[1] Atmos received Commission authorization to borrow up to $935 million in short-term debt and to borrow or lend up to $200 million in short-term funds from AEH in Case No. PUE-2009-00124. *See Application of Atmos Energy Corporation and Atmos Holdings, Inc., For authority to incur short-term debt and to lend and borrow short-term funds to and with its affiliate*, Case No. PUE-2009-00124, 2009 S.C.C. Ann. Rept. 550, Order Granting Authority (Dec. 28, 2009).

(2) Applicants are hereby authorized to borrow from and lend short-term funds to AEH up to an aggregate amount of $350 million between December 1, 2010, and December 31, 2011, under the terms and conditions and for the purposes set forth in the application, as revised.

(3) Applicants shall file no later than March 31, 2011, a report of action stating the major components of the renewed Stand Alone Facility agreement, including the new credit limit, date of maturity, and the interest rate index.

(4) Applicants shall file with the Commission quarterly reports of action no later than May 16, 2011, August 15, 2011, and November 15, 2011, reporting on its short-term debt activities during the previous calendar quarter. Such reports shall include a monthly schedule of daily short-term borrowings of Atmos separate from AEH borrowings, the average monthly balance, the average monthly interest rate, and the monthly maximum amount of short-term debt outstanding.

(5) Applicants shall submit to the Commission a final report of action on or before February 28, 2012, providing the information required in Ordering Paragraph (4) above for the fourth calendar quarter of 2011. The final report of action shall also include a summary schedule of fees paid by Atmos in 2011 for each line of credit, credit facility, bank facility or loan, with dates of origination and maturity for each provider of credit in effect during 2011.

(6) Applicant shall provide to the Division of Economics and Finance the quarterly financial reports for AEH that are provided to its lenders at the same time such reports are provided to the lenders.

(7) Commission approval shall be required for any subsequent changes in the terms and conditions of the Affiliate Facility.

(8) The authority granted herein shall not preclude the Commission from applying to Applicants the provisions of §§ 56-78 and 56-80 of the Code of Virginia hereafter.

(9) The Commission reserves the right to examine the books and records of any affiliate of Applicants in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(10) Should Applicants wish to obtain authority beyond calendar year 2011, Atmos shall file an application requesting such authority no later than November 18, 2011.

(11) This matter shall remain under the continued review, audit, and appropriate directive of the Commission.

CASE NO. PUE-2010-00114
OCTOBER 5, 2010

APPLICATION OF
MECKLENBURG ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On September 16, 2010, Mecklenburg Electric Cooperative ("Mecklenburg" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $250,000 in long-term debt. Mecklenburg has paid the requisite fee of $25.

Mecklenburg is seeking authority to borrow $250,000 from the United States of America under the Rural Economic Development Loan and Grant Program of the United States Department of Agriculture Rural Development Business and Cooperative Programs. Proceeds from the loan will be re-loaned to the Good Earth Peanut Company. Mecklenburg's loan will be in the form of a zero interest promissory note ("Note") and will be evidenced by its existing mortgage with the Rural Utilities Services. The term of the loan is ten years.

The loan between Mecklenburg and the Good Earth Peanut Company will be made under the same terms as the Note but will be evidenced by a Standby Letter of Credit.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Mecklenburg is authorized to incur up to $250,000 in debt obligations from the United States of America, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds, Mecklenburg shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance.

(3) Within thirty (30) days of the date of any funds being advanced by Mecklenburg to the Good Earth Peanut Company, Mecklenburg shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance.

(4) Within ten (10) days of the date of a default by the Good Earth Peanut Company under the loan agreement between it and Mecklenburg, the Cooperative shall notify the Commission's Division of Economics and Finance of said default.

(5) The authority granted herein shall have no implications for ratemaking purposes.

(6) There appearing nothing further to be done in this matter, it is hereby dismissed.

CASE NO. PUE-2010-00118
DECEMBER 21, 2010

JOINT PETITION OF
UNITED WATER VIRGINIA INC.
and
VIRGINIA-AMERICAN WATER COMPANY

For exemption from the filing and prior approval requirements of the Utility Transfers Act and Affiliates Act or, alternatively, for approval of a plan of merger pursuant to the Utility Transfers Act and Affiliates Act

ORDER GRANTING APPROVAL

On September 28, 2010, Virginia-American Water Company ("VAWC") and United Water Virginia Inc. ("United") (together with VAWC, the "Joint Petitioners") filed a joint petition with the State Corporation Commission ("Commission") pursuant to Chapter 5 of Title 56 ("Utility Transfers Act")[1] of the Code of Virginia ("Code"), requesting exemption from the filing and prior approval requirements of the Utility Transfers Act or, alternatively, approval of a plan of merger. On October 22, 2010, the Joint Petitioners amended the joint petition pursuant to Chapter 4 of Title 56 ("Affiliates Act")[2] of the Code to also request exemption from the filing and prior approval requirements of the Affiliates Act or, alternatively, approval of a plan of merger.

VAWC is a Virginia public service corporation headquartered in Alexandria, Virginia, which provides water service to approximately 54,400 customers in and around the cities of Alexandria and Hopewell, Virginia, and in Prince William County, Virginia. VAWC is a wholly owned subsidiary of American Water Works Company, Inc. ("American Water").

United also is a Virginia public service corporation that provides water service to approximately 2,630 customers in Westmoreland, Northumberland, Lancaster, King William, and Essex Counties, Virginia. United is a wholly owned subsidiary of VAWC and is managed operationally from a central office in Warsaw, Virginia. VAWC provides United with additional managerial, operational, engineering, financial, and technical support as needed.

Pursuant to a Plan of Merger of United Water Virginia Inc. with and into Virginia American Water Company ("Plan of Merger"), the Joint Petitioners propose to merge United and VAWC, with VAWC being the surviving entity. Following the proposed merger, VAWC will hold all of the assets of United, and United will cease to exist. VAWC will then be responsible for providing water service to those customers who were served by United. VAWC will continue to be owned by American Water. The Joint Petitioners state that this is a merger of a wholly owned subsidiary into its parent company and, therefore, no consideration will be paid for the assets.

In accordance with the Plan of Merger, all of the outstanding stock of United, which is owned by VAWC, will be cancelled and extinguished upon the effective date of the merger. VAWC's outstanding stock will remain unchanged, and no shares of VAWC common stock will be issued as a result of the proposed merger. The Plan of Merger states that, upon completion of the proposed merger, all of the rights, privileges, powers, and franchises of United will be transferred to VAWC, as well as all restrictions, disabilities, and duties of United. The Plan of Merger further states that all rights of creditors and all liens of property owned by United will be transferred to VAWC and may be enforced against VAWC as if such debts, liabilities, and duties had been incurred or contracted by VAWC.

VAWC currently separates its customers into three districts: Alexandria, Prince William, and Hopewell. Each district operates under its own tariff. The Joint Petitioners state that, after the proposed merger, VAWC will operate the United assets as its own separate district.[3]

The Joint Petitioners represent that the proposed merger is in the public interest and will generate a benefit for their customers. The Joint Petitioners represent that the primary benefit would be the anticipated savings from rate case preparations and presentations, duplication of record keeping, and miscellaneous costs of operating two companies versus one. The Joint Petitioners state that the customers will see no difference in their water service and that there will be no effect on rates as a result of the proposed merger.

United does not currently have an approved depreciation study on file with the Commission. Thus, United is not currently included in the calculation of VAWC's depreciation reserve deficiency, which is a regulatory asset measured on depreciable plant in the Alexandria, Hopewell, and Prince William districts. Since the July 22, 2005, settlement between VAWC and Commission Staff ("Staff") resolving all issues related to the 2003 depreciation study filed by VAWC, this regulatory asset has been subject to an earnings test on a company-wide basis.

---

[1] §§ 56-88 through 56-92 of the Code.

[2] §§ 56-76 through 56-87 of the Code.

[3] Notice was not provided to customers, as the customers believe United and VAWC are one and the same. According to the Joint Petitioners, bills sent to United customers are similar to bills sent to VAWC customers; management of both companies is the same; customers of both companies have used, and will continue to use, the American Water Works Service Company Call Center to obtain service; and VAWC currently operates United under VAWC's name.

NOW THE COMMISSION, upon consideration of the joint petition and representations of the Joint Petitioners and having been advised by its Staff, is of the opinion and finds that an exemption from the filing and prior approval requirements of the Utility Transfers Act and the Affiliates Act is not in the public interest and should be denied. We further find that the proposed merger will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and is in the public interest. Therefore, the proposed merger meets the tests of the Utility Transfers Act and the Affiliates Act and should be approved. However, the merger should not change current requirements for United and VAWC regarding regulatory assets. Until such time as United's depreciable plant and reserve imbalance are analyzed in a future VAWC depreciation study, the earnings test used to measure recovery of this regulatory asset should exclude United and be based only on the operations of the Alexandria, Hopewell, and Prince William districts.

Accordingly, IT IS ORDERED THAT:

(1) The Joint Petitioners' request for an exemption from the filing and prior approval requirements of the Utility Transfers Act and the Affiliates Act is hereby denied.

(2) Pursuant to the Utility Transfers Act and the Affiliates Act, the Joint Petitioners are hereby granted approval of the merger of United with and into VAWC, as described herein.

(3) Within ninety (90) days of completing the merger, subject to administrative extension by the Commission's Director of Public Utility Accounting, the Joint Petitioners shall file a report with the Commission to include the date of the merger and the accounting entries on the books of VAWC reflecting the merger.

(4) The approval granted herein shall have no impact on the accounting and regulatory treatment of any United and VAWC regulatory assets.

(5) The Commission reserves the authority to examine the books and records of VAWC in connection with the approval granted herein.

(6) The approval granted herein does not preclude the Commission from exercising its authority pursuant to §§ 56-78 and 56-80 of the Code hereafter.

(7) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00119
OCTOBER 6, 2010

APPLICATION OF
COMMUNITY ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On September 30, 2010, Community Electric Cooperative ("Community" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $3,550,000 from the National Cooperative Services Corporation ("NCSC"). Community has paid the requisite fee of $250.

Community is seeking authority to borrow $3,550,000 from NCSC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new NCSC debt will be structured as 10 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 10 years. The interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided in its application, Community expects to generate over $836,000 in interest savings as a result of this refinancing.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Community is authorized to incur up to $3,550,000 in debt obligations from the NCSC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from NCSC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00120
OCTOBER 29, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For approval to borrow long-term debt from the U.S. Government and CoBank ACB

ORDER GRANTING AUTHORITY

On October 4, 2010, Rappahannock Electric Cooperative ("Rappahannock" or "Applicant") filed an application with the State Corporation Commission ("Commission") for approval to borrow long-term debt from the United State Government and CoBank, ACB ("CoBank") under Chapter 3 of Title 56 of the Code of Virginia. Applicant has paid the requisite fee of $250.

Applicant seeks authorization to borrow long-term debt up to $198,675,000 from the Federal Financing Bank ("FFB") and guaranteed by the Rural Utilities Service ("RUS"). Applicant also seeks authority to borrow up to $9,886,938 from CoBank. The initial debt issuances under the authority will be used to refinance the bridge financing[1] issued by Rappahannock to finance the acquisition of approximately 50% of the Virginia distribution assets ("Rappahannock Portion") of The Potomac Edison Company d/b/a Allegheny Power ("Potomac ,).[2] Rappahannock anticipates issuing $144,707,000 in 35 year debt to FFB and $9,886,938 of 35 year debt to CoBank in the near future to take advantage of the current low interest rate environment.

Rappahannock also seeks additional debt authority to finance its amended 2009-2012 work plan originally approved by RUS on October 21, 2009. According to the application, Rappahannock seeks $53,987,000 from RUS to support the amended 2009-2012 work plan, including a new $5.5 million Blue Ridge district office. The debt issued to support the amended 2009-2012 work plan will be issued from time to time over the next few years as the work is completed and documented with RUS.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) Rappahannock Electric Cooperative is authorized to borrow up to $198,675,000 from the FFB and guaranteed by RUS, under the terms and conditions and for the purposes stated in its application.

(2) Rappahannock Electric Cooperative is authorized to borrow up to $9,886,938 from CoBank ACB, under the terms and conditions and for the purposes stated in its application.

(3) Rappahannock shall file a preliminary report of action with the Commission's Division of Economics and Finance within thirty (30) days of drawing any funds authorized herein, such report shall include the name of the lender providing the proceeds, date of drawdown, the initial rate period chosen, the initial interest rate, any floating rate index selected, amount of principal remaining available to be borrowed from each lender authorized herein.

(4) Approval of this application shall have no implications for ratemaking purposes.

(5) There appearing nothing further to be done in this matter, it is hereby dismissed.

Con. Cen. No. 100560231, (May 14, 2010).

CASE NO. PUE-2010-00121
OCTOBER 15, 2010

APPLICATION OF
BARC ELECTRIC COOPERATIVE

For authority to incur indebtedness

ORDER GRANTING AUTHORITY

On October 5, 2010, BARC Electric Cooperative ("BARC" or "Cooperative") filed an application with the State Corporation Commission ("Commission") under Chapter 3 of Title 56 of the Code of Virginia for authority to borrow up to $4,215,111 from the National Cooperative Services Corporation ("NCSC"). BARC has paid the requisite fee of $250.

BARC is seeking authority to borrow $4,215,111 from NCSC to retire, prior to maturity, a like amount of debt currently outstanding with the Rural Utilities Services ("RUS"). There are no prepayment penalties associated with the early retirement of the RUS debt. The new NCSC debt will be structured as 14 distinct loans, each with a different maturity and corresponding interest rate. The loans will have a maturity of no more than 15 years. The

interest rates associated with the debt will be fixed over the life of the new debt. According to the analysis provided by the Cooperative, BARC expects to generate over $544,000 in interest savings as a result of this refinancing.

THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) BARC is authorized to incur up to $4,215,111 in debt obligations from the NCSC, under the terms and conditions and for the purposes stated in its application.

(2) Within thirty (30) days of the date of any advance of funds from NCSC, the Cooperative shall file with the Commission's Division of Economics and Finance a report of action, which shall include the amount of the advance, the interest rate, and the interest rate term.

(3) The authority granted herein shall have no implications for ratemaking purposes.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

CASE NO. PUE-2010-00122
NOVEMBER 10, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION

In re: Kentucky Utilities Company d/b/a Old Dominion Power Company's Integrated Resource Plan, 2010 Narrative Summary

FINAL ORDER

On October 5, 2010, Kentucky Utilities Company d/b/a Old Dominion Power Company ("KU/ODP" or "Company") filed with the State Corporation Commission ("Commission") its narrative summary ("Narrative Summary") with attachments regarding updates to its Integrated Resource Plan ("IRP") pursuant to § 56-599 C of the Code of Virginia and the guidelines established by the Commission in Case No. PUE-2008-00099 ("Guidelines").[1] Section E of the Guidelines provides that "by September 1 of each year in which a plan is *not* required, each utility shall file a narrative summary describing any significant event necessitating a major revision to the most recently filed IRP, including adjustments to the type and size of resources identified." KU/ODP's Narrative Summary indicated that the Company had no significant events that necessitate a major revision to the Company's most recent IRP. However, KU/ODP did attach as updates to the Commission, copies of portions of the filing made in the Kentucky Public Service Commission on March 30, 2010, which are related to an Annual Resource Assessment conducted therein. The Company also acknowledged that the Guidelines provide for the filing of the Narrative Summary by September 1, and expressed regret for missing the deadline.

NOW THE COMMISSION, upon consideration of the applicable law and the Guidelines, is of the opinion and finds that, though filed out of time, the Company's Narrative Summary otherwise complies with the Guidelines, and so should be accepted for filing.

Accordingly, IT IS ORDERED THAT the Company's Narrative Summary shall be accepted for filing. With nothing further to come before the Commission, this matter shall be dismissed from the Commission's active docket and the papers filed herein shall be placed in the Commission's file for ended causes.

Comm'n., Concerning Electric Utility Integrated Resource Planning Pursuant to §§ 56-597 et seq., of the Code of Virginia,* Case No. PUE-2008-00099, 2008 S.C.C. Ann. Rept. 606, Order Establishing Guidelines for Developing Integrated Resource Plans (Dec. 23, 2008).

CASE NO. PUE-2010-00127
DECEMBER 3, 2010

PETITION OF
CLEVENGERS VILLAGE UTILITY, INC.

For authority to transfer assets pursuant to the Utility Transfers Act and to cancel its certificates of public convenience and necessity

ORDER GRANTING AUTHORITY

On October 20, 2010, Clevengers Village Utility, Inc. ("CVUI" or "Petitioner"), filed a petition with the State Corporation Commission ("Commission") pursuant to Chapter 5 of Title 56 of the Code of Virginia requesting approval of the transfer of a utility assets and to cancel CVUI's certificates of public convenience and necessity. CVUI and Culpeper County ("County") have agreed to transfer the utility assets ("South Wales Assets") that provide water and wastewater service to the residences of the South Wales subdivision located in Culpeper County, Virginia, from CVUI to the County. The County will not pay any consideration for the utility assets.

CVUI is a Virginia public service corporation and owner of the South Wales Assets used to provide water and wastewater service to the approximately 340 residences in the South Wales subdivision pursuant to its certificates of public convenience and necessity ("CPCN") Nos. W-318 and

S-92. CVUI is a wholly owned subsidiary of Centex Homes. Centex Homes is a leading national home building company and is owned by PulteGroup, Inc., a publicly traded company listed on the New York Stock Exchange. The County operates as a public service authority and provides water and wastewater service to customers in Culpeper County, Virginia.

In 2006, the South Wales Assets were transferred from South Wales Utility, Inc., and South Wales, L.P., to CVUI pursuant to the Commission's Final Order dated June 20, 2006, in Case No. PUE-2006-00016.[1] The transfer of the South Wales Assets to CVUI was the first step of a two-step process to transfer the South Wales Assets to Culpeper County.

The original South Wales subdivision was comprised of approximately 2,500 acres located near the intersection of Routes 229 and 211 in Culpeper County. This property straddles Route 229 and was platted as a subdivision in the early 1960s. Since the late 1980s, approximately 340 residences were built on the part of the subdivision west of Route 229, which is still known as South Wales. East of Route 229, the only development has been a golf course, a golf shop, and a single residence. This eastern part of the original subdivision was rezoned by Culpeper County for residential and commercial development and is now known as Clevengers Village. The County also amended its comprehensive plan to create an area called "Clevengers Corner Village Center," which includes Clevengers Village, the existing South Wales subdivision, and several other subdivisions adjacent to the intersection of Routes 229 and 211.

To obtain rezoning approval, the owners of the undeveloped property committed themselves to certain proffers, including financing the construction of, among other improvements, a new wastewater treatment plant and new drinking water systems ("New System") with capacity to serve the Clevengers Corner Village Center. These financial obligations were assumed by Centex Homes in connection with its acquisition of the subdivision's undeveloped property. After the New System was completed, the South Wales Assets were to be transferred to the County within sixty (60) days of the County's request, subject to Commission approval. The County requested the South Wales Assets be transferred to it by a letter to CVUI dated September 1, 2010.

Following the proposed transfer to the County, the South Wales Assets will be connected to the New System. The Petitioner represents that the customers served by the South Wales Assets will pay the County's current utility rates. CVUI is currently charging its customers the same rates that were established in 1988. Under the County's rate system, the average South Wales customer will see an increase of approximately nine percent. Existing customers will not be charged a connection fee when the South Wales Assets are connected to the New System.

The Petitioner states that the State Water Control Board permit for the New System's wastewater treatment plant imposes very strict limits and that its discharge is not allowed to have any significant effect on the Rappahannock River. The Rappahannock River is a state-designated Scenic River and is quite small at this location, which results in strict discharge requirements. The South Wales Assets' wastewater plant, which was installed around 1960, only has the capacity to serve the current 340 residences and is unable to meet the new effluent discharge limits. Further, the South Wales Assets' wastewater plant has experienced occasional permit violations and was subject to several State Water Control Board compliance orders. The Petitioner states that the South Wales Assets' wastewater plant would need to be replaced regardless of whether the assets are transferred to the County.

The Petitioner represents that South Wales customers would likely see a significant increase in rates if CVUI were to continue owning the assets. CVUI would need to install a similar wastewater system comparable to the New System's wastewater plant. The Petitioner states that this would require the existing 340 customers to bear rates that would cover operating costs and the cost of borrowing the capital to build the wastewater treatment plant as well as a reasonable rate of return for the owners.

Customers received notice of the proposed transfer by a letter from CVUI dated October 5, 2010. Further, customers were notified of the plan to transfer the South Wales Assets to the County in the PUE-2006-00016 case. No comments were filed in either case.

NOW THE COMMISSION, upon consideration of the petition and representations of the Petitioner and having been advised by its Staff, is of the opinion and finds that the proposed transfer will neither impair nor jeopardize the provision of adequate service to the public at just and reasonable rates and, therefore, should be approved. The Commission further finds that, upon transferring the assets to the County, CVUI's CPCNs should be cancelled.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to §§ 56-89 and 56-90 of the Code, the Petitioner is hereby granted approval of the transfer of the South Wales Assets to Culpeper County, as described herein.

(2) CVUI's Certificate Nos. W-318 and S-92 shall be cancelled upon transferring the assets to Culpeper County.

(3) Within ninety (90) days of completing the transfer, the Petitioner shall file a report with the Commission to include the date of the transfer, the actual transfer price, and the actual accounting entries on CVUI's books reflecting the transfer.

(4) There appearing nothing further to be done in this matter, it hereby is dismissed.

---

[1] *Petition of South Wales Utility, Inc., South Wales L.P., and Clevengers Village Utility, Inc., For authority to transfer utility assets and certificates of public convenience and necessity pursuant to the Utility Transfers Act and Utility Facilities Act and for authority to serve the area certificated to South Wales Utility, Inc., in Culpeper County*, Case No. PUE-2006-00016, 2006 S.C.C. Ann Rept. 390, Final Order (June 20, 2006).

CASE NO. PUE-2010-00128
OCTOBER 29, 2010

JOINT APPLICATION OF
ATMOS ENERGY CORPORATION
and
ATMOS ENERGY MARKETING, LLC

For authority to enter into a Gas Purchase Agreement pursuant to The Affiliates Act, Va. Code § 56-76 *et seq.*

ORDER ON MOTION FOR INTERIM AUTHORITY

On October 25, 2010, Atmos Energy Corporation ("Atmos") and Atmos Energy Marketing, LLC ("AEM") (collectively, the "Applicants"), filed a Joint Application with the State Corporation Commission ("Commission") seeking authority under Chapter 4 of Title 56 of the Code of Virginia ("Affiliates Act")[1] to enter into transaction confirmations under the Base Contract for Purchase and Sale of Natural Gas effective November 1, 2010 ("Gas Purchase Agreement"), described in their Joint Application. Additionally, the Applicants request interim authority to extend the applicability of the terms and conditions of the affiliate gas purchase arrangement approved in Case No. PUE-2006-00092[2] or, in the alternative, interim authority to proceed under the terms more favorable to Atmos in the Gas Purchase Agreement, until the Commission makes its decision regarding the Gas Purchase Agreement.

Currently, Atmos purchases firm gas supply (12,272 dekatherms per day) at an index price of NYMEX Henry Hub plus twelve cents per dekatherm. through an affiliate gas purchase agreement between Atmos and AEM approved by the Commission in Case No. PUE-2006-00092. Such gas is delivered to Atmos at a delivery point in Dickenson County, Virginia, commonly known as the NORA Point ("NORA"). This agreement expires October 31, 2010.

In order to provide for NORA supply going forward, on August 31, 2010, Atmos issued a request for proposals ("RFP") for competitive bids on its website for the NORA-delivered supply service. A total of 56 potential suppliers viewed the RFP; however, only one bid was submitted on September 30, 2010, and it was submitted by Atmos' affiliate, AEM.[3] Atmos and AEM request authority to enter into a new Gas Purchase Agreement for NORA supply. The Gas Purchase Agreement is in the form of a transaction confirmation, which will be an addendum to the North American Energy Standards Board 2003 Base Contract for Sale and Purchase of Natural Gas between Atmos and AEM ("2003 Base Contract"). The 2003 Base Contract was approved by the Commission in Case No. PUE-2006-00092.

The Applicants request that the Gas Purchase Agreement be authorized to go into effect as soon as possible upon the October 31, 2010 termination of the previous arrangement and that, in the interim between termination of the previous arrangement and approval of the Gas Purchase Agreement, the Commission permit the Applicants to extend the terms of the arrangement approved in Case No. PUE-2006-00092 to ensure that Atmos has an uninterrupted supply of gas from the NORA Point.

NOW THE COMMISSION, being sufficiently advised, is of the opinion and finds that the Motion for Interim Authority should be granted.

Accordingly, IT IS ORDERED THAT:

(1) The Applicants' October 25, 2010 Motion for Interim Authority is hereby granted. Atmos and AEM shall continue to abide by the terms of the arrangement approved in Case No. PUE-2006-00092 until further order of the Commission.

(2) This matter is continued.

---

[1] § 56-76 *et seq*.

[2] *Joint Application of Atmos Energy Corporation and Atmos Energy Marketing, LLC, For authority to enter into transaction confirmations under a Base Contract for Purchase and Sale of Natural Gas under Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2006-00092, 2006 S.C.C. Ann. Rept. 479, Order Granting Authority (Nov. 13,2006).

[3] AEM previously indicated to Atmos that it was unlikely to be the supplier at the NORA delivery point after the expiration of the existing arrangement on October 31, 2010, because it had not obtained the discounts from EQT Corporation ("Equitable") as in the past. After receiving only one bid, Atmos followed up with other potential suppliers who had viewed the RFP and was informed that Equitable's failure to bid was the result of an oversight, and a second potential supplier's current obligation to serve another customer precluded its participation in the Atmos RFP bidding process. Had any non-affiliate of Atmos won the bid, Commission approval would not be necessary.

CASE NO. PUE-2010-00128
DECEMBER 21, 2010

JOINT APPLICATION OF
ATMOS ENERGY CORPORATION
and
ATMOS ENERGY MARKETING, LLC

For authority to enter into a Gas Purchase Agreement pursuant to the Affiliates Act, Va. Code § 56-76 *et seq*.

ORDER GRANTING AUTHORITY

On October 25, 2010, Atmos Energy Corporation ("Atmos") and Atmos Energy Marketing, LLC ("AEM") (collectively, "Applicants"), filed a Joint Application ("Application") with the State Corporation Commission ("Commission") seeking authority under Chapter 4 of Title 56 ("Affiliates Act") of the Code of Virginia ("Code") for Atmos and AEM to enter into a Gas Purchase Agreement consisting of: (1) a transaction confirmation dated October 20, 2010 ("2010 Confirmation"); and (2) a North American Energy Standards Board Base Contract for Purchase and Sale of Natural Gas dated March 31, 2003 ("2003 Base Contract").[1] The proposed 2010 Confirmation will replace an Atmos-AEM transaction confirmation ("2006 Confirmation") previously approved by the Commission in Case No. PUE-2006-00092.[2] The 2003 Base Contract is the same base contract previously approved in the PUE-2006-00092 Order.

On the same day, the Applicants also filed a Motion for Protective Ruling ("Motion for Protective Ruling") pursuant to Rules 10 and 170 of the Commission's Rules of Practice and Procedure, 5 VAC 5-20-10 *et seq*. regarding confidential information included in the Application and provided to the Commission Staff ("Staff") during its review process.

The Application was filed only six (6) days before the Applicants' authority to operate under the previous agreements expired. Therefore, the Application also included a request for interim authority ("Request for Interim Authority") for Atmos and AEM to continue operating under the terms and conditions of the 2006 Confirmation and 2003 Base Contract or, in the alternative, to operate under the terms and conditions of the 2010 Confirmation and 2003 Base Contract, whichever is more favorable to Atmos, until the Commission issues an order in the instant Application. On October 29, 2010, the Commission issued an Order on Motion for Interim Authority ("October 29, 2010 Interim Order"), which granted the Request for Interim Authority.

On October 29, 2010, the Applicants filed a Motion to Amend Joint Application ("Motion to Amend"). In the Motion to Amend, the Applicants stated that they inadvertently included a different base contract ("2008 Base Contract") in the Application than the one for which they are seeking approval (the 2003 Base Contract). Therefore, the Applicants requested permission to replace Exhibit 3 of the Application, the 2008 Base Contract, with Attachment 1 of the Motion to Amend, the 2003 Base Contract.

Atmos,[3] which is headquartered in Dallas, Texas, is one of the largest natural gas distribution companies in the United States. Atmos's operations include six (6) regulated natural gas distribution business units and a regulated natural gas pipeline business unit that provide service to approximately 3.2 million residential, commercial, industrial, and public authority customers in the following twelve (12) states: Colorado, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Tennessee, Texas, and Virginia. In Virginia, Atmos provides natural gas distribution service to approximately 23,180 customers located in Abingdon, Blacksburg, Bristol, Marion, Pulaski, Radford, Wytheville, and their environs. Through non-regulated affiliates, Atmos provides natural gas management and marketing services to municipalities, other local gas distribution companies, and industrial customers located primarily in the Midwest and Southeast as well as natural gas transportation and storage services to certain of its regulated divisions and to third parties. For the fiscal year ending September 30, 2009, Atmos reported consolidated revenues of $4.97 billion and net income of $190 million. Its market capitalization is approximately $2.61 billion.

AEM,[4] which is headquartered in Houston, Texas, provides a variety of natural gas management services to municipalities, natural gas utility systems, and industrial natural gas consumers located primarily in the Southeastern and Midwestern states, and to Atmos' Kentucky/Mid-States, Louisiana, and Mississippi regulated utility business units. AEM aggregates and purchases gas supplies, arranges transportation and storage logistics and ultimately delivers gas to customers at competitive prices. To facilitate this process, AEM utilizes proprietary and customer-owned transportation and storage assets to provide various services their customers request, including furnishing natural gas supplies at fixed and market-based prices, contract negotiation and administration, load forecasting, gas storage acquisition and management services, transportation services, peaking sales and balancing services, capacity utilization strategies and gas price hedging through the use of financial instruments. AEM is a wholly owned subsidiary of Atmos Energy Holdings, Inc., which is a wholly owned subsidiary of Atmos.

Atmos and AEM are considered affiliated interests under § 56-76 of the Code. As such, Atmos is required to obtain prior approval from the Commission pursuant to the Affiliates Act for any agreement or arrangement between the companies for the provision of services, the exchange of property, rights, or things, or the purchase or sale of treasury bonds or stock.

---

[1] On November 3, 2010, the Applicants filed a letter with the Commission to clarify that the intent of the Application is to obtain authority to operate under both the 2010 Confirmation and the 2003 Base Contract.

[2] *Joint Application of Atmos Energy Corporation and Atmos Energy Marketing, LLC, For authority to enter into transaction confirmations under a Base Contract for Purchase and Sale of Natural Gas under Chapter 4 of Title 56 of the Code of Virginia*, Case No. PUE-2006-00092, 2006 S.C.C. Ann. Rept. 479, Order Granting Authority (November 13, 2006) (hereafter "PUE-2006-00092 Order").

[3] Atmos is not a holding company. Atmos itself holds the certificate of public convenience and necessity to provide natural gas distribution service to customers in Southwest Virginia.

[4] AEM was formerly known as Woodward Marketing, LLC ("Woodward"). In October 2003, Woodward merged with Trans Louisiana Gas Company and was renamed Atmos Energy Marketing, LLC.

The purpose of the proposed 2010 Confirmation and 2003 Base Contract is to create a formal arrangement whereby Atmos can purchase from AEM a firm base load supply of natural gas through the NORA delivery point ("NORA") located in Dickenson County, Virginia. Atmos and its predecessors-in-interest have purchased gas through NORA since 1993.

NORA is a gathering point for natural gas produced in the Appalachian Basin and delivered into the East Tennessee Natural Gas ("ETNG") pipeline in Southwest Virginia. NORA is controlled by EQT Corporation ("EQT"), previously known as Equitable Resources, which controls approximately 2.1 trillion cubic feet of proven natural gas reserves in the Appalachian Basin.[5] Most natural gas sales through NORA are made by EQT's energy marketing subsidiary or by another marketer, such as AEM, reselling EQT supply. As a result of NORA's proximity to the Atlantic Seaboard, NORA marketers avoid the long-haul costs of transporting gas from the Gulf Coast production region to eastern U.S. metropolitan areas. Therefore, EQT and other NORA marketers are able to charge higher commodity prices while remaining cost-competitive with Gulf Coast gas suppliers.

The Applicants represent that utilizing NORA provides Atmos with a reliable supply of nearby base load gas at a cost-effective price. Without the NORA gas, Atmos would be required to source and purchase 16,567 Dth/day of natural gas from the Gulf Coast region, acquire incremental pipeline capacity, and pay long-haul transport costs. Atmos performed several cost/benefit analyses to compare the cost of purchasing NORA gas from AEM with the cost of purchasing and transporting by itself Gulf Coast gas through several interstate pipelines, including SONAT, Transco, and TGP. Based on Atmos' analyses, the gas obtained from NORA under the proposed agreements will be less expensive than gas purchased and transported from the Gulf Coast.

Atmos represents that it issued a request for proposal ("RFP") for competitive bids on the NORA delivered gas supply service. Atmos posted the RFP on its RFP website, notified 271 potential suppliers of the RFP via electronic mail, and advertised the RFP in the Platts Gas Daily industry publication on three separate dates over the thirty (30)-day open bidding period. Fifty-six (56) potential suppliers reviewed the RFP. AEM submitted the sole bid on September 30, 2010, the last day of the bidding period. Atmos subsequently asked potential suppliers about the lack of bidding on the RFP. EQT stated that its failure to bid was an oversight on its part. Another potential supplier stated that an existing obligation to serve another customer precluded its participation in Atmos' RFP.

NOW THE COMMISSION, upon consideration of the Application and representations of the Applicant and having been advised by its Staff, is of the opinion and makes the following findings. First, the Motion to Amend replaces an incorrect agreement (the 2008 Base Contract) with the correct agreement (the 2003 Base Contract) for consideration. Therefore, we will grant the Motion to Amend. Second, we note that the instant Application involved no third party interveners, and any information received pursuant to the Application that is marked as confidential already receives confidential treatment. Therefore, we find that the Motion for Protective Ruling is unnecessary and should be denied.

Third, we believe that the proposed 2010 Confirmation and 2003 Base Contract should provide Atmos with reliable firm base load gas. Atmos has provided documentation showing that it made a good faith effort to bid competitively the proposed agreements, which are priced similarly to previously approved agreements. Atmos' cost/benefit analyses indicate that gas obtained from the NORA delivery point is less costly for Virginia ratepayers than gas purchased and transported from the Gulf Coast. Therefore, we find that the 2010 Confirmation and the 2003 Base Contract are in the public interest and should be approved subject to the requirements set forth below.

First, we will limit the duration of the authority granted in this case to the term of the proposed 2010 Confirmation, which expires March 31, 2014. If Atmos wishes to continue this arrangement after that date, further Commission approval will be required.

Second, we note that Atmos has a history of filing untimely applications in Affiliates Act matters. In the current case, Atmos and AEM had to seek interim authority to operate under the prior or the new agreements, whichever is more favorable to Atmos, because they filed only six (6) days before the prior agreements expired. Therefore, we will direct the Applicants to file for any future renewal of the NORA arrangement by no later than ninety (90) days before the expiration of the Affiliates Act authority granted in this case, or December 31, 2013.

Third, we will require Commission approval for any prospective changes in the terms and conditions of the 2010 Confirmation or 2003 Base Contract, including any changes in allocation methodologies affecting Atmos and successors or assignees.

Fourth, the authority granted herein will have no ratemaking implications. Specifically, the approval granted in this case will not guarantee the recovery of any costs directly or indirectly related to the 2010 Confirmation or 2003 Base Contract.

Fifth, we will direct Atmos to maintain records demonstrating that the gas supply obtained from NORA is cost-beneficial to Virginia ratepayers and cannot be obtained more economically from alternative sources. Such records should be available for the Commission Staff to review upon request.

Accordingly, IT IS ORDERED THAT:

(1) The Applicants' Motion to Amend is granted. The Applicants' Motion for Protective Ruling is denied; however, we direct the Clerk of the Commission to retain the confidential information, to which the Motion for Protective Ruling pertains, under seal.

(2) Pursuant to § 56-77 of the Code, Atmos Energy Corporation and Atmos Energy Marketing, LLC, are hereby granted authority to enter into the 2010 Confirmation and 2003 Base Contract consistent with the findings set out above and as described herein.

(3) Concurrent with the authority granted above, the Applicants' interim authority to operate under the 2006 Confirmation, which was granted in the October 29, 2010 Interim Order, is hereby terminated.

[5] In 2006, Duke Energy Corporation, the previous owner of ETNG, confirmed to Atmos that EQT owned all of the natural gas supply lines that feed into the ETNG system at NORA, which allows EQT to determine the producers who are allowed to bring gas through EQT's gathering system into ETNG. The Applicants believe that competition at NORA could occur if another producer were to construct a nearby supply line into ETNG. However, no such project is currently contemplated.

(4) The authority granted herein shall extend through March 31, 2014, the expiration date of the 2010 Confirmation. Should Atmos wish to continue the NORA arrangement with AEM beyond that date, further Commission approval shall be required. If the Applicants wish to avoid a break in service under the NORA arrangement, the prospective filing shall be made no later than ninety (90) days before the expiration of the Affiliates Act authority granted in this case, or December 31, 2013.

(5) Commission approval shall be required for any changes in the terms and conditions of the 2010 Confirmation or 2003 Base Contract, including changes in any allocation methodologies affecting Atmos and successors or assignees.

(6) The authority granted in this case shall have no ratemaking implications. Specifically, the authority granted in this case shall not guarantee the recovery of any costs directly or indirectly related to the 2010 Confirmation or 2003 Base Contract.

(7) Atmos shall maintain records demonstrating that the gas supply obtained from NORA under the 2010 Confirmation and 2003 Base Contract continues to be cost-beneficial to Virginia ratepayers and cannot be obtained more economically from alternative sources. Such records shall be available for Commission Staff to review upon request.

(8) The authority granted herein shall not preclude the Commission from exercising its authority pursuant to the provisions of §§ 56-78 and 56-80 of the Code hereafter.

(9) The Commission reserves the right to examine the books and records of any affiliate in connection with the authority granted herein whether or not such affiliate is regulated by this Commission.

(10) Atmos shall include the transactions associated with the 2010 Confirmation and 2003 Base Contract authorized in this case in its Annual Report of Affiliate Transactions ("ARAT") submitted to the Director of the Commission's Division of Public Utility Accounting ("PUA Director") on April 1 of each year, subject to administrative extension by the PUA Director.

(11) In the event that Atmos' annual informational filings or expedited or general rate case filings are not based on a calendar year, then Atmos shall include the affiliate information contained in its ARAT for the test year in such filings.

(12) There appearing nothing further to be done, this case shall be dismissed from the Commission's docket of active cases, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. PUE-2010-00129
NOVEMBER 16, 2010

APPLICATION OF
SOUTHWESTERN VIRGINIA GAS COMPANY

For an Annual Informational Filing for the Test Period Ending June 30, 2010

ORDER GRANTING WAIVER

On October 26, 2010, Southwestern Virginia Gas Company ("Southwestern" or the "Company") delivered its Annual Informational Filing ("AIF") for the twelve (12) months ending June 30, 2010, to the State Corporation Commission ("Commission"), together with a Request for Waivers ("Request") of certain information required by the Commission's Rules Governing Utility Rate Applications and Annual Informational Filings, 20 VAC-5-201-10 through -110 ("Rate Case Rules"). In its Request, Southwestern, by counsel, seeks a waiver pursuant to 20 VAC-5-201-10 E of the Rate Case Rules for reporting information for Southwestern Virginia Energy Industries, Ltd. (the "Parent"), and consolidated information for the Parent and the Company as required in the Rate Case Rule Schedules 1, 2, 6, and 7, as well as a waiver of the Rate Case Rules applicable to AIFs that require the Company to prepare and submit a jurisdictional cost of service study as a part of Schedule 40 of the Rate Case Rules. In support of its Request with regard to Schedules 1, 2, 6, and 7, Southwestern represents that its Parent: (i) has historically never contributed to the raising of capital for the Company; (ii) historically has never assisted the Company in raising capital by guaranteeing debt or in any other manner securing the Company's obligations; (iii) is a closely held corporation and not traded publicly; and (iv) does not have financial statements prepared for public distribution.[1]

With regard to the request to waive the requirement of Rate Case Rule Schedule 40 to prepare a jurisdictional cost of service study, Southwestern represented that it serves very few governmental non-jurisdictional customers and that these non-jurisdictional customers - government offices and schools - represent a very small portion of the Company's customers and gas throughput.[2] According to Southwestern, these non-jurisdictional customers pay for service on the basis of Commission-approved rates.[3] Additionally, the Company contends that these customers have no impact on the per-customer cost of service and that there is no economic justification to expend the money, time, and effort to create a non-jurisdictional cost of service study.[4]

On November 3, 2010, the Commission Staff ("Staff") responded to the Company's Request.[5] In its Response, the Staff advised that it did not oppose Southwestern's Request for the purposes of the captioned AIF but reserved the right to require the filing of all of the Rate Case Rule Schedules, if

[1] Request at 2.

[2] *Id.*

[3] *Id.*

[4] *Id.*

[5] *See* November 3, 2010 "Response of the Staff of the State Corporation Commission" ("Response").

necessary, in future AIFs and rate proceedings filed by Southwestern and further reserved its right to request that the Company provide additional or supplemental information as the Staff investigates the current AIF.[6]

NOW THE COMMISSION, upon consideration of the Request and the Staff's Response thereto, is of the opinion and finds that the captioned AIF and Request should be docketed; that Southwestern's Request regarding its Parent and the consolidated information of the Parent and the Company otherwise required in Rate Case Rule Schedules 1, 2, 6, and 7, as well as the requested waiver regarding the preparation and submission of a jurisdictional cost of service study are reasonable and should be granted;[7] and that the Staff should review Southwestern's AIF for the test period ending June 30, 2010, and shall file with the Clerk of the Commission a report on its findings. Moreover, we encourage the Company and the Staff to work together cooperatively in the event that the Staff requests the Company to provide additional information or to supplement the information already provided by Southwestern in the present AIF.

Accordingly, IT IS ORDERED THAT:

(1) The captioned application for the test period ending June 30, 2010, shall be docketed and assigned Case No. PUE-2010-00129.

(2) Consistent with the findings herein and as provided by 20 VAC-5-201-10 E of the Rate Case Rules, Southwestern is granted a waiver of the requirement to report information for Southwestern Virginia Energy Industries, Ltd., its Parent, or consolidated information for the Parent and the Company as would otherwise be required in the Rate Case Rule Schedules 1, 2, 6, and 7, as part of its AIF for the twelve (12) months ending June 30, 2010.

(3) Consistent with the findings herein and as provided by 20 VAC-5-201-10 E of the Rate Case Rules, the Company's requested waiver of the Rate Case Rules requiring the preparation and submission of a jurisdictional cost of service study as required by Rate Case Rule Schedule 40 is hereby granted.

(4) The Commission Staff shall review Southwestern's AIF for the test period ending June 30, 2010, and shall file with the Clerk of the Commission a report on its findings.

(5) This case is continued pending further order of the Commission.

[6] Response at 3.

[7] The waivers granted herein are limited to the unique circumstances identified by Southwestern for this AIF, and this Order should not be cited in support of other waiver requests by Southwestern or other public utilities subject to the Commission's jurisdiction.

CASE NO. PUE-2010-00130
OCTOBER 29, 2010

APPLICATION OF
BROOKFIELD WATER COMPANY, INC.

For an increase in rates and fees

PRELIMINARY ORDER

On or about August 25, 2010, Brookfield Water Company, Inc. ("Brookfield" or "Company"), pursuant to the Small Water or Sewer Public Utility Act (§§ 56-265.13:l *et seq*. of the Code of Virginia ("Code")), notified its customers and the State Corporation Commission's Division of Energy Regulation ("Division") of its intent to increase rates and fees effective for service rendered on and after November 1, 2010. The Company also requested to change from a bi-monthly billing cycle to a monthly billing cycle.

On October 26, 2010, the Division received a petition signed by 91 of Brookfield's 118 customers opposing the proposed rate increase. The petition requested that the State Corporation Commission ("Commission") fully review the proposed rate increase. The number of customers objecting to the proposed rate increase represents approximately 77% of the Company's total customers.

NOW THE COMMISSION, having considered the matter, is of the opinion that, pursuant to § 56-265.13:6 of the Code, a hearing should be scheduled on the Company's proposed rate increase, that the proposed rates should be suspended for a period of sixty (60) days, and that the proposed rates should thereafter be made interim, subject to refund with interest, until such time as the Commission renders its final decision in this proceeding.

Section 56-265.13:6 C of the Code, in part, provides:

> If the change in rates, fees, and charges results in an increase of 50 percent or greater of the small water or sewer utility's annual revenues . . . and, if a hearing is ordered, the Commission shall expedite the hearing on the change in rates, fees, and charges. The Commission shall also direct that the funds produced by the increase in rates, fees, and charges shall be held in escrow by the small water or sewer utility until the Commission has rendered its decision, at which time the funds held in escrow shall either be released to the small water or sewer utility or refunded to its customers. The Commission may, however, allow the funds held in escrow to be used as necessary to comply with environmental or health laws or regulations or to allow the small water or sewer utility to provide adequate service to its customers.

The provisions of § 56-265.13:6 C of the Code are mandatory; that is, the Commission is required by this statute to direct the funds to be held in escrow when a threshold of 50% or more increase in annual revenue is met or exceeded. We find that we have insufficient information at this time to

determine whether or not this threshold has been met; therefore, we will direct the Company to produce sufficient evidence to show the percent increase in annual revenue that is expected to result from the proposed rates. We will also direct the Company to produce certain other financial documents as described below. If the information produced by the Company establishes that there will be an increase of 50% or more in the Company's annual revenue, we will issue an order making any appropriate revisions to this Preliminary Order and any other orders issued in this proceeding, as necessary, and taking any further action that we deem appropriate.

Accordingly, IT IS ORDERED THAT:

(1) This matter shall be docketed and assigned Case No. PUE-2010-00130.

(2) Pursuant to § 56-265.13:6 of the Code, the Company's proposed rates are hereby suspended for a period of sixty (60) days, or until December 31, 2010, and thereafter made interim, subject to refund with interest until such time as the Commission has made a final decision in this proceeding.

(3) On or before November 19, 2010, the Company shall file sufficient evidence to show the percent increase in annual revenues that is expected to result from the proposed rates.

(4) On or before November 19, 2010, the Company shall file financial information with the Commission. Such information, based on the Company's proposed test year, shall include, at a minimum, an income statement; balance sheet; customer consumption by month; cash flow statement; the Company's most recent federal income tax return; and a rate of return statement, with work papers supporting all proposed adjustments to book amounts, which support the Company's proposed rate increase as required by the Commission's Rules Implementing the Small Water or Sewer Public Utility Act (20 VAC 5-200-40 *et seq.*).

(5) This matter shall be continued subject to further order of the Commission.

CASE NO. PUE-2010-00131
NOVEMBER 24, 2010

APPLICATION OF
NORTHERN VIRGINIA ELECTRIC COOPERATIVE

For approval for customers to participate in demand response programs

ORDER GRANTING CONDITIONAL APPROVAL

On October 26, 2010, Northern Virginia Electric Cooperative ("NOVEC"), by counsel, filed with the State Corporation Commission ("Commission") an application ("Application") for approval for its customers to participate in demand response programs ("DSR Programs") that NOVEC indicates are offered by PJM Interconnection ("PJM"), and in support thereof stated as follows:

(1) Certain of NOVEC's customers either currently participate or are eligible to participate in PJM's DSR Programs (the "Customers"). The Customers that currently participate are listed on Attachment 1 to NOVEC's Application.

(2) On October 17, 2008, the Federal Energy Regulatory Commission ("FERC") issued a Final Rule that, among other things, directed Regional Transmission Operators ("RTOs") and Independent System Operators ("ISOs") to revise their market rules as necessary to permit an aggregator of retail customers to bid demand response on behalf of those customers into the organized markets of the RTOs and ISOs ("Order 719").

(3) On July 16, 2009, FERC issued an Order on Rehearing regarding certain provisions of Order 719 ("Order 719-A") that directed RTOs and ISOs to amend their market rules as necessary to accept bids from aggregators of customers of utilities that distributed 4 million MWh or less in the previous fiscal year, such as NOVEC, "where the relevant electric retail regulatory authority permits such customers' demand response to be bid into organized markets" by aggregators.[1]

(4) Order 719 defined a "relevant electric retail regulatory authority" ("RERRA") as the "entity that establishes the retail electric prices and any retail competition policies for customers, such as the city council for a municipal authority, the governing board of a cooperative utility, or the state public utility commission."[2]

(5) On February 10, 2009, in FERC Docket RM07-19-001, PJM proposed, among other items, revisions to its Open Access tariff related to the DSR Programs. For PJM's Economic Load Response Program ("ELRP"), PJM notified its market participants that ELRP registrations for end-use sites served by Small Electric Distribution Companies ("EDCs"), such as NOVEC, would be terminated on December 4, 2009 (later extended until December 18, 2009) unless evidence of the applicable RERRA's permission or conditioned permission to participate was supplied to PJM by the EDC or load serving entity ("LSE").[3] Appropriate evidence of approval includes an order, resolution or ordinance of the RERRA or an opinion of the state attorney general on behalf of the RERRA verifying the existence of such order, resolution, or ordinance.

[1] Order 719-A at ¶ 51.

[2] Order 719 at ¶ 154.

[3] PJM Interconnection, L.L.C.; Third Revised Rate Schedule FERC No. 24, First Revised Original Sheet No. 74A.01, Superseding Original Sheet No. 74A.01; Section 1.5A.3.01 Economic Load Response Registrations in Effect as of August 28, 2009.

(6) For PJM's Interruptible Load for Reliability Program ("ILRP"), PJM's new rules require participants to submit completed registration forms ten (10) business days prior to the applicable ILRP certification deadline. The EDC and LSE have ten (10) business days to respond.[4] The deadline for the 2011/2012 ILRP certification is April 1, 2011. Once admitted to the ILRP, a Customer cannot withdraw within that program year.

(7) On December 3, 2009, NOVEC's Board of Directors ("Board") adopted a resolution that, according to NOVEC, allowed qualified NOVEC Customers to continue to participate in the DSR Programs (the "Resolution"). On December 8, 2009, NOVEC provided the Resolution to PJM. In response to a PJM inquiry, NOVEC stated that NOVEC's Board is "the governing board of a cooperative utility" and "establishes prices and policies for competition."[5] Correspondence attached to NOVEC's Application indicates that on December 8, 2009, PJM accepted NOVEC's representation that "NOVEC is in fact the RERRA that has jurisdiction over and establishes prices and policies for competition for its member providers of retail electric service to end-customers."[6]

(8) On February 17, 2010, several Virginia electric cooperatives applied collectively to the Commission for conditional approval of their customers' participation in the DSR Programs. On February 26, 2010, the Commission issued an Order granting conditional approval to the participation of those cooperatives' customers in the ELRP and ILRP and instructing the cooperatives to provide a copy of the Order to PJM as proof of the requisite RERRA approval.[7]

(9) In light of the Commission's February 26, 2010 Order granting conditional approval for customers of Virginia electric cooperatives to participate in the DSR Programs, and in the interest of regulatory consistency, NOVEC requested that the Commission, as a RERRA, grant authority to the Customers to participate in the DSR Programs in the coming program year, 2011/2012.

(10) The Commission's approval, if granted, will preserve the status quo by enabling the Customers to continue providing this valuable capacity resource to the PJM system and to NOVEC. For example, seven of NOVEC's Customers participated in the load management event called by PJM for the Dominion Zone on July 7, 2010, in the midst of the summer's intense heat wave.

NOW THE COMMISSION, having considered the Application, hereby dockets this matter as Case No. PUE-2010-00131 and grants approval of the Application, subject to the conditions discussed below.

Consistent with prior rulings of the Commission,[8] we hereby grant permission for NOVEC's Customers who are specifically identified on Attachment 1 to participate in the DSR Programs, as indicated by Attachment 1, on the condition that such participation be limited and subject to the terms and conditions of any further action of the Commission. As requested by NOVEC, we further grant permission for NOVEC's Customers who are not included on Attachment 1 to participate in the DSR Programs.[9] This approval is similarly granted on the condition that such participation be limited and subject to the terms and conditions of any further action of the Commission.

