

Renewable Energy Pilot Program Capacity Management Summary

| | Solar | Wind | Total |
|--|----------------|------|----------|
| Intended Generation Capacity (kW) | 967.40 | 0.00 | 967.40 |
| Installed Generation Capacity (kW) | 1,188.25 | 0.00 | 1,188.25 |
| Projected Average Installation Cost (\$/W) | See Note Below | | |
| Actual Average Installation Cost (\$/W) | See Note Below | | |
| Average Duration of Third Party Purchase Agreements | 20 Years | N/A | |
| Number of Owner-Operators | 1 | N/A | |
| Number of Customer-Generators | 8 | N/A | |
| Location | Various | N/A | |

Note:

As there is only one vendor participating to date, any aggregate average price would only reflect that vendor's price, and thus would violate its confidentiality.
