RE: Prince William Energy LLC
Landfill Gas-to-Energy Facility Expansion

Dear Mr. Stephens:

By way of this letter, we wish to inform the State Corporation Commission (SCC) of Prince William Energy LLC's ("PWE") intent to install a landfill gas-to-energy facility with a rating of 3.2 MW of capacity. PWE is a subsidiary of Fortistar Methane Group ("Fortistar"). Another subsidiary of Fortistar, MM Prince William Energy LLC, owns and operates an existing 1.9-MW facility at the same landfill. The existing facility has been operational since 1999. Pursuant to 20 VAC5-302-10, this letter provides written notification of the location, size, and fuel type of the proposed facility.

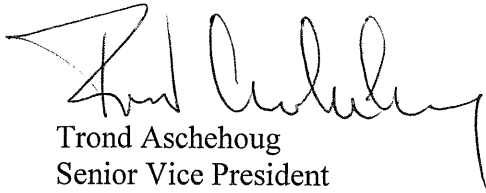

- Location - Prince William County Sanitary Landfill
14811 Dumfries Road
Manassas, Virginia 20112
- Size - 3.2-MW of new capacity consisting of two new reciprocating engines/gensets (Caterpillar G3520C)
- Fuel type - Landfill gas derived from the operating municipal solid waste landfill owned and operated by Prince William County

The facility will comply with all other requirements of Federal, state, and local law.

William F. Stephens

This notification is submitted due to the size of the facility being <5MW capacity in accordance with the cited regulation. If you require additional information, please contact Kevin Bonzo of my staff at (330) 331-7196.

Sincerely,

Trond Aschehoug
Senior Vice President