Accordingly, IT IS ORDERED THAT:

(1) This matter is docketed as Case No. PUE-2010-00131.

(2) The Commission grants NOVEC's Customers conditional permission to participate in the DSR Programs, limited by and subject to any future action of the Commission.

(3) NOVEC shall provide a copy of this Order to PJM and to each Customer identified in Attachment 1.

---

[4] PJM Interconnection, L.L.C.; Third Revised Rate Schedule FERC No. 24, First Revised Original Sheet No. 146.02, Superseding Original Sheet No. 146.02; Registration.

[5] Application at 3.

[6] E-mail from Patrick Toulme, Vice President and Counsel, NOVEC, to Jeanine Schleiden, Counsel, PJM interconnection, L.L.C. (Dec. 8, 2009). PJM's acceptance is noted in an e-mail from Jeanine Schleiden to Patrick Toulme (Dec. 8, 2009). A copy of these e-mails is Attachment 3 to the Application.

[7] *See Application of A&N Electric Cooperative, BARC Electric Cooperative, Central Virginia Electric Cooperative, Mecklenburg Electric Cooperative, Northern Neck Electric Cooperative, Prince George Electric Cooperative, Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and Southside Electric Cooperative, For conditional approval for certain identified customers to participate in the PJM Interconnection Interruptible Load for Reliability Program and Economic Load Response Program*, Case No. PUE-2010-00014, Order, Doc. Con. Cen. No. 100280139 (Feb. 26, 2010).

[8] *See, e.g., Application of A&N Electric Cooperative, BARC Electric Cooperative, Central Virginia Electric Cooperative, Mecklenburg Electric Cooperative, Northern Neck Electric Cooperative, Prince George Electric Cooperative, Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, and Southside Electric Cooperative, For conditional approval for certain identified customers to participate in the PJM Interconnection Interruptible Load for Reliability Program and Economic Load Response Program*, Case No. PUE-2010-00014, Order, Doc. Con. Cen. No. *100280139* (Feb. 26, 2010); *Application of Rappahannock Electric Cooperative, Shenandoah Valley Electric Cooperative, A&N Electric Cooperative, and Southside Electric Cooperative, For conditional approval for certain identified customers to participate in the PJM Interconnection Interruptible Load for Reliability Program, Demand Resource Program, and Economic Load Response Program*, Case No. PUE-2010-00051, Order, Doc. Con. Cen. No. 100630215 (June 11, 2010).

[9] Similarly, for the customers identified in Attachment 1, this approval extends to their participation in DSR Programs other than those specifically associated therewith on Attachment 1.

(4) Within thirty (30) days of this Order, NOVEC shall file with the Commission a report of action demonstrating compliance with Ordering Paragraph (3) above.

(5) This matter is continued for further order of the Commission.

NOTE: A copy of Attachment 1 is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. PUE-2010-00133
DECEMBER 20, 2010

APPLICATION OF
VIRGINIA NATURAL GAS, INC.,
AGL RESOURCES INC.,
and
AGL SERVICES COMPANY

For authority to issue short-term debt, long-term debt, and common stock to an affiliate

ORDER GRANTING AUTHORITY

On November 15, 2009, Virginia Natural Gas, Inc. ("VNG"), AGL Resources Inc. ("AGLR"), and AGL Services Company ("AGL Services") (collectively, "Applicants"), filed an application under Chapters 3 and 4 of Title 56 of the Code of Virginia ("Code") requesting authority for VNG to participate in an AGLR Utility Money Pool, to issue and sell common stock to an affiliate, and to issue long-term debt to an affiliate. The amount of short-term debt, including money pool transactions proposed in the application, exceeds twelve percent of the total capitalization as defined in § 56-65.1 of the Code. Applicants paid the requisite fee of $250.

VNG, AGLR, and AGL Services request authorization for VNG to: (i) issue short-term debt up to an aggregate balance of $150,000,000 through participation in the AGLR Utility Money Pool ("Utility Money Pool") administered by AGL Services ; (ii) issue long-term debt to AGLR in an amount not to exceed $250,000,000; and (iii) issue and sell common stock to AGLR in an amount not to exceed $300,000,000, all through December 31, 2011.

Applicants note that the requested level of authority to issue long-term debt and common stock in this case is identical to the limits previously authorized in Case Nos. PUE-2009-00127, PUE-2008-00110, PUE-2007-00108, PUE-2006-00119, PUE-2005-00104, PUE-2004-00132 and PUE-2003-00548, among other cases. Terms of significance will vary with respect to the particular type of security as noted in the application.

Applicants' requested level of short-term debt borrowing authority through the Utility Money Pool is identical to the level previously requested and authorized in Case No. PUE-2009-00127. Applicants represent that the requested authority for Utility Money Pool borrowings of up to $150,000,000 is a maximum and does not reflect VNG's actual short-term borrowing requirements. However, Applicants state the level of short-term borrowing requested will provide the flexibility needed by VNG to finance its operations on a short-term basis until management deems it appropriate to secure permanent, long-term financing, based on capital market conditions and other criteria.

All short-term borrowings will be in accordance with the Utility Money Pool Agreement that remains unchanged as approved by the Commission's Order Granting Authority in Case No. PUE-2004-00132. With respect to the Utility Money Pool, loans to participants will be made in the form of open account advances for periods of less than 12 months. Borrowings will be payable on demand together with all interest accrued thereon. Interest on borrowings will accrue daily at a rate that will be determined based on the source of funds available in the Utility Money Pool.

If Utility Money Pool borrowings in a given month solely consist of surplus funds from participants ("Internal Funds"), the daily interest rate will be equal to the high-grade unsecured 30-day commercial paper of major corporations sold through dealers as quoted in The Wall Street Journal. If Utility Money Pool borrowings in a given month solely consist of proceeds from bank borrowings or the issuance of commercial paper ("External Funds"), the daily rate will reflect the weighted average cost of External Funds. In months when borrowings are supported by Internal and External Funds, the rate will reflect a composite rate, equal to the weighted average cost of Internal and External Funds.

The cost of compensating balances and fees paid to banks to maintain credit lines that support the availability of External Funds to the Utility Money Pool will be allocated to borrowing parties in proportion to their respective daily outstanding borrowing of External Funds. Borrowing parties will borrow pro rata from each fund source in the same proportion that the respective funds from each source bear to the total amount of funds available to the Utility Money Pool.

With respect to long-term debt issued by VNG to AGLR, any terms and conditions thereon will mirror the terms and conditions of debt issued by AGLR. If AGLR does not issue long-term debt within one year from the date of the proposed financings, the rate of interest will be determined utilizing the nearest comparable term U.S. Treasury Securities as reported in the H.15 Federal Reserve Statistical Release nearest to the time of the loan takedown, plus an appropriate credit spread for AGLR's existing long-term debt rating. However, such rate will be adjusted to match AGLR's cost of borrowing if AGLR subsequently issues long-term debt within one year after the loan is drawn.

For common stock, VNG requests authority to issue up to 6,282 shares of common stock without par value to AGLR. If all additional shares of common stock are issued pursuant to this request, the total number of common shares outstanding will be 10,000 shares. This is equal to the total number of shares authorized. The common stock will be sold at the book value of VNG's common equity as of its most recent balance sheet date immediately prior to the sale date.

Applicants state that the proposed issuance of long-term debt and common equity will be used to reduce short-term borrowings, fund distribution system capital improvement projects, to pay or refinance other obligations of VNG, and for other proper public utility purposes.

NOW THE COMMISSION, upon consideration of the application and having been advised by its Staff, is of the opinion and finds that approval of the application will not be detrimental to the public interest.

Accordingly, IT IS ORDERED THAT:

(1) VNG is authorized to participate in the AGLR Utility Money Pool and to incur short-term indebtedness in excess of twelve percent of capitalization not to exceed $150,000,000, for the period January 1, 2011, through December 31, 2011, under the terms and conditions and for the purposes set forth in the captioned application.

(2) VNG is hereby authorized to issue long-term debt to AGLR in an amount not to exceed $250,000,000 and to issue and sell common stock to AGLR in an amount not to exceed $300,000,000, through December 31, 2011, under the terms and conditions and for the purposes set forth in the captioned application.

(3) Applicants shall seek additional Commission authority to alter or amend the terms and conditions set forth in the application for participation in the Utility Money Pool or to change Utility Money Pool participants.

(4) Should Applicants seek to extend the authority for VNG to participate in the Utility Money Pool beyond December 31, 2011, Applicants shall file an application requesting such authority no later than November 15, 2011.

(5) Approval of this application shall have no implications for ratemaking purposes.

(6) Approval of this application does not preclude the Commission from applying the provisions of §§ 56-78 and 56-80 of the Code.

(7) Applicants shall provide the Commission's Division of Economics and Finance with at least thirty (30) days' advance notice of the prospective amount and date of any dividend payment by VNG to AGLR.

(8) The Commission reserves the right to examine the books and records of any affiliate in connection with the authority granted herein, whether or not such affiliate is regulated by this Commission.

(9) Applicants shall file quarterly reports of action within sixty (60) days of the end of each calendar quarter following the date of this Order, to include:

(a) A monthly schedule of Utility Money Pool borrowings, segmented by borrower (whether VNG or an affiliate) ; and

(b) Monthly schedules that separately reflect interest expenses, each type of allocated fee, and an explanation of how both the interest rate and allocated fee have been calculated.

(10) Applicants shall, within ten (10) days after the issuance of any common stock or long-term debt pursuant to the authority granted herein, file a preliminary report with the Clerk of the Commission. Such report shall include the date of issuance, type of security, amount issued, and the respective interest rate, date of maturity, and other terms and conditions of any issuance.

(11) Applicants shall, within sixty (60) days of the end of each calendar quarter in which common stock or long-term debt securities are issued pursuant to the authority granted herein, submit a more detailed report to the Commission. Such report shall include the information noted in Ordering Paragraph (10) above, the cumulative amount of securities issued to date for each type of security and the amount of authorized but unissued securities that remain, a general statement concerning the purposes for which the securities were issued, and a balance sheet reflecting the actions taken.

(12) Applicants shall file their final report of action with the Commission on or before March 1, 2012, to include all of the information outlined in Ordering Paragraphs (9) and (11) herein, summarizing the financings entered into pursuant to Ordering Paragraphs (1) and (2) during the fourth calendar quarter of 2011.

(13) This matter shall be continued subject to the continuing review, audit, and appropriate directive of the Commission.

CASE NO. PUE-2010-00136
DECEMBER 29, 2010

APPLICATION OF
RAPPAHANNOCK ELECTRIC COOPERATIVE

For approval of Revisions to the Financial Security Agreement for Customers Utilizing Schedule LP-2

ORDER APPROVING REVISIONS

On November 23, 2010, Rappahannock Electric Cooperative ("Rappahannock" or "Cooperative") filed an application seeking approval from the State Corporation Commission ("Commission") of proposed revisions to its Closed Heavy Industrial Schedule LP-2 ("Schedule LP-2") and to its Financial Security Agreement for Customers Utilizing Schedule LP-2 ("Security Agreement").

The Cooperative explained that its single customer served under Schedule LP-2, an industrial customer in Hanover County, Virginia, had sought protection of the U.S. Bankruptcy Court earlier in 2010. Rappahannock has been actively participating as a member of the Creditors Committee in that proceeding to protect the interests of its members. During the proceedings, a potential purchaser emerged for the industrial concern and was approved by

order of the Bankruptcy Court dated November 3, 2010. The requested revisions to Schedule LP-2 and the Security Agreement are necessary to effect the continued provision of service to the industrial customer, payment for service previously received and to provide security to the Cooperative for such continued provision of service.

In support of its application, Rappahannock appended various exhibits, including a resolution of support for the proposal from its Board of Directors and letters of acceptance from the purchaser of the proposed revisions. The Commission Staff has reviewed the application and has found the revisions to be appropriate.

NOW THE COMMISSION, being sufficiently advised, approves the revisions to Schedule LP-2 and to the Security Agreement requested herein by Rappahannock.

Accordingly, IT IS ORDERED THAT:

(1) The revisions to Schedule LP-2 and to the Security Agreement requested by Rappahannock are hereby approved.

(2) There being nothing further to come before the Commission, this case is hereby dismissed and the papers filed herein shall be placed in the file for ended causes.

DIVISION OF SECURITIES AND RETAIL FRANCHISING

CASE NO. SEC-1995-00025
NOVEMBER 10, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
1st EQUITY INTERNATIONAL, a/k/a FIRST EQUITY INTERNATIONAL, INC. d/b/a
PAYDAY LOAN CENTERS a/k/a FEI, INC.,
KESTRAL TRUST LIMITED,
and
JOSEPH R. KINGSLEY,
Defendants

FINAL ORDER

On April 25, 1995, a Rule to Show Cause was issued against First Equity International, Inc., Kestral Trust Limited, and Joseph R. Kingsley (collectively, "Defendants"). A hearing was scheduled on September 13, 1995, and required responsive pleadings to be filed with the Clerk of the Commission on or before July 14, 1995. Subsequently, the hearing in this case was continued to, and held on, September 25, 1995. The Defendants failed to file a responsive pleading and did not appear at the hearing. On October 24, 1995, the State Corporation Commission ("Commission"), based upon the pleadings and evidence presented at the September 25, 1995 hearing, found the Defendants to be in default and entered an Order and Judgment ("Order") in this case. That Order, among other things, required: (1) the Defendant First Equity International, Inc., to pay a penalty in the amount of One Million Twenty Thousand Dollars ($1,020,000); (2) the Defendant Kestral Trust to pay a penalty in the amount of One Hundred Ninety Thousand Dollars ($190,000); (3) the Defendant Joseph R. Kingsley to pay a penalty in the amount of Six Hundred Sixty Thousand Dollars ($660,000); and (4) the Defendants, jointly and severally, to pay investigative costs in the amount of Seven Thousand Three Hundred Fifty-seven Dollars ($7,357).

The Division of Securities and Retail Franchising staff has reported to the Commission that the penalties assessed in the Order are now uncollectible debts and therefore, for the purposes of judicial efficiency, request that this case be dismissed.

Accordingly, IT IS ORDERED THAT:

(1) This case is dismissed.

(2) Entry of this Order shall not affect any duty or obligation to disclose the existence or nature of this matter or of any order entered herein.

(3) The papers herein shall be filed among the ended cases.

CASE NOS. SEC-2006-00019 AND SEC-2006-00020

DMB SPORTS MARKETING GROUP, INC.,
DMB SPORTS INTERNATIONAL HOLDINGS, INC.,
and
DIGITAL MEDIA BROADCASTING CORPORATION,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Dennis Michael Butts ("Butts") and DMB Sports Property, *et al.*. ("DMB Sports") (collectively, "Defendants"): (i) violated § 13.1-502 (2) of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, by directly or indirectly, obtaining money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; (ii) Butts violated § 13.1-504 A of the Act by transacting business in the Commonwealth of Virginia without duly being registered with the Division as an agent of the issuer; (iii) DMB Sports violated § 13.1-504 B of the Act by employing an unregistered agent in the offer and sale of securities; and (iv) the Defendants violated § 13.1-507 of the Act by offering or selling securities that were not registered under the Act or exempt from registration.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendants' registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose

certain monetary penalties, by § 13.1-521 C of the Act to order the Defendants to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants admit to the allegation that they violated § 13.1-507 of the Act, neither admit nor deny the remaining allegations, but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will be permanently enjoined from offering or selling securities from or in the Commonwealth of Virginia, including using any exemptions from registration.

(2) The Defendants will be permanently enjoined from registering as a broker-dealer, agent, agent of the issuer, investment advisor, or investment advisor representative under the Virginia Securities Act.

(3) The Defendants will provide a copy of this Settlement Order to every current and former investor within thirty (30) days from the date of entry of the Settlement Order and will submit to the Division an affidavit, executed by the Defendants, as proof thereof.

(4) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

NOW THE COMMISSION, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendants from their reporting obligations to any regulatory authority.

CASE NO. SEC-2007-00021
MARCH 19, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
EDWARD D. JONES & CO., L.P.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Edward D. Jones & Co., L.P. ("Defendant"): (1) violated § 13.1-502(3) of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, by engaging in a transaction, practice or course of business which operates as a fraud or deceit upon a purchaser; (2) violated Securities Rule 21 VAC 5-20-240 by failing to make and keep true, accurate and current, and preserve the books and records relating to its business, as described in SEC Rule 17a-4(b); (3) violated Securities Rule 21 VAC 5-20-260 B by failing to exercise diligent supervision over the securities activities of an agent; (4) violated Securities Rule 21 VAC 5-20-260 D by failing to establish, maintain and enforce written procedures, which set forth the procedures adopted by the broker-dealer; (5) violated Securities Rule 21 VAC 5-20-260 D(2) by failing to perform frequent examinations of all customer accounts to detect and prevent irregularities or abuses; and (6) violated Securities Rule 21 VAC 5-20-260 D(4) by failing to review and receive written approval by the designated supervisor of the delegation by any customer of discretionary authority with respect to the customer's account to the broker-dealer or to a stated agent or agents of the broker-dealer and the prompt written approval of each discretionary order entered on behalf of that account.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

(1) The Defendant will pay fifty percent (50%) of the equity losses incurred by four (4) Virginia investors identified by the Division. The Virginia investors would not be required to demonstrate that the investments within their accounts were unsuitable, unauthorized, or that their claims are not

time-barred but would be required to execute an appropriate release. Investors with whom the Defendant has previously settled on these issues would be excluded from repayment under this Settlement.

(2) The Defendant will offer to Virginia investors identified to the Division and who had a margin loan between January 1, 1998 and June 30, 2001, a rebate of sixty-five percent (65%) of the margin interest that the Virginia investors paid. The Virginia investors would not be required to demonstrate the purpose of any margin loan or loans in their accounts, acknowledge that they did not understand the nature or purpose of any margin loan, or prove that their claims are not time-barred but would be required to execute an appropriate release. Investors with whom the Defendant has previously settled on these issues would be excluded from repayment under this settlement.

(3) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

NOW THE COMMISSION, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement;

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

Commissioner Dimitri did not participate in this matter.

CASE NO. SEC-2008-00045
JULY 1, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
MICHAEL MILES,
Defendant

AMENDED SETTLEMENT ORDER

On October 20, 2009, the Commission entered a Settlement Order in this case. On June 15, 2010, the Division of Securities and Retail Franchising ("Division") filed a Motion requesting that the State Corporation Commission ("Commission") allow an amendment of that Order.

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Michael Miles ("Defendant"): (i) violated § 13.1-502(2) of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, by omitting certain material facts necessary in order to make the statements made to potential investors, in the light of the circumstances under which they were made, not misleading; (ii) violated § 13.1-504 A of the Act by selling securities without being duly registered with the Division as the agent of an issuer; and (iii) violated § 13.1-507 of the Act by offering and selling securities that were not registered under the Act or exempt from registration.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Amended Settlement Order ("Order").

As a proposal to settle all matters arising from these allegations, the Defendant has agreed to a settlement whereby the Defendant will abide by and comply with the following terms and undertakings:

(1) Within fifteen (15) days of the date of entry of this Order, the Defendant will notify each identified investor of the settlement, and provide a copy of this Amended Settlement Order to each investor. Within thirty (30) days of the date of entry of this Order, the Defendant will submit certified mail receipts to Bill Ward in the Division at Bill.Ward@scc.virginia.gov as proof that this requirement has been satisfied.

(2) Starting on July 15, 2010, the Defendant will divide funds he received as commissions from Firm Grip Business Management and Holding Company, LLC ("FGBM") in the total amount of Nine Thousand Dollars ($9,000) and make equal payments to each identified investor of FGBM. The Defendant will pay Seven Hundred Twenty Dollars ($720) no later than the 15th of each month, representing full payment to two (2) investors, directly to those investors at the investors' last known addresses. These payments will continue monthly until all investors identified by the Division are paid their proportionate share ($360) of the commissions being disgorged by the Defendant. The total amount repaid to investors is the same as in the original Settlement Order.

(3) By the last day of each month, the Defendant will email a status report to Bill Ward in the Division at Bill.Ward@scc.virginia.gov, detailing when, how much, and to whom payment was made that month. That email will also include a copy of the certified mailing receipts and a copy of the checks as proof of the required payments.

(4) The Defendant will be enjoined from registering or transacting business as a broker-dealer, agent of a broker-dealer, agent of an issuer, investment advisor, or investment advisor representative and from selling securities within the Commonwealth of Virginia for a period of one (1) year from the date of entry of this Order.

(5) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

The Commission, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS THEREFORE ORDERED THAT:

(1) The Division's Motion to Amend Settlement Order is granted;

(2) The offer of the Defendant in settlement of the matter set forth herein be, and it is hereby, accepted;

(3) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(4) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

MATTER NO. SEC-2008-00082
JANUARY 28, 2010

IN THE MATTER OF
ALAN T. LANE
UNDER THE SECURITIES ACT OF VIRGINIA

ORDER IMPOSING SPECIAL SUPERVISORY PROCEDURES

As a condition of registration as an agent, Alan T. Lane ("Applicant"), CRD # 2463160**,** and the employing broker-dealer, Waterford Investor Services Inc. ("WIS"), CRD # 46227, have offered and agreed to implement and be bound by the following special supervisory procedures:

(1) The Applicant will abide by and complete the terms of his repayment plan with the Internal Revenue Service and the Virginia Department of Taxation. The Applicant will also report to the Division of Securities and Retail Franchising ("Division") of the State Corporation Commission ("Commission") when repayment has been completed. Failure to comply with the terms at any point will result in the revocation of the Applicant's registration with the Division.

(2) That at least five (5), or all, if there are five (5) or less, of randomly selected transactions, including delivery or transfer of securities, funds or checks, effected for Virginia customers by the Applicant and five (5) non-Virginia customers, shall be reviewed on a weekly basis by WIS's Chief Compliance Officer or his designee, to determine if any irregularity or abuse occurred in connection with any such transactions;

(3) That at least five (5), or all, if there are five (5) or less, of the Applicant's active Virginia customers and five (5) of his non-Virginia customers, selected at random, shall be contacted on a monthly basis by WIS's Chief Compliance Officer or his designee, to determine if the customers have any complaints about the Applicant's actions in connection with their accounts or any transactions effected for their accounts; an "active customer" is one who has an account in which at least one (1) transaction has been effected since the beginning of the current monthly review period;

(4) That WIS will continuously monitor each account serviced by the Applicant for excessive trading activity;

(5) That WIS shall establish and maintain a written record that shall state the name and address of each active Virginia and non-Virginia customer contacted; the date each customer was contacted; the name and title of the person who contacted each customer; the means by which each customer was contacted; a summary of the results of each contact; and shall file a report of the result of the written record within ten (10) days of the end of each calendar quarter. This record in its entirety shall be submitted to the Division upon termination of the special supervisory period;

(6) If WIS discovers any irregularity or abuse in connection with any transaction effected for a Virginia or non-Virginia customer by the Applicant or receives any complaint from a Virginia or non-Virginia customer about the Applicant, WIS shall promptly notify the Commission in writing;

(7) In addition to the implementation of the above supervisory procedures, WIS and the Applicant still retain the duty and responsibility to comply with all applicable rules, regulations and procedures imposed by this Commission, any other regulatory agency or organization, or broker-dealer; and

(8) The supervisory procedures outlined in this Special Supervision Order ("Order") will remain in effect for a minimum of twenty-four (24) months or longer from the date of the Order and until the Applicant completes the tax repayments. If the Applicant's employment with WIS ends, WIS may petition the Commission for removal of this Order.

UPON CONSIDERATION of this matter, the Commission is of the opinion and finds that the parties' offer should be accepted and that the Applicant should be subject to special supervisory procedures.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the parties and the terms of the special supervisory procedures are accepted;

(2) The imposition of the supervisory procedures set forth above shall not relieve the Applicant or WIS of the duty and responsibility to comply with all applicable rules, regulations and procedures imposed by this Commission, any other regulatory agency or organization, or the broker-dealer;

(3) The supervisory procedures set forth above shall remain in force until the Commission otherwise orders; and

(4) The Applicant shall have the right to petition the Commission no sooner than twenty-four (24) months from the date hereof to terminate this Order.

CASE NOS. SEC-2009-00002 AND SEC-2009-00050
JUNE 21, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
TENGFEI, INC.,
WEI HE ZHANG,
Defendants

JUDGMENT ORDER

On June 8, 2009, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Tengfei, Inc., and Wei He Zhang ("Defendants"). The Rule alleged various violations of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, and ordered the Defendants to appear at a hearing on the Rule scheduled for September 15, 2009.

On July 6, 2009, the Division of Securities and Retail Franchising ("Division") filed a Motion for Continuance requesting additional time to negotiate a settlement with the Defendants. By Hearing Examiner's Ruling entered July 7, 2009, the Motion for Continuance was granted; the matter was continued generally; and the hearing scheduled for September was canceled.

On October 2, 2009, the Division filed a Motion for Hearing ("Motion"). In support of its Motion, the Division stated that attempts to resolve this matter had failed. By Hearing Examiner's Ruling entered on October 5, 2009, the Motion was granted; the Defendants were ordered to file an answer or other responsive pleading; and the hearing was scheduled for November 10, 2009.

The evidentiary hearing was convened as scheduled on November 10, 2009. The Division appeared by its counsel Debra M. Bollinger and presented the testimony of four witnesses. The Defendant Wei He Zhang, President of Defendant Tengfei, Inc. appeared *pro se* and testified on his own behalf. No appearance was made for Defendant Tengfei, Inc. Ms. Qian Liu appeared as an interpreter for Defendant Wei He Zhang.

On March 31, 2010, the Hearing Examiner issued his Report. In his Report, among other things, he found that the Defendants had offered and sold two franchises to be operated in the Commonwealth of Virginia in violation of §13.1-560 of the Act and that the Defendants failed to provide the two Virginia franchisees a copy of the disclosure document and franchise agreement required by the Commission in violation of § 13.1-563 of the Act. The Hearing Examiner recommended that Defendant Tengfei, Inc., should be fined Twenty Thousand Dollars ($20,000) for two violations of § 13.1-560 of the Act, and Twenty Thousand Dollars ($20,000) for two violations of § 13.1-563 of the Act, for a total of Forty Thousand Dollars ($40,000) in monetary penalties. However, the Hearing Examiner recommended the monetary penalties should be waived if the Defendants make restitution to the franchisees within a reasonable time as determined by the Commission. If restitution is not made, the Commission would impose the Forty Thousand Dollars ($40,000) in penalties and the penalties would accrue interest at the statutory rate until paid. The Report further recommended permanently enjoining Defendant Tengfei, Inc., and Defendant Wei He Zhang from any act which constitutes a violation of the Act. Additionally, the Report allowed the Division and the Defendants twenty-one (21) days in which to provide comments. The Defendants did not file comments.

The Division filed comments noting that Ms. Huang had actually paid Forty Thousand ($40,000) instead of a total of Fourteen Thousand Dollars ($14,000), of which Seven Thousand Dollars ($7,000) had been repaid by the Defendants. The reference to Fourteen Thousand Dollars ($14,000) was made as result of a reference in the transcript to that dollar amount. However, the Division filed comments on April 20, 2010, in which the Division stated that the reference to $14,000 in the trial transcript is inaccurate and that there was documentary evidence in the record indicating that the franchise purchase price was in fact Forty Thousand Dollars ($40,000). After reviewing the entire record, it is apparent that the dollar amount of the franchise purchase price by Ms. Huang was in fact Forty Thousand Dollars ($40,000).

NOW THE COMMISSION, upon consideration of the Rule, the corrected record, the Hearing Examiner's Report, the Division's Comments, and the applicable statutes, is of the opinion and finds that: (1) the Division established by clear and convincing evidence that the Defendants violated the statutes as set forth in the Rule; and (2) the Hearing Examiner's findings and recommendations, as corrected and detailed in his Report, are reasonable and should be adopted, with the exception that Wei He Zhang should also be fined for violations of §§ 13.1-560 and 13.1-563 of the Act.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the March 31, 2010, Hearing Examiner's Report, as modified herein, are hereby adopted;

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered against the Defendant Tengfei, Inc., in the amount of Forty Thousand Dollars ($40,000);

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered against the Defendant Wei He Zheng in the amount of Forty Thousand Dollars ($40,000);

(4) The Defendants are directed to make restitution to Ms. Sofia Huang in the amount of $33,000 on or before six (6) months from the date of the entry of this Judgment Order;

(5) The Defendants are directed to make an offer of restitution to the other Virginia franchisee and if accepted, payment is to be made on or before six (6) months from the date of the entry of this Judgment Order. If the Defendants have proof of a prior rescission offer, it may be accepted in satisfaction of this requirement;

(6) The Commission will waive the penalty set out in Ordering Paragraph (2) and (3) if the Defendants fully comply with the provisions of Ordering Paragraphs (4) and (5);

(7) Pursuant to §13.1-568 of the Act, the Defendants are hereby enjoined from any further violations of the Act; and

(8) The Commission retains jurisdiction over this matter for all purposes, and this matter is continued pending further order of the Commission.

CASE NOS. SEC-2009-00002 AND SEC-2009-00050
DECEMBER 17, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
TENGFEI, INC.,
WEI HE ZHANG,
Defendants

AMENDED JUDGMENT ORDER

On June 21, 2010, the State Corporation Commission ("Commission") entered a Judgment Order against the above-named Defendant is which each of the Defendants were found in violation of § 13.1-570 of the Virginia Retail Franchising Act ("Franchise Act"), § 13.1-557 *et seq.* of the Code of Virginia, by offering and granting franchises in the Commonwealth of Virginia prior to registering under the provisions of the Franchise Act. Each Defendant was fined in the amount of Forty Thousand Dollars ($40,000). The Defendants were directed to make restitution to Ms. Sofia Huang in the amount of Thirty-three Thousand Dollars ($33,000). If the Defendants fully complied with paragraphs (4) and (5) of the Judgment Order within six months, the Commission would waive the penalty set out in paragraphs (2) and (3) of the Judgment Order. Restitution is due to Ms. Huang on or before December 21, 2010.

In a letter dated December 8, 2010, the Defendants filed a letter addressed to the Commission in which the Defendants acknowledged that they owed Ms. Huang the sum of Thirty-three Thousand Dollars ($33,000) on or before December 21, 2010. The Defendants requested that they be allowed an additional forty-five days (45) in which to attempt to make payment to Ms. Huang.

The Division of Securities and Retail Franchising has no objection to granting the extension in order for Ms. Huang to receive restitution.

IT APPEARS that there is good cause shown for granting the Defendants' request for a forty-five day (45) extension to make restitution.

Accordingly, IT IS ORDERED THAT the Judgment Order entered on June 21, 2010 be modified to extend the due date for restitution to Ms. Huang to be on or before forty-five (45) days from the date of entry of this Order.

CASE NOS. SEC-2009-00036 AND SEC-2009-00037
SEPTEMBER 3, 2010

STATE CORPORATION COMMISSION
v.
TECHNOLOGY COMMUNICATION MANAGEMENT, LLC
and
RAWLE GERARD SUITE a/k/a GERARD SUITE a/k/a RAUL JERARD ANTHONY a/k/a R.J. ANTHONY,
Defendants

JUDGMENT ORDER

On September 8, 2009, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Technology Communication Management, LLC ("TCM") and Rawle Gerard Suite a/k/a Gerard Suite a/k/a Raul Jerard Anthony a/k/a R.J. Anthony ("Suite") (collectively, "Defendants"). The Rule alleged various violations of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia. Specifically, the Rule alleged that each of the Defendants: (i) violated § 13.1-507 of the Act in that they offered and sold securities that were not registered

under the Act or exempt from registration; (ii) violated § 13.1-504 A of the Act by selling securities without being registered with the Division of Securities and Retail Franchising ("Division") as an agent of the issuer or a broker-dealer; (iii) violated § 13.1-502 (2) of the Act by making material misrepresentations and omissions in the offer and sale of securities; and (iv) violated § 13.1-502 (3) of the Act by engaging in any transaction, practice or course of business which operates or would operate as a fraud or deceit upon the purchaser. Additionally, the Rule alleged Defendant TCM violated § 13.1-504 B of the Act by selling securities through Defendant Suite, who was not registered with the Division as an agent of an issuer or broker-dealer.

The Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for January 27, 2010. Additionally, the Rule ordered the Defendants to file a responsive pleading on or before October 16, 2009, in which the Defendants were required to expressly admit or deny the allegations in the Rule and present any affirmative defenses that they intended to assert. The Defendants were advised that they may be found in default if they failed to either timely file a responsive pleading or other appropriate pleading, or if they filed such pleading and failed to make an appearance at the hearing. If found in default, the Defendants were advised that they would be deemed to have waived all objections to the admissibility of evidence and may have entered against them a judgment by default imposing some or all of the sanctions permitted by law.

On December 30, 2009, the Division filed a Motion for Default. In support, the Division stated that the Defendants had not filed an answer or other responsive pleading to the Rule. Additionally, the Division stated that the Defendants were properly served with the Rule. The Division provided legal authority for the Commission to enter a default judgment, along with legal authority that due process notice requirements were satisfied. The Division requested that the Hearing Examiner: (i) grant the Motion for Default Judgment; (ii) recommend to the Commission that the Commission enter a Judgment Order finding Defendant TCM in default and imposing a $10,000 monetary penalty for each violation of the Act for a total of $640,000; (iii) recommend to the Commission that the Commission enter a Judgment Order finding Defendant Suite in default and imposing a $10,000 monetary penalty for each violation of the Act for a total of $460,000; and (iv) order the Defendants to pay restitution to the investors as follows: Ronald Woods - $45,950; James Beasley - $17,527; David Smith - $16,300; and Paul Russell - $38,464.

A hearing on the Rule was convened on January 27, 2010. The Defendants failed to appear after receiving notice of the hearing.

On July 28, 2010, the Chief Hearing Examiner issued her Report. In her Report, she found that: (i) the testimony and documentary evidence submitted by the Division proved by clear and convincing evidence the Defendants' violations of the Act; and (ii) the Motion for Default should be granted. Additionally, the Report allowed the Defendants twenty-one (21) days in which to provide comments. The Defendants did not file comments.

NOW THE COMMISSION, upon consideration of the Rule, the record, the Chief Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Hearing Examiner's findings and recommendations are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-521 A of the Act, judgment is entered for the Commonwealth against Defendant TCM in the amount of Six Hundred Forty Thousand Dollars ($640,000.00);

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-521 A of the Act, judgment is entered for the Commonwealth against Defendant Suite in the amount of Four Hundred Sixty Thousand Dollars ($460,000.00); and

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-521 C of the Act, the Defendants shall pay restitution to the investors as follows: Ronald Woods - $45,950; James Beasley - $17,527; David Smith - $16,300; and Paul Russell - $38,464.

CASE NO. SEC-2009-00051
FEBRUARY 9, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
QUISQUEYA DOMINICAN BEAUTY SALON, LLC,
and
DOMINICAN STYLES,
Petitioners,
v.
JOHAN AND JESSIE, LLC,
Respondent.

FINAL ORDER

On May 27, 2009, Quisqueya Dominican Beauty Salon, LLC and Dominican Styles ("Petitioners"), by counsel, filed a Petition seeking resolution of a trademark dispute with Johan and Jessie, LLC ("Respondent"). In their Petition, the Petitioners request an order from the State Corporation Commission ("Commission"), in accordance with § 59.1-92.10 (3) b, c, d, e, and f of the Code of Virginia, revoking the Commission's issuance of the trademark "Dominican Beauty Salon" to the Respondent. In support of their request, the Petitioners allege that (1) the Respondent was not the first user of the term "Dominican Beauty Salon," (2) the name "Dominican Beauty Salon" has become a generic term referring to a type of hair treatment, (3) the Petitioners have been using the name "Dominican Beauty Salon" or similar variations upon it for a substantial period of time, and (4) there is a substantial likelihood of confusion given the Petitioners' prior, and non-abandoned, use of the term "Dominican Beauty Salon" in their business.

On May 29, 2009, the Respondent filed a Demurrer and Motion for Abstention ("Demurrer and Motion"). In the Demurrer and Motion, Respondent contended that there is an ongoing trademark infringement case pending in the Virginia Beach Circuit Court ("Circuit Court") and asserted that the Commission should abstain from ruling in this case until the Circuit Court case has been resolved.

On June 19, 2009, the Commission entered a Scheduling Order setting a hearing on October 20, 2009, at which time and place the Petitioners and Respondent were directed to appear and present argument and, if appropriate, evidence as to why the Commission should grant or deny the Demurrer and

Motion. The Scheduling Order also established a procedural schedule; required the Petitioners to file a response to the Demurrer and Motion; and assigned the case to a Hearing Examiner to conduct all further proceedings and to file a report.

On July 7, 2009, the Petitioners filed their response to the Demurrer and Motion. In their response, the Petitioners assert that because the litigation pending in the Circuit Court is based upon the assumption that the relevant trademark is valid and enforceable, the Commission should make a determination regarding the validity of the trademark in this proceeding.

The matter was heard by Deborah V. Ellenberg, Chief Hearing Examiner, on October 20, 2009. Christopher L. Spinelli, Esquire, appeared on behalf of the Petitioners; Jonah S. Dickey, Esquire, appeared on behalf of the Respondent; and Mary Beth Williams, Esquire, appeared on behalf of the Commission's Division of Securities and Retail Franchising. Three witnesses testified at the hearing.

On December 15, 2009, the Chief Hearing Examiner issued her Report wherein she summarized the evidence presented in this proceeding and made the following findings and recommendations:

> 1. It is appropriate for the Commission to defer to the Circuit Court for it to determine the strength of the mark, and whether the Petitioners have infringed upon the [trade]mark held by the Respondent; and
>
> 2. There was not sufficient evidence presented at the hearing for the Commission to determine that registration [of] the trademark should be cancelled. . . . .[1]

The Chief Hearing Examiner also allowed the parties twenty-one (21) days in which to file comments on her Report. Neither the Petitioners nor the Respondent filed comments.

NOW THE COMMISSION, having considered the Petition, the Demurrer and Motion, the record, the Chief Hearing Examiner's Report and the applicable statutes, is of the opinion and finds that the Chief Hearing Examiner's findings and recommendations as detailed in her Report are reasonable and should be adopted.

As recognized by the Chief Hearing Examiner, the Petitioners rely upon subsections b, c, d, e, and f of Va. Code § 59.1-92.10 (3) as support for their assertion that the Respondent's trademark should be revoked.[2] These subsections require the Commission to cancel the registration of any trademark if it finds that:

> b. The registrant is not the owner of the mark;
>
> c. The registration was granted as the result of a clerical error;
>
> d. The registration was obtained fraudulently;
>
> e. The mark is or has become the generic name for the goods or services, or a portion thereof, for which it has been registered; or
>
> f. There is a substantial likelihood of confusion with a mark or trade name previously used in this Commonwealth by another and not abandoned.

We agree with the Chief Hearing Examiner's conclusion that the Petitioners failed to establish grounds for revocation of the Respondent's trademark pursuant to subsection b, c, d, or f of Va. Code § 59.1-92.10 (3).

Furthermore, with respect to the Petitioners' contention that the trademark "Dominican Beauty Salon" should be revoked in accordance with subsection e of Va. Code § 59.1-92.10 (3) because it "is or has become generic," the Commission recognizes that trademarks including descriptions of nationality or geographic names may be considered "generic" under certain circumstances.[3] However, the issue of "genericness" is a question of fact.[4] Thus, while we make no specific finding in this Final Order regarding whether the name "Dominican Hair Salon" is generic at this time, we agree with the Chief Hearing Examiner's conclusion that the Petitioner failed to produce sufficient factual evidence to support the revocation of the Respondent's trademark in accordance with Va. Code § 59.1-92.10 (3) e.[5]

Moreover, as noted by the Chief Hearing Examiner in her Report, another proceeding pertaining to the strength of the Respondent's trademark was already pending in the Circuit Court when the Petitioners filed their Petition with the Commission. As provided in Va. Code § 59.1-92.13, "any court of competent jurisdiction," including the Circuit Court, may adjudicate the strength of a trademark. We agree with the Chief Hearing Examiner that the Circuit

[5] *See* Report at 2-3.

Court "should have a far more comprehensive record upon which to judge the strength of the [trade]mark" as compared to the "very minimal testimony" provided at the hearing before the Chief Hearing Examiner.[6] Under the circumstances, we conclude that it is appropriate for the Commission to defer to the Circuit Court for a determination relative to the strength of the Respondent's trademark and whether the Petitioners have infringed upon the trademark held by the Respondent.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the December 15, 2009 Chief Hearing Examiner's Report are hereby adopted.

(2) This case is dismissed.

CASE NO. SEC-2009-00055
JANUARY 19, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel.*
STATE CORPORATION COMMISSION
v.
TERRY BLACK d/b/a PHOENIX TECHNOLOGIES LLC,
Defendant

JUDGMENT ORDER

On August 19, 2009, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Terry Black d/b/a Phoenix Technologies LLC ("Defendant"). The Rule alleged various violations of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia.

The Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for December 1, 2009. Additionally, the Rule ordered the Defendant to file a responsive pleading on or before October 1, 2009, in which the Defendant was required to expressly admit or deny the allegations in the Rule and present any affirmative defenses that he intended to assert. The Defendant was advised that he may be found in default if he failed to either timely file a responsive pleading or other appropriate pleading, or if he filed such pleading and failed to make an appearance at the hearing. If found in default, the Defendant was advised that he would be deemed to have waived all objections to the admissibility of evidence and may have entered against him a judgment by default imposing some or all of the sanctions permitted by law.

On November 13, 2009, the Division of Securities and Retail Franchising ("Division") filed a Motion for Default. In support, the Division stated that the Defendant had not filed an answer or other responsive pleading. The Division provided legal authority for the Commission to enter a default judgment and provided a sworn affidavit and supporting exhibits from Danny L. Taylor, Senior Investigator with the Division, as well as evidence to establish proper service of the Rule. Additionally, the Division requested that the Commission enter a default judgment against the Defendant on the counts alleged in the Rule, penalize the Defendant for his violations of the Act, order the Defendant to make restitution to the Virginia investor, and be enjoined from further violations of the Act.

By Hearing Examiner's Ruling entered on November 16, 2009, the Defendant was ordered to file a response to the Division's Motion for Default Judgment on or before November 30, 2009. The Defendant failed to file a response.

A hearing on the Rule was convened on December 1, 2009. The Division was represented by its counsel, Debra M. Bollinger, Esquire. The Defendant failed to appear after receiving notice of the hearing. The proofs of service of the Rule were offered into the record as exhibits. The Division presented the testimony of Danny L. Taylor along with documentary proof to provide the facts necessary to prove the allegations set forth in the Rule.

On December 9, 2009, the Hearing Examiner issued his Report. In his Report, among other things, he found that: (1) the Motion for Default Judgment should be granted; (2) the Defendant is in default for failing to file an answer or other responsive pleading to the Rule to Show Cause; (3) the Defendant should be fined Ten Thousand Dollars ($10,000) for each violation of the Act, for a total of Thirty Thousand Dollars ($30,000); (4) the Defendant should make restitution to the Virginia investor within sixty (60) days of the entry of the Commission's Final Order. If the Defendant fails to make restitution to the Virginia investor, the Commission will impose the penalties in (3); and (5) the Defendant should be permanently enjoined from further violations of the Act. Additionally, the Report allowed the Defendant ten (10) days in which to provide comments. The Defendant did not file comments.

NOW THE COMMISSION, upon consideration of the Rule, the record, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that: (1) the Division established by clear and convincing evidence that the Defendant violated the statutes as set forth in the Rule; and (2) the Hearing Examiner's findings and recommendations as detailed in his Report are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the December 9, 2009, Hearing Examiner's Report are hereby adopted;

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-521 of the Act, judgment is entered for the Commonwealth against the Defendant in the amount of Thirty Thousand Dollars ($30,000.) The Commission will waive the penalties if the Defendant makes restitution to the Virginia investor on or before March 31, 2010; and

(3) Pursuant to § 13.1-519 of the Act, the Defendant is hereby enjoined from any further violations of the Act.

CASE NO. SEC-2009-00055
APRIL 26, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel.*
STATE CORPORATION COMMISSION
v.
TERRY BLACK d/b/a PHOENIX TECHNOLOGIES LLC,
Defendant

FINAL ORDER

On August 19, 2009, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Terry Black d/b/a Phoenix Technologies LLC ("Defendant"). The Rule alleged various violations of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and ordered the Defendant to file a responsive pleading on or before October 1, 2009.

On November 13, 2009, the Division of Securities and Retail Franchising ("Division") filed a Motion for Default. In support, the Division stated that the Defendant had not filed an answer or other responsive pleading to the Rule.

By Hearing Examiner's Ruling entered on November 16, 2009, the Defendant was ordered to file a response to the Division's Motion for Default Judgment on or before November 30, 2009. The Defendant failed to file a response.

A hearing on the Rule was convened on December 1, 2009. The Defendant failed to appear after receiving notice of the hearing.

On December 9, 2009, the Hearing Examiner issued his Report. In his Report, among other things, he found that the Defendant should be fined Ten Thousand Dollars ($10,000) for each violation of the Act, for a total of Thirty Thousand Dollars ($30,000) in monetary penalties. However, in lieu of the monetary penalties, the Defendant should make restitution to the Virginia investor within sixty (60) days of the entry of the Commission's Final Order. If the Defendant failed to make restitution to the Virginia investor, the Commission would impose the Thirty Thousand Dollars ($30,000) in penalties. Additionally, the Report allowed the Defendant ten (10) days in which to provide comments. The Defendant did not file comments.

On January 19, 2010, the Commission entered a Judgment Order in this case. In its Judgment Order the Commission, among other things, entered judgment in favor of the Commonwealth against the Defendant in the amount of Thirty Thousand Dollars ($30,000). The Commission would waive the penalties if the Defendant made restitution to the Virginia investor on or before March 31, 2010. The Defendant did not make restitution to the Virginia investor within the prescribed time.

NOW THE COMMISSION is of the opinion and finds that the Defendant is penalized in the amount of Thirty Thousand Dollars ($30,000).

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-521 of the Act, judgment is entered for the Commonwealth against the Defendant in the amount of Thirty Thousand Dollars ($30,000);

(2) All other provisions of the Judgment Order entered by the Commission on January 19, 2010, remain in full force and effect; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

CASE NOS. SEC-2009-00068 AND SEC-2009-00069
AUGUST 20, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel.*
STATE CORPORATION COMMISSION
v.
SPA' LADI-DA FRANCHISE, INC.
and
DETRA S. JONES,
Defendants

FINAL ORDER

On August 20, 2009, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Spa' Ladi-Da Franchise, Inc. ("SLD") and its founder and chief executive officer, Detra S. Jones ("Jones") (collectively, "Defendants"). The Rule alleged various violations of the Virginia Retail Franchising Act ("Act"), §§ 13.1-557 *et seq*., of the Code of Virginia ("Code"). Specifically, the Division alleged that the Defendants: (1) violated § 13.1-560 of the Act, by offering and granting a franchise in the Commonwealth of Virginia without being properly registered; and (2) violated § 13.1-563 of the Act by failing to provide a Virginia franchisee with an appropriate disclosure document and by making untrue statements of material fact and omissions in the offering and granting of a franchise.

The Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for October 6, 2009. Additionally, the Rule ordered the Defendants to file a responsive pleading on or before September 22, 2009, in which the Defendants were required to expressly admit or deny the allegations in the Rule and present any affirmative defenses that they intended to assert. The Defendants were advised that they may be found in default if they failed to either timely file a responsive pleading or other appropriate pleading, or if they filed such pleading and failed to

make an appearance at the hearing. If found in default, the Defendants were advised that they would be deemed to have waived all objections to the admissibility of evidence and may have entered against them a judgment by default imposing some or all of the sanctions permitted by law.

On October 5, 2009, the Division of Securities and Retail Franchising ("Division"), by counsel, moved for a continuance after Defendants' counsel advised the Division's counsel that the Defendants accepted the Division's offer to enter into a settlement. The Hearing Examiner issued a Ruling on the same date cancelling the hearing set for October 6, 2009, and continuing the matter generally until further ruling.

On May 14, 2010, the Division, by counsel, filed a Motion to Set Case for Hearing wherein the Division represented that settlement discussions with the Defendants had been unsuccessful and requested that the allegations of the Rule be heard on the merits at hearing on July 8, 2010.

By Hearing Examiner's Ruling dated May 24, 2010, the Division's Motion to Set Case for Hearing was granted and a hearing on the Rule was scheduled for July 8, 2010, at 10:00 a.m.

An evidentiary hearing on the Rule was convened on July 8, 2010. The Defendants failed to appear after receiving notice of the hearing. The Division presented proof of notice that the Defendants were served with the Rule and the Hearing Examiner's Ruling dated May 24, 2010.

At the hearing on July 8, 2010, the Division, by counsel, moved for the entry of default judgment against the Defendants. The Affidavit of Stephen A. Arrighi, Senior Auditor with the Division, together with attachments, was accepted into the record in support of the Division's motion. Additionally, Mr. Arrighi provided testimony at the hearing.

The Division provided legal authority for the Commission to enter a default judgment, along with legal authority that due process notice requirements were satisfied. The Division requested that the Hearing Examiner: (i) grant its motion for entry of default judgment; (ii) recommend to the Commission that the Commission enter a judgment order finding Defendant SLD in default and imposing a $20,000 monetary penalty for each violation of the Act for a total of $60,000; (iii) recommend to the Commission that the Commission enter a judgment order finding Defendant Jones in default and imposing a $20,000 monetary penalty for each violation of the Act for a total of $60,000; (iv) recommend to the Commission that the Commission enter a judgment order finding Defendants in default and imposing $12,928 against them for the costs of the Division's investigation; and (v) recommend to the Commission that the Commission waive the foregoing penalties if the Defendants make an offer of rescission to Annette Lee and if the Defendants make restitution in the amount of $30,000 to Ms. Lee within thirty (30) days or within such other time determined to be reasonable by the Commission.

On July 16, 2010, the Hearing Examiner issued her Report. In her Report, she found that (i) the testimony and documentary evidence submitted by the Division proved by clear and convincing evidence the Defendants' violations of the Act; and (ii) the Division's motion for entry of default judgment should be granted. The Report allowed the Defendants 21 days in which to provide comments. The Defendants did not file comments.

NOW THE COMMISSION, upon consideration of the Rule, the record, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Hearing Examiner's findings and recommendations are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant SLD in the amount of Sixty Thousand Dollars ($60,000);

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant Jones in the amount of Sixty Thousand Dollars ($60,000);

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-567 of the Act, the Defendants shall pay Twelve Thousand Nine Hundred Twenty-eight Dollars ($12,928) to the Division for its costs of investigation;

(4) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, the Commission shall waive the foregoing penalties and investigation costs if the Defendants make an offer of rescission to Annette Lee and, if accepted, the Defendants make restitution in the amount of $30,000 to Ms. Lee within sixty (60) days of the entry of this Order; and

(5) This matter is dismissed, and the papers herein are passed to the file for ended causes.

CASE NO. SEC-2009-00070
AUGUST 19, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
FISH ON BAIT & TACKLE, INC.,
Petitioner,
v.
REGINALD B. CHEATHAM, SR.,
Respondent

FINAL ORDER

On July 13, 2009, Fish On Bait & Tackle, Inc. ("Petitioner") filed a Petition with the State Corporation Commission ("Commission"), pursuant to Rule 5 VAC 5-20-100 of the Commission's Rules of Practice and Procedure. The Petition sought, pursuant to § 59.1-92.10 A 3(b) and (f) of the Code of Virginia, to have the Commission cancel a service mark registered on June 23, 2009, to Reginald B. Cheatham Sr. ("Respondent") for the mark "Fish On! Tackle." Petitioner alleged that Respondent subsequently demanded the Petitioner cease and desist from use of the name "Fish On Bait & Tackle." Petitioner contended that: (1) at least one third party had senior rights in the service mark; (2) "Fish On! Tackle" was confusingly similar to federally

registered marks; and (3) Respondent, therefore, did not have the exclusive right to use the term.[1] Petitioner asserts that it will be damaged by the continued registration of the mark.

On August 19, 2009, the Respondent filed a Response to the Petition to Cancel Service Mark in which Respondent stated that he had used the mark since at least March 11, 2005, and was currently seeking federal registration of the mark. Respondent contended the Petitioner did not have standing to bring action before the Commission and countered that Petitioner would not be damaged by Respondent's use of the term, but only barred from using the mark "Fish On" and misappropriating Respondent's good will. Respondent asserted that Petitioner offered no evidence that any of the third party marks identified in the Petition and alleged to be senior were presently in use or ever had been in use in Virginia. Respondent concluded by urging the Commission to hold any decision to cancel the mark in abeyance until the then pending decision of the U.S. Patent and Trademark Office ("USPTO") on Respondent's application to federally register the mark "FISH ON! TACKLE." On September 21, 2009, Respondent filed a Supplemental Response in which he contended that Petitioner admitted it did not have senior rights in the mark, and had stated that it did not claim there was a likelihood of confusion. Respondent requested the Commission find Petitioner had no standing to bring the Petition.

On August 31, 2009, the Commission entered a Scheduling Order in which it scheduled a hearing on October 30, 2009, and assigned the case to a hearing examiner to conduct all further proceedings.

On December 14, 2009, the matter was heard by Deborah Ellenberg, Chief Hearing Examiner. Ian D. Titley, Esquire, appeared on behalf of Petitioner. No appearance was entered on behalf of the Respondent; however, minutes before the hearing was scheduled to begin, Linda Quigley, with the law firm of Bambi Faivre Walters, PC, called the Office of Hearing Examiners to advise that no one would be appearing on behalf of Respondent. A letter from the firm dated December 14, 2009, was subsequently filed with the Clerk of the Commission stating that Respondent had recently advised the firm that "while he was still interested in protecting and defending his mark, he would be unable to afford participating in the hearing." The firm further advised that it attempted to electronically file a brief in lieu of appearing at the hearing but was advised the morning of December 14, 2009, that the brief and its attachments should be re-submitted as one file. The brief and its attachments were not filed prior to the hearing being convened in this matter, nor was a witness present to sponsor the attachments.[2] The record was closed at the conclusion of the hearing and the exhibits proffered as attachments to the late-filed brief were not received into the record.

On April 23, 2010, the Chief Hearing Examiner issued her Report. In her Report, the Chief Hearing Examiner recommended that based on the evidence presented: (1) the Petitioner's request to cancel the service mark registration of "Fish On! Tackle," SCC file #9323, be granted and (2) to pass the papers to the file for ended causes.

NOW THE COMMISSION, upon consideration of the Petition, the Response to the Petition, the record, the Chief Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Petitioner's request to cancel the service mark registration of "Fish On! Tackle," SCC file #9323, be granted.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the April 23, 2010 Chief Hearing Examiner's Report are hereby adopted;

(2) Pursuant to § 59.1-92.10 A 3(b), (e), and (f) of the Code of Virginia, the service mark registration of "Fish On! Tackle," SCC file #9323, is hereby canceled; and

(3) The case be dismissed with prejudice.

[1] Petition at 3.

[2] Tr. at 17.

CASE NO. SEC-2009-00074
APRIL 16, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
DEUTSCHE BANK SECURITIES INC.,
Defendant

CONSENT ORDER

Deutsche Bank Securities Inc. ("DBSI") is a broker-dealer registered in the Commonwealth of Virginia; and

Coordinated investigations into DBSI's activities in connection with DBSI's marketing and sale of auction rate securities ("ARS") have been conducted by a multistate task force; and

DBSI has provided documentary evidence and other materials, and provided regulators with access to information relevant to their investigations; and

Deutsche Bank AG ("Deutsche Bank"), as the parent entity of DBSI, has entered into a Settlement Term Sheet dated August 31, 2008 ("Settlement"), with the North American Securities Administrators Association ("NASAA"), which recommends to NASAA members the settlement terms intended to resolve the investigation into the marketing and sale of ARS by DBSI; and

In an effort to resolve these issues in accordance with the terms of the Settlement and without the expense and delay that formal proceedings would involve, DBSI consents to the form and entry of this Consent Order ("Order") without admitting or denying the allegations set forth herein. Accordingly, DBSI waives the following rights:

(a) To be afforded an opportunity for hearing on the findings and conclusions of law of the Commonwealth of Virginia's State Corporation Commission (the "Commission") in this Order after reasonable notice within the meaning of § 13.1-521 A of the Virginia Securities Act ("Act"), § 13.1-501 et seq. of the Code of Virginia, and § 12.1-39 of the Code of Virginia; and

(b) To seek judicial review of, or otherwise challenge or contend, the validity of this Order; and

DBSI agrees that for purposes of this matter, or any future proceedings to enforce this Order by the Commission, this Order shall have the same effect as if proven and ordered after a full hearing held pursuant to § 13.1-521 A of the Act and § 12.1-39 of the Code of Virginia; and

The provisions set forth in this Order constitute the entire agreement between the Commission and DBSI and shall supersede any conflicting provisions contained in the Settlement;

NOW, THEREFORE, the Commission, as administrator of the Act, hereby enters this Order:

I. FINDINGS OF FACT

1. DBSI admits the jurisdiction of the Commission, neither admits nor denies the findings of fact and conclusions of law contained in this Order, and consents to the entry of this Order by the Commission.

Auction Rate Securities

2. ARS, as a general term, refers to long-term debt or equity instruments tied to short-term interest rates that are reset periodically through an auction process.

3. An ARS auction is regarded as a "fail" or "failed auction" if there is not a buyer available for every ARS being offered for sale at the auction. In the event of a failed auction, the investors that wished to sell their ARS were unable to do so and would continue to hold the ARS and wait until the next successful auction to liquidate their positions.

4. Beginning in February 2008, the ARS market experienced widespread failed auctions ("2008 Auction Failures").

5. Common categories of ARS instruments include: auction preferred shares of closed-end funds ("Preferreds"); municipal auction rate certificates ("Municipal ARS"); and student loan-backed auction rate certificates ("Student Loan ARS"). The interest rates paid to ARS holders are intended to be set through a Dutch auction process.

6. The interest rate set at an ARS auction is commonly referred to as the "clearing rate."

7. In order to determine the clearing rate, the buy bids are arranged from lowest to highest interest rate (subject to any applicable minimum interest rate). The clearing rate is the lowest interest rate at which all ARS available for sale at the auction can be sold at par value.

DBSI's Marketing and Sale of Auction Rate Securities

8. DBSI (CRD #2525) is a Delaware corporation with a primary place of business located at 60 Wall Street, New York, New York.

9. Deutsche Bank Alex. Brown ("DBAB"), a division of DBSI, provides wealth planning and brokerage services to private, institutional, and corporate clients.

10. The Corporate and Investment Bank ("CIB"), another division of DBSI, provides capital market financial services to institutions and corporate clients.

11. DBSI engaged in the marketing and sale of ARS in the Commonwealth of Virginia.

12. Certain DBSI agents solicited sales of ARS to clients; however, certain DBSI agents did not fully comprehend the product, auction process, or the risks.

13. DBSI did not provide its agents with adequate training concerning the complex characteristics of ARS and risks inherent with this type of investment.

14. DBSI did not create and maintain adequate written supervisory procedures to ensure its agents provided their clients with adequate disclosure of the complex characteristics of ARS and risks inherent with this type of investment.

15. Certain DBAB agents misrepresented the characteristics of ARS to clients. Certain DBAB agents told clients that ARS were "safe and liquid," "cash equivalents," and "just like money markets."

16. Third-party marketing materials about ARS, which were available to DBAB agents, described certain ARS issues as a "AAA-rated source of short-term income" and a "Cash alternative."

17. Certain DBAB clients maintained investment policies and objectives designed to place their money in safe and liquid investments.

18. Certain DBAB agents sold ARS to these DBAB clients, despite their investment policies and objectives, which sought safe and liquid investments.

19. From approximately September 2003 until February 2008, DBAB categorized ARS under the heading "Other – Money Market Instruments" on clients' monthly account statements.

20. ARS, unlike money market instruments, are not short-term investments. In fact, ARS bonds may have maturities as long as 30 years and Preferreds have unlimited maturity.

21. Beginning in 2003, CIB began to underwrite certain Student Loan ARS issues ("CIB SL ARS"). Because CIB had not developed a sales network for those CIB SL ARS, there were instances in which several CIB SL ARS issues were not successfully sold to institutions during the initial offering. As a consequence, CIB purchased and maintained on its books 100% of the outstanding ARS for several CIB SL ARS issues, which ultimately allowed the initial offerings for these issues to succeed. Despite this, CIB continued to market those CIB SL ARS to investors. Some of those CIB SL ARS remained on CIB's books as of the 2008 Auction Failures.

22. Because certain DBSI agents misrepresented the characteristics of ARS to clients and purchased ARS for clients based upon those misrepresentations, DBSI engaged in dishonest and unethical conduct in the securities business with respect to the marketing and sale of ARS.

23. By failing to: (i) provide adequate training to agents concerning ARS; (ii) create and maintain adequate written supervisory procedures concerning ARS; and (iii) ensure accurate disclosure of ARS characteristics to clients by its agents, DBSI failed to reasonably supervise its agents with respect to the marketing and sale of ARS.

Conflict of Interest

24. DBAB failed to adequately disclose to clients who purchased ARS that the firm's roles as underwriter and broker-dealer in certain ARS issues were a conflict of interest, and this conflict may affect the auction clearing rate. As the underwriter and lead manager on four Preferred issues since 1992[1] ("DBAB Managed Preferred"), it was in the interest of the firm to keep the clearing rates low for issuers of the DBAB Managed Preferred. As broker-dealer, the firm had a duty to provide the highest available ARS clearing rates to its clients.

25. DBAB issued a "price talk" document prior to each ARS auction in which it acted as a broker-dealer. This document detailed the interest rate at which DBAB believed the ARS would clear at auction. DBAB determined this rate by utilizing different factors, including the competing interests of both investors and issuers.

26. By failing to fully inform clients about the effect of DBAB's conflicting roles, as underwriter and broker-dealer of ARS issues, on auction clearing rates, DBSI engaged in dishonest and unethical conduct in the securities business with respect to the marketing and sale of ARS.

27. By failing to ensure adequate disclosure of conflicts of interest concerning ARS to clients by its agents, DBSI failed to reasonably supervise its agents with respect to the marketing and sale of ARS.

Supporting Bids

28. In every auction for the DBAB Managed Preferred, the firm submitted "supporting bids" for its own account that were sufficient to cover the entire allotment of each DBAB Managed Preferred issue. These supporting bids were customary among lead managers to prevent failed auctions and to maintain liquidity for investors. In certain instances, the supporting bids prevented failed auctions, and in others, the supporting bids were unnecessary. However, regardless of the auction outcome, these supporting bids were consistently placed by DBAB, ensuring that successful auctions occurred and liquidity was maintained.

29. DBAB failed to disclose to clients that, in each auction of auction rate preferred issues for which DBAB acted as lead manager, the firm placed supporting bids for the entire allotment of auction rate preferred to ensure a successful auction.

30. DBAB agents were not aware that DBAB placed supporting bids in the auction rate preferred auctions for which DBAB was the lead manager; nor were they aware of the effect of DBAB's supporting bids on those auctions.

31. In or around August 2007, CIB declined to place supporting bids for certain ARS issued by three special purpose vehicles previously created by Deutsche Bank ("SPVs") (called Pivots, Capstans, and Cambers). CIB's decision to stop submitting supporting bids resulted in failed auctions for these ARS issues.

32. On or around February 13, 2008, the head traders of DBAB's fixed-income trading desk and CIB's asset-backed trading desk, each of which handled the firm's trading in ARS, declined to submit supporting bids for ARS issues in which DBSI was the lead manager. This decision resulted in failed auctions for the ARS issues in which DBSI was a lead underwriter, and a lack of liquidity for clients invested in these issues. Neither DBAB nor CIB has placed a supporting bid since that decision.

33. By engaging in the practice of placing supporting bids to prevent failed ARS auctions and failing to disclose the practice to clients, DBAB engaged in dishonest and unethical conduct in the securities business with respect to the marketing and sale of ARS.

34. By failing to ensure adequate disclosure to clients of DBAB's practice of placing supporting bids to artificially prevent failed ARS auctions, DBSI failed to reasonably supervise its agents with respect to the marketing and sale of ARS.

[1] These Preferred issues were Nuveen Maryland Premium Income Municipal Fund 2 (CUSIP No. W67061Q305), and Van Kampen Invest Grade (CUSIP Nos. E920929601, F920929700, and G920929809).

II. CONCLUSIONS OF LAW

Solely for the purpose of this Order, and without admitting or denying the allegations set forth herein, DBSI consents to the Commission making the following conclusions of law:

1. In connection with: (i) the misrepresentation of ARS to clients; (ii) the failure to adequately disclose to clients the effect of the firm's role as underwriter and broker-dealer for ARS issues; and (iii) the use of supporting bids to artificially prevent failed ARS auctions and failing to adequately disclose the practice to clients, DBSI engaged in dishonest and unethical conduct in the securities business, in violation of Commission Rules 21 VAC 5-20-280 A 3 and 21 VAC 5-20-280 E 12.

2. In connection with the failure to (i) provide adequate training to agents concerning ARS, (ii) create and maintain adequate written supervisory procedures concerning ARS, (iii) ensure accurate disclosure of ARS characteristics to clients by its agents, and (iv) ensure adequate disclosure of conflicts of interest concerning ARS to clients by its agents, DBSI failed to reasonably supervise, and establish and enforce procedures necessary to detect and prevent such conduct, in violation of its duties under Commission Rules 21 VAC 5-20-260 A and B.

3. The activities set forth herein are grounds, pursuant to the Act, for the initiation of Commission proceedings, and to impose such other appropriate remedial measures as may be necessary in the public interest.

III. ORDER

On the basis of the Findings of Fact, Conclusions of Law, and DBSI's consent to the entry of this Order,

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to § 13.1-521 A of the Act, DBSI is assessed and shall pay a civil monetary penalty in the amount of Two Hundred Fourteen Thousand Four Hundred Seventy-five Dollars and Four Cents ($214,475.04) (Virginia's pro rata share of the $15,000,000 total penalty that DBSI agreed to pay pursuant to the Settlement), due and payable within ten (10) days of the entry of this Order to the Treasurer of the Commonwealth of Virginia.

(2) DBSI shall take certain measures, enumerated below, with respect to all current and former clients of DBSI that purchased "Eligible ARS," defined below, from DBSI on or before February 13, 2008 ("Relevant Class"). For purposes of this Order, "Eligible ARS" shall be defined as ARS purchased from DBSI that were subject to auctions that were not continuously succeeding between February 13, 2008, and August 31, 2008.

(3) DBSI shall have offered to purchase at par Eligible ARS, that were purchased from DBSI prior to February 13, 2008, held by: (i) all individuals; (ii) legal entities forming an investment vehicle for family members including but not limited to IRA accounts, Trusts, Family Limited Partnerships and other legal entities performing a similar function; (iii) all charities and non-profits; and (iv) small to medium sized businesses with assets of $10 million dollars or less with Deutsche Bank as of July 31, 2008 (collectively, "Individual Investors").

(a) DBSI shall have completed all purchases from Individual Investors who accepted the offer (i) prior to November 19, 2008, by November 19, 2008, and (ii) prior to December 31, 2008, by December 31, 2008. For any Individual Investor who accepted the offer between December 31, 2008, and June 30, 2009, DBSI will have completed the purchase within seven (7) business days of DBSI's receipt of his or her acceptance. However, Individual Investors may have requested that DBSI purchase the Eligible ARS on the next scheduled auction date after DBSI's receipt of its acceptance, in which event DBSI will have completed the purchase within seven (7) business days of that auction.

(b) DBSI shall have provided notice to customers of the settlement terms and DBSI shall have established a dedicated telephone assistance line, with appropriate staff, to respond to questions from customers concerning the terms of this Order.

(4) No later than November 19, 2008, any DBSI Individual Investor that DBSI has reasonably identified who sold ARS below par between February 13, 2008, and August 31, 2008, will have been paid the difference between par and the price at which the investor sold the ARS.

(5) DBSI shall consent to participate, at the Eligible Customer's election, in the special arbitration procedures as briefly described below. Under these procedures, the Special Arbitration Process that applies to firms that have entered into settlements with state regulators ("State SAP"), under the auspices of Financial Industry Regulatory Authority ("FINRA"), will be available for the exclusive purpose of arbitrating any Individual Investor's consequential damages claim:

(a) No later than November 19, 2008, DBSI shall have notified those DBSI Individual Investors who own ARS, pursuant to the terms of the Settlement, that a public arbitrator (as defined by section 12100(u) of the NASD Code of Arbitration Procedures for Customer Disputes, eff. April 16, 2007), under the auspices of FINRA, would be available for the exclusive purpose of arbitrating any DBSI Individual Investor's consequential-damages claim.

(b) Arbitration shall be conducted by public arbitrators and DBSI will pay all applicable forum and filing fees.

(c) Any DBSI Individual Investors who choose to pursue such claims shall bear the burden of proving that they suffered consequential damages and that such damages were caused by investors' inability to access funds consisting of investors' ARS holdings at DBSI.

(d) DBSI shall be able to defend itself against such claims; provided, however, that DBSI shall not contest liability related to the sale of ARS in these arbitrations; and provided further that DBSI shall not be able to use as part of its defense a DBSI Individual Investor's decision not to borrow money from DBSI.

(e) Individual Investors who elect to use the State SAP provided for in this Order shall not be eligible for punitive damages, or any other type of damages other than consequential damages. The State SAP will govern the availability of attorneys' fees.

(f) All customers, including but not limited to Individual Investors who avail themselves of the relief provided pursuant to this Order, may pursue any remedies against DBSI available under the law. However, Individual Investors who elect to utilize the special arbitration process set forth above are limited to the remedies available in that process and may not bring or pursue a claim relating to Eligible ARS in another forum.

(6) DBSI shall endeavor to work with issuers and other interested parties, including regulatory and governmental entities, to expeditiously provide liquidity solutions for institutional investors not covered by paragraph 3 immediately above. Beginning November 19, 2008, and then quarterly after that, DBSI shall submit a written report to the representative specified by NASAA ("NASAA Representative") outlining the efforts in which DBSI has engaged and the results of those efforts with respect to DBSI institutional investors' holdings in ARS. DBSI shall confer with the NASAA Representative no less frequently than quarterly to discuss DBSI's progress to date. Such quarterly reports shall continue until no later than December 31, 2009. Following every quarterly report, the NASAA Representative shall advise DBSI of any concerns and, in response, DBSI shall discuss how DBSI plans to address such concerns.

(7) DBSI shall have refunded refinancing fees DBSI has received from municipal auction rate issuers that issued such securities through DBSI in the initial primary market between August 1, 2007, and February 13, 2008, and refinanced those securities after February 13, 2008.

(8) DBSI shall have made its best efforts to identify Individual Investors who took out loans from DBSI, between February 13, 2008, and June 30, 2009, that were secured by Eligible ARS that were not successfully auctioning at the time the loan was taken out from DBSI. DBSI shall have refunded to those Individual Investors any interest associated with the ARS-based portion of those loans in excess of the total interest and dividends received on the ARS during the duration of the loan. Such refunds shall have occurred no later than July 31, 2009.

GENERAL PROVISIONS

(9) This Order concludes the investigation by the Commission and any other action that the Commission could commence under applicable Virginia law on behalf of the Commonwealth of Virginia as it relates to DBSI's marketing and sale of ARS to DBSI's "Individual Investors," as defined above.

(10) The Commission shall refrain from taking legal action, if necessary, against DBSI with respect to its institutional investors until November 19, 2009.

(11) The Commission will not seek additional monetary penalties from Deutsche Bank relating to DBSI's marketing and sale of ARS.

(12) If payment is not made by DBSI, or if DBSI defaults in any of its obligations set forth in this Order, the Commission may vacate this Order, at its sole discretion, upon ten (10) days notice to DBSI and without opportunity for hearing or may issue a Rule to Show Cause for enforcement under the Act.

(13) This Order is not intended to indicate that Deutsche Bank or any of its affiliates or current or former employees shall be subject to any disqualifications contained in the federal securities laws, the rules and regulations thereunder, the rules and regulations of self regulatory organizations or various states' securities laws including any disqualifications from relying upon the registration exemptions or safe harbor provisions. In addition, this Order is not intended to form the basis for any such disqualifications.

(14) For any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against Deutsche Bank, limit or create liability of Deutsche Bank, or limit or create defenses of Deutsche Bank to any claims.

(15) Nothing herein shall preclude the Commonwealth of Virginia, its departments, agencies, boards, commissions, authorities, political subdivisions and corporations (collectively, "State Entities"), other than the Commission and only to the extent set forth in paragraph (9) immediately above, and the officers, agents, or employees of State Entities from asserting any claims, causes of action, or applications for compensatory, nominal and/or punitive damages, administrative, civil, criminal, or injunctive relief against Deutsche Bank in connection with the marketing and sale of ARS at DBSI.

(16) This Order shall not disqualify Deutsche Bank or any of its affiliates or current or former employees from any business that they otherwise are qualified or licensed to perform under applicable state law and this Order is not intended to form the basis for any disqualification.

CASE NOS. SEC-2009-00088 AND SEC-2010-00007
SEPTEMBER 28, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
LOG CABIN BBQ, LLC
and
FRANK W. BURKS, Defendants

FINAL ORDER

On February 16, 2010, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against Log Cabin BBQ, LLC ("Log Cabin") and Frank W. Burks ("Burks") (collectively, "Defendants"). The Rule alleged various violations of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia. Specifically, it alleged that the Defendants offered and sold a franchise in the Commonwealth of Virginia without being registered in violation of § 13.1-560 of the Act, and failed to provide a Virginia franchisee with the appropriate disclosure documents in violation of § 13.1-563 (4) of the Act.

The Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for March 25, 2010. Additionally, the Rule ordered the Defendants to file a responsive pleading on or before March 10, 2010, in which the Defendants were required to expressly admit or deny the allegations in the Rule and present any affirmative defenses that they intended to assert. The Defendants were advised that they may be found in default if they failed to either timely file a responsive pleading or other appropriate pleading, or if they filed such pleading and failed to make an appearance at the hearing. If found in default, the Defendants were advised that they would be deemed to have waived all objections to the admissibility of evidence and may have entered against them a judgment by default imposing some or all of the sanctions permitted by law.

On March 16, 2010, the Division of Securities and Retail Franchising ("Division") filed a Motion to Continue based upon the belief that proper service had not been obtained on the Defendants. The Division requested the Hearing Examiner continue the scheduled hearing to permit proper service. By Hearing Examiner's Ruling dated March 18, 2010, the Motion to Continue was granted.

On May 12, 2010, the Division filed a Motion to Set Case for Hearing. The Division stated that on March 18, 2010, the return receipt from the certified mailing of the Rule was delivered but returned refused. The Division contended the Defendants were properly served and requested that the hearing in this matter be scheduled for June 4, 2010. Also on May 12, 2010, the Division filed a Motion for Relief in which it requested a change in the filing requirements. In a Hearing Examiner's Ruling dated May 13, 2010, among other things, the hearing was scheduled for June 23, 2010.

An evidentiary hearing on the Rule was convened on June 23, 2010. The Defendants failed to appear after receiving notice of the hearing. The Division presented proof of notice that the Defendants were served with the Rule and the Hearing Examiner's Ruling of May 13, 2010.

At the hearing, the Division, by counsel, moved for the entry of default judgment against the Defendants. The affidavit of Jonathan Hawkins, investigator with the Division, together with attachments, was accepted into the record in support of the Division's motion.

The Division requested that the Hearing Examiner: (i) grant its motion for entry of default judgment; (ii) recommend to the Commission that the Commission enter a judgment order against the Defendants imposing a Twenty-five Thousand Dollar ($25,000) monetary penalty, the maximum amount under the Act, for each violation of the Act committed by the Defendants; (iii) recommend to the Commission that Defendants pay for the costs of the Division's investigation; (iv) recommend rescission and restitution to the Virginia franchisee in the amount of Twenty Thousand Dollars ($20,000); and (v) the Defendants be permanently enjoined from violating the Act.

On August 6, 2010, the Hearing Examiner issued his Report. In his Report, he found that: (i) the Division's motion for entry of default judgment should be granted; (ii) the testimony and documentary evidence submitted by the Division proved by clear and convincing evidence the Defendants' violations of the Act; (iii) each Defendant should be fined Fifty Thousand Dollars ($50,000); (iv) Log Cabin be assessed Nine Thousand Two Hundred Sixteen Dollars and Twenty-five Cents ($9,216.25) to pay the actual costs of the Division's investigation; (v) Burks be assessed Seventy-five Dollars and Seventy-five Cents ($75.75) to pay the actual costs of the Division's investigation; and (vi) the Defendants be permanently enjoined from violating the Act.

The Report allowed the parties twenty-one (21) days in which to provide comments. Neither the Defendants nor the Division filed comments to the Report.

NOW THE COMMISSION, upon consideration of the Rule, the record, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Hearing Examiner's findings and recommendations are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant Log Cabin in the amount of Fifty Thousand Dollars ($50,000).

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant Burks in the amount of Fifty Thousand Dollars ($50,000).

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-567 of the Act, Defendant Log Cabin shall pay Nine Thousand Two Hundred Sixteen Dollars and Twenty-five Cents ($9,216.25) to the Division for its costs of investigation.

(4) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-567 of the Act, Defendant Burks shall pay Seventy-five Dollars and Seventy-five Cents ($75.75) to the Division for its costs of investigation.

(5) The Defendants are permanently enjoined from violating the Act in the future.

(6) This case is dismissed and the papers herein shall be placed in the file for ended causes.

CASE NO. SEC-2009-00110
APRIL 16, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
TD AMERITRADE, INC.,
Defendant

CONSENT ORDER

TD Ameritrade, Inc. ("Defendant" or "TD") is a broker-dealer registered in the Commonwealth of Virginia;

Coordinated investigations into the Defendant's activities in connection with certain of its sales practices regarding the marketing and sale of auction rate securities during the period of approximately January 24, 2006, through February 13, 2008, have been conducted by a multistate task force;

Those coordinated investigations resulted in the simultaneous entry on July 20, 2009 of Consent Orders against the Defendant by the U.S. Securities and Exchange Commission, the Office of the Attorney General of the State of New York, and the Commonwealth of Pennsylvania;

The Defendant has cooperated with the regulators conducting the investigations by responding to inquiries, making witnesses available, providing documentary evidence and other materials, and providing regulators with access to facts relating to the investigation;

The Defendant, having advised regulators that it desires to settle and resolve the investigations, without admitting or denying the allegations therein, consents to the State Corporation Commission ("Commission") making findings and conclusions and entering this Consent Order ("Order"); and

The Defendant elects to permanently waive any right to a hearing and appeal under § 12.1-39 of the Code of Virginia with respect to this Order.

NOW, THEREFORE, the Commission, as administrator of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, hereby enters this Order.

I.

FINDINGS OF FACT

1. The Defendant (CRD #7870) was, at all times material herein, a New York corporation with its principal place of business at 1005 N. Ameritrade Place, Bellevue, Nebraska 68005.

2. The Defendant is in the business of effecting transactions in securities in the Commonwealth of Virginia as a "broker-dealer" within the meaning of the Act.

3. The Defendant maintains branch offices in Virginia.

4. The Defendant has and has had customers (Customers or TD Customers) located across the United States of America, including Virginia.

5. Prior to February 13, 2008, the Defendant solicited and sold financial instruments known as auction rate securities ("ARS") to at least one resident of Virginia.

ARS

6. ARS are bonds or preferred stocks that have interest rates or dividend yields that are periodically reset through an auction process, typically every seven (7), twenty-eight (28), or thirty-five (35) days.

7. ARS are usually issued with thirty (30) year maturities, but ARS maturities can range from five years to perpetuity.

8. ARS can be attractive investments to investors because ARS may offer slightly higher yields than various alternative products, including forms of cash alternative products.

9. An ARS yield is determined by the periodic auctions (commonly referred to as "Dutch" auctions) during which ARS are auctioned at par.

10. ARS typically can only be bought or sold at par at one of these periodic Dutch auctions.

11. Under the typical procedures for an ARS auction in effect prior to February 13, 2008, an investor, including TD Customers, who wished to purchase ARS at auction, submitted a bid that included the minimum interest or dividend rate that the investor would accept.

12. ARS holders could either choose to keep their securities until the next auction or submit offers to sell their ARS.

13. An auction agent collected all of the bids and offers for a particular auction.

14. The final yield rate at which the ARS were sold was the "clearing rate" and the clearing rate applied to that particular ARS until the next auction.

15. Bids with the lowest rate and then successively higher rates were accepted until all ARS sell orders were filled.

16. The clearing rate was the lowest rate bid sufficient to cover all ARS offered for sale in the auction.

17. If there were not enough bids to cover the ARS offered for sale in an auction, then an auction would fail.

18. In a failed auction, investors, including TD Customers, who wanted to sell, were not able to do so and such investors held their ARS until at least the next auction.

19. In the event of a failed auction, an ARS issuer pays the holders a maximum rate or "penalty" rate, which is either a flat rate or a rate based on a formula set forth in the ARS offering documents.

20. Penalty rates might be higher or lower than the prior clearing rate or market rates on similar products.

21. Due to various market conditions in the early part of 2008, many of the broker-dealers that acted as underwriters of the ARS offerings or as lead managers for the ARS auctions stopped submitting their own bids in support of the ARS auctions.

22. As a result, by February 13, 2008, the ARS market began to experience widespread auction failures, leaving ARS investors, including TD Customers throughout the United States of America, unable to sell their ARS holdings.

23. On February 13, 2008, through the date of this Order, the ARS market has continued to experience widespread failures, making ARS holdings illiquid.

24. Some ARS have been redeemed by their issuers since February 13, 2008, however, thousands of ARS investors, including TD Customers, who currently hold ARS have been unable to sell through the auction process.

25. TD Customers currently hold hundreds of millions of dollars in illiquid ARS that they are unable to sell through the auction process.

Defendant's Role in the ARS Market

26. To facilitate the auction process, issuers of ARS selected one or more broker dealers to underwrite an offering and/or manage an auction process.

27. In many instances, these chosen broker-dealers submitted their own bids to support the ARS auctions and to prevent the auctions from failing.

28. TD did not act as an underwriter, manager, or agent for any issuer of ARS.

29. As a distributing or "downstream" broker-dealer, the Defendant did not submit bids in an effort to support any of the ARS auctions or to prevent them from failing.

30. TD also did not hold any significant inventory of ARS in its broker-dealer house account(s).

31. TD acted solely as an agent, both on a solicited and unsolicited basis, for TD Customers by submitting their bids to purchase and orders to sell ARS.

32. TD received revenue, including fees for acting as an agent for customers in connection with ARS.

Defendant's ARS Sales to TD Customers

33. In soliciting TD Customers to purchase ARS prior to the middle of February 2008, TD's registered representatives made inaccurate comparisons between ARS and other investments, such as certificates of deposit or money market accounts, telling customers that ARS were similar investments but with a slightly higher yield.

34. In soliciting TD Customers to purchase ARS prior to the middle of February 2008, TD's registered representatives also did not accurately characterize the investment nature of ARS since ARS are highly complex securities that are very different from money market funds or certificates of deposit, as evidenced by, among other things, the dependence of ARS on successful auctions for liquidity.

35. TD's registered representatives also did not provide customers with adequate and complete disclosures regarding the complexity of the auction process and the risks associated with ARS, including the circumstances under which an auction could fail.

36. TD's registered representatives did not adequately disclose to TD Customers that the Customer's ability to liquidate the ARS depended on the willingness of other investors to buy the instruments at an auction.

37. The information described in Paragraphs 33 through 36 was material to TD Customers.

38. The Defendant was aware that its registered representatives marketed ARS to customers as liquid and as an alternative to cash, certificates of deposit, or money market funds without adequately disclosing that ARS are complex securities that may become illiquid.

II.

CONCLUSIONS OF LAW

The Commission has jurisdiction over this matter pursuant to the Act.

By engaging in the acts and conduct set forth in paragraphs I.5 through I.38, the Defendant, in connection with the offer, sale or purchase of a security, made untrue statements of material fact or omitted to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, in violation of § 13.1-502(2) of the Act.

III.

ORDER

On the basis of the Findings of Fact, Conclusions of Law, and the Defendant's consent to the entry of this Order, Accordingly,

IT IS ORDERED THAT:

1. This Order concludes the investigation by the Commission and any other action that the Commission could commence under applicable Virginia law on behalf of the Commonwealth of Virginia as it relates to the Defendant, concerning the marketing and sales of ARS by the Defendant, provided, however, that excluded from and not covered by this paragraph are any claims by the Commission arising from or relating to the enforcement of this Order. The Commission reserves the right to investigate and commence any proceeding it deems appropriate, in its sole discretion, relating in any way to (a) any Customer who requests a purchase from the Defendant and who purchased Eligible ARS at TD prior to February 13, 2008, but transferred such Eligible ARS away prior to January 24, 2006; (b) any account owner described in paragraph III.3(b)(3) of this Order that was excluded from the definition of Eligible Investor because it had over $10 million in assets at TD or total assets greater than $50 million; or (c) any account owner who holds or held Eligible ARS that were purchased at TD or entities acquired by TD's parent companies in an account owned, managed, or advised by or through an independent registered investment adviser.

2. This Order is entered into solely for the purpose of resolving the referenced multistate investigations, and is not intended to be used for any other purpose.

Relief for ARS Investors:

Purchases from ARS Investors

3. The Defendant will provide liquidity to Eligible Investors, as defined below, by purchasing Eligible ARS, as defined below, that have failed at auction at least once since February 13, 2008, at par, in the manner described below.

a. "Eligible ARS," for the purposes of this Order, shall mean ARS purchased at TD on or before February 13, 2008, and that have failed at auction at least once since February 13, 2008. Notwithstanding the foregoing definition, Eligible ARS shall not include ARS that were purchased at TD or entities acquired by TD's parent companies in accounts owned, managed, or advised by or through independent registered investment advisers; and

b. "Eligible Investors," for the purposes of this Order, shall mean the following current and former account owners who purchased Eligible ARS at TD on or before February 13, 2008, did not transfer such Eligible ARS away from TD prior to January 24, 2006 (Merger Date)[1], and held those securities on February 13, 2008:

1. Natural persons (including their IRA accounts, testamentary trust and estate accounts, custodian UGMA and UTMA accounts, and guardianship accounts); or

2. Charities, endowments, or foundations with Internal Revenue Code Section 501(c)(3) status; or

3. Small Businesses and Institutions. For purposes of this provision, "Small Businesses and Institutions" shall mean the following account owners with total assets at TD of $10 million or less as of March 13, 2009: trusts; corporate trusts; corporations; employee pension plans/ERISA and Taft Hartley Act plans; educational institutions; incorporated not-for-profit organizations; limited liability companies; limited partnerships; non-public companies; partnerships; personal holding companies; unincorporated associations; and government and quasi-government entities:

i. In calculating total assets at TD for the purposes of paragraph III.3(b)(3)iv of this Order, TD may include household accounts;

ii. If an account owner described within paragraph III.3(b)(3)(iv) transferred its Eligible ARS away from TD prior to March 13, 2009, then the date of the account owner's request to transfer its Eligible ARS shall be used for determining whether the account owner had $10 million or less in assets at TD;

iii. "Small Businesses and Institutions" shall not include broker-dealers or banks acting as conduits for their customers, or customers that had total assets of greater than $50 million as of the date of this Order; and

iv. In no event shall TD be required by this Order to purchase more than $10 million of ARS from any Small Business or Institution.

4. The Defendant shall offer to purchase, at par plus accrued and unpaid dividends/interest, from Eligible Investors their Eligible ARS ("Purchase Offer"). The Purchase Offer shall remain open as follows:

a. First Offer Period. For those Eligible Investors with assets at TD of $250,000 or less as of March 13, 2009, the Purchase Offer shall remain open for a period of seventy-five (75) days from the date on which the Purchase Offer was sent ("First Offer Period"). To the extent that any Eligible Investor transferred their Eligible ARS away from TD before March 13, 2009, then the measurement date for the $250,000 threshold shall be the date on which the transfer was requested by the Eligible Investor; and

[1] The Defendant was formed as a result of the consolidation of retail brokerage operations of Ameritrade, Inc. and TD Waterhouse Investors Services, Inc. following Ameritrade Holding Corporation's acquisition of TD Waterhouse Group, Inc. on January 24, 2006.

b. Second Offer Period. For those Eligible Investors with assets at TD of more than $250,000 as of March 13, 2009, the Purchase Offer shall remain open until at least March 23, 2010 ("Second Offer Period"), subject to extension pursuant to paragraph III.7(b) below. To the extent that any Eligible Investor transferred their Eligible ARS away from TD before March 13, 2009, then the measurement date for the $250,000 threshold shall be the date on which the transfer was requested by the Eligible Investor.

5. No later than August 10, 2009, the Defendant shall have undertaken its best efforts to identify and provide notice to Eligible Investors of the relevant terms of this Order. Said notice shall explain what Eligible Investors must do to accept, in whole or in part, the Purchase Offer. The Defendant shall also provide written notice of the relevant terms of this Order to any subsequently identified Eligible Investors.

6. To the extent that any Eligible Investors have not responded to the Purchase Offer on or before forty-five (45) days before the end of the applicable offer period (defined in paragraphs III.4(a) and (b) above), TD shall provide any such Eligible Investor with a second written notice informing them again of the Purchase Offer, including the date by which the applicable offer period will end. The Defendant shall also inform them of the relevant terms of this Order and any other material issues regarding the Eligible Investors' rights.

7. Eligible Investors may accept the Purchase Offer by notifying the Defendant, as described in the Purchase Offer, at any time before midnight, Eastern Time, on the last day of the applicable offer period. An acceptance must be received by TD prior to the expiration of the applicable offer period, or any extension thereof, to be effective. The purchases will be conducted as follows:

a. Purchases Relating to Eligible Investors to Whom the First Offer Period Applies. For those Eligible Investors to whom the First Offer Period applies, and who accept the Purchase Offer within the First Offer Period, the Defendant shall purchase their Eligible ARS no later than five (5) business days following the expiration of the First Offer Period;

b. Purchases Relating to Eligible Investors to Whom the Second Offer Period Applies. For those Eligible Investors to whom the Second Offer Period applies, and who accept the Purchase Offer within the Second Offer Period, the Defendant shall purchase their Eligible ARS as soon as practicable and, in any event, no later than five (5) business days following the expiration of the Second Offer Period ("Purchase Deadline"). The Defendant shall use its best efforts to effectuate all purchases under this paragraph by March 31, 2010, and in no event shall the purchases extend beyond June 30, 2010. In the event the Defendant's purchases under this paragraph extend beyond March 23, 2010, then the Second Offer Period shall be extended from March 23, 2010 until June 23, 2010;

c. An Eligible Investor may revoke acceptance of TD's Purchase Offer at any time up until the Defendant purchases such Eligible Investor's Eligible ARS or provides notice of the Defendant's intent to purchase such Eligible ARS;

d. The Defendant's obligation under this paragraph to those Eligible Investors who custodied their Eligible ARS away from TD as of the date of this Order shall be contingent on: (1) the Defendant receiving reasonably satisfactory assurance from the financial institution currently holding the Eligible Investor's Eligible ARS that the bidding rights associated with such Eligible ARS will be transferred to TD; and (2) transfer of the Eligible ARS back to TD; and

e. The Defendant shall use its best efforts to identify, contact, and assist any Eligible Investor who has transferred the Eligible ARS out of the Defendant's custody in returning such ARS to TD's custody, and shall not charge such Eligible Investor any fees relating to or in connection with the return to TD or custodianship by TD of such Eligible ARS.

8. In the event that the Defendant receives a purchase request from a customer who purchased Eligible ARS at TD prior to February 13, 2008, but who transferred such Eligible ARS away from TD prior to the Merger Date, the Defendant shall engage in good faith negotiations with such customer in an attempt to resolve the customer's request. The Defendant shall promptly notify a representative specified by the North American Securities Administrators Association ("NASAA representative") of all such requests.

9. By July 22, 2009, the Defendant shall have established: (a) a dedicated toll-free telephone assistance line, with appropriate staffing, to provide information and to respond to questions concerning the terms of this Order; and (b) a public Internet page on its corporate Website(s), with a prominent link to that page appearing on TD's relevant homepage(s), to provide information concerning the terms of this Order and, via an e-mail address or other reasonable means, to respond to questions concerning the terms of this Order. The Defendant shall maintain the telephone assistance line and Internet page through at least the last day of the Purchase Deadline, or any extension thereof.

Relief for Eligible Investors Who Sold Below Par

10. No later than seventy-five (75) days from July 20, 2009, the Defendant shall have undertaken its best efforts to identify any Eligible Investor who sold Eligible ARS below par between February 13, 2008, and the date of this Order ("Below Par Seller") and pay them the difference between par and the price at which the Eligible Investor sold the Eligible ARS, plus reasonable interest thereon. The Defendant shall promptly pay any such Below Par Seller identified thereafter.

Reimbursement for Related Loan Expenses

11. As soon as practicable, but not later than seventy-five (75) days from July 20, 2009, the Defendant shall have made its best efforts to identify Eligible Investors who took out loans from the Defendant after February 13, 2008, that were secured by Eligible ARS that were not successfully auctioning at the time the loan was taken out from TD and paid interest associated with the ARS based portion of those loans in excess of the total interest and dividends received on the ARS during the duration of the loan. The Defendant shall reimburse such customers promptly for the excess expense, plus reasonable interest thereon.

Arbitration

12. The Defendant consents to participate in a special arbitration (Arbitration) for the exclusive purpose of arbitrating any Eligible Investor's consequential damages claim arising from their inability to sell Eligible ARS.

13. The Defendant will notify Eligible Investors of the Arbitration process under the following terms:

a. The Arbitration will be conducted by a single public arbitrator (as defined by Section 12100(u) of the FINRA Code of Arbitration Procedures for Customer Disputes);

b. The Defendant will pay all applicable forum and filing fees. Eligible Investors may seek recovery for their attorneys' fees to the same extent that they may under standard arbitration procedures;

c. Any Eligible Investor who chooses to pursue such claims in the Arbitration shall bear the burden of proving that they suffered consequential damages and that such damages were caused by their inability to access funds invested in Eligible ARS;

d. In the Arbitration, the Defendant shall be able to defend itself against such claims, provided, however, that the Defendant shall not contest liability for the illiquidity of the underlying ARS or use as part of its defense any decision by an Eligible Investor not to borrow money from TD;

e. All customers, including but not limited to Eligible Investors who avail themselves of the relief provided pursuant to this Order, may pursue any remedies against the Defendant available under the law. However, Eligible Investors that elect to utilize the Arbitration process set forth above are limited to the remedies available in that process and may not bring or pursue a claim relating to Eligible ARS in another forum.

f. All terms used but not defined herein shall have the meaning assigned to them by the Act.

Reporting and Meetings

14. Within forty-five (45) days of the end of each month beginning with a report covering the month ended after the date of this Order and continuing through and including a report detailing the month ended March 31, 2010, the Defendant will submit a monthly written report to the NASAA representative detailing its progress with respect to its obligations pursuant to this Order.

15. The Defendant will confer with the NASAA representative on a quarterly basis to discuss TD's progress to date. Such quarterly discussions will continue through the first quarter of 2010.

16. The reporting or meeting deadlines set forth above may be amended with written permission from the NASAA representative.

Compliance Measures

17. The Defendant is ordered to provide the NASAA representative with a list of Customers, (delineated and separated by state residency and including amounts of Eligible ARS then held at TD) who receive notice of the Offer contained in paragraphs III.3 and III.4 of this Order promptly after such notice is sent.

18. The Defendant is ordered to provide the NASAA representative with a list of Below Par Sellers (delineated and separated by state residency and including amounts of Eligible ARS) who are eligible for relief pursuant to paragraph III.10 of this Order promptly after the First Offer Period ends.

19. The Defendant is ordered to provide the NASAA representative with a list of Customers who took loans from TD secured by Eligible ARS (delineated and separated by state residency and including amounts of Eligible ARS and original loan amounts) who are entitled to relief under paragraph III.11 of this Order promptly after the First Offer Period ends.

20. The Defendant is ordered to comply with the Act and with the regulations adopted by the Commission.

21. For any person or entity not a party to this Order, unless expressly stated herein, this Order does not limit or create any private rights or remedies against the Defendant, limit or create liability of the Defendant, or limit or create defenses of the Defendant to any claims.

22. Nothing herein shall preclude the Commonwealth of Virginia, its departments, agencies, boards, commissions, authorities, political subdivisions, and corporation (collectively "State Entities"), other than the Commission and only to the extent set forth in paragraph III.1, and the officers, agents, or employees of State Entities from asserting any claims, causes of action, or applications for compensatory, nominal and/or punitive damages, administrative, civil, criminal, or injunctive relief against the Defendant in connection with the marketing and sale of ARS at TD.

23. This Order is binding in the Commonwealth of Virginia.

24. Should the Defendant fail to comply with any or all provisions of this Order, the Commission may impose sanctions and costs and seek other appropriate relief subject to the Defendant's rights to notice and a hearing pursuant to the Act.

25. This Order and any dispute related thereto shall be construed and enforced in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to any choice of law principles.

26. This Order shall be binding upon the Defendant and its successors and assigns as well as on successors and assigns of relevant affiliates with respect to all conduct subject to the provisions above and all future obligations, responsibilities, undertakings, commitments, limitations, restrictions, events, and conditions.

CASE NO. SEC-2009-00112
JANUARY 6, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION

v.

SCOTT & STRINGFELLOW, LLC,
Defendant

SETTLEMENT ORDER

Scott & Stringfellow, LLC ("Defendant"), is a broker-dealer registered in the Commonwealth of Virginia;

The Division of Securities and Retail Franchising ("Division") of the State Corporation Commission ("Commission") has conducted an investigation of the Defendant's activities in connection with certain of its sales practices regarding the marketing and sale of auction rate securities during the period of approximately January 1, 2006, through February 13, 2008; and

The Defendant has cooperated with the Division in its investigation by self-reporting the offer and sale of auction rate securities and responding to inquiries, making members of the firm available to answer questions, providing documentary evidence and other materials, and providing the Division with access to facts relating to the investigation. The Defendant acted primarily as a downstream broker through a distribution of auction rate securities.

Based on an investigation conducted by the Division it is alleged that the Defendant violated Commission Rules 21 VAC 5-20-260 A and B and 21 VAC 5-20-280 A 3 and A 18 when the Defendant's registered representatives allegedly did not provide all of its customers with adequate and complete disclosures regarding the complexity of the auction process and the risks associated with auction rate securities, including the circumstances under which an auction could fail and that the Defendant's registered representatives allegedly did not adequately disclose to all of its customers that the customer's ability to liquidate the auction rate securities depended on the willingness of other investors to buy the instruments at an auction.

The Commission is authorized by § 13.1-506 of the Act to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order (also referred to, in the alternative, as "Order").

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

1. This Order concludes the investigation by the Commission and any other action that the Commission could commence under applicable Virginia law on behalf of the Commonwealth of Virginia as it relates to the Defendant, concerning the marketing and sales of auction rate securities by the Defendant, provided, however, that excluded from and not covered by this paragraph are any claims by the Commission arising from or relating to the enforcement of this Settlement Order in the event the Defendant fails to abide by the terms hereunder. The Commission reserves the right to investigate and commence any proceeding it deems appropriate, in its sole discretion, relating in any way to any customer who requested a repurchase from the Defendant pursuant to the terms and conditions of its Auction Rate Securities Offer to Purchase ("Offer to Purchase"), as defined below, and who purchased auction rate securities from the Defendant pursuant to the terms and conditions prior to February 11, 2008, and held in certain customer accounts as of September 18, 2008, if the Defendant failed to accommodate such customer's repurchase request. For purposes of the Offer to Purchase, "customer" shall mean individuals (including any IRAs), a charity, a 501(c)(3) or 501(c)(4) nonprofit company and small to medium-sized business having with the Defendant on account or affiliated accounts of $10 million or less, an advisory account with the Defendant held by an investment advisory client, or on account with the Defendant held by and in the name of a retirement plan, except for current or former associated persons of the Defendant.

2. The Defendant will abide by the terms and conditions of its Offer to Purchase from customers on file with the Division;

3. For any customer who was eligible for the Offer to Purchase, but sold their securities under par prior to when the Offer to Purchase was made, the Defendant shall pay the customer the difference between par and the price at which the customer sold the auction rate securities subject to the Offer to Purchase, plus reasonable interest thereon ("Below Par Seller"). The Defendant shall promptly pay any such Below Par Seller identified thereafter.

4. The Defendant shall have made its best efforts to identify customers who were eligible for the Offer to Purchase and took out loans from the Defendant after February 11, 2008, that were secured by the customer's auction rate securities that were not successfully auctioning at the time the loan was taken out from the Defendant and paid interest associated with the auction rate securities based on a portion of those loans in excess of the total interest and dividends received on the auction rate securities during the duration of the loan. The Defendant shall reimburse such customers promptly for the excess expense, plus reasonable interest thereon.

5. With respect to the customers who were eligible for the Offer to Purchase, the Defendant consents to participate in a special arbitration ("Arbitration") for the exclusive purpose of arbitrating any such customer's consequential damages claim arising from the customer's inability to sell auction rate securities. The Arbitration will be conducted by a single public arbitrator (as defined by Section 12100(u) of the Financial Industry Regulatory Authority ("FINRA") Code of Arbitration Procedures for Customer Disputes);

a. The Defendant will pay all applicable forum and filing fees. Customers may seek recovery for their attorneys' fees to the same extent that they may under standard arbitration procedures;

b. Any customer who chooses to pursue such claims in the Arbitration shall bear the burden of proving that they suffered consequential damages and that such damages were caused by their inability to access funds invested in auction rate securities;

c. In the Arbitration, the Defendant shall be able to defend itself against such claims, provided, however, that the Defendant shall not contest liability for the illiquidity of the underlying auction rate securities or use as part of its defense any decision by a customer not to borrow money from the Defendant; and

d. All customers who avail themselves of the relief provided pursuant to this Order, may pursue any remedies against the Defendant available under the law. However, customers that elect to utilize the Arbitration process set forth above are limited to the remedies available in that process and may not bring or pursue a claim relating to customers in another forum.

6. Within forty-five (45) days of the end of each month beginning with a report covering the month ended one month after the date of the entry of this Settlement Order and continuing through and including a report detailing the month ended December 31, 2010, the Defendant will submit a monthly written report to the Division detailing (i) in its first report, customers identified pursuant to Paragraphs 2, 3, 4, and 5 of this Settlement Order; and (ii) thereafter, any changes from the immediately preceding report.

7. Within ninety (90) days of the date of entry of the Settlement Order, the Defendant shall submit a written report to the Division outlining the efforts in which Defendant has engaged and the results of those efforts with respect to the Defendant's customers' holdings in auction rate securities that were not eligible for the Offer to Purchase. This report will continue on a quarterly basis until such time as all customers' auction rate securities are resolved.

For purposes of this Settlement Order, the Defendant represents in good faith to the Commission that to the best of the Defendant's knowledge, it has already fully complied with the terms and undertakings in Paragraph 2, and there are no Below Par Sellers pursuant to Paragraph 3.

The Defendant will comply with the Act and with the regulations adopted by the Commission.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2009-00113
APRIL 13, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
CAPITOL SECURITIES MANAGEMENT, INC.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Capitol Securities Management, Inc. ("Defendant") violated Securities Rule 21 VAC 5-20-260 B by failing to exercise diligent supervision over the securities activities of its agents.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, by § 13.1-521 C of the Act to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order ("Order").

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

(1) The Defendant will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Eleven Thousand Three Hundred Dollars ($11,300) in monetary penalties.

(2) The Defendant will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Three Thousand Seven Hundred Dollars ($3,700) to defray the cost of investigation.

(3) The Defendant will amend its current policies and procedures to specifically prohibit its agents from engaging in the practice of lending or borrowing money or securities from or to customers residing in Virginia. The amendments to the Defendant's policies and procedures are attached to this Order.

(4) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

The Commission, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendant from its reporting obligations to any regulatory authority.

CASE NO. SEC-2009-00114
JUNE 17, 2010

COMMONWEALTH OF VIRGINIA, ex rel.
STATE CORPORATION COMMISSION
v.
ANDREW PILZ
and
TINA PILZ D/B/A SKIN APPEAL DAY SPA, INC.,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Andrew Pilz and Tina Pilz d/b/a Skin Appeal Day Spa, Inc. ("Defendants"): (i) violated § 13.1-502 (2) of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia by, directly or indirectly, obtaining money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; (ii) violated § 13.1-504 A (i) of the Act by transacting business in the Commonwealth of Virginia without being duly registered with the Division as an agent of the issuer; and (iii) violated § 13.1-507 (i) of the Act by offering or selling securities that were not registered under the Act or exempt from registration.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendants' registration; by § 13.1-519 of the Act to issue temporary or permanent injunctions; by § 13.1-518 A of the Act to impose costs of investigation; by § 13.1-521 A of the Act to impose certain monetary penalties; by § 13.1-521 C of the Act to make rescission and restitution; and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia the amount of Two Hundred Ten Thousand Dollars ($210,000) in monetary penalties. The penalty will be waived upon the Defendants making an offer of rescission to the investors who were offered or sold securities in violation of the Act.

(2) The Defendants will pay to the Treasurer of the Commonwealth of Virginia the amount of Two Thousand Four Hundred Dollars ($2,400) to defray the costs of investigation. The penalty will be waived upon the Defendants making an offer of rescission to the investors who were offered or sold securities in violation of the Act.

(3) The Defendants will make a rescission offer to the investors who were offered or sold securities in violation of the Act.

(a) Within thirty (30) days of the date of entry of this Settlement Order, the Defendants will make a written offer of rescission sent by certified mail to the investors, which will include an offer to repay all monies invested by or through the Defendants, and a provision that gives each investor thirty (30) days from the date of receipt of the rescission offer to provide the Defendants with written notification of their decision to accept or reject the offer.

(b) The Defendants will provide to the Division a copy of the rescission offer for its review and comment at least ten (10) days before sending it to each investor.

(c) The Defendants will include with the written offer of rescission a copy of this Settlement Order.

(d) If the rescission offer is accepted, the Defendants will forward the payment to the investors within one hundred eighty (180) days of receipt of the acceptance.

(e) Within two hundred seventy (270) days from the date of the Settlement Order, the Defendants will submit to the Division proof of certified mailing of the rescission offer and an affidavit, executed by the Defendants, which contains the date on which each investor received the offer of rescission, the investor's response, and, if applicable, the amount and the date that payment was sent to the investor.

(4) The Defendants are permanently enjoined from transacting any further securities business in the Commonwealth of Virginia as an issuer, agent of an issuer, broker-dealer, broker-dealer representative, investment advisor, or investment advisor representative.

(5) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendants' failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2009-00118
SEPTEMBER 22, 2010

COMMONWEALTH OF VIRGINIA, ex rel.
STATE CORPORATION COMMISSION
v.
GLOBAL RETAILERS, LLC
and
BILL BUSSEY,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Global Retailers, LLC ("GRL") and Bill Bussey ("Bussey") (collectively, "Defendants"): (i) violated § 13.1-502 (2) of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, by directly or indirectly, obtaining money or property by means of any untrue statement of a material fact or any omission to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; (ii) Bussey violated § 13.1-504 A (i) of the Act by transacting business in the Commonwealth of Virginia without duly being registered with the Division as an agent of the issuer; (iii) GRL violated § 13.1-504 B of the Act by employing an unregistered agent in the offer and sale of securities; and (iv) the Defendants violated § 13.1-507 of the Act by offering or selling securities that were not registered under the Act or exempt from registration.

If the standards of the statutes are met, the State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendants' registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, by § 13.1-521 C of the Act to order the Defendants to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia the amount of Twenty Thousand Dollars ($20,000) in monetary penalties. The Defendants will make twelve (12) equal monthly installments with the first installment due contemporaneously with the entry of this Settlement Order.

(2) The Defendants will pay to the Treasurer of the Commonwealth of Virginia the amount of Twelve Thousand Five Hundred Dollars ($12,500) to defray the cost of investigation. The Defendants will make twelve (12) equal monthly installments with the first installment due contemporaneously with the entry of this Settlement Order.

(3) The Defendants will send a copy of this Settlement Order to every current investor within thirty (30) days from the date of entry of this Order. Additionally, the Defendants will submit an affidavit to the Division attesting to this fact within forty-five (45) days of the entry of this Settlement Order.

(4) The Defendants will send a copy of the 2008 Directors' Report including the independent auditor's opinion, the 2009 Consolidated Financial Statements, and the May 13, 2010 CPA letter to every current investor within thirty (30) days of the date of entry of this Settlement Order. Additionally, the Defendants will submit an affidavit to the Division attesting to this fact within forty-five (45) days of the entry of this Settlement Order.

(5) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendants' failure to comply with the terms and undertakings of the settlement.

CASE NOS. SEC-2009-00119 AND SEC-2010-00052
NOVEMBER 23, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel.*
STATE CORPORATION COMMISSION
v.
THE GLOVE LADY, LLC
and
ROBERT TEAGUE,
Defendants

FINAL ORDER

On June 9, 2010, the State Corporation Commission ("Commission") issued a Rule to Show Cause ("Rule") against The Glove Lady, LLC ("TGL") and Robert Teague ("Teague") (collectively, "Defendants"). The Rule alleged various violations of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia. Specifically, it alleged that the Defendants offered and sold franchises in the Commonwealth of Virginia without being registered in violation of § 13.1-560 of the Act, and failed to provide Virginia franchisees with the appropriate disclosure documents in violation of § 13.1-563 (4) of the Act.

The Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for August 4, 2010. Additionally, the Rule ordered the Defendants to file a responsive pleading on or before June 30, 2010, in which the Defendants were required to expressly admit or deny the allegations in the Rule and present any affirmative defenses that they intended to assert. The Defendants were advised that they may be found in default if they failed to either timely file a responsive pleading or other appropriate pleading, or if they filed such pleading and failed to make an appearance at the hearing. If found in default, the Defendants were advised that they would be deemed to have waived all objections to the admissibility of evidence and may have entered against them a judgment by default imposing some or all of the sanctions permitted by law.

On June 30, 2010, Teague filed a letter on behalf of the Defendants that stated, among other things, that TGL was no longer in business and insolvent. Teague asserted that the Defendants tried to comply with their legal obligations and asked for mercy from the court.

An evidentiary hearing on the Rule was convened on August 4, 2010. Gauhar R. Naseem, Esquire, appeared on behalf of the Division. The Defendants failed to appear after receiving notice of the hearing.

At the hearing, the Division, by counsel, offered into the record the affidavit of Jonathan Hawkins, investigator with the Division, together with attachments, and the return receipt from the certified mailing of the Rule.

The Division requested that the Hearing Examiner: (i) recommend to the Commission that the Commission enter a judgment order imposing a $25,000 monetary penalty for each violation of the Act for a total of $100,000 against TGL; (ii) recommend to the Commission that the Commission enter a judgment order imposing a $25,000 monetary penalty for each violation of the Act for a total of $100,000 against Teague; (iii) recommend to the Commission that the Defendants be ordered to make rescission and restitution to the Virginia franchisees; (iv) recommend to the Commission that each Defendant be assessed the amount of $4,472 for a total of $8,944 for costs of the Division's investigation; and (v) recommend the Defendants be permanently enjoined from violating the Act.

On August 20, 2010, the Hearing Examiner issued his Report. In his report, he found that (i) the testimony and documentary evidence submitted by the Division proved by clear and convincing evidence the Defendants' violations of the Act; (ii) each Defendant should be penalized a total of $50,000 for violations related to the sale of the franchise on December 12, 2007; and (iii) if the Defendants rescind both Virginia franchises and make restitution to the franchisees of their franchise fee, no other penalties will be required of either Defendant. The Report allowed the Defendants 21 days in which to provide comments. The Defendants did not file comments.

NOW THE COMMISSION, upon consideration of the Rule, the record, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Hearing Examiner's findings and recommendations are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant TGL in the amount of Fifty Thousand Dollars ($50,000);

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against Defendant Teague in the amount of Fifty Thousand Dollars ($50,000);

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-567 of the Act, each Defendant shall be assessed the amount of $4,472 for a total of $8,944 for costs of the Division's investigation;

(4) If the Defendants rescind both Virginia franchises and make restitution to the franchisees of their franchise fee within six months of the date of this order, and submit to the Division an Affidavit containing proof that restitution payments were made by providing certified mail return receipts and a copy of the check sent to each franchisee, no penalties will be required of either Defendant;

(5) The Defendants are permanently enjoined from violating the Act in the future; and

(6) This case is dismissed and the papers herein shall be placed in the file for ended causes.

CASE NO. SEC-2009-00120
AUGUST 4, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
MORGAN STANLEY & CO., INCORPORATED,
Defendant

CONSENT ORDER

Morgan Stanley & Co., Incorporated ("Morgan Stanley") is a broker-dealer registered in the Commonwealth of Virginia; and

Coordinated investigations into Morgan Stanley's activities in connection with the marketing and sale of auction rate securities ("ARS") during the period of approximately August 1, 2007, through February 11, 2008, have been conducted by a multi-state task force; and

Morgan Stanley has cooperated with regulators conducting the investigations by responding to inquiries, providing documentary evidence and other materials, and providing regulators with access to facts relating to the investigations; and

Morgan Stanley has advised regulators of its agreement to resolve the investigations relating to its practices in connection with the marketing and sale of ARS to retail investors; and

Morgan Stanley agrees to make (or to have made on its behalf) certain payments as part of the resolution of the investigations; and

Morgan Stanley elects to permanently waive any right to a hearing and appeal under § 13.1-521 A of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, and § 12.1-39 of the Code of Virginia with respect to this Consent Order ("Order");

NOW, THEREFORE, the State Corporation Commission ("Commission") hereby enters this Order:

I. FINDINGS OF FACT

1. Morgan Stanley admits the jurisdiction of the Commission; neither admits nor denies the Findings of Fact and Conclusions of Law contained in this Order; and consents to the entry of this Order by the Commission.

2. ARS are financial instruments that include auction preferred shares of closed-end funds, municipal auction rate bonds, and various asset-backed auction rate bonds (collectively referred to herein as "ARS"). ARS are long-term instruments where the interest/dividend is reset weekly or monthly.

3. Morgan Stanley participated in the marketing and sale of ARS.

4. In certain instances, Morgan Stanley, through its agents, advised certain clients that ARS were safe, liquid investments, when in fact ARS had significant liquidity risks associated with them.

5. Representatives of Morgan Stanley represented to certain customers of Morgan Stanley that ARS were short-term investments. In fact, because ARS are bonds with long-term maturities, their short-term liquidity was dependent on the successful operation of a bidding process known as a Dutch auction. Certain representatives of Morgan Stanley failed to disclose to certain customers with short-term liquidity needs that they might be unable to sell their ARS if the auction process failed.

6. In connection with the sale of ARS, certain agents of Morgan Stanley told certain investors that ARS were "just like cash" and "liquid with seven days notice."

7. Morgan Stanley marketed ARS to investors within a brochure entitled "Money Market Instruments." Within this brochure, ARS were listed under the subsection "Other Short-Term Instruments."

8. Since it began participating in the ARS market, Morgan Stanley submitted support bids—purchase orders for the entirety of an auction rate security issue for which it acted as the sole or lead broker. Support bids were proprietary orders of Morgan Stanley that would be filled, in whole or in part, if there was otherwise insufficient demand in an auction. When Morgan Stanley purchased ARS through support bids, ARS were then owned by Morgan Stanley and the holdings were recorded on Morgan Stanley's balance sheet. For risk management purposes, Morgan Stanley imposed limits on the amounts of ARS it could hold in inventory.

9. Because many investors could not ascertain how much of an auction was filled through Morgan Stanley's proprietary trades, they could not determine if auctions of Morgan Stanley were clearing because of normal marketplace demand or because Morgan Stanley was making up for the lack of demand through support bids. Generally, investors were also not aware that the liquidity of the ARS as to which Morgan Stanley was the managing broker-dealer depended upon Morgan Stanley's continued use of support bids. While Morgan Stanley could track its own inventory as a measure of the supply and demand for its ARS, ordinary investors had no comparable ability to assess the operation of Morgan Stanley's auctions. There was no way for such investors to monitor supply and demand in the market or to assess when broker-dealers might decide to stop supporting the market, thereby causing its collapse.

10. Starting in August 2007, the credit crisis and other deteriorating market conditions strained the ARS market. Some institutional investors withdrew from the market, decreasing demand for ARS.

11. The resulting market dislocation should have been evident to Morgan Stanley. Morgan Stanley's support bids filled the increasing gap in the demand in its auctions for ARS, sustaining the impression that the demand for ARS had not decreased. As a result, Morgan Stanley's ARS inventory grew significantly, requiring Morgan Stanley to raise its risk management limits on its ARS inventory.

12. From the fall of 2007 through February of 2008, demand for ARS continued to erode and Morgan Stanley's ARS inventory reached unprecedented levels. Morgan Stanley eventually became aware of the increasing strains in the ARS market and recognized the potential for widespread market failure. Morgan Stanley never disclosed these increasing risks of owning or purchasing ARS to its customers.

13. In February 2008, Morgan Stanley and other firms stopped supporting the auctions. Without the benefit of support bids, the ARS market collapsed, leaving investors who had been led to believe that these securities were cash alternative investments appropriate for managing short-term cash needs, holding long-term or perpetual securities that could not be sold at par value until and if the auctions cleared again.

14. Although ARS are complex products, Morgan Stanley did not provide its sales or marketing staff with the training necessary to adequately explain these products or the mechanics of the auction process to their customers.

15. Morgan Stanley did not adequately train all of its brokers and financial advisers regarding the potential illiquidity of ARS, including the fact that Morgan Stanley may stop supporting the market.

II. CONCLUSIONS OF LAW

1. The Commission has jurisdiction over this matter pursuant to the Act. The Act authorizes the Commission to regulate: (1) the offers, sales, and purchases of securities; (2) those individuals and entities offering and/or selling securities; and (3) those individuals and entities transacting business as investment advisors within the Commonwealth of Virginia.

Morgan Stanley Engaged in Prohibited Business Conduct.

2. As described in the Findings of Fact section above, Morgan Stanley inappropriately marketed and sold ARS without adequately informing its customers of the increased risks of illiquidity associated with the product for the time period August 1, 2007, through February 11, 2008.

3. As a result, Morgan Stanley violated Commission Rule 21 VAC 5-20-280 E 12.

Morgan Stanley Failed to Supervise Its Agents.

4. As described in the Findings of Fact section above, Morgan Stanley failed to properly supervise and train its agents with respect to the marketing and sale of ARS from October 1, 2007, to February 11, 2008.

5. As a result, Morgan Stanley violated Commission Rules 21 VAC 5-20-260 A and B.

6. The Commission finds the following relief appropriate and in the public interest.

III. ORDER

On the basis of the Findings of Fact, Conclusions of Law, and Morgan Stanley's consent to the entry of this Order, IT IS HEREBY ORDERED that:

(1) This Order concludes the investigation by the Commission's Division of Securities and Retail Franchising and any other action that the Commission could commence under the Act on behalf of the Commonwealth of Virginia as it relates to Morgan Stanley's marketing and sale of ARS provided, however, that excluded from and not covered by this paragraph (1) are any claims by the Commission arising from or relating to the Order provisions contained herein.

(2) This Order is entered into solely for the purpose of resolving the referenced multi-state investigation, and is not intended to be used for any other purpose.

(3) Morgan Stanley shall refrain from violating the Act and will comply with the Act in the future.

(4) Within ten (10) days from the entry of this Order, Morgan Stanley shall pay the sum of Three Hundred Ten Thousand Nine Hundred Sixty-six Dollars and Eighty-two Cents ($310,966.82) to the Treasurer of the Commonwealth of Virginia pursuant to § 13.1-521 A of the Act.

(5) In the event another state securities regulator determines not to accept Morgan Stanley's settlement offer, the total amount of the Virginia payment shall not be affected and shall remain Three Hundred Ten Thousand Nine Hundred Sixty-six Dollars and Eighty-two Cents ($310,966.82).

(6) Definitions and Buyback Offer. Morgan Stanley shall comply with the following requirements:

a. Eligible Investors

i. Morgan Stanley shall have provided liquidity to Retail ARS Investors by buying back, at par, in the manner described below, Eligible ARS that were not clearing as of September 30, 2008.

ii. "Eligible ARS," for the purposes of this Order, shall mean ARS purchased at Morgan Stanley prior to February 13, 2008.

iii. "Retail ARS Investors," for the purposes of this Order, shall mean:

a. Natural persons (including their Individual Retirement Accounts, testamentary trust and estate accounts, custodian uniform gift to minor accounts and uniform transfer to minor accounts, and guardianship accounts) who purchased Eligible ARS at Morgan Stanley;

b. Charities and nonprofits with Internal Revenue Code Section 501(c)(3) status that purchased Eligible ARS at Morgan Stanley; and

iv. Small Businesses that purchased Eligible ARS at Morgan Stanley. For purposes of this provision, "Small Businesses" shall mean Morgan Stanley customers not otherwise covered in paragraph (6)a.(iii) above that had $10 million or less in assets in their accounts with Morgan Stanley, net of margin loans, as determined by the customer's aggregate household position(s) at Morgan Stanley as of August 31, 2008, or, if the customer was not a customer of Morgan Stanley as of August 31, 2008, as of the date that the customer terminated its customer relationship with Morgan Stanley. Notwithstanding any other provision, "Small Businesses" does not include broker-dealers or banks acting as conduits for their customers.

v. Morgan Stanley shall have offered to purchase, at par plus accrued and unpaid dividends/interest, from Retail ARS Investors their Eligible ARS that were not clearing as of September 30, 2008 ("Buyback Offer"), and have explained to such Retail ARS Investors what they must have done to accept, in whole or in part, the Buyback Offer. The Buyback Offer shall have remained open until at least January 11, 2009 ("Offer Period"). Morgan Stanley may in its sole discretion extend the Offer Period beyond this date.

vi. Morgan Stanley shall have undertaken its best efforts to identify and provide notice to Retail ARS Investors who invested in Eligible ARS that were not clearing as of September 30, 2008, of the relevant terms of this Order by October 20, 2008.

vii. Retail ARS Investors may have accepted the Buyback Offer by notifying Morgan Stanley at any time before midnight, Eastern Time, January 11, 2009, or such later date and time as Morgan Stanley may have in its sole discretion decided to extend the Offer Period. For Retail ARS Investors who accepted the Buyback Offer prior to December 11, 2008, Morgan Stanley shall have purchased their Eligible ARS by December 15, 2008. Morgan Stanley shall have purchased the Eligible ARS of all other Retail ARS Investors who accepted the Buyback Offer within the Offer Period, on or before January 16, 2009.

viii. If at any time between January 12, 2009, and December 31, 2009, a Retail ARS Investor who did not accept the Buyback Offer contacts Morgan Stanley and affirms that he or she did not receive notice of the Buyback Offer prior to January 11, 2009, Morgan Stanley will purchase the Eligible ARS of such investor.

ix. No later than October 20, 2008, Morgan Stanley shall have established: (a) a dedicated toll-free telephone assistance line, with appropriate staffing, to provide information and to respond to questions concerning the terms of this Order; and (b) a public Internet page on its corporate Website(s), with a prominent link to that page appearing on Morgan Stanley's relevant homepage(s), to provide information concerning the terms of this Order and, via reasonable means, to respond to questions concerning the terms of this Order. Morgan Stanley shall maintain the telephone assistance line and Internet page through December 31, 2009.

b. Review of Customer Accounts

For a period of two years from the date of this Order, upon request from any firm that is repurchasing ARS, Morgan Stanley shall take reasonable steps to provide notice of that firm's offer to repurchase ARS to Morgan Stanley's customers that Morgan Stanley can reasonably identify, that hold such ARS subject to the other firm's repurchase.

c. Relief for Investors Who Sold Below Par

No later than December 11, 2008, Morgan Stanley shall have paid any Retail ARS Investor that Morgan Stanley could reasonably identify who sold Eligible ARS below par between February 13, 2008, and August 13, 2008, the difference between par and the price at which the Retail ARS investor sold the Eligible ARS.

d. Claims for Consequential Damages

i. Notwithstanding this Order, an investor may pursue any claims related to the sale of ARS via any method normally available to the investor. However, if the investor is pursuing claims related exclusively to consequential damages, Morgan Stanley shall provide the investor with the option to proceed in arbitration according to the following provisions:

a. The arbitrations will be conducted by a single public arbitrator in accordance with the Financial Industry Regulatory Authority's ("FINRA") special arbitration procedures for claims of consequential damages filed by Retail ARS Investors;

b. Morgan Stanley shall pay all applicable FINRA forum and FINRA filing fees;

c. Any Retail ARS Investors who choose to pursue such claims shall bear the burden of proving that they suffered consequential damages and that such damages were caused by the investors' inability to access funds consisting of Eligible ARS holdings purchased at Morgan Stanley; and

d. Morgan Stanley shall be able to defend itself against such claims; provided, however, that Morgan Stanley shall not contest liability related to the sale of ARS and, provided further, that Morgan Stanley shall not be able to use as part of its defense a Morgan Stanley Retail ARS Investor's decision not to borrow money from Morgan Stanley.

ii. Retail ARS Investors who elect to use the special arbitration process provided for herein shall not be eligible for punitive damages.

iii. All customers, including but not limited to Retail ARS Investors who avail themselves of the relief provided pursuant to this Order, may pursue any remedies against Morgan Stanley available under the law. However, Eligible Investors that elect to utilize the special arbitration process set forth above are limited to the remedies available in that process and may not bring or pursue a claim against Morgan Stanley or in any case where Morgan Stanley is an underwriter relating to Eligible ARS in another forum.

e. Institutional Investors

i. Morgan Stanley shall endeavor to work with issuers and other interested parties, including regulatory and governmental entities, to expeditiously provide liquidity solutions for institutional investors that purchased ARS not covered by the Retail ARS Investor repurchase provisions delineated above.

ii. Beginning December 11, 2008, and within 45 days of the end of each quarter thereafter, Morgan Stanley shall submit a written report to a representative specified by the North American Securities Administrators Association ("NASAA") outlining the efforts in which Morgan Stanley has engaged and the results of those efforts with respect to Morgan Stanley's institutional investors' holdings in Eligible ARS. Morgan Stanley shall, at the option of the representative specified by NASAA, confer with such representative no less frequently than quarterly to discuss Morgan Stanley's progress. Such quarterly meetings shall continue until no later than December 2009. Following every quarterly meeting, the representative shall advise Morgan Stanley of any concerns and, in response, Morgan Stanley shall detail the steps that it plans to implement to address such concerns. The reporting or meeting deadlines set forth above may be amended upon Morgan Stanley's request if written permission is received from the representative specified by NASAA.

f. Relief for Municipal Issuers

Morgan Stanley shall promptly refund to municipal issuers refinancing fees the issuers paid to it for the refinancing of their ARS, where such refinancing occurred between February 11, 2008, and the date of this Order and where Morgan Stanley acted as underwriter for the primary offering of the ARS between August 1, 2007, and February 11, 2008.

h. In Consideration of the Settlement

The Commission will:

i. Terminate the investigation of Morgan Stanley's marketing and sale of ARS to Eligible Investors as defined herein; and

ii. Not seek additional monetary penalties from Morgan Stanley in connection with all underlying conduct relating to its marketing and sale of ARS to investors.

(7) If Morgan Stanley defaults on any obligation under this Order, the Commission may, at its sole discretion, pursue legal remedies to enforce the Order or pursue an administrative action, including but not limited to, an action to revoke Morgan Stanley's registration within the state. If in any proceeding, after notice and opportunity for a hearing, a court of competent jurisdiction, including an administrative proceeding by a state securities administrator, finds that there was a material breach of this Order, the Commission, at its sole discretion, may terminate the Order.

(8) This Order, as entered into by the Commission, shall not disqualify Morgan Stanley or any of its affiliates or current or former employees from any business that they otherwise are qualified or licensed to perform under applicable state law, and this Order is not intended to form the basis for any such disqualification. This Order also is not intended to subject Morgan Stanley or any of its affiliates to any disqualification from relying upon the registration exemptions or registration safe harbors contained in the federal securities laws, the rules and regulations thereunder, the rules and regulations of self regulatory organizations, or various states' or U.S. Territories' securities laws. In addition, this Order is not intended to form the basis of a statutory disqualification under Section 3(a)(39) of the Securities Exchange Act of 1934.

(9) For any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against Morgan Stanley including, without limitation, the use of any e-mails or other documents of Morgan Stanley or of others for ARS sales practices, limit or create liability of Morgan Stanley , or limit or create defenses of Morgan Stanley to any claims.

(10) Nothing herein shall preclude the Commonwealth of Virginia, its departments, agencies, boards, commissions, authorities, political subdivisions and corporations (collectively, "State Entities"), other than the Commission and only to the extent set forth in paragraph (1) above, and the officers, agents or employees of State Entities from asserting any claims, causes of action, or applications for compensatory, nominal and/or punitive damages, administrative, civil, criminal, or injunctive relief against Morgan Stanley in connection with certain ARS sales practices by Morgan Stanley.

(11) This Order and any dispute related thereto shall be construed and enforced in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to any choice of law principles.

(12) Morgan Stanley, through its execution of this Order, voluntarily waives its right to a hearing on this matter and to judicial review of this Order under § 13.1-521 A of the Act and § 12.1-39 of the Code of Virginia.

(13) Morgan Stanley enters into this Order voluntarily and represents that no threats, offers, promises, or inducements of any kind have been made by the Commission or any member, officer, employee, agent, or representative of the Commission to induce Morgan Stanley to enter into this Order.

(14) This Order shall be binding upon Morgan Stanley and each of its successors and assigns with respect to all conduct subject to the provisions above and all future obligations, responsibilities, undertakings, commitments, limitations, restrictions, events, and conditions.

CASE NO. SEC-2009-00124
APRIL 9, 2010

COMMONWEALTH OF VIRGINIA, ex rel.
STATE CORPORATION COMMISSION
v.
SEDONA OIL & GAS CORPORATION
and
KENNETH W. CRUMBLEY,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that: (i) Defendant Sedona Oil & Gas Corporation violated § 13.1-504 A (i) of the Virginia Securities Act ("Act"), § 13.1-501 et seq. of the Code of Virginia, by transacting business in the Commonwealth of Virginia without being duly registered with the Division as a broker-dealer; and (ii) Sedona Oil & Gas Corporation and Kenneth W. Crumbley (collectively, "Defendants") violated § 13.1-507 of the Act by offering or selling securities that were not registered under the Act or exempt from registration.

The State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Act to revoke the Defendants' registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, within ninety (90) days of the date of entry of this Order, the amount of Five Thousand Dollars ($5,000) in monetary penalties.

(2) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Two Thousand Dollars ($2,000) to defray the cost of investigation.

(3) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendants' failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2009-00125
MAY 18, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
JPMORGAN CHASE & CO.,
Defendant

CONSENT ORDER

Certain affiliates of JPMorgan Chase & Co. are broker-dealers registered in the Commonwealth of Virginia.

An investigation into the activities of JPMorgan Chase & Co. and its subsidiaries and affiliates, including J.P. Morgan Securities Inc., Chase Investment Services Corporation, and Bear Stearns & Co. and affiliates, with the exception of WaMu Investments Inc., which JPMorgan acquired on September 25, 2008 (collectively, "JPMorgan") in connection with certain of its marketing and sale of auction rate securities practices during the period of approximately January 2006 through the present has been conducted under the auspices of a multi-state task force.

JPMorgan has cooperated with regulators conducting the investigation by responding to inquiries, providing documentary evidence and other materials, and providing regulators with access to facts relating to the investigation.

JPMorgan has advised regulators that it desires to settle and resolve the investigations without admitting or denying the allegations set forth below.

JPMorgan agrees to take certain actions described herein and to make certain payments.

JPMorgan elects to permanently waive any right to a hearing and appeal under § 13.1-521 A of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, and § 12.1-39 of the Code of Virginia with respect to this Consent Order ("Order").

NOW, THEREFORE, the State Corporation Commission ("Commission") hereby enters this Order.

I.

FINDINGS OF FACT

1. JPMorgan admits the jurisdiction of the Commission, neither admits nor denies the Findings of Fact and Conclusions of Law contained in this Order, and consents to the entry of this Order by the Commission.

2. Auction rate securities are financial instruments that include auction preferred shares of closed-end funds, municipal auction rate bonds, and student loan-backed auction rate bonds (collectively referred to herein as "ARS"). While ARS are all long-term instruments, one significant feature of ARS (which historically provided the potential for short-term liquidity) is the interest/dividend reset through periodic auctions. If an auction is successful (*i.e.*, there are enough buyers for every ARS being offered for sale at the auction), investors are able to sell their ARS on a short-term basis. If, however, auctions "fail" (*i.e.*, there are not enough buyers for every ARS being offered for sale), investors may be required to hold all or some of their ARS until the next successful auction in order to liquidate their funds.

Marketing and Sales of ARS to Investors

3. Although JPMorgan was aware of increasing strains in areas of the ARS market during the approximate six (6) months prior to the mass failure, JPMorgan failed to ensure that all of its registered representatives made appropriate disclosures to customers regarding the nature and risks of ARS. Certain JPMorgan employees stated that ARS were liquid, safe, short-term investments and did not highlight the risk that, in the event of a failed auction, the securities might become illiquid.

4. JPMorgan used the proprietary name, M-Stars, or Municipal Short Term Auction Rate Securities (collectively, "MSTARS"), in marketing ARS. This could have led certain investors to conclude that ARS were short-term instruments. In fact, ARS were not simply "short-term" instruments. For example, certain student loan MSTARS had maturities in the year 2039 and full liquidity was only available at an auction if the auction was successful.

5. Starting in the Fall of 2007, demand for certain ARS continued to erode and JPMorgan's ARS inventory grew significantly. JPMorgan did not discuss the increasing risks of owning or purchasing ARS with all of its customers.

6. In February 2008, JPMorgan stopped uniformly supporting auctions for which it acted as the sole or lead broker. Without the benefit of support bids from broker-dealers, the ARS market collapsed, leaving certain investors who had believed that these securities were liquid, safe, short-term investments appropriate for managing short-term cash needs, holding long-term securities that could not be sold at par value.

7. JPMorgan violated Rules 21 VAC 5-20-280 A3 and E12 of the Commission's Rules of Practice and Procedure ("Rules") by engaging in prohibited business practices of a broker-dealer.

Failure to Supervise Agents who Sold ARS

8. JPMorgan did not provide all of its sales or marketing staff with the training and information necessary to adequately explain these products or the mechanics of the auction process to their customers.

9. Not all of JPMorgan's registered agents were adequately educated in the ARS products they were selling.

10. JPMorgan violated Rules 21 VAC 5-20-260 A and B by failing to reasonably exercise diligent supervision over the securities activities of all its agents and employees by, among other things:

a. failing to provide adequate training to all of its registered agents regarding ARS by, among other things:

i. failing to provide to all of its registered agents timely and comprehensive sales and marketing literature regarding ARS and the mechanics of the auction process;

ii. failing to provide to all of its registered agents all pertinent information concerning the ARS product;

iii. failing to provide to all of its registered agents all pertinent information regarding the state of the market prior to the mass auction failures in mid-February 2008; and

b. failing to review ARS transactions in accounts of certain customers who needed liquidity; and

c. failing to ensure that all its registered agents were providing adequate information regarding ARS to its customers.

II.

CONCLUSIONS OF LAW

1. The Commission has jurisdiction over this matter pursuant to the Act.

2. As described in the Findings of Fact above, JPMorgan failed to exercise diligent supervision over the securities activities of all its agents and employees and engaged in other practices in violation of Rules 21 VAC 5-20-260 A and B, and Rules 21 VAC 5-20-280 A3 and E12.

3. As a result, the Commission finds this Order and the following relief appropriate, in the public interest, and consistent with the purposes intended by the Act.

III.

ORDER

On the basis of the Findings of Fact, Conclusions of Law, and JPMorgan's consent to the entry of this Order,

IT IS HEREBY ORDERED THAT:

1. Entry of this Order concludes the investigation by the Division of Securities and Retail Franchising ("Division") and any other action that the Commission could commence under applicable Virginia law on behalf of the Commission as it relates to JPMorgan, relating to certain sales and marketing practices of ARS by JPMorgan, provided, however, that excluded from and not covered by this paragraph are any claims by the Commission arising from or relating to violations of the provisions contained in this Order.

2. This Order is entered into solely for the purpose of resolving the referenced multi-state investigation and is not intended to be used for any other purpose.

3. JPMorgan will refrain from violating the Act in the future and will comply with the Act and the Commission's Rules in the future.

4. Within ten (10) days of the date of this Consent Order, JPMorgan shall pay the sum of Two Hundred Nine Thousand Two Hundred Twenty-seven Dollars ($209,227) to the Treasurer of the Commonwealth of Virginia. This amount constitutes the Commonwealth of Virginia's proportionate share of the state settlement amount of Twenty-five Million Dollars ($25,000,000).

5. In the event another state securities regulator determines not to accept the recommendation of the NASAA Task Force and does not enter into a settlement with JPMorgan that follows the terms of the Settlement Term Sheet signed by JPMorgan, the North American Securities Administrators' Association, and the State of Florida's Office of Financial Regulation, on August 14, 2008, the total amount of the Commission's payment shall not be affected and shall remain at Two Hundred Nine Thousand Two Hundred Twenty-seven Dollars ($209,227).

6. JPMorgan shall comply (and, to the extent the Settlement Term sheet described herein required action to be taken prior to the date of this Consent Order, has already complied) with the requirements of the Settlement Term Sheet executed on August 14, 2008, which provides:

a. Individual Investors

JPMorgan offered to buy back at par ARS that since February 12, 2008, have not been auctioning from individual investors who purchased those ARS from JPMorgan prior to February 12, 2008 ("Individual Investors"). For purposes of the settlement, charities and small to medium-sized businesses with account values and household values of up to Ten Million Dollars ($10,000,000) will also be treated as JPMorgan Individual Investors. The term "Individual Investors" does not include senior management of JPMorgan and its predecessors and JPMorgan financial advisors/registered representatives.

The buybacks were completed no later than November 12, 2008, as extended.

JPMorgan will provide notice to customers of the settlement terms and JPMorgan will establish a dedicated telephone assistance line, with appropriate staff, to respond to questions from customers concerning the terms of the settlement.

b. Relief for Investors Who Sold Below Par

No later than November 12, 2008, any JPMorgan Individual Investor who JPMorgan could reasonably identify who sold ARS below par between February 12, 2008, and announcement of the settlement was paid the difference between par and the price at which the investor sold the ARS.

c. Consequential Damages Claims

No later than November 12, 2008, JPMorgan shall have notified those JPMorgan clients who own ARS, pursuant to the terms of the settlement, that a public arbitrator (as defined by Section 12100(u) of the NASD Code of Arbitration Procedures for Customer Disputes, effective April 16, 2007), under the auspices of FINRA, will be available for the exclusive purpose of arbitrating any JPMorgan Individual Investor's consequential damages claim.

Arbitration shall be conducted by public arbitrators, and JPMorgan will pay all applicable forum and filing fees. Any JPMorgan Individual Investors who choose to pursue such claims shall bear the burden of proving that they suffered consequential damages and that such damages were caused by investors' inability to access funds consisting of investors' ARS holdings at JPMorgan. JPMorgan shall be able to defend itself against such claims, provided, however, that JPMorgan shall not contest in these arbitrations liability related to the sale of ARS. Special or punitive damages shall not be available in the arbitration proceedings.

d. Institutional Investors

JPMorgan shall endeavor to continue to work with issuers and other interested parties, including regulatory and governmental entities, to expeditiously provide liquidity solutions for institutional investors not covered by paragraph 6.a. above, that continue to hold ARS purchased from JPMorgan ("Institutional Investors").

Within forty five (45) days of the end of each quarter beginning with a report covering the quarter ended December 31, 2008 (due on February 14, 2009), and continuing through and including a report covering the quarter ended December 31, 2009 (due on February 14, 2010), JPMorgan shall submit a quarterly written report detailing JPMorgan's progress with respect to its obligations pursuant to this Order and outlining the efforts in which JPMorgan has engaged and the results of those efforts with respect to JPMorgan's Institutional Investors' holdings in ARS. JPMorgan shall confer with William F. Reilly, Bureau Chief, Bureau of Securities Regulation of the State of Florida's Office of Financial Regulation, as the lead NASAA member on behalf of all the states, on a quarterly basis to discuss JPMorgan's progress to date. Such quarterly reports and conferences/meetings shall continue until the first quarter of 2010. Following every quarterly meeting, the State of Florida's Office of Financial Regulation shall advise JPMorgan of any concerns regarding JPMorgan's progress in providing liquidity solutions for Institutional Investors and, in response, JPMorgan shall detail the steps that JPMorgan plans to implement to address such concerns. The reporting or meeting deadlines set forth above may be amended with written permission from the State of Florida's Office of Financial Regulation.

e. Relief for Municipal Issuers

JPMorgan shall refund underwriting fees JPMorgan has received from municipal auction rate issuers that issued such securities through JPMorgan in the initial primary market between August 1, 2007, and February 12, 2008, and refinanced those securities through JPMorgan after February 12, 2008, through the date this Consent Order is executed by JPMorgan.

In consideration of the settlement,

The Commission will:

i. Terminate its investigation with respect to JPMorgan's marketing and sale of ARS to Individual Investors, defined in paragraph 6.a. above. However, nothing herein limits the ability of the Commission in pursuing any investigation relating to any party other than JPMorgan.

ii. Accept payment of Two Hundred Nine Thousand Two Hundred Twenty-seven Dollars ($209,227) as its portion of the above-mentioned Twenty-five Million Dollar ($25,000,000) penalty, to address all underlying conduct relating to the marketing and sale of ARS. The Commission will not seek additional monetary penalties from JPMorgan relating to such conduct.

7. If payment is not made by JPMorgan or if JPMorgan materially defaults in any of its obligations set forth in this Order and fails to cure such a default reasonably after ten (10) days notice from the Commission, notwithstanding any other provision of Virginia law, the Commission may vacate this Order at its sole discretion and without opportunity for administrative hearing.

8. This Order is not intended to indicate that JPMorgan or any of its affiliates or current or former employees shall be subject to any disqualifications contained in the federal securities laws, the rules and regulations thereunder, the rules and regulations of self-regulatory organizations, or various states' securities laws including any disqualifications from relying upon the registration exemptions or safe harbor provisions. In addition, this Order is not intended to form the basis for any such disqualifications.

9. Nothing herein shall preclude the Commonwealth of Virginia, its departments, agencies, boards, commissions, authorities, political subdivisions, and corporations (collectively, "State Entities"), other than the Commission and only to the extent set forth in paragraph 1 above, and the officers, agents, or employees of State Entities from asserting any claims, causes of action, or applications for compensatory, nominal and/or punitive damages, administrative, civil, criminal, or injunctive relief against JPMorgan in connection with certain marketing and sales practices of ARS at JPMorgan.

10. Except in an action by the Commission to enforce the obligations of JPMorgan in this Order, this Order may neither be deemed nor used as an admission of or evidence of any alleged fault, omission, or liability of JPMorgan in any civil, criminal, arbitration, or administrative proceeding in any court, administrative agency, or tribunal. For any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against JPMorgan including, without limitation with respect to the use of any e-mails or other documents of JPMorgan or of others concerning the marketing and/or sales of ARS, limit or create liability of JPMorgan, or limit or create defenses of JPMorgan to any claims.

11. This Order shall not disqualify JPMorgan or any of its affiliates or current or former employees from any business that they otherwise are qualified or licensed to perform under applicable state law and is not intended to form the basis for any disqualification.

12. Any dispute related to this Order shall be construed and enforced in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to any choice of law principles.

13. Defendant, JPMorgan, through its execution of the Consent to this Order, voluntarily waives its right to a hearing on this matter and to judicial review of the Order under § 13.1-521 A of the Act and § 12.1-39 of the Code of Virginia.

14. Defendant, JPMorgan, enters into this Order voluntarily and represents that no threats, offers, promises, or inducements of any kind have been made by the Commission or any member, officer, employee, agent, or representative of the Commission to induce JPMorgan to enter into this Order other than as set forth in this Order.

15. This Order shall be binding upon JPMorgan and its successors and assigns as well as to successors and assigns of relevant affiliates with respect to all conduct subject to the provisions above and all future obligations, responsibilities, undertakings, commitments, limitations, restrictions, events, and conditions.

CASE NO. SEC-2009-00135
APRIL 6, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
THE SENIOR'S CHOICE, INC.
and
STEVEN EVERHART,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that The Senior's Choice, Inc. and Steven Everhart ("Defendants"): (i) violated § 13.1-560 of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, by selling or offering to sell franchises in the Commonwealth of Virginia prior to registering under the provisions of the Act; and (ii) violated § 13.1-563 (e) (ii) by failing to, directly or indirectly, provide franchisees with such disclosure documents as may be required by rule or order of the State Corporation Commission ("Commission").

The Commission is authorized by § 13.1-562 of the Act to revoke the Defendants' registration, by § 13.1-568 of the Act to issue temporary or permanent injunctions, by § 13.1-570 of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this order, the amount of Fourteen Thousand Dollars ($14,000) in monetary penalties.

(2) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this order, the amount of Three Thousand Five Hundred Dollars ($3,500) to defray the cost of investigation.

(3) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein is hereby accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendants from their reporting obligations to any regulatory authority.

CASE NO. SEC-2010-00006
JULY 13, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
CELLAIRIS FRANCHISE, INC.
and
KOSTANTINOS R. SKOURAS,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Cellairis Franchise, Inc. and Konstantinos R. Skouras ("Defendants"): (i) violated § 13.1-563 (b) of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, by making untrue statements of a material fact or omitting to state a material fact necessary in order to avoid misleading the offeree in connection with the sale or offer to sell a franchise; and (ii) violated § 13.1-563 (e) (ii) by failing to, directly or indirectly, provide franchisees with such disclosure documents as may be required by rule or order of the State Corporation Commission ("Commission").[1]

The Commission is authorized by § 13.1-562 of the Act to revoke the Defendants' registration, by § 13.1-568 of the Act to issue temporary or permanent injunctions, by § 13.1-570 of the Act to impose certain monetary penalties and to request the Defendants make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Fifteen Thousand Dollars ($15,000) in monetary penalties.

(2) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Five Thousand Dollars ($5,000) to defray the costs of investigation.

(3) The Defendants will provide a copy of this Order to every current and former franchisee who operated a location in the Commonwealth of Virginia.

(4) The Defendants will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein is hereby accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendants from their reporting obligations to any regulatory authority.

[1] Effective July 1, 2009, § 13.1-563 of the Code of Virginia was amended by the General Assembly. The amendment had no bearing on the Division's allegations and the facts of this case.

CASE NO. SEC-2010-00020
MAY 6, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
LIFE PARTNERS, INC.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Life Partners, Inc., ("LPI") violated § 13.1-507 of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia when LPI failed to register its securities with the State Corporation Commission's ("Commission") Division.

The Commission is authorized by § 13.1-506 of the Act to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, by § 13.1-521 C of the Act to order the Defendant to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

LPI neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, LPI has made an offer of settlement to the Commission wherein LPI will abide by and comply with the following terms and undertakings:

(1) LPI will pay to the Treasurer of Virginia the amount of One Hundred Fifty Thousand Dollars ($150,000) pursuant to § 12.1-15 of the Code of Virginia.

(2) LPI will pay to the Commission the amount of Twenty Thousand Dollars ($20,000) to defray the cost of investigation pursuant to § 13.1-518 of the Act.

(3) LPI will make an offer of rescission to certain Virginia investors prior to the entry of this Settlement Order.

(4) LPI agrees to provide disclosure attached as Exhibit A to prospective viatical and life settlement purchasers in the Commonwealth of Virginia. Exhibit A will be updated at least annually, no later than January 15 of each year. As long as LPI continues to offer and sell viatical and life settlement investments to Virginia investors who meet the then current definition of accredited investor and maintains its exemption filings in good order, LPI's transactions are exempt from the registration requirements of § 13.1-507 of the Act and the registration requirements under § 13.1-504 A and B of the Act.

(5) LPI will comply with the Act and with the regulations adopted by the Commission.

(6) The case is dismissed and the papers herein shall be placed in the file for ended causes.

(7) Dismissal of this case does not relieve LPI from its reporting obligations to any regulatory authority.

Accordingly, IT IS ORDERED THAT:

(1) The offer of LPI in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) LPI fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of LPI's failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2010-00021
JUNE 1, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION

Ex Parte: In the matter of Adopting a Revision to the Rules Governing the Virginia Retail Franchising Act

ORDER ADOPTING AMENDED RULES

By Order entered on March 23, 2010, all interested persons were ordered to take notice that the State Corporation Commission ("Commission") would consider the adoption of a revision to Chapter 110 of Title 21 of the Virginia Administrative Code ("Regulations") entitled "Retail Franchising Act Rules." On March 31, 2010, the Division of Securities and Retail Franchising ("Division") mailed the Order to Take Notice of the proposed Regulations to all franchise registrants and applicants as of March 24, 2010 and to all interested parties pursuant to the Retail Franchising Act, § 13.1-557 *et seq*. of the Code of Virginia. The Order to Take Notice described the proposed amendments and afforded interested parties an opportunity to file written comments or requests for hearing by April 30, 2010.

No comments were filed, nor were any requests for hearing made in this matter.

The Commission, upon consideration of the proposed amendments to the Regulations, the recommendation of the Division, and the record in this case, finds that the proposed amendments to the Regulations should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) The proposed Regulations are attached hereto, made a part hereof, and are hereby ADOPTED effective July 1, 2010.

(2) This matter is dismissed from the Commission's docket, and the papers herein shall be placed in the file for ended causes.

NOTE: A copy of Attachment A entitled "Retail Franchising Act Rules" is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. SEC-2010-00022
JUNE 15, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION

Ex Parte: In the matter of Adopting a Revision to the Rules Governing the Virginia Securities Act

ORDER ADOPTING AMENDED RULES

By order entered on March 23, 2010, all interested persons were ordered to take notice that the State Corporation Commission ("Commission") would consider the adoption of a revision to Chapters 10, 20, 40 and 80 of Title 21 of the Virginia Administrative Code ("Regulations") entitled "Rules and Forms Governing Virginia Securities Act." On March 31, 2010, the Division of Securities and Retail Franchising ("Division") mailed the Order to Take Notice of the proposed Regulations to all registrants and applicants engaged in the business of securities within the Commonwealth of Virginia as of March 24, 2010, and to all interested parties pursuant to the Virginia Securities Act, § 13.1-501 *et seq*. of the Code of Virginia. The Order to Take Notice described the proposed amendments and afforded interested parties an opportunity to file comments and request a hearing by April 30, 2010 with the Clerk of the Commission.

The Commission received timely filed comments from the investment advisory firm of Huff, Stuart & Carlton ("HSC") concerning the Division's proposed amendments to Rule 21 VAC 5-80-145 A 1 a (1). The HSC comments expressed concern over the language in the Division's proposal to include possession of the user ID and password of a client's retirement or securities accounts within the definition of "custody" under the Rule. Specifically, the comments expressed concern that this Rule would subject stringent and costly custody requirements on every state registered investment advisor if they were found to have custody by merely possessing a client's user ID and password for a retirement or securities account.

As a result of HSC's comments, the Division recommended abandoning the previously suggested amendment to Rule 21 VAC 5-80-145 A 1 a (1) and recommended the following modification instead:

> A. For purposes of this section, the following definitions shall apply:
> 1. Custody means holding directly or indirectly, client funds or securities, or having any authority to obtain possession of them **(which may include possession of a user ID and password)**.

The Virginia Bankers Association ("VBA") and Wells Fargo & Company ("Wells") both filed timely comments with the Commission expressing concern over the Division's proposed amendments to Rule 21 VAC 5-20-280 A 27 and B 6, and also Rule 21 VAC 5-80-200 A 14 and B 14, which would preclude broker-dealers and investment advisors from disclosing private client information to any third party without affirmative written consent. Both VBA and Wells commented that the Division's suggested changes would prohibit necessary disclosures to third-party account administrators and those entities affiliated with broker-dealers. They expressed concern that such disclosure was authorized under the provisions of the Gramm-Leach-Bliley Act and was also in conflict with its provisions and those of other federal laws governing federally registered advisors.

Based on these comments and other similar comments submitted to the Division, the Division recommended withdrawing the current proposed amendments to Rule 21 VAC 5-20-280 A 27 and B 6 as well as the amendments proposed in Rule 21 VAC 5-80-200 A 14 and B 14 so the Division could further study the issues surrounding the disclosure of non-public personal information by broker-dealers and investment advisors to third-parties.

NOW THE COMMISSION, upon consideration of the proposed amendments to the Regulations, as modified, the recommendations of the Division, and the record in this case, finds that the proposed amendments to the Regulations, as modified, should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) The proposed Regulations, as modified, are attached hereto, made a part hereof, and are hereby ADOPTED effective July 1, 2010.

(2) This matter is dismissed from the Commission's docket, and the papers herein shall be placed in the file for ended causes.

NOTE: A copy of Attachment A entitled "Rules and Forms Governing Virginia Securities Act" is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. SEC-2010-00023
SEPTEMBER 3, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
WELLS FARGO INVESTMENTS, LLC,

CONSENT ORDER

Wells Fargo Investments, LLC ("WFI") is a broker-dealer registered in the Commonwealth of Virginia; and

WFI's activities regarding the marketing of auction rate securities ("ARS") have been the subject of coordinated investigations conducted by a multistate task force; and

WFI has cooperated fully with regulators conducting the investigations by providing documentary evidence and other materials and by providing regulators with access to information relevant to their investigations; and

On November 18, 2009, WFI and the multistate task force reached an agreement to resolve the investigations relating to WFI's marketing of ARS to certain customers; and

WFI agrees, among other things, to purchase certain ARS from customers and to make certain payments; and

WFI elects to waive permanently any right to a hearing and appeal under § 12.1-39 of the Code of Virginia, with respect to this Consent Order (the "Order"); and

WFI admits the jurisdiction of the State Corporation Commission ("Commission") and consents to the entry of this Order by the Commission; and

Wells Fargo Securities, LLC ("WFS"), as successor to Wells Fargo Brokerage Services, LLC ("WFBS"), and Wells Fargo Institutional Securities, LLC ("WFIS") have voluntarily agreed to purchase ARS from certain customers, as described in Section IV below, and to use best efforts to provide liquidity solutions for certain other customers; and

WFI neither admits nor denies the Findings of Fact and Conclusions of Law contained in this Order.

NOW, THEREFORE, the Commission, pursuant to § 13.1-521 A of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, hereby enters this Order:

I. FINDINGS OF FACT

Background

(1) Auction Rate Securities ("ARS") are long-term bonds issued by municipalities, corporations, and student loan companies, or perpetual equity instruments issued by closed-end mutual funds, with variable interest rates that reset through a bidding process known as a Dutch auction.

(2) In a successful Dutch auction, ARS are auctioned at par and bids with successively higher rates are accepted by the auction agent for the issuer until all of the available securities are sold. All ARS are then purchased or sold at the lowest interest rate bid that will result in all ARS placed up for auction being sold. If there are not enough buy orders to purchase all the securities being sold at auction, a failed auction occurs. In the event of an auction failure, the issuer of the ARS pays a default interest rate until the next successful auction. Broker-dealers that served as dealers for the auctions sometimes placed "support bids" on their own behalf in order to prevent auction failures.

(3) Beginning on or about February 13, 2008, there were not enough purchasers for ARS at many auctions. The broker-dealers that had previously supported the auctions for these securities ceased their practice of bidding to prevent auction failures. As a result, the ARS market experienced widespread failed auctions. ARS purchasers who wished to sell their ARS were forced to continue holding their positions.

Marketing of ARS by WFI

(4) WFI marketed ARS to some of its customers, including individual customers, small businesses, and non-profit organizations. Since at least 2001, WFI offered Auction Rate Preferred Shares ("ARPS") through its fixed-income desk. In addition, beginning in 2006, WFI facilitated Auction Rate Debt Securities ("ARDS") trades for select customers. WFI did not underwrite ARS and did not serve as an auction manager or auction agent.

(5) On February 14, 2008, WFI customers nationwide were holding approximately $2.95 billion in ARS in 5,692 accounts.

(6) WFI participated in sales of ARS to customers in the Commonwealth of Virginia.

(7) Because of the auction failures described above, certain WFI customers who were holding ARS on February 14, 2008, have been unable to sell their ARS at auction.

(8) In connection with the marketing of ARS, WFI failed to adopt policies and procedures reasonably designed to ensure that its registered agents recommended ARS only to customers who had stated investment objectives that were consistent with their purchase of ARS. Some WFI registered agents recommended ARS to customers as a liquid, short-term investment. As a result, some WFI customers, who needed short-term access to funds, invested in ARS, even though ARS had long-term maturity dates, or in the case of ARPS, no maturity dates.

Failure to Supervise Agents Who Marketed ARS

(9) WFI failed to provide adequate supervision and training to its registered agents in connection with the marketing of ARS. Some of WFI's registered agents were not adequately educated about ARS products. WFI failed to provide timely and comprehensive sales and marketing literature regarding ARS and the mechanics of the auction process.

(10) Some WFI registered agents believed that the ARS were safe and were not aware that auctions could fail and that money invested in ARS could become frozen. In part, this was because some WFI registered agents were not aware of significant aspects of the auction rate market.

(11) WFI did not establish specific written supervisory procedures for the review of ARS transactions, nor did WFI train supervisory personnel on how to review ARS transactions.

II. CONCLUSIONS OF LAW

The Commission has jurisdiction over this matter pursuant to the Act.

For the reasons alleged in the Findings of Fact above, WFI failed to reasonably supervise its registered agents in connection with the marketing of ARS to its customers. Such conduct in relation to ARS violates Commission Rule 21 VAC 5-20-260 A and B.

The Commission finds the following relief appropriate and in the public interest.

III. ORDER

On the basis of the Findings of Fact, Conclusions of Law, and WFI's consent to the entry of this Order, for the sole purpose of settling this matter prior to a hearing and without admitting or denying the Findings of Fact or Conclusions of Law,

IT IS HEREBY ORDERED THAT:

(1) This Order concludes the investigation by the Commission's Division of Securities and Retail Franchising ("Division") and any other action that the Division could commence under the applicable Act on behalf of the Commonwealth of Virginia as it relates to WFI's marketing of ARS to customers.

(2) This Order is entered into solely for the purpose of resolving the abovereferenced multistate investigation and is not intended to be used for any other purpose.

(3) WFI will not violate the Act and will comply with the Act in the future.

(4) Within ten (10) days from the entry of this Order, WFI shall pay the sum of Five Thousand Six Hundred Sixty-three Dollars and Thirty-two Cents ($5,663.32) to the Treasurer of Virginia as civil penalty pursuant to § 13.1-521 A of the Act, which amount constitutes the Commonwealth of Virginia's proportionate share of the multistate settlement amount of $1,900,000.

(5) The total amount paid to the Commonwealth of Virginia pursuant to the foregoing paragraph shall remain the same regardless of whether another state securities regulator determines not to accept WFI's state settlement offer.

(6) WFI shall take certain measures with respect to current and former customers that purchased "Eligible ARS," as defined and described in Paragraphs 9 through 14 of Section III, below.

(7) Eligible ARS. For purposes of this Order as it relates to WFI, "Eligible ARS" shall mean ARS that were purchased for customers by WFI on or before February 13, 2008, and that have failed at auction at least once since February 13, 2008. Notwithstanding the foregoing definition, Eligible ARS shall not include ARS that were purchased for customers by WFI or entities acquired by Wells Fargo's parent companies in accounts owned, managed or advised by or through independent registered investment advisers.

(8) Eligible Investor. For the purposes of this Order as it relates to WFI, "Eligible Investor" shall mean:

(a) Natural persons (including their IRA accounts, testamentary trust and estate accounts, custodian UGMA and UTMA accounts, and guardianship accounts) who purchased Eligible ARS;

(b) Charities, endowments, or foundations with Internal Revenue Code Section 501(c)(3) status, or religious corporations or entities, that purchased Eligible ARS; and

(c) Trusts, corporate trusts, corporations, employee pension plans/ERISA and Taft Hartley Act plans, educational institutions, incorporated not for profit organizations, limited liability companies, limited partnerships, nonpublic companies, partnerships, personal holding companies, unincorporated associations, government or quasi governmententities, which are the beneficial owners of an account that purchased Eligible ARS.

(d) "Eligible Investors," for the purposes of this Order as it relates to WFI, shall not include brokers, dealers or banks acting as conduits for their customers. This provision shall not affect the rights of any beneficial owner of an account that otherwise would qualify as an Eligible Investor, as set forth in Section III, Paragraph 8, subparts a, b, or c, above.

(e) "Eligible Investors," for the purposes of this Order as it relates to WFI, shall not include any WFI customer who has entered into a settlement agreement with WFI prior to November 18, 2009, or who has received a final arbitration award against WFI prior to November 18, 2009, with respect to their Eligible ARS holdings at WFI.

(9) Purchase Offer. WFI shall offer to purchase, at par plus accrued and unpaid dividends/interest, from Eligible Investors their Eligible ARS that have failed at auction at least once since February 13, 2008 (the "Purchase Offer"). WFI shall make the Purchase Offer and purchase the Eligible ARS either as riskless principal or agent for one or more affiliated companies, and not for its own account.

(10) Notification and Buyback Procedures.

(a) WFI identified and provided notice to Eligible Investors of the relevant terms of this Order no later than February 16, 2010. Said notice explained what Eligible Investors must do to accept, in whole or in part, the Purchase Offer, including how Eligible Investors may accept the Purchase Offer. WFI provided written notice of the relevant terms of this Order to any subsequently identified Eligible Investors.

(b) Initial Offer Period

(i) WFI shall keep the Purchase Offer open for sixty (60) days after mailing the notice required by Section III, Paragraph 10, above ("Initial Offer Period").

(ii) Eligible Investors may accept the Purchase Offer by notifying WFI as described in the Purchase Offer, at any time before midnight, Eastern Time, on or before the last day of the Initial Offer Period. For those Eligible Investors who accepted the Purchase Offer within the Initial Offer Period, WFI shall purchase their Eligible ARS no later than five (5) business days following the expiration of the Initial Offer Period (the "Initial Purchase Deadline").

(c) Second Offer Period

(i) WFI shall undertake its best efforts to identify and provide a second notice to all Eligible Investors who do not accept the Purchase Offer within the Initial Offer Period. This second notice must satisfy the requirements discussed in Section III, Paragraph 10a, above, and be sent no later than thirty (30) days after the Initial Purchase Deadline.

(ii) WFI shall keep the Purchase Offer open for sixty (60) days after mailing the second notice required by Section III, Paragraph 10c.i, above ("Second Offer Period").

(iii) Eligible Investors may accept the Purchase Offer by notifying WFI as described in the Purchase Offer, at any time before midnight, Eastern Time, on or before the last day of the Second Offer Period. For those Eligible Investors who accept the Purchase Offer within the Second Offer Period, WFI shall purchase their Eligible ARS by no later than five (5) business days following the expiration of the Second Offer Period (the "Second Purchase Deadline").

(d) An Eligible Investor may revoke the Eligible Investor's acceptance of WFI's Purchase Offer at any time up until WFI purchases such Eligible Investor's Eligible ARS or provides notice of WFI's intent to purchase such Eligible ARS.

(e) WFI's obligation to those Eligible Investors who custodied their Eligible ARS away from WFI as of November 18, 2009 shall be contingent on: (1) WFI receiving reasonably satisfactory assurance from the financial institution currently holding the Eligible Investor's Eligible ARS that the bidding rights associated with such Eligible ARS will be transferred to WFI; and (2) transfer of the Eligible ARS back to WFI.

(f) WFI shall use its best efforts to identify, contact and assist any Eligible Investor who has transferred the Eligible ARS out of WFI's custody in returning such ARS to WFI's custody, and shall not charge such Eligible Investor any fees relating to or in connection with the return to WFI or custodianship by WFI of such Eligible ARS.

(11) Customer Assistance Line. WFI shall promptly establish a dedicated toll-free telephone assistance line and e-mail address to provide information and to respond to questions concerning the terms of this Order. WFI shall maintain the telephone assistance line and e-mail address through at least the Second Purchase Deadline.

(12) Relief for Eligible Investors Who Sold Below Par. No later than upon the completion of the buyback (as described in Section III, Paragraph 10 above), WFI shall undertake its best efforts to identify and provide notice to, using the notice to Eligible Investors referenced in Section III, Paragraph 10 above, Eligible Investors who sold Eligible ARS below par between February 13, 2008 and November 18, 2009 ("Below Par Seller") and, upon receipt of satisfactory evidence of the sale, pay them the difference between par and the price at which the Eligible Investor sold the Eligible ARS, plus interest thereon at the rate of seven-day LIBOR.

(13) Consequential Damages Arbitration Process.

(a) WFI shall consent to participate in a special arbitration process ("Arbitration") for the exclusive purpose of arbitrating any Eligible Investor's consequential damages claim arising from their inability to sell Eligible ARS. WFI shall notify Eligible Investors of the terms of the Arbitration process through the notice described in Section III, Paragraph 10 above.

(b) The Arbitration shall be conducted under the auspices of Financial Industry Regulatory Authority ("FINRA"), pursuant to the NASD Code of Arbitration Procedures for Customer Disputes, eff. April 16, 2007. WFI will pay all applicable forum and filing fees.

(c) Eligible Investors who choose to pursue such claims in the Arbitration shall bear the burden of proving that they suffered consequential damages and that such damages were caused by their inability to access funds invested in Eligible ARS. In the Arbitration, WFI shall be able to defend itself against such claims; provided, however, that WFI shall not contest liability for the illiquidity of the underlying ARS position, and

provided further that, unlike the FINRA's established special arbitration process, WFI shall be able to use as part of its defense an investor's decision not to borrow money from WFI or its affiliates.

(d) Eligible Investors who elect to use this special arbitration process provided for herein shall not be eligible for punitive damages, or for any other type of damages other than consequential damages.

(e) Eligible Investors that elect to utilize FINRA's special arbitration process, as set forth above, are limited to the remedies available in that process and may not bring or pursue a claim relating to Eligible ARS in another forum.

(14) Reimbursement of Negative Carry. In connection with the notices described in Section III, Paragraphs 10 and 12 above, WFI shall inform Eligible Investors that, if they paid more in interest on a loan through WFI or its affiliates secured by Eligible ARS than the customer received in interest or dividends from the Eligible ARS during the time the loan was outstanding ("Negative Carry"), then the Eligible Investor can provide WFI documentation evidencing the amount of Negative Carry, and upon receipt of such documentation, WFI will reimburse the Eligible Investor the amount of Negative Carry actually paid.

IV. ADDITIONAL CONSIDERATIONS

(1) WFS (as successor to WFBS) and WFIS have voluntarily agreed to purchase ARS from Eligible Investors as set forth in this Section IV, Paragraph 2 below.

(2) "Eligible Investors," for the purposes of this Order as it relates to WFS (as successor to WFBS) and WFIS, shall mean the following:

(a) Natural persons (including their IRA accounts, testamentary trust and estate accounts, custodian UGMA and UTMA accounts, and guardianship accounts) who purchased Eligible ARS;

(b) Charities, endowments, or foundations with Internal Revenue Code Section 501(c)(3) status, or religious corporations or entities that purchased Eligible ARS; and

(c) Trusts, corporate trusts, corporations, employee pension plan/ERISA and Taft Hartley Act plans, educational institutions, incorporated not for profit organizations, limited liability companies, limited partnerships, non-public companies, partnerships, personal holding companies, unincorporated associations, governments or quasi government-entities, which are the beneficial owners of an account that purchased Eligible ARS, unless the value of the account exceeded $10 million as of January 31, 2008 or the beneficial owner had disclosed to WFI, WFS (as successor to WFBS), WFBS or WFIS total investable assets in excess of $10 million;

(d) "Eligible Investors," for the purposes of this Order as it relates to WFS (as successor to WFBS) and WFIS, shall not include brokers, dealers, or banks acting as conduits for their customers. This provision shall not affect the rights of any beneficial owner of an account that otherwise would qualify as an Eligible Investor, as set forth in subparts a, b, or c of this Paragraph, above;

(e) "Eligible Investors," for the purposes of this Order as it relates to WFS (as successor to WFBS) and WFIS, shall not include any WFI, WFBS, or WFIS customers who have entered into a settlement agreement with WFI, WFBS (or WFS as its successor), or WFIS prior to November 18, 2009, or who has received a final arbitration award against WFI, WFBS (or WFS as its successor), or WFIS prior to November 18, 2009, with respect to their Eligible ARS holdings at WFI, WFBS (or WFS as its successor), or WFIS.

(f) "Eligible ARS," for purposes of this Order as it relates to WFS (as successor to WFBS) and WFIS, shall mean ARS that were purchased at WFBS or WFIS on or before February 13, 2008, and that have failed at auction at least once since February 13, 2008. Notwithstanding the foregoing definition, Eligible ARS shall not include ARS that were purchased at WFBS or WFIS or entities acquired by WFBS's or WFIS's parent companies in accounts owned, managed or advised by or through independent registered investment advisers.

(3) WFS (as successor to WFBS) and WFIS have agreed to use their best efforts to provide liquidity solutions to their customers who have investible assets above $10 million. WFS (as successor to WFBS) and WFIS shall endeavor to work with issuers and other interested parties, including regulatory and governmental entities, to expeditiously and on a best efforts basis provide liquidity solutions, such as facilitation of secondary market transactions and announced issuer redemptions of the Eligible ARS purchased through WFBS and WFIS. Though WFS (as successor to WFBS) and WFIS shall use their best efforts to offer opportunities to the institutional and other customers who are not Eligible Investors to liquidate Eligible ARS, WFS (as successor to WFBS) and WFIS are under no obligation to offer to purchase ARS from these customers.

(4) In consideration for the settlement terms contained in this Order, the Commission shall not seek additional penalties, and shall terminate its investigation with respect to WFI, WFS (as successor to WFBS), and WFIS regarding the marketing of ARS. However, if the Commission determines that WFS (as successor to WFBS) and WFIS have failed to adhere to their voluntary agreement as described above, the Commission's Division may initiate investigation and take enforcement action related to the marketing of ARS by WFS (as successor to WFBS) and WFIS.

(5) If payment is not made by WFI as required in this Order, or if WFI defaults in any of its other obligations set forth in this Order, the Commission may send WFI a written notice of default and, if within ten (10) days after receiving the written notice, WFI does not cure the default, the Commission may initiate an action to enforce the Order.

(6) This Order is not intended to indicate that WFI or any of its affiliates or current or former employees shall be subject to any disqualifications contained in the federal securities law, the rules and regulations thereunder, the rules and regulations of self-regulatory organizations or various states' securities laws, including any disqualifications from relying upon the registration exemptions or safe harbor provisions. In addition, this Order is not intended to form the basis for any such disqualifications.

(7) Except as expressly provided in this Order, for any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against WFI, limit or create liability of WFI, or limit or create defenses of WFI to any claims. Unless applicable law provides otherwise, by entering into this Order, the Commission does not waive any rights any departments, agencies, boards, commissions, authorities, political subdivisions

and corporations of the Commonwealth of Virginia other than the Commission may have under applicable law, to the extent any such rights exist, to assert a claim, cause of action, or application for compensatory, nominal and/or punitive damages, or to seek civil, criminal, or injunctive relief against WFI in connection with the marketing of ARS by WFI.

(8) This Order shall not disqualify WFI or any of its affiliates or current or former employees from any business that they otherwise are qualified or licensed to perform under applicable state law and this Order is not intended to form the basis for any disqualification.

(9) This Order and any dispute related thereto shall be construed and enforced in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to any choice of law principles.

(10) WFI, through its execution of this Order, voluntarily waives its right to a hearing on this matter and to judicial review of this Order under § 12.1-39 of the Code of Virginia.

(11) WFI enters into this Order voluntarily and represents that no threats, offers, promises, or inducements of any kind have been made by the Commission or any member, officer, employee, agent, or representative of the Commission to induce WFI to enter into this Order.

(12) This Order shall be binding upon WFI, its affiliates, successors and assigns with respect to all conduct subject to the provisions above and all future obligations, responsibilities, undertakings, commitments, limitations, restrictions, events, and conditions.

(13) Nothing contained in this Order shall be deemed to be an admission of any liability, fault or wrongdoing. The Parties agree that this Order shall not be admissible in any hearing, action, or proceeding except to prove the existence of this Order or to enforce the Order's terms.

(14) The case is dismissed and the papers herein shall be placed in the file for ended causes.

(15) Dismissal of this case does not relieve the Defendant from its reporting obligations to any regulatory authority.

CASE NO. SEC-2010-00024
APRIL 6, 2010

APPLICATION OF
BAPTIST GENERAL CONFERENCE CORNERSTONE FUND d/b/a CONVERGE CORNERSTONE FUND

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of Baptist General Conference Cornerstone Fund d/b/a Converge Cornerstone Fund ("Fund") which the Commission received on March 1, 2010, together with attached exhibits. Such application requested that Fixed Rate Certificates, Demand Certificates, and Individual Retirement Account ("IRA") Certificates (collectively, the "Certificates") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and that certain officers of the Fund be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) the Fund is a non-stock Illinois corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; (ii) the Fund intends to offer and sell the Certificates as a continuous offering with a total offering amount of One Hundred Million Dollars ($100,000,000), on terms and conditions more fully described in the offering circular which was filed as a part of the application; and (iii) these securities are to be offered and sold by officers of the Fund, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act.

Based on the facts asserted by the Fund in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that the officers of the Fund are exempted from the agent registration requirements of said Act.

CASE NO. SEC-2010-00025
APRIL 6, 2010

APPLICATION OF
NATIONAL COVENANT PROPERTIES

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of National Covenant Properties ("NCP") which the Commission received on March 1, 2010, together with attached exhibits. Such application requested that 5-year Fixed Rate Renewable Certificates, Variable Rate Certificates, Church Demand Investment Accounts, Individual Retirement Account Certificates, and Health Savings Account Certificates (collectively, the "Certificates") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and that certain officers of NCP be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) NCP is a non-stock Illinois corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; (ii) NCP intends to offer and sell the Certificates as a continuous offering with a total offering amount of One Hundred Million Dollars ($100,000,000), on terms and conditions more fully described in the offering circular which was filed as a part of the application; (iii) these securities are to be offered and sold by officers of NCP, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act; and (iv) NCP will discontinue issuer transactions for all Certificates previously exempted by the Commission upon the grant of the exemption for the offering of Certificates described herein.

Based on the facts asserted by NCP in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that the officers of NCP are exempted from the agent registration requirements of said Act.

ORDER

On September 9, 2010, the Hearing Examiner issued a Report in the above-captioned matter in which he recommended to the State Corporation Commission ("Commission") that:

1. The Division of Securities and Retail Franchising's request that Case No. SEC-2010-00026 be dismissed from the Commission's docket of active cases be granted without prejudice, and

2. Case Nos. SEC-2006-00019 and SEC-2006-00020 be remanded to the Hearing Examiner for further proceedings.

It should be noted that the Hearing Examiner's Report covered all the Defendants listed in the above-captioned case. This Order shall apply equally to all parties in this case.

NOW THE COMMISSION, upon consideration of this matter, finds that the recommendations of the Hearing Examiner should be adopted.

Accordingly, IT IS ORDERED that:

(1) Case No. SEC-2010-00026 is dismissed without prejudice.

(2) Case Nos. SEC-2006-00019 and SEC-2006-00020 be remanded to the Hearing Examiner for further proceedings of the Commission.

CASE NO. SEC-2010-00029
MAY 19, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
UBS SECURITIES, LLC,
and
UBS FINANCIAL SERVICES INC.,
Defendants

CONSENT ORDER

UBS Securities, LLC, and UBS Financial Services Inc. (collectively, "UBS") are broker-dealers registered in the Commonwealth of Virginia;

Coordinated investigations into UBS's activities in connection with certain of its sales of financial products known as auction rate securities ("ARS") to retail and other customers have been conducted by a multistate task force ("task force");

UBS has cooperated with regulators conducting the investigations by responding to inquiries, providing documentary evidence and other materials, and providing regulators with access to facts relating to the investigations;

UBS has advised regulators of its agreement to resolve the investigations relating to the sale and marketing of ARS;

UBS agrees to implement certain changes with respect to its sales of ARS to retail and other customers, and to make certain payments; and

WHEREAS, UBS elects to permanently waive any right to a hearing and appeal under § 12.1-39 of the Code of Virginia with respect to this Consent Order ("Order").

NOW, THEREFORE, the State Corporation Commission ("Commission"), as administrator of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, hereby enters this Order:

I. JURISDICTION AND AUTHORITY

UBS admits the jurisdiction of the Commission, neither admits nor denies the Findings of Fact and Conclusions of Law contained in this Order, and consents to the entry of this Order by the Commission.

II. DEFENDANTS

UBS Securities, LLC ("UBS Securities"), is a broker-dealer registered in the Commonwealth of Virginia, with a Central Registration Depository ("CRD") number of 7654.

UBS Financial Services Inc. ("UBS Financial Services") is a broker-dealer registered in the Commonwealth of Virginia, with a CRD number of 8174.

III. FACTS AND ALLEGATIONS

A. How UBS Marketed and Sold its ARS to its Clients

UBS Wealth Management's Financial Advisors ("FAs") Represented ARS to Clients as Safe, Liquid, Cash Alternatives to Money-Market Instruments

1. UBS customers in Virginia were sold ARS and, in most instances, were told they were safe, liquid money-market instruments.

2. Many UBS customers were told that the interest rates on these instruments were set periodically through the functioning of deep, liquid, fully functioning auctions that had never failed for 20 years. Some were not told about the auction process at all, but simply thought they were buying short-duration instruments.

3. Many UBS customers were not told that the majority of the auction rate products available to them were limited to ARS that UBS underwrote.

4. Many UBS customers were not apprised of the risks of ARS, including the risk of failed auctions or a market freeze.

5. Many UBS customers were not told that UBS had a policy of placing support bids in every auction for which it was the sole or lead broker-dealer; that UBS routinely intervened in the auction markets to set the interest rates; that certain potential conflicts of interest existed between UBS and its customers; that in August 2007, UBS changed its policy of placing support bids in every auction for which it was lead broker-dealer and allowed some of the ARS it had underwritten to fail; or that after November 2007, UBS was actively considering scenarios that included ceasing its practice of supporting its auctions.

6. After UBS decided to stop supporting its auctions, these clients were informed that the market for these instruments had frozen and that they no longer held liquid short-term instruments but instead held instruments with long or perpetual maturities for which no market existed. Many of those instruments are no longer valued at par on UBS Financial Services account statements.

UBS Brokers who sold ARS to Clients Understood them to be Safe, Liquid Cash Alternatives or Money-Market Instruments

7. The UBS Financial Services FAs that the task force interviewed had not received any specific instruction or compliance training from UBS with respect to ARS.

8. Many of the FAs that the task force interviewed did not have even the most basic understanding of how ARS worked until after UBS pulled out of its auctions in February 2008.

UBS Did Not Provide its Financial Advisors With Any Mandatory Training With Respect to ARS

9. UBS did not provide its FAs with mandatory training regarding ARS.

10. In testimony provided to the task force, the Director of Product Management for UBS Financial Services ("Director of Product Management") indicated a wide range of information that FAs should know prior to selling ARS to customers, including the issuer's identity, the type of ARS, the credit quality, how the auction process works, and that a customer bid may or may not get filled for that auction.

11. However, UBS did not provide mandatory training or specifically instruct its FAs to apprise themselves of this information or provide customers with the information.

UBS Marketed ARS to Clients as Safe, Liquid Instruments

12. The UBS clients with whom the task force spoke uniformly stated that ARS had been marketed to them as completely liquid, safe money-market type instruments.

13. UBS Financial Services posted on its public website a marketing piece "Cash & Cash Alternatives Addressing Your Short-Term Needs," which included Auction Preferred Stock and Variable-Rate Demand Obligations as a cash alternative.

14. Similarly, in August 2007, UBS circulated its "Investment Intelligence" magazine, which is "a quarterly 'statement stuffer' that is sent to all UBS Financial Services retail clients and available to employees on the intranet." The featured topic was "Planning Your Retirement Cash Flow Strategy." The feature included Auction Preferred Stock, Auction Rate Certificates, and Variable-Rate Demand Obligations as cash alternatives. It also invited customers to request a copy of *Putting Liquidity to Work: A Guide to Cash Alternatives*, which is a brochure UBS made available to FAs to provide to clients starting in 2004, and which was posted on its external website in October 2007. This brochure identified a number of risks relating to ARS, including the risk of auction failure, UBS's routine support of the auctions, the lack of any obligation that UBS continue to support the market, and the conflicts of interest arising from UBS's multiple roles in the auction market.

ARS Were Listed Under the Heading "Cash Alternatives / Money Market Instruments" on UBS Financial Services Client Statements Through January 2008

15. Through January 2008, the client statements issued to retail customers listed APS under the heading: "Cash Alternatives/Money Market Instruments."

16. In the February 2008 client statements, UBS removed the heading "Cash Alternatives/Money Market Instruments" from its client statements. ARS were then referred to as "Cash Alternatives/Other."

17. For the May 2008 and subsequent statements, the heading on UBS Financial Services' account statements under which ARS appeared was changed again to "Fixed Income/ARS."

18. Student loan auction rate certificates ("Student Loan ARCS") had been listed under the heading "Cash Alternatives/Municipal Securities." This heading was changed to "Fixed Income/ARS."

UBS Did not Disclose Aspects of its ARS Program to its Clients

19. UBS did not have any mandatory disclosures regarding ARS that its FAs were required to make.

20. On this topic, the Director of Product Management testified that FAs were not required by any specific policy to inform clients of the possibility that auctions may fail. He said that he did not believe that FAs were required to inform clients that UBS Securities routinely intervened in the auction markets to prevent failure and to place a ceiling on clearing rates. He also testified that UBS Financial Services' FAs were not informed that UBS Securities' inventory of ARS had exceeded the $2.5 billion cap, though FAs would have been able to tell that UBS's inventory was growing rapidly in January and February 2008 through the trading systems available to them.

B. UBS's ARS Program Was Inconsistent With How It Was Promoted to Clients and Financial Advisors

Background on Mechanics of ARS

a. Dutch Auction Process

21. A Dutch auction is a competitive bidding process used to determine rates of interest on an instrument on each auction date. Bids are submitted to the auction agent by the investors interested in buying or selling their securities. The auction agent matches purchase and sale bids and the winning bid is the highest price (equivalent to the lowest rate) at which the auction clears. At the auction a holder may submit one of the following orders:

- **Hold Order** – the holder wishes to continue to hold a position regardless of rate.

- **Hold Rate Order or Bid Order** – the holder only wishes to continue to hold a position or purchase a new position if the new rate is equal to or higher than a specified rate.

- **Sell Order** – directs the broker-dealer to redeem the position at par regardless of the new rate.

b. Types of Auction Rate Securities

Auction Preferred Shares ("APS")

22. APS are equity instruments without a stated maturity issued by closed-end funds. They are collateralized by the assets in that fund and typically receive ratings from the major rating agencies. Interest rates are intended to be set in a Dutch auction process with auction cycles typically of 7 or 28 days. Typically, they have a maximum rate above which the interest rate cannot be set in an auction.

Municipal Auction Rate Certificates

23. Municipal auction rate certificates ("Municipal ARCS") are debt instruments (typically municipal bonds) issued by governmental entities with a long-term nominal maturity and a floating interest rate that is intended to be reset through a Dutch auction process. They receive long-term ratings from the major rating agencies and are often backed by monoline insurance.

Student Loan-Backed Auction Rate Certificates

24. Student Loan-backed auction rate certificates ("Student Loan ARCS") are long-term debt instruments issued by trusts that hold student loans. Interest rates are intended to be set in a Dutch auction process, and typically Student Loan ARCS have a maximum rate above which the interest rate cannot be set in an auction. They receive long-term ratings from the major rating agencies.

25. References to ARS herein shall include three separate categories of instruments: APS of closed-end funds, Municipal ARCS, and Student Loan ARCS.

UBS's ARS Program

a. Underwriting

26. UBS Securities was one of the largest underwriters of Municipal ARCS and Student Loan ARCS.

27. UBS Securities was a large underwriter of APS until it ceased underwriting those shares in 2005 or 2006.

28. UBS's compensation for underwriting ARS was typically one percent of the amount underwritten.

29. UBS competed with other investment banks to provide low-cost financing to ARS issuers. Its ability to do so was a key factor in its ability to generate additional ARS underwriting business.

b. Broker-Dealer Agreements

30. For the ARS that it underwrote, UBS Securities typically served as a manager of those auctions.

31. UBS Securities often served as lead manager, but sometimes served as co-manager of auctions with other large broker-dealers.

32. UBS Securities' management responsibilities were typically set forth in an agreement called a broker-dealer agreement that it entered into with the issuer.

33. UBS Securities' compensation under those broker-dealer agreements was typically 20-25 basis points annualized of the amount managed.

34. UBS Securities shared a portion of its management fee with UBS Financial Services and its FAs in connection with the sale of ARS to customers of UBS Financial Services.

c. Distribution of ARS by UBS Financial Services

35. UBS Financial Services served as the primary distribution source for the ARS that UBS Securities underwrote.

36. Most of the ARS sold to clients of UBS Financial Services came from UBS Securities' ARS program.

37. UBS Financial Services did not do its own due diligence to discern whether particular ARS were quality instruments to be offered to its retail clients.

38. The Director of Product Management testified that since joining UBS Financial Services in 2005, he could not recall any instance in which UBS Financial Services had rejected or declined to distribute to its customers an ARS product underwritten by UBS Securities.

39. FAs received a portion of 25 basis points annualized of the total amount of ARS held by their clients.

40. FAs received no commission for their clients' investments in UBS's standard money-market fund.

d. UBS Routinely Placed Support Bids in Order to Prevent Failed Auctions

41. On all of the auctions for which it was the sole or lead broker-dealer, UBS Securities placed support bids to ensure that the auctions would not fail.

42. According to information provided by UBS to the task force, in auctions for APS from January 1, 2006, through February 28, 2008, UBS Securities submitted support bids in 27,069 auctions. The support bids were drawn upon in order to prevent a failed auction 13,782 times, which represented 50.9 % of those auctions.

43. According to information provided by UBS to the task force, in auctions for Municipal ARCS and Student Loan ARCS from January 1, 2006 through February 28, 2008, UBS Securities submitted support bids in 30,367 auctions. The support bids were drawn upon in order to prevent a failed auction 26,023 times, which represented 85.7 % of those auctions.

44. If UBS had not placed support bids in auctions, UBS's auction rate program would have failed.

e. UBS's Setting of Interest Rates

Price Talk

45. Prior to every auction for which it was the sole or the lead broker-dealer, UBS engaged in price talk. Price talk consisted of a range of bids that UBS Securities transmitted to UBS Financial Services' FAs indicating where UBS Securities expected the auctions to clear.

Setting Interest Rates by Placing Bids

46. UBS influenced ARS interest rates by submitting buy and sell bids from its own inventory.

47. UBS's Short Term Desk frequently set the rate at which the auction would clear.

48. In the Fall of 2007, UBS raised the interest rates it set on ARS in part in response to a build-up of inventory of ARS.

49. In contrast to the understanding that retail investors were given that the interest rates on these securities were actually set through the auction process, the head of Short-Term Trading said, "We are making pricing decisions based on our ability to attract investors while managing issuer client relationships and will continue to do so in efforts to move securities."

In August 2007 UBS Intentionally Allowed Certain of its Auctions to Fail

50. In August 2007, a number of broker-dealers, including UBS, failed some of their auctions for certain auction products that were issued in private placements relating to the Collateral Debt Organizations market and certain auction products issued by monoline insurance companies.

51. In August 2007, UBS intentionally allowed to fail the auctions for sixteen (16) Committee on Uniform Securities Identification Procedures (or CUSIP) numbers.

52. These same auctions continued to fail in the Fall of 2007.

UBS's Inventory of ARS Increased Substantially from August 2007, through mid-February 2008

a. Inventory Increased Beyond Cap Imposed by Risk Management

53. UBS's inventory of ARS, which it added to each time it supported an auction that otherwise would have failed, began to increase after the auction failures in August 2007.

54. UBS's risk control division imposed limits on the amount of ARS inventory UBS could hold.

55. When the inventory obtained by supporting auctions was reached, the Short-Term Desk had to request from risk-management an increase in that cap.

56. UBS's support of the auctions caused its inventory of ARS to increase even more in 2008.

b. Pushback from Risk Management

57. In the fall of 2007 and the beginning of 2008, UBS's risk management group was beginning to express concerns about the increase in the build-up of ARS. Risk management expressed these concerns in the context of the Short-Term Desk's repeated requests to take on inventory of ARS above the caps imposed by risk management.

58. For example, an e-mail dated August 15, 2007, from an employee in the investment bank's risk function (who worked with the investment bank's Chief Risk Officer in the Americas) stated: "Limited extension [of permission to operate over peak auction rate security inventory limit] granted for one night. There is little tolerance for increased inventory firm wide; please continue to price aggressively to keep inventory down."

UBS Attempted to Limit the Build-up of Auction Rate Securities Inventory

a. Enhanced Marketing Efforts for ARS

59. As UBS's inventory of ARS began to grow, the Global Head of UBS's Municipal Securities Group led an effort to sell more of that inventory.

60. This effort began in August 2007 and continued until UBS pulled out of the market in February 2008.

61. A concerted marketing effort was made to get the FAs to sell ARS.

62. In early 2008, in response to a substantial decrease in corporate cash demand for ARS, UBS began an education campaign to ensure that FAs understood the true credit quality of the ARS.

b. Waivers of Maximum Rates on Student Loan-Backed Auction Rate Certificates

63. The maximum rate at which Student Loan ARCS could reset was too low to compensate investors for the perceived risk of those instruments during the period between August 2007 and February 2008. Many APSs suffered from a similar flaw.

64. These maximum rates were well known to UBS as UBS Securities had built them into the instruments in order to make them more palatable to their underwriting clients.

65. The maximum rates often allowed the issuers to obtain a higher rating on the product in part because capping the interest rate on the product allowed them to satisfy the cash flow stress tests of the rating agencies.

66. As investors shied away from ARS after August 2007, UBS's inventory began to grow dramatically and it needed to keep raising interest rates in order to move the paper.

67. However, as those interest rates began to approach the maximum rates on the securities with restrictive maximum rates, UBS began an effort to get its issuer clients to agree to a temporary increase in maximum rates and to seek waivers from the rating agencies in order to allow the interest rates on those instruments to rise to a level where those instruments could clear the market, until the market recovered or UBS could work with issuers to restructure.

68. Those waivers were short-term in nature and many that had been obtained in 2007 were set to expire in early 2008.

69. UBS became very concerned that when these waivers expired, these instruments would hit the maximum rate and the rate would reset to a level that would not be appealing to investors, thus requiring UBS to take on even more Student Loan ARCS.

70. In January 2008, UBS continued to seek waivers of the maximum rates from issuers.

71. UBS did not disclose its concerns with respect to maximum rates of Student Loan ARCS to investors.

72. Moreover, UBS's FAs were not aware of issues related to the maximum rate and did not explain them to customers.

After August 2007, UBS's Concerns Regarding ARS Intensified Causing UBS To Debate Its Ongoing Role In The Auction Markets

73. After August 2007, there was an ongoing dialogue within UBS as to the condition of the auction markets, with particular emphasis on Student Loan ARCS.

74. In the Summer and Fall of 2007, UBS began a balance sheet reduction program, which required all divisions, including the Short-Term Desk, to contribute to liquidity creation and balance sheet reduction.

75. By early December 2007, it became clear that many institutional buyers were no longer interested in ARS.

76. On December 12, 2007, the Head of Flow, Sales and Trading sent an e-mail to the Global Head of Municipal Securities in which he stated: "The auction product does not work and we need to use our leverage to force the issuers to confront this problem our options are to resign as remarketing agent or fail or?"

77. Of note, that same day, the Global Head of Municipal Securities sold his remaining personal shares of ARS, while continuing to engage in enhanced marketing efforts to clients. He subsequently explained that he made these sales because "my risk tolerance from a credit perspective was — was something that drove me to want to sell" ARS.

78. A student loan task force was set up at UBS in mid-December 2007.

79. In addition to the student loan task force, in December 2007, a working group was convened to discuss the broader condition of UBS's ARS program. According to UBS's response to interrogatories propounded by the task force, "In late 2007, UBS formed a working group that addressed the general market conditions for ARS, as well as UBS's continued role in ARS auctions."

80. The working group held meetings on December 21, 2007, January 4, 2008, January 18, 2008, February 1, 2008, and February 29, 2008.

81. The working group discussed, among other things, the build-up in UBS's inventory of ARS and strategies for exiting the auction markets.

UBS's Conflicted Role in Serving Underwriting Clients Versus Acting in the Best Interests of Retail Wealth Management Clients

82. UBS's auction rate program, in which it actively managed to influence the interest rates on ARS (which interest rates, in theory, should have been set by auctions), put it in a fundamentally conflicted role.

83. On one hand, as set forth in detail above, UBS often needed to raise interest rates in order for auction paper to clear. On the other hand, if UBS raised interest rates too high, it ran afoul of its underwriter clients, to whom it had promised low-cost financing.

84. Many UBS Financial Services' investors were unaware of this conflict, as it was never disclosed to them.

85. Many retail purchasers of UBS auction rate paper thought that the interest rates were set by the auction markets, not by UBS's setting of the interest rates resulting from its balancing of the needs of its underwriting clients and its need to move the product so that its inventory did not grow too large.

86. This conflict became more acute when the auction markets began to crumble. If UBS did not raise rates enough, there would not be sufficient buying interest and UBS would have to take more auction rate paper onto its books. If UBS raised rates too high, the auction results could significantly increase the cost of financing to UBS's issuer clients.

UBS Financial Advisors Were Not Apprised of this Back Story

87. As the auction rate market began to show some stress in August 2007, which gained intensity through the end of 2007 and January 2008, many customers were not informed of problems in the ARS market.

88. Up through at least February 8, 2008, and in connection with updates to FAs of events occurring in the auction rate market, FAs were informed as follows:

> The public auction market continues to clear hundreds of auctions daily, with lead-broker-dealers frequently bidding to clear auctions where needed. While broker-dealers are not obligated to bid in auctions, we do not have reason to change our current practice when UBS is lead underwriter. We will continue to monitor developments so that we responsibly serve our clients and shareholders.

89. This message came one day after the Global Head of Municipal Securities, in a February 7, 2008 e-mail to certain UBS personnel on the topic of whether UBS was contemplating failing auctions, stated, regarding the auction rate market: "clock ticking-not sustainable."

90. In stark contrast to the sales of personal holdings of ARS by the Global Head of Municipal Securities in August and December 2007, customers who were kept in the dark about UBS's concern about the viability of the program and UBS's wavering commitment to the program, found themselves stuck.

UBS Failed Its Auctions On February 13, 2008

91. UBS Financial Services' FAs kept selling ARS through February 12, 2008.

92. On February 13, without prior notice to its customers who had purchased ARS, UBS failed its auctions for ARS.

IV. CONCLUSIONS OF LAW

1. The Commission has jurisdiction over this matter pursuant to the Virginia Securities Act ("Act") § 13.1-501 *et seq.* of the Code of Virginia.

2. UBS Failed to Supervise. As described in the Findings of Fact above, UBS failed to exercise diligent supervision of the securities activities of all of its agents in violation of Commission Rule 21 VAC 5-20-260 B. As a result, UBS violated Commission Rules 21 VAC 5-20-260 A and B.

3. UBS Engaged in Dishonest and Unethical Practices. As described in the Findings of Fact above, UBS has failed to conduct securities business in accordance with the rules of the Commission in violation of § 13.1-506 7 of the Act. As a result, UBS violated Commission Rule 21 VAC 5-20-280 A 3 by recommending that customers purchase or sell ARS without reasonable grounds to believe that the recommendation was suitable for the customer.

4. The Commission finds the following relief appropriate and in the public interest.

V. ORDER

On the basis of the Findings of Fact, Conclusions of Law, and UBS's consent to the entry of this Order without admitting or denying the facts or conclusions herein,

Accordingly, IT IS ORDERED THAT:

(1) This Order concludes the investigation by the Commission and, except as provided in Paragraph V.19, precludes any other action that the Commission could commence under the Act on behalf of the Commonwealth of Virginia as it relates to UBS's marketing and sale of ARS.

(2) This Order is entered into solely for the purpose of resolving the above-referenced multistate investigation, and is not intended to be used for any other purpose.

(3) UBS will not violate the Act and will comply with the Act in the future.

(4) Within ten (10) days of the entry of this Order, UBS shall pay the sum of One Million Six Hundred Sixty-two Thousand Twenty-nine Dollars and Forty-three Cents ($1,662,029.43) to the Treasurer of Virginia.

(5) UBS shall take certain measures with respect to certain current and former customers as related to "Eligible ARS," as defined in Paragraph V.6.

(6) Eligible ARS. For purposes of this Order, "Eligible ARS" means ARS that failed at least once in auctions between August 8, 2008, and October 7, 2008.

(7) Eligible Customers. As used in this Consent, an "Eligible Customer" is any current or former UBS customer (not including (i) broker-dealers or (ii) banks acting as conduits for their customers) who opts in to the relief provided pursuant to this Order and meets any of the following criteria:

a. Held the Eligible ARS at UBS as of February 13, 2008 or in delivery versus payment accounts as of February 13, 2008 for which UBS had bidding rights; or

b. Purchased Eligible ARS at UBS between October 1, 2007 and February 12, 2008, and transferred those ARS out of UBS prior to February 13, 2008;

(8) Offer periods.

a. First Offer Period.

(i) No later than October 31, 2008, UBS shall have offered to purchase at par Eligible ARS from all Eligible Customers who:

(a) Meet the criteria under Paragraphs V.7.a or V.7.b;

(b) Are either:

i. Individual customers, or

ii. Charities, endowments, or foundations with Internal Revenue Code Section 501(c)(3) status; and

(c) Have less than $1 million in assets at UBS as determined by the investor's aggregate household asset position at UBS on August 8, 2008.

(d) In cases in which investor classification under this subsection is ambiguous, such classification will be determined by UBS in the exercise of its reasonable good faith judgment.

(ii) This First Offer Period will remain open until January 4, 2011.

b. Second Offer Period.

(iii) No later than January 2, 2009, UBS shall have offered to purchase at par Eligible ARS from all Eligible Customers who meet the criteria under Paragraphs V.7.a or V.7.b and are:

(a) Individual customers,

(b) Charities, endowments or foundations with Internal Revenue Code Section 501(c)(3) status, or

(c) Small businesses (entities with less than $10 million in assets with UBS as of August 8, 2008).

(iv) Notwithstanding any other provision, institutional customers who have represented they have total assets of greater than $50 million, or otherwise are determined to have assets greater than $50 million, as of August 8, 2008, are covered by the Third Offer Period (described in Paragraph V.8.c) and not by the Second Offer Period.

(v) In cases in which investor classification under this subsection is ambiguous, such classification will be determined by UBS in the exercise of its reasonable good faith judgment.

(vi) This Second Offer Period will remain open until January 4, 2011.

c. Third Offer Period – Institutional Customers. No later than June 30, 2010, UBS shall offer to purchase at par Eligible ARS from all remaining Eligible Customers who meet the criteria under Paragraphs V.7.a and V.7.b. This Third Offer Period will remain open until July 2, 2012.

(9) Customer Notification and Opt In Procedures.

a. Initial Notice. UBS shall have sent notice ("ARS Settlement Notice") to each Eligible Customer. The ARS Settlement Notice shall have described the relevant terms of this Order as related to Eligible Customers and shall have informed the customers that they could opt in to the relief described in the ARS Settlement Notice within thirty (30) days after the mailing date of the ARS Settlement Notice ("Initial Opt In Period").

b. Second Notice and Opt In. To the extent that any Eligible Customer did not opt in during the Initial Opt In Period, UBS shall have provided any such customer a second written notice describing the relevant terms of this Order as related to Eligible Customers within seven (7) business days of the expiration of the Initial Opt In Period. Customers will have had thirty (30) days after the mailing date of the second written notice to notify UBS that they opt in to the relief described in the ARS Settlement Notice. This Order does not require UBS to purchase the ARS of any customer that was mailed the ARS Settlement Notice but did not opt in to the relief described in the ARS Settlement Notice. Any customer who did not opt in to the relief provided pursuant to this Order may pursue any other remedies against UBS available under the law.

c. Customer Assistance Line and Internet Page. Within five (5) business days of the entry of this Order, UBS shall have updated: (i) its dedicated toll-free telephone ARS assistance line, with appropriate staffing, to provide information and to respond to questions concerning the terms of this Order; and (ii) the public Internet page regarding ARS on UBS's corporate Web site(s), with a prominent link to that page appearing on UBS's relevant homepage(s), to provide information concerning the terms of this Order and, via an e-mail address or other

reasonable means, to respond to questions concerning the terms of this Order. UBS shall maintain the telephone assistance line and Internet page through June 30, 2010, or the completion of UBS's obligation pursuant to Paragraph V.15 of this Order, whichever is later.

(10) Purchase Procedures.

a. Customers Eligible Under Paragraph V.8.

For customers eligible for an offer under Paragraph V.8 who opted in to the relief described in the ARS Settlement Notice:

(i) UBS Offer. UBS shall have offered to purchase their Eligible ARS at par plus any accrued and unpaid dividends/interest during the relevant timeframe specified in Paragraph V.8. These customers may enter a sell order to sell their Eligible ARS at par to UBS at any time during the relevant timeframe.

(ii) Discretionary Sales on Behalf of Customers. Starting on the business day following the date that an Eligible Customer opted in to the relief described in the ARS Settlement Notice, UBS shall be authorized to exercise discretion on such customer's behalf to effect sales or other dispositions of Eligible ARS, including but not limited to secondary sales. UBS shall make customers whole at par (plus any accrued and unpaid dividend/interest) if any such disposition occurs below par. Any such discretion shall be exercised by UBS solely for the purpose of facilitating restructurings, dispositions, or other par solutions for customers. UBS represents that the purpose of this aforementioned discretion is to permit UBS to mitigate potential damages while still returning par to customers. In addition, starting the business day following the date on which an Eligible Customer opted in to the relief described in the ARS Settlement Notice, UBS shall be authorized to exercise reasonable discretion to purchase at par Eligible ARS that are tax-exempt Auction Preferred Stock issued by closed-end funds.

(iii) Written Notice of Expiration. Thirty (30) days before the expiration of each relevant timeframe set forth in Paragraph V.8, UBS shall provide written notice to those customers eligible under Paragraph V.8 who have not sold their Eligible ARS to UBS. This written notice shall notify the customers about the impending expiration of the relevant timeframe, describe the state of the ARS market at that time, and explain the consequences of failing to sell their ARS to UBS prior to the expiration of the relevant timeframe.

b. Returning ARS to UBS Custody. Because the Eligible ARS must be in UBS custody prior to UBS being able to purchase such ARS, the customer must return the Eligible ARS to UBS's custody before placing an order to sell the Eligible ARS to UBS. To this end, UBS shall use its best efforts to assist customers eligible for relief under this Order who have transferred ARS out of UBS custody in returning Eligible ARS to UBS custody and shall not charge such customers any fees relating to or in connection with the return to UBS or custodianship by UBS of such Eligible ARS.

(11) Customer Priority. UBS agrees that it will not take advantage of liquidity solutions for its own inventory without making them available, as soon as practicable, to its customers that opted in to the relief provided pursuant to this Order who hold the same CUSIP(s) of ARS in their accounts. This obligation shall continue until June 30, 2010.

(12) Relief for Customers Who Sold Below Par. UBS shall make best efforts to identify any such Eligible Customers who sold Eligible ARS below par between February 13, 2008 and September 15, 2008. By October 31, 2008, UBS shall have paid any Eligible Customer so identified the difference between par and the price at which the customer sold the Eligible ARS, plus reasonable interest thereon. UBS shall promptly pay any such Eligible Customer identified after October 31, 2008.

(13) Refund of Refinancing Fees to Municipal Issuers. By June 30, 2009, UBS shall have refunded to municipal issuers underwriting fees each issuer paid to UBS for the refinancing or conversion of ARS that occurred after February 13, 2008, where UBS acted as underwriter for both the primary offering of ARS between August 1, 2007 and February 12, 2008, and the refunding or conversion of the ARS after February 13, 2008.

(14) Negative Carry on Prior ARS Loan Programs. With respect to each customer who took out a loan from UBS (directly or indirectly) using the firm's prior ARS loan programs since February 13, 2008, UBS shall promptly reimburse the customer for any excess interest costs associated with such loan when compared to the interest paid on average on the Eligible ARS that are the subject of the loan, plus reasonable interest thereon.

(15) Purchase from Certain Additional Customers.

a. Subject to the limitations described in Paragraphs V.15.d.and V.15.e, with respect to former UBS customers who are either individuals; charities, endowments, or foundations with Internal Revenue Code Section 501(c)(3) status; or small businesses (entities with less than $10 million in assets with UBS other than institutional customers who have represented they have total assets of greater than $50 million, or otherwise are determined to have assets greater than $50 million, as of August 8, 2008), and who purchased Eligible ARS at UBS on or after January 1, 2000, and transferred the Eligible ARS from UBS before February 13, 2008, and continue to own the Eligible ARS, UBS shall offer to purchase the customer's Eligible ARS at par plus any accrued and unpaid dividends/interest, provided such customer has contacted or contacts UBS to request that UBS purchase the Eligible ARS.

b. Within thirty (30) days of March 4, 2010, UBS shall offer to purchase Eligible ARS from each customer eligible under Paragraph V.15.a who is recorded as having contacted UBS before March 4, 2010.

c. For each customer eligible under Paragraph V.15.a who contacts UBS after March 4, 2010, within thirty (30) days of UBS's receipt of the customer's request, UBS shall offer to purchase Eligible ARS from such customer.

d. The Eligible ARS must be in UBS custody prior to UBS being able to purchase such ARS under this section. Former customers who are eligible under this section must return the Eligible ARS to their prior UBS account or, in the case of former accounts that have been purged, to new UBS accounts opened by the customer. UBS shall not charge such customers any fees relating to or in connection with the return to UBS of such Eligible ARS.

e. UBS's obligations under Paragraph V.15.a will expire after UBS has purchased Eligible ARS pursuant to Paragraph V.15.a with a total value of $200 million ("The Purchase Obligation"). The Purchase Obligation includes sums paid to any customer eligible under these provisions as well as any similar provisions with any other state. Customers covered by Paragraph V.15.c. will be prioritized based on date of receipt of claim. The Purchase Obligation also will include any amounts UBS paid to customers covered by Paragraph V.15.a prior to the execution of the Consent Order. Furthermore, UBS's obligation under Paragraph V.15.a will be stayed during any period that the sum paid and/or offered to be paid pursuant to Paragraph V.15.a equals or exceeds $200 million.

f. UBS has indicated that it will require each customer accepting a purchase offer under this Paragraph V.15 to provide UBS with a full release of claims as a condition to UBS's agreement to repurchase. Such requirement will not be construed as a violation of this Order, or as otherwise prohibited by this Order.

(16) Best Efforts. Notwithstanding UBS's obligations pursuant to Paragraph V.8.c, UBS shall have used its best efforts to, by December 31, 2009, provide liquidity solutions at par for UBS institutional customers (not including (i) broker-dealers or (ii) banks acting as conduits for their customers) by, among other things, facilitating issuer redemptions, and/or restructurings.

(17) Reports and Meetings.

a. Reports. Within thirty (30) days after March 4, 2010, and then quarterly after that, UBS shall submit a written report detailing UBS's progress with respect its obligations under paragraph V.15. This report shall be submitted to a representative specified by the North American Securities Administrators Association ("NASAA").

b. The reporting obligation set forth above may be amended with written permission from a designated NASAA representative.

(18) Special Arbitration Process.

a. UBS shall consent to participate, at the customer's election, in the special arbitration procedures described below. Under these procedures, an arbitration process, under the auspices of the Financial Industry Regulatory Authority ("FINRA"), will be available for the exclusive purpose of arbitrating consequential damages claims by individual (non-institutional) Eligible Customers who meet the criteria under paragraphs V.8.a and V.8.b. above.

b. Applicable procedures.

(i) Arbitrator. The special arbitrations will be conducted by a single public arbitrator.

(ii) Forum and Filing Fees. UBS shall pay all forum and filing fees with respect to customer claims eligible for the special process.

(iii) Proof. Eligible Customers will bear the burden of proving by a preponderance of the evidence, the existence and amount of consequential damages suffered as a result of the illiquidity of the Eligible ARS. Although UBS will be able to defend itself against such claims, UBS shall not argue against liability for the illiquidity of the underlying ARS position. Furthermore, UBS will not use as part of its defense the customer's decision not to borrow money from UBS prior to September 15, 2008.

(iv) Other Damages. Eligible Customers who elect to use the special arbitration procedures provided for in this Order shall not be eligible for punitive damages, or any other type of special damages other than consequential damages.

(vi) Applicability of FINRA Procedures. The special arbitrations shall be subject to the rules and procedures adopted by FINRA for such arbitrations to the extent such rules and procedures are not inconsistent with the NASAA Special Arbitration Procedures provision relating to Relief Available, or the terms and provisions specified herein.

(19) Ability to Take Additional Actions. The Commission will discontinue all investigations of the marketing and sale of ARS by UBS and will withdraw or not commence any enforcement or other proceeding against UBS in connection with its marketing and sale of ARS. Notwithstanding this paragraph, the Commission may investigate specific sales practice complaints involving ARS. In connection with such investigations, the Commission may not seek remedies against the firm or its agents such as penalties, fines, license suspension or revocation, disgorgement, or injunctive relief for any conduct related to UBS's marketing and sales of ARS, as such conduct is set forth in this Order.

(20) UBS AG. In consideration of the Commission entering into this settlement as reflected in this Order, UBS AG will satisfy the financial obligations to customers herein on behalf of UBS Financial Services, Inc., and UBS Securities LLC.

VI. ADDITIONAL CONSIDERATIONS

1. If payment is not made by UBS, or if UBS defaults in any of its obligations set forth in this Order, the Commission may vacate this Order, at its sole discretion, after providing UBS notice and an opportunity to cure the default(s) within ten (10) days after the date of the notice.

2. This Order is not intended to indicate that UBS or any of its affiliates or current or former employees shall be subject to any disqualifications contained in the federal securities law, the rules and regulations thereunder, the rules and regulations of self-regulatory organizations or various states' securities laws including any disqualifications from relying upon the registration exemptions or safe harbor provisions. In addition, this Order is not intended to form the basis for any such disqualifications.

3. For any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against UBS including, without limitation, the use of any e-mails or other documents of UBS or of others for the marketing and sale of ARS to investors, limit or create liability of UBS, or limit or create defenses of UBS to any claims. Further, nothing in this Order shall affect UBS's ability to defend itself against claims in litigation.

4. This Order shall not disqualify UBS or any of its affiliates or current or former employees from any business that they otherwise are qualified or licensed to perform under applicable securities laws of the Commonwealth of Virginia. In addition, this Order is not intended to form the basis for any such disqualifications.

5. This Order and any dispute related thereto shall be construed and enforced in accordance with, and governed by, the laws of the Commonwealth of Virginia without regard to any choice of law principles.

6. UBS, through its execution of this Order, voluntarily waives its right to a hearing on this matter and to judicial review of this Order under the Act.

7. UBS enters into this Order voluntarily and represents that no threats, offers, promises, or inducements of any kind have been made by the Commission or any member, officer, employee, agent, or representative of the Commission to induce UBS to enter into this Order.

8. This Order shall be binding upon UBS and its successors and assigns as well as to successors and assigns of relevant affiliates with respect to all conduct subject to the provisions above and all future obligations, responsibilities, undertakings, commitments, limitations, restrictions, events, and conditions.

9. Dismissal of this case does not relieve the Defendant from its reporting obligations to any regulatory authority.

NOTE: A copy of Exhibit A entitled "Sample Disclosure for Transactions in Virginia" is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. SEC-2010-00030
JUNE 15, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
PLAY N TRADE FRANCHISE, INC.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Play N Trade Franchise, Inc. ("Defendant"): (i) violated § 13.1-563 (2) of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, by making untrue statements of a material fact or omitting to state a material fact necessary in order to avoid misleading the offeree in connection with the sale or offer to sell a franchise; and (ii) violated Franchise Rule 21 VAC 5-110-95 by failing to follow the requirements for Franchise Disclosure Document preparation.

The State Corporation Commission ("Commission") is authorized by § 13.1-562 of the Act to revoke the Defendant's registration, by § 13.1-568 of the Act to issue temporary or permanent injunctions, by § 13.1-570 of the Act to impose certain monetary penalties and to request the Defendant to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

(1) The Defendant will pay to the Treasurer of the Commonwealth of Virginia the amount of Ten Thousand Dollars ($10,000) in monetary penalties. Five Thousand Dollars ($5,000) of said penalty will be paid contemporaneously with the entry of this order, and the remaining Five Thousand Dollars ($5,000) will be paid within thirty (30) days of the entry of this Order.

(2) The Defendant will pay to the Treasurer of the Commonwealth of Virginia the amount of Five Thousand Dollars ($5,000) to defray the costs of investigation. Two Thousand Five Hundred Dollars ($2,500) of said costs will be paid contemporaneously with the entry of this Order, and the remaining Two Thousand Five Hundred Dollars ($2,500) will be paid within thirty (30) days of the entry of this Order.

(3) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

The Commission, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein is hereby accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2010-00031
APRIL 21, 2010

APPLICATION OF
CHRISTIAN INVESTORS FOUNDATION

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of Christian Investors Foundation ("Foundation") which the Commission received on March 15, 2010, together with attached exhibits. Such application requested that Term Certificates and Demand Certificates (collectively, the "Certificates") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and that certain officers of the Foundation be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) the Foundation is a non-stock Minnesota corporation operating not for private profit but exclusively for charitable, benevolent, and educational purposes; (ii) the Foundation intends to offer and sell the Certificates as a continuous offering with a total offering amount of Seventy Million Dollars ($70,000,000), on terms and conditions more fully described in the offering circular which was filed as a part of the application; and (iii) these securities are to be offered and sold by officers of the Foundation, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act.

Based on the facts asserted by the Foundation in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that the officers of the Foundation are exempted from the agent registration requirements of said Act.

CASE NO. SEC-2010-00032
JUNE 1, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
DREAM DINNERS, INC.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Dream Dinners, Inc. ("Defendant") violated § 13.1-563 (2) of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, by making untrue statements of a material fact or omitting to state a material fact necessary in order to avoid misleading the offeree in connection with the sale or offer to sell a franchise.

The State Corporation Commission ("Commission") is authorized by § 13.1-562 of the Act to revoke the Defendant's registration, by § 13.1-568 of the Act to issue temporary or permanent injunctions, by § 13.1-570 of the Act to impose certain monetary penalties and to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant cooperated with the Division's investigation. The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

(1) The Defendant will pay to the Treasurer of the Commonwealth of Virginia, no later than thirty (30) days from the date of entry of this Settlement Order, the amount of Five Thousand Four Hundred Dollars ($5,400) to defray the cost of investigation.

(2) The Defendant will make a rescission offer to certain Virginia franchisees.

(a) Within thirty (30) days of the date of this Settlement Order, the Defendant will make a written offer of rescission sent by certified mail to each franchisee, which will include an offer to repay the initial franchise fee, and a provision that gives each franchisee thirty (30) days from the date of receipt of the rescission offer to provide the Defendant with written notification of his decision to accept or reject the offer.

(b) The Defendant will provide to the Division a copy of the rescission offer for its review and comment at least ten (10) days before sending it to the franchisees.

(c) The Defendant will include with the written offer of rescission a copy of this Settlement Order.

(d) If the rescission offer is accepted, the Defendant will forward the payment to each franchisee in no more than thirty-five (35) equal consecutive monthly installments with the first monthly installment due the month following the acceptance of the rescission offer.

(e) Within thirty (30) days from the date of the last monthly installment payment, the Defendant will submit to the Division proof of certified mailings of the rescission offer and an affidavit, executed by the Defendant, which contains the date on which each franchisee received the offer of rescission, each franchisee's response, and, if applicable, the amount and the date that payment was sent to each franchisee.

(3) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

The Commission, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein is hereby accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

CASE NO. SEC-2010-00033
JUNE 1, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
DOUGLAS AQUATICS, INC.,
Defendant

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that Douglas Aquatics, Inc. ("Defendant"): (i) violated § 13.1-560 of the Virginia Retail Franchising Act ("Act"), § 13.1-557 *et seq*. of the Code of Virginia, by selling or offering to sell franchises in the Commonwealth of Virginia prior to registering under the provisions of the Act; (ii) violated § 13.1-563 (2) of the Act by making untrue statements of a material fact or omitting to state a material fact necessary in order to avoid misleading the offeree in connection with the sale or offer to sell a franchise; (iii) violated § 13.1-563 (4) (ii) by failing to, directly or indirectly, provide franchisees with such disclosure documents as may be required by rule or order of the State Corporation Commission ("Commission"); and (iv) violated Retail Franchising Rule 21 VAC 5-110-95 by failing to follow the requirements for Franchise Disclosure Document preparation.

The Commission is authorized by § 13.1-562 of the Act to revoke the Defendant's registration, by § 13.1-568 of the Act to issue temporary or permanent injunctions, by § 13.1-570 of the Act to impose certain monetary penalties and to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant admits to the violation of § 13.1-560 of the Act, neither admits nor denies the remaining allegations, but admits to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendant has made an offer of settlement to the Commission wherein the Defendant will abide by and comply with the following terms and undertakings:

(1) The Defendant will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Nine Thousand Dollars ($9,000) in monetary penalties.

(2) The Defendant will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Eight Thousand Three Hundred dollars ($8,300) to defray the costs of investigation.

(3) The Defendant will provide a copy of this Order to every current and former franchisee.

(4) The Defendant will not violate the Act in the future.

The Division has recommended that the Commission accept the offer of settlement of the Defendant.

The Commission, having considered the record herein, the offer of settlement of the Defendant, and the recommendation of the Division, is of the opinion that the Defendant's offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendant in settlement of the matter set forth herein is hereby accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement;

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendant from its reporting obligations to any regulatory authority.

CASE NO. SEC-2010-00034
APRIL 30, 2010

APPLICATION OF
BLUE RIDGE BIBLE CHURCH

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of Blue Ridge Bible Church that the Commission received on March 16, 2010, together with attached exhibits. Such application, as subsequently amended, requested that Blue Ridge Bible Church's General Mortgage Bonds ("Mortgage Bonds") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) Blue Ridge Bible Church is a nonprofit Virginia corporation organized exclusively for religious, charitable, and educational purposes; (ii) Blue Ridge Bible Church intends to offer and sell the Mortgage Bonds as a continuous offering with a total offering amount of One Million Three Hundred Sixty Thousand Dollars ($1,360,000), on terms and conditions more fully described in the prospectus which was filed as a part of the application; and (iii) the Mortgage Bonds are to be offered and sold by broker-dealers registered under the Act.

Based on the facts asserted by Blue Ridge Bible Church in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act.

CASE NO. SEC-2010-00037
DECEMBER 7, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel*.
STATE CORPORATION COMMISSION
v.
CRYSTAL G. SPEEKS-STROHECKER d/b/a CREDIT MEDIC FINANCIAL SERVICES, INC.,
Defendant

JUDGMENT ORDER

On August 19, 2010, the State Corporation Commission ("Commission") issued an Amended Rule to Show Cause ("Amended Rule") against Crystal G. Speeks-Strohecker d/b/a Credit Medic Financial Services, Inc. ("Defendant"). The Amended Rule alleged that the Defendant: (1) violated § 13.1-560 of the Virginia Retail Franchising Act (the "Act"), § 13.1-557 *et seq.* of the Code of Virginia, by offering and selling franchises in the Commonwealth of Virginia without being properly registered; and (2) violated § 13.1-563 of the Act by failing to provide the franchisees with an appropriate disclosure document, by failing to disclose that the Defendant was not registered to sell franchises in the Commonwealth of Virginia, and by failing to make other disclosures.

The Amended Rule, among other things, assigned the matter to a Hearing Examiner and scheduled an evidentiary hearing for October 13, 2010. Additionally, the Amended Rule ordered the Defendant to file a responsive pleading on or before September 7, 2010, in which the Defendant was required to expressly admit or deny the allegations in the Amended Rule and present any affirmative defenses that she intended to assert. The Defendant was advised that she may be found in default if she failed to either timely file a responsive pleading or other appropriate pleading, or if she filed such pleading and failed to make an appearance at the hearing. If found in default, the Defendant was advised that she would be deemed to have waived all objections to the admissibility of evidence and may have entered against her a judgment by default imposing some or all of the sanctions permitted by law.

On September 24, 2010, the Division of Securities and Retail Franchising ("Division") filed a Motion for Default. In support, the Division stated that the Defendant had not filed an answer or other responsive pleading to the Amended Rule. The Division provided legal authority for the Commission to enter a default judgment and provided a sworn affidavit and supporting exhibits from Stephen A. Arrighi, investigator with the Division, as well as evidence to establish proper service of the Amended Rule. Additionally, the Division requested that the Hearing Examiner: (i) grant the Motion for Default Judgment; (ii) recommend to the Commission that the Commission enter a Judgment Order finding the Defendant in default and imposing a $25,000 monetary penalty for each violation of the Act for a total of $100,000; and (iii) recommend to the Commission that the Defendant be assessed the costs of investigation in the amount of $8,216.

An evidentiary hearing on the Amended Rule was convened on October 13, 2010. The Division was represented by its counsel, Debra M. Bollinger, Esquire. The Defendant failed to appear after receiving notice of the hearing. The proof of service of the Amended Rule was offered into the record as an exhibit. The Division presented the testimony of Stephen A. Arrighi along with documentary proof to provide the facts necessary to prove the allegations set forth in the Amended Rule.

On October 22, 2010, the Hearing Examiner issued her Report. In her Report, she found that: (i) the testimony and documentary evidence submitted by the Division proved by clear and convincing evidence the Defendant committed two (2) violations of § 13.1-560 of the Act by selling unregistered franchises and committed two (2) violations of § 13.1-563 of the Act by making material misrepresentations associated with the sale of two (2) franchises; (ii) the Motion for Default Judgment should be granted; (iii) the Defendant should be fined Twenty-five Thousand Dollars ($25,000) for each violation of the Act, for a total of One Hundred Thousand Dollars ($100,000). The penalty would be waived if the Defendant pays restitution within a reasonable amount of time, such as sixty (60) days from the date of entry of this Order, to the investors as follows: Bernard Mitchell - $10,000; and Ford Pham - $13,000; and (iv) the Commission should enter an order adopting the findings of the Report. Additionally, the Report allowed the Defendant twenty-one (21) days in which to provide comments. The Defendant did not file comments.

NOW THE COMMISSION, upon consideration of the Amended Rule, the record, the Hearing Examiner's Report, and the applicable statutes, is of the opinion and finds that the Hearing Examiner's findings and recommendations are reasonable and should be adopted.

Accordingly, IT IS ORDERED THAT:

(1) The findings and recommendations of the October 22, 2010, Hearing Examiner's Report are hereby adopted.

(2) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-570 of the Act, judgment is entered for the Commonwealth against the Defendant in the amount of One Hundred Thousand Dollars ($100,000.). The penalty will be waived if the Defendant pays restitution within sixty (60) days of the date of this Order to the investors as follows: Bernard Mitchell - $10,000; and Ford Pham - $13,000.

(3) In accordance with the Commission's regulatory duties and powers pursuant to § 13.1-567 of the Act, the Defendant shall pay Eight Thousand Two Hundred Sixteen Dollars ($8,216) to the Division for its costs of investigation.

(4) The Defendant is permanently enjoined from violating the Act in the future.

CASE NO. SEC-2010-00038
JULY 2, 2010

COMMONWEALTH OF VIRGINIA, *ex. rel.*
STATE CORPORATION COMMISSION
v.
JAY P. MECHLING,
Defendant

FINAL ORDER

On November 15, 1982, the State Corporation Commission ("Commission") entered a Temporary Injunction and Order to Show Cause against Robco Oil, Inc. ("Robco") and Jay P. Mechling ("Mechling"). The Rule, among other things, alleged that the Defendants violated §§ 13.1-504 and 13.1-507 of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia.

On March 2, 1983, the Commission entered a Judgment of Compromise and Settlement ("Settlement") in Case No. SEC-1982-00044. The Settlement, among other things, required that Mechling be permanently enjoined from transacting business in the Commonwealth as an agent unless he is so registered under the Act or if the transaction is exempt under the Act. Additionally, he was permanently enjoined from offering or selling in the Commonwealth any security of Robco or any other security unless the securities are registered under the Act or if the securities are exempt under the Act.

On July 19, 1984, the Commission issued a Rule to Show Cause ("Rule") against Mechling in Case No. SEC-1984-00010. The Rule, among other things, alleged that Mechling had violated the terms of the Settlement in Case No. SEC-1982-00044. Additionally, the Rule scheduled the matter for hearing on September 10, 1984, and ordered Mechling to appear and show cause why sanctions should not be imposed for his failure to abide by the terms of the Settlement.

A hearing on the Rule was convened as scheduled. The Division was represented by its counsel. Mechling failed to appear at the hearing.

On October 26, 1984, the Commission entered a Final Order and Judgment ("Final Order") against Mechling. In the Final Order, based upon the evidence presented, the Commission found and ordered that: (1) the Rule was duly served upon Mechling; (2) Mechling sold unregistered securities to Virginia residents subsequent to, and in violation of, the Settlement entered in Case No. SEC-1982-00044; (3) Mechling be permanently enjoined from directly or indirectly offering for sale and/or selling any security in the Commonwealth of Virginia; (4) Mechling be penalized in the amount of Forty-five Thousand Dollars ($45,000); and (5) in addition to the penalty, Mechling be fined in the amount of One Hundred Forty-six Thousand Dollars ($146,000).

On April 16, 2010, Mechling filed a Petition with the Commission in this case. In his Petition, Mechling stated that he became employed with Robco shortly after graduating from college and he had been assured by principals of Robco that he did not need a securities license. Mechling also stated that he had been employed by Robco less than five months prior to the institution of Case No. SEC-1982-00044. He stated that he had relied upon assurances from Robco's counsel that all matters relating to the proceeding in the Commission had been resolved and he was free to resume sales to existing clients, not potential new clients. Mechling further stated, and provided documentation that, he had been told by Robco that he would have legal representation at the hearing in Case No. SEC-1984-00010, but that the lawyer did not appear as promised and the lawyer Mechling obtained to appeal the decision in this case after Mechling learned of the decision in the case did not file an appeal. Additionally, Mechling stated that he never intended to sell

securities in Virginia without being duly licensed and never intended to violate any order or injunction issued by the Commission. It was also noted that Mechling has been working in the securities industry outside of the Commonwealth of Virginia since the entry of the Final Order, and has had no other securities related disciplinary actions against him in that time. Mechling requested that the Commission vacate the injunction ordered in the Settlement, reduce the amount of the penalty and fine in the Final Order to the $10,000 tendered to the Division of Securities and Retail Franchising ("Division"), and grant such other further relief as is necessary and proper.

The Division conducted an investigation of Mechling and into the allegations set out in the Petition. The investigation confirmed the veracity of the allegations set out in the Petition, and the Division does not oppose the relief requested in the Petition.

NOW THE COMMISSION, upon consideration of the record and the recommendation of the Division, is of the opinion and finds that good cause has been shown to grant the relief requested in the Petition.

Accordingly, IT IS ORDERED THAT:

(1) The permanent bar from participation in the securities industry set forth in the Settlement and Final Order is hereby lifted and is of no further effect;

(2) The penalty and fine amount of the Final Order is reduced to the amount of Ten Thousand Dollars ($10,000) and is hereby satisfied; and

(3) This case is dismissed and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. SEC-2010-00041
APRIL 30, 2010

APPLICATION OF
CHURCH EXTENSION INVESTORS FUND, INC.

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of Church Extension Investors Fund, Inc. ("CEIF") which the Commission received on March 30, 2010, together with attached exhibits. Such application requested that Foundation Certificates, Building Fund Certificates, Term Certificates, Charitable Gift Certificates, and Institutional Certificates (collectively, the "Certificates") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and that certain officers of CEIF be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) CEIF is a non-stock Illinois corporation operating not for private profit but exclusively for religious purposes; (ii) CEIF intends to offer and sell the Certificates as a continuous offering with a total offering amount of Thirty Million Dollars ($30,000,000), on terms and conditions more fully described in the offering circular which was filed as a part of the application; and (iii) these securities are to be offered and sold by officers of CEIF, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act.

Based on the facts asserted by CEIF in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that the officers of CEIF are exempted from the agent registration requirements of said Act.

CASE NO. SEC-2010-00042
APRIL 30, 2010

APPLICATION OF
MISSION INVESTMENT FUND OF THE EVANGELICAL LUTHERAN CHURCH IN AMERICA

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of Mission Investment Fund of the Evangelical Lutheran Church in America ("Mission Fund") which the Commission received on March 31, 2010, together with attached exhibits. Such application requested that the MissionTermSelect-adjustable rate debt obligations, MissionTermSelect-fixed rate debt obligations, MissionTermSelect/Grand-fixed rate debt obligations, MissionFuture4KIDZ debt obligations, MissionPlus debt obligations, and MissionFirst debt obligations (collectively, the "Mission Investments") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 et seq. of the Code of Virginia, and that certain agents of Mission Fund be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) Mission Fund is a non-stock Minnesota corporation operating not for private profit but exclusively for religious purposes; (ii) Mission Fund intends to offer and sell the Mission Investments as a continuous offering with a total offering amount of Three Hundred Fifty Million Dollars ($350,000,000), on terms and conditions more

fully described in the offering circular which was filed as a part of the application; and (iii) these securities are to be offered and sold by registered agents of Mission Fund, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act.

Based on the facts asserted by Mission Fund in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that certain agents of Mission Fund identified in the application are exempted from the agent registration requirements of said Act.

CASE NO. SEC-2010-00050
MAY 18, 2010

APPLICATION OF
THE FREE METHODIST FOUNDATION

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia, as amended

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration upon the written application of The Free Methodist Foundation ("FMF") which the Commission received on April 12, 2010, together with attached exhibits. Such application requested that Flexible Certificates, Term Certificates, Series F Institutional Certificates, and Series P Institutional Certificates (collectively, the "Certificates") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq*. of the Code of Virginia, and that certain officers and employees of FMF be exempted from the agent registration requirements of the Act.

Based on the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) FMF is a non-stock Oklahoma corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; (ii) FMF intends to offer and sell the Certificates as a continuous offering with a total offering amount of Fifty-five Million Dollars ($55,000,000), on terms and conditions more fully described in the offering circular which was filed as a part of the application; and (iii) these securities are to be offered and sold by officers and employees of FMF, who will not be compensated for their sales efforts, and may also be offered and sold by broker-dealers so registered under the Act.

Based on the facts asserted by FMF in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act. IT IS FURTHER ORDERED that the officers and employees of FMF are exempted from the agent registration requirements of said Act.

CASE NO. SEC-2010-00062
SEPTEMBER 23, 2010

COMMONWEALTH OF VIRGINIA, ex rel.
STATE CORPORATION COMMISSION
v.
DAVENPORT & COMPANY LLC,
Defendant

SETTLEMENT ORDER

Davenport & Company LLC ("Defendant") is a broker-dealer registered in the Commonwealth of Virginia;

The Division of Securities and Retail Franchising ("Division") of the State Corporation Commission ("Commission") has conducted an investigation of the Defendant's activities in connection with certain of its sales practices regarding the marketing and sale of auction rate securities during the period of approximately January 1, 2006, through February 13, 2008; and

The Defendant has cooperated with the Division in its investigation by self-reporting the offer and sale of auction rate securities and responding to inquiries, making members of the firm available to answer questions, providing documentary evidence and other materials, and providing the Division with access to facts relating to the investigation. The Defendant was not an underwriter of any auction rate securities, but rather acted as a downstream broker distributing auction rate securities underwritten by other companies as one of many products available to its clients.

In February of 2008, underwriting firms for auction rate securities stopped supporting auctions. Without the benefit of "cover" bids, the ARS market collapsed, leaving certain investors who had been led to believe that these securities were liquid, safe investments appropriate for managing short-term cash needs, holding long-term or perpetual securities that could not be sold at par value until and if the auctions cleared again.

Upon learning of the collapse of the auction rate securities market on February 13, 2008, the Defendant made significant efforts to communicate with affected investors about the issues related to the collapse, and the options for liquidity available to investors. The Defendant voluntarily provided liquidity to all auction rate securities investors that requested help with access to liquid assets while the auction rate securities market remained illiquid.

Since that time, the underwriters of the auction rate securities sold by the Defendant have made significant repurchases of outstanding auction rate securities. On December 15, 2009, the Defendant announced an Offer to Purchase for Cash Any and All Outstanding Eligible Securities from Eligible Holders at Par by Davenport & Company, LLC ("Offer to Purchase"), offering a full buyout of auction rate securities that had not been subject to a

repurchase by the underwriters. The Defendant offered to buy outstanding auction rate securities from the investors accounts at par value and carry them on the firm's own account, thereby providing immediate liquidity for any and all outstanding auction rate securities. This offer will remain open through December 27, 2010.

Based on an investigation conducted by the Division, it is alleged that the Defendant violated Commission Rules 21 VAC 5-20-260 A and B and 21 VAC 5-20-280 A 3 when the Defendant's registered representatives allegedly did not provide all of its customers with adequate and complete disclosures regarding the complexity of the auction process and the risks associated with auction rate securities, including the circumstances under which an auction could fail, and that the Defendant's registered representatives allegedly did not adequately disclose to all of its customers that the customer's ability to liquidate the auction rate securities depended on the willingness of other investors to buy the instruments at an auction.

If the standards of the statute are met, the Commission is authorized by § 13.1-506 of the Virginia Securities Act ("Act") to revoke the Defendant's registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendant neither admits nor denies these allegations but admits to the Commission's jurisdiction and authority to enter this Settlement Order (also referred to, in the alternative, as "Order").

In order to settle all matters arising from these allegations, the Defendant will abide by and comply with the following terms and undertakings:

1. This Order concludes the investigation by the Commission and any other action that the Commission could commence under applicable Virginia law on behalf of the Commonwealth of Virginia as it relates to the Defendant, concerning the marketing and sales of auction rate securities by the Defendant, provided, however, that excluded from and not covered by this paragraph are any claims by the Commission arising from or relating to the enforcement of this Order in the event the Defendant fails to abide by the terms hereunder. The Commission reserves the right to investigate and commence any proceeding it deems appropriate, in its sole discretion, relating in any way to any customer who requested a repurchase from the Defendant pursuant to the terms and conditions of its Auction Rate Securities Offer to Purchase ("Offer to Purchase"), as defined below, and who purchased auction rate securities from the Defendant pursuant to the terms and conditions prior to February 11, 2008, and held in certain customer accounts as of September 18, 2008, if the Defendant failed to accommodate such customer's repurchase request. For purposes of the Offer to Purchase, "customer" shall mean individuals (including any IRAs), a charity, a 501(c)(3) or 501(c)(4) nonprofit company, and small to medium-sized business having with the Defendant on account or affiliated accounts of $10 million or less, an advisory account with the Defendant held by an investment advisory client, or on account with the Defendant held by and in the name of the retirement plan, except for current or former associated persons of the Defendant.

2. The Defendant will abide by the terms and conditions of its Offer to Purchase on file with the Division.

3. For any customer who was eligible for the Offer to Purchase but sold their securities under par prior to when the Offer to Purchase was made, the Defendant shall pay the customer the difference between par and the price at which the customer sold the auction rate securities subject to the Offer to Purchase plus reasonable interest thereon ("Below Par Seller"). The Defendant shall promptly pay any such Below Par Seller identified thereafter.

4. The Defendant shall have made its best efforts to identify customers who were eligible for the Offer to Purchase and took out loans from the Defendant after February 11, 2008, that were secured by the customer's auction rate securities that were not successfully auctioning at the time the loan was taken out from the Defendant and paid interest associated with the auction rate securities based on a portion of those loans in excess of the total interest and dividends received on the auction rate securities during the duration of the loan. The Defendant shall reimburse such customers promptly for the excess expense, plus reasonable interest thereon.

5. With respect to the customers who were eligible for the Offer to Purchase, the Defendant consents to participate in a special arbitration ("Arbitration") for the exclusive purpose of arbitrating any such customer's consequential damages claim arising from the customer's inability to sell auction rate securities. The Arbitration will be conducted by a single public arbitrator (as defined by Section 12100(u) of the Financial Industry Regulatory Authority Code of Arbitration Procedures for Customer Disputes):

a. The Defendant will pay all applicable forum and filing fees. Customers may seek recovery for their attorneys' fees to the same extent that they may under standard arbitration procedures;

b. Any customer who chooses to pursue such claims in the Arbitration shall bear the burden of proving that they suffered consequential damages and that such damages were caused by their inability to access funds invested in auction rate securities;

c. In the Arbitration, the Defendant shall be able to defend itself against such claims, provided, however, that the Defendant shall not contest liability for the illiquidity of the underlying auction rate securities or use as part of its defense any decision by a customer not to borrow money from the Defendant; and

d. All customers who avail themselves of the relief provided pursuant to this Order, may pursue any remedies against the Defendant available under the law. However, customers that elect to utilize the Arbitration process set forth above are limited to the remedies available in that process and may not bring or pursue a claim relating to customers in another forum.

6. Within forty-five (45) days of the end of each month beginning with a report covering the month ended one month after the date of the entry of this Order and continuing through and including a report detailing the month ended December 31, 2010, the Defendant will submit a monthly written report to the Division detailing (i) in its first report, customers identified pursuant to Paragraphs 2, 3, 4, and 5 of this Order; and (ii) thereafter, any changes from the immediately preceding report.

7. Except as expressly provided in this Order, for any person or entity not a party to this Order, this Order does not limit or create any private rights or remedies against Davenport, limit or create liability of Davenport, or limit or create defenses of Davenport to any claims. Unless applicable law provides otherwise, by entering into this Order, the Commission does not waive any rights any departments, agencies, boards, commissions, authorities, political subdivisions and corporations of the Commonwealth of Virginia other than the Commission may have under applicable law, to the extent any such

rights exist, to assert a claim, cause of action, or application for compensatory, nominal and/or punitive damages, administrative, civil, criminal, or injunctive relief against Davenport in connection with the marketing of ARS by Davenport.

For purposes of this Settlement Order, the Defendant represents in good faith to the Commission that to the best of the Defendant's knowledge, it has already fully complied with the terms and undertakings in Paragraph 2 and all customers' holdings in auction rate securities are eligible for the Offer to Purchase, no sale of auction rate securities at Davenport or known to Davenport occurred below par pursuant to Paragraph 3, and no customer was charged interest on a loan in excess of the total interest and dividends received on the auction rate securities for the duration of the loan pursuant to Paragraph 4.

The Defendant will comply with the Act and with the regulations adopted by the Commission.

Accordingly, IT IS ORDERED THAT:

(1) Based upon the Division's recommendation, the settlement of the matter set forth is hereby accepted;

(2) The Defendant fully comply with the aforesaid terms and undertakings of this settlement; and

(3) The Commission shall retain jurisdiction in this matter for all purposes, including the institution of a show cause proceeding, or taking such other action it deems appropriate, on account of the Defendant's failure to comply with the terms and undertakings of the settlement.

CASE NOS. SEC-2010-00072 AND SEC-2010-00073
OCTOBER 29, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UBS FINANCIAL SERVICES, INC.
and
MARK CHRISTOPHER HUGHES,
Defendants

SETTLEMENT ORDER

Based on an investigation conducted by the Division of Securities and Retail Franchising ("Division"), it is alleged that UBS Financial Services, Inc. ("UBS") and Mark Christopher Hughes ("Hughes") (collectively, "Defendants"): (i) violated Securities Rule 21 VAC 5-20-280 A (3), in that UBS, through Hughes, sold shares of leveraged, exchange traded fund securities to two (2) Virginia investors when the products were not suitable given the customers' objectives, financial situation, risk tolerance, experience, and needs; (ii) UBS violated Securities Rule 21 VAC 5-20-260 B by failing to exercise diligent supervision over the securities activities of its agent, Hughes; and (iii) Hughes violated Securities Rule 21 VAC 5-20-280 B (6), as referenced in Securities Rule 21 VAC 5-20-280 A (3), by recommending to customers the purchase, sale or exchange of any security without reasonable grounds to believe that the recommendation is suitable for the customers based upon reasonable inquiry concerning the customers' investment objective, financial situation, risk tolerance and needs, and any other relevant information known by the broker-dealer.

If the standards of the statute are met, the State Corporation Commission ("Commission") is authorized by § 13.1-506 of the Virginia Securities Act ("Act") to revoke the Defendants' registration, by § 13.1-519 of the Act to issue temporary or permanent injunctions, by § 13.1-518 A of the Act to impose costs of investigation, by § 13.1-521 A of the Act to impose certain monetary penalties, by § 13.1-521 C of the Act to order the Defendants to make rescission and restitution, and by § 12.1-15 of the Code of Virginia to settle matters within its jurisdiction.

The Defendants neither admit nor deny these allegations but admit to the Commission's jurisdiction and authority to enter this Settlement Order.

As a proposal to settle all matters arising from these allegations, the Defendants have made an offer of settlement to the Commission wherein the Defendants will abide by and comply with the following terms and undertakings:

(1) The Defendants will pay to the Treasurer of the Commonwealth of Virginia, contemporaneously with the entry of this Order, the amount of Five Thousand Dollars ($5,000) to defray the costs of investigation.

(2) In lieu of penalties, the Defendants have paid restitution in separate claims arising from the two (2) Virginia investors, in the amounts of $500,000 and $120,000, respectively.

(3) UBS will place Hughes under heightened supervision for a period of at least one (1) year from the date of entry of this Order. The plan of supervision is attached hereto as Attachment A.

Entry of this Order will have no effect on Hughes's registration.

The Division has recommended that the Commission accept the offer of settlement of the Defendants.

The Commission, having considered the record herein, the offer of settlement of the Defendants, and the recommendation of the Division, is of the opinion that the Defendants' offer should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The offer of the Defendants in settlement of the matter set forth herein be, and it is hereby, accepted;

(2) The Defendants fully comply with the aforesaid terms and undertakings of this settlement; and

(3) This case is dismissed and the papers herein shall be placed in the file for ended causes.

Dismissal of this case does not relieve the Defendants from their reporting obligations to any regulatory authority.

NOTE: A copy of Attachment A entitled "Plan of Supervision" is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. SEC-2010-00078
AUGUST 3, 2010

APPLICATION OF
NANSEMOND RIVER BAPTIST CHURCH

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia

ORDER OF EXEMPTION

THIS MATTER came before the State Corporation Commission ("Commission") for consideration by written application received March 15, 2010, with exhibits attached thereto, as subsequently amended, of Nansemond River Baptist Church ("Nansemond"), requesting that First Mortgage Bonds ("Bonds") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia.

BASED UPON THE INFORMATION submitted, the following facts, in addition to others not enumerated herein, appear to exist: Nansemond is a Virginia corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; Nansemond intends to offer and sell the Bonds in an approximate aggregate amount of up to $1,600,000 on terms and conditions as more fully described in the prospectus filed as a part of the application; and said securities are to be offered and sold by a registered broker-dealer.

Based on the facts asserted by Nansemond in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act.

CASE NO. SEC-2010-00079
AUGUST 3, 2010

APPLICATION OF
HANOVER EVANGELICAL FRIENDS CHURCH

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia

ORDER OF EXEMPTION

THIS MATTER came before the State Corporation Commission ("Commission") for consideration by written application received May 21, 2010, with exhibits attached thereto, as subsequently amended, of Hanover Evangelical Friends Church ("HEFC"), requesting that First Mortgage Bonds ("Bonds") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia.

BASED UPON THE INFORMATION submitted, the following facts, in addition to others not enumerated herein, appear to exist: HEFC is a Virginia corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; HEFC intends to offer and sell the Bonds in an approximate aggregate amount of up to $1,350,000 on terms and conditions as more fully described in the prospectus filed as a part of the application; and said securities are to be offered and sold by a registered broker-dealer.

Based on the facts asserted by HEFC in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act.

CASE NO. SEC-2010-00081
AUGUST 26, 2010

APPLICATION OF
FIRST BAPTIST CHURCH, SOUTH HILL, VIRGINIA

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia

ORDER OF EXEMPTION

THIS MATTER came before the State Corporation Commission ("Commission") for consideration by written application received May 18, 2010, with exhibits attached thereto, as subsequently amended, of First Baptist Church, South Hill, Virginia ("FBC"), requesting that First Mortgage Bonds ("Bonds") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia.

BASED UPON THE INFORMATION submitted, the following facts, in addition to others not enumerated herein, appear to exist: FBC is an unincorporated Virginia organization formed exclusively for religious and educational purposes; FBC intends to offer and sell the Bonds in an approximate aggregate amount of up to $1,400,000 on terms and conditions as more fully described in the Prospectus filed as a part of the application; and said securities are to be offered and sold by Rives, Leavell & Co., a broker-dealer registered in the Commonwealth of Virginia.

Based on the facts asserted by FBC in the written application and exhibits, and pursuant to § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that the securities described above are exempted from the securities registration requirements of the Act.

CASE NO. SEC-2010-00087
OCTOBER 12, 2010

APPLICATION OF
LUTHERAN CHURCH EXTENSION FUND-MISSOURI SYNOD

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia

ORDER OF EXEMPTION

This matter came before the State Corporation Commission ("Commission") for consideration by written application of the Lutheran Church Extension Fund-Missouri Synod ("LCEF"), which the Commission received on August 26, 2010, with attached exhibits. The application requested that the notes, Dedicated Certificates, Family Emergency StewardAccount Certificates, StewardAccount Certificates, FlexPlus Certificates, Fixed-Rate Term Notes, Floating-Rate Term Notes, Congregation Demand Certificates, Congregation StewardAccount Certificates, Congregation Cemetery Perpetual Care StewardAccount Certificates, Congregation Fixed-Rate Endowment Certificates, Congregation Floating-Rate Endowment Certificates, K.I.D.S. Stamps, and Next Generation Notes (collectively, "Notes") be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia, and that certain officers of LCEF be exempted from the agent registration requirements of the Act.

Based upon the information submitted, the following facts appear to exist, in addition to others not enumerated herein: (i) the LCEF is a Missouri corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; (ii) the LCEF intends to offer and sell $75,000,000 of the Notes in a continuous offering on terms and conditions as more fully described in the Offering Circular filed as a part of the application; (iii) the Notes are to be offered and sold by officers of LCEF who will not be compensated for the offers and sales of the Notes; and (iv) LCEF will discontinue issuer transactions for all other securities previously exempted by Commission Order, Case No. SEC-2009-00111.

Based on the facts asserted by the LCEF in the written application and exhibits, and pursuant to the provisions of § 13.1-514.1 B of the Act, and upon the recommendation of the Division of Securities and Retail Franchising, the Commission is of the opinion and does hereby ADJUDGE AND ORDER that, the securities described above are exempt from the securities registration requirements of the Act, and the officers of LCEF are exempt from the agent registration requirements of § 13.1-504 A of the Act.

CASE NO. SEC-2010-00089
OCTOBER 29, 2010

APPLICATION OF
WELS CHURCH EXTENSION FUND, INC.

For an Order of Exemption under § 13.1-514.1 B of the Code of Virginia

ORDER OF EXEMPTION

THIS MATTER came before the State Corporation Commission ("Commission") for consideration by written application received September 28, 2010, with exhibits attached thereto, of WELS Church Extension Fund, Inc. ("WELS"), requesting that: Loan Certificates, Savings Certificates and Retirement/IRA Certificates (collectively "Certificates"), be exempted from the securities registration requirements of the Virginia Securities Act ("Act"), § 13.1-501 *et seq.* of the Code of Virginia and that certain officers and employees of WELS be exempted from the agent registration requirements of the Act.

BASED UPON THE INFORMATION submitted, the following facts, in addition to others not enumerated herein, appear to exist: (i) WELS is a Wisconsin nonstock corporation operating not for private profit but exclusively for religious, charitable, and educational purposes; (ii) WELS intends to offer and sell the Certificates in an approximate aggregate amount of up to $60,000,000 on terms and conditions as more fully described in the Offering Circular filed as a part of the application; and (iii) said securities are to be offered and sold by officers and employees of WELS who will not be compensated for their sales efforts.

THE COMMISSION, based on the facts asserted by WELS in the written application and exhibits, and upon the recommendation of the Division of Securities and Retail Franchising, is of the opinion and finds, and does hereby ORDER that, pursuant to the provisions of § 13.1-514.1 B of the Act, the securities described above are exempt from the securities registration requirements of the Act, and the officers and employees of WELS are exempt from the agent registration requirements of § 13.1-504 of the Act.

DIVISION OF UTILITY AND RAILROAD SAFETY

CASE NO. URS-2009-00043
JUNE 25, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
VIRGINIA NATURAL GAS, INC.,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq.* ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation, and maintenance activities involving Virginia Natural Gas, Inc. ("VNG" or "Company"), the Defendant, and alleges that:

(1) VNG is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.241 (a)(1) - Failing on one occasion to follow a qualified welding procedure, by not checking the voltage and amperage of a machine while performing a weld on a pipeline;

(b) 49 C.F.R. § 192.273 (b) - Failing on one occasion of Company contractor to make a joint in accordance with a written procedure by not verifying the proper temperature of the heating device performing the fusion as stated in Company Procedure, Division II, Section 10, Paragraph (g);

(c) 49 C.F.R. § 192.303 - Failing on one occasion of Company contractor to construct a main in accordance with comprehensive written specifications by not installing an anode 24 inches below the pipe;

(d) 49 C.F.R. § 192.303 - Failing on one occasion to have comprehensive written procedures or standards that delineated the proper sequence of anchoring and dewatering a pipeline to prevent damage and undue stresses during the construction process;

(e) 49 C.F.R. § 192.303 - Failing on one occasion to construct a pipeline in accordance with a comprehensive written specification by not applying an approved pipeline coating to a pipe joint with proper surface preparation;

(f) 49 C.F.R. § 192.303 - Failing on one occasion of Company contractor to construct a main in accordance with comprehensive written specifications by not utilizing the properly sized back reamer as stated in Company Procedure, Division I, Section 9.5.2;

(g) 49 C.F.R. § 192.303 - Failing on one occasion to construct a pipeline in accordance with a comprehensive written specification by not applying an approved pipeline coating to a pipe joint to the specified thickness;

(h) 49 C.F.R. § 192.307 - Failing on one occasion to install a service line that is free of defects;

(i) 49 C.F.R. § 192.319 (b)(2) - Failing on one occasion of Company contractor to backfill a gas main in a manner that prevents damage to the pipe and pipe coating from equipment or from the backfill material;

(j) 49 C.F.R. § 192.325 (b) - Failing on one occasion to install a main with enough clearance from any other underground structures to allow proper maintenance and to protect against damage that might result from proximity to other structures;

(k) 49 C.F.R. § 192.327 (b) - Failing on one occasion to install a main with a minimum of 24" of cover;

(l) 49 C.F.R. § 192.353 (a) - Failing on four occasions to install a meter in a location that is protected from vehicular damage that may be anticipated;

(m) 49 C.F.R. § 192.355 (b)(2) - Failing on one occasion of Company contractor to install a service regulator at a place where gas from the vent can escape freely away from any opening in the building;

(n) 49 C.F.R. § 192.357 (a) - Failing on two occasions to install a meter in a manner to minimize anticipated stress upon the connecting piping;

(o) 49 C.F.R. § 192.605 (a) - Failing on one occasion of Company contractor to follow Company Procedure, Division I, Section 2.19, and the Virginia Underground Utility Damage Prevention Act 56-265.17(A), by excavating without a Miss Utility ticket;

(p) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow a written procedure by not having a fire extinguisher located at construction and maintenance work as stated in Company Procedure, Division IV, Section 6.2.4, developed to comply with §192.751(a);

(q) 49 C.F.R. § 192.605 (b)(3) - Failing on two occasions to make accurate construction records, maps, and operating history available to appropriate operating personnel;

(r) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow a written procedure as stated in Company Procedure, Division II, Section 19.2.2, by not determining if a hazardous atmosphere exists before entering an excavation;

(s) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow a written procedure by not inspecting a relief valve for proper installation as stated in Company Procedure, Division II, Section 12.1.1(d);

(t) 49 C.F.R. § 192.605 (a) - Failing on one occasion of Company contractor to follow Company Procedure 6.2.1 "Prevention of Accidental Ignition" by smoking cigarettes in an excavation while working on a Company facility;

(u) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure 6.3 "Working in Confined Spaces" by not utilizing life protection equipment such as a lifeline and breathing apparatus in an oxygen deficient excavation;

(v) 49 C.F.R. § 192.605 (b) - Failing on one occasion to have adequate procedures for squeezing off a pipeline by not specifying the distance a squeeze off can be from any fusion joint, mechanical connection, prior squeeze off point, or second squeeze off point;

(w) 49 C.F.R. § 192.605 (b) - Failing on one occasion to have adequate procedures for the use of a mechanical weak link during installation of plastic pipe;

(x) 49 C.F.R. § 192.605 (b)(8) - Failing on two occasions to have adequate procedures for periodically reviewing the work done by operator personnel to determine the effectiveness and adequacy of the procedures by not specifying a time frame for such review in Company Procedure, Division I, section 1.4, for the periodic review of procedures;

(y) 49 C.F.R. § 192.614 (a) - Failing on three occasions to follow a written program to prevent damage to a pipeline from excavation activities as stated in § 192.614(c)(5) by not providing for temporary markings of the pipeline;

(z) 49 C.F.R. § 192.614 (c)(6)(i) - Failing on one occasion to inspect pipelines as frequently as necessary to verify their integrity;

(aa) 49 C.F.R. § 192.739 (a) - Failing on one occasion to inspect each pressure limiting station, relief device, and pressure regulating station and its equipment at intervals not exceeding 15 months, but at least once each calendar year;

(bb) 49 C.F.R. § 192.805 - Failing on one occasion to have in its written qualification program, specifications for the distance a squeeze off can be from any fusion joint, mechanical connection, prior squeeze off point, or second squeeze off point;

(cc) 49 C.F.R. § 192.805 - Failing on one occasion to have in its written qualification program, specifications for the proper use of a mechanical weak link during installation of plastic pipe;

(dd) 49 C.F.R. § 192.805 (b) - Failing on two occasions to ensure through evaluation that individuals are qualified to react to an abnormal operating condition relative to the retrieval of a lost coupon while conducting steel pipeline tapping operations;

(ee) 49 C.F.R. § 192.907 (a) - Failing on one occasion to have written procedures for the examination, grading, and remediation of anomalies discovered in the integrity management process as required by §192 Subpart O;

(ff) 49 C.F.R. § 192.907 (a) - Failing on one occasion to follow a written integrity management program developed to comply with § 192.485, by not determining the remaining strength of the pipeline after field examination;

(gg) 49 C.F.R. § 192.907 (a) - Failing on one occasion to follow a written integrity management program developed to comply with Subpart O, by not providing a schedule for evaluation and remediation;

(hh) 49 C.F.R. § 192.907 (a) - Failing on one occasion to follow a written integrity management program developed to comply with § 192.713, by not providing design and installation procedures for anomaly repair;

(ii) 49 C.F.R. § 192.911 (b) - Failing on one occasion to follow a written integrity management program developed to comply with § 192.921(A)(1), by not having procedures for internal inline inspection;

(jj) 49 C.F.R. § 192.911 (e) - Failing on one occasion to have a comprehensive integrity management program that contains adequate provisions meeting the requirements of § 192.933 for remediating conditions found during integrity assessment;

(kk) 49 C.F.R. § 192.915 - Failing on one occasion to provide qualified personnel to conduct integrity assessments, specifically NDE examinations by a person who was not at least a Level II certified technician; and

(ll) 49 C.F.R. § 192.933 (a) - Failing on two occasions to take prompt action to address all anomalous conditions discovered through the integrity assessments.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, VNG represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of Four Hundred Forty-eight Thousand Five Hundred Dollars ($448,500), of which Two Hundred Thousand Dollars ($200,000) shall be paid contemporaneously with the entry of this Order. The remaining Two Hundred Forty-eight Thousand Five Hundred Dollars ($248,500) shall be due as outlined in Undertaking Paragraph (6) herein, and may be suspended in whole or in part by the Commission, provided the Company timely takes the actions required in Undertaking Paragraphs (2) and (4) herein and tenders the requisite certification as required by Undertaking Paragraph (5) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall undertake the following remedial actions:

Transmission Integrity Management

(a) On or before September 1, 2010, the Company shall revise its Transmission Integrity Management Program ("IMP") procedures to include methods and procedures to repair steel pipelines in accordance with ASME B 31.8. Among other things, repair methods shall be chosen by engineering analysis performed by VNG and consideration shall be given to the reduction of pipeline pressure during repair to ensure the safety and effectiveness of each type of repair.

(b) On or before September 1, 2010, the Company shall revise its IMP plan to require performing and evaluating any in-line inspections of pipelines in accordance with the American Petroleum Institute ("API") Standard 1163, and other applicable standards.

(c) On or before July 1, 2010, the Company shall host a Transmission Integrity Management best practice symposium to learn best practices in complying with the IMP regulations. The Company shall summarize the results and share them with the Division and the Virginia Pipeline industry by July 15, 2010.

(d) On or before July 1, 2010, the Company shall examine and repair the anomaly with identification number 4000116 on the Dig Site Information Report from Magpie Systems, Incorporated as required by ASME B 31.8 and API 5 L.

(e) On or before September 1, 2010, the Company shall create and fill a full time position to oversee its IMP and Distribution Integrity Management Program ("DIMP") processes (Compliance and System Integrity Manager). This individual shall report directly to the Vice President of Operations for the Company.

Quality Assurance

(f) On or before August 1, 2010, the Company shall implement a Distribution Quality Assurance program, acceptable to the Division, for the Company's employees who perform construction and maintenance activities.

(g) On or before October 1, 2010, the Company shall modify its construction record ("as-built") process to ensure it prepares and maintains accurate installation records of its underground utility lines. Additionally, the Company shall implement effective procedures to ensure its service card revision and updating process is accurate.

(h) On or before July 1, 2010, the Company shall begin revising its Operation and Maintenance Procedures ("O&M") to ensure it conforms to the requirements of API 1104 Appendix B whenever repairs are made to in-service transmission and distribution pipelines. As these procedures are revised, the Company shall train personnel and implement the procedures. The Company shall complete the training and implementation of these procedures by no later than December 31, 2010.

Damage Prevention

(i) On or before October 1, 2010, the Company shall employ a Damage Prevention Specialist and a Damage Prevention Analyst to augment audits of the Company's contract locator performance, increase the excavators' training and outreach, where deemed necessary and reasonable, and promptly address the "plant condition" reports.

(j) On or before August 1, 2010, the Company shall expand its damage prevention data gathering and analysis to determine undesirable trends and take actions to correct the reason behind those trends.

(k) On or before August 1, 2010, the Company shall purchase and begin using two Gas Trackers to assist in locating the "difficult to locate" facilities.

Meter Installation and Protection

(l) On or before September 1, 2010, the Company shall revise its construction procedures to require crews installing new meters to determine the need for, and install any meter protection necessary to prevent damage to the meter facilities, at the time of installation.

(m) On or before August 1, 2010, the Company shall begin a three-year program to inspect all meter sets to determine if meter protection is needed. For all meters identified as needing meter protection, the protection shall be installed within 60 days of the date of inspection. The Company shall submit a progress report to the Division no later than August 31st of each year of the three year period detailing the results of the inspections and the corrective actions for the previous 12 months ending July 31st.

(n) On or before December 31, 2010, the Company shall hold at least four (4) meetings with HVAC contractors and plumbers working in VNG's service area to educate them regarding the proper fuel line placements at structures, gas pipeline safety and damage prevention basics.

Training

(o) On or before July 1, 2010, the Company shall implement an Operation Risk Management Program to address threats, risks and hazards within its system. This program shall be submitted to the Division for review.

(p) On or before August 1, 2010, the Company shall begin delivering specific training to VNG and contractors' field employees to address Operator Qualification and pipeline safety issues noted by the most recent inspections conducted by the Division and the audits performed by VNG.

O&M Procedures

(q) On or before July 1, 2010, the Company shall begin developing and implementing detailed written procedures for the areas noted on Attachment A to this Order. As these procedures are revised, the Company shall train personnel and implement the procedures. The Company shall complete the training and implementation of these procedures by no later than March 31, 2011. A copy of the new procedures shall be submitted to the Division as they are prepared but no later than December 31, 2010.

Others

(r) On or before July 31, 2011, the Company shall take over the operation and maintenance of 10 gas master meter systems currently served by VNG. This is in addition to the 22 master meter systems VNG agreed to take over the operation in Case Nos. URS-2006-00581 and URS-2008-00003. At least 6 of the 10 master meter systems to be taken over must currently serve more than 100 units.

(s) On or before September 1, 2010, the Company shall conduct a study of a statistically valid sample of the 2009 non-hazardous leaks discovered on its system and devise a plan, acceptable to the Division, to reduce the frequency of such leaks. The plan shall be implemented by no later than July 1, 2011.

(t) The Company shall respond to all pipeline safety and damage prevention inquiries from the Division within times specified in such inquiries. The person normally responsible for responding to the Division's pipeline safety inquiries shall report directly to the Vice President of Operations for VNG.

(3) The Division advises that the Company has complied with the terms and undertakings outlined in Undertaking Paragraph (2)(c) above and has submitted documentation evidencing the completion of Undertaking Paragraph (2)(c) to the Division. The Division further advises that the Company has been cooperative with the Division's investigation and, that the Company represents that it is fully committed to complying with the Safety Standards.

(4) Beginning July 1, 2010, and each three months thereafter until August 15, 2011, or as otherwise required, VNG shall provide a written report to the Director of the Division, in a format acceptable to the Division, describing in detail the actions that it has taken, and the expenditures that it has made, to comply with the requirements of Undertaking Paragraph (2) above.

(5) On or before August 15, 2011, VNG will tender to the Clerk of the Commission, with a copy to the Director of the Division, a notarized affidavit signed by the President of the Company certifying that the Company has completed all of the remedial actions described in Undertaking Paragraph (2) above with the exception of the three-year program to inspect all meter sets described in Undertaking Paragraph (2)(m). The Company shall submit progress reports in accordance with Undertaking Paragraph (2)(m) through the completion of the program.

(6) Upon timely receipt of the affidavit required by Undertaking Paragraph (5) above, the Commission may suspend and subsequently vacate up to Two Hundred Forty-eight Thousand Five Hundred Dollars ($248,500) of the remaining amount set forth in Undertaking Paragraph (1) above. Should VNG fail to tender said affidavit or fail to take the actions required by Undertaking Paragraphs (2) and (4) above, a payment of Two Hundred Forty-eight Thousand Five Hundred Dollars ($248,500) shall become due and payable, and the Company shall immediately notify the Division of the reasons for VNG's failure to accomplish the actions required by Undertaking Paragraphs (2) and (4) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than Two Hundred Forty-eight Thousand Five Hundred Dollars ($248,500), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(7) The Company shall not seek to recover from ratepayers, in any present or future Commission proceeding, any of the costs incurred on or before July 31, 2011 in connection with the remedial actions required by Undertaking Paragraph (2) above, or otherwise defer such costs for future recovery from ratepayers.

(8) The Company shall not recover from ratepayers the costs associated with the investigation, repair and re-installation of the sections of the HRX pipeline known as the Middleground-Newport News Closure and the Anderson Park Closure that floated from August 17, 2009 through August 27, 2009, and August 17, 2009 through August 28, 2009, respectively.

(9) This settlement does not prohibit the Commission Staff from submitting, in any present or future Commission proceeding involving VNG, any information discovered or obtained in the course of the Division's investigation and inspections described herein; nor does this settlement prohibit the Company from submitting information contradicting or mitigating the information submitted by the Commission Staff.

(10) Any amounts paid to the Commonwealth of Virginia in accordance with this Order shall not be recovered in the Company's rates as part of VNG's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2009-00043.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by VNG be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, VNG shall pay the amount of Four Hundred Forty-eight Thousand Five Hundred Dollars ($448,500), part of which may be suspended and subsequently vacated as provided in Undertaking Paragraph (1) above.

(4) The sum of Two Hundred Thousand Dollars ($200,000) tendered contemporaneously with the entry of this Order is accepted. The remaining Two Hundred Forty-eight Thousand Five Hundred Dollars ($248,500) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraphs (2) and (4) above and files the timely certification of the remedial actions as required by Undertaking Paragraph (5) herein.

(5) The Company shall not recover the costs of the remedial actions described herein from the ratepayers except as provided in Undertaking Paragraph (7) above.

(6) The Company shall not recover any of the costs associated with the investigation, repair and re-installation of the section of the HRX pipeline known as the Middleground-Newport News Closure and the Anderson Park Closure that floated from August 17, 2009 through August 27, 2009, and August 17, 2009 through August 28, 2009, respectively.

(7) Pursuant to Undertaking Paragraph (9), the settlement reached between the Division and the Company does not prohibit the Commission Staff from submitting, in any present or future Commission proceeding involving VNG, any information discovered or obtained in the course of the Division's investigation and inspections described herein; nor does the settlement prohibit the Company from submitting information contradicting or mitigating the information submitted by the Commission Staff in such a proceeding.

(8) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further orders of the Commission.

NOTE: A copy of Attachment A is on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. URS-2009-00265
FEBRUARY 8, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER ACCEPTING OFFER OF SETTLEMENT AND DISMISSING PROCEEDING

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between March 31, 2009, and July 22, 2009, listed in Attachment A, involving Promark Utility Locators, Inc. ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A and B of the Code.

(d) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Twenty-three Thousand Four Hundred Fifty Dollars ($23,450), of which Fifteen Thousand Six Hundred Dollars ($15,600) shall be paid contemporaneously with the entry of this Order. The remaining Seven Thousand Eight Hundred Fifty Dollars ($7,850) may be vacated in whole by the Commission, provided the Company timely takes the actions required in Undertaking Paragraph (1) on pages 2 and 3. The initial payment and any subsequent payments will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(1) The Company shall undertake the following remedial actions:

(a) The Company shall centralize all quality assurance and compliance roles under a person employed as a safety professional for all areas within Virginia in which the Company operates.

(b) The Company shall hire an additional four (4) persons as Quality Control Inspectors for areas within Virginia in which the Company operates.

(c) The Company shall increase quality audits for areas within Virginia in which the Company operates by not less than 24%.

(d) The Company shall create a peer-group-based-locator forum and focus group to discuss quality issues and direct training efforts.

(e) The Company shall increase locating field personnel by not less than 20% in areas within Virginia in which the Company operates to better accommodate fluctuating ticket volumes.

(f) The Company shall enhance quality control systems for tickets related to Verizon Virginia Inc.'s Fiber Optic Service and Fiber To The Premises projects by:

(1) Creating a process by which all access issues and incorrect address information is emailed to project contractors on a daily basis, to include photographs and notes recorded by locating field personnel.

(2) All tickets responded to with a locator response code of ninety (90) or ninety-four (94) as defined in the Virginia Underground Utility Marking Standards (March 2004) published by the Division (http://www.scc.virginia.gov/urs/mutility/docs/va_uums.pdf) shall be reviewed and approved by a quality auditor before being transmitted to the notification center.

(2) The Company has fully complied with the terms and undertakings outlined in Undertaking Paragraph (1) above. Documentation evidencing compliance with these terms and undertakings has been submitted to the Division.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Fifteen Thousand Six Hundred Dollars ($15,600) tendered contemporaneously with the entry of this Order is accepted.

(3) The remaining Seven Thousand Eight Hundred Fifty Dollar ($7,850) balance of the Twenty-three Thousand Four Hundred Fifty Dollar ($23,450) civil penalty is vacated.

(4) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2009-00326
FEBRUARY 11, 2010

COMMONWEALTH OF VIRGINIA, ex rel.
STATE CORPORATION COMMISSION
v.
ATMOS ENERGY CORPORATION,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 et seq. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Atmos Energy Corporation, ("Atmos" or "Company"), the Defendant, and alleges that:

(1) Atmos is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.605 (a) - Failing on three occasions to follow Company Procedure, Chapter 2, Service Procedures Leakage Investigation, by not bar holing to classify the severity of a leak when found;

(b) 49 C.F.R. § 192.703 (c) - Failing on three occasions to repair hazardous leaks promptly; and

(c) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure 26.4, developed to comply with 49 C.F.R. § 192.617, by not properly investigating the causes of a failure and minimizing the possibility of a recurrence.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, Atmos represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of One Hundred Fifty-five Thousand Five Hundred Dollars ($155,500), of which Forty-eight Thousand Eight Hundred Fifty Dollars ($48,850) shall be paid contemporaneously with the entry of this Order. The remaining One Hundred Six Thousand Six Hundred Fifty Dollars ($106,650) shall be due as outlined in Undertaking Paragraph (7) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required by Undertaking Paragraph (2) herein and tenders the requisite certifications as required by Undertaking Paragraphs (5) and (6) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall undertake the following remedial actions:

(a) Conduct at least one formal training class for the Company's locators and employees involved in grading and repairing leaks in Virginia, on or before March 12, 2010.

(b) Replace the approximately 8,700 feet of cast iron pipe the Company operates in Virginia on or before December 31, 2012.

(c) Replace all identified isolated risers on or before December 31, 2011. Annually, leak survey these risers until all are replaced.

(3) In addition, in order to resolve this matter, the Company has voluntarily agreed to undertake the following additional remedial actions:

(a) Implement a comprehensive public education program to increase the visibility of the C.A.R.E.[1] message in its service territory in Virginia and help reduce excavation damage to its facilities by taking the following actions:

1. The Company shall cause the C.A.R.E. message and logo, as approved by the Division, to be published on at least two occasions, once between April 1, 2010, and April 30, 2010, and once between September 1, 2010, and September 30, 2010, as display advertising (not classified) of at least one-quarter page in size in newspapers of general circulation throughout the Company's service territory in Virginia; and submit proof of such publication to the Division on or before November 1, 2010.

[1] "Call Miss Utility at 811 before you dig. Allow required time for marking. Respect the marks. Excavate carefully."

2. The Company shall cause the C.A.R.E. message and logo, as approved by the Division, to be displayed on six billboards in its service territory for an eight-week period between March 1, 2010, and May 30, 2010, and for another eight-week period between August 15, 2010, and October 31, 2010; and provide a list of dates and locations of the displays to the Division on or before November 1, 2010.

3. On or before June 30, 2010, the Company shall provide to each of its customers in Virginia an informational package regarding safe digging practices in Virginia.

4. On or before June 30, 2010, the Company shall identify those stakeholders whose employees are responsible for the majority of excavation damage to the Company's underground facilities during the most recent twelve-month period, and meet with those stakeholders' representatives to develop a damage mitigation plan that includes, among other things, additional educational training for the stakeholders' employees to reduce damages and increase compliance with Virginia's Underground Utility Damage Prevention Act ("Act"). On or before September 30, 2010, the Company shall provide the Division with a list of the stakeholders with whom it has met and the dates of those meetings.

5. On or before January 30, 2010, the Company shall implement a surveillance plan that includes site visits to monitor the compliance activities of stakeholders whose employees are responsible for the majority of the Company's excavation damage during the most recent twelve month period. The Company shall use these site visits to provide additional training relative to compliance with the Act when it determines such training to be necessary.

6. On or before June 30, 2010, the Company shall meet with each of the excavation equipment rental agencies in the communities the Company serves and request their assistance in raising awareness of the C.A.R.E. message with individuals who rent such equipment. The Company shall also encourage those agencies to install C.A.R.E. stickers on the equipment they rent. On or before September 30, 2010, the Company shall provide the Division with a list of the equipment rental agencies with whom it has met and the dates of those meetings.

(b) On or before March 31, 2010, purchase three additional sonic line locators, to be used for locating the Company's underground lines in the state of Virginia.

(c) Participate in Virginia's Damage Prevention Technology Pilot Project Phase I and II as agreed to by the Division.

(4) Fifty percent (50%) of the dollars spent during calendar year 2010 to complete the voluntary remedial actions outlined in Undertaking Paragraph (3)(a) above shall not be recovered in the Company's rates as part of Atmos' cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.5. The Company shall verify its booking by filing a copy of the trial balance showing this entry with the Commission's Division of Public Utility Accounting.

(5) On or before January 29, 2010, Atmos shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the Vice President - Operations of Atmos Energy Corporation, certifying that the Company has begun to perform the remedial actions set forth in Undertaking Paragraph (2) above.

(6) On or before January 16, 2013, Atmos shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the Vice President - Operations of Atmos Energy Corporation, certifying that the Company has completed the remedial actions set forth in Undertaking Paragraph (2) above.

(7) Upon timely receipt of said affidavits, the Commission may suspend up to One Hundred Six Thousand Six Hundred Fifty Dollars ($106,650) of the amount set forth in Undertaking Paragraph (1) above. Should Atmos fail to tender the affidavits required by Undertaking Paragraphs (5) and (6) above, or fail to take the actions required by Undertaking Paragraph (2) above, a payment of One Hundred Six Thousand Six Hundred Fifty Dollars ($106,650) shall become due and payable, and the Company shall immediately notify the Division of the reasons for Atmos' failure to accomplish the actions required by Undertaking Paragraphs (2), (5), and (6) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than One Hundred Six Thousand Six Hundred Fifty Dollars ($106,650), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(8) Any amounts paid in accordance with Undertaking Paragraph (1) of this Order shall not be recovered in the Company's rates as part of Atmos' cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the trial balance showing this entry with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and Undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2009-00326.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by Atmos be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, Atmos shall pay the amount of One Hundred Fifty-five Thousand Five Hundred Dollars ($155,500), which may be suspended and subsequently vacated in part as provided in Undertaking Paragraph (1) of this Order.

(4) The sum of Forty-eight Thousand Eight Hundred Fifty Dollars ($48,850) tendered contemporaneously with the entry of this Order is accepted. The remaining One Hundred Six Thousand Six Hundred Fifty Dollars ($106,650) is due as outlined herein and may be suspended and

subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraph (2) of this Order and files the timely certification of the remedial actions as required by Undertaking Paragraphs (5) and (6) of this Order.

(5) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further order of the Commission.

CASE NO. URS-2009-00338
JUNE 25, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
VIRGINIA NATURAL GAS, INC.,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq*. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation, and maintenance activities involving Virginia Natural Gas, Inc. ("VNG" or "Company"), the Defendant, and alleges that:

(1) VNG is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.453 - Failure to have all of the corrosion control procedures required by §192.605 (b)(2), including those for the design, installation, operation, and maintenance of cathodic protection systems, carried out by, or under the direction of, a person qualified in pipeline corrosion control methods;

(b) 49 C.F.R. § 192.465 (a) - Failure on multiple occasions to demonstrate that it has tested each pipeline that is under cathodic protection at least once each calendar year, but with intervals not exceeding 15 months, to determine whether the cathodic protection meets the requirements of § 192.463;

(c) 49 C.F.R. § 192.465 (a) - Failing on two occasions to demonstrate that at least 10 percent of the protected pipeline short sections distributed over the entire system have been surveyed (tested for adequacy of the cathodic protection) each calendar year, with a different 10 percent surveyed each subsequent year, culminating in the entire system being tested in the previous 10-year period;

(d) 49 C.F.R. § 192.465 (d) - Failing on multiple occasions to take prompt remedial action to correct any deficiencies indicated by the cathodic protection monitoring; and

(e) 49 C.F.R. § 192.469 - Failing on multiple occasions to provide each pipeline under cathodic protection with sufficient test stations or other contact points for electrical measurement to determine the adequacy of cathodic protection.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, VNG represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of One Million Three Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($1,365,250), of which Eight Hundred Thousand Dollars ($800,000) shall be paid contemporaneously with the entry of this Order. The remaining Five Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($565,250) shall be due as outlined in Undertaking Paragraph (6) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required in Undertaking Paragraphs (2) and (4) herein and tenders the requisite certification as required by Undertaking Paragraph (5) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall undertake the following remedial actions:

Cathodic Protection

(a) VNG shall employ an outside consultant to perform an independent evaluation ("Evaluation") of the policies, procedures, operation, maintenance, and facilities of the Company's cathodic protection corrosion control program.[1] The Evaluation, which is currently underway, shall determine, among other things, if the Company's corrosion control field practices are in compliance with 49 C.F.R. Part 192 and the applicable National Association of Corrosion Engineer Standards. The Company shall provide the Division with weekly location sheets for the Consultant's field work. All of the Consultant's documents, reports, and records submitted to VNG shall be provided simultaneously to the Director of the Division of Utility and Railroad Safety. The Company shall complete all of the remediation and other corrective actions determined by the Consultant and mutually agreed to by the Company and the Division to be appropriate or necessary during the course of the Evaluation by July 31, 2011. If VNG disagrees with and desires not to implement any one or more of the Consultant's recommendations, the Company shall immediately notify the Division in writing of such disagreement, and include an explanation for its disagreement. In the event of such a disagreement, the Division shall decide whether or not the recommendation should be implemented by the Company; provided, however, nothing herein shall prevent the Company from seeking review by the Commission. The Company shall not seek to recover from ratepayers in any present or future Commission proceeding, any of the costs associated with the remedial actions required by this Undertaking Paragraph (2)(a).[2]

(b) On or before June 30, 2010, VNG shall hire an additional full time employee (Corrosion Control Supervisor) on its staff who is qualified pursuant to 49 C.F.R. § 192.453 to carry out the corrosion control procedures required by Subpart I of 49 C.F.R. Part 192 and 49 C.F.R. § 192.605 (b)(2). This individual must report directly to the Compliance and System Integrity Manager, who reports to the Vice President of Operations for VNG. The Company shall not seek to recover from ratepayers, in any present or future Commission proceeding, any of the costs incurred on or before July 31, 2011 in connection with the remedial actions required by this Undertaking Paragraph (2)(b), or otherwise defer such costs for future recovery from ratepayers.[3]

(c) On or before July 1, 2010, VNG shall begin revising its operations and maintenance manuals procedures relative to corrosion control to provide detailed section guide procedures for the Company's employees to use for compliance activities. As these procedures are revised, the Company shall train personnel and implement the procedures. The Company shall complete the training and implementation of these procedures by no later than March 31, 2011. The Company shall not seek to recover from ratepayers, in any present or future Commission proceeding, any of the costs incurred on or before July 31, 2011, in connection with the remedial actions required by this Undertaking Paragraph (2)(c), or otherwise defer such costs for future recovery from ratepayers.

Construction

(d) On or before September 30, 2010, VNG shall enhance the Company's quality control for construction related activities by, among other things, increasing the number of Company's construction inspectors by six (6) full time employees, the number of utility expediters by two (2) full time employees, the number of Contract Inspectors by one (1) full time employee, and the number of Construction Supervisors by one (1) full time employee. The Company shall not seek to recover from ratepayers, in any present or future Commission proceeding, any of the costs incurred on or before July 31, 2011, in connection with the remedial actions required by this Undertaking Paragraph (2)(d), or otherwise defer such costs for future recovery from ratepayers.

(e) On or before July 31, 2011, VNG shall complete a minimum of Fifteen Million Dollars ($15,000,000) of pipeline replacement projects throughout the Company's operating area. These projects shall include, but are not limited to, those found in Attachment B to this Order.[4] The estimated project completion dates for each of the projects shall be provided to the Division no later than 30 days prior to commencement of the project. The estimated completion dates shall be acceptable to the Division and project progress reports shall be shared with the Division quarterly. VNG shall not seek recovery of any costs associated with the minimum of Fifteen Million Dollars ($15,000,000) of pipeline replacement projects that are incurred on or before July 31, 2011, including, but not limited to, depreciation, taxes, and carrying costs, in any present or future Commission proceeding or otherwise defer such costs for future recovery from ratepayers.[5] All costs shall be timely booked in accordance with the Uniform System of Accounts prescribed for Natural Gas Companies subject to the Provisions of the Natural Gas Act.[6] In addition, none of the costs incurred in connection with such replacement projects on or before July 31, 2011, shall be recovered from ratepayers pursuant to the Steps to Advance Virginia's Energy Plan (SAVE) Act[7], Chapter 26 of Title 56 (§§ 56-603 *et seq.*) of the Code.

---

[1] The Division advises that the Company has been fully cooperative with the Division's investigation. According to the Company and the Division, VNG has already entered into a Master Service Contract with Corrpro Companies, Inc. to be the Consultant for the purpose of performing the Evaluation functions. The Company has advised the Division that Phase I of the Evaluation, performed as part of the Master Service Contract, has been completed. The Scope of Work for Phase II of the Evaluation ("Cathodic Protection System and Program Evaluation"), to be performed as part of the Master Service Contract between VNG and the Consultant, is included as Attachment A to this Order. According to the Company and the Division, the Company consulted with the Division when it prepared Attachment A, and Attachment A represents the scope of work of the Evaluation contemplated by the parties when they reached settlement. The Company represents that it is fully committed to developing and ensuring an effective cathodic protection program.

[2] If any capital is required to be deployed associated with this requirement, treatment of that capital shall be consistent with the provisions in 2(e) below.

[3] If any capital is required to be deployed associated with this requirement, treatment of that capital shall be consistent with the provisions in 2(e) below.

[4] The Company began these replacement projects in January, 2010.

[5] The Company shall not seek recovery of the costs for the period prior to July 31, 2011. However, the Company may seek recovery for costs associated with the un-depreciated net book value of those assets including, but not limited to, depreciation, taxes, and carrying costs related to periods after July 31, 2011.

[6] Contained within § USC 18 C.F.R. 201.

[7] Originally approved in the 2010 Virginia Acts of Assembly, c. 142 (effective July 1, 2010).

(3) The Company has complied fully with the terms and undertakings outlined in undertaking Paragraph (2)(b) above. Documentation evidencing the hiring and employment of Corrosion Control Supervisor has been submitted to the Division.

(4) Beginning July 1, 2010, and each three months thereafter until August 31, 2011, or as otherwise required, VNG shall provide a written report to the Division's Director, in a format acceptable to the Division, describing in detail the actions it has taken, and the expenditures it has made, to comply with the requirements of Undertaking Paragraph (2) above.

(5) On or before August 31, 2011, VNG will tender to the Clerk of the Commission with a copy to the Director of the Division, a notarized affidavit signed by the President of the Company certifying that the Company has completed all of the remedial actions described in Undertaking Paragraph (2) above.

(6) Upon timely receipt of the affidavit required by Undertaking Paragraph (5) above, the Commission may suspend and subsequently vacate up to Five Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($565,250) of the remaining amount as set forth in Undertaking Paragraph (1) above. Should VNG fail to tender said affidavit, or fail to take the actions required by Undertaking Paragraphs (2) and (4) above, a payment of Five Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($565,250) shall become due and payable, and the Company shall immediately notify the Division of the reasons for VNG's failure to accomplish the actions required by Undertaking Paragraphs (2) and (4) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than Five Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($565,250), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(7) This settlement does not prohibit the Commission Staff from submitting, in any present or future Commission proceeding involving the Company, any information discovered or obtained in the course of the Division's investigation and inspections described herein; nor does this settlement prohibit the Company from submitting information contradicting or mitigating the information submitted by the Commission Staff.

(8) Any amounts paid to the Commonwealth of Virginia in accordance with this Order shall not be recovered in the Company's rates as part of VNG's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2009-00338.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by VNG be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, VNG shall pay the amount of One Million Three Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($1,365,250), part of which may be suspended and subsequently vacated as provided in Undertaking Paragraph (1) above.

(4) The sum of Eight Hundred Thousand Dollars ($800,000) tendered contemporaneously with the entry of this Order is accepted. The remaining Five Hundred Sixty-five Thousand Two Hundred Fifty Dollars ($565,250) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraphs (2) and (4) above and files the timely certification of the remedial actions required by Undertaking Paragraph (5) above.

(5) The Company shall not recover the costs of the remedial actions described herein from ratepayers except as provided in Undertaking Paragraph (2) above.

(6) Pursuant to Undertaking Paragraph (7), the settlement reached between the Division and the Company does not prohibit the Commission Staff from submitting, in any present or future Commission proceeding involving VNG, any information discovered or obtained in the course of the Division's investigation and inspections described herein; nor does the settlement prohibit the Company from submitting information contradicting or mitigating the information submitted by the Commission Staff in such a proceeding.

(7) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further orders of the Commission.

NOTE: A copy of Attachments A and B are on file and may be examined at the State Corporation Commission, Clerk's Office, Document Control Center, Tyler Building, First Floor, 1300 East Main Street, Richmond, Virginia.

CASE NO. URS-2009-00381
MAY 17, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between July 27, 2009, and August 31, 2009, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Eleven Thousand Seven Hundred Dollars ($11,700) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Eleven Thousand Seven Hundred Dollars ($11,700) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2009-00420
JANUARY 4, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) Utiliquest, LLC ("Company"), is a contract locator as that term is defined in § 56-265.15 of the Code, and as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code;

(2) On or about August 13, 2009, The Basics CS damaged a three-quarter-inch plastic gas service line operated by Washington Gas Light Company, located at or near 14891 Potomac Branch Drive, Prince William County, Virginia, while excavating;

(3) On or about September 2, 2009, S&N Communications, Inc., damaged a two-inch plastic gas main line operated by Washington Gas Light Company, located at or near 14514 Telegraph Road, Prince William County, Virginia, while excavating;

(4) On or about August 11, 2009, Rock Hard Excavating, Inc., damaged a two-inch plastic gas service line operated by Washington Gas Light Company, located at or near 2300 North Key Boulevard, Arlington County, Virginia, while excavating;

(5) On or about August 27, 2009, Arlington County damaged a two-inch plastic gas main line operated by Washington Gas Light Company, located at or near 11th Street South and South Edison Street, Arlington County, Virginia, while excavating;

(6) On or about September 8, 2009, The Building Group, Inc., damaged a three-quarter-inch plastic gas service line operated by Washington Gas Light Company, located at or near 7409 Franklin Road, Fairfax County, Virginia, while excavating;

(7) On or about September 18, 2009, The Fishel Company damaged an eight-inch plastic gas main line operated by Washington Gas Light Company, located at or near 14401 Tracy Schar Lane, Fairfax County, Virginia, while excavating;

(8) On or about September 21, 2009, Casper Colosimo & Son, Inc., damaged a one-half-inch plastic gas service line operated by Washington Gas Light Company, located at or near 7742 Bridal Path Lane, Fairfax County, Virginia, while excavating;

(9) On the occasions set out in paragraphs (2) and (3) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(10) On the occasions set out in paragraphs (4) through (8) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code; and

(11) On the occasion set out in paragraph (7), the Company failed to use all information necessary to mark their facilities accurately, in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Six Thousand Fifty Dollars ($6,050) to be paid contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Six Thousand Fifty Dollars ($6,050) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

JANUARY 11, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ONE VISION UTILITY SERVICES, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between September 11, 2009, and October 16, 2009, listed in Attachment A, involving One Vision Utility Services, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Six Thousand Six Hundred Dollars ($6,600) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Six Thousand Six Hundred Dollars ($6,600) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2009-00448
JANUARY 4, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) Promark Utility Locators, Inc. ("Company"), is a contract locator as that term is defined in § 56-265.15 of the Code, and as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code;

(2) On or about August 27, 2009, Aqua Virginia, Inc., damaged a one-half-inch plastic gas service line operated by Roanoke Gas Company, located at or near 89 Lois Lane, Botetourt County, Virginia, while excavating;

(3) On or about August 31, 2009, H. A. Dove & Sons damaged a four-inch plastic gas main line operated by Columbia Gas of Virginia, Inc., located at or near Scott Drive, Prince William County, Virginia, while excavating;

(4) On or about September 23, 2009, B&B Signal Co., L.L.C., damaged a six-inch plastic gas main line operated by Columbia Gas of Virginia, Inc., located at or near Blackwell Road, Fauquier County, Virginia, while excavating;

(5) On or about October 19, 2009, Consultants Unlimited, Inc., damaged a one-half-inch plastic gas service line operated by Roanoke Gas Company, located at or near 106 Cambridge Square, Roanoke County, Virginia, while excavating;

(6) On or about October 22, 2009, Ivy H. Smith Company, LLC, damaged an electric secondary line operated by Virginia Electric and Power Company, located at or near 2507 Lauderdale Road, Richmond, Virginia, while excavating;

(7) On the occasions set out in paragraphs (2) through (6) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code;

(8) On or about September 29, 2009, the City of Lynchburg damaged a one-inch plastic gas service line operated by Columbia Gas of Virginia, Inc., located at or near 924 Main Street, Lynchburg, Virginia, while excavating;

(9) On or about October 7, 2009, D. A. Foster Company damaged a one-inch plastic gas service line operated by Columbia Gas of Virginia, Inc., located at or near 4253 Meyers Road, Prince William County, Virginia, while excavating; and

(10) On the occasions set out in paragraphs (8) and (9) above, the Company failed to mark the underground utility lines by no later than 7 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Six Thousand Nine Hundred Dollars ($6,900) to be paid contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Six Thousand Nine Hundred Dollars ($6,900) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2009-00450
JANUARY 26, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which include all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Ten Thousand Nine Hundred Dollars ($10,900) to be paid

contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Ten Thousand Nine Hundred Dollars ($10,900) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00047
MARCH 17, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ONE VISION UTILITY SERVICES, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between May 15, 2009, and January 7, 2010, listed in Attachment A, involving One Vision Utility Services, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code, and as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act, in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation, in violation of § 56-265.19 A of the Code.

(d) Failing on certain occasions to use all information necessary to mark their facilities accurately, in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which include all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Ten Thousand Six Hundred Fifty Dollars ($10,650) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Ten Thousand Six Hundred Fifty Dollars ($10,650) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00048
MARCH 12, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq.* of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) Promark Utility Locators, Inc. ("Company"), is a contract locator as that term is defined in § 56-265.15 of the Code, and as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code;

(2) On or about August 31, 2009, DLB, Inc., damaged a one-inch plastic gas service line operated by Columbia Gas of Virginia, Inc., located at or near 1601 Morrison Drive, Lynchburg, Virginia, while excavating;

(3) On or about November 5, 2009, Western Virginia Water Authority damaged a one-half-inch plastic gas service line operated by Roanoke Gas Company, located at or near 7777 Hollins Court Drive, Roanoke County, Virginia, while excavating;

(4) On or about November 16, 2009, Johnson Investments, Inc., damaged a one-half-inch plastic gas service line operated by Roanoke Gas Company, located at or near 830 Florida Street, Roanoke County, Virginia, while excavating;

(5) On the occasions set out in paragraphs (2) through (4) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(6) On or about October 21, 2009, Western Virginia Water Authority damaged a one-inch plastic gas service line operated by Roanoke Gas Company, located at or near 6349 Peters Creek Road, N.W., Roanoke County, Virginia, while excavating;

(7) On or about December 11, 2009, the City of Salem damaged a four-inch plastic gas main line operated by Roanoke Gas Company, located at or near 407 East Calhoun Street, Roanoke County, Virginia, while excavating;

(8) On or about October 28, 2009, C. Lee White Concrete LLC damaged a one-inch plastic gas service line operated by Columbia Gas of Virginia, Inc., located at or near Wallace Street, Lynchburg, Virginia, while excavating;

(9) On the occasions set out in paragraphs (6) through (8) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code; and

(10) On the occasion set out in paragraph (6) above, the Company failed to provide markings extending a reasonable distance beyond the boundaries of the specific location of the proposed work, in violation of 20 VAC 5-309-110 I of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Nine Hundred Fifty Dollars ($5,950) to be paid contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Nine Hundred Fifty Dollars ($5,950) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00050
MAY 4, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between September 28, 2009, and December 10, 2009, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A of the Code.

(d) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Eleven Thousand Four Hundred Fifty Dollars ($11,450) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Eleven Thousand Four Hundred Fifty Dollars ($11,450) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00052
MARCH 12, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about October 20, 2009, Casper Colosimo & Son, Inc., damaged a one-half-inch plastic gas service line operated by Washington Gas Light Company ("Company"), located at or near 7716 Bridle Path Lane, Fairfax County, Virginia, while excavating;

(2) On the occasion set out in paragraph (1) above, the Company failed to mark the approximate horizontal location of the underground utility line on the ground to within two feet of either side of the underground utility line, in violation of § 56-265.19 A of the Code;

(3) On or about November 2, 2009, Woodlawn Construction Company damaged a two-inch plastic gas service line operated by the Company, located at or near West Braddock Road and North Beauregard Street, Fairfax County, Virginia, while excavating;

(4) On or about November 9, 2009, Christopher's Back Hoe Service damaged a two-inch plastic gas main line operated by the Company, located at or near 12024 Dawn Falls Way, Prince William County, Virginia, while excavating;

(5) On or about November 17, 2009, Danella Construction Corporation of Virginia, Inc., damaged a one-quarter-inch plastic gas service line operated by the Company, located at or near 3819 Whitman Road, Fairfax County, Virginia, while excavating;

(6) On or about November 19, 2009, JES Construction, Inc., damaged a one-quarter-inch plastic gas service line operated by the Company, located at or near 8044 Saint Annes Court, Fairfax County, Virginia, while excavating;

(7) On or about November 24, 2009, Danella Construction Corporation of Virginia, Inc., damaged a three-eighths-inch plastic gas service line operated by the Company, located at or near 1695 Burntwood Court, Prince William County, Virginia, while excavating;

(8) On or about December 8, 2009, E. E. Lyons Const. Co., Inc., damaged a three-quarter-inch steel gas service line operated by the Company, located at or near 221 North Irving Street, Arlington County, Virginia, while excavating;

(9) On or about December 14, 2009, Casper Colosimo & Son, Inc., damaged a one-half-inch plastic gas service line operated by the Company, located at or near 2300 Cheshire Lane, Fairfax County, Virginia, while excavating; and

(10) On the occasions set out in paragraphs (3) through (9) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Eight Thousand One Hundred Dollars ($8,100) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any fines paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such fines shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the trial balance showing this entry with the Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Eight Thousand One Hundred Dollars ($8,100) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00053
MAY 10, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
COLUMBIA GAS OF VIRGINIA, INC.,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq.* ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is

further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Columbia Gas of Virginia, Inc., ("CGV" or "Company"), the Defendant, and alleges that:

(1) CGV is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.303 - Failing on one occasion to construct a main in accordance with Company Procedure 644-12, developed to comply with 49 C.F.R. § 192.281 (c)(3), by not producing a gas tight electrofusion joint;

(b) 49 C.F.R. § 192.303 - Failing on one occasion to construct a main in accordance with Company Procedure 640-1(11), developed to comply with 49 C.F.R. § 192.325 (b), by not achieving proper separation between a pipeline and other utilities;

(c) 49 C.F.R. § 192.327 (b) - Failing on one occasion to install a main with at least 24 inches of cover;

(d) 49 C.F.R. § 192.353 (a) - Failing on eight occasions to install meter and regulator protection against vehicular damage that may be anticipated;

(e) 49 C.F.R. § 192.355 (b)(2) - Failing on one occasion to install a service regulator vent in a location where gas from the vent can escape freely into the atmosphere;

(f) 49 C.F.R. § 192.361 (a) - Failing on one occasion to install a service line with at least 12 inches of cover on private property;

(g) 49 C.F.R. § 192.361 (g) - Failing on one occasion to comply with 49 C.F.R. § 192.321 (e), which states that plastic pipe that is not encased must have an electrically conducting wire or other means of locating the pipe;

(h) 49 C.F.R. § 192.605 (a) - Failing on two occasions to follow Company Procedure, 640-10, Section 2.3, by not utilizing a squeeze-off at least five pipe diameters from a fusion or mechanical fitting;

(i) 49 C.F.R. § 192.605 (b) - Failing on two occasions to have adequate procedures for squeezing off a pipeline by not specifying the required distance of 3 pipe diameters or 12 inches, whichever is greater, that a squeeze off can be from any fusion joint, mechanical connection, prior squeeze off point, or second squeeze off point;

(j) 49 C.F.R. § 192.619 (a) - Failing on one occasion to operate a steel pipeline within the established maximum allowable operating pressure;

(k) 49 C.F.R. § 192.805 - Failing on one occasion to identify pneumatic boring as a covered task, and ensure through evaluation that individuals performing covered tasks (pneumatic boring) are qualified;

(l) 49 C.F.R. § 192.805 - Failing on one occasion to identify directional drilling as a covered task, and ensure through evaluation that individuals performing covered tasks (directional drilling) are qualified; and

(m) 49 C.F.R. § 193.2625 (a) - Failing on one occasion to determine which metallic components could have their integrity or reliability adversely affected by external corrosion at the Company's LNG Plant.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, CGV represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of One Hundred Twenty-one Thousand Dollars ($121,000), of which Thirty-two Thousand One Hundred Twenty-five Dollars ($32,125) shall be paid contemporaneously with the entry of this Order. The remaining Eighty-eight Thousand Eight Hundred Seventy-five Dollars ($88,875) shall be due as outlined in Undertaking Paragraph (7) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required by Undertaking Paragraph (2) herein and tenders the requisite certifications as required by Undertaking Paragraphs (4), (5), and (6) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall undertake the following remedial actions:

(a) Participate in the Division's 2010 Pipeline Safety Conference and present the results of the Company's investigation regarding the improper bonding of electrofusion on a high volume tapping tee at Route 10 and Bermuda Triangle Road in Chester, Virginia.

(b) On or before November 20, 2009, the Company shall replace the natural gas service to 219 South 16th Avenue in Hopewell, Virginia to ensure proper cover, proper separation from other utilities, and the ability to locate their pipeline.

(c) On or before July 1, 2010, the Company shall revise its Squeeze Off Procedure in accordance with the recommendations from Plastic Pipe Institute and train employees that perform such tasks.

(d) On or before July 1, 2010, the Company shall revise its Operator Qualification Program to identify directional drilling and pneumatic boring as covered tasks and train employees that perform such tasks in accordance with 49 C.F.R. § 192.805.

(e) On or before December 31, 2010, the Company shall replace the two water/ethylene glycol lines located at the Madison Heights LNG Plant with an above ground configuration so these lines can be monitored for corrosion.

(f) Identify all regulator stations serving five hundred customers or more, where there is a lack of telemetry, by December 31, 2014. The Company shall commit at least $100,000 each year through December 31, 2014 to install telemetry at stations where such equipment is needed. The Company shall submit progress reports to the Division once each year through 2014, by no later than December 31st of that year. This report shall, at a minimum, include the total number of stations requiring telemetry, the number of stations where telemetry equipment was installed during each calendar year and the locations where the installation of telemetry was determined to be impractical.

(3) The Company has complied fully with the terms and undertakings outlined in Undertaking Paragraph (2)(b) above. Documentation evidencing that the natural gas service line to 219 South 16th Avenue in Hopewell, Virginia was reinstalled with proper cover, proper separation from other utilities, and that the new service line is locatable has been submitted to the Division.

(4) On or before July 1, 2010, CGV shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the General Manager of Columbia Gas of Virginia, certifying that the Company completed the remedial actions set forth in Undertaking Paragraphs (2)(c) and (2)(d) above and the Company has begun to perform the remedial actions set forth in Undertaking Paragraphs (2)(e) and (2)(f) above.

(5) On or before December 31, 2010, CGV shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the General Manager of Columbia Gas of Virginia, certifying that the Company completed the remedial actions set forth in Undertaking Paragraphs (2)(a) and (2)(e) above.

(6) On or before December 31, 2014, CGV shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the General Manager of Columbia Gas of Virginia, certifying that the Company completed the remedial actions set forth in Undertaking Paragraph (2)(f) above.

(7) Upon timely receipt of said affidavits, the Commission may suspend up to Eighty-eight Thousand Eight Hundred Seventy-five Dollars ($88,875) of the amount set forth in Undertaking Paragraph (1) above. Should CGV fail to tender the affidavits required by Undertaking Paragraphs (4), (5), and (6) above, or fail to take the actions required by Undertaking Paragraph (2) above, a payment of Eighty-eight Thousand Eight Hundred Seventy-five Dollars ($88,875) shall become due and payable, and the Company shall immediately notify the Division of the reasons for CGV's failure to accomplish the actions required by Undertaking Paragraphs (2), (4), (5), and (6) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than Eighty-eight Thousand Eight Hundred Seventy-five Dollars ($88,875), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(8) Any amounts paid in accordance with Undertaking Paragraph (1) of this Order shall not be recovered in the Company's rates as part of CGV's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the trial balance showing this entry with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00053.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by CGV be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, CGV shall pay the amount of One Hundred Twenty-one Thousand Dollars ($121,000), which may be suspended and subsequently vacated in part as provided in Undertaking Paragraph (1) of this Order.

(4) The sum of Thirty-two Thousand One Hundred Twenty-five Dollars ($32,125) tendered contemporaneously with the entry of this Order is accepted. The remaining Eighty-eight Thousand Eight Hundred Seventy-five Dollars ($88,875) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraph (2) of this Order and files the timely certification of the remedial actions as required by Undertaking Paragraphs (4), (5), and (6) of this Order.

(5) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further order of the Commission.

CASE NO. URS-2010-00054
APRIL 23, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq.* ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Washington Gas Light Company, ("WGL" or "Company"), the Defendant, and alleges that:

(1) WGL is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.53 (c) - Failing on one occasion to follow ASTM D 2513-99 A1.5.7, Requirements for Pipe and Fittings, by installing polyethylene pipe that was more than two years from the date of manufacture;

(b) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedures, developed to comply with 49 C.F.R. § 192.225 (a) by not verifying proper voltage and amperage while welding; and

(c) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure 4050, developed to comply with 49 C.F.R. § 192.721 by not observing a condition that may affect the safety and operation of a pipeline.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, WGL represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of Twenty-seven Thousand Dollars ($27,000), which shall be paid contemporaneously with the entry of this Order. The payment will be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director of the Division of Utility and Railroad Safety, Post Office Box 1197, Richmond, Virginia, 23218-1197;

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of WGL's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the trial balance showing this entry with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00054.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by WGL be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, WGL shall pay the amount of Twenty-seven Thousand Dollars ($27,000) in settlement hereof.

(4) The sum of Twenty-seven Thousand Dollars ($27,000) tendered contemporaneously with the entry of this Order is accepted.

(5) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00055
JUNE 29, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
APPALACHIAN NATURAL GAS DISTRIBUTION COMPANY,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq*. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Appalachian Natural Gas Distribution Company, ("ANGD" or "Company"), the Defendant, and alleges that:

(1) ANGD is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.353(a) - Failing on two occasions to ensure that each meter and service regulator, whether inside or outside a building, be installed in a readily accessible location and protected from corrosion and other damage, including, if installed outside a building, vehicular damage that may be anticipated;

(b) 49 C.F.R. § 192.453 - Failing on one occasion to have all of the corrosion control procedures required by 49 C.F.R. §192.605(b)(2), including those for the design, installation, operation, and maintenance of cathodic protection systems, carried out by, or under the direction of, a person qualified in pipeline corrosion control methods;

(c) 49 C.F.R. § 192.455(a)(2) - Failing on one occasion to have a cathodic protection system designed to protect the pipeline in accordance with 49 C.F.R. §192, installed and placed in operation within 1 year after completion of construction;

(d) 49 C.F.R. § 192.465(d) - Failing on three occasions to take prompt remedial action to correct any deficiencies indicated by the monitoring of cathodic protection;

(e) 49 C.F.R. § 192.479(a) - Failing on one occasion to clean and coat each pipeline or portion of pipeline that is exposed to the atmosphere;

(f) 49 C.F.R. § 192.625(a) - Failing on four occasions to odorize its distribution system so that, at a concentration in air of one-fifth of the lower explosive limit, the gas is readily detectable by a person with a normal sense of smell;

(g) 49 C.F.R. § 192.739(a)(2) - Failing on two occasions to perform tests or inspections to determine if their pressure control devices are adequate from the standpoint of capacity and reliability of operation for the service in which they are employed;

(h) 49 C.F.R. § 199.113(b) - Failing on one occasion to include at least the following elements under their employee assistance program: display and distribution of informational material; display and distribution of a community service hot-line telephone number for employee assistance regarding drug and alcohol abuse; and

(i) 49 C.F.R. § 199.113(c) - Failing on two occasions to provide training under each employee assistance program for supervisory personnel who will determine whether an employee must be drug tested based on reasonable cause, to include one 60-minute period of training on the specific, contemporaneous physical, behavioral, and performance indicators of probable drug use.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, ANGD represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of One Hundred Sixty-three Thousand Dollars ($163,000), of which Ten Thousand Dollars ($10,000) shall be paid contemporaneously with the entry of this Order. The remaining One Hundred Fifty-three Thousand Dollars ($153,000) shall be due as outlined in Undertaking Paragraph (9) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required by Undertaking Paragraph (2) herein and tenders the requisite certifications as required by Undertaking Paragraphs (5), (6), (7), and (8) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall undertake the following remedial actions:

(a) On or before March 31, 2010, the Company shall install meter protection from accidental damage at 1859 North Route 71 in Lebanon, Virginia and at the Lebanon Gate Station. Cathodic protection and a fence shall also be installed at the Lebanon Gate Station.

(b) On or before June 30, 2011, the Company shall inspect all of its meters to determine if they are readily accessible; adequately protected from accidental damage; have a tracer wire; and they have adequate protection against atmospheric corrosion. All deficiencies found during these inspections shall be corrected by no later than June 15, 2011. The Company shall submit two progress reports to the Division, one by no later than November 30, 2010 and the second by no later than June 30, 2011. These reports shall, at a minimum, detail the results of the inspections and the actions taken to correct any deficiencies found by the Company.

(c) On or before May 30, 2013, the Company shall replace 2.4 miles of bare steel in its Virginia Bluefield service territory. The Company shall continue its current practice to annually perform leak surveys on its bare steel until such time that all of the bare steel is replaced.

(d) On or before June 30, 2011, the Company shall coat the exposed portions of its pipeline that serves Red Onion State Prison.

(e) On or before September 30, 2010, the Company shall purchase a Gas Tracker to assist in locating its underground pipelines.

(f) On or before November 30, 2010, the Company shall undertake and complete the following actions:

1. Perform a formal review of Company safety records and files to ensure compliance with the safety standards;

2. Evaluate training and qualifications of existing personnel and Company procedures to ensure compliance with the pipeline safety standards;

3. Revise its Operations and Maintenance Manual to provide that cathodic protection and corrosion control procedures will be performed by qualified Company personnel or a qualified third party contractor; and

4. Revise its Operations and Maintenance Manual to include all steps necessary and customarily taken in response to low odorant readings to ensure its distribution system maintains the appropriate level of odorant as required by 49 C.F.R. §192.625(a).

(3) In addition, in order to resolve this matter, the Company has agreed to and shall undertake the following remedial actions:

(a) During the meter inspections performed pursuant to Undertaking Paragraph (2) (b) above, the Company shall install tracer wire tags promoting the C.A.R.E.[1] message at the meters and also install the C.A.R.E. logo on all meter sets. The tracer wire tags and C.A.R.E. logos shall be approved by the Division.

(b) The Company shall promote the C.A.R.E. message by the following:

1. Send bill inserts containing the C.A.R.E. message to its customers in Virginia twice a year (spring and fall) for three consecutive years starting in the fall of 2010.

2. On or before June 15, 2010, place the C.A.R.E. logo on all company vehicles including a more prominent message as approved by the Division, on a Company van which is used for field service and meter proving.

3. Cause the C.A.R.E. message and logo, as approved by the Division, to be displayed on two billboards for three months in the fall of 2010 and three months in the spring of 2011 to promote the "Dig with C.A.R.E." message.

4. Purchase television advertising on the local TV station to broadcast the Division's 30 second C.A.R.E. spot, aired at least 40 times during the fall of 2010 season, for a three month period. In addition to the C.A.R.E. commercial, the television advertising shall include a rotating bulletin board that shall display at least seven times an hour during the three month period in the fall of 2010. The advertising broadcast shall cover the Counties of Wise, Virginia and Russell, Virginia.

(c) On or before the following dates, ANGD shall tender to the Clerk of the Commission, with a copy to the Division, affidavits, executed by the President of Appalachian Natural Gas Distribution Company, certifying that the Company completed the voluntary remedial actions set forth in Undertaking Paragraph (3) (b) above: Undertaking Paragraph (3) (b) 1: June 30, 2013; Undertaking Paragraph (3) (b) 2: June 30, 2010; Undertaking Paragraph (3) (b) 3: July 1, 2011; and Undertaking Paragraph (3) (b) 4: December 31, 2010.

(4) The Company has complied fully with the terms and undertakings outlined in Undertaking Paragraph (2) (a) above. Documentation evidencing installation of meter protection at 1859 North Route 71 in Lebanon, Virginia and at the Lebanon Gate Station has been submitted to the Division. In addition, documentation evidencing that cathodic protection and a fence has been installed at the Lebanon Gate Station has been submitted to the Division.

(5) On or before October 1, 2010, ANGD shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Appalachian Natural Gas Distribution Company, certifying that the Company completed the remedial action set forth in Undertaking Paragraph (2) (e) above.

[1] "Call Miss Utility at 811 before you dig. Allow the required time for marking. Respect the marks. Excavate Carefully."

(6) On or before December 31, 2010, ANGD shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Appalachian Natural Gas Distribution Company, certifying that the Company completed the remedial actions set forth in Undertaking Paragraph (2) (f) above.

(7) On or before July 1, 2011, ANGD shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Appalachian Natural Gas Distribution Company, certifying that the Company completed the remedial actions set forth in Undertaking Paragraphs (2) (b) and (2) (d) above.

(8) On or before June 30, 2013, ANGD shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Appalachian Natural Gas Distribution Company, certifying that the Company completed the remedial actions set forth in Undertaking Paragraph (2) (c) above.

(9) Upon timely receipt of said affidavits described in Undertaking Paragraphs (5), (6), (7), and (8) above, the Commission may suspend up to One Hundred Fifty-three Thousand Dollars ($153,000) of the amount set forth in Undertaking Paragraph (1) above. Should ANGD fail to tender the affidavits required by Undertaking Paragraphs (5), (6), (7), and (8) above, or fail to take the actions required by Undertaking Paragraph (2) above, a payment of One Hundred Fifty-three Thousand Dollars ($153,000) shall become due and payable, and the Company shall immediately notify the Division of the reasons for ANGD's failure to accomplish the actions required by Undertaking Paragraphs (2), (5), (6), (7), and (8) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than One Hundred Fifty-three Thousand Dollars ($153,000), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(10) Any amounts paid in accordance with Undertaking Paragraph (1) of this Order shall not be recovered in the Company's rates as part of ANGD's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00055.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by ANGD be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, ANGD shall pay the amount of One Hundred Sixty-three Thousand Dollars ($163,000), which may be suspended and subsequently vacated in part as provided in Undertaking Paragraph (1) of this Order.

(4) The sum of Ten Thousand Dollars ($10,000) tendered contemporaneously with the entry of this Order is accepted. The remaining One Hundred Fifty-three Thousand Dollars ($153,000) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraph (2) of this Order and files the timely certification of the remedial actions as required by Undertaking Paragraphs (5), (6), (7), and (8) of this Order.

(5) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further order of the Commission.

CASE NO. URS-2010-00056
APRIL 6, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
SUFFOLK TRANSMISSION PARTNERS L.P.,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq*. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, operation and maintenance activities involving Suffolk Transmission Partners L.P. ("STP" or "Company"), and alleges that:

(1) STP is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.706 - Failing on two occasions to conduct leak surveys on a transmission line at intervals not exceeding 15 months, but at least once each calendar year;

(b) 49 C.F.R. § 192.707 (d)(2) - Failing on sixty occasions to have required information on a pipeline marker including the name of the operator and the telephone number (including area code) where the operator can be reached at all times; and

(c) 49 C.F.R. § 192.805 (b) - Failing on one occasion to ensure through evaluation that individuals performing covered tasks are qualified.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, STP represents and undertakes that the Company shall pay to the Commonwealth of Virginia the amount of Sixteen Thousand Five Hundred Dollars ($16,500), which shall be paid contemporaneously with the entry of this Order. The payment will be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director of the Division of Utility and Railroad Safety, Post Office Box 1197, Richmond, Virginia, 23218-1197.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00056.

` (2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by STP be, and it hereby is, accepted.

(2) Pursuant to § 56-257.2 B of the Code of Virginia, STP shall pay the amount of Sixteen Thousand Five Hundred Dollars ($16,500) in settlement hereof.

(3) The sum of Sixteen Thousand Five Hundred Dollars ($16,500) tendered contemporaneously with the entry of this Order is accepted.

(4) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00137
JULY 23, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
VIRGINIA UTILITY PROTECTION SERVICE, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On May 18, 2010, Curtis Drilling Incorporated ("Excavator") notified Virginia Utility Protection Service, Inc. ("VUPS"), of its plan to excavate at or near 14144 Jefferson Davis Highway, Caroline County, Virginia (Ticket No. A013801329-00A);

(2) On or about May 24, 2010, the Excavator damaged a twenty-four-inch steel gas transmission line operated by Virginia Natural Gas, Inc. ("VNG"), located at or near 14144 Jefferson Davis Highway, Caroline County, Virginia, while excavating;

(3) On the occasion set out in paragraph (1) above, VUPS failed to notify VNG of plans to excavate, in violation of § 56-265.22 A of the Code;

(4) On the occasion set out in paragraph (1), in response to the notice of excavation from the Excavator, VUPS also failed to notify Columbia Gas of Virginia, Inc., of plans to excavate, in violation of § 56-265.22 A of the Code; and

(5) On the occasion set out in paragraph (1), in response to the notice of excavation from the Excavator, VUPS notified Aqua Virginia, Inc. ("Aqua"), Caroline County Public Utilities Department ("CCPUD"), and Comcast Cable Communications, Inc. ("Comcast"), when in fact, no underground utility lines operated by Aqua, CCPUD, and Comcast were located in the area of the proposed excavation, in violation of § 56-265.22 A of the Code.

As evidenced in the attached Admission and Consent document, VUPS neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, VUPS represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Six Hundred Fifty Dollars ($5,650) to be paid contemporaneously with the entry of this Order. The payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by VUPS is hereby accepted.

(2) The sum of Five Thousand Six Hundred Fifty Dollars ($5,650) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00156
JULY 23, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
GW COMMUNICATIONS, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about April 1, 2010, GW Communications, LLC ("Company"), notified the notification center of proposed excavation at or near 81 Clermont Drive, Stafford County, Virginia;

(2) On or about April 2, 2010, the Company notified the notification center of proposed excavation at or near 30 Little Oak Road, Stafford County, Virginia;

(3) On or about April 2, 2010, the Company notified the notification center of proposed excavation at or near 404 Dundee Place, Stafford County, Virginia;

(4) On or about April 5, 2010, the Company notified the notification center of proposed excavation at or near 91 Aspen Hill Drive, Stafford County, Virginia;

(5) On or about April 8, 2010, the Company notified the notification center of proposed excavation at or near 126-127 Kings Mill Drive, Fredericksburg, Virginia;

(6) On or about April 9, 2010, the Company notified the notification center of proposed excavation at or near 40-44 Melanie Hollow Drive, Stafford County, Virginia; and

(7) On the occasions set out in paragraphs (1) through (6) above, the Company failed to commence excavation within thirty working days from the date of the original notification to the notification center, in violation of § 56-265.24 F of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Two Hundred Fifty Dollars ($5,250) to be paid contemporaneously with the entry of this Order. The payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Two Hundred Fifty Dollars ($5,250) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00159
JULY 7, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
NEW YORK CONCRETE CORP.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about March 30, 2010, New York Concrete Corp. ("Company") damaged a three-quarter-inch plastic gas service line operated by Washington Gas Light Company, located at or near 1840 Carpenter Road, Lot 201, Alexandria, Virginia, while excavating;

(2) On or about March 30, 2010, the Company damaged a three-quarter-inch plastic gas service line operated by Washington Gas Light Company, located at or near 1850 Carpenter Road, Lot 206, Alexandria, Virginia, while excavating;

(3) On or about May 12, 2010, the Company excavated at or near 1857-1861 Potomac Greens Drive, Alexandria, Virginia;

(4) On the occasions set out in paragraphs (1) through (3) above, the Company failed to exercise due care at all times to protect underground utility lines, in violation of § 56-265.24 A of the Code;

(5) On the occasions set out in paragraphs (1) through (3) above, the Company failed to expose the underground utility lines to its extremities by hand digging within the excavation area when excavation was expected to come within two feet of the marked location of the underground utility lines, in violation of 20 VAC 5-309-140 2 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act;

(6) On the occasions set out in paragraphs (1) and (2) above, the Company failed to immediately notify the operator of the damage, in violation of § 56-265.24 D of the Code; and

(7) On the occasions set out in paragraphs (1) and (2) above, the Company failed to take steps to safeguard life, health, and property, in violation of § 56-265.24 E of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Six Hundred Dollars ($5,600) to be paid contemporaneously with the entry of this Order. The payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Six Hundred Dollars ($5,600) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00161
JULY 20, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between December 7, 2009, and May 4, 2010, listed in Attachment A, involving Promark Utility Locators, Inc. ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code;

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act, in violation of § 56-265.19 A of the Code; and

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately, in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which include all probable violations presented to the Underground Utility Damage Prevention Advisory Committee and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Eight Thousand Eight Hundred Fifty Dollars ($8,850) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Eight Thousand Eight Hundred Fifty Dollars ($8,850) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00162
JULY 29, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between March 4, 2010, and April 16, 2010, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act, in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark facilities accurately, in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which include all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Eight Thousand Fifty Dollars ($8,050) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Eight Thousand Fifty Dollars ($8,050) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00164
JULY 7, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
VIRGINIA NATURAL GAS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about February 16, 2010, Mastec North America, Inc., damaged a three-quarter-inch plastic gas service line operated by Virginia Natural Gas, Inc. ("Company"), located at or near 801 Point Comfort Loop, York County, Virginia, while excavating;

(2) On or about March 16, 2010, Total Engineering Inc. damaged a one-inch steel gas service line operated by the Company, located at or near 100 Mapleshade Avenue, Norfolk, Virginia, while excavating;

(3) On or about March 18, 2010, Newport News Waterworks damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 404 River Road, Newport News, Virginia, while excavating;

(4) On the occasions set out in paragraphs (1) through (3) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code; and

(5) On the occasion set out in paragraph (1) above, the Company failed to prepare and maintain reasonably accurate installation records of the underground utility lines, in violation of 20 VAC 5-309-160 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand One Hundred Fifty Dollars ($5,150) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand One Hundred Fifty Dollars ($5,150) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00166
JULY 30, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq.*, formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Washington Gas Light Company ("WGL" or "Company"), the Defendant, and alleges that:

(1) WGL is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.273 (b) - Failing on one occasion to make a joint in accordance with written procedures that have been proven by test or experience to produce strong gastight joints;

(b) 49 C.F.R. § 192.361 (b) - Failing on one occasion to use backfill for a service line free of materials that could damage the pipe and pipe coating;

(c) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure Section 5232 (Prevention of Plastic Pipe Static Electricity Discharge) by not adhering to the manufacturer's instructions for application of the anti-static spray and wrap combination; and

(d) 49 C.F.R. § 192.725 (b) - Failing on one occasion in the Shenandoah Gas Division to test each service line temporarily disconnected from the main from the point of disconnection to the service line valve in the same manner as a new service line, before reconnecting.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, WGL represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of Forty-five Thousand One Hundred Twenty-five Dollars ($45,125), of which Thirty-nine Thousand One Hundred Twenty-five Dollars ($39,125) shall be paid contemporaneously with the entry of this Order. The remaining Six Thousand Dollars ($6,000) shall be due as outlined in Undertaking Paragraph (4) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required by Undertaking Paragraph (2) herein and tenders the requisite certification as required by Undertaking Paragraph (3) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) On or before September 15, 2010, the Company shall revise its Procedure Section 5232 (Prevention of Plastic Pipe Static Electricity Discharge) to better control static electricity on plastic pipe surfaces and train the appropriate employees to follow the revised procedure.

(3) On or before September 15, 2010, WGL shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Washington Gas Light Company, certifying that the Company completed the remedial actions set forth in Undertaking Paragraph (2) above.

(4) Upon timely receipt of the affidavit required by Undertaking Paragraph (3) above, the Commission may suspend and subsequently vacate up to Six Thousand Dollars ($6,000) of the amount set forth in Undertaking Paragraph (1) above. Should WGL fail to tender the affidavit required by Undertaking Paragraph (3) above, or fail to take the actions required by Undertaking Paragraph (2) above, a payment of Six Thousand Dollars ($6,000) shall become due and payable, and the Company shall immediately notify the Division of the reasons for WGL's failure to accomplish the actions required by Undertaking Paragraph (2) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than Six Thousand Dollars ($6,000), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(5) Any amounts paid in accordance with Undertaking Paragraph (1) of this Order shall not be recovered in the Company's rates as part of WGL's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00166.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by WGL be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, WGL shall pay the amount of Forty-five Thousand One Hundred Twenty-five Dollars ($45,125), part of which may be suspended and subsequently vacated as provided in Undertaking Paragraph (1) of this Order.

(4) The sum of Thirty-nine Thousand One Hundred Twenty-five Dollars ($39,125) tendered contemporaneously with the entry of this Order is accepted. The remaining Six Thousand Dollars ($6,000) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraph (2) of this Order and files the timely certification of the remedial actions as required by Undertaking Paragraph (3) of this Order.

(5) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further order of the Commission.

CASE NO. URS-2010-00200
OCTOBER 25, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ONE VISION UTILITY SERVICES, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between April 7, 2010, and June 4, 2010, listed in Attachment A, involving One Vision Utility Services, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A of the Code.

(d) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Seven Thousand Nine Hundred Fifty Dollars ($7,950) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Seven Thousand Nine Hundred Fifty Dollars ($7,950) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00201
AUGUST 2, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between April 12, 2010, and June 3, 2010, listed in Attachment A, involving Promark Utility Locators, Inc. ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company has violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code;

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code; and

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Ten Thousand Five Hundred Fifty Dollars ($10,550) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Ten Thousand Five Hundred Fifty Dollars ($10,550) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00202
AUGUST 12, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between April 12, 2010, and June 18, 2010, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to report to the notification center that lines had been marked or that they were not in conflict with the proposed excavation in violation of § 56-265.19 A of the Code.

(d) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Six Thousand Four Hundred Fifty Dollars ($6,450) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Six Thousand Four Hundred Fifty Dollars ($6,450) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00204
AUGUST 27, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ROANOKE GAS COMPANY,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq*. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Roanoke Gas Company ("RGC" or "Company"), the Defendant, and alleges that:

(1) RGC is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.353 (a) - Failing on four occasions to protect a meter and service regulator installed outside a building from vehicular damage that may be anticipated; and

(b) 49 C.F.R. § 192.603 (b) - Failing on one occasion to keep records necessary to administer the procedures established under 49 C.F.R. § 192.605; and

(c) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure P1, by not allowing at least twelve inches or three pipe diameters, whichever is greater, between a fusion joint and a squeeze off.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, RGC represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of Twenty-one Thousand Five Hundred Dollars ($21,500), of which Five Thousand Dollars ($5,000) shall be paid contemporaneously with the entry of this Order. The remaining Sixteen Thousand Five Hundred Dollars ($16,500) shall be due as outlined in Undertaking Paragraph (6) herein, and may be suspended and subsequently vacated in whole or in part by the Commission, provided the Company timely takes the actions required by Undertaking Paragraphs (2) and (3) herein and tenders the requisite certification as required by Undertaking Paragraph (5) herein. The initial payment and any subsequent payments shall be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director, Division of Utility and Railroad Safety, State Corporation Commission, Post Office Box 1197, Richmond, Virginia 23218-1197.

(2) The Company shall take over the operation and maintenance of 2 gas master meter systems currently served by RGC.

(3) On or before December 31, 2010, the Company shall inspect all commercial meter sets to determine if they are adequately protected from accidental damage and correct any deficiencies found by the Company.

(4) The Company has complied fully with the terms and undertakings outlined in undertaking Paragraph (2) above. Documentation evidencing the Company's takeover of the operation and maintenance of 2 gas master meter systems that were served by RGC has been submitted to the Division.

(5) On or before December 31, 2010, RGC shall tender to the Clerk of the Commission, with a copy to the Division, an affidavit, executed by the President of Roanoke Gas Company, certifying that the Company completed the remedial actions set forth in Undertaking Paragraph (3) above.

(6) Upon timely receipt of the affidavit required by Undertaking Paragraph (5) above, the Commission may suspend and subsequently vacate up to Sixteen Thousand Five Hundred Dollars ($16,500) of the amount set forth in Undertaking Paragraph (1) above. Should RGC fail to tender the affidavit required by Undertaking Paragraph (5) above, or fail to take the actions required by Undertaking Paragraph (3) above, a payment of Sixteen Thousand Five Hundred Dollars ($16,500) shall become due and payable, and the Company shall immediately notify the Division of the reasons for RGC's failure to

accomplish the actions required by Undertaking Paragraph (3) above. If, upon investigation, the Division determines that the reason for said failure justifies a payment lower than Sixteen Thousand Five Hundred Dollars ($16,500), it may recommend to the Commission a reduction in the amount due. The Commission shall determine the amount due, and upon such determination, the Company shall immediately tender to the Commission said amount.

(7) Any amounts paid in accordance with Undertaking Paragraph (1) of this Order shall not be recovered in the Company's rates as part of RGC's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00204.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by RGC be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, RGC shall pay the amount of Twenty-one Thousand Five Hundred Dollars ($21,500), part of which may be suspended and subsequently vacated as provided in Undertaking Paragraph (1) of this Order.

(4) The sum of Five Thousand Dollars ($5,000) tendered contemporaneously with the entry of this Order is accepted. The remaining Sixteen Thousand Five Hundred Dollars ($16,500) is due as outlined herein and may be suspended and subsequently vacated, in whole or in part, provided the Company timely undertakes the actions required in Undertaking Paragraph (3) of this Order and files the timely certification of the remedial actions as required by Undertaking Paragraph (5) of this Order.

(5) The Commission shall retain jurisdiction over this matter for all purposes, and this case shall be continued pending further order of the Commission.

CASE NO. URS-2010-00205
AUGUST 20, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ATMOS ENERGY CORPORATION,
Defendant

ORDER OF SETTLEMENT

The federal pipeline safety statutes found at 49 U.S.C. § 60101 *et seq*. ("Act"), formerly the Natural Gas Pipeline Safety Act, require the Secretary of Transportation ("Secretary") to establish minimum federal safety standards for the transportation of gas and pipeline facilities. The Secretary is further authorized to delegate to an appropriate state agency the authority to prescribe safety standards and enforce compliance with such standards over gas pipeline facilities used for intrastate transportation.

The State Corporation Commission ("Commission") has been designated as the appropriate state agency for the Commonwealth of Virginia to prescribe and enforce compliance with standards for gas pipeline facilities used for intrastate transportation. In Case No. PUE-1989-00052, the Commission adopted Parts 191, 192, 193, and 199 of Title 49 of the Code of Federal Regulations to serve as minimum gas pipeline safety standards ("Safety Standards") in Virginia. The Commission is authorized to enforce the Safety Standards for natural gas facilities under § 56-257.2 B of the Code of Virginia, which allows the Commission to impose the fines and penalties authorized therein.

The Commission's Division of Utility and Railroad Safety ("Division") is charged with the investigation of each jurisdictional gas company's compliance with the Safety Standards, has conducted various inspections of records, construction, operation and maintenance activities involving Atmos Energy Corporation, ("Atmos" or "Company"), the Defendant, and alleges that:

(1) Atmos is a person within the meaning of § 56-257.2 B of the Code of Virginia; and

(2) The Company violated the Commission's Safety Standards by the following conduct:

(a) 49 C.F.R. § 192.605 (a) - Failing on one occasion to keep appropriate parts of the operations and maintenance manual at locations where operations and maintenance activities are conducted; and

(b) 49 C.F.R. § 192.605 (a) - Failing on one occasion to follow Company Procedure Chapter 4, by not allowing at least twelve inches or three pipe diameters, whichever is greater, between a fusion joint and a squeeze off.

The Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters arising from the allegations made against it, Atmos represents and undertakes that:

(1) The Company shall pay to the Commonwealth of Virginia the amount of Eighteen Thousand Dollars ($18,000), which shall be paid contemporaneously with the entry of this Order. The payment will be made by check, payable to the Treasurer of Virginia, and directed to the attention of the Director of the Division of Utility and Railroad Safety, Post Office Box 1197, Richmond, Virginia, 23218-1197.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of Atmos's cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, finding sufficient basis herein for the entry of this Order and in reliance on the Defendant's representations and undertakings set forth above, is of the opinion and finds that the offer of compromise and settlement set forth above should be accepted.

Accordingly, IT IS ORDERED THAT:

(1) The captioned case shall be docketed and assigned Case No. URS-2010-00205.

(2) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of compromise and settlement made by Atmos be, and it hereby is, accepted.

(3) Pursuant to § 56-257.2 B of the Code of Virginia, Atmos shall pay the amount of Eighteen Thousand Dollars ($18,000) in settlement hereof.

(4) The sum of Eighteen Thousand Dollars ($18,000) tendered contemporaneously with the entry of this Order is accepted.

(5) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00242
SEPTEMBER 14, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
JC ROMAN CONSTRUCTION COMPANY, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about June 4, 2010, JC Roman Construction Company, LLC ("Company"), damaged a two-inch plastic gas main line operated by Washington Gas Light Company, located at or near Arlington Boulevard and Fallswood Glen Court, Fairfax County, Virginia, while excavating;

(2) On or about July 12, 2010, the Company damaged a twelve-inch iron water main line operated by Virginia-American Water Company, located at or near Mill Road and Stovall Street, Alexandria, Virginia, while excavating;

(3) On the occasions set out in paragraphs (1) and (2) above, the Company failed to exercise due care at all times to protect underground utility lines, in violation of § 56-265.24 A of the Code;

(4) On the occasions set out in paragraphs (1) and (2) above, the Company failed to ensure sufficient clearance was maintained between the bore path and any underground utility lines during pullback, in violation of 20 VAC 5-309-150 4 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act;

(5) On the occasion set out in paragraph (1) above, the Company failed to expose all utility lines which would be in the bore path by hand digging to establish the underground utility line's location prior to commencing bore, in violation of 20 VAC 5-309-150 6 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act;

(6) On the occasion set out in paragraph (2) above, the Company failed to ensure the drill head locating device was functioning properly and within its specification, in violation of 20 VAC 5-309-150 7 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act; and

(7) On the occasion set out in paragraph (2) above, the Company failed to visually check the drill head as it passed through potholes, entrances, and exit pits, in violation of 20 VAC 5-309-150 8 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Ten Thousand Nine Hundred Dollars ($10,900) to be paid

contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Ten Thousand Nine Hundred Dollars ($10,900) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00248
SEPTEMBER 3, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between March 24, 2010, and June 18, 2010, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265-32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two (2) feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which include all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Seven Thousand Eight Hundred Dollars ($7,800) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Seven Thousand Eight Hundred Dollars ($7,800) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00251
SEPTEMBER 3, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about May 4, 2010, Jones Utility Construction damaged a one-half-inch copper gas service line stub operated by Washington Gas Light Company ("Company"), located at or near North Randolph Street and 9th Street, Arlington County, Virginia, while excavating;

(2) On or about June 10, 2010, Four Points Excavating, Inc., damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 14424 Eagle Island Court, Prince William County, Virginia, while excavating;

(3) On or about June 14, 2010, G & E Communications, Inc., damaged a two-inch plastic gas service line operated by the Company, located at or near 5722 General Washington Drive, Fairfax County, Virginia, while excavating;

(4) On or about June 17, 2010, NPL Construction Co. damaged a two-inch plastic gas service line operated by the Company, located at or near Gaillard Road and Kuhn Road, Fairfax County, Virginia, while excavating;

(5) On or about June 22, 2010, First Choice Communications Systems L.L.C. damaged a one-quarter-inch plastic gas service line operated by the Company, located at or near 4213 Hemingway Drive, Prince William County, Virginia, while excavating;

(6) On the occasions set out in paragraphs (1) through (5) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(7) On the occasion set out in paragraph (2) above, the Company failed to prepare and maintain reasonably accurate installation records of the underground utility lines, in violation of 20 VAC 5-309-160 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act;

(8) On or about May 13, 2010, Atlantic Construction Company LLC damaged a one-half-inch plastic gas service line operated by the Company, located at or near 817 North Woodrow Street, Arlington County, Virginia, while excavating;

(9) On or about June 9, 2010, Homeowners Discount Plumbing, Inc., damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 9561 Covington Place, Prince William County, Virginia, while excavating; and

(10) On the occasions set out in paragraphs (8) and (9) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Seven Thousand One Hundred Dollars ($7,100) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Seven Thousand One Hundred Dollars ($7,100) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00303
DECEMBER 28, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
ONE VISION UTILITY SERVICES, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between May 6, 2010, and July 27, 2010, listed in Attachment A, involving One Vision Utility Services, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Nine Thousand Nine Hundred Dollars ($9,900) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Nine Thousand Nine Hundred Dollars ($9,900) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00304
OCTOBER 7, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between June 15, 2010, and August 3, 2010, listed in Attachment A, involving Promark Utility Locators, Inc. ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Twelve Thousand Six Hundred Dollars ($12,600) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Twelve Thousand Six Hundred Dollars ($12,600) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00306
NOVEMBER 9, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
UTILIQUEST, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between July 1, 2010, and July 26, 2010, listed in Attachment A, involving Utiliquest, LLC ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Six Hundred Fifty Dollars ($5,650) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Six Hundred Fifty Dollars ($5,650) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00307
OCTOBER 21, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
VIRGINIA NATURAL GAS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about May 3, 2010, Gardner Electrical Corporation damaged a two-inch plastic gas main line operated by Virginia Natural Gas, Inc. ("Company"), located at or near 443 Kempsville Road, Norfolk, Virginia, while excavating;

(2) On or about June 21, 2010, Walter C. Via Enterprises, Inc., damaged a two-inch plastic gas main line operated by the Company, located at or near Maltby Avenue, Norfolk, Virginia, while excavating;

(3) On or about June 11, 2010, Chesapeake Bay Contractors, Inc., damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 4061 Indian River Road, Virginia Beach, Virginia, while excavating;

(4) On or about July 13, 2010, Ram Grading and Concrete, LLC, damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 8107 Redmon Road, Norfolk, Virginia, while excavating;

(5) On or about July 21, 2010, J. C. Driskill, Incorporated, damaged a one-and-one-quarter-inch plastic gas service line operated by the Company, located at or near 300 Jefferson Avenue, Newport News, Virginia, while excavating;

(6) On the occasions set out in paragraphs (1) through (5) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(7) On the occasions set out in paragraphs (3) through (5) above, the Company failed to prepare and maintain reasonably accurate installation records of the underground utility lines, in violation of 20 VAC 5-309-160 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act;

(8) On or about June 17, 2010, T & M Construction, Inc., damaged a one-half-inch plastic gas service line operated by the Company, located at or near 116 Darby Road, York County, Virginia, while excavating; and

(9) On the occasion set out in paragraph (8) above, the Company failed to mark the approximate horizontal location of the underground utility line on the ground to within two feet of either side of the underground utility line, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Nine Thousand One Hundred Fifty Dollars ($9,150) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Nine Thousand One Hundred Fifty Dollars ($9,150) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00308
NOVEMBER 16, 2010

STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq.* of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about July 20, 2010, Carlos J. Mendoza damaged a one-quarter-inch plastic gas service line operated by Washington Gas Light Company ("Company"), located at or near 4512 Arendale Square, Fairfax County, Virginia, while excavating;

(2) On or about August 12, 2010, Arlington County damaged a three-quarter-inch plastic gas service line operated by the Company, located at or near 2700 South Lang Street, Arlington County, Virginia, while excavating;

(3) On the occasions set out in paragraphs (1) and (2) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(4) On or about July 9, 2010, Dale Street Drillers damaged a two-inch plastic gas service line operated by the Company, located at or near 6909 Metro Park Drive, Fairfax County, Virginia, while excavating;

(5) On or about July 16, 2010, J. G. Miller, Inc., damaged a two-inch plastic gas service line operated by the Company, located at or near 3200 Westley Road, Fairfax County, Virginia, while excavating; and

(6) On the occasions set out in paragraphs (4) and (5) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Dollars ($5,000) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Dollars ($5,000) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00312
NOVEMBER 15, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
JC ROMAN CONSTRUCTION COMPANY, LLC,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about September 23, 2010, JC Roman Construction Company, LLC ("Company"), excavated at or near Sullyfield Drive and Brookfield Corporate Drive, Fairfax County, Virginia;

(2) On the occasion set out in paragraph (1) above, the Company failed to exercise due care at all times to protect underground utility lines, in violation of § 56-265.24 A of the Code;

(3) On the occasion set out in paragraph (1) above, the Company failed to provide notice to the notification center (Miss Utility) with proper information, in violation of § 56-265.18 of the Code;

(4) On the occasion set out in paragraph (1) above, the Company failed to ensure sufficient clearance was maintained between the bore path and any underground utility lines during pullback, in violation of 20 VAC 5-309-150 4 of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act ("Rules");

(5) On the occasion set out in paragraph (1) above, the Company failed to expose all utility lines which would be in the bore path by hand digging to establish the underground utility line's location prior to commencing bore, in violation of 20 VAC 5-309-150 6 of the Rules; and

(6) On the occasion set out in paragraph (1) above, the Company failed to visually check the drill head as it passed through potholes, entrances, and exit pits, in violation of 20 VAC 5-309-150 8 of the Rules.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Six Thousand Five Hundred Fifty Dollars ($6,550) to be paid contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Six Thousand Five Hundred Fifty Dollars ($6,550) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00341
NOVEMBER 23, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act ("Act"), § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), charged with the investigation of probable violations of the Act, has completed investigations of certain incidents that occurred between June 9, 2010, and September 2, 2010, listed in Attachment A, involving Promark Utility Locators, Inc. ("Company"), the Defendant, and alleges that:

(1) The Company is a contract locator as that term is defined in § 56-265.15 of the Code and, as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code; and

(2) During the aforementioned period, the Company violated the Act by the following conduct:

(a) Failing on certain occasions to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines in violation of § 56-265.19 A of the Code.

(b) Failing on certain occasions to mark the underground utility lines within the time prescribed in the Act in violation of § 56-265.19 A of the Code.

(c) Failing on certain occasions to use all information necessary to mark their facilities accurately in violation of 20 VAC 5-309-110 M of the Commission's Rules for Enforcement of the Underground Utility Damage Prevention Act.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, which includes all probable violations presented to the Underground Utility Damage Prevention Advisory Committee, and set out in Attachment A hereto, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Thirteen Thousand Six Hundred Dollars ($13,600) to be paid contemporaneously with the entry of this Order. This payment will be made by cashier's check or money order, payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Thirteen Thousand Six Hundred Dollars ($13,600) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00383
DECEMBER 15, 2010

COMMONWEALTH OF VIRGINIA, *ex rel.*
STATE CORPORATION COMMISSION
v.
PROMARK UTILITY LOCATORS, INC.,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) Promark Utility Locators, Inc. ("Company"), is a contract locator as that term is defined in § 56-265.15 of the Code, and as a contract locator acting on behalf of an operator, if the Company fails to perform the duties imposed by Chapter 10.3 of Title 56 of the Code, it is subject to the civil penalties set out in § 56-265.32 of the Code pursuant to § 56-265.19 D of the Code;

(2) On or about July 14, 2010, Piedmont Concrete Contractors, Inc., damaged a two-inch plastic gas main line operated by Roanoke Gas Company, located at or near 2609 Bandy Road, S.E., Roanoke County, Virginia, while excavating;

(3) On or about August 9, 2010, the Town of Vinton damaged a two-inch plastic gas main line operated by Roanoke Gas Company, located at or near Bush Drive at Fairmont Drive, Roanoke County, Virginia, while excavating;

(4) On the occasions set out in paragraphs (2) and (3) above, the Company failed to mark the approximate horizontal location of the underground utility lines on the ground to within two feet of either side of the underground utility lines, in violation of § 56-265.19 A of the Code;

(5) On or about August 4, 2010, Classic City Mechanical, Inc., damaged a one-inch plastic gas service line operated by Columbia Gas of Virginia, Inc., located at or near 1810 Taylor Street, Lynchburg, Virginia, while excavating;

(6) On or about September 8, 2010, the City of Salem damaged a one-half-inch plastic gas service line operated by Roanoke Gas Company, located at or near 428 Goodwin Avenue, Roanoke County, Virginia, while excavating; and

(7) On the occasions set out in paragraphs (5) and (6) above, the Company failed to mark the underground utility line by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As a proposal to settle all matters before the Commission arising from the Division's allegations herein, the Company represents and undertakes that it will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand Eight Hundred Dollars ($5,800) to be paid contemporaneously with the entry of this Order. The payment will be made by cashier's check or money order payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

NOW THE COMMISSION, being advised by the Division and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted to the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand Eight Hundred Dollars ($5,800) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is hereby dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

CASE NO. URS-2010-00386
DECEMBER 20, 2010

COMMONWEALTH OF VIRGINIA, *ex rel*.
STATE CORPORATION COMMISSION
v.
WASHINGTON GAS LIGHT COMPANY,
Defendant

ORDER OF SETTLEMENT

Pursuant to § 56-265.30 of the Code of Virginia ("Code"), the State Corporation Commission ("Commission") is charged with enforcing the provisions of the Underground Utility Damage Prevention Act, § 56-265.14 *et seq*. of the Code. The Commission's Division of Utility and Railroad Safety ("Division"), after having conducted an investigation of this matter, alleges that:

(1) On or about September 2, 2010, WCC Cable, Inc., damaged a one-quarter-inch plastic gas service line operated by Washington Gas Light Company ("Company"), located at or near 8710 Parry Lane, Fairfax County, Virginia, while excavating;

(2) On or about September 2, 2010, Arlington County damaged a three-quarter-inch steel gas service stub operated by the Company, located at or near 1511 28th Street South, Arlington County, Virginia, while excavating;

(3) On or about September 9, 2010, Fairfax Excavation & Paving Company, Inc., damaged a one-quarter-inch plastic gas service line operated by the Company, located at or near 14828 Cranoke Street, Fairfax County, Virginia, while excavating;

(4) On the occasions set out in paragraphs (1) through (3) above, the Company failed to mark the underground utility lines by no later than 7:00 a.m. on the third working day following the excavator's notice to the notification center, in violation of § 56-265.19 A of the Code;

(5) On or about September 2, 2010, Michael & Son Services, Inc., damaged a three-quarter-inch steel gas service line operated by the Company, located at or near 4816 Kingston Drive, Fairfax County, Virginia, while excavating; and

(6) On the occasion set out in paragraph (5) above, the Company failed to mark the approximate horizontal location of the underground utility line on the ground to within two feet of either side of the underground utility line, in violation of § 56-265.19 A of the Code.

As evidenced in the attached Admission and Consent document, the Company neither admits nor denies these allegations but admits the Commission's jurisdiction and authority to enter this Order.

As an offer to settle all matters before the Commission arising from the Division's allegations made herein, the Company represents and undertakes that:

(1) The Company will pay a civil penalty to the Commonwealth of Virginia in the amount of Five Thousand One Hundred Dollars ($5,100) to be paid contemporaneously with the entry of this Order. This payment will be made by check payable to the Treasurer of Virginia and directed to the attention of the Director of the Division of Utility and Railroad Safety.

(2) Any amounts paid in accordance with this Order shall not be recovered in the Company's rates as part of the cost of service. Any such amounts shall be booked in Uniform System of Account No. 426.3. The Company shall verify its booking by filing a copy of the journal entries made to record such amounts with the Commission's Division of Public Utility Accounting.

NOW THE COMMISSION, being advised by the Staff and finding sufficient basis herein for the entry of this Order, hereby accepts this settlement.

Accordingly, IT IS ORDERED THAT:

(1) Pursuant to the authority granted the Commission by § 12.1-15 of the Code of Virginia, the offer of settlement made by the Company is hereby accepted.

(2) The sum of Five Thousand One Hundred Dollars ($5,100) tendered contemporaneously with the entry of this Order is accepted.

(3) This case is dismissed, and the papers filed herein shall be placed in the Commission's file for ended causes.

COMPARISON OF ASSESSMENT OF PUBLIC SERVICE COMPANIES FOR THE YEARS 2009 AND 2010

	Value of all Taxable Property Including Rolling Stock		
Class of Company	2009	2010	Increase or (Decrease)
Electric Light & Power Corporations	$21,821,175,593	$23,697,876,855	$1,876,701,262
Gas Corporations	1,753,520,159	1,814,804,166	61,284,007
Motor Vehicle Carriers (Rolling Stock only)	42,325,303	42,875,902	550,599
Telecommunications Companies	9,202,122,280	9,463,059,277	260,936,997
Water Corporations	179,996,759	212,119,171	32,122,412
TOTAL	$32,999,140,094	$35,230,735,371	$2,231,595,277

COMPARISON OF ASSESSMENT OF STATE TAXES OF PUBLIC SERVICE COMPANIES FOR THE YEARS 2009 AND 2010

	The Yearly License Tax		Increase or
Class of Company	2009	2010	(Decrease)
Electric Light & Power Corporations	$0	$0	$0
Gas Corporations	0	0	0
Water Corporations	1,557,137	1,768,413	$211,276
TOTAL	$1,557,137	$1,768,413.00	$211,276

Note: STATE TAXES ABOVE EXCLUDE License Tax for 2009 and 2010 on Electric and Gas companies. As a result of deregulation, these companies now pay a net corporate income tax and a consumption tax.

COMPARISON OF ASSESSMENT OF ADDITIONAL ANNUAL STATE TAX FOR VALUATION AND RATE MAKING OF CERTAIN CLASSES OF UTILITY COMPANIES FOR THE YEARS 2009 AND 2010

Class of Company	2009	2010	Increase or (Decrease)
Electric Light & Power Corporations	$0	$0	$0
Gas Corporations	0	0	0
Motor Vehicle Carriers	33,032	29,673	(3,359)
Railroad Companies	1,546,633	1,180,803	(365,830)
Telecommunications Companies	6,181,156	6,066,985	(114,171)
Virginia Pilots Association	22,196	20,341	($1,855)
Water Corporations	77,857	88,420	10,563
TOTAL	$7,860,874	$7,386,222	($474,652)

Railroad Companies assessed at seven-hundredths of one percent and all other companies at one-tenth of one percent.

Note: STATE TAXES ABOVE EXCLUDE Special Tax for 2009 and 2010 on Electric and Gas companies. As a result of deregulation, these companies now pay a net corporate income tax and a consumption tax.

Affiliates Act and Utility Transfers Act:

During the year 2010, Division of Public Utility Accounting received applications filed under the Public Utilities Affiliates Act and the Utility Transfers Act pertaining to public utilities for processing, analysis, and study. The number and type of written reports submitted to the Commission recommending action and orders drawn are as follows:

Number of Utility Transfers Act Cases:	
Transfer of Assets	6
Transfer of securities or control	20
Number of Affiliate Cases:	
Service Agreements	6
Asset Transfers	2
Tax Allocation Agreements	1
Lease Agreements	2
Gas Purchases	1
Exemptions	1
Total Number of Cases	39

The average number of days to process applications and issue orders for applications filed under the Affiliates Act and the Utility Transfers Act for cases without hearings was as follows:

Electric	124
Gas	68
Water and Sewer	88
Telecommunications	54

One electric case went to hearing, which took 241 days to process (including hearing and issuance of an order).

The Commission's Division of Public Utility Accounting consisted of the following personnel on December 31, 2010:

Filled	Vacant	Description
	1	Director
2		Deputy Directors
4		Manager of Audits
1		Systems Supervisor
1		Administrative Supervisor
1		Senior Office Technician
3		Principal Public Utility Accountants
3		Senior Public Utility Accountant
7		Public Utility Accountants
22	1	Total Authorized: 23

DIVISION OF COMMUNICATIONS

The Division of Communications assists the Commission in carrying out its duties as prescribed by the Code of Virginia. It oversees the continued implementation of competition in landline telecommunications markets with the goal of achieving an effective regulatory environment that balances the advancement of competition with the protection of consumers. The Division assists the Commission in developing, implementing, and enforcing alternatives to traditional forms of regulation as competition evolves. It monitors, enforces, and makes interpretations on certain rates, tariffs, and operating procedures of investor-owned telecommunications utilities. The Division enforces service standards, assures compliance with tariff regulations, coordinates extended area service studies, enforces pay telephone regulations, and assists in carrying out provisions of the Federal Telecommunications Act of 1996. The Staff testifies in rate, service, and generic hearings, and meets with the public on communications issues and problems. The Division maintains territorial maps, performs special studies, monitors construction programs, and investigates and resolves consumer inquiries and complaints. The Staff also monitors developments at the federal level, and prepares Commission responses where appropriate.

At the end of 2010, there were subject to the regulatory oversight of the Division:

14	Incumbent Investor-Owned Local Exchange Telephone Companies
155	Competitive Local Exchange Telephone Companies
106	Long Distance Telephone Companies
126	Payphone Service Providers
10	Operator Service Providers for Payphones

SUMMARY OF 2010 ACTIVITIES

Consumer Complaints Investigated:	5,400
Wireline Complaints	5,145
Wireless Complaints	255
Total Consumer Credit Adjustments:	$679,617
Wireline Credit Adjustments	$633,438
Wireless Credit Adjustments	$46,179
Service Quality Oversight:	
Network Access Lines (reported as of June 30, 2010)	4,082,299
Tariff revisions received:	
Incumbent Local Exchange Companies	89
Competitive Local Exchange Companies	104
Interexchange Companies	60
Tariff sheets filed:	
Incumbent Local Exchange Companies	583
Competitive Local Exchange Companies	3,158
Interexchange Companies	471
Promotional Filings:	
Incumbent Local Exchange Companies	61
Competitive Local Exchange Companies	68
Interexchange Companies	15
Cases in which staff members prepared testimony, reports, or comments	42
Certificates of Convenience and Necessity:	
Competitive Local Exchange Companies	
Granted	9
Amended	3

Canceled	8
Interexchange Companies	
Granted	7
Amended	1
Canceled	5
Interconnection Agreements or Amendments approved or dismissed	100
Competitive Market Test Filings	4
Payphone registration and rules enforcement provided on:	
Local Exchange Company payphone service providers	10
Local Exchange Company payphones	8,036
Private payphone service providers	126
Private payphones	4,893
Payphone audits	566
General Network/Infrastructure Field Reviews	32

OTHER:

Assisted the Commission in the continued implementation and operation of the Federal Telecommunications Act of 1996.
Continued the Collaborative Committee on local competition market-opening measures.
Monitored Verizon Virginia's Performance Assurance Plan.
Assisted Commission counsel with respect to formal rate, service, and generic matters.
Participated in matters affecting communications policy with federal agencies.
Pursued various activities relating to the Commission's alternative plans for regulating telephone companies.
Continued outreach activities by making presentations to trade, associations, and telephone companies.
Represented the Commission during the General Assembly session on matters relating to telecommunications legislation.
Responded to questionnaires and inquiries from the National Association of Regulatory Utility Commissioners ("NARUC") and others with respect to telecommunications matters.
Conducted operational reviews with facilities-based telecommunications providers.
Managed Virginia's telephone number utilization program.
Monitored Virginia Universal Service Plan Participation.
Staff member serves on the NARUC Staff Subcommittee on Communications.
Staff member serves on the NARUC Staff Subcommittee on Consumer Affairs.

DIVISION OF ECONOMICS AND FINANCE

The Division of Economics and Finance performs analysis and research on economic and financial issues pertaining to utility regulation. The Division also provides analytical and research support as needed by non-utility divisions within the Commission.

The Division has ongoing responsibility for:
- issuing monthly Fuel Price Index reports;
- maintaining and issuing monthly reports for the electric utility Fuel Monitoring System;
- issuing quarterly Natural Gas Price Index reports;
- analyzing and presenting testimony on capital structure, cost of capital, and other finance-related issues in utility rate cases;
- analyzing and presenting testimony on interest expense, appropriate earnings level and other finance-related issues in electric cooperative rate cases;
- monitoring the financial condition of Virginia utilities;
- monitoring the diversification activities of holding companies with utility subsidiaries operating in Virginia;
- reviewing annual financing plans of Virginia utilities;
- analyzing utility applications for the issuance of securities and providing the Commission with recommendations;
- conducting studies of intermediate/long range issues in electric, gas and telecommunications utility regulations;
- acquiring and running analytic computer models used to simulate, project, and/or evaluate utility operations and regulatory issues;
- monitoring intrastate telecommunications competition;
- monitoring certain incumbent local exchange companies participating in Plans for Alternative Regulation.
- collecting and maintaining reporting statistics required by Commission Rules for new entrants and certain ILECs in the telecommunications market;
- analyzing financial fitness of applicants seeking status as competitive local exchange and interexchange carriers, and municipal local exchange carriers;
- monitoring and maintaining files of electric utilities' Integrated Resource Plans;
- monitoring and maintaining files of gas utilities' Five Year Forecasts;
- providing statistical and graphic support for other SCC divisions;
- maintaining database management systems for preparation of economic and financial analysis in utility cases;
- maintaining a utility stock price database;
- maintaining an electric energy market price database;
- monitoring electric and natural gas retail access programs statewide and nationally;
- monitoring energy markets, including market power issues;
- monitoring and participating in Virginia's membership within the regional transmission organization known as PJM Interconnection, LLC
- analyzing applications for licenses to become a competitive service provider or aggregator;
- analyzing energy efficiency and customer demand-response programs and associated trends;
- analyzing effects of electricity generation from renewable resources; and
- analyzing financial fitness and need for construction of generating facilities, transmission lines or natural gas pipelines.

SUMMARY OF MAJOR ACTIVITIES DURING 2010

- Presented testimony on capital structure, cost of capital and other financial issues in eight investor-owned utility rate cases.
- Presented testimony on the appropriate level of interest expense and earnings in three electric cooperative rate cases.
- Presented testimony on the merits of four permissible rate rider adjustments for two investor-owned electric utilities.
- Completed six Annual Informational Filing reports for electric, gas, telephone and water utilities.

- Analyzed and processed 27 applications of utilities seeking authority to issue securities and prepared testimony in one such application.
- Processed the applications of and/or prepared reports regarding the financial condition of 15 competitive local exchange carriers and/or interexchange carriers.
- Prepared reports on three applications for a certificate to construct new electric generation or transmission facilities.
- Prepared testimony for four electric fuel factor proceedings.
- Prepared testimony for four natural gas proceedings regarding conservation and ratemaking efficiency plan, including a decoupling mechanism.
- Prepared reports regarding fourteen applications for electric utilities and cooperatives regarding a voluntary renewable portfolio standards program or renewable energy certificates.
- Reviewed and prepared a report for three electric utilities and five curtailable service providers regarding demand-side management, energy efficiency and demand response programs.
- Reviewed and began to prepare a report for two utilities regarding dynamic pricing pilot programs.
- Processed the applications of and prepared reports regarding the financial condition of nine companies seeking licensure as aggregators and/or competitive service providers.
- Reviewed and prepared a report for three utilities regarding waivers of certain Retail Access Rules.
- Reviewed and prepared a report for one electric utility and the electric cooperatives regarding abandonment of competitive bidding rules.
- Reviewed and prepared a report for one utility to revise cogeneration rates.
- Reviewed and began to prepare a report regarding a declaratory judgment of ownership of renewable energy certificates resulting from generation produced by non-utility generators using renewable resources.
- Developed and maintained various econometric models that help explain price movements in the PJM Interconnection.
- Developed rules regarding interconnection standards for distributed generation facilities.
- Supported and monitored activities regarding the continued development of Regional Transmission Organizations (PJM Interconnection, LLC) and associated participation of Virginia electric utilities.
- Monitored activities of the North American Energy Standards Board, encompassing wholesale and retail electricity and natural gas sectors, including smart grid initiatives.
- Developed the Status Report to the Commission on Electric Utility Regulation and Governor of Virginia regarding the Implementation of the Virginia Electric Utility Regulation Act pursuant to § 56-596 B of the Code of Virginia.
- Assisted development of a Consumer Education Plan, Virginia Energy Sense, regarding energy efficiency, energy conservation, demand-side management, demand response and renewable energy pursuant to §§ 56-592 and 56-592.1 of the Code of Virginia.
- Amended regulations governing net energy metering.
- Reviewed data from four investor-owned utilities regarding electric utility integrated resource plans.
- Developed a forecast of the consumption tax collected on electricity usage for Public Service Taxation.
- Developed a forecast of the consumption tax collected on natural gas usage for Public Service Taxation.
- Developed a forecast of budget items for Bureau of Insurance.
- Developed a forecast of the valuation fund for the Offices of Commission Comptroller and Public Service Taxation.
- Maintained a comprehensive database on competitive energy service providers.
- Participated in the Staff's analysis and report regarding Verizon VA's application for expansion of the competitive determination and deregulation of retail services throughout its incumbent territory.

DIVISION OF ENERGY REGULATION

Activities for Calendar Year 2010

The Division of Energy Regulation assists the Commission in fulfilling its statutory responsibilities pursuant to Title 56, Chapter 10 of the Code of Virginia. Activities include reviewing investor-owned electric, natural gas and water/sewer utilities' cost of service studies; reviewing allocation methods, depreciation rates and rate design philosophies; and providing expert testimony in that regard.

The Division provides expert testimony in certificate cases for service areas and major facility construction of public utilities and independent power producers. After such certificates are granted, the Division is responsible for maintaining the official certificates and associated maps.

The Division has monitoring responsibilities relative to: the collection of gas costs by gas utilities, the incurrence of wholesale purchased power expenses by electric cooperatives, and the recovery of fuel expenses and the construction and operation of major facilities by the investor-owned utilities. It also reviews extraordinary costs and policies related to nuclear power, including decommissioning of nuclear power plants and the storage of spent nuclear fuel.

The Division investigates and resolves informal consumer complaints/inquiries relative to regulated utilities and licensed electricity and natural gas suppliers.

Finally, it provides the Commission with technical expertise in regulatory policy related issues including both state and national proceedings associated with industry restructuring and mergers and acquisitions of natural gas and electric utilities.

Summary of Activities for Calendar Year 2010

Consumer Complaints and Inquiries Received	4,054
Written Public Comments Relative to Commission Cases Received	33,727
Testimony and Reports Filed by Staff	57

Meter Tests Witnessed	3
Community Meetings and Presentations	2

BUREAU OF FINANCIAL INSTITUTIONS

The Bureau of Financial Institutions is responsible under Title 6.2 of the Code of Virginia for the regulation and supervision of the following types of institutions: state chartered banks, independent trust companies, state chartered savings institutions, state chartered credit unions, industrial loan associations, consumer finance licensees, money transmitter licensees, mortgage lenders and brokers, mortgage loan originators, credit counseling agencies, check cashers, motor vehicle title lenders, and payday lenders. Financial institutions domiciled outside of Virginia that have deposit taking subsidiaries within the Commonwealth are also subject to the Bureau regulatory authority, as are out-of-state deposit taking subsidiaries of financial holding companies domiciled in Virginia.

During the calendar year, the Bureau of Financial Institutions received, investigated, and processed 7,066 applications for various certificates of authority as shown below:

BUREAU OF INSURANCE
ACTIVITIES FOR THE FISCAL YEAR ENDING JUNE 30, 2010

The regulation of insurance was transferred to the State Corporation Commission from the Auditor of Public Accounts in 1906. The Bureau of Insurance (Bureau) has licensed and examined the affairs of insurance companies since that time. Here in the Commonwealth of Virginia, the functions of the Bureau have increased with the complexity and importance of insurance in our daily lives. In keeping with the Commission's mission, Bureau staff strives to balance the interests of insurance consumers with its duty to regulate Virginia's business responsibility.

The Bureau of Insurance is divided into the following four divisions: The Financial Regulation Division licenses, analyzes, and examines insurance companies and, if necessary, takes steps to resolve financial problems before a company becomes unable to meet its obligations; the Life and Health Market Regulation Division regulates the activities of life, and accident and sickness insurers, health service plans and health maintenance organizations; the Property and Casualty Market Regulation Division regulates the activities of property and casualty insurers (automobile and homeowners); and the Agent Regulation and Administration Division regulates the activities of insurance agents, collects various special taxes and assessments on insurance companies and works in an auxiliary role in support of the Bureau's other divisions.

The regulatory functions of the Bureau of Insurance include: (1) Agent Investigations staff monitor the activities of insurance agents and agencies to ensure their actions comply with state law; (2) Consumer Services staff answer questions and assist consumers with problems concerning insurance companies or agents by investigating consumer complaints; (3) Market Regulation staff conduct on-site field examinations of insurance company practices in Virginia to ensure compliance with state law, to verify whether a company pays claims timely, to ensure that underwriting decisions are not unfairly discriminatory, and to evaluate marketing materials to ensure that they are not misleading; (4) the Office of the Managed Care Ombudsman promotes and protects the interests of covered persons under managed care health insurance plans (MCHIP) and assists consumers in understanding and exercising their rights of appeal of adverse decisions made by MCHIPs; and (5) Policy Forms and Rates Filing staff evaluate insurance policies and rates to ensure compliance with state law, that policies are written in understandable language, and that premiums charged are reasonable and not unfairly discriminatory.

SUMMARY OF 2010 ACTIVITIES

New insurance companies licensed to do business in Virginia	30
Insurance company financial statements analyzed	1,234
Financial examinations of insurance companies conducted	26
Property and Casualty insurance rules, rates and form submissions	4,449

8,975	examination pending

UNIFORM COMMERCIAL CODE

The Clerk's Office is the central filing office in the Commonwealth for financing statements, amendments, assignments and terminations filed under the Uniform Commercial Code – Secured Transactions. The Clerk's Office is the filing office in the Commonwealth for notices and certificates applicable to the personal property of corporations and partnerships filed under the Uniform Federal Lien Registration Act.

SUMMARY OF CALENDAR YEAR ACTIVITIES

	12/31/09	12/31/10
Financing/Subsequent Statements Filed	65,288	65,693
Federal Tax Liens/Subsequent Liens Filed	4,565	7,495
Reels of Microfilmed documents sold	392	404

DIVISION OF UTILITY AND RAILROAD SAFETY

The Division of Utility and Railroad Safety assists the Commission in administering three safety programs: Gas and Hazardous Liquid Pipeline Safety, Railroad Safety and Underground Utility Damage Prevention.

The Pipeline Safety Section of the Division helps ensure the safe operation of gas and hazardous liquid pipeline facilities, through inspections of facilities and new constructions, review of safety records, and investigation of incidents. In 2010, the Division's pipeline safety activities involved 9 natural gas companies, with a total of 20,414 miles of pipelines serving 1,175,675 customers, 130 master-metered operators, 33 propane systems and 4 hazardous liquid pipeline companies with a total of 897 miles of pipelines.

Summary of 2010 Activities

Gas Safety Inspection Man-days Conducted	745
Hazardous Liquid Safety Inspection Man-days Conducted	82
Number of Counts of Probable Violations Cited	659
Pipeline Accidents Investigated	25
Pipeline Safety Trainings Conducted	28
Testimony and Reports Prepared	2

The Rail Safety Section of the Division helps ensure the safe operation of jurisdictional railroads by conducting inspections of tracks and motive power and equipment and investigations of certain accidents. The Division's inspections involve more than 3,600 miles of track and thousands of cars and locomotives.

Summary of 2010 Activities

Number of Track Units[1] Inspected	5,093
Number of Locomotive and Car Units[2] Inspected	16,374
Number of Operating Practice Units[3] Inspected	1,387
Number of Defects Noted	6,070
Number of Violations Cited	91
Number of Accidents Investigated	184
Number of Complaints Investigated	81

The Damage Prevention Section of the Division investigates all reports of "probable violations" of the Underground Utility Damage Prevention Act ("Act") and on a monthly basis presents its findings and recommendations to an Advisory Committee appointed in accordance with the Act. This Committee then makes enforcement recommendations to the Commission. The Division provides free training relative to the Act and safe digging practices to excavators, utilities and others, conducts public education campaigns and promotes partnership among the stakeholders to further underground utility damage prevention in Virginia.

[1] Each mile of track, record, crossing at grade, among other things, is considered a track unit.

[2] Each locomotive, car, motive power equipment record, among other things, is considered a unit.

[3] Each location where operations are or may occur such as switchyards, field offices, yard offices, trains, yard crew locations and dispatching are considered an operating practice unit.

Summary of 2010 Activities

Underground Utility Damage Reports Investigated	1,333
Number of Individuals Having Received Damage Prevention Training	3,480
Number of Damage Prevention Educational Material Disseminated	75,890
Number of Damage Prevention Field Audits Conducted	654
